MC 117883 (Sub-276)X, filed February 26, 1981. Applicant: SUBLER TRANSFER, INC., One Vista Drive, P.O. Box 62, Versailles, OH 45380. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-Nos. 26, 87, 106, 119, 177, 196, 198, 211, and 222 certificates, and E-54, E-55, E-57, and E-77 Letter Notices to (1) broaden the commodity descriptions to "food and related products" from its authority to handle specified commodities such as bananas, frozen foods, food and food products, foodstuffs, dairy products as defined in section B of Appendix I to the report in *Descriptions in Motor Carriers Certificates*, 61 M.C.C. 209 and 766, and similar commodity descriptions; (2) expand territorial descriptions from facilities or point authorities to city-wide or county-wide authority (a) New York, NY; Baltimore, MD; and Wake, Pitt and Pasquotank Counties, NC for port facilities in New York, NY and NJ and in New York, NY commerical zone, as defined by the Commission, port facilities in Baltimore, MD, and Raleigh, Greenville, and Elizabeth City, NC, in Sub 26; (b) Essex, Middlesex, Norfolk, Suffolk, Bristol, Plymouth and Worcester Counties, MA, for facilities in those counties, in Sub 87; (c) Nassau County, NY for a specific portion of the Nassau County, NY, in Sub 106; (d) Chester County, PA, for Kennett Square, Kelton, and Avondale, PA in Sub 119; (e) Allegheny County, PA for Crafton, PA, in Sub 196; (3) broaden the territorial description from one-way authority to radial authority: (a) between Philadelphia, PA and Chicago, IL, Detroit, MI and Richmond, VA; between New York, NY and Wake, Pitt, and Pasquotank Counties, NC; and between New York, NY and Baltimore, MD, and St. Louis, MO, WI, MI, IL, IN, OH, KY, VA, WV, PA, DE, MD, DC, NY (except Westchester and Nassau Counties) and NJ (except Passaic, Union, Middlesex, Hudson, Essex and Bergen Counties), in Sub 26; (b) between Essex, Middlesex, Norfolk, Suffolk, Bristol, Plymouth, and Worcester Counties, MA, and DE, IN, IL, IA, KS, KY, MD, MI, MN, MO, NE, OH, VA, WV, WI, DC, and points in NY and PA on and west of Interstate Highway 81, in Sub 87; (c) between New York, NY, Nassau County, NY and Bergen, Essex, Hudson, Passaic, and Union Counties, NJ, and points in IL, IN, IA, KS, KY, MI, MN, MO, NE, OH, WI, WV, and PA on and west of the U.S. Highway 15, in Sub 106; (d) between Philadelphia, PA and Wilmington, DE, and points in IL, IN, IA, MN, MO, KY, MI, OH, and WI; and between Chester County, PA and points in IL, IN, IA, KY, KS, MI, MN, MO, NE, OH, and WI, in Sub 119; (e) between OH and Kenton County, KY and points in twenty-four states and DC in Sub 177; (f) between St. Louis, MO, and, points in fourteen states and DC, and Boone, Campbell and Kenton Counties, KY, in Sub 196; (g) between Allegheny, Butler, Lawrence, Mercer, and Washington Counties, PA, and points in twenty-three states and DC and in Sub 196; (h) between Newport News, VA, and points in fourteen states and DC and Sub 211; (i) between the Lower Pennisula of Michigan and points in twenty-four states and DC in Sub 222; (j) between RI and points in ten states in E-54; (k) between CT and points in ten states in E-55; (l) between MA and points in nine states and OH on and south of U.S. Highway 322 in E-57; and (m) between NJ and points in IL, WI, MN, IA, MO, NE, and KS in E-77; and (4) remove the restriction (a) against transportation of shipments in bulk in Subs 106, 119, 177, 196, 198, 222 and E-54, E-57, and E-77; (b) against the transportation of sugar to IN in Subs 106, 119, and E-54, and E-55; (c) requiring transportation to be conducted in mechanically refrigerated equipment in Sub 196 and E-54, E-55, E-57, and E-77; (d) requiring movement to be conducted in ocean containers and that shipments have a prior movement by water, in Sub 211; and (e) eliminate the "originating at and destined to"

restriction in Subs 119, 177, 186, 196, and 222.

MC 121470 (Sub-79)X, filed February 23, 1981. Applicant: TANKSLEY TRANSFER CO., 801 Cowan Street, Nashville, TN 37207. Representative: John M. Nader, 1000 Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions in its Sub-Nos. 14F and 69F certificates to (1) broaden the commodity description to "metal products" from zinc, zinc alloys, and zinc products, and equipment, machinery materials and supplies (except in bulk), in Sub-No. 14F; and to "metal products and machinery" from heat exchangers, heat equalizers, heating, cooling, conditioning, humidifying dehumidifying, and gas, and liquid moving equipment, and materials equipment, and supplies used in the manufacture and distribution of said commodities (except commodities in bulk), in Sub-No. 69F, (2) remove restriction to traffic originating at or destined to named origins and named destinations except traffic moving in foreign commerce, in Sub-No. 14F and (3) broaden the territorial application by replacing one way authority with radial authority, in Sub-No. 14F between Montgomery County, TN and points in the U.S. in and east of ND, SD, NE, KS, OK and TX and in Sub-No. 69F between Fayette County, KY and points in the U.S. in and east of ND, SD, NE, KS, OK and TX.

MC 121496 (Sub-No. 62)X, filed February 25, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub 9F certificate, to (1) broaden the commodity description from "liquid chemicals, in bulk," to "commodities in bulk", and (2) broaden the territorial description by (a) replacing the facilities restriction at Port Neches, Youens and Austin, TX with "points in Travis, Montgomery and Jefferson Counties, TX", (b) eliminate the "except AK, HI and TX" restriction; (c) broaden the territorial description from one-way authority to radial authority between the counties named above, and, points in the U.S.; and (d) remove the "originating at" restriction.

MC 121649 (Sub-No. 7)X, filed February 24, 1981. Applicant: MILAN EXPRESS, INC., P.O. Box 439, Milan, TN 38358. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-No. 4 certificate to (1) remove all restrictions in its general commodities authority "except classes A and B explosives," (2) authorize service at all intermediate points in connectioin with its regular-route operations in TN and KY, and (3) remove the restrictions against the transportation of traffic that orignated at, is destined to or interlined at various combinations of the following points: Fulton, KY, Memphis, Jackson, and Nashville, TN, and 20 other TN cities; against interchange with a named carrier; against service to Dyersburg and Newbern, TN and points in that part of the Memphis commercial zone located in AR and MS; and restrictions against tacking of various regular routes.

MC 124835 (Sub-No. 29)X, filed February 26, 1981. Applicant: PRODUCERS TRANSPORT CO., P.O. Box 4022, Chattanooga, TN 37405. Representative: David K. Fox (same as applicant). Applicant seeks to remove restrictions from its Sub-Nos. 17F, 19F and 23F certificates to (1) broaden the commodity descriptions from chemicals, in bulk, in tank vehicles, to "commodities in bulk" in Sub-Nos. 17F and 19F; (2) replace city-wide with county-wide authority from: Chattanooga to Hamilton County, TN in Sub-No. 17F, and Cartersville to Bartow County, GA in Sub-No. 19F; (3) change one-way authority to radial authority between: Hamilton County, TN and Bartow County, GA and points in the US in and east of ND, SD, NE, KS, OK, and TX in Sub-No. 17F and 19F; and Memphis, TN and points in AL, AR, KY, LA, MS, and TN in Sub-No. 23F, and (4) remove the facilities restriction of Transbulk, Inc., from Sub-No. 23F.

MC 128279 (Sub-No. 42)X, filed February 26, 1981. Applicant: ARROW FREIGHTWAYS, INC., P.O. Box 25125, Albuquerque, NM 87125. Representative: Olif Q. Boyd (same as above). Applicant seeks to remove restrictions in its Sub-No. 19 certificate which authorizes general commodities (with the usual exceptions) to remove the restriction against service between points on Federal or States Highways so designated on November 3, 1942, other than Albuquerque, NM, from its non-radial authority between points in those parts of NM, CO, and AZ within 200 miles of Albuquerque, NM.

MC 129177 (Sub-No. 1)X, filed February 23, 1981. Applicant: POVERO TRUCKING COMPANY, 972 Banksville Road, Pittsburgh, PA 15216. Representative: Thomas M. O'Brien, 10 S. LaSalle Street, Suite 1600, Chicago, IL 60603. Applicant seeks to remove restrictions in its lead certificate to (1) broaden the commodity description to "general commodities, except classes A and B explosives" from general commodities, with usual exceptions and those injurious or contaminating to other lading; (2) broaden existing city-wide service to county-wide authority: in part (a), Lawrence County, PA, for New Castle, PA, Allen County, IN, for Fort Wayne, IN, Lorain County, OH, for Lorain, OH; in part (b), Lawrence County, PA, for New Castle, PA, Bergen County, NJ, for Mahwah, NJ; and (3) broaden existing one-way service to radial authority, in part (a), between points in Lawrence County, PA, and points in PA within 20 miles of New Castle, PA, and, points in Allen County, IN and South Bend, IN, Cincinnati, OH and Lorain County, OH, Wheeling, WV, Irvington and Newark, NJ, and New York, NY; and in part (b), between points in Lawrence County, PA, and points within 20 miles of New Castle, PA, and Bergen County, NJ.

MC 129325 (Sub-No. 10)X, filed February 24, 1981. Applicant: DIAZ MOTOR FREIGHT, INC., P.O. Box 8266, New Orleans, LA 70122. Representative: J. G. Dail, Jr., P.O. Box LL, McLean, VA 22101. Applicant seeks to remove restrictions in its lead and Sub-Nos. 3, 4, 6, and 9 certificates to (1) broaden the commodity descriptions to (a) "metal products" from iron and steel articles in the lead and Sub-No. 4 and steel reinforcing bars and wire rods in Sub-No. 9; (b) "rubber & plastic products" from plastic pipe in Sub-No. 3; and (c) "food and related products and chemicals and related products" from vegetable oils, in containers, in Sub-No. 6; (2) replace plantsites with city-wide or county-wide authority: St. Rose, LA with St. Charles Parish, LA in Sub-No. 6 and Beaumont, TX in Sub-No. 9, (3) change the one-way authorities to radial authorities between: New Orleans, LA, and, points in AR, AL, GA, LA, MS, TN, and in described parts of TX and FL in the lead; Houston, TX and points in the U.S. in Sub-No. 3; New Orleans, LA and points in a described part of FL in Sub-No. 4; St. Charles Parish, LA and New Orleans, LA in Sub-No. 6; and Beaumont, TX and New Orleans, LA in Sub-No. 9, (4) eliminate the exception of AK, HI, and TX in Sub-No. 3, and (5) remove the restriction limiting service to the transportation of traffic having an immediately subsequent movement by water in Sub-No. 6.

MC 129410 (Sub-No. 25)X, filed February 23, 1981. Applicant: BONCOSKY TRANSPORTATION, INC., 1301 Industrial Drive, Algonquin, IL 60102. Representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its lead and Sub-Nos. 6, 11F, 13F, 14F,

18F, 19F, 21F, and 22F permits to (1) broaden the commodity descriptions to (a) "dairy products" from cottage cheese in the lead; (b) "food and related products" from liquid corn syrup, in Sub-No. 11F, liquid sugar in Sub-No. 13F, liquid corn products in Sub-No. 14F, liquid sweeteners in Sub-No. 18F, sugar, syrup, (high fructose), and blends of sugar and syrup in Sub-No. 19F, molasses and animal feed in Sub-No. 21F, and liquid sugar and blends of liquid sugar in Sub-No. 22F; and (c) "machinery" from agricultural pneumatic conveyors and accessories in Sub-No. 6; (2) remove the "in bulk" restriction in Sub-No. 11F and "in bulk, in tank vehicles" restriction in Sub-Nos. 13F, 21F and 22F; (3) eliminate the named facilities in Sub-Nos. 6, 11F, 13F, 14F, 18F, 19F, 21F, and 22F; and (4) expand its territorial authorities to between points in the U.S., under continuing contract(s) with named shippers in the above permits.

MC 135231 (Sub-No. 54)X, filed February 27, 1981. Applicant: NORTH STAR TRANSPORT, INC., Rt. 1, Highway 1 and 59 West, Thief River Falls, MN 56701. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions in its Sub-Nos. 22F, 25 and 32F certificates to (1) broaden the commodity descriptions to (a) "transportation equipment" from snowmobiles, motor bikes, boats, part and accessories in Sub-Nos. 22F (Part I) and 25; and (b) "machinery" from sound reproducing equipment in Sub-Nos. 22F (Part I) and 32F, and agricultural implements and parts thereof in Sub-No. 22F (Part II); (2) remove the plantsite restrictions and replace with county-wide or city-wide authority: Crosby with Crow Wing County, MN, Roseau with Roseau County, MN, Thief River Falls with Pennington County, MN, Karlstad with Kitton County, MN, Rochester with Olmsted County, MN, Minneapolis, MN, Omaha, NE in Sub-No. 22F, Lancaster County, NE in Sub-No. 25, and Blue Earth with Fairbault County, MN in Sub-No. 32F. Applicant also seeks to (1) change its one-way authorities to radial authorities between: Crow Wing, Roseau, Pennington, Kitton and Olmsted Counties, MN, Minneapolis, MN and Omaha, NE, and, points in the U.S. in Sub-No. 22F (Part I); (b) Pennington County, and Minneapolis, MN, and, points in the U.S. in Sub-No. 22F (Part II); (c) Fairbault County, MN, and, points in U.S. in Sub-No. 32F; and (d) Lancaster County, NE, and, points in U.S. including ports of entry between U.S. and Canada; (2) remove the "except AK and HI" restriction in the sub-numbers above, (3) eliminate the restriction limiting service to the transportation of traffic originating at the named origins and destined to the indicated destinations in Sub-Nos. 22F and 32F; and (4) remove the "except commodities in bulk" restriction in Sub-Nos. 22F and 32F; and (5) remove the restriction against tacking in Sub-No. 22F and replace it with "carrier's authority to tack will be governed by 49 CFR 1042".

MC 138144 (Sub-No. 62)X, filed February 23, 1981. Applicant: FRED OLSON CO., INC., 6022 West State Street, Milwaukee, WI 53213. Representative: William D. Brejcha, 10 South LaSalle Street, Suite 1600, Chicago, IL 60603. Applicant seeks to remove restrictions from its Sub-Nos. 2, 8, 11, 12, 16, 17, 19, 20, 22, 24, 25, 26, 29F, 32F, 35F, 37F, 42F, 44F, 49F, 52F, and 54F certificates to (1) broaden the commodity descriptions from: (a) iron and steel articles, metal articles, wrought iron pipe, cast iron pipe, hydrants, valves, fittings, couplings, and castings to "metal products" in Sub-Nos. 2, 11, 12, 20, 22, 25F, 35F, 37F, and 54F; (b) heat exchangers and equalizers for air, gas, liquid and machinery and equipment for heating, cooling, conditioning, etc. to "metal products and machinery" in Sub-No. 8; (c) lumber, lumber products, lumber mill products, poles, posts, and pilings to "lumber and wood products" in Sub-No. 16; (d) fertilizer compounds, ice melting compounds, and vermiculite products to "chemicals and related products and clay, concrete, glass or stone products" in Sub-No. 17; (e) buildings and parts, accessories, and equipment used in the installation of buildings to "buildings and building materials" in Sub-No. 24 (f) iron, steel, zinc, lead, and articles or products thereof; springs to "metal products, ores and minerals, and chemicals and related products" in Sub-No. 25; (g) plastic pipe, fittings, couplings, valves and hydrants, materials, supplies and equipments to "rubber and plastic products and metal products" in Sub-Nos. 29F and 42F; (h) roofing to "building material" in Sub-No. 44F; (i) insulation board, materials, supplies, cement pipe, and plastic pipe to "building materials, and rubber and plastic products" in Sub-No. 49F; and (j) fertilizer to "chemicals and related products" in Sub-No. 52F; (2) replace facilities limitations with city-wide or county-wide authority in Sub-Nos. 2, 12, 20, 24, 25, 26F, 29F, 32F, 35F, 37F, 42F, 44F, 49F, 52F, and 54F and change specific point or city-wide authority to county-wide authority from: Joliet, and Waukegan, to Will, and Lake Counties, IL, respectively, East Chicago, Gary and Hammond to Lake County, IN in Sub-No. 2; Earlville to LaSalle County, IL, Wausau to Marathon County, WI in Sub-No. 11; Coshocton to Coshocton County, OH in Sub-No. 12; Beardstown to Cass County, IL in Sub-No. 16; Union Grove to Racine County, WI and Kenosha to Kenosha County, WI in Sub-No. 17; Northbrook to Cook County, IL in Sub-No. 19; New Lennox Township to Will County, IL in Sub-No. 22; Brookfield to Waukesha County, WI and Milton to Northumberland County, PA in Sub-No. 24; Blue Island to Cook County, IL, Joliet to Will County, IL, Grand Rapids to Kent County, MI, Lansing to Ingham County, MI, Centerville to Appanoose County, IA, Ft. Wayne to Allen County, IN, Kokomo to Howard County, IN Elkhart to Elkhart County, IN, Cicero to Hamilton County, IN in Sub-No. 25; Kankakee to Kankakee County, IL, Granite City to Madison County, IL, Eureka to Woodford County, IL, and DeKalb to DeKalb County, IL in Sub-No. 25; Buckhannon to Upshur County, WV in Sub-No. 29F; Sterling to Whiteside County, IL in Sub-No. 35F; Chicago, Evanston and Blue Island to Chicago, IL in Sub-No. 37F; Columbia to Boone County, MO in Sub-No. 42F; Chicago and Wilmington to Chicago, IL in Sub-No. 44F; Alexandria to Madison County, IN, Rockdale to Will County, IL, Waukegan to Lake County, IL, and Wilton to Muscatine County, IA in Sub-No. 49F; Dubuque to Dubuque County, IA, Peoria, Fulton, and Pekin to Peoria, Whiteside, and Tazewell Counties, IL, respectively, in Sub-No. 52F; and Canfield to Mahoning County, OH, Martins Ferry and Yorkville to Belmont County, OH, and Mingo Junction and Steubenville to Jefferson County, OH Allenport to Washington County, PA, Monessen to Westmoreland County, PA Beech Bottom and Follansbee to Brooke County, WV, Benwood to Marshall County, WV, and Wheeling to Ohio County, WV, (3) broaden the territorial description from one-way authority to radial authority between numerous combinations of specified origins in IL, IN, OH, WI, PA, MI, IA, MS, WV, and MO, and points in the U.S. for example: points in Chicago, Lake, and Will Counties, IL, and Lake County, IN and, points in IA and MO; points in Lake County, IN and points in IA, MO, and NE; points in Lake County, IN, and points in IA and NE; and points in Milwaukee, WI, and points in IA, MO, and NE in Sub-No. 2; points in LaSalle County, IL, and points in Marathon County, WI in Sub-No. 11; Coshocton County, OH, and, points in IL, IN, IA, KS, MI, MN, MO, NE, ND, PA, SD, and WI, in Sub-No. 12; Cass County, IL, and,

points in IA, MN, MO and WI in Sub-No. 16; Racine and Kenosha Counties, WI, and, points in Illinois in Sub-No. 17; Cook County, IL, and, points in IA, MO, and NE in Sub-No. 19; Chicago, IL, and, points in CO, IL, IN, IA, KS, MN, MO, NE, ND, SD, and TX in Sub-No. 20; Will County, IL and points in Callaway County, MO and Coffey County, KS in Sub-No. 22; Waukesha County, WI and Northumberland County, PA, and, points in the U.S. in Sub-No. 24; Cook and Will Counties, IL, Kent and Ingham Counties, MI, Toledo and Columbus, OH, Appanoose County, IA, Allen, Howard, Elkhart, and Hamilton Counties, IN, Jackson, MS, and points in AL, AR, CO, GA, IL, IN, IA, KS, KY, LA, MI, MO, MS, MN, NE, ND, OH, OK, PA, SD, TN, TX, and WI in Sub-No. 25; Upshur County, WV, and points in MI, OH, IL, IN, MO, IA, MN, WI, ND, SD, NE, and KS in Sub-No. 29F; Chicago, IL, and points in KS, IA, MN, MO, NE, ND, SD, and WI in Sub-No. 32F; and various other combinations in Sub-Nos. 35F, 37F, 42F, 44F, 49F, 52F, and 54F; and (4) eliminate the restrictions (a) except in bulk from Sub-Nos. 8, 11, 12, 16, 17, 24, 25, 28, 29F, and 32F; (b) except containers and container ends in Sub-No. 19; (c) except metal containers and container lids in Sub-No. 20; (d) except cement pipe in Sub-No. 49F; (e) originating at or destined to a named plantsite, warehouse or storage facilities in Sub-Nos. 2, 12, 20, 24, 25, 28, 29F, 32F, 35F, 37F, 44F, 49F, 52F, and 54F; (f) "originating at and destined to" in Sub-Nos. 2, 8, 16, 19, 35F, and 42F; (g) AK and HI in Sub-Nos. 8 and 24; and (h) size and weight in Sub-No. 11.

MC 138468 (Sub-2)X, filed February 26, 1981. Applicant: RMK TRUCKING, INC., 500 Skokie Blvd., Northbrook, IL 60062. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Applicant seeks to remove restrictions in its Sub-No. 1 permit (1) to broaden the territorial descriptions to between points in the U.S. under contract(s) with a named shipper, and (2) to broaden the commodity description from corrugated paper products and interior packing forms to "pulp, paper and related products and such commodities as are used or dealt in by manufacturers of interior packing forms".

MC 140615 (Sub-63)X, filed February 23, 1981. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1116, Wisconsin Rapids, WI 54494. Representative: Dennis C. Brown (same address as above). Applicant seeks to remove restrictions in its Sub-Nos. 4, 10, 22F, 29F, 32F, 46F, and 52F certificates to (1) broaden the commodity description from balsa wood, to "lumber and wood products" in Sub-No. 4; from nonexpanded plastic materials, polystyrene products, and plastic materials, plastic products, and liquid latex to "rubber and plastic products", in Sub-Nos. 10, 22F, 29F, 32F, and 46F; from paper and paper articles to "pulp, paper and related products and printed matter" in Sub-No. 52F; (2) remove the restrictions "except in bulk" in Sub-Nos. 10, 22F, 32F, and 52F and "except in bulk, in tank vehicles" in Sub-No. 29; (3) remove the facilities limitation at South Brunswick and Finderne, NJ, in Sub-No. 32F; (4) replace specific points with county-wide authority as follows: (a) Northvale with Bergen County, NJ, Pulaski with Brown County, WI and Wausaukee with Wausaukee County, WI, in Sub-No. 4; (b) Peru with LaSalle County, IL, Leominster with Worcester County, MA, in Sub-No. 10; (c) Webster with Day County, SD; Jamesburg with Middlesex County, NJ, Leominster with Worcester County, MA, Kobuta and Monaca with Beaver County, PA, Peru with LaSalle County, IL, Belgrade with Gallatin County, MT, Webster with Day County, SD, Pembine with Winnebago County, WI, Marne with Ottawa County, MI, in Sub-No. 22F; (d) Monaca with Beaver County, PA, in Sub-No. 29F; (e) South Brunswick with Middlesex, NJ, Finderne with Somerset, NJ, in Sub-No. 32F; (f) Marne with Ottawa County, MI, in Sub-No. 46F; (g) Neenah and Menasha with Winnebago County, WI, and Hartford with Washington County, WI, in Sub-No. 52F; (5) remove the "originating at and destined to" restriction in Sub-Nos. 29F and 32F; and (6) expand its one-way authority to radial authority between named counties in 4(a)-(G) above in combinations with named points and states in the United States in and east of ND, SD, NE, CO, OK, and TX.

MC 140615 (Sub-64)X, filed February 27, 1981. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1116, Wisconsin Rapids, WI 54494. Representative: Dennis C. Brown (same address). Applicant seeks to remove restrictions in its Sub-Nos. 20, 28F, and 31F certificates to (1) broaden the commodity descriptions from inedible cheese by-products to "food and related products"; from lighting fixtures and parts and accessories to "machinery"; and from wire goods to "metal products"; (2) remove the bulk restrictions in Sub-No. 28F; (3) delete the facilities origin and destination limitations in Sub-No. 31F; (4) replace city-wide authority with county-wide authority: in Sub-No. 20, Hanover and York with York County, PA, and Rice Lake with Barron County, WI; in Sub-No. 28F, Hainesport and Pennsauken with Burlington and Camden Counties, NJ; in Sub-No. 31F, Bristol with Bucks County, PA; (5) expand its territorial authority to authorize radial service between the above-named points, and in some instances, points in the U.S. or specified States; and (6) remove the AK and HI exception in Sub-No. 28F.

MC 142168 (Sub-5)X, filed February 26, 1981. Applicant: CARL'S BUTTON & STITCH, INC., Route 613, Box 424, Payne, OH 45880. Representative: Michael M. Briley, P.O. Box 2068, Toledo, OH 43603. Applicant seeks removal of restrictions in its Sub-No. 3F certificate to (1) broaden the commodity description by removing all restrictions in its general commodities authority "except Classes A and B explosives," and (2) broaden the territorial description by removing restrictions which limit service to the transportation of traffic originating at or destined to named facilities, replacing the specifically named facilities and cities with county-wide authority, and authorizing radial service: between Madison County, AL (Huntsville, AL), Hartford County, CT (Hartford and Windsor, CT), Cook and Clark Counties, IL (Bellwood and Marshall, IL), De Kalb and Lake Counties, IN (Garrett and Gary, IN), Lee and Beaufort Counties, NC (Sanford and Washington, NC), Jacksonville, NC, Montgomery and Lorain Counties, OH (Dayton and Elyria, OH), Schuylkill County, PA (Pine Grove, PA), Los Angeles County, CA (City of Industry, CA), Amarillo, Dallas, and Houston, TX, Seattle, WA, and points in AL, CT, FL, GA, IL, IN, IA, MD, MA, MI, NE, NJ, NY, NC, OH, PA, RI, SC, TN, VA, WV, and WI.

MC 142336 (Sub-3)X, filed February 24, 1981. Applicant: D. TERRY CHAMNESS, d.b.a. TERRY'S ROAD, TRUCK & WRECKER SERVICE, 4331 South 12th Street, Kalamazoo, MI 49009. Representative: Karl L. Gotting, 1200 Bank of Lansing Bldg., Lansing, MI 48933. Applicant seeks to remove restrictions in its Sub-No. 1 certificates to (1) broaden its commodity description from wrecked, disabled, repossessed and replacement motor vehicles, in truckaway service, to "transportion equipment"; (2) replace its city-wide authority in Battle Creek, MI, with county-wide authority to authorize service radially between Kalamazoo, and Calhoun Counties, MI, and points in 17 eastern States, and (3) remove the "in truckaway service" restriction.

MC 143059 (Sub-168)X, filed February 26, 1981. Applicant: MERCER TRANSPORTATION CO., P.O. Box

35610, Louisville, KY 40232. Representative: John M. Nader, 1600 Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions in its Sub-No. 74F certificate to (1) broaden the commodity description "general commodities (except commodities in bulk and Classes A and B explosives)" by removing the in-bulk restriction; (2) broaden the territorial scope by replacing a facility in Henderson County with city-wide authority of Henderson, KY, (3) by removing the restriction against traffic having a prior or subsequent movement by rail or water in its operations between Henderson, KY and points in AL, AR, CT, DE, DC, FL, GA, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NE, NH, NJ, NY, NC, ND, OH, OK, PA, RI, SC, SD, TN, TX, VT, VA, WV, and WI; and remove the restriction limiting transportation to traffic originating at or destined to named facilities.

MC 144643 (Sub-14)X, filed March 3, 1981. Applicant: VINGI BROTHERS TRUCKING CO., INC., 28 Oakdale Avenue, Johnston, RI 02919. Representative: William F. Poole, 41 Bea Drive, North Kingstown, RI 02852. Applicant seeks to remove restrictions in its Sub-No. 2F permit to authorize service between points in the U.S., under continuing contract(s) with a named shipper.

MC 144696 (Sub-8)X, filed February 26, 1981. Applicant: MEEUWSEN PRODUCE, INC., 9525 Ransom St., Zeeland, MI 49464. Representative: Edward N. Button, 580 Northern Ave., Hagerstown, MD 21740. Applicant seeks to remove restrictions in its Sub-No. 5F permit to (1) broaden the commodity description to "chemicals and related products" from drugs and toilet articles, and materials and supplies (except in bulk), and (2) broaden the territorial description to authorize between points in the United States, under continuing contract(s) with a named shiper.

MC 149199 (Sub-3)X, filed March 2, 1981. Applicant: WESTERFELD TRUCK LEASING, INC., R.R. 10, Greensburg, IN 47240. Representative: Robert W. Loser II, 1101 Chamber of Commerce Bldg., Indianapolis, IN 46204. Applicant seeks to remove restrictions in its Sub-Nos. 1F and 2F permits to (1) broaden the commodity description in Sub-No. 1F from foodstuffs to "food and related products", (2) remove the restrictions limiting service to vehicles equipped with mechanical refrigeration, and (3) broaden the territorial description to between points in the U.S., under continuing contract(s) with a named shipper.

MC 145399 (Sub-4)X, filed February 28, 1981. Applicant: SHAY DISTRIBUTING CO., INC., 10180 Beech Avenue, Fontana, CA 92335. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Applicant seeks to remove restrictions in its Sub-2F certificate to (1) broaden the commodity description from frozen foods to "foods and related products," (2) broaden its territorial authority from city-wide to county authority and broaden its one-way authority to radial authority, between Los Angeles, CA and points in Orange (Santa Anna, CA) and Riverside (Riverside, CA) Counties, CA, on the one hand, and on the other, points in the U.S., (3) remove the AK, CA and HI exceptions, and (4) remove the restriction to traffic originating at named facilities in the above cities.

MC 145904 (Sub-35)X, filed February 20, 1981. Applicant: SOUTH WEST LEASING, INC., 170 West 18th Street, Waterloo, IA 50704. Representative: Stanley C. Olsen, Jr., 5200 Willson Road, Suite 307, Edina, MN 55424. Applicant seeks to remove restrictions in its Sub-1F, 4F, 5F, 6F, 12F, 15F, 18F, 19F, 21F, and 22F certificates to (1) broaden the commodity descriptions to (a) "food and related products" from meats, meat products and meat byproducts, and articles distributed by meat packing houses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except hides and commodities in bulk) in Sub-1F, 4F, 6F, and 12F, salad dressings in Sub-5F and 19F and confectionery (except in bulk) in Sub-22F; and (b) "metal products" from iron and steel bars in Sub-18F; (2) remove the "except in bulk" restriction in Sub-15F and 21F; (3) eliminate the restriction limiting service to the transportation of traffic originating at named origins and destined to named destinations in Sub-1F, 4F, 6F, 12F, 18F, and 22F; (4) replace authority to serve specified facilities at named points with county-wide or city-wide authority; Cedar Rapids and Tama with Linn and Tama Counties, IA in Sub-1F; Sioux Falls with Minnehaha County, SD and Estherville with Emmet County, IA in Sub-4F; Carroll, Cherokee, Denison, Fort Dodge and Iowa Falls with Carroll, Cherokee, Crawford, Webster, and Hardin Counties, IA, and Crete and Lincoln with Saline and Lancaster Counties, NE in Sub-6F; Cedar Rapids with Pinn County, IA and Marshall with Saline County, MO in Sub-12F; Chicago, IL in Sub-15F, 18F, 21F, and 22F; and replace Grundy Center with Grundy County, IA; and (5) extend its one-way authority to authorize radial service between IA, SD, NE, MO and IL, and 25 specified States located throughout the U.S.

MC 148501 (Sub-2)X, filed February 23, 1981. Applicant: KILE TRANSFER CORP., 4600 78th Street, Urbandale, IA 50322. Representative: Thomas E. Leahy, Jr., 1980 Financial Center, Des Moines, IA 50309. Applicant seeks to remove restrictions in certificate No. MC 129602 (Sub-4) which was acquired in MC-PC-78402, which authorizes the transportation of general commodities (with the usual exceptions) to allow service at all intermediate points between Des Moines and Bedford, IA, and between Mt. Ayr and Leon, IA.

MC 150434 (Sub-4)X, filed February 23, 1981. Applicant: COUNTRY WIDE TRUCK SERVICE, INC., 1110 S. Reservoir St., Pomona, CA 91766. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30303. Applicant seeks to remove restrictions from its lead certificate to (1) broaden the commodity description from general commodities, with exceptions, to "general commodities (except classes A and B explosives)"; and (2) remove the restrictions against service to AK and HI on its authority between points in the U.S., and limiting service to the transportation of traffic moving on a bill of lading of a named freight forwarder.

[FR Doc. 81-8110 Filed 3-16-81; 8:45 am]
BILLING CODE 7035-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80100.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted

problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–3–006

Decided: March 5, 1981.

By the Commission, Review Board No. 1, Members Carleton, Fisher, and Williams.

MC 2934 (Sub-102), filed February 9, 1981. Applicant: AERO MAYFLOWER TRANSIT COMPANY, INC., 9998 North Michigan Rd., Indianapolis, IN 46032. Representative: W. G. Lowry (same address as applicant), (317) 875–1142. Transporting *appliances and electrical equipment*, between points in Marion County, IN and Lucas County, OH, on the one hand, and, on the other, points in Lucas County, OH, Orange County, FL, Philadelphia County, PA and Warren County, NY.

MC 6874 (Sub-6), filed February 9, 1981. Applicant: PHILIP ANTONUCCI, d.b.a., ANTY TRUCKING, 148 Linwood Avenue, Paterson, NJ 07502. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934, (201) 435–7140. Transporting *machinery*, between points in NJ, NY and PA, on the one hand, and, on the other, points in the U.S.

MC 26925 (Sub-54), filed February 9, 1981. Applicant: ANDREWS VAN LINES, INC., P.O. Box 1609, Norfolk, NE 68701. Representative: Jack L. Shultz, P.O. Box 82028, Lincoln, NE 68501. Transporting *such commodities* as are dealt in or used by manufacturers and distributors of laboratory and medical supplies, between the facilities used by Sherwood Medical Company, in the U.S., on the one hand, and, on the other, points in the U.S.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81-8107 Filed 3-16-81; 8:45 am]
BILLING CODE 7035-01-M

Permanent Authority Decision; Decision–Notice

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10928, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain

requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Volume No. OP4–66

Decided: March 11, 1981.

By the Commission, Review Board No. 1, Members Carleton, Joyce and Jones.

MC 153606, filed January 13, 1981, previously published in the **Federal Register** issue of February 9, 1981, and republished this issue. Applicant: PARK PLACE EQUIPMENT SERVICES, INC., P.O. Box 2820, Greenville, SC 29602. Representative: Francis W. McInerny, 1000 16th St., N.W. No. 502, Washington, D.C. 20036.Transporting *general commodities* (except classes A and B explosives) between points in the U.S., under continuing contract(s) with United Freight, Inc., of Morrow, GA. (Hearing site: Washington, D.C.)

Note.—This application is directly related to MC–F 14549, and both are being republished to include them in the same **Federal Register** issue.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for as named shipper "under contract".

Volume No. OP3–197

Decided: March 5, 1981.

By The Commission, Review Board No. 2, members Carleton, Fisher and Williams.

MC 14215 (Sub-91), filed February 2, 1981, previously published in the **Federal Register** of February 25, 1981. Applicant: SMITH TRUCK SERVICE, INC., 1118 Commercial, Mingo Junction, OH 43938. Representative: A. Charles Tell, 100 E. Broad St., Columbus, OH 43215. Transporting *metal articles*, between points in Philadelphia County, PA on the one hand, and, on the other, points in the U.S. in and east of MN, WI, IL, KY, TN, MS, and LA.

Note.—This republication indicates the State Philadelphia County is located.

MC 146055 (Sub-15), filed February 3, 1981. Applicant: DOUBLE "S" TRUCKLINE, INC., 731 Livestock Exchange Bldg., Omaha, NE 68107. Representative: James F. Crosby, 7363 Pacific St., Suite 210B, Omaha, NE 68114. (402) 397–9200. Transporting *food and related products*, between points in the U.S., under continuing contract(s) with Land O'Lakes, Spencer Beef Division, of Spencer, IA.

MC 153295 (Sub-1), filed February 5, 1981. Applicant: BRONCO, INC., P.O. Box 11866, Lexington, KY 40578. Representative: Francis W. The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions)

we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication do not compute, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP5–73

Decided: March 6, 1981.

By the Commission Review Board No. 3, members Krock, Joyce, and Jones.

MC 19778 (Sub-115), filed February 3, 1981. Applicant: THE MILWAUKEE MOTOR TRANSPORTATION COMPANY, 10600 Franklin Avenue, Franklin Park, IL 60131. Representative: Robert F. Munsell, (same address as applicant). Transporting *clay, concrete, glass or stone products,* between points in MT, WY, and SD, on the one hand, and, on the other, points in AL, AZ, AR, CA, CO, CT, DE, DC, FL, GA, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, RI, SC, TN, TX, UT, VT, VA, WA, WV, AND WI.

MC 44449 (Sub-5), filed February 5, 1981. Applicant: BLUEBIRD VAN & STORAGE CO., INC., N. 15 Grant, Spokane, WA 99202. Representative: George R. LaBissoniere, 15 S. Grady Way, Suite 233, Renton, WA 98055. Transporting *furniture and fixtures* between points in the U.S., under continuing contract(s) with Spokane Shippers Cooperative Association, of Spokane, WA.

MC 99936 (Sub-6), filed January 30, 1981. Applicant: SEVERANCE TRUCKING CO., INC., 7 Walnut Hill Park, Woburn, MA 01801. Representative: Mary E. Kelly, 22 Stearns Ave., Medford, MA 02155. Over regular routes, transporting *general commodities* (except classes A and B explosives), between Boston, MA and Lewiston, ME, (a) from Boston over U.S. Hwy 1 to junction ME HWY 196, then over ME Hwy 196 to Lewiston and return over the same route, and (b) from Boston over U.S. Hwy 3 (also over MA Hwy 28) to junction MA Hwy 113, then over MA Hwy 113 to junction U.S. Hwy 1, then over U.S. Hwy 1 to Portland, ME, then over ME Hwy 26 to junction U.S. Hwy 202, then over U.S. Hwy 202 to Lewiston, and return over the same route, serving all intermediate points, and off-route points in York, Cumberland, Androscoggin and Sagadahoc Counties, ME.

MC 119908 (Sub-48), filed February 6, 1981. Applicant: WESTERN LINES, INC., 3523 North McCarty Drive, P.O. Box 1145, Houston, TX 77001. Representative: Wayne A. Premeaux (same address as applicant). Transporting *building materials* between points in Ellis County, TX, on the one hand, and, on the other, points in AL, AR, FL, GA, LA, MS, NM, NC, OK, SC, TN, and TX.

MC 128709 (Sub-12), filed February 5, 1981. Applicant: PARIS MOTOR FREIGHT, INC., P.O. Box 1787, Ft. Smith, AR 72901. Representative: David B. Schneider, P.O. Box 1540, Edmond, OK 73034. Transporting *general commodities* (except classes A and B explosives), serving Siloam Springs, AR on an off-route point in connection with applicant's existing regular route operations.

MC 138799 (Sub-1), filed February 6, 1981. Applicant: PENINSULA CHARTER LINES, INC., 160 Demeter St., East Palo Alto, CA 94303. Representative: Eldon M. Johnson, 650 California St., San Francisco, CA 94106. Transporting *passengers and their baggage,* in the same vehicle with passengers, in charter and special operations, beginning and ending at points in San Mateo and Santa Clara Counties, CA, and extending to points in the U.S., including Alaska.

MC 143059 (Sub-163), filed February 3, 1981. Applicant: MERCER TRANSPORTATION CO., P.O. Box 35610, Louisville, KY 40232. Representative: James L. Stone (same as applicant). Transporting *such commodities* as are dealt in or used by manufacturers and distributors of building materials, between points in the U.S.

MC 143509 (Sub-3), filed February 6, 1981. Applicant: ROY V. BRECKENRIDGE, d.b.a. BRECKENRIDGE TRUCKING, 6106 Denver Circle, Las Vegas, NV 89107. Representative: Leonard A. Jaskiewicz, 1730 M St., NW., Washington, D.C. 20036. Transporting *building materials* between points in CA, NV, and AZ.

MC 144688 (Sub-51), filed January 26, 1981. Applicant: READY TRUCKING, INC., 2717 Campbell Blvd., Ellenwood, GA 30049. Representative: Lavern R. Holdeman, P.O. Box 81849, Lincoln, NE 68501. Transporting *general commodities* (except classes A and B explosives), between those points in the U.S. in and east of ND, SD, NE, KS, OK, and TX.

MC 145829 (Sub-27), filed February 6, 1981. Applicant: ETI CORP., P.O. Box 1, Keasbey, NJ 08832. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Transporting *chemicals and related products,* between points in the U.S., under continuing contract(s) with Texize, Division of Morton Norwich of Greenville, SC.

MC 147749 (Sub-2), filed November 21, 1980. Applicant: WEST COAST TRUCK LINES, INC., 85647 Hwy 99 S., Eugene, OR 97405. Representative: John W. White, Jr. (same address as applicant). Transporting *general commodities* (except household goods as defined by the Commission, and classes A and B explosives), between the facilities of Champion International Corp., in the U.S. on the one hand, and, on the other, points in the U.S.

MC 150478 (Sub-1), filed February 3, 1981. Applicant: THE BREWER COMPANY, a corporation, P.O. Box 44098, 7374 Main St., Cincinnati, OH 45244. Representative: Warren C. Moberly, 777 Chamber of Commerce Bldg., 320 No. Meridian St., Indianapolis, IN 46204. Transporting *clay, concrete, glass or stone products,* between points in Dearborn County, IN, and Warren, Butler, and Hamilton Counties, OH, on the one hand, and, on the other, points in Hamilton, Clermont, Brown, and

Adams Counties, OH, Boone and Kenton Counties, KY, and Franklin, Dearborn, Ripley, Decatur, Rush, Jennings, Ohio, Switzerland, Bartholomew, Fayette, Shelby, Union, and Jefferson Counties, IN.

MC 151508 (Sub-1), filed January 22, 1981. Applicant: BARY, INC., 4515 Pinewood Rd., Louisville, KY 40218. Representative: Jack Bary, 1303 Blackwood Ct., Jeffersonville, IN 47130. Transporting *furniture and fixtures*, between points in the U.S., under continuing contract(s) with Murphy Manufacturing Co., Inc., of New Albany, IN.

MC 151708 (Sub-1), filed February 6, 1981. Applicant: M & B FREIGHT LINES, INC., 2012 Center St., Ashland, PA 17921. Representative: Charles E. Creager, P.O. Box 1417, Hagerstown, MD 21740. Transporting *such commodities* as are used or dealt in by manufacturers of sound recordings, between points in the U.S., under continuing contract(s) with Capitol Records, Inc., of Bethlehem, PA.

MC 153789 (Sub-1), filed January 28, 1981. Applicant: MARYLAND TRANSPORT SYSTEMS, INC., P.O. Box 606, Elkton, MD 21921. Representative: Hubert D. Moye, P.O. Box 606, Elkton, MD 21921. Transporting *general commodities*, (except classes A and B explosives), between points in the U.S.

MC 153898 (Sub-1), filed February 6, 1981. Applicant: H & B TRUCKING, INC., P.O. Box 25723, Salt Lake City, UT 84125. Representative: Irene Ware, 430 Judge Bldg., Salt Lake City, UT 84111. Transporting (1) *lumber and wood products*, (2) *building materials* (except those in (1)), (3) *petroleum, natural gas and their products*, and (4) *such commodities* as are dealt in or used by hardware stores, (except those in (1) and (2) above), between points in the U.S., under continuing contract(s) with Harrington & Company, of Salt Lake City, UT.

MC 154058, filed February 4, 1981. Applicant: SUNSHINE HOLIDAYS, INC., 2503–A Lebanon Ave., Belleville, IL 62221. Representative: Mike Frierdich, 132 South Rapp, Columbia, IL 62236. Authority to engage in operations, as a *broker*, at Belleville, IL, in arranging for transportation of *passengers and their baggage*, between points in IL, IN, MO, and KY, on the one hand, and, on the other, points in the U.S.

BILLING CODE 7035-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal Action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant

maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY5-8

Decided: March 5, 1981.

By the Commission, Review Board No. 3, Members Krock, Joyce and Dowell.

MC 339 (Sub-14), filed February 9, 1981. Applicant: LINCOLN MOVING & STORAGE CO., INC., 1071 Andover Park West, Seattle, WA 98188. Representative: Henry C. Winters, 525 Evergreen Bldg., 15 S. Grady Way, Renton, WA 98055, 206-235-4730. Transporting *shipments* weighing 100 pounds or less if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

MC 59096 (Sub-12), field February 9, 1981. Applicant: KNAPP'S EXPRESS, INC., 37 Emerson St., Ridgefield Park, NJ 07660. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934, (201) 234-0301. Transporting *shipments* weighing 100 pounds or less, if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

MC 118789 (Sub-1), filed February 12, 1981. Applicant: MAIL DELIVERY SERVICE, INC., P.O. Box 473, Buffalo, NY 14240. Representative: Michael R. Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006, (201) 575-7700. Transporting *shipments* weighing 100 pounds or less if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

BILLING CODE 7035-01-M

JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

Advisory Committee on Actuarial Examinations; Meeting

Notice is hereby given that the Advisory Committee on Actuarial Examinations will meet at the Continental Plaza Hotel, North Michigan at Delaware, Chicago, Illinois on April 14, 1981, beginning at 8:00 a.m.

The purpose of the meeting is to discuss topics and questions which may be recommended for inclusion on the Joint Board's examinations in actuarial mathematics and methodology referred to in Title 29 U.S. Code, Section 1242(a)(1)(B) and to discuss possible topics for inclusion on the syllabus for the Joint Board's examinations.

A determination as required by Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463) has been made that the portion of the meeting dealing with discussion of questions which may appear on the Joint Board's examinations will fall within the exceptions to the open meeting requirement set forth in Title 5 U.S. Code, Section 552b(c)(9)(B), and that the public interest requires that such portion be closed to public participation.

The portion of the meeting dealing with the Joint Board examination syllabus will commence at 11:00 a.m. and will last approximately one hour. This portion of the meeting will be open to the public as space is available. Time permitting, after discussion of the syllabus by Committee members, interested persons may make statements germane to this subject. Persons wishing to make oral statements should advise the Committee Management Officer in writing prior to the meeting to aid in scheduling the time available and should submit the written text, or at a minimum, an outline of comments they propose to make orally. Such comments will be limited to ten minutes in length.

Any interested person also may file a written statement for consideration by the Committee by sending it to the Committee Management Officer. Statements should be mailed to Mr. Leslie S. Shapiro, Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220.

Dated: March 12, 1981.

Leslie S. Shapiro,

Advisory Committee Management Officer, Joint Board for the Enrollment of Actuaries.

BILLING CODE 4810-25-M

DEPARTMENT OF JUSTICE

Consent Decree in Action To Enforce Compliance With Clean Air Act

In accordance with Departmental Policy, 28 CFR 50.7, 38 Fed. Reg. 19029, notice is hereby given that a consent decree in *United States* v. *Sun Oil Company of Pennsylvania*, was lodged with the United States District Court for the Northern District of Illinois. The decree requires Sun Oil Company to comply with the applicable portion of the federally-approved Illinois State implementation plan and provides that Sun will pay a civil penalty in the amount of $2,500.

The Department of Justice will receive for a period of thirty (30) days from the date of the notice, written comments relating to the proposed consent decree. Comments should be addressed to the Deputy Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C., 20530 and should refer to *United States* v. *Sun Oil Company of Pennsylvania*, D.J. Ref. 90–5–2–1–354.

The consent decree may be examined at the office of the United States Attorney, Northern District of Illinois, Everett McKinley Dirksen Building, Room 1500 South, 219 S. Dearborn Street, Chicago, Illinois 60604, at the Region V office of the Environmental Protection Agency, Enforcement Division, 230 South Dearborn Street, Chicago, Illinois 60604, and at the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1254, Tenth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice.

Angus MacBeth,

Deputy Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

Proposed Consent Judgment to Enjoin Discharge of Air Pollutants

In accordance with Department Policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that a proposed consent decree in *Bridesburg Civic Council* v. *Philadelphia Coke Co.*, Civic Action No. 79–426, 79–1193 has been lodged with the District Court for the Eastern District of Pennsylvania. The proposed decree requires the defendant to comply with the Clean Air Act at its coke plant in the city of Philadelphia. In particular, the decree requires Philadelphia Coke Co. to install a pushing emission control system at its plant.

The Department of Justice will receive written comments relating to the proposed judgment until April 16, 1981. Comments should be addressed to the Deputy Assistant Attorney General for the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to D.J. Ref. No. 90–5–2–1–161.

The proposed decree may be examined at the Office of the United States Attorney, United States Courthouse, Philadelphia, Pennsylvania, at the Region III Office of the Environmental Protection Agency, Enforcement Division, Curtis Building, 6th & Walnut Streets, Philadelphia, Pennsylvania 19106, and at the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1254, Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. All requests for copies should be accompanied by a

check or a money order made out for $2.00 to the Treasurer of the United States in order to cover the reproduction costs.

Angus Macbeth,

Deputy Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[Docket No. M-81-17-C]

Fraily Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Fraily Coal Company, 123 Main Street, Joliett, Pennsylvania 17981 has filed a petition to modify the application of 30 CFR 75.1400 (hoisting equipment; general) to its Tracy Slope located in Schuylkill County, Pennsylvania. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cages, platforms or other devices which are used to transport persons in shafts and slopes be equipped with safety catches or other approved devices that act quickly and effectively in an emergency.

2. Petitioner states that no such safety catch or device is available for steeply pitching and undulating slopes with numerous curves and knuckles present in the main haulage slopes of this antracite mine.

3. Petitioner further believes that if a "makeshift" safety device were installed, it would be activated on knuckles and curves, when no emergency existed, causing a tumbling effect on the conveyance which would increase rather than decrease the hazard to the miners.

4. As an alternate method, petitioner proposes to operate the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope, which has a factor of safety in excess of the design factor as determined by the formula specified in the American National Standard for Wire Rope for Mines.

5. Petitioner states that the proposed alternate method will at all times provide the same degree of safety to the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 16, 1981. Copies of the petition are available for inspection at that address.

Dated: March 5, 1981.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

BILLING CODE 3510-43-M

Occupational Safety and Health Administration

Iowa State Standards; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrators for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 20, 1973, notice was published in the **Federal Register** (38 FR 19368) of the approval of the Iowa plan and the adoption of Subpart J to Part 1952 containing the decision.

The Iowa plan provides for the adoption of Federal standards as State standards (by reference or after comments and public hearing). Section 1952.163 of Subpart J sets forth the State's schedule for the adoption of Federal standards. By letter dated November 29, 1978, from Walter Johnson, Deputy Commissioner of Labor, to Vernon A. Strahm, Regional Administrator for Occupational Safety and Health Administration and incorporated as part of the plan, the State submitted State standards comparable to 1) 29 CFR 1910.401, 402, 410, 411, 420, 421, 422, 423, 424, 425, 426, 427, 430, 440, and 441 as published in **Federal Register** (42 FR 37668) dated July 22, 1977; 2) 29 CFR 1910.1044 as published in **Federal Register** (43 FR 11527) dated March 17, 1978; 3) 29 CFR 1910.19(e), 1910.1000, and 1910.1018 as published in **Federal Register** (43 FR 19624) dated May 5, 1978; 4) 29 CFR 1910.1046(a) as published in **Federal Register** (43 FR 27434) dated June 23, 1978; 5) 29 CFR 1910.19(f), 1910.1000, and 1910.1043 as published in **Federal Register** (43 FR 2743) dated June 23, 1978; 6) 29 CFR 1910.1018, 1910.19, 1910.1043, and 1910.1046 as published in **Federal Register** (43 FR 28472–28473) dated June 30, 1978; 7) 29 CFR 1910.20 as published in **Federal Register** (43 FR 31330) dated July 21, 1978; 8) Miscellaneous Corrections as published in **Federal Register** (43 FR 53032) dated August 8, 1978; 9) 29 CFR 1926.605(e) as published in **Federal Register** (43 FR 37668) dated July 22, 1977; 10) 29 CFR 1928.21(b) as published in **Federal Register** (42 FR 37668) dated July 22, 1977; 11) 29 CFR 1928.21(b) as published in **Federal Register** (42 FR 38569) dated July 29, 1977; 12) 29 CFR 1928.21(a)(5) as published in **Federal Register** (43 FR 27463) dated June 23, 1978; 13) 29 CFR 1928.21 and 1928.113 as published in **Federal Register** (43 FR 28474) dated June 30, 1978; 14) Miscellaneous Corrections as published in **Federal Register** (43 FR 35036) dated August 8, 1978. These standards, which are contained in Chapter 88 of the Code of Iowa (1975), were promulgated after public comment requested on September 1, 1978, hearings held on October 25, 1978, resolution adopted by Iowa Bureau of Labor on November 3, 1978, pursuant to chapter 17a of the Code. The standards will be effective on January 18, 1979, and were published by the State on November 29, 1978.

2. *Decisions.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations:

Office of the Associate Assistant Secretary for Regional Programs, OSHA, Room N3606, 200 Constitution Avenue, NW., Washington, D.C. 20210

Office of State Programs, Occupational Safety and Health Administration, Room N–3613, 200 Constitution Avenue, NW., Washington, D.C. 20210;

Office of the Regional Administrator, OSHA, Room 3000 Federal Office Building, 911 Walnut Stret, Kansas City, Missouri 64106

Iowa Bureau of Labor, 307 E. Seventh Street, Second Floor, Des Moines, Iowa 50319

4. *Public participation.* Under § 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Iowa State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective March 17, 1981.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Kansas City, Missouri this 6th day of November 1980.

Vernon A. Strahm,

Regional Administrator.

BILLING CODE 4510-26-M

Office of Pension and Welfare Benefit Programs

[Application No. D-1632]

Proposed Exemption for Certain Transactions; Involving the Hastings Construction Co., Inc.; Profit Sharing Plan; Hastings, Minnesota

AGENCY: Department of Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions imposed by the Internal Revenue Code of 1954 (the Code). The proposed temporary exemption will exempt for a period of three years the proposed sales by the Hastings Construction Co., Inc. (the Employer), the sponsor of the Hastings Construction Co., Inc. Profit Sharing Plan (the Plan) of its interests in contracts for deed or residential first mortgage loans (collectively, the Contracts) to the Plan. The proposed exemption will also exempt the guarantee of the obligation of the Employer, by Paul W. Lawrence (Lawrence), his wife and Donald W. Gustafson, (Gustafson), all parties in interest with respect to the Plan. The proposed exemption, if granted, would affect the Employer, Lawrence, his wife, Gustafson and participants and beneficiaries of the Plan and other persons participating in the proposed transactions.

DATES: Written comments and requests for a public hearing must be received by the Department on or before April 27, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. Attention: Application No. D-1632. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Richard Small of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a), 406(b)(1), and 406(b)(2) of the Act and from the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (e) of the Code. The proposed exemption was requested in an application filed by Lawrence and Gustafson, the trustees (the Trustees) of the Plan, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applications.

1. The Plan is a profit sharing plan with six participants. As of March 31, 1980, the Plan had net assets of $2,038,252. Lawrence and Gustafson each own 50% of the stock of the Employer.

2. The Employer purchases undeveloped real estate, sub-divides the same, constructs homes on the real estate and obtains mortgages thereon. The Employer then sells the homes to purchasers under a contract for deed or a residential first mortgage loan. A contract for deed is a contract whereby the owner in fee simple absolute (the Vendor), or the Vendor's assignee agrees by contract to convey to the buyer (Vendee) by a warranty deed, accompanied by an abstract of title or torrens certificate showing good and marketable title in the Vendor, the fee simple title to the premises upon the payment by the Vendee of the principal and interest due from the Vendee to the Vendor under the contract for deed. A residential first mortgage loan may be a conventional, FHA or VA loan. The Employer is requesting an exemption for a three-year period to sell the above described Contracts to the Plan for a cash purchase price of the lesser of the Employer's cost or the market value of the Contract. If the Employer receives any premium or additional consideration in connection with such Contracts, such premium will be passed along to the Plan. The Employer will receive no financial benefit from any Contract sold to the Plan. The proposed exemption would also exempt the guarantee of the obligation of the Employer by Lawrence, his wife and Gustafson in such transactions.

3. The Contracts that the Employer is proposing to sell to the Plan are not seasoned in the sense that they have not been in existence for any period of time. The proposed transactions would involve new construction by the Employer. In making residential loans and reviewing residential loan applications, the Employer will follow the Federal National Mortgage Association (FNMA) guidelines. The factors influencing acceptability would include the credit record and financial statements of the loan applicant, the ratio between expenses to be assumed as a result of the loan and the stabilized income of the applicant, verification of employment, the age and condition of the property offered as security (determined by inspection), the value of the security and the ratio of the loan sought to the value of the security. The Plan will not purchase any Contract where the loan to value ratio exceeds 85% and any Contract where the Plan does not have the first interest in the property underlying the Contract.

4. The Plan will not purchase any Contract which upon its purchase would put the value of all Contracts owned by the Plan at 50% or more of the current

value of the assets of the Plan. No more than 10% of assets of the Plan will be invested in any one Contract and the Plan will not purchase more than one Contract from any mortgagor or Vendee. All Contracts purchased by the Plan will meet all FNMA underwriting criteria. Also, there will be an appraisal of the underlying security by an FNMA approved independent appraiser prior to any purchase of a Contract by the Plan. In addition, the purchaser of the property will be required to maintain casualty insurance on the property subject to the Contract at all times during the term of the Contract.

5. Prior to any purchase by the Plan of the Employer's interest in a Contract, a party unrelated to the Plan or the Employer, Mr. Francis Poepl (Poepl), president of the Vermillion State Bank in Vermillion, Minnesota, will determine whether each such transaction is a suitable investment for the Plan and that the terms of the proposed transactions are at least as favorable to the Plan as those which the Plan could receive in the same type of transaction with an unrelated party. No Contract will be purchased by the Plan in which the annual return to the Plan is less than 12%. Poepl will also supervise the servicing of all transactions. The Employer will service the Contracts at no cost to the Plan.

6. The Employer, Lawrence, his wife and Gustafson jointly and severally guarantee as follows:

To repurchase, at the higher of the Plan's cost or the current market value, any Contract with accrued interest more than three months delinquent in payments at any time during the life of the Contract. If the Employer has not purchased the Contract with the accrued interest within ten days of the Contract being three months in arrears in payments, Lawrence, his wife or Gustafson shall do so within ten days thereafter.

7. As of June 30, 1979, the Employer had net assets of $2,349,376. As of September 30, 1979, Lawrence represents that he and his wife together had over $6,000,000 of assets in excess of liabilities. As of December 31, 1979, Gustafson represents that he and his wife had over $2,500,000 of assets in excess of liabilities. Mr. and Mrs. Paul W. Lawrence, simultaneously with the time period of this proposed exemption, may be guaranteeing contracts (the same type as the Contracts) of the Paul W. Lawrence Construction Co., Inc. Profit Sharing Plan (the Lawrence Plan) in an amount of up to 50% of the dollar value of the net assets of such plan. As of June 30, 1979, the Lawrence Plan had net assets of $245,062.

8. The three-year period for the exemption would begin on the date the grant of an exemption for the proposed transactions appears in the Federal Register.

9. In summary, the applicants represent the proposed transactions will satisfy the statutory criteria for an exemption under section 408(a) of the Act as follows: (1) the Trustees represent that the proposed transactions are in the best interests of the Plan; (2) the proposed transactions will be approved and monitored by an independent party; (3) the exemption will be a temporary exemption for three years; (4) the purchase by the Plan of the Contracts will result in a high rate of return for the Plan; (5) the Plan will receive corporate and personal guarantees; and (6) the dollar amount of all the Contracts at the time of their being placed in the Plan will be limited to 50% of the assets of the Plan.

Tax Consequences of Transaction

The Department of the Treasury has determined that if a transaction between a qualified employee benefit plan and its sponsoring employer (or affiliate thereof) results in the plan either paying less than or receiving more than fair market value such excess may be considered to be a contribution by the sponsoring employer to the plan and therefore must be examined under applicable provisions of the Code, including sections 401(a)(4), 404 and 415.

Notice to Interested Persons

A copy of the notice of pendency within ten days of its publication in the Federal Register and a statement advising participants and beneficiaries of the Plan of their right to comment or request a hearing within the appropriate time will be hand delivered to all participants and beneficiaries of the Plan.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406(b)(1), and 406(b)(2) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the sale by the Employer of its interests in the Contracts to the Plan as described herein and for the guarantee of the obligation of the Employer by Lawrence, his wife and Gustafson.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 11th day of March 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 81-22; Exemption Application No. D-815]

Bernhard Associates Co., Inc., Dallas, Tex.; Exemption From Prohibitions for Certain Transactions Involving Employees Profit-Sharing Plan

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption exempts the leasing of real property (the Property) by the Employees Profit-Sharing Plan of Bernhard Associates Company, Inc. (the Plan) to Bernhard Associates Company, Inc. (the Employer). The lease was entered into before the effective date of the Employee Retirement Income Security Act of 1974 (the Act), but after July 1, 1974, the date specified in the transition rules contained in sections 414 and 2003 of the Act.

EFFECTIVE DATES: This exemption is effective from January 1, 1975 until March 31, 1980.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. (202) 523-8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1981, notice was published in the **Federal Register** (46 FR 2422) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for transactions described in an application filed on behalf of the Employer. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that it has complied with the requirements of the notice to interested persons as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

This application was filed with both the Department and the Internal Revenue Service. However, the notice of pendency was issued and the exemption is being granted soley by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1) (F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the tranaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to leasing by the Plan to the Employer of the Property, located at 2550 Manana, Dallas, Texas, for the period from January 1, 1975 through March 31, 1980, and the use by the Employer of the uncovered storage areas on another parcel to the rear of the Property for that same period, provided the rental payments were not less than fair rental value.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions which are the subject of this exemption.

Signed at Washington, D.C., this 11th day of March 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-22; Exemption Application No. D-1664 and D-1665]

Smith & Schnacke Retirement Plan, Part A; Smith & Schnacke Retirement Plan, Part B; Dayton, Ohio; Exemption From Prohibitions for Certain Transactions

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption permits the loan of money (the Loan) by the Smith & Schnacke Retirement Plan, Part A and the Smith & Schnacke Retirement Plan, Part B, (collectively, the Plans), to Smith & Schnacke (the Employer), the sponsor of the Plans.

FOR FURTHER INFORMATION CONTACT: Mr. Louis Campagna of the Office of Fiduciary Standards, Pension an Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. (202) 523-7352. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1981, notice was published in the Federal Register (46 FR 2430) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for the transactions described in an application filed by the Employer and the Plans. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was furnished by January 16, 1981, to interested persons in compliance with the requirements to notify interested persons as set forth in the notice of pendency of the proposed exemption. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plans and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plans.

Accordingly the restrictions of sections 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the Loan of a certain sum of money as described in the notice of proposed exemption by the Plans to the Employer provided that the terms of the Loan are at least as favorable to the Plans as the Plans could obtain in a transaction with an unrelated party.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 11th day of March 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

Office of the Secretary

[TA-W-9499]

Alongi Oldsmobile, Inc.; Niagara Falls, N.Y.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated on July 21, 1980 in response to a petition which was filed by the United Automobile, Aerospace and Agricultural Implement Workers of America on behalf of workers at Alongi Oldsmobile, Incorporated, Niagara Falls, New York. The workers sell and service

automobiles, light duty trucks and utility vehicles.

As a general rule, workers may not be certified as eligible to apply for worker adjustment assistance if the firm in which they are employed does not produce an article within the meaning of Section 222 of the Trade Act of 1974. *See, e.g., Fortin* v. *Marshall*, 608 F. 2d 525 (1st Cir. 1979). However, such workers may be certified if their separations from employment were caused importantly by a reduced demand for their services from a firm which produces an article and which is related to the service workers' firm by ownership or by a substantial degree of proprietary control, or if the workers are determined to be *de facto* (according to the facts of the case) employees of the producing firm. In addition, the reduction in demand for services must be determined to have originated at a production facility whose workers independently meet the statutory criteria for certification, and that reduction must directly relate to the product adversely affected by increased imports.

The investigation revealed that General Motors Corporation owns a majority of the stock of Alongi Oldsmobile, Incorporated. Therefore, within the meaning of Section 222 (3) of the Trade Act of 1974, the Department was able to consider the employees of the dealership as being employees of a firm (General Motors) which produces articles.

Alongi Oldsmobile, Incorporated is engaged primarily in the selling and servicing of Oldsmobile cars. Sales of import-impacted models accounted for a significant proportion of total new vehicle sales at Alongi Oldsmobile, Incorporated in 1979 and the first half of 1980. The decline in the sale of import-impacted car lines accounted for nearly all of the decline in new vehicle sales and total sales by the firm in the first half of 1980 compared to the same period in 1979. During the course of investigations covering 16 GM assembly plants it was determined that GM's production of various mid-size, standard and luxury/specialty cars was adversely affected by increasing imports of like or directly competitive vehicles (TA-W-6873, 6999, 7000, 7015-16, 7071, 7073-76, 7078-81, 8613 and 9570).

Because U.S. auto manufacturers redesigned most of their automobiles and/or introduced completely new models from MY 1979 to MY 1981, the composition and distinguishable features of each market class of vehicles has changed substantially. As a result, the recent impact of import competition that existed in MY 1979 and MY 1980 may not continue in MY 1981.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with Oldsmobile mid-size, standard and luxury/specialty cars produced by General Motors Corporation contributed importantly to the decline in sales or production and to the total or partial separation of workers of Alongi Oldsmobile, Incorporated. In accordance with the provisions of the Act, I make the following certification:

All workers of Alongi Oldsmobile, Incorporated, Niagara Falls, New York who became totally or partially separated from employment on or after July 11, 1979 and before December 1, 1980 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of March 1981.

James F. Taylor,

Director, Office of Management, Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6716]

Bernel Foam Products Co., Buffalo, N.Y.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely.

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The investigation was initiated on June 16, 1980 in response to a petition which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers at the Bernel Foam Products Company, Buffalo, New York. The workers produce urethane foam blocks and a variety of foam products for both automotive and non-automotive uses.

The investigation revealed that criterion (3) has not been met.

Petitioners allege that increased imports of automobiles have contributed importantly to declines in sales, production and employment at the Bernel Foam Products Company, Buffalo, New York. Although imported automobiles incorporate foam padding and foam cushions, imports of the whole product are not like or directly competitive with their component parts. Imports of foam padding and foam cushions must be considered in determining import injury to workers producing foam padding and foam cushions.

Sales of foam toys, air conditioner filters, packaging material, mattresses, and chair and seat cushions increased from 1978 to 1979 and during the first half of 1980 compared to the same period in 1979.

U.S. imports of urethane foam account for a negligible proportion of the domestic market for urethane foam.

The Department surveyed the subject firm's major customers purchasing seat cushions, dashboard padding and foam gaskets. Responding customers accounted for a majority of Bernel's decline in sales of each of these three products. Automobile seat cushion customers which increased purchases of imported seat cushions also increased their purchases from domestic sources. None of the responding customers increased purchases of imported dashboard padding and none of the respondents purchased imported foam gaskets.

Conclusion

After careful review, I determine that all workers of the Bernel Foam Products Company, Buffalo, New York are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 6th day of March 1981.

Harry J. Gilman,

Supervisory International Economist, Office of Foreign Economic Research.

BILLING CODE 4510-28-M

[TA-W-11,638]

Boise Cascade Corp.; Aberdeen Sawmill, Aberdeen, Wash.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely.

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the absolute decline in sales or production.

The investigation was initiated on September 22, 1980 in response to a petition which was filed on behalf of workers at the Aberdeen Sawmill of Boise Cascade Corporation, Aberdeen, Washington. Workers at the plant produce rough-cut "green" lumber and a limited amount of special-order timbers and railroad ties.

The investigation revealed that criterion (3) has not been met.

The predominant portion of the lumber produced at the Aberdeen Sawmill of Boise Cascade Corporation is sold to the Yakima facility of Boise Cascade for use in the production of softwood lumber and plywood.

The Yakima Sawmill of Boise Cascade Corporation's sales of lumber and plywood are primarily destined for the home construction industry in the southwest region of the United States.

The decline in production and employment at the mill during late 1979 and 1980 coincided with a sharp downturn in domestic housing starts which began in late 1979 and has continued through the first three quarters of 1980. According to U.S. Department of Commerce statistics, new housing starts declined by about 14 percent in 1979 compared to 1978, and by 22 percent in the first three quarters of 1980 compared to the same period of 1979.

Imports of softwood lumber declined absolutely in 1979 compared to 1978, and declined both absolutely and relative to domestic production in the first three quarters of 1980 compared to the same period of 1979. Imports relative to domestic production remained stable from 1978 to 1979.

Imports of softwood plywood are negligible. The ratio of imports to domestic production was less than 0.2 percent in the 1977 to 1980 period.

Conclusion

After careful review, I determine that all workers of the Aberdeen Sawmill of Boise Cascade Corporation, Aberdeen, Washington are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of March 1981.

James F. Taylor,

Director, Office of Management Administration and Planning.

[FR Doc. 81-8170 Filed 3-16-81; 8:45 am]

BILLING CODE 4510-28-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 27, 1981.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 27, 1981.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 27th day of February 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-28

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 81-24]

NASA Advisory Council (NAC); Meeting

ACTION: Notice of Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces the following meeting:

NAME OF COMMITTEE: NAC Space and Terrestrial Applications Advisory Committee, Ad Hoc Informal Advisory Subcommittee on Materials Processing in Space.

DATE AND TIME: April 3, 1981; 9:00 a.m.–4:00 p.m.

ADDRESS: National Aeronautics and Space Administration, Room 226A, Federal Building 10B, 600 Independence Avenue SW, Washington, D.C. 20546.

TYPE OF MEETING: Open.

AGENDA:

April 3, 1981

9:00 a.m.–Chairperson's Remarks
9:30 a.m.—Status of the Materials Research Society Meeting
10:00 a.m.—Status of the Space Materials Systems
10:30 a.m.—Status of Office of Management and Budget (OMB) Request for a New Scientific and Technical Aspects of Materials Processing in Space (STAMPS) Review
12:30 p.m.—Impact of Current Space Transportation System Schedule and Budget Changes on the Program
1:30 p.m.—Status of Unsolicited Proposals
2:30 p.m.—Summary and Recommendations
4:00 p.m.—Adjourn.

FOR FURTHER INFORMATION CONTACT: Dr. William A. Oran, National Aeronautics and Space Administration, Code EM-7, Washington, DC 20546 (202/755-8610).

SUPPLEMENTARY INFORMATION: This Subcommittee, comprised of six members of the NAC Space and Terrestrial Applications Advisory Committee, including the Chairperson, Dr. Martin E. Glicksman, reviews status and plans of the NASA Materials Processing in Space Programs. Members of the public will be admitted to the meeting on a first-come, first-served basis and will be required to sign a visitor's register. The seating capacity of the room is 35 persons.

Frank J. Simokaitis,

Acting Associate Administrator for External Relations.

March 10, 1981.

[FR Doc. 81-8098 Filed 3-16-81; 8:45 am]

BILLING CODE 7510-01-M

[Notice 81-25]

Space and Terrestrial Applications Steering Committee, Proposal Evaluation Advisory Subcommittee: Renewal

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of renewal.

SUMMARY: Pursuant to Section 14(b)(1) of the Federal Advisory Committee Act, Pub. L. 92-463, and after consultation with the General Services Administration, the National Aeronautics and Space Administration has determined that renewal of the Space and Terrestrial Applications Steering Committee, Proposal Evaluation Advisory Subcommittee, is in the public interest and in connection with the performance of duties imposed upon NASA by law.

FOR FURTHER INFORMATION CONTACT: Dr. Edward A. Flinn, National Aeronautics and Space Administration, Code ERG-2, Washington, DC 20546, (202/755-3848).

SUPPLEMENTARY INFORMATION: The Space and Terrestrial Applications Steering Committee, under which the subcommittee operates, is a NASA internal committee composed of senior management officials in the Office of Space and Terrestrial Applications.

The intent of this advisory subcommittee is to obtain the advice of the scientific community in evaluating research and investigations proposals for inclusion in NASA's Space and Terrestrial Applications Programs.

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

March 6, 1981.

NATIONAL SCIENCE FOUNDATION

NSF Advisory Council Steering Committee; Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Steering Committee of the NSF Advisory Council
Place: Room 536, National Science Foundation, 1800 G Street, N.W., Washington, D.C. 20550
Date: Monday, March 30, 1981
Time: 9:00 a.m. till 5:00 p.m.
Type of meeting: Open
Contact person: Ms. Jeanne Hudson, Executive Secretary, NSF Advisory Council, National Science Foundation, Room 518, 1800 G Street, N.W., Washington, D.C. 20550 Telephone: 202/357-9433
Purpose of steering committee: The purpose of the Steering Committee, composed of members of the NSF Advisory Council, is to assist the Chairperson and Foundation staff in planning Council activity and related matters not requiring the formation of a separate task group.
Summary minutes: May be obtained from the contact person at above stated address.
Agenda: To review with cognizant NSF staff the issues being studied by the four task groups and other issues of general concern.
Reason for late notice: Because of budgetary limitations, the decision to hold the scheduled meeting was just made.

Dated: March 11, 1981.

M. Rebecca Winkler,

Committee Management Coordinator.

BILLING CODE 7555-01-M

NSF Advisory Council; Task Group No. 16; Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Task Group #16 of the NSF Advisory Council
Place: Rm. 523, National Science Foundation, 1800 G Street N.W., Washington, D.C. 20550
Date: Friday, March 27, 1981
Time: 9:00 a.m. till 5:00 p.m.
Type of meeting: Open
Contact person: Ms. Jeanne Hudson, Executive Secretary of the NSF Advisory Council, National Science Foundation, Rm. 518, 1800 G Street N.W., Washington, D.C. 20550. Telephone: 202/357-9433
Purpose of task group: The purpose of the Task Group, composed of members of the NSF Advisory Council, is to provide the full Advisory Council with a mechanism to consider numerous issues of interest to the Council that have been assigned by the National Science Foundation.
Summary minutes: May be obtained from the contact person at above stated address.
Agenda: The Task Group is asked to examine the role of rotators with the NSF to (a) examine how they can be used most effectively, (b) suggest ways to avoid conflicts of interest, and (c) explore new and innovative ways of using rotators.
Reason for late notice: Because of budgetary limitations, decision to hold the scheduled meeting was just made.

Dated: March 11, 1981.

M. Rebecca Winkler,

Committee Management Coordinator.

NUCLEAR REGULATORY COMMISSION

Meteorological Factors of Emergency Preparedness; Nuclear Power Reactors; Functional Criteria for Emergency Response Facilities; Meetings

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meetings.

SUMMARY: The NRC staff has developed guidance for acceptable methods for considering meteorological factors and for providing emergency response facilities needed to implement the plans for coping with radiological emergencies. The staff will hold three meetings to present, explain, and discuss this guidance.

DATE AND LOCATIONS:

May 5—Holiday Inn—City Line—US 1 & I 76 City Ave. Exit, Philadelphia, PA.

May 6—Holiday Inn—Glen Ellyn—1250 Roosevelt Rd., Glen Ellyn, IL.

May 8—Stadium Hotel—450 Capitol Ave. S.E., Atlanta, GA.

FOR FURTHER INFORMATION CONTACT:

Mr. Steve L. Ramos, Division of Emergency Preparedness, Office of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington D.C. 20555, (Phone: 301/492-9700).

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission, in upgrading its emergency planning regulations to assure that adequate protective measures can and will be taken in the event of a radiological emergency, approved on July 23, 1980, final rule amendments to 10 CFR Part 50 and Appendix E. The final rule was published in the **Federal Register** on August 19, 1980 (45 FR 55402) and became effective on November 3, 1980.

A. In consideration of emergency preparedness, a series of planning standards were outlined in 10 CFR 50.47; this dictates that the onsite and offsite emergency response plans for nuclear power reactors must ensure that "(A) dequate methods, systems, and equipment for assessing and monitoring actual or potential offsite consequences of a radiological emergency condition are in use." Meterorological measurements and dose assessment programs at unclear power reactor sites address this standard in part.

The staff has developed a number of documents outlining guidance that is being implemented at operating plants under construction. The documents which present the criteria and some clarification of the meteorological programs for emergency preparedness considerations includes: NUREG-0654, Revision 1, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants"; NUREG-0737, "Clarification of TMI Action Plan Requirements"; NUREG-0696, "Functional Criteria for Emergency Reponse Facilities"; proposed Revision 1 to Regulatory Guide 1.23, "Meterological programs in Support of Nuclear Power Plans"; and Regulatory Guide 1.97, Revision 2, "Instrumentation of Light-Water-Cooled Nuclear Power Plants to Assess Plant and Envirions Conditions During and Following an Accident".

The staff, partly on the basis of licensee/applicant submittals, has determined that ths guidance should be consolidated and the requirements should be explained in more detail.

B. The Commission has recently approved for publication NUREG-0696, "Functional Criteria for Emergency Response Facilities". The draft version of this report was published in July 1980, and issued for public comment on August 15, 1980 (45 FR 54708). Regional meetings were held in August 1980, to discuss the guidance developed for an acceptable method for providing the emergency response facilities needed to implement the plans for coping with emergencies that are required by 10 CFR 50.34 and Appendix E to 10 CFR Part 50. The criteria have been revised considering the comments received.

In view of the substantive changes that were made in NUREG–0696, the staff has determined that it is appropriate to review the guidance set forth in the final report.

The primary purpose of this meeting is (1) to consolidate guidance on meteorological programs relating to emergency preparedness; (2) outline an acceptable schedule and the regulatory approach for implementing the programs; (3) provide a brief description of ongoing NRC activities pertinent to the meteorological considerations in emergency preparedness. In a related area, the criteria document (NUREG–0696) for emergency response facilities was recently published; the staff will take the opportunity to review the final report.

This meeting is intended for licensee/applicants and their representatives; persons other than the NRC staff and licensee representatives will be permitted to participate only as time will allow. Questions of generic interest to all participants may be entertained; site-specific questions will not, however, licensee/applicants are encouraged to meet with the staff to resolve outstanding issues.

An agenda and schedule for the meeting has been prepared:

Agenda for Meteorological Factors of Emergency Preparedness and Emergency Response Facilities Meeting

A. Meteorological Factors Session (8:30–11:30)

Introduction:
- Purpose and Scope of the Meeting
- Background Discussions
- Emergency Preparedness Overview
- Meteorology Overview

Regulatory Approach
Ongoing Activities

B. Emergency Response Facilities Session (1:30–3:30)

Introduction
Emergency Response Facilities (ERF)
Location and Habitability of ERFs
Data Acquisition System Integration and Reliability

Dated at Bethesda, Md., this 10th day of March 1981.

For the Nuclear Regulatory Commission.

Brian K. Grimes,

Director, Division of Emergency Preparedness, Office of Inspection and Enforcement.

BILLING CODE 7590-01-M

[Docket No. 50-395 OL]

South Carolina Electric and Gas Co. and South Carolina Public Service Authority (Virgil C. Summer Nuclear Station, Unit 1); Order Setting Final Prehearing Conference

March 10, 1981.

Please take notice that a final prehearing conference under 10 CFR 2.752 has been scheduled for 9:30 a.m. on April 7, 1981 at the Richland County Judicial Center, Courtroom 2–A, 1701 Mail Street, Columbia, South Carolina 29202. The purpose of the conference is to discuss all of the matters specified in § 2.752.

The parties or their counsel are directed to attend. No limited appearance statements will be heard at the conference.

The parties are requested to file by March 31, 1981, their suggestions, if any, with regard to all actions to be taken by the Board.

By order of the Board.

For the Atomic Safety and Licensing Board.

Herbert Grossman,

Chairman, Administrative Judge.

BILLING CODE 7590-01-M

[Docket Nos. 50-259 OLA, 50-260 OLA, 50-296 OLA]

Tennessee Valley Authority, (Browns Ferry Nuclear Plant Unit Nos. 1, 2 and 3); Order Setting Special Prehearing Conference

March 10, 1981.

In the matter of onsite storage of radwaste.

On December 11, 1980, the Nuclear Regulatory Commission published in the **Federal Register** a Notice of Consideration of Amendments to Facility Operating Licenses DPR–33, DPR–52 and DPR–68, issued to Tennessee Valley Authority (Licensee), for Browns Ferry Nuclear Plant, Unit Nos. 1, 2 and 3, located in Limestone County, Alabama. 45 FR 81697. The proposed amendments would authorize the Licensee to store onsite the low level radioactive waste generated by the facility for a period of five years.

The notice provided that the Licensee might file a request for a hearing and that any peron whose interest might be affected by the proceeding and who wished to participate as a party in the proceeding must file a written petition for leave to intervene by January 12, 1981 in accordance with 10 CFR 2.714. By that date, six identical petitions were filed,* each signed by from three to five petitioners, listed alphabetically as follows: Noel M. Beck, Robert W. Beck, Gregory Robert Brough, Alice N. Colcock, David R. Curott, Uvonna J. Curott, David Ely, Hollis Fenn, Richard L. Freeman, Marjorie L. Hall, Debbie Havas, Rebecca Hudgins, Richard W. Jobe, John Martin, Betty Martin, Nancy Muse, Thomas Wayne Paul, Michael D. Pierson and Tom Thornton.

By reply dated January 27, 1981, Licensee sought denial of the petitions for leave to intervene on the grounds that petitioners lacked standing because they had no possible interests that could be affected by the proposed amendment of licenses. By responses dated January 28, 1981 (to the first five petitions received) and February 23, 1981 (to the missing sixth petition discussed in the footnote, *supra*), the Staff conceded petitioners' interest to intervene but denied that petitioners had met the "aspects" requirement of 10 CFR 2.714 or had yet raised the litigable contention within the scope of the proceeding that are necessary prerequisites to granting a petition to intervene and issuing a Notice of Hearing. The Staff noted, however, that 10 CFR 2.714(a)(3) permits the amendment of a petition without approval of the presiding officer at any time up to fifteen (15) days prior to the holding of the special prehearing conference and that § 2.714(b) permits the filing of a supplement to the petition containing a list of contentions by that same deadline, so as to afford petitioners an opportunity to satisfy the aspect and contention requirements.

An Atomic Safety and Licensing Board was designated to rule upon interventions and requests for hearing, and to preside over the proceeding in the event that a hearing is ordered. The Board is comprised of the following Administrative Judges: Mrs. Elizabeth Johnson, Dr. Quentin J. Stober and Herbert Grossman, Esquire, who will act as Chairman. 46 Fed. Reg. 10579 (February 3, 1981).

Pursuant to the provisions of 10 CFR 2.751(a), the Board will conduct a special prehearing conference beginning

*A petition filed by Hollis Fenn, Rebecca Hudgins and Tom Thornton was not received until after the Staff had responded to five of the petitions on January 28, 1981. Apparently after noticing that the sixth petition was not referred to in the Staff response, a copy of the sixth petition was forwarded by petitioners to the NRC. In a follow-up telephone call placed by the NRC Staff, petitioner Hollis Fenn indicated that his original petition had been mailed at the same time as the other five petitions.

The Board has no reason to question Mr. Fenn's representation, and will treat all six petitions as timely filed.

at 9:30 a.m. on April 10, 1981 at the Huntsville Public Library, 108 Fountain Circle, Huntsville, Alabama 35804. All prospective parties to this proceeding, or their respective counsel, are directed to attend. At the special prehearing conference, the participants should be prepared to discuss petitioners' standing to intervene, specific issues that might be considered at an evidentiary hearing, and possible further scheduling in the proceeding.

Petitioners shall file supplements to their petitions not later than fifteen days prior to the special prehearing conference, which shall include a list of specific contentions sought to be litigated in this proceeding. Licensee and Staff are requested to file any responses to the supplemented petitions by April 7, 1981 and deliver copies to the Board on that date.

The public is invited to attend the special prehearing conference. No oral limited appearance statements will be permitted at this conference. If a hearing is granted, opportunity to present limited appearance statements will be afforded at subsequent conferences or evidentiary hearings near the site of the facility. Written limited appearance statements may be mailed to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 or submitted at any conferences or sessions of the evidentiary hearing.

By order of the Board.

For the Atomic Safety and Licensing Board.

Herbert Grossman,

Chairman, Administrative Judge.

BILLING CODE 7590-01-M

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corp.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 63 to Facility Operating License No. DPR-28, issued to Vermont Yankee Nuclear Power Corporation (the licensee), which revised the Technical Specifications for operation of the Vermont Yankee Nuclear Power Station (the facility), located in Windham County, Vermont. The amendment is effective as of the date of issuance.

These changes to the Technical Specifications involve incorporation of certain of the TMI-2 Lessons Learned Category "A" requirements. These requirements concern (1) Emergency Power Supply/Inadequate Core Cooling, (2) Valve Position Indication, (3) Containment Isolation, (4) Shift Technical Advisor Augmentation, (5) Integrity of Systems Outside Containment and (6) Iodine Monitoring.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any signficant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated September 12, 1980, as supplemented January 5, 1981, (2) Amendment No. 63 to License No. DPR-28 and (3) the Commission's related Saftey Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Brooks Memorial Library, 224 Main Steet, Brattleboro, Vermont 05301. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 2nd day of March 1981.

For the Nuclear Regulatory Commission.

Thomas A. Ippolito,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

OFFICE OF PERSONNEL MANAGEMENT

Committee on Private Voluntary Agency Eligibility

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the Office of Personnel Management announces the following meeting:

Name: Committee on Private Voluntary Agency Eligibility.
Date and Time: March 26, 1981, 10:00 A.M.
Place: Office of Personnel Management, 1900 E Street, N.W., Washington, D.C.
Room: Auditorium—GJ-14 (Ground floor).
Type of Meeting: Open. Any interested person may file a written statement with the Committee in advance of or at the meeting.
Contact Person: Neida A. Perkins, Office of the Assistant to the Director, Office of Personnel Management, 1900 E Street, N.W., Washington, D.C. 20415. Telephone: 202-632-5564.
Purpose of Committee: To make recommendations to the Director of the Office of Personnel Management regarding eligibility of national voluntary agencies to participate in the Federal fundraising program.
Agenda: Completion of review of applications for fund-raising privileges which have been submitted by voluntary organizations to the Office of Personnel Management in accordance with the Federal Fund-Raising Manual on which action was deferred by the Committee at its February 27, 1981, meeting.

Joseph S. Patti,

Assistant to the Director.

BILLING CODE 6325-01-M

POSTAL RATE COMMISSION

[Docket No. A81-1; Order No. 369]

Dalton, Arkansas 72423 (Rodney W. Moore, Petitioner); Order of Filing of Appeal

Issued: March 10, 1981.

On March 3, 1981, the Commission received a letter from Rodney W. Moore (hereinafter "Petitioner"), concerning alleged United States Postal Service plans to close the Dalton, Arkansas post office. Although the letter makes no explicit reference to the Postal Reorganization Act, we believe it should be construed as a petition for review pursuant to section 404(b) of the Act [39 U.S.C. 404(b)], so as to preserve Petitioner's right to appeal which is subject to a 30-day time limit.[1] The petition does not conform perfectly with the Commission's rules of practice, which also require a petitioner to attach a copy of the Postal Service's Final Determination to the petition.[2] However, section 1 of the Commission's rules of practice calls for a liberal construction of the rules to secure just and speedy determination of issues.[3]

The Act requires that the Postal Service provide the affected community with at least 60 days' notice of a proposed post office closing so as to

[1] 39 U.S.C. 404(b)(5). 39 U.S.C. 404(b) was added to title 39 by Pub. L. 94-421 (September 24, 1976), 90 Stat. 1310-11. Our rules of practice governing these cases appear at 39 CFR 3001.110 *et seq.*

[2] 39 CFR 3001.111(a).

[3] 39 CFR 3001.1.

"ensure that such persons will have an opportunity to present their views."[4] The petition requests that the decision to close the Dalton post office be reversed. From the face of the petition it is unclear whether any hearings were held and whether a determination has been made under 39 U.S.C. 403(b)(3). (Petitioner failed to supply a copy of the Postal Service's Final Determination, if one is in existence.) The Commission's rules of practice require the Postal Service to file the administrative record of the case within 15 days after the date on which the petition for review is filed with the Commission.[5]

The Postal Reorganization Act states:

> The Postal Service shall provide a maximum degree of effective and regular postal services to rural areas, communities, and small towns where post offices are not self-sustaining. No small post office shall be closed solely for operating at a deficit, it being the specific intent of the Congress that effective postal services be insured to residents of both urban and rural communities.[6]

Section 404(b)(2)(c) of the Act specifically includes consideration of this goal in determinations by the Postal Service to close post offices. The effect on the community is also a mandatory consideration under section 404(b)(2)(A) of the Act.

The petition appears to set forth the Postal Service action complained of in sufficient detail to warrant further inquiry to determined whether the Postal Service complied with its regulations for the discontinuance of post offices.[7]

Upon preliminary inspection, the petition appears to raise the following issues of law:

1. Did the Postal Service adequately consider the Dalton community identity, as described by Petitioner, in conformance with the "effect on community" standard of section 404(b)(2)(A)?

2. Whether the Postal Service considered the change the closing would cause in the community's use of the postal services under the effect on postal service factor, section 404(b)(2)(C)?

Other issues of law may become apparent when the Commission has had the opportunity to examine the determination made by the Postal Service. Such additional issues may emerge when the parties and the Commission review the Service's determination for consistency with the principles announced in *Lone Grove, Texas, et al.*, Docket Nos. A79-1, *et al.* (May 7, 1979), and the Commission's subsequent decisions on appeals of post office closings and consolidations. The determination may be found to resolve adequately one or more of the issues involved in the case.

In view of the above, and in the interest of expediting this proceeding under the 120-day decisional deadline imposed by section 404(b)(5), the Postal Service is advised that the Commission reserves the right to request a legal memorandum from the Service on one or more of the issue described above and/or any further issues of law disclosed by the determination made in this case. In the event that the Commission finds such memorandum necessary to explain or clarify the Service's legal position or interpretation on any such issue, it will, within 20 days of receiving the determination and record pursuant to section 113 of the rules of practice (39 CFR 3001.113) make the request therefore by order, specifying the issues to be addressed.

When such a request is issued, the memorandum shall be due within 20 days of the issuance, and a copy of the memorandum shall be served on the Petitioner by the Service.

In briefing the case or in filing any motion to dismiss for want of prosecution in appropriate circumstances the Service may incorporate by reference all or any portion of a legal memorandum filed pursuant to such an order.

The Act does not contemplate appointment of an Officer of the Commission in section 404(b) cases,[8] and none is being appointed. The Commission orders that

(A) The letter of March 3, 1981 from Rodney W. Moore be construed as a petition for review pursuant to section 404(b) of the Act [39 U.S.C. 404(b)].

(B) The Secretary of the Commission shall publish this Notice and Order in the **Federal Register**.

(C) The Postal Service shall file the administrative record in this case on or before March 18, 1981, pursuant to the Commission's rules of practice [39 CFR 3001.113(a)].

By the Commission.

David F. Harris,

Secretary.

BILLING CODE 4810-22-M

Office of the Secretary

[Public Debt Series No. 7-81]

Treasury Notes of March 31, 1983; Series P-1983

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $4,750,000,000 of the United States securities, designated Treasury Notes of March 31, 1983, Series P-1983 (CUSIP No. 912827 LR 1). The securities will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing securities held by them.

2. Description of Securities

2.1. The securities will be dated March 31, 1981, and will bear interest from that date, payable on a semiannual basis on September 30, 1981, and each subsequent 6 months on March 31 and September 30, until the principal becomes payable. They will mature March 31, 1983, and will not be subject to call for redemption prior to maturity. In the event an interest payment date or the maturity date is a Saturday, Sunday, or other nonbusiness day, the interest or principal is payable on the next-succeeding business day.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revene Code of 1954. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure desposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000, an $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupons, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Standard time, Wednesday, March 18, 1981. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, March 17, 1981.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $5,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed $1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities, or readily collectable checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount

limit of 99.500. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to instituted investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.5., must be made or completed on or before Tuesday, March 31, 1981. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Friday, March 27, 1981. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Supplementary Statement: The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the Departmental procedures applicable to such regulations.

Paul H. Taylor,

Fiscal Assistant Secretary.

Sunshine Act Meetings

Federal Register
Vol. 46, No. 51
Tuesday, March 17, 1981

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94–409) 5 U.S.C. 552b(e)(3).

CONTENTS

	Items
Consumer Product Safety Commission	1
Federal Home Loan Bank Board	2
International Trade Commission	3, 4
U.S. Railway Association	5, 6

1

CONSUMER PRODUCT SAFETY COMMISSION.

DATE AND TIME: February 12, 1981, and subsequent dates; see below.

LOCATION: Eighth floor conference room, 1111 18th Street, NW., Washington, D.C.

STATUS: Closed to the public.

MATTERS TO BE CONSIDERED: CPSC Budget.

ADDITIONAL INFORMATION: On February 12, 1981, the Commission voted to hold a meeting to consider matters related to CPSC's budget for Fiscal Year 1982. At this meeting, all four Commissioners voted to close this and subsequent meetings on this matter until March 13, 1981, under exemption 9 (possible significant frustration of agency action). In addition, the Commission voted that agency business required holding this meeting without the normal seven-day notice.

By unanimous vote (4–0) the Commission made a similar finding and waived the notice requirement for the following meetings on CPSC's budget, which were also closed under exemption 9:

February 23, 1981,
February 25, 1981,
March 3, 1981,
March 6, 1981, and
March 10, 1981.

FOR ADDITIONAL INFORMATION, CONTACT: Sheldon D. Butts, Deputy Secretary, Office of the Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street, NW., Washington, D.C. 20207, telephone: (202) 634–7700.

[S–419–81 Filed 3–13–81; 10:49 am]

BILLING CODE 6355–01–M

2

FEDERAL HOME LOAN BANK BOARD.

TIME AND DATE: 3 p.m., March 23, 1981.

PLACE: 1700 G Street NW., sixth floor, Washington, D.C.

STATUS: Open meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Marshall (202–377–6679).

MATTERS TO BE CONSIDERED: Proposed Move of the Federal Home Loan Bank of Little to the Dallas SMSA.

No. 460, March 13, 1981.

[S–420–81 Filed 3–13–81; 11:41 am]

BILLING CODE 6720–01–M

3

[USITC SE–81–6]

INTERNATIONAL TRADE COMMISSION.

TIME AND DATE: 2 p.m., Monday, March 23, 1981.

PLACE: Room 117, 701 E Street NW., Washington, D.C. 20436.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agenda.
2. Minutes.
3. Ratifications.
4. Petitions and complaints, if necessary.
5. Investigation 337–TA–62 (Certain Headboxes and Papermaking Machine Forming Sections for the Continuous Production of Paper, and Components Thereof)—briefing and vote.
6. Investigation 731–TA–38 [Preliminary] (Truck Trailer Axle-and-Brake Assemblies from Hungary)—briefing and vote.
7. Investigation 751–TA–3 (Potassium Chloride from Canada)—briefing and vote.
8. Any items left over from previous agenda.

CONTACT PERSON FOR MORE INFORMATION: Kenneth R. Mason, Secretary (202) 523–0161.

[USITC ERB–81–1]

INTERNATIONAL TRADE COMMISSION.

Executive Resources Board (ERB)

TIME AND DATE: 10 a.m., Wednesday, March 25, 1981.

PLACE: Room 117, 701 E Street NW., Washington, D.C. 20436.

STATUS: Closed to the public.

MATTERS TO BE CONSIDERED: Pursuant to the specific exemptions of 5 U.S.C. 552b(c) (2) and (6), on the authority of 19 U.S.C. 1335, and in conformity with 19 CFR 201.36(b) (2) and (6), Commissioners Calhoun and Stern, as members of the Executive Resources Board (ERB), voted to hold a meeting of the Board in closed session as follows:

Old Business

a. SES Manpower Planning—
   1. Status of Director of Economics' position.
   2. Status of long-range plans submitted to OPM.
b. Evaluations—
   1. Report on OPM evaluation of SES Program.
   2. Report on agency evaluation of SES Policy.

Commissioner Bedell voted to hold the meeting in open session.

A majority of the entire membership of the Board felt that this meeting should be closed to the public since: (1) the discussion would only concern internal personnel practice and procedures; and (2) the information discussed would be likely to disclose information of a personal nature which could constitute a clearly unwarranted invasion of personal privacy.

CONTACT PERSON FOR MORE INFORMATION: Kenneth R. Mason, Secretary (202) 523–0161.

U.S. RAILWAY ASSOCIATION.

TIME AND DATE: 9 a.m., March 21, 1981.

PLACE: 955 L'Enfant Plaza North, SW., board room 2–500, fifth floor, Washington, D.C.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED BY THE BOARD OF DIRECTORS: Portions closed to the public (9 a.m.):

1. Consideration of internal personnel matters.
2. Litigation report.
3. Review of Delaware and Hudson financial and proprietary information.

Portions open to the public (9:30 a.m.):

4. Approval of minutes of the Board's March 4 and March 5, 1981 meetings.
5. Election of Conrail Board of Directors.

6. Consideration of Conrail drawdown request.

7. Consideration of Conrail second quarter investment commitment request.

8. Consideration of 211(h) loan rollover.

9. Consideration of Delaware and Hudson drawdown request.

10. Contract Actions (extensions and approvals).

Portions closed to the public:

11. Review of Conrail financial and proprietary information and discussion of the Association's report to Congress required by the Staggers Rail Act of 1980.

CONTACT PERSON FOR MORE INFORMATION: Alex Bilanow, (202) 426–4250.

BILLING CODE 3110-01-M

Circular A-122, "Cost Principles for Nonprofit Organizations"

Correction

In FR Doc. 81-20270, appearing at page 46022 in the issue of Tuesday, July 8, 1980, the following changes should be made:

1. On page 46024, column three, the second sentence in paragraph A.5.b. should read, "Specifically, the concept of netting such credit items against related expenditures should be applied by the organization in determining the rates or amounts to be charged to Federal awards for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by Federal funds."

2. On page 46024, column three, the second complete sentence in paragraph A.6. should read, "This is particularly true in connection with organizations that receive a preponderance of their support from Federal agencies."

3. On page 46025, column one, paragraph B.2. should read, "2. Any direct cost of a minor amount may be treated as an indirect cost for reasons of practicality where the accounting treatment for such cost is consistently applied to all final cost objectives."

4. On page 46025, column one, paragraph B.4.f. should read, "f. Administration of group benefits on behalf of members or clients including life and hospital insurance, annuity or retirement plans, financial aid, etc."

5. On page 46025, column two, the first sentence in paragraph D.1.e. should read, "The base period for the allocation of indirect costs is the period in which such costs are incurred and accumulated for allocation to work performed in that period."

6. On page 46026, column one, the second sentence in paragraph D.3.d should read, "The costs in the common pool shall then be distributed to individual awards included in that function by use of a single indirect cost rate."

7. On page 46026, column one, the first sentence in paragraph D.3.e. should read, "The distribution based used in computing the indirect cost rate for each function may be total direct costs (excluding capital expenditures and other distorting items such as major subcontracts and subgrants), direct salaries and wages, or other base which results in an equitable distribution."

8. On page 46026, column one, the first and second sentences in paragraph D.4.a. should read, "Some nonprofit organizations treat all costs as direct costs except general administration and general expenses. These organizations generally separate their costs into three basic categories: * * *."

9. On page 46026, the last sentence in column one (extending to column two), in paragraph D.5. should read, "The factors may include the physical location of the work, the level of administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills involved, the organizational arrangements used, or any combination thereof."

10. On page 46026, column three, paragraph E.2.i. should read, "i. To the extent that problems are encountered among the Federal agencies in connection with the negotiation and approval process, the Office of Management and Budget will lend assistance as required to resolve such problems in a timely manner."

11. On page 46030, column one, the introductory text of paragraph 16.b. and paragraph 16.b.(1) should read, "b. The costs of idle facilities are unallowable except to the extent that: (1) They are necessary to meet fluctuations in workloads; or".

12. On page 46030, column one, the second sentence in paragraph 16.c. should read, "Such costs are allowable, provided the capacity is reasonably anticipated to be necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics or security practices."

13. On page 46031, second column, paragraph 34.c. should read, "In addition to the factors in paragraph b. above, retainer fees to be allowable must be supported by evidence of bona fide services available or rendered."

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing February 19, 1981

V. 46 / 51 MR 17 81 UMI

The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**

The **Federal Register**, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps people up to date on the Federal regulations currently in effect.

The **Federal Register** contains many reader's aids—Highlights, Grant information, list of hearings and Sunshine meetings—which simplify the user's job.

The **Code of Federal Regulations** (CFR) contains the annual codification of the final regulations printed in the **Federal Register**. Each of the 50 titles is updated annually.

Subscription Prices:

Federal Register
One year: $75 domestic; $145 foreign
Six months: $45 domestic; $90 foreign

Code of Federal Regulations
One year: $525 domestic; $656 foreign
Single volumes: Individually priced.

Highlights

17216 **Nuclear Power Plants—Licensing** NRC proposes to expedite conduct of adjudicatory proceedings on applications to construct or operate plants; comments by 4–7–81

17227 **Electric Untilities** DOE/FERC extends comment period to 3–30–81, on paper entitled "Establishing the Rate of Return on Equity for Wholesale Electric Sales: Potential Regulatory Reforms"

17187, 17188 **Credit Unions** NCUA deletes regulation concerning filing of annual Report of Officials, effective 3–12–81, and allows greater flexibility in establishment of records preservation programs, effective 4–18–81 (2 documents)

17219 **Securities** SEC proposes to amend requirements applicable to notices and applications filed by self-regulatory organizations concerning membership or participation of certain persons subject to statutory disqualifications; comments by 4–22–81

17366 **Existing Housing and Mobile Homes** HUD/FHC amends Fair Market Rates (Part II of this issue)

17232 **Veterans** VA proposes to revise transportation allowances for burial of unclaimed veterans and to eliminate requirement of an outside box for interment in a National Cemetery; comments by 4–17–81

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

17239–17241 **Grant Programs—Minority Business** Commerce/MBDA seeks applications by 4–9–81, for two New York Region projects; by 4–16–81, for a Nassau-Suffolk (New York) SMSA project; by 4–17–81, for one project in the Norfolk/Virginia Beach/Portsmouth and Hampton/Newport News SMSA's; and by 4–23–81, for two San Francisco Region projects (4 documents)

17229, 17230 **Pesticides** EPA proposes to exempt "boiled" linseed oil from requirement of tolerance when applied to growing rice as an inert ingredient before edible parts form and proposes tolerances for residues of amiben; comments by 4–17–81 (2 documents)

17526 **Foreign Trade** ITC provides additional procedures for termination of investigations of unfair practices in import trade; effective 3–10–81 (Part III of this issue)

17218 **Exports** Commerce/ITA invites public comment by 5–18–81, on merits of removing or revising restrictions on certain unfinished napthas used for petrochemical feedstocks

17190 **Antidumping** Commerce/ITA revokes finding on portland cement, other than white, nonstaining portland cement, from Belgium; effective 3–18–81

17233 **Marine Communications** FCC terminates proceeding concerning output power of marine transmitters on ships using vertical antennas

17202 **Government Procurement** GSA transfers policies and procedures regarding termination of contracts; effective 3–27–81

Privacy Act Documents

17243 DOD, Sec'y (2 documents)
17187, 17317 Social Security
National Commission (2 documents)

Rules and Regulations

Federal Register
Vol. 46, No. 52
Wednesday, March 18, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

NATIONAL COMMISSION ON SOCIAL SECURITY

1 CFR Part 485

Privacy Act of 1974 Regulations

AGENCY: National Commission on Social Security.

ACTION: Final rule.

SUMMARY: The National Commission on Social Security has terminated by compliance with Pub. L. 96-265, which extended the Commission.

EFFECTIVE DATE: April 1, 1981.

FOR FURTHER INFORMATION CONTACT: Laura Kreuzer (202) 376-2622.

SUPPLEMENTARY INFORMATION:

PART 485—PRIVACY ACT IMPLEMENTATION [Removed]

Commission hereby removes Part 485 from 1 CFR.

Dated: March 11, 1981.

BILLING CODE 6820-AC-M

FEDERAL LABOR RELATIONS AUTHORITY, GENERAL COUNSEL OF THE FEDERAL LABOR RELATIONS AUTHORITY, AND FEDERAL SERVICE IMPASSES PANEL

5 CFR Ch. XIV

Change in Sub-Regional Office Address

AGENCY: Federal Labor Relations Authority (including the General Counsel of the Federal Labor Relations Authority) and Federal Service Impasses Panel.

ACTION: Amendment of rules and regulations.

SUMMARY: This rule amends Appendix A, paragraph (d)(5)(a) (45 FR 80467) of the final rules and regulations of the Federal Labor Relations Authority (Authority), General Counsel of the Federal Labor Relations Authority (General Counsel), and Federal Service Impasses Panel (Panel), published at 45 FR 3482, to establish a new address and telephone numbers for the permanent location of the Authority's Cleveland, Ohio Sub-Regional Office within the Authority's Chicago, Illinois Regional Office.

EFFECTIVE DATE: February 25, 1981.

FOR FURTHER INFORMATION CONTACT: Alvin H. Gandal, Assistant General Counsel (202) 632-5106.

SUPPLEMENTARY INFORMATION: Effective January 17, 1980, the Authority, General Counsel and Panel published, at 45 FR 3482, final rules and regulations to govern the processing of cases by the Authority, General Counsel and Panel under Chapter 71 of Title 5 of the United States Code. These rules and regulations are required by Title VII of the Civil Service Reform Act of 1978.

Appendix A, paragraph (d) of the rules and regulations (45 FR 3522) sets forth the current office addresses and telephone numbers of the Regional Directors of the Authority. The amendment sets forth the changed address and telephone numbers of the Cleveland, Ohio Sub-Regional Office of the Authority. Accordingly, Appendix A to Chapter XIV, paragraph (d)(5)(a) of the Authority, General Counsel, and Panel rules and regulations (45 FR 80467) is revised to read as follows:

Appendix A to 5 CFR Ch. XIV—Current Addresses and Geographic Jurisdictions

* * * * *

(d) The Office addresses of Regional Directors of the Authority are as follows:

* * * * *

(5)(a) *Cleveland, Ohio*—1301 Superior Avenue; *Sub-Regional Office*—Suite 220, Cleveland, Ohio 44114. Telephone: FTS—293-2114, Commercial—(216) 522-2114.

* * * * *

FEDERAL HOME LOAN BANK BOARD

12 CFR Parts 541 and 545

[No. 81-19]

Debit Cards; Remote Service Unit Amendments

Correction

In FR Doc. 81-2980 appearing at page 8438, in the issue of Tuesday, January 27, 1981, make the following correction:

On page 8440, first column, the first section heading "§ 551.4", should read "§ 545.4".

BILLING CODE 1505-01-M

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 701

Election Report; Deregulation

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule.

SUMMARY: In accordance with the established policy goals of clarifying and simplifying its regulations, the National Credit Union Administration Board (NCUA Board) has reviewed its existing regulation concerning the filing of an annual Report of Officials. As a result, NCUA will delete this regulation. The action will eliminate a regulation which has language duplicative of the Federal Credit Union Act.

EFFECTIVE DATE: March 12, 1981.

ADDRESS: National Credit Union Administration, 1776 G Street N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Thomas A. Straslicka, Chief, Examination Section, Office of

Examination and Insurance. Telephone: (202) 357–1065.

SUPPLEMENTAL INFORMATION: Section 701.11 of the NCUA Rules and Regulations is virtually identical to Section 111 of the Federal Credit Union Act. The deletion of § 701.11 reduces redundant instructions on the same subject. The deletion does not diminish or change in any way the Federal credit union's responsibility to file an annual Report of Officials. Annually each Federal credit union receives from NCUA a Report of Officials to which instructions are attached.

Regulatory Analysis

No regulatory analysis has been developed for this regulatory action because it will not result in (1) an annual effect on the economy of $100 million or more, or (2) a major increase in costs or expenses for all, or a significant portion of Federal or Federally insured credit unions with assets under $1 million or for other financial institutions.

Failure to Solicit Public Comment

The deletion of this regulation removes redundant instructions. Therefore, the Board for good cause, finds that notice and public procedure on this action is unnecessary and thus, exempt by 5 U.S.C. 533(6)(B).

Procedure for Regulatory Development

The procedures set forth in NCUA's Final Report: "Improving Government Regulations" have been waived in accordance with the exception provided in Part I of the final report. The official responsible for the decision is Todd Okun, Assistant General Counsel.

Dated: March 12, 1981.

Rosemary Brady,

Secretary, NCUA Board.

Authority: Section 111, 73 Stat. 630 (12 U.S.C. Section 1761).

Accordingly, 12 CFR 701.11 is hereby amended as set forth below.

§ 701.11 [Removed]

1. 12 CFR 701.11 is removed.

[FR Doc. 81-8278 Filed 3-17-81; 8:45 am]

BILLING CODE 7535-01-M

---

12 CFR Part 749

Records Preservation Program

AGENCY: National Credit Union Administration.

ACTION: Final rule.

SUMMARY: In accordance with the established policy goals of clarifying and simplifying its regulations, the National Credit Union Administration Board (NCUA Board) has reviewed its existing regulation regarding records preservation programs. As a result of this review, the National Credit Union Administration will adopt a simplified version of its present records preservation program regulation. This action will allow greater flexibility to the boards of directors of Federal credit unions in the establishment of records preservation programs.

EFFECTIVE DATE: April 18, 1981.

ADDRESS: National Credit Union Administration, 1776 G Street, N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Richard Galik, Office of Examination and Insurance. Telephone: (202) 357–1065.

SUPPLEMENTAL INFORMATION: On November 20, 1980, the NCUA Board conducted a preliminary review on a proposal to determine the need for regulations concerning records preservation programs.

After deliberating on these issues at the open board meeting of November 20, 1980, it was the unanimous decision of the NCUA Board to simplify the regulation and place the informational provisions of § 749.4 of the regulation into an appropriate NCUA manual so that guidance is available for Federal credit unions should they wish to avail themselves of this service.

This action will allow greater flexibility to the board of directors of Federal credit unions in the establishment of policies and procedures concerning records preservation programs.

The NCUA Board indicated that this action was taken in the interest of reducing the regulatory burden imposed upon Federal credit unions. The NCUA Board is particularly interested in reducing the cumulative effects of regulations upon small Federal credit unions.

Regulatory Analysis

No regulatory analysis has been developed for this regulatory action because it will not result in (i) an annual effect on the economy of $100 million or more, or (ii) a major increase in costs or expenses for all, or a significant portion of, Federal or federally-insured credit unions with assets under $1 million or for other financial institutions.

Failure to Solicit Public Comment

The simplification of this regulation will permit Federal credit unions to exercise the authority to develop their own records preservation programs. The NCUA Board finds, for good cause, that notice and public procedure on this action is unnecessary and is thus exempt by 5 U.S.C. 553(b)(B).

Procedure for Regulatory Development

The procedures set forth in NCUA's Final Report: "Improving Government Regulations" have been waived in accordance with the exception provided in Part 1 of the final report. The official responsible for the decision is Robert M. Fenner, Deputy General Counsel.

Rosemary Brady,

Secretary, NCUA Board.

March 12, 1981.

Accordingly, 12 CFR Part 749 is hereby revised as set forth below.

PART 749—RECORDS PRESERVATION PROGRAM

Sec.
749.0 Records Preservation.
749.1 Implementation.
749.2 Vital Records to be stored.
749.3 Storage provided by the Administration.

Authority: Sec. 120, 73 Stat. 635, (12 U.S.C. Sec. 1766); Sec. 202, 84 Stat. 995 (12 U.S.C. Sec. 1783); Sec. 209, 84 Stat. 1015 (12 U.S.C. Sec. 1789)

PART 749—RECORDS PRESERVATION PROGRAM

§ 749.0 Records Preservation.

All federally insured credit unions must maintain a records preservation program to identify, store and reconstruct vital records in the event that the credit union's records are destroyed.

§ 749.1 Implementation.

The treasurer of the credit union is responsible for storing duplicate vital records at a vital records center. This responsibility may be delegated.

(a) The Records Preservation Program must be operational within 6 months after the credit union's insurance certificate is issued.

(b) The vital records center is defined as any location far enough from the credit union's office to avoid the simultaneous loss of both sets of records in the event of disaster.

(c) Records must be stored every 3 months, within 30 days after the end of the 3 month period. Previously stored records may be destroyed when the current records are stored.

(d) A records preservation log will be maintained showing what records were stored, where the records were stored, when the records were stored, and who sent the records for storage.

(e) Stored records may be any format which can be used to reconstruct the

credit union's records. Formats include paper originals, machine copies, micro film or fiche, magnetic tape, etc.

(f) Credit unions which have some or all of their records maintained by an off-site data processor are considered to be in compliance for the storage of those records.

§ 748.2 Vital Records to be stored.

At least the following records, as of the most recent month end, must be stored:

(a) A list of share and/or deposit and loan balances for each member's account.

(1) The list of balances will be individually identified by a name or number.

(2) Multiple loans of one account will be listed separately.

(b) A financial report which lists all of the credit union's asset and liability accounts.

(c) A list of the credit union's banks, insurance policies and investments. This information may be marked "permanent" and be updated only when changes are made.

§ 748.3 Storage provided by the Administration.

Insured credit unions may participate in the Administration's records preservation program free of charge by writing to: Underground Vaults and Storage Inc., Post Office Box 1723, Hutchinson, KS 67501.

[FR Doc. 81-8279 Filed 3-17-81; 8:45 am]

BILLING CODE 7535-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Part 388

Revision of Administrative Proceedings Provisions of the Export Administration Regulations; Correction

AGENCY: International Trade Administration, Commerce.

ACTION: Final rule; correction.

SUMMARY: This document corrects internal references contained in the final regulations on administrative proceedings, which were published on December 22, 1980 (45 FR 84027–84034).

FOR FURTHER INFORMATION CONTACT: Daniel C. Hurley, Jr. (202) 377–5311.

Dated: March 12, 1981.

William V. Skidmore,

Director, Office of Export Administration, International Trade Administration.

Accordingly, the Office of Export Administration is correcting FR Doc. 80-39855 appearing at 45 FR 84027, December 22, 1980 as follows:

§ 388.1 [Corrected]

1. On page 84028, third column, the second sentence of § 388.1 is corrected to read as follows:

* * * A duly appointed presiding official shall conduct the proceedings, except for purposes of appeals under § 388.22. * * *

* * * * *

2. On page 84030, first column, § 388.7(a) is corrected to read as follows:

§ 388.7 Answer and demand for hearing.

(a) *When to answer.* The respondent must answer the charging letter within 30 days after service unless time is extended under § 388.15.

* * * * *

3. On page 84032, first column, § 388.16(a) is corrected to read as follows:

§ 388.16 Decision of Presiding Official.

(a) *Predecisional matters.* Except insofar as the default procedures of § 388.8 may be applicable, the presiding official shall give the parties reasonable opportunity to submit:

(1) Exceptions to any ruling by him or the admissibility of evidence proffered at the hearing;

(2) Proposed findings of fact and conclusions of law;

(3) Supporting legal arguments for the exceptions and proposed findings and conclusions submitted; and

(4) A proposed order.

Such exceptions, proposed findings and conclusions, arguments in support thereof, and proposed order shall be made a part of the record, together with the presiding official's ruling on each.

* * * * *

4. On page 84032, third column, the first sentence of § 388.19(a)(2) is corrected to read as follows:

§ 388.19 Temporary denials.

(a) * * *

(2) *General denial of export privileges.* The department may request the presiding official to issue a temporary denial order on an *ex parte* basis summarily denying any or all of the export privileges specified in § 388.3(a)(1) and (2) to any person against whom other administrative or judicial proceedings relating to export control are pending, or who is under investigation for violation of the Act, the Regulations, or other authorization issued thereunder. * * *

BILLING CODE 3510-25-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C-3056]

Shaller Rubin Associates, Inc.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a New York City advertising agency to cease, in connection with the advertising and sale of Encare or any similar over-the-counter vaginal suppository product, misrepresenting or failing to substantiate claims relating to the product's effectiveness, safety and performance characteristics. The firm is further prohibited from disseminating advertisements using performance or quality heightening modifiders such as "highly," or "extremely," in conjunction with words like "effective" or "reliable." Additionally, the order requires the company to disclose in print, radio and TV consumer advertising, certain facts material to contraceptive suppository use; and to maintain business records for a period of three years.

DATES: Complaint and order issued March 4, 1981.[1]

FOR FURTHER INFORMATION CONTACT: Leroy C. Richie, Director, 8R, New York Regional Office, Federal Trade Commission, 2243–EB Federal Bldg., 26 Federal Plaza, New York, N.Y. 10007. (212) 264–1207.

SUPPLEMENTARY INFORMATION: On Monday, December 22, 1980, there was published in the Federal Register, 45 FR 84076, a proposed consent agreement with analysis In the Matter of Shaller Rubin Associates, Inc., a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form

[1] Copies of the Complaint and the Decision and Order filed with the original document.

contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.10–5 Knowingly by advertising agent; § 13.20 Comparative data or merits; § 13.135 Nature of product or service; § 13.160 Promotional sales plans; § 13.170 Qualities or properties of product or service; § 13.170–18 Contraceptive; § 13.170–70 Preventive or protective; § 13.190 Results; § 13.195 Safety; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests. Subpart—Corrective Actions and/or requirements: § 13.533 Corrective actions and/or requirements; § 13.533–10 Corrective advertising; § 13.533–20 Disclosures; § 13.533–45 Maintain records. Subpart—Disseminating Advertisements, etc.: § 13.1043 Disseminating advertisements, etc. Subpart—Failing To Provide Foreign Language Translations: § 13.1052 Failing to provide foreign language translations. Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1575 Comparative data or merits; § 13.1685 Nature; § 13.1710 Qualities or properties; § 13.1730 Results; § 13.1740 Scientific or other relevant facts. Subpart—Misrepresenting Oneself and Goods—Promotional Sales Plans: § 13.1830 Promotional sales plans. Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1863 Limitations of product; § 13.1885 Qualities or properties; § 13.1890 Safety; § 13.1895 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45, 52)

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

19 CFR Part 353

Portland Cement, Other Than White, Nonstaining Portland Cement, From Belgium; Final Results of Administrative Review and Revocation of Antidumping Finding

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of final results of administrative review and revocation of antidumping finding.

SUMMARY: On December 5, 1980, the Department of Commerce published the preliminary results of its administrative review and tentative determination to revoke the antidumping finding on portland cement, other than white, nonstaining portland cement, from Belgium. The scope of the review was limited to the only known exporter still subject to the finding, Ciments D'Obourg, and covered the period July 20, 1961 through June 18, 1979. Interested parties were provided an opportunity to submit written comments or request disclosure and/or a hearing. No comments or requests were received.

EFFECTIVE DATE: March 18, 1981.

FOR FURTHER INFORMATION CONTACT: Arthur N. DuBois, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–3814).

SUPPLEMENTARY INFORMATION:

Background

On July 20, 1961, a dumping finding with respect to portland cement, other than white, nonstaining portland cement, from Belgium, covering all shipments except those by Cimenteries et Briqueteries Reunies, was published in the **Federal Register** as Treasury Decision 55428 (26 FR 6511). On December 5, 1980, the Department of Commerce ("the Department") published in the **Federal Register** the preliminary results of the administrative review of the finding (45 FR 80571–2).

The Department has now completed its administrative review of the finding.

Scope of the Review

The imports covered by this review are portland cement, other than white, nonstaining portland cement, currently classifiable under items 511.1420 and 511.1440 of the Tariff Schedules of the United States Annotated (TSUSA). The Department knows of only one Belgian exporter of this merchandise to the U.S., Ciments D'Obourg, and the period covered by this review is July 20, 1961 through June 18, 1979.

Final Results of the Review

The Department received no comments or requests for disclosure or a hearing. Therefore, the final results of our review are the same as those presented in the preliminary results of review.

Determination

As a result of this review, the Department revokes the antidumping finding on portland cement, other than white, nonstaining portland cement, from Belgium. This revocation applies to all unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after June 18, 1979.

Annex I (Amended)

The table in Part 353, Annex I, Commerce Regulations (19 CFR, Annex I, 45 FR 8207), is amended under the country heading "Belgium", by removing from the column headed "Merchandise" the words "portland cement, other than white, nonstaining portland cement" and from the column headed "T.D." the number "55428".

This administrative review, revocation and notice publication are in accordance with section 751 (a)(1) and (c) of the Tariff Act of 1930 (19 U.S.C. 1675 (a)(1), (c)) and § 353.54(e) of the Commerce Regulations (19 CFR 353.54(e)).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 12, 1981.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 201

[Docket No. R–80–883]

Combination and Mobile Home Lot Loans; Correction

AGENCY: Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Correction of interim rule.

SUMMARY: This document corrects an editorial error in a Section heading contained in the Interim Rule published on November 7, 1980, 45 FR 73923 and Docket No. R–80–883 relating to Combination and Mobile Home Lot Loans. The Rule amended Part 201.

FOR FURTHER INFORMATION CONTACT: John L. Brady, Director, Office of Title I Insured Loans, Department of Housing and Urban Development, Room 9178, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755–6680 [This is not a toll free number].

CORRECTION OF PUBLICATION: The following correction is made to the Interim Rule in FR Docket No. R–80–883

appearing at 45 FR 73923 in the issue of November 7, 1980. On page 73925, column one, last paragraph: "§ 201.1515, Notice of default" is corrected to read "§ 201.1515, Notice to homeowner."

Issued at Washington, D.C., March 12, 1981.

George Hippe, Jr.,

Acting General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

Income Tax; Defined Benefit Plans for Self-Employed Individuals and Shareholder-Employees

Corrections

In FR Doc. 81-2337 appearing on page 7275 in the issue of Friday, January 23, 1981, make the following changes:

1. On page 7279, second column, § 1.401(j)-1, paragraph (g), *Example (1)*(ii), first line should read: "(ii) In the second plan year, A's"; third column, *Example (3)*(iv), ninth line, "$50,000" should read "$40,000", and in *Example (3)*(v), second line, "$40,000" should read "$50,000".

2. On page 7281, second column, § 1.401(j)-2, paragraph (h), *Example 2*, fourteenth line, "* * * $7,500÷$1,875 * * *" should read "* * * $1,875÷$7,500 * * *".

3. On page 7284, first column, § 1.401(j)-4, paragraph (s)(1)(ii), in Table A, the entry for "Female" for age "66" now reading "10.33" should read "10.03".

Employee Retirement Benefits Excluded From Gross Estate and Taxable Gifts

Corrections

In FR Doc. 81-2453 appearing on page 7296 in the issue of Friday, January 23, 1981, make the following changes:

1. On page 7305, second column, § 20.2039-5, paragraph (c)(2), in the formula, sixth line from the bottom, "of" should read "or".

2. On page 7307, second column, § 25.2517-1, paragraph (c)(1)(iv), fifth line, "603 * * *" should read "408 * * *".

BILLING CODE 1505-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 950

Effective Date for Cooperative Agreement With the State of Wyoming

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of effective date for final rule.

SUMMARY: In accordance with the President's Memorandum of January 29, 1981, the Department of the Interior extended until March 30, 1981, the effective date of certain rules issued in final form but not yet in effect. This notice advances the effective date of the final rule adopting a State-Federal cooperative agreement with the State of Wyoming to March 18, 1981.

DATE: Effective on March 18, 1981.

FOR FURTHER INFORMATION CONTACT: Donald T. Maurer, Chief, Division of Federal Programs, South Building, 1951 Constitution Avenue, N.W., Washington, D.C. 20240, (703) 756-6970.

SUPPLEMENTARY INFORMATION: The President's Memorandum of January 29, 1981, entitled "Postponement of Pending Regulations," directed Federal agencies to extend for a 60-day period the effective date of regulations issued in final form but not yet in effect. Accordingly, the Department of the Interior published notice extending the effective dates of certain applicable regulations to March 30, 1981. 46 FR 10707-8 (February 4, 1981). Among those regulations subject to the extension was a final rule adopting a State-Federal cooperative agreement providing for State regulation of surface coal mining on Federal lands in Wyoming. The agreement, authorized under Section 523(c) of the Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1273(c), was published as a final rule on January 28, 1981, with an announced effective date of February 27, 1981. 46 FR 9065-83.

In accordance with the procedures outlined in the President's Memorandum, the Department applied to the President's Office of Management and Budget for an exception to the 60-day extension. Such exception having been approved, the cooperative agreement with the State of Wyoming is now effective as of March 18, 1981.

Dated: March 12, 1981.

Andrew V. Bailey,

Acting Director.

BILLING CODE 4310-05-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-3-FRL 1776-4]

Approval and Promulgation of Implementation Plans; Approval of Revisions of the Maryland State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This notice announces the Administrator's approval of a revision of the Maryland State Implementation Plan. Maryland submitted the plan on September 28, 1979, which amends the visible emission requirements during startup, cleaning or modification to operations; removes definitions pertaining to plans for compliance; removes extraneous references and standards for dustfall; and amends the permit section of Maryland's regulations.

EFFECTIVE DATE: April 17, 1981.

ADDRESSES: Copies of the materials submitted by the State of Maryland are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Air Programs Branch, Curtis Building, 6th and Walnut Streets, Philadelphia, PA 19106, ATTN: Patricia Sheridan;

Maryland Environmental Health Administration, Air Quality Programs, 201 West Preston Street, Baltimore, MD 21201, ATTN: George Ferreri;

Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460;

The Office of the Federal Register, 1100 L Street, N.W., Room 8401, Washington, D.C. 20408.

FOR FURTHER INFORMATION CONTACT: Ms. Carol D. Peters (3AH11), U.S. EPA, Region III, 6th and Walnut Streets, Curtis Building, Philadelphia, PA 19106, Phone: (215) 597-9139, ATTN: AH020MD.

SUPPLEMENTARY INFORMATION: On September 28, 1979, the State of Maryland submitted to the Regional Administrator of EPA Region III, a

revision to the Maryland State Implementation Plan (SIP). EPA proposed the revision in the **Federal Register** on October 3, 1980 (45 FR 65628). A 30 day public comment period was announced in the proposed notice. No comments were received. A summary of EPA's evaluation of the revision follows.

The proposed change in regulation 10.18.04.02B(1) and 10.18.05.02B(1) has been reviewed by EPA. The method used in making visible emission observations was changed from 4 minutes in any 60 minute period to 6 minutes in any 60 minute period. Since the amendment results in a regulation which is consistent with EPA method 9 (40 CFR Part 60, APP.–A), it represents an enforceable standard and EPA approves the change in the Maryland SIP.

The amendment to 10.18.01.01 and 10.18.01.04 removes terms no longer referred to or used in the State of Maryland regulation. The definition of "particulate matter" was changed to read "suspended particulate matter" and "dustfall" has been eliminated as a standard measurement since there are no Federal Ambient Air Quality Standards associated with dustfall. EPA approves the removal of the extraneous portions of the Maryland SIP.

Numerous amendments to regulation 10.18.01.11 (Permits) were submitted by the State of Maryland as revisions to the SIP. COMAR 10.18.01.11G, Installations not Required to Obtain Permits to Construct, is changed by modifying (9)(c) kilns used for firing ceramic ware to those also heated exclusively by liquified petroleum gas, electricity, or any combination of these as well as natural gas. Regulation .11(9)(g) dealing with photographic process equipment is clarified.

COMAR 10.18.01.11H, Installations Required to Obtain a Permit to Operate, is expanded to include the following:

(26) Chemical reclamation process equipment;

(27) Inorganic pigment chemical process equipment greater than 1 ton (907 kilograms) per hour rated capacity;

(28) Automatic organic material metal coating and decorating lines with integral drying ovens;

(29) Web printing press lines with integral drying ovens;

(30) Grain elevators and terminals of 10,000 bushels/hour or more grain leg capacity;

(31) Frit smelters;

(32) Portland cement clinker coolers;

(33) Benzene storage tanks greater than 500 gallons (1.9 cubic meters) capacity;

(34) Benzene truck loading racks;

(35) Galvanzing operations using fluxes and prefluxes;

(36) Coal tar or petroleum pitch impregnating operations;

(37) Gypsum calcining kettles;

(38) Pulverized material separators 1 ton (907 kilograms)/hour or greater capacity;

(39) Any other installation or source which the Department determines has the potential to have significant impact on air quality. Several minor wording changes were also made to this section.

The State of Maryland revised 10.18.01.11J, Action on Application for Permits by including a definition of "100-ton source" for this section, adding an exclusion for those sources which are subject to the provisions of Article 78, 54 (A) and (B), Annotated Code of Maryland, and delineating the actions taken by the Department and the applicant for a permit to construct for New Source Performance Standard Sources and 100-ton (91,000 kg) Sources, other Installations and all Permit to Operate Applications. Section 10.18.01.11K, Denial of Applications, had only minor wording changes.

These changes, which clarify and expand the permit regulations to be consistent with the new Source Permit requirements (40 CFR Part 51), are approved as revisions.

Based on the above discussion the Administrator approves the amendments to COMAR 10.18.04.02B(1), 10.18.05.02B(1), 10.18.01.01, 10.18.01.04, and 10.18.01.11G(9) (c), (g), H (1), (8), (14), (15), (26)–(39), J, and K. In conjunction with the Administrator's approval, 40 CFR 52.1070 (Identification of Plan) of Subpart V (Maryland) is revised to incorporate these amendments.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

(42 U.S.C. 7401–642)

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Maryland was approved by the Director of the Federal Register on July 1, 1980.

Part 52 of Title 40, Code of Federal Regulations is revised to read as follows:

Subpart V—Maryland

1. In § 52.1070, Paragraph (c) is amended by adding subparagraph (36) to read as follows:

§ 52.1070 Identification of plan.

* * * * *

(c) * * *

(36) Amendments to Sections .01 (Definitions), .04 (Ambient Air Quality Standards), and .11 (Permits) of Maryland Regulation 10.18.01 (Regulations Governing Control of Air Pollution in the State of Maryland); and amendments to Section .02 (Control and Prohibition of Visible Emissions) of Maryland Regulations 10.18.04 and 10.18.05 (Regulations Governing Air Pollution Control in the Metropolitan Baltimore and National Capital AQCRS's) submitted by the Governor on September 26, 1979.

40 CFR Part 52

[A-1-FRL 1776-3]

Approval and Promulgation of Implementation Plans; Vermont

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On June 24, 1980 Vermont submitted a revision to its State Implementation Plan (SIP) to attain and maintain the National Ambient Air Quality Standard (NAAQS) for lead. EPA published a proposed approval of this revision on October 21, 1980 (45 FR 69482). No letters of comment were received during the public comment period ending on November 20, 1980. Today EPA is approving this revision.

EFFECTIVE DATE: April 17, 1981.

ADDRESSES: Copies of the SIP revisions are available for public inspection during normal business hours at the following locations: Air and Hazardous Materials Division, Room 1903, J. F. Kennedy Building, Boston, Massachusetts 02203; Air and Solid Waste Programs, State Office Building, Montpelier, Vermont 05602; the Public Information Reference Unit, Room 2404 (EPA Library), 401 M Street, SW., Washington, DC 20460; and the Office of the Federal Register, Room 8401, 1100 L Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: John Hanisch, Chief, Mobile Source Section, Rm. 1903, J. F. Kennedy Federal Building, Boston, Massachusetts 02203, (617) 223-5630.

SUPPLEMENTARY INFORMATION: On October 21, 1980 (45 FR 69482) EPA proposed approval of a revision to the Vermont SIP which would attain and maintain the NAAQS for lead. The SIP revision and EPA's reasons for approving it were explained in the Notice of Proposed Rulemaking, cited above, and will not be repeated here. The only pertinent additional information is a letter, dated November 7, 1980, from Richard A. Valentinetti, Director, Air & Solid Waste Programs, Vermont Agency of Environmental Conservation, to Merrill S. Hohman, Director, Air & Hazardous Materials Division, U.S. Environmental Protection Agency, Region I, explicitly setting forth the procedures by which Vermont will review new stationary sources of lead emissions. In the Notice of Proposed Rulemaking, EPA stated that Vermont would review major new sources of lead through the new source review regulations approved by EPA on February 19, 1980 (45 FR 10775). However, in the November 7, 1980 letter which has been made part of the State's submittal, Vermont has explained that it will use five other existing regulations to review new lead sources which would emit five or more tons of the pollutant per year. EPA finds that the procedures referred to in the November 7, 1980 letter meet the new source review requirements of 40 CFR 51.18.

No public comments have been received on the Notice of Proposed Rulemaking cited above and EPA is now taking final action to approve the revision.

After evaluation of the State's submittal, the Administrator has determined that the Vermont revision meets the requirements of the Clean Air Act 40 CFR part 51. Accordingly, this revision is approved as a revision to the Vermont Implementation Plan.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's Notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

(Section 110(a) of the Clean Air Act, as amended, 42 U.S.C. 7410 and 7610)

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Vermont was approved by the Director of the Federal Register on July 1, 1980.

PART 52—APPROVAL AND PROMULGATION OF THE IMPLEMENTATION PLAN

Subpart UU—Vermont

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. In § 52.2370, paragraph (c) is amended by adding subparagraph (12) as follows:

§ 52.2370 Identification of plan.

* * * * *

(c) * * *

(12) A plan to attain and maintain the National Ambient Air Quality Standard for lead was submitted on June 24, 1980 by the Secretary of the Vermont Agency of Environmental Conservation. A letter further explaining the state procedures for review of new major sources of lead emissions was submitted on November 7, 1980 by the Director, Air & Solid Waste Programs, Vermont Agency of Environmental Conservation.

40 CFR Part 52

[A-3-FRL 1776-1]

Approval of Revision of the Commonwealth of Virginia State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Commonwealth of Virginia has submitted a revision to amend the regulations for the Control and Abatement of Air Pollution. Virginia has requested that it be reviewed and processed as a waiver to its State Implementation Plan for the Westvaco Carbon Plant located in Covington, Virginia. The revision consists of a waiver from the Visible Emissions Standards of the Commonwealth of Virginia Regulations.

EFFECTIVE DATE: April 17, 1981.

ADDRESSES: Copies of the amendment and associated support material are available for public inspection during normal business hours at the following locations:

U.S. Evironmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, ATTN: Patricia Sheridan

Virginia State Air Pollution Control Board, Room 1106, Ninth Street Office Building, Richmond, Virginia 23219, ATTN: John M. Daniel, Assistant Executive Director

Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street, SW. (Waterside Mall), Washington, D.C. 20406

The Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C. 20408.

FOR FURTHER INFORMATION CONTACT: Patricia Sheridan (3AH10), U.S. Environmental Protection Agency, Region III, 6th & Walnut Streets, Philadelphia, Pennsylvania 19106, telephone number 215-597-8176.

SUPPLEMENTARY INFORMATION:

I. Background

On January 9, 1979, Maurice B. Rowe, Secretary of Commerce and Resources, submitted to EPA, Region III, a revision to amend the Commonwealth of Virginia Regulations for the Control and Abatement of Air Pollution. The revision consists of a waiver from Part IV, Rule EX-2 (Emission Standards for Visible Emissions).

The amended rule would allow the Westvaco Carbon Plant, located in Covington, Virginia, to discharge a plume with opacity as high as 50 percent. The current opacity limit is 20 percent.

EPA believes that the amendment to Part IV, Rule EX-2 of the Virginia regulations constitutes a less stringent regulation for controlling visible emissions but that it will not interfere with the maintenance of the National Ambient Air Quality Standards (NAAQS).

Stack and ambient air test results have shown that Westvaco's two powdered carbon activating kilns have been emitting about one-half of the allowable mass particulate (TSP) emissions. Even though compliance has been achieved for mass emissions, the visible emission regulation has been exceeded. This is because the plume consists mostly of phosphoric acid mist, very finely divided, which makes it highly visible. There are no air quality standards for phosphoric acid mist; however, the company believes these

levels will not adversely affect human health.

If the opacity limit is raised to 50 percent, the TSP limit will still be maintained. The revision calls for monitoring to assure continued compliance.

Under the amendment Westvaco must:

1. perform one particulate emission test per month on each stack by using the American Society for Testing Materials (ASTM) method. This method will be used to measure the front half and the back half of the sampling train.

2. measure ambient phosphate concentrations at two selected sites on a random schedule of three days per week,

3. maintain visible emissions into the outdoor atmosphere at less than 50 percent opacity, and;

4. submit written progress reports to the Commonwealth of Virginia on the first day of each quarter, beginning April 1, 1979.

II. Control Strategy Demonstration

The original Virginia SIP is based on linear rollback and does not include modeling of individual facilities. Because the amendment is a relaxation of standards, EPA policy would normally require a demonstration using diffusion modeling, but that course was not followed in this SIP revision for the following reasons:

1. The existing SIP is based on mass (TSP) emissions and the demonstration of attainment of the TSP standard does not include the 20 percent opacity requirement.

2. The State submitted a summary of particulate emission sampling, an opacity evaluation, and an ambient air sampling report to support the Secretary's opinion that air quality will not be adversely affected.

EPA has concluded that a mass emissions standard and the monitoring required by the revision are appropriate means to assess air quality levels without diffusion modeling data. While an increase in opacity is a relaxation of standards, the TSP standard is the one which is of major importance to the maintenance of the NAAQS. Since an increase in opacity is literally a relaxation of standards, EPA believes that in the circumstance of this request, the mass emission (TSP) standard is the applicable criterion for assessing maintenance of the NAAQS.

The Regional Administrator invited comments in the notice published in the **Federal Register** on June 27, 1980, 45 FR 43440, and provided for a 30-day comment period ending July 27, 1980.

III. Public Comments

No comments were received during the 30-day public comment period.

IV. Policy Issues

There are no policy issues involved with this revision other than the basis for the Administrator's approval; i.e., whether the revision submitted by the Commonwealth of Virginia meets the criteria of Section 110(a)(2) of the Clean Air Act and 40 CFR 51.4, Public Hearings; 51.5, Submittal of Plans; preliminary review of plans; 51.6, Revisions; and 51.11, Legal Authority.

V. EPA Evaluation

The revision submitted by the Commonwealth of Virginia meets the criteria of Section 110(a)(2) of the Clean Air Act and 40 CFR 51.4, 51.6, and 51.11.

VI. Final Action

In view of this evaluation, the Administrator approves the above-described amendments to the Virginia Regulations for the Control and Abatement of Air Pollution, which consists of a waiver from Part IV, Rule EX-2 (Emission Standards for Visible Emissions) as a revision to the Virginia State Implementation Plan. The waiver would allow the Westvaco Carbon Plant, located in Covington, Virginia, to discharge a plume with opacity as high as 50 percent. The current opacity is 20 percent; however, there will not be any increase in the amount of particulate emissions as a result of changing the opacity limitation.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(42 U.S.C. §§ 7401–642)

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Virginia was approved by the Director of the Federal Register on July 1, 1980.

Part 52 of Title 40, Code of Federal Regulations is amended as follows:

Subpart VV—Virginia

Section 52.2420(c)(40) is added as follows:

§ 52.2420 Identification of plan.

* * * * *

(c) The plan revision listed below was submitted on the date specified * * *

(40) A revision submitted by the Commonwealth of Virginia on January 9, 1979 consisting of an amendment to the Virginia Regulations for the Control and Abatement of Air Pollution, Part IV, Rule EX-2, Emission Standards for Visible Emissions.

[FRL 1781-8]

Hazardous Waste Management Program; Phase I Interim Authorization for State of Maine

AGENCY: United States Environmental Protection Agency.

ACTION: Final rule: Approval of state hazardous waste program.

SUMMARY: The State of Maine has applied for interim authorization of its hazardous waste program under Subtitle C of the Resource Conservation and Recovery Act and EPA guidelines for the approval of state hazardous waste programs (40 CFR Part 123). EPA has determined that the State's program meets all applicable statutory and regulatory requirements and is granting Phase I interim authorization to Maine to operate a hazardous waste program in lieu of Phase I of the Federal hazardous waste program in its jurisdiction.

EFFECTIVE DATE: March 18, 1981.

FOR FURTHER INFORMATION CONTACT: Dennis P. Gagne, Waste Management Branch, U.S. Environmental Protection Agency, Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203, (617) 223-5775.

SUPPLEMENTARY INFORMATION:

I. Introduction

Subtitle C of the Resource Conservation and Recovery Act of 1976, as amended (RCRA), requires EPA to establish a comprehensive Federal program to assure the safe management of hazardous waste. Once a Federal program is established, EPA is authorized under 3006 of RCRA to approve state hazardous waste programs to operate in lieu of the Federal program in their jurisdiction.

Two types of state program approvals are authorized under RCRA. The first, "final authorization", is a permanent approval which may be granted to states whose programs are "equivalent" to and "consistent" with the Federal program and provide adequate enforcement. The second, "interim authorization", is a temporary approval for states which cannot meet the requirements of final authorization but whose programs are "substantially equivalent" to the Federal program. RCRA contemplates that states receiving interim authorization will use the interim authorization period to make the changes in their regulations and statutes necessary to qualify for final authorization.

On May 19, 1980, EPA published the first phase of the Federal hazardous waste program (40 CFR Parts 260–263 and 265) and guidelines for authorizing state hazardous waste programs under Section 3006 (40 CFR Part 123). These guidelines set forth the requirements for interim authorization and the procedures which EPA will follow in acting on state applications for interim authorization. They also provide that EPA will grant interim authorization in two major phases (Phase I and Phase II), corresponding to the two major phases of the Federal program.

The State of Maine submitted a draft application for Phase I interim authorization on August 12, 1980. In its comments on the draft application, EPA identified several issues in the State's program description, memorandum of agreement, and Attorney General's statement which required further clarification or amendment. Most of these issues were addressed in the final application submitted to EPA on November 25, 1980, and the application was determined to be complete on that date.

In accordance with EPA guidelines, EPA provided public notice of receipt of Maine's application and opportunity for comment on it. 45 FR 80319 (December 4, 1980). A hearing was held on the application on January 5, 1981, in Portland, Maine. All timely comments, whether presented at the hearing or in writing, were considered in reaching a decision on Maine's application.

II. Major Issues

Four major issues were raised by EPA or commenters on Maine's application:

A. EPA regulations require the Memorandum of Agreement portion of a State's interim authorization application to include a provision allowing EPA to conduct compliance inspections of all generators, transporters, and hazardous waste management facilities during interim authorization. EPA and a State may agree, however, to certain limitations regarding compliance inspections. 40 CFR 123.126(b)(5). The regulations also require the inclusion in the application of a provision that no limitations on EPA compliance inspections shall restrict EPA's right to inspect any facility, generator, or transporter which the Agency has cause to believe is not in compliance with RCRA. 40 CFR 123.126(b)(6). EPA felt that Maine's application, as originally submitted, did not satisfy the requirements of 40 CFR 123.126(b)(5) and 123.126(b)(6). As a result of negotiations between the State and EPA, an addendum to the Memorandum of Agreement was filed which contains the requisite language regarding compliance monitoring. The revised Memorandum of Agreement provides that EPA may conduct compliance inspections of all hazardous waste generators, transporters, and facilities. The Agreement provides that EPA will not ordinarily conduct such inspections of non-major hazardous waste generators, transporters, and facilities, but that EPA's right to inspect any facility, generator, or transporter which it believes is not in compliance with RCRA remains unrestricted. The State and EPA have agreed to develop a priority list of inspections to be performed jointly, and to mutually schedule inspections in advance. EPA has agreed that before conducting an inspection of a generator, transporter, or facility it will normally give the State fourteen days' notice of its intention to inspect; if the State performs a compliance inspection and submits a report and relevant data to EPA within the fourteen days no EPA inspection will be made unless EPA deems the State report and data to be inadequate. EPA may shorten or waive the fourteen day notice period in case of an imminent hazard to human health and the environment provided EPA contacts the State by telephone prior to the inspection.

B. EPA guidelines require states seeking Phase I interim authorization to have authority to enter and inspect facilities which are handling hazardous waste. It was not clear from Maine's final application whether the State's entry and inspection authority (38 MRSA § 1304.4–A) extended to government facilities subject to RCRA. In response to an EPA request for clarification on this point, the Attorney General filed an addendum to his original statement discussing the issue in detail and concluding, based on the legislative history of § 1304.4–A, that the State's entry and inspection authority covers all "non-residential" facilities, including government facilities.

C. EPA guidelines require that state hazardous waste programs provide opportunity for public participation in enforcement actions instituted by the state in state court. 40 CFR 123.128(f)(2). As clarified in a recent Federal Register publication, one way a state can meet this requirement is to have intervention rules equivalent to Rule 24 of the Federal Rules of Civil Procedure and to agree in the memorandum of agreement between EPA and the state that it will not oppose intervention under that Rule on the ground that the applicant's interest is adequately represented by the state. *See* 46 FR 5616 (January 19, 1981).

In its final application, Maine relied on a state equivalent of Rule 24 in order to satisfy this requirement, but did not provide the requisite non-opposition statement. Such a statement has since been provided by the State.

D. Several commenters at the January 5, hearing urged the State of Maine to adopt a number of amendments which EPA made to its May 19, 1980, hazardous waste regulations during the fall of 1980, particularly those excluding certain chromium-bearing wastes (e.g., tannery waste) from regulation as hazardous wastes under the Federal program. *See* 45 FR 72035 (October 30, 1980). One of these commenters argued that Maine's program could not be deemed "substantially equivalent" to the Federal program until these changes were made.

The amendments issued by EPA during the fall of 1980, with a few minor exceptions, either reduced or clarified existing regulatory requirements. Thus, for the most part, a state which had developed a program based on the Agency's May 19, 1980, regulations and declined to adopt these amendments would have a program which was more stringent than the Federal program.

EPA's guidelines for interim authorization permit states to have programs which are more stringent than the Federal program. 40 CFR 123.121(i). Therefore, the State of Maine may regulate a larger universe of hazardous wastes or impose additional or more stringent management standards on generators, transporters, and treatment, storage and disposal facilities.

III. Decision

EPA has reviewed the State of Maine's final application for interim authorization and has determined that the state program is "substantially equivalent" to the Phase I Federal program, as defined in 40 CFR Part 123. The State of Maine is hereby granted

interim authorization to operate a hazardous waste program in lieu of Phase I of the Federal hazardous waste program, in accordance with Section 3006(c) of RCRA and Part 123. The practical effect of this decision is that generators, transporters, and owners and operators of hazardous waste management facilities in Maine will no longer be subject to the Phase I Federal hazardous waste management program (40 CFR Parts 260–263 and 265) unless (1) the State fails to obtain final authorization by the deadline specified in 3006(c) of RCRA and implementing regulations or (2) authorization is withdrawn for cause by EPA.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that order.

(42 U.S.C. 6926 Sec. 3006)

Dated: March 11, 1981.

William R. Adams,

Regional Administrator.

40 CFR Part 261

[FRL 1781-2]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste

AGENCY: U.S. Environmental Protection Agency.

ACTION: Grant of temporary exclusions and request for comment.

SUMMARY: The Environmental Protection Agency (EPA) is today temporarily excluding solid wastes generated at several particular generating facilities from hazardous waste status. This action responds to delisting petitions submitted under 40 CFR 260.20 and 260.22 and are granted pursuant to 40 CFR 260.22(m). The effect of this action is to temporarily exclude certain wastes generated at particular facilities from listing as hazardous wastes under 40 CFR Part 261.

DATES: Effective date: March 18, 1981.

EPA will accept public comments on these temporary exclusions until May 18, 1981. Any person may request a hearing on these temporary exclusions by filing a request with John P. Lehman, whose address appears below, by April 8, 1981. The request must contain the information prescribed in § 260.20(d) of this chapter.

ADDRESSES: Comments should be sent to the Docket Clerk, Office of Solid Waste (WH–565), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460. Communications should identify the regulatory docket number "Section 3001/Delisting Petitions."

Requests for hearing should be addressed to John P. Lehman, Director, Hazardous and Industrial Waste Division, Office of Solid Waste (WH–565), U.S. Environmental Protection Agency, Washington, D.C. 20460.

The public docket for these temporary exclusions is located in Room 2711, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460 and is available for viewing from 9 a.m. to 4 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: Myles Morse, Office of Solid Waste (WH–565), U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. (202) 755–9187.

SUPPLEMENTARY INFORMATION: On January 16, 1981, as part of its final and interim final regulations implementing Section 3001 of RCRA, EPA published an amended list of hazardous wastes from non-specific and from specific sources. See 40 CFR §§ 261.31 and 261.32 (46 FR 4614). These wastes were listed as hazardous because they typically and frequently exhibit either any of the characteristics of hazardous wastes identified in Subpart C of Part 261 (ignitability, corrosivity, reactivity and EP toxicity) or meet the criteria for listing contained in § 261.11(a)(2) or 261.11(a)(3).

The Agency, however, recognizes that individual waste streams may vary depending on raw materials, industrial processes and other factors. Thus, while a type of waste described in these regulations generally is hazardous, a specific waste meeting the listing description from an individual facility may not be hazardous. For this reason, §§ 260.20 and 260.22 provide an exclusion procedure, allowing persons to demonstrate that a specific waste from a particular generating facility should not be regulated as a hazardous waste. To be excluded, petitioners must show that the waste produced at their facilities does not meet any of the criteria under which the waste was listed. (See § 260.22(a) and Background Documents for listed wastes.) Wastes which are "delisted" (i.e., excluded) may, however, still be hazardous if they exhibit any of the characteristics of a hazardous waste and generators remain obligated to make this determination.

In addition to wastes listed as hazardous in §§ 261.31 and 261.32, residues from the treatment, storage, or disposal of listed hazardous wastes also are eligible for exclusion and remain hazardous wastes until excluded. (See §§ 261.32 (c) and (d)(2).) Again, the substantive standard for "delisting" is that the waste not meet any of the criteria for which the waste was listed originally. Where the waste is derived from one or more listed hazardous wastes, the demonstration may be made with respect to each constituent listed waste, or the waste mixture as a whole. (See § 260.22(b).) Like other excluded wastes, excluded hazardous waste treatment, storage or disposal residues remain subject to Subpart C of Part 261, and so may be hazardous if they exhibit any of the characteristics of hazardous waste.

EPA recognizes as well that there will be circumstances where immediate action on petitions is appropriate. Therefore, upon Agency review of a submitted petition, the Administrator may under § 260.22(m) grant a temporary exclusion if there is substantial likelihood that an exclusion will finally be granted.

It should be noted that the Agency has not run spot checks on the test data submitted to date in exclusion petitions. The Agency believes that the sworn affidavits submitted with each petition sufficiently bind the petitioners to ensure presentation of truthful and accurate test results. The Agency may, however, spot sample and analyze wastes or groundwater before a final decision is made whether to exclude any particular waste from the hazardous waste regulations.

We also note that the temporary exclusions granted today apply only to the Federal hazardous waste management system established under RCRA. States remain free to take any action they deem appropriate with regard to these wastes.

The temporary exclusions published today involve the following petitioners: The Systech Liquid Treatment Corporation for its facilities in Hilliard, Ohio; Nashville, Tennessee; and Muskegon Heights, Michigan; the Woodstock Die Casting Company, Woodstock, Illinois; the Ethyl Corporation for its W. Bonnell and Capitol Products subsidiaries: the William L. Bonnell Company for its facilities in Newnan, Georgia and Carthage, Tennessee; the Capitol Products Corporation, for its facilities in Harrisburg, Pennsylvania and Kentland, Indiana; the Michelin Tire Corporation, Sandy Springs, South Carolina; RAD Chemicals Inc., Bowling Green, Kentucky, Pennsylvania; the Miller Brewing Company for its facilities in Moultrie, Georgia; Fort Worth, Texas;

Fulton, New York; and Reidsville, North Carolina; the Keystone Group, Crawfordsville, Indiana; Cerro Wire and Cable Company, Syosset, New York; the Ohio Steel Tube Company, Shelby, Ohio; Triangle PWC Inc., Glen Dale, West Virginia; Raybestos-Manhattan, Stratford, Connecticut; and G&W Taylor Forge, Memphis, Tennessee.

I. Systech Liquid Treatment Corporation

A. Petition for Delisting

The Systech Liquid Treatment Corporation (Systech) currently operates several hazardous waste treatment facilities in the U.S. utilizing neutralization, chromium reduction, and precipitation processes. Systech has petitioned the Agency (as required by § 261.3(d)(2)) to delist the treatment residue produced by its treatment facilities in Hilliard, Ohio, Nashville, Tennessee and Muskegon Heights, Michigan for the following EPA hazardous wastes:

K062—Spent pickle liquor from steel finishing operations

F006—Wastewater treatment sludges from electroplating operations except from the following processes: (1) sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum

F007*—Spent cyanide plating bath solutions from electroplating operations (except for precious metals electroplating spent cyanide plating bath solutions).

Systech claims that the sludge produced at each facility from the treatment of these listed wastes is non-hazardous since the hazardous constituents of concern are present in an immobile and non-toxic form. Systech therefore claims that its treatment residue no longer meets the criteria for which the wastes were originally listed.

Systech has submitted a detailed description of its sludge treatment systems; constituent analyses of treatment residue for chromium, cadmium, nickel, lead and free cyanide; and EP toxicity test results for all three facilities. Systech believes that the samples of treatment residue submitted for analysis are representative of the range of wastes currently accepted for treatment at each facility.

*The Agency has modified this hazardous waste listing in finalizing the May 19, 1980 interim final regulations (see 45 FR 74885) so that the petition for delisting residues of this waste is moot.

The Systech process treats spent pickle liquor with electroplating wastes, waste acid, and oils. The hazardous constituents for which these wastes are listed are chromium (hexavalent), cadmium, nickel, cyanide and lead. The treatment process involves waste combination, neutralization, and metal precipitation; a five day settling/equalization period; and final dewatering of the sludge by vacuum filtration. Monitored mixing of pickling and electroplating wastes at controlled ratios results in the reduction of hexavalent chromium by the ferrous iron present in the pickling wastes. Waste combination also neutralizes acidic wastes and subsequent lime addition elevates the pH and converts lead, nickel, chromium and cadmium to an hydroxide form. The sludge generated at each facility has a pH of 8.5–9.7, thus confirming the acid neutralization.

No cyanide-bearing wastes are accepted by Systech for treatment at any of its facilities. To ensure against acceptance, Systech operates a prescreening procedure analyzing cyanide content of all wastes to be processed prior to truck off-loading. The absence of cyanide was confirmed through analyses of the Systech treatment residue. Free cyanide was present at concentrations of 0.045, 0.015 and <0.005 ppm for the Hilliard, Nashville and Muskegon facilities, respectively.

Systech has submitted sludge constituent analysis and EP toxicity test results for the dewatered sludge at each of its facilities. Constituent analyses of the Hilliard facility's treatment residue showed maximum cadmium, chromium (total), lead and nickel concentrations of 1.3, 903, 1424 and 2801 ppm, respectively. EP toxicity tests involving cadmium, chromium (total), chromium (hexavalent), lead and nickel produced maximum leachate levels of 0.1, 1.65, <0.025, 0.025, and 5.5 ppm, respectively.

Constituent analyses of the Nashville facility's treatment residue showed maximum cadmium, chromium (total), lead and nickel concentrations of 4.2, 2348, 42 and 1394 ppm, respectively. EP toxicity tests involving cadmium, chromium (hexavalent), lead and nickel produced maximum leachate levels of 0.07, <.05, <0.7, and 3.4 ppm, respectively.

Constituent analyses of the Muskegon facility's residue showed maximum cadmium, chromium (total), lead and nickel concentrations of 3.8, 11547, 7204 and 878 ppm, respectively. EP toxicity tests involving cadmium, chromium (total), chromium (hexavalent), lead and nickel produced maximum leachate levels of 0.036, 0.8, <.05, <0.7, and 3.4 ppm, respectively.

Systech has indicated quite candidly that the limitations of its treatment process are not fully understood, so that it is unsure of the correlation between constituent concentrations of incoming wastes, and concentrations of metals in the treatment residue extract. Systech has therefore offered a number of safeguards to the Agency to assure that the concentrations of hazardous constituents in its treatment residue remain consistent with the analyses presently reported. First, Systech has proposed a daily batch EP leachate analysis for cadmium, chromium, lead and nickel of the dewatered treatment residue. The batched waste influent entering the treatment tanks also would be characterized for each of these constituents. The combined analysis of influent and treatment residue will enable determination of acceptable influent concentration ranges producing non-hazardous constituent concentrations in the treatment residue.

Systech has also developed a contingency plan for disposal of any treatment residue which exceeds specified EP toxicity ranges for cadmium, chromium (hexavalent), and lead. Under this contingency plan, Systech would:

1. Conduct continuous sampling and EP toxicity testing of the solid phase of the post treatment slurry prior to equalization for cadmium, hexavalent chromium, lead and nickel.

2. If the slurry samples exceed 50 percent of the maximum EP toxicity limits for cadmium, hexavalent chromium or lead, the subject residues will be diverted and stored in inventory tanks.

3. EP toxicity analyses for chromium (hexavalent), cadmium, lead and nickel will be performed on samples of dried treatment residues from these inventory tanks and mixed samples from the equalization tank bottoms.

4. If the dried treatment residue from the inventory tanks for cadmium, chromium (hexavalent) or lead exceed 50 percent of the maximum EP toxicity limits, the waste will be shipped to a Subtitle C landfill.

5. If the mixed samples of equalization tank bottoms are less than 50 percent EP toxicity limits, Systech will resume normal operations.

6. If the mixed samples of equalization tank bottoms exceed 50 percent of the maximum EP toxicity limits, the subject bottoms will be vacuum filtered and the dried residue will be manifested and shipped to a Subtitle C landfill.

7. Under condition number 2, Systech would stop the transfer of post treatment slurry to the equalization tank to avoid its contamination.

8. Once the equalization tank is emptied and Systech has established, by EP toxicity analysis, that its contents are in compliance, it will resume normal operations.

B. Agency Analysis and Action

The Agency's function under RCRA includes the establishment of a national program to improve solid waste management and to promote environmentally sound hazardous waste treatment and disposal practices. Properly managed waste treatment plants could assume an important role in this process, particularly in view of the scarcity of hazardous waste disposal sites.

The Agency has reviewed the residue analyses and EP toxicity data submitted by Systech. The EP leachate levels reported for cadmium, lead, and total chromium at each facility are well below the EP maximum toxicity levels, indicating that these constituents are present in a relatively immobile form in the treatment residue. In addition, the reported concentration of hexavalent chromium, the valence state of chromium of concern to the Agency, is very low indicating that the chromium reduction process is conducted to completion. The concentration of free cyanide found in the treatment residue (0.045, 0.015 and <0.005 ppm for Hilliard, Nashville and Muskegon facilities, respectively), is considered negligible.

The Agency is requiring that the nickel in Systech's waste extract be maintained below 10 ppm. The Agency is not yet at the point where it is prepared to establish a binding threshold value for nickel, analogous to values in the EP toxicity characteristic. The Agency does believe, however, that concentrations of nickel in leachate below 10 ppm are not of regulatory concern. The Agency is, however, currently reviewing its position on the toxicological effects of nickel and if further information indicates that this level will change the temporary exclusion may be modified. Additionally, Systech has agreed to provide monitoring and leachate analysis results for nickel during the temporary exclusion period to assist the Agency. Systech has also agreed to establish a continuous monitoring system for hexavalent chromium on the slurry leaving the chromium reduction treatment tanks. This system will assure EPA that the reduction process has gone to completion regardless of the mixture of influent entering the reaction vessel.

The Agency has accepted Systech's proposal to utilize a monitoring system on the influent mixture entering the treatment vessel and on the exiting slurry prior to equalization, to determine the process control procedures required to limit the leaching mobility of cadmium, chromium, lead and nickel in its treatment residue. The Agency has notified Systech that information characterizing the effect of variation of metal concentrations and mixtures in the process batch, process control variables, and the types and quantities of treatment chemicals which will determine the limitations of their system should be gathered during the next 6 months period. This will include identification of raw waste constituent concentration ranges and specific mixing ratios necessary to produce acceptable constituent levels in the waste extract. The Agency also has accepted Systech's proposed contingency plan with the following modifications:

(1) The solid phase of the post treatment slurry or mixture of slurry and equalization tank bottoms, will be dewatered so that it will not exceed the water content of the final treatment residue. This will eliminate inaccurate representation of final treatment residue in slurry samples caused by dilution.

(2) The contingency plan will be implemented if the extract values for cadmium and lead exceed 30 percent of the maximum EP limit and the extract for Cr^{+6} exceeds 30 percent of the maximum EP limit for total chromium (see 45 FR 72029–72031 (October 30, 1980) explaining the Agency's current policy regarding regulation of chromium-containing wastes). These limits apply at all monitoring points in the process.

(3) The contingency plan will be implemented if the extract values for nickel exceed 10 ppm in the dewatered slurry leachate.

The 30% level indicated above is the result of negotiations between Systech and the Agency (as well as being based in part on Systech's original voluntary proposal), and does not necessarily have precedential significance. The Agency believes it necessary to specify some value in light of Systech's present uncertainty as to the limitations of its process. In addition, a safeguard is necessary in light of the high volumes of toxic constituents in the incoming wastes and in the treatment residue and the high volumes of sludge generated annually by each of Systech's facilities.

Based on the EP toxicity data, the cyanide prescreening process, and the agreements described earlier, the Agency is granting Systech Liquid Treatment Corporation's Hilliard Pretreatment Center in Hilliard, Ohio; the Nashville Pretreatment Center in Nashville, Tennessee; and the Muskegon Pretreatment Center in Muskegon Heights, Michigan, temporary exclusions for the treatment residue generated from the treatment process described in its petitions, from EPA Hazardous Waste Nos. K062 and F006.

C. Agency Information-Needs for Final Delisting

The Systech Corporation has been notified that prior to receiving final delisting, the limitations of its system must be determined as previously described in this publication.

II. Woodstock Die Casting

A. Petition for Delisting

The Woodstock Die Casting Company (Woodstock), involved in the die casting and plating of automotive and kitchen appliance parts, has petitioned the Agency for the delisting of its wastewater treatment sludge, presently listed as EPA Hazardous Waste No. F006, wastewater treatment sludges from electroplating operations except from the following processes: (1) sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum. Woodstock has petitioned to delist its waste because it does not meet the criteria for which Hazardous Waste No. F006 was listed in Part 261, Subpart D.

The production processes which generate the waste at Woodstock include cyanide copper, semi-bright nickel, bright nickel, and chromium electroplating processes on zinc alloy. Although Woodstock uses each of the listed hazardous constituents except cadmium in its electroplating process, it claims that the treated wastewater sludge it generates is non-hazardous due to the effectiveness of its treatment system.

Woodstock has submitted a detailed description of its waste treatment system constituent analyses of the dewatered sludge and EP toxicity test results for cadmium, chromium and nickel, and constituent analyses of the sludge for cyanide. Samples were obtained over a two month period which the petitioner claims represents the uniformity of constituent concentrations in the waste.

The treatment system involves the preliminary treatment processes of cyanide destruction via chlorination; hexavalent chromium reduction via sulfur dioxide; and neutralization of spent alkali and acid wastes by combination. The final treatment process includes neutralization by liming; precipitation via polyelectrolyte addition; and dewatering by vacuum filtration.

Constituent analyses of the final treatment sludge revealed cadmium, total chromium, hexavalent chromium, nickel and free cyanide concentrations of <0.01, 2000, <0.02, 14000, and <0.02 ppm, respectively. EP toxicity tests involving cadmium, total chromium and nickel produced maximum leachate levels of <0.01, 0.46, and 2.86 ppm, respectively.

B. Agency Analyses and Action

Although Woodstock uses each of the hazardous constituents of concern in EPA Hazardous Waste No. F006 except cadmium, it has demonstrated that its waste treatment system produces a nonhazardous sludge. Constituent analyses of the treatment sludge indicate that cadmium is not used in Woodstock's production and plating process; cyanides are effectively destroyed leaving only negligible quantities in the sludge (<0.02 ppm) and chromium is effectively reduced leaving only negligible quantities of hexavalent chromium in the sludge (<0.02 ppm). The EP extract concentration for cadmium and the total constituent analysis of the sludge for hexavalent chromium are below the national interim drinking water standards for these constituents. The nickel leachate concentration is not considered to be of regulatory concern. These low leachate levels indicate that the constituents are present in an essentially immobile form. The Agency, therefore has granted a temporary exclusion to Woodstock Die Casting's facility in Woodstock, Illinois, for its treated electroplating sludge, as described in its petition, listed under EPA Hazardous Waste No. F006.

III. Ethyl Corporation

The Ethyl Corporation (Ethyl) has petitioned the Agency to exclude the wastewater treatment sludge of four of its subsidiary Aluminum Division companies presently listed as EPA Hazardous Waste No. F019, wastewater treatment sludges from the chemical conversion coating of aluminum. These subsidiaries, the William Bonnell Company (Bonnell), Newnan, Georgia, and Carthage, Tennessee and the Capitol Products Corporation (Capitol), Kentland, Indiana, and Harrisburg, Pennsylvania are involved in aluminum extrusion manufacture, producing products used in the building materials trade (door and window assemblies). Ethyl has petitioned to exclude the waste from these facilities because they do not meet the criteria for which the waste was originally listed.

The production process, at each of Ethyl's four subsidiaries, which generates the listed hazardous waste is the chemical cleaning and coating of the aluminum extrusions. The hazardous constituents of concern in this waste are chromium and cyanides. Ethyl has indicated that since the aluminum conversion coating process used at each of its subsidiary facilities do not use cyanide and the hexavalent chromium used is reduced to trivalent chromium in the wastewater treatment process, the wastes from these facilities cannot contain hazardous levels of chromium or cyanide.

Ethyl has submitted detailed descriptions of the wastewater treatment system used at each facility, EP toxicity test results for total chromium, and total constituent analyses of the waste sludge for cyanide.

EP toxicity test results of dewatered sludge samples from each of the four facilities indicate a maximum chromium concentration of 0.70 ppm. Total constituent analyses of the sludge revealed a maximum cyanide concentration of <0.1 ppm.

Ethyl has certified that the production process, chemical conversion process, EP test data and total constituent analyses of sludge for cyanide are representative and do not vary at each of the four subsidiary facilities. Ethyl has noted that although all facilities use SO_2 and lime to reduce and precipitate chromium, the chromium wastewater treatment systems vary from the Bonnell facilities to the Capitol facilities in that the Bonnell facilities used a batch process while the Capitol facilities use a continuous reduction—neutralization process controlled by automatic oxidation—reduction potential instruments. As indicated by the extract data submitted, however, this variation in the treatment process has negligible effect on the final constituent concentrations reported.

B. Agency Analysis and Action

It is apparent from the total constituent analyses of the sludge that none of the Ethyl subsidiaries use cyanide in the chemical conversion process. The cyanide levels found in the sludge are considered negligible, are well below the Public Health Services suggested drinking water standards, and are probably a result of background levels and non-specific process contamination sources. Both the batch and continuous chromium reduction treatment systems used at these facilities efficiently reduce the hexavalent chromium used in the conversion process to trivalent chromium as indicated by the non-hazardous levels of total chromium in the leachate samples. Total chromium levels in the leachate were consistently well below the maximum EP toxicity levels. These low leachate levels indicate that the chromium is present in an essentially immobile form. Therefore, based on EP toxicity data, total constituent analysis of the sludge, and Ethyl's certification that its production and treatment processes do not vary at these facilities except as noted in its petition, the Agency has granted temporary exclusions to the following Ethyl Corporation subsidiary facilities: the William Bonnell Company, Newnan, Georgia and Carthage, Tennessee and the Capitol Products Corporation, Kentland, Indiana and Harrisburg, Pennsylvania for its wastewater treatment sludge from the chemical conversion of aluminum, as described in its petition, from its listing under EPA Hazardous Waste No. F019.

IV. Michelin Tire Corporation

A. Petition for Exclusion

The Michelin Tire Corporation (Michelin), involved in the electroplating of steel wire, has petitioned the Agency to exclude its treated sludge presently listed as EPA Hazardous Waste No. F006—Wastewater treatment sludges from electroplating operation except from the following processes: (1) sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum. The production processes at Michelin's facility which generate the listed hazardous waste are the copper and zinc plating of steel wire using copper, zinc, phosphate, potassium and boron compounds. Michelin has petitioned to exclude its waste because it does not meet the criteria for which it was listed. Michelin claims that the constituents of concern for EPA Hazardous Waste No. F006 (cadmium, chromium, nickel and cyanides) are not used in its electroplating process and therefore would not be expected to appear in its wastewater treatment sludge.

Michelin has submitted a description of its electroplating and wastewater treatment processes, EP toxicity test results for cadmium, chromium, and nickel, and constituent analyses of the sludge for cyanide.

Michelin's wastewater treatment system combines scouring, rinsing, acid and alkaline wastewaters in a neutralization tank. The slurry is then clarified using lime and dewatered by a belt filter press.

EP toxicity tests involving cadmium, chromium, and nickel produced maximum leachate levels of 0.05, 0.075, and 0.14, respectively. Constituent analyses of the sludge for total cyanide produced a maximum concentration of 0.06 ppm.

B. Agency Analysis and Action

The constituents for which EPA Hazardous Waste No. F006 is listed are cadmium, chromium, nickel and cyanide. Michelin has demonstrated that its plating processes does not use any of the constituents of concern. EP extracts show cadmium and chromium levels consistently well below the maximum EP toxicity levels. These low leachate levels indicate that these constituents are present in an essentially immobile form. Nickel leachate concentrations and total cyanide levels in the sludge are considered negligible and are therefore not of regulatory concern. The low concentrations of these constituents are probably a result of unknown minor sources of contamination and background levels, rather than the direct use of these constituents in the plating process. The Agency therefore, has granted a temporary exclusion to the Michelin Tire Corporation's facility in Sandy Springs, South Carolina for the treated wastes generated by its copper and zinc electroplating processes as described in its petition, listed under EPA Hazardous Waste No. F006.

V. Miller Brewing Company

A. Petition for Exclusion

The Miller Brewing Company (Miller), involved in the manufacture of one-piece aluminum cans, has petitioned the Agency to exclude its wastewater treatment sludge, presently listed as EPA Hazardous Waste No. F019, wastewater treatment sludge from the chemical conversion coating of aluminum. Miller has petitioned to exclude its waste because it does not meet the criteria for which it was listed. Miller has indicated that since its aluminum conversion coating processes do not use either chromium or cyanide, the constituents for which EPA Hazardous Waste No. F019 was listed, its waste cannot contain hazardous levels of chromium or cyanide.

Miller has submitted a description of its wastewater treatment process, formulation lists from its suppliers of chemicals and mixtures used in the chemical conversion process, EP toxicity test results for all toxic constituents specified in § 261.24 of the regulations, and a constituent analysis of the sludge for cyanide.

Miller's treatment process of chemical conversion rinse wastes involves lime neutralization to a pH of 8.0–8.5, precipitation of metal hydroxides, and dewatering via vacuum filtration.

Formulation lists indicate that zirconium and fluoride compounds, nitric acid, hydrofluoric acid, sulfuric acid, and phosphates are the major constituents of the conversion coatings used by Miller. None of the formulations contain chromium or cyanide.

EP toxicity test results of dewatered sludge samples confirm this point by indicating a maximum chromium concentration of 0.07 ppm. Constituent analysis of the sludge revealed a cyanide concentration of 0.0005 ppm.

Miller has certified that the production process, chemical conversion process, formulation lists, waste treatment process, EP test data and the constituent analysis for cyanide are representative and do not vary at each of the following facility sites: Moultrie, Georgia; Fort Worth, Texas; Fulton, New York; and Reidsville, North Carolina.

B. Agency Analysis and Action

It is apparent from the formulation lists submitted in the petition that chromium and cyanide are not used in Miller's chemical conversion process. EP toxicity data indicate that chromium leachate concentrations are well below the maximum EP toxicity level. The cyanide concentrations found in the sludge are considered negligible and are well below the Public Health Service's suggested drinking water standard. The presence of these constituents in Miller's wastes is probably a result of background levels and nonspecific process contamination sources. Therefore, based on the formulation lists, EP toxicity data, sludge constituent analysis and since Miller has certified that its production and treatment processes do not vary at any of its facilities, the Agency has granted temporary exclusions to the Miller Brewing Company's container plants in Moultrie, Georgia; Fort Worth, Texas; Fulton, New York; and Reidsville, North Carolina for its wastewater treatment sludge from the chemical conversion coating of aluminum, as described in its petition, from its listing under EPA Hazardous Waste No. F019.

VI. Keystone Group

A. Petition for Delisting

The Keystone Group—Crawfordsville Plant (Keystone) involved in the manufacture of wire and wire products has petitioned the Agency to delist its sludge, formerly listed as EPA Hazardous Waste No. K063 (sludge from lime treatment of spent pickle from steel finishing operations).[9] Keystone has petitioned to delist its waste because it does not meet the criteria for which the waste was originally listed.

Keystone utilizes the processes of cold drawing and sulfuric acid pickling, sodium hydroxide degreasing and etching, and copper coating in the production of wire from wire rods. Its waste treatment process for spent pickle liquor, rinse, and over-flow wastes involves neutralization to a pH range of 8–9 controlled by an automatic Taylor pH controller, lime and polymer flocculation, settling, and drum filtration. They claim their sludge is environmentally stable and non-hazardous, and specifically that the sludge does not contain hazardous levels of chromium and lead, the constituents of concern for which the spent pickle liquor (K062) was listed.

Keystone submitted a detailed description of their sludge treatment system, and EP toxicity test results for all toxic constituents specified in Section 261.24 of the regulations. The samples were taken over a one month period which the petitioner claims represents the uniformity of constituent concentrations in the waste. EP toxicity tests revealed maximum chromium and lead levels in the waste extract of 0.03 and <0.001 ppm, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste, are chromium and lead. EP extracts from sludge samples analyzed by Keystone show lead and chromium consistently well below the national primary interim drinking water standards. These low leachate levels indicate that the constituents are present in an essentially immobile form. A final pH of 8–9 indicates that Keystone's waste treatment process

[9] On November 12, 1980 [45 FR 74884], EPA removed waste K063 from the hazardous waste list (§ 261.32). However, since these lime treatment sludges are generated from the treatment of a listed hazardous waste (K062), they still are considered to be a hazardous waste (§ 261.3(c)(2)). Further, they remain hazardous wastes until they no longer meet any of the characteristics of hazardous wastes and are delisted (§ 261.3(d)(2)).

effectively neutralizes its spent pickle liquor wastes. The Agency therefore, has granted a temporary exclusion to the Keystone facility in Crawfordsville, Indiana for its treated spent, pickle liquor, as described in its petition.

VII. RAD Chemicals Inc.

A. Petition for Exclusion

RAD Chemicals Inc. (RAD) was previously involved in the recycling of EPA Hazardous Waste No. K061, emission control dust/sludge from the primary production of steel in electric furnaces. Although RAD no longer processes this waste, it presently has one storage pile of treated residue remaining from past operations to dispose of. RAD has petitioned to exclude this residue because it does not meet the criteria for which it was listed.

RAD has submitted a description of its treatment process, and EP toxicity data for each of the constituents specified in § 261.24 of the regulations. RAD claims that the samples of residue obtained for analysis are representative of the accumulated residue stockpile.

RAD had previously used sulfuric acid digestion, flocculation using lime, pH adjustment to 11.5–12.0 and pressed filtration in the treatment of the wastestream generated from the processing of EPA Hazardous Waste No. K061. EP toxicity tests showed maximum cadmium, chromium, and lead levels in the waste extract of 0.06, 0.02, and < 0.01, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste are cadmium, chromium and lead. EP extracts from representative samples of the residue analyzed by RAD show cadmium well below the maximum EP toxicity levels and chromium and lead consistently below the primary interim drinking water standards. These low leachate levels indicate that the constituents are present essentially in an immobile form. The Agency therefore has granted a temporary exclusion to RAD Chemical's facility in Bowling Green, Kentucky, for its treated recycling residue stockpile as described in its petition, from its listing under EPA Hazardous Waste No. K061.

C. Agency Information Needs for Final Listing

The Agency believes that RAD has submitted sufficient data for the final exclusion of its treated residue stockpile. The Agency has granted a temporary exclusion to expedite delisting action for RAD.

VIII. Cerro Wire Cable Company

A. Petition for Exclusion

The Cerro Wire and Cable Company (Cerro), involved in the manufacture of steel electrical conduit, hot rolled copper rod and steel strip, has petitioned the Agency to exclude its treated sludge presently listed as EPA Hazardous Waste No. F006, wastewater treatment sludges from electroplating operations except from the following processes: (1) sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum. Cerro has petitioned to exclude its waste because it does not meet the criteria for which it was listed.

The production processes at Cerro's facility generating the listed waste are galvanizing of steel strip, the pickling of copper rod and zinc plating of low carbon steel. The hazardous constituents of concern in this waste are cadmium, chromium, nickel and cyanides. Cerro claims that only cyanides and small amounts of chromium (chromates) are used in its plating operation while cadmium and nickel are not used in any of its processes. Cerro also claims that its treated wastewater sludge is nonhazardous due to the immobile and non-toxic form of chromium the destruction of cyanides in the treatment process and the negligible levels of cadmium and nickel in the sludge.

Cerro has submitted a description of its wastewater treatment process, EP toxicity test results for cadmium, chromium, nickel and cyanide and constituent analyses of the sludge for cyanide.

Cerro's treatment process involves neutralization, chlorination (for cyanide destruction), precipitation of metal hydroxides via lime and polyelectrolyte addition, and vacuum filtration. EP toxicity tests involving cadmium, chromium, nickel and cyanide produced maximum leachate levels of 0.17, <0.024, <1 and <0.202. Constituent analyses of the sludge for free cyanide produced a maximum concentration of 1.49 ppm.

B. Agency Analysis and Action

The constituents for which EPA Hazardous Waste No. F006 is listed are cadmium, chromium, nickel and cyanide. EP extracts shows cadmium levels consistently below the maximum EP toxicity levels and chromium levels consistently below the national primary interim drinking water standards. Nickel and cyanide leachate levels are considered negligible and therefore are not of regulatory concern. These low leachate levels indicate that the constituents are present essentially in an immobile form. The Agency therefore has granted a temporary exclusion to the Cerro Wire and Cable Company for its facility in Syossett, New York, for the treated wastes generated by its electroplating processes as described in its petition listed under EPA Hazardous Waste No. F006.

IX. Ohio Steel Tube Company

A. Petition for Delisting

The Ohio Steel Tube Company (OST), involved in the manufacture of stainless and welded steel tubing has petitioned the Agency to delist its sludge, formerly listed as EPA Hazardous Waste No. K063 (sludge from lime treatment of spent pickle liquor from steel finishing operations).[3] OST has petitioned to delist their waste because it does not meet the criteria for which it was listed.

OST utilizes the processes of cold drawing, sulfuric acid pickling, and alkaline cleaning in the production of steel tubing. Its waste treatment process for spent pickle liquor rinse and overflow wastes involves neutralization, aeration, lime flocculation, settling, and vacuum filtration. They claim their sludge is environmentally stable and nonhazardous, and specifically that the sludge does not contain hazardous levels of chromium and lead, the constituents of concern for which the spent pickle liquor of waste (K062) is listed.

OST submitted a detailed description of their sludge treatment system, and EP toxicity test results for lead and chromium. The samples were taken over a one month period which the petitioner claims sufficiently represents the uniformity of constituent concentrations in the waste. EP toxicity tests revealed maximum chromium and lead levels in the waste extract of <0.1 and <0.1 ppm, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste, are chromium and lead. EP extracts from sludge samples analyzed by OST show lead and chromium consistently well below the maximum EP toxicity levels. These low leachate levels indicate that the constituents are present in essentially an immobile form. A final pH of 8–8.5 indicates that OST's waste treatment process effectively neutralizes its spent pickle liquor

[3] See footnote ([2]).

wastes. The Agency therefore, has granted a temporary exclusion to the Ohio Steel Tube Company's facility in Shelby, Ohio for its treated spent pickle liquor and rinse wastes, as described in its petition.

X. Triangle PWC, Inc.

A. Petition for Delisting

The Triangle PWC, Inc. (PWC), involved in the manufacture of rigid conduit from mild steel pipe, has petitioned the Agency to delist its sludge, formerly listed as EPA Hazardous Waste No. K063 (sludge from lime treatment of spent pickle liquor from steel finishing operations).[4] PWC has petitioned to delist their waste because it does not meet the criteria for which it was listed.

PWC utilizes the process of sulfuric acid pickling in the fabrication of steel conduit. Its waste treatment process for spent pickle liquor rinse and overflow wastes involves neutralization, lime and polymer flocculation, settling, and pressed filtration. They claim their sludge is environmentally stable and non-hazardous, and specifically that the sludge does not contain hazardous levels of chromium and lead, the constituents of concern, for which spent pickle liquor of waste (K062) was listed.

PWC submitted a detailed description of their sludge treatment system, and EP toxicity test results for chromium and lead. The samples taken were claimed by the petitioner to sufficiently represent the uniformity of constituent concentrations in the waste. EP toxicity tests revealed maximum chromium and lead levels in the waste extract of 0.04 and 0.03 ppm, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste, are chromium and lead. EP extracts from sludge samples analyzed by PWC show lead and chromium consistently well below the maximum EP toxicity levels. These low leachate levels indicate that the constituents are present in essentially an immobile form. A final pH of 7.5–9.0 indicates that PWC's waste treatment process effectively neutralizes its spent pickle liquor wastes. The Agency therefore, has granted a temporary exclusion to the PWC's facility in Glen Dale, West Virginia for its treated spent pickle liquor, as described in its petition.

XI. Raybestos—Manhattan

A. Petition for Delisting

The Raybestos-Manhattan Company (Raybestos), involved in the manufacture of asbestos bonded steel transmission plates, has petitioned the Agency to delist its sludge, formerly listed as EPA Hazardous Waste No. K063, (sludge from lime treatment of spent pickle liquor from steel finishing operations).[5] Raybestos has petitioned to delist their waste because it does not meet the criteria for which it was listed.

Raybestos utilizes the processes of hydrochloric and nitric acid pickling, to clean the plate surfaces in preparation for bonding of asbestos friction coatings. Its waste treatment process for spent pickle liquor rinse and overflow wastes involves neutralization, lime flocculation, settling, and pressed filtration. They claim their sludge is environmentally stable and non-hazardous, and specifically that the sludge does not contain hazardous levels of chromium and lead, the constituents of concern for which spent pickle liquor (K062) was listed.

Raybestos submitted a detailed description of their sludge treatment system, and EP toxicity test results for chromium and lead. The samples were taken over a three week period which the petitioner claims sufficiently represents the uniformity of constituent concentrations in the waste. EP toxicity tests revealed maximum chromium and lead levels in the waste extract of 0.17 and 0.41 ppm, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste, are chromium and lead. EP extracts from sludge samples analyzed by Raybestos show lead and chromium consistently well below the maximum EP toxicity levels. These low leachate levels indicate that the constituents are present in essentially an immobile form. A final pH of 8.5 indicates that Raybestos' waste treatment process effectively neutralized its spent pickle liquor wastes. The Agency therefore, has granted a temporary exclusion to the Raybestos-Manhattan facility in Stratford, Connecticut for its treated spent pickle liquor, as described in its petition.

XII. G&W Taylor Forge

A. Petition for Delisting

The G&W Taylor Forge Company (G&W), involved in the manufacture of stainless steel pipe fittings, has petitioned the Agency to delist its sludge, formerly listed as EPA Hazardous Waste No. K063, (sludge from lime treatment of spent pickle liquor from steel finishing operations).[6] G&W has petitioned to delist their waste because it does not meet the criteria for which it was listed.

G&W utilizes the processes of hydrofluoric and nitric acid pickling in the fabrication of stainless steel pipe fittings. Its waste treatment process for spent pickle liquor rinse and overflow wastes involves caustic neutralization, and subsequent discharge to POTW. They claim their wastewater is environmentally stable and non-hazardous, and specifically that it does not contain hazardous levels of chromium and lead, the constituents of concern, for which spent pickle liquor of waste (K062) was listed.

G&W submitted a description of their treatment system, and EP toxicity test results for hexavalent chromium and lead. The samples taken were claimed by the petitioner to sufficiently represent the uniformity of constituent concentrations in the waste. EP toxicity tests revealed maximum chromium and lead levels in the waste extract of <1.0 and <1.0 ppm, respectively.

B. Agency Analysis and Action

The constituents of concern in this waste, are chromium and lead. EP extracts from wastewater samples analyzed by G&W show lead and chromium consistently well below the maximum EP toxicity levels. A final pH of 7–8.5 indicates that G&W's treatment process effectively neutralizes its spent pickle liquor wastes. The Agency therefore, has granted a temporary exclusion to the G&W's facility in Memphis, Tennessee for its treated spent pickle liquor, as described in its petition.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of E.O. 12291 pursuant to Section 8(b) of that order.

Dated: March 10, 1981.

James Smith,

Acting Assistant Administrator.

GENERAL SERVICES ADMINISTRATION

41 CFR Parts 5–8, 5A–8, and 5B–8

Termination of Contracts

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: The General Services Administration Procurement Regulations, Chapter 5, are amended to transfer policies and procedures

regarding Termination of Contracts from Parts 5A–8 and 5B–8. This transfer is part of the action to incorporate appropriate material in Parts 5A–8 and 5B–8 into Chapter 5. The intended effect is to have a single GSA-wide procurement regulation.

EFFECTIVE DATE: March 27, 1981.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Federal Procurement Regulations Directorate, Office of Acquisition Policy (703–557–8947).

ADDITIONAL INFORMATION: Outstanding Procurement Letters remain in effect until canceled.

CHAPTER 5—GENERAL SERVICES ADMINISTRATION

[APD 2800.2 CHGE 15]

1. The Table of Parts is amended by adding the following entry.

Table of Parts

Part
5–8 Termination of contracts.

2. The Contents of Part for Part 5–8 is added as follows:

PART 5–8—TERMINATION OF CONTRACTS

Subpart 5–8.6 Termination for Default

Sec.
5–8.602–1 The Government's right to terminate for default.
5–8.602–2 Effect of termination for default.
5–8.602–3 Procedure in case of default.
5–8.602–4 Procedure in lieu of termination for default.
5–8.602–6 Repurchase against contractor's account.
5–8.602–50 Dissemination of contract termination actions.
5–8.603 Default termination of fixed-price construction contracts.
5–8.603–1 Termination of the contractor's right to proceed.
5–8.603–5 Procedure in case of default.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

3. Part 5–8 Termination of Contracts is added as follows:

Subpart 5–8.6 Termination for Default

§ 5–8.602–1 The Government's right to terminate for default.

(a) Pursuant to the terms of the Default clause (see § 1–8.707), a contract may be terminated when the contractor fails (1) to make deliveries or to perform services within the time specified (see § 1–8.707(a)(i)), (2) to comply with any other provision of the contract, or (3) to make progress under the contract so as to endanger performance thereof (see § 1–8.707(a)(ii)).

(b) Under the Default clause, contracts may be terminated in whole or in part. Partial terminations may be appropriate when it is determined that a part of a definite quantity contract (either selected items or a portion of one or more items), or certain orders under an indefinite quantity contract should be terminated.

(1) In cases of failure to make timely delivery of one or more orders under a term contract, or failure to make timely partial deliveries under a definite quantity contract, the delinquent portions of the contract or the entire contract may be terminated under paragraph (a)(i) of the Default clause (see § 1–8.707(a)(i)).

(2) Facts which justify a partial termination are usually symptoms of basic difficulties in contract performance. Therefore, even if only part of the contract is terminated, consideration should be given to furnishing the contractor a preliminary notice of termination of the entire contract in accordance with paragraph (a)(ii) of the Default clause (see § 1–8.707(a)(ii)).

§ 5–8.602–2 Effect of termination for default.

(a) Defenses for default termination or assessment of excess costs.

(1) A contractor may defend against a default termination on the grounds that he was not in default or that the default arose out of causes beyond his control and without his fault or negligence.

(2) Illustrations of defenses falling into the first category would be allegations that the contract was terminated under paragraph (a)(i) of the Default clause (see § 1–8.707(a)(i)) before deliveries were due, or that a sufficient opportunity to cure the default (other than a failure to deliver) was not given, or that a termination based on failure of the supplies to conform to specifications was erroneous.

(3) Defenses falling into the second category are set forth in general terms in paragraph (c) of the Default clause. It should be noted that where the excuse for default is based upon a subcontractor's or supplier's failure to perform, the failure must be beyond the control and without the fault or negligence of both the contractor and the subcontractor or supplier. In addition, the contractor must show that the supplies or services to be obtained from the subcontractor or supplier were not reasonably available from other sources.

(b) Excess costs and damages.

(1) When a contract is properly terminated for default, the contractor is liable for excess costs incurred by the Government as a result of its repurchase, as well as for any other ascertainable damages suffered by the Government.

(2) If it is found that the contractor was not in default or that the default was excusable, the contract may be reinstated by mutual agreement if it is in the best interest of the Government. Otherwise, the rights of the parties will be the same as if the notice of termination has been issued under the Termination for Convenience clause (see §§ 1–8.700, 1–8.701, and 1–8.705–1).

§ 5–8.602–3 Procedure in case of default.

(a) To ensure that the contractor receives a notice of termination, the contracting officer shall forward this notice via certified mail, return receipt requested, or any other method which will ensure a signed receipt for the notice. Copies shall also be furnished to the Assistant Inspector General for Investigations, and to any assignee of the contractor for the particular contract involved.

(b) Termination pursuant to subparagraph (a)(i) of the Default clause.

(1) *Default known to be inexcusable.* When the contracting officer has determined that the contractor's default is inexcusable pursuant to paragraph (a)(i) of the Default clause (§ 1–8.707), a notice of termination shall be sent to the contractor.

(2) *Default known to be excusable.* Contracting officers may terminate a contract for default even though the default is excusable. Although such a termination cannot be used as a basis for the assessment of excess costs, it may be in the Government's best interest if the items covered by the contract are urgently needed and the delay in performance promises to be of long duration. Under these circumstances, a no-cost termination should be obtained, if feasible, instead of a termination for convenience.

(3) *Excusability unknown.* (i) When the supplies are urgently needed, the contracting officer may terminate the contract without preliminary notice. A notice of termination should be used. However, if this action is later determined improper, it can result in the loss of the Government's right to excess costs and necessitate paying contract claims. After response to the termination notice and all available information has been obtained, a specific findings as to excusability must be furnished to the contractor.

(ii) When time permits, information concerning the cause of the default shall be obtained before issuing a notice of

termination. Information can be obtained by the use of a Preliminary Notice of Default letter. Either the Quality Assurance Specialist or the contracting officer may issue these notices. In addition to the issuance of this notice, the contracting officer should use whatever other sources may be available to obtain information concerning the cause of the default. If the information obtained does not indicate any basis for excusing the default or if no information is furnished within the time prescribed by the preliminary notice (or additional time as the contracting officer may wish to allow), a notice of termination should be sent to the contractor. If the information obtained indicates that the default may be excusable, but it is nevertheless considered necessary to terminate the contract, then issue a notice of termination with a request for information on excusability.

(c) Termination pursuant to paragraph (a)(ii) of the Default clause.

(1) Termination under paragraph (a)(ii) of the Default clause may be based upon a failure by the contractor to comply with any provision of the contract (other than delivery or performance time) or upon a contractor's failure to make progress so as to endanger performance of the contract.

(2) In such cases, a preliminary notice, allowing at least 10 days to cure the default, must be furnished to the contractor. The notice should provide a clear statement of the contract provisions which the contractor has failed to meet, or the basis upon which the contracting officer has determined that the contractor is failing to make progress. The extent of detail to be included will vary depending upon the amount of previous correspondence with the supplier. However, where reliance is placed on such previous correspondence, it should be specifically referenced in the notice.

(3) If the default is not cured within the prescribed time, a notice of termination should be sent to the contractor. The introductory paragraphs should refer to the preliminary notice and prescribe the basis for the termination action.

(4) As in the case of termination under paragraph (a)(i) of the Default clause, a contract (or specific orders) may be terminated even though the default was unavoidable and without the fault or negligence of the contractor. If such action is determined to be in the best interest of the Government, a notice of termination should be furnished to the contractor.

(d) Terminations involving stock items. To determine current requirements prior to the repurchase of stock items, the contracting office shall notify the appropriate inventory management activity. After default termination and prior to reprocurement, the contracting officer shall revalidate current requirements for the item(s) and quantities.

§ 5-8.602-4 Procedure in lieu of termination for default.

(a) Where it is determined to be in the best interest of the Government to extend a delivery schedule rather than take termination for default action, the following procedure shall be used. However, it must be clearly understood that use of this procedure is a limited alternative course of action, and is not a policy for circumventing termination for default procedures.

(b) The following are circumstances which make it practical and in the best interests of the Government for a contracting officer to extend a delivery date, in lieu of taking termination for default action against a contractor who is in default:

(1) The supplies are not available from alternative sources; or

(2) Termination and repurchase action will unduly delay the receipt of urgently needed supplies.

(c) Delivery schedules may be revised only when an equitable consideration is obtainable. Consideration will be in the form of:

(1) Reduction in the contract price; or

(2) Improvement in the terms of the contract which will provide the Government with an advantage not previously called for by the basic contract.

(d) In determining consideration, the following factors should be evaluated to the extent information is available.

(1) The probable reduction in bid prices if the delivery period as extended had been called for in the IFB;

(2) The probable damages suffered by the Government because of the delay; and

(3) The value of the extension to the contractor in terms of:

(i) Savings in contract performance; and

(ii) Potential damages if default action had been taken.

(e) No precise formula can be developed for determining the consideration which should be obtained in all cases. This is a matter of individual judgment and can only be handled on a case-by-case basis. Delivery schedules shall be extended only when the consideration obtainable is realistic and equitable under the existing circumstances, and is of such significance as to clearly substantiate the fact that it is the policy of the Government to protect the integrity of the competitive bidding system by insisting on timely contract performance.

(f) When monetary considerations are agreed upon to extend delivery in lieu of termination, the consideration shall be documented by modification and/or contract amendment. This may be accomplished by either one of two methods: (1) By agreement on a lump sum to be paid by the contractor to the Government, or (2) by a reduction in the unit price. The lump sum method is preferable. When the lump sum method is used, the contracting officer shall instruct the contractor to forward a check covering the lump sum amount of the negotiated consideration to the appropriate Finance Division or, in lieu thereof, request the Finance Division to deduct the lump sum amount from unpaid bills. The contracting officer shall determine the appropriate method to be used in collection of the consideration. Before the contracting officer makes a final decision to extend the delivery schedule for stock items he shall coordinate such planned action with the appropriate Inventory Management Branch (IMB) to ascertain whether it is compatible with existing requirements.

§ 5-8.602-6 Repurchase against contractor's account.

(a) After issuance of the notice of termination in accordance with §§ 1-8.602-3 and 5-8.602-3, contracting officers taking repurchase action against a defaulting contractor shall proceed as follows:

(1) Repurchase action shall be taken as promptly as possible. This is particularly important whenever supply effectiveness has been or will be impaired as a result of the default. Unjustified delays may also jeopardize the Government's rights to recover excess costs. When delay in taking repurchase action is unavoidable, such delay must be reasonable and be supported by existing circumstances.

(2) Pursuant to paragraph (b) of the Default clause, the Government may repurchase supplies or services similar to those terminated. Normally, repurchase action shall be taken on the basis of the original solicitation, terms and conditions, and identical specifications under which the contractor defaulted. If acceptable offers on this basis cannot be obtained, "similar" items may be procured under specifications which will substantially

satisfy the original requirement. Advice of counsel should be obtained before soliciting bids for "similar" supplies or services.

(3) Consummate the repurchase in a manner that will assure meeting the obligation of the Government to act reasonably to minimize damages.

(4) If the repurchase is to be made by formal advertising, the usual formal advertising procedures shall apply.

(5) If the repurchase is to be made by negotiation, the contracting officer may either (i) use the appropriate circumstance authorizing negotiation, in accordance with §§ 1–3.201 through 1–3.215, or (ii) identify the procurement as a repurchase under the provisions of the Default clause in accordance with § 1–8.602–6. In the latter case, the authority to be cited in Block 25 of SF 33 shall be "41 U.S.C. 252(c)(15); FPR 1–8.6," and on GSA Form 1535 shall be "302(c)(15); FPR 1–8.6."

(b) The following instructions are applicable with respect to local regional contracts where only the regional contracting activity places purchase orders under the contract. After issuance of the notice of termination in accordance with §§ 1–8.602–3 and 5–8.602–3, the contracting officer shall:

(1) Prepare a purchase order to the repurchase contractor under usual procedures and enter the following statement on all but the original copy of the repurchase order:

Purchased against the account of (*Name of defaulted contractor*), Contract No.———— Purchase Order No.————.

(2) Prepare notice of repurchase against contractor's account, and in the same number of copies as the purchase order. The notice containing the following information shall be forwarded to the defaulted contractor.

(i) The name and address of the contractor from whom repurchase was made shall be entered on all copies except the original of the notice of repurchase.

(ii) The item description, unit, unit price, total quantity, and total cost.

(iii) The contractor and/or purchase order number(s) covering the repurchase.

(iv) Total dollar amount of the excess costs to be charged against the defaulted contractor's account.

(c) The following instructions are applicable with respect to requirements under national or zone type contracts, where several regional ordering activities place purchase orders under the contract. After the pertinent termination notice has been issued by the contracting officer in accordance with §§ 1–8.602–3 and 5–8.602–3:

(1) The contracting officer shall:

(i) Except in unusual cases, such as where local purchase must be authorized to meet exigency situations, handle all aspects of the termination and repurchase action except actual issuance of the delivery orders under the replacement contract (repurchase action under Federal Supply Schedule contracts is covered by FPMR 101–26.403–5).

(ii) On the basis of available information prepare a Contract Summary (GSA Form 1584), make distribution, and provide the ordering activity with information pertinent to the repurchase action. The summary shall contain an appropriate statement substantially as shown in (A) or (B), below, depending upon whether individual purchase orders are terminated or a contract is being terminated:

(A) Contract———dated———replaces Contract———dated———insofar as Purchase Order No.———dated———and Purchase Order No.———dated———is (are) concerned. Delivery orders placed under this repurchase contract shall include the following statement on all purchase order copies except the original:

Purchased against the account of (*Name of defaulted contractor*), Contract No.———— Purchase Order No.(s)————.

(B) Contract———dated———replaces Contract———dated———placed with (*Firm name*) and delivery orders placed under this repurchase contract shall include the following statement on all copies except the original:

Purchased against the account of (*Name of defaulted contractor*), Contract No.———— Purchase Order No.(s)————.

(iii) Upon being furnished purchase order issuance information by the ordering office (see paragraph (c)(2)(ii) of this section), prepare notice of repurchase against the defaulted contractor's account. The repurchase notice containing the following information shall be forwarded to the defaulted contractor.

(A) Place the name and address of the contractor from whom repurchase was made on all copies but the original of the notice of repurchase.

(B) Provide the item description, unit, unit price, total quantity, and total cost.

(C) Provide the contract and/or purchase order number(s) covering the repurchase.

(D) Show the total dollar amount of the excess costs to be charged against the defaulted contractor's account.

(2) Ordering offices, where national or zone type contracts are involved shall:

(i) Promptly upon receipt of the Contract Summary (GSA Form 1584), prepare a purchase order in accordance with usual procedures. Include the following information and statement on all but the original copy of the repurchase order.

Purchased against the account of (*Name of defaulted contractor*), Contract No.———— Purchase Order No.————.

(ii) Upon issuance of a purchase order, using the information provided on GSA Form 1584, promptly furnish the national or zone contracting officer with the following:

(A) Copy of the purchase order issued.

(B) The dollar amount of the excess costs to be charged against the defaulted contractor's account.

§ 5–8.602–50 Dissemination of contract termination actions.

(a) The responsiblity for national and zonal term contract information input to the Automated Delivery Order (ADO) system is assigned to the National Maintenance Center (NMC) at Region 10. Information which is loaded there is then transmitted to ADO files in all regions for use in machine preparation of delivery orders. It is important that complete and up-to-date contract information be available in the ADO files.

(b) Information made available to the ADO system through "buy-against" summaries does not always identify a contract termination action, particularly as to the extent of the termination. The routine distribution of contract termination notices within the Federal Supply Service to the Region 10 NMC should resolve this problem. Therefore, in view of the foregoing, contracting officers shall provide for a single copy distribution to Region 10 NMC (mailing symbol 10FPN) of all notices of termination issued pursuant to Subpart 5–8.6. Copies of recisions and/or modifications to notices of termination shall also be forwarded to the Regional 10 NMC.

§ 5–8.603 Default termination of fixed-price construction contracts.

(See § 1–18.603.)

§ 5–8.603–1 Termination of the contractor's right to proceed.

A contractor's right to proceed may be terminated under the provisions of the Termination for Default-Damages for Delay-Time Extensions clause. A construction contract may also be terminated for violation of the requirements of Standard Form 19–A, Labor Standards Provisions—Applicable to Contracts in Excess of $2,000.

§ 5–8.803–5 Procedure in case of default.

(a) In addition to the requirements of § 1–18.803–5(c), the notice of termination shall be specific with respect to the following:

(1) Instructions regarding the safeguarding and disposition of any Government property in the possession of the contractor;

(2) Where applicable, a statement that the defaulting contractor and his surety will be liable for liquidated damages at the rate specified until such reasonable time as may be required to complete the work; and

(3) Instructions regarding the acquisition by the Government of such materials, appliances, and plant as may be on the site of the contruction work.

(b) In addition to the distribution of the termination notice required under § 1–18.803–5(d), a copy of the notice shall be furnished to any assignee of the contractor for the particular contract involved and to the Office of Investigations.

Agricultural Marketing Service

7 CFR Part 1002

[Docket No. AO-71-A73]

Milk in the New York-New Jersey Marketing Area; Recommended Decision and Opportunity to File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and To Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends certain changes in the order based on industry proposals considered at a public hearing in June 1980. The principal changes would increase the transportation allowances for milk handlers to reflect more nearly the cost of assembling milk from dairy farms and transporting it to plants for processing. The recommended changes are necessary to reflect current marketing conditions and to assure orderly marketing in the New York-New Jersey area.

DATE: Comments are due on or before April 7, 1981.

ADDRESS: Comments (six copies) should be filed with the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C., 20250.

FOR FURTHER INFORMATION CONTACT: Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250 (202/447-6273).

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of Sections 556 and 557 of Title 5 of United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Prior document in this proceeding:

Notice of Hearing: Issued May 13, 1980, published May 16, 1980 (45 FR 32321).

Preliminary statement

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the New York-New Jersey marketing area. This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, by April 7, 1981. The exceptions should be filed in six copies. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments set forth below are based on the record of a public hearing held at Albany, New York, on June 10-18, 1980, pursuant to notice thereof issued May 13, 1980 (45 FR 32321).

The material issues on the record of the hearing relate to whether changes should be made in the following provisions for the purpose of permitting a more equitable competitive situation, on both an intermarket and intramarket basis, for Order 2 handlers.

a. Transportation differentials.
b. Pool transportation credit to handlers for bulk tank milk.
c. Tank truck service charge.
d. Direct delivery differential.
e. Class I price differential.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

Modification of transportation allowances. The New York-New Jersey order transportation allowances should be amended in the following manner:

First, the transportation differential rate of 1.8 cents per hundredweight for each 10-mile zone less distant than the 201-210 mile zone that is now used to adjust the Class I and uniform prices for location should be increased to 2.2 cents per zone.

Second, the present 15-cent per hundredweight direct delivery differential for the 1-70 mile zone should be changed to an additional 15-cents fixed transportation differential on Class I and uniform prices applicable within the 1-70 mile zone.

Third, the present 15-cent per hundredweight limit on tank truck service charges to producers should be modified by allowing handlers to negotiate with producers or their cooperatives a tank truck service charge with respect to any farm-to-first plant hauling cost that is in excess of: (1) the 15-cent per hundredweight transportation credit on bulk unit pool milk plus (2) the amount that the class use value of the milk at the location of the plant of first receipt is in excess of its class use value at the location where the milk was received in the bulk tank unit from which the milk was transferred.

These amendments would adjust hauling allowances for handlers under the order to more closely relate the location value of milk to the costs incurred in transporting milk from farms and country plants to distributing plants in the major consuming centers of the market. The changes are necessary to reflect current marketing conditions and to permit a more equitable competitive situation for regulated handlers, both on an intramarket and intermarket basis.

Present transportation provisions. Under the present terms of the order milk from bulk tank producers (99.6 percent of the milk in the market) is essentially at the location of the farms where it is picked up in a tank truck (and thereby received) by handlers. Farms in each township are included in a price zone on the distance, in 10-mile increments, between the township and the nearest of serveral basing points in the metropolitan New York City area. For pooling, accounting and pricing purposes, handlers establish farms in bulk tank units. Milk transferred from a bulk tank unit is classified in the unit according to its use at the plants to which it is transferred during the month. The handler operating the bulk tank unit

accounts for the milk in the unit at its classified use value for the location of the unit. The price zone location of the unit is the weighted average zone location of the volume of milk receive from farms in the unit.

Separate transportation differential rates apply to Class I and Class II prices. Prices are adjusted from the 201–210 mile base zone. The Class I milk price is increased 1.8 cents for each 10-mile zone less distant than the 201–210 mile zone and reduced 1.5 cents for each 10-mile zone more distant than the 201–210 mile zone. The Class II milk price is increased 1 cent for each 25-mile zone less distant than the 201–210 mile zone and decrease 1 cent for each 25-mile zone more distant than the 201–225 mile zone, except the adjustment is limited to minus 8 cents for all locations in the 401 and over mile zone. The uniform price to producers is adjusted the same as the Class I milk price.

In addition to these transportation differentials a direct delivery differential of 15 cents per hundredweight is applicable to bulk tank unit milk received from farms in the 1–10 mile zone through the 61–70 mile zone. The direct delivery differential is applicable also to milk received in cans at a plant in the 1–70 mile zone.

Transportation allowances are provided under the order for farm-to-first plant hauling of bulk tank milk. A pool transportation credit to handlers of 15 cents per hundredweight is provided on milk received by a handler in a bulk tank unit. Also, handlers are permitted to negotiate with producers or their cooperatives a tank truck service charge of up to 15 cents per hundredweight with respect to any farm-to-first plant hauling costs not recovered through the 15-cent pool transportation credit on farm bulk tank milk.

Summary of hearing proposals. The basic purpose of the hearing was to consider proposals that would amend the transportation allowances provided in the order to reflect current costs of assembling and transshipping milk from farms to plants under the farm township pricing provisions of the order to assure intramarket and intermarket alignment of Class I milk and Class II milk procurement costs among competing handlers. Witnesses contended that transportation allowances provided in the order do not cover current costs of hauling milk from farms to plants and that increases in hauling costs are being borne largely by handlers. This, they contended, increases handlers' cost of milk in the amount of any increase in hauling costs.

With respect to intermarket competition, witnesses alleged that handlers in other order markets have not borne the burden of increased hauling costs, since milk is priced at the first plant at which it is received and producers pay the farm-to-plant hauling costs. Thus, when Order 2 handlers compete with handlers in other markets for the sale of milk products, witnesses contend there is a disparity in the cost of milk to handlers under Order 2 and other orders.

With respect to the intramarket competitive situation for handlers, witnesses claimed that hauling costs tend to vary among bulk tanks units operated by handlers. Thus, in a situation where hauling costs are in excess of the transportation allowances provided in the order, there tends to be a variation in the amount of hauling costs borne by competing handlers. Witnesses indicated that this is particularly the case with respect to long-distance shipments of milk from the production areas to distributing plants in the major metropolitan area, since the transportation differential rate under the order does not reflect actual hauling costs associated with the distance milk is moved.

Proprietary handlers and producer groups offered a number of proposals which they believed would minimize the competitive problems of which they complained. The basic thrust of the proposals was to increase the transportation allowances under the order for both farm-to-first plant hauling and hauling from country plants to distributing plants in the major metropolitan area.

With respect to farm-to-first plant transportation allowances, several proposals pertained to modification of the present 15-cent pool credit and modification of the 15-cent limit on the negotiable hauling deductions from payments to producers. An association of proprietary handlers, certain individuals handlers, and cooperative associations all made proposals to increase the pool credit to 20 cents per hundredweight. One handler proposed a 30-cent pool credit. Another handler proposed a 25-cent pool credit in any case where farm bulk pick-up is limited by the producer to a six-day per week basis. However, one producer group proposed that the pool credit be deleted from the order.

All proponents of modification of the pool credit made companion proposals with respect to the limit of hauling deductions from payments to producers. The association of proprietary handlers proposed that the 15-cent limit be removed. Certain proprietary handlers, in addition to those represented by the association, also proposed elimination of the limit on hauling deductions. One producer group proposed that the limit be removed along with its proposal to delete the pool credit. However, cooperative associations proposed that the 15-cent limit be increased to 25 cents in conjunction with their proposal to increase the pool credit to 20 cents per hundredweight.

Several cooperative associations proposed a further modification to the hauling deduction that may be negotiated with producers. Such modification would require a handler to reduce the amount negotiated by the amount that the location value of the milk at the plant of first receipt exceeds its location value in the bulk tank unit. Such disallowed hauling deduction would be in addition to the amount of any reimbursement that the handler receives through the pool transportation credit.

At the hearing several handler witnesses proposed that if a limit on the amount of the hauling deduction is adopted under the order, the hauling limit should be made subject to an automatic adjustment based on changes in the price of diesel fuel. The adjustment suggested would increase the limit 1 cent per hundredweight for every 5-cent per gallon increase in the cost of fuel.

Witnesses for the proponents of proposed changes in the pool transportation credit on bulk tank milk and the negotiable hauling deduction from payments to producers indicated that the proposals were for the purpose of updating the order terms to accommodate increasing costs of farm-to-first plant hauling of bulk tank milk. Proponents contended that the order should permit handlers to recover their costs of farm-to-first plant hauling of milk. They pointed out that in most cases farm-to-first plant hauling costs are now more than the 30 cents per hundredweight that they are permitted to recover through the 15-cent pool credit and the 15-cent negotiable charge to producers. For example, the witness for the association of proprietary handlers stated that the farm-to-country plant hauling cost for the bulk tank units operated by its member handlers ranged from 27.5 cents to 44.5 cents per hundredweight in May 1980. The weighted average hauling cost for all units operated by the association's members in May 1980 was stated to be 33.7 cents per hundredweight compared to 26.9 cents in May 1979. With respect to shipments of milk directly from farms to city plants, the association's witness indicated that member handlers' costs of hauling ranged from 40.1 cents to $1.00

per hundredweight in May 1980. The witness stated that the weighted average of these hauling costs was 77.9 cents per hundredweight compared to 55.3 cents per hundredweight in May 1979.

The handler association took the position that the limit on the amount of the hauling cost that is negotiable with producers should be removed to accommodate increasing hauling costs, including anticipated increased costs in the future. The association witness contended that producers would be adequately protected against excessive hauling deductions through (1) the requirement of written consent from the producer or his cooperative, (2) limiting negotiated deductions to the amount that actual hauling costs exceed the amount of the pool transportation credit, and (3) the effectiveness of competition for producer patronage as a ceiling on hauling deductions. The witness pointed out also that any limit on hauling deductions would be effective only with respect to proprietary handlers, since a cooperative association has the opportunity to make whatever payment arrangements it desires between the association and its member producers.

Cooperative associations opposed the handler association's proposal to simply increase the pool transportation credit to 20 cents per hundredweight and delete the 15-cent limit on the negotiable hauling deduction from producers. The cooperatives contended that the handler association's proposals could result in misalignment of costs to handlers and threaten the opportunity for cooperatives to sell bulk milk to handlers. Cooperative association witnesses argued that this handler proposal would permit handlers to purchase milk at the farm zone price and charge the producers for hauling the milk to the 1–10 mile zone. They pointed out that the order requires handlers who purchase milk from a bulk tank unit operated by a cooperative to pay the cooperative the prices applicable at the location of the receiving handler's plant. In this circumstance, they noted, the cooperative has to charge a plant operator in the 1–10 mile zone the prices applicable at the plant location rather than the lower farm zone prices applicable to the bulk tank unit. Therefore, cooperatives took the position that the order should provide a limit on the hauling deduction that can be negotiated with producers and proposed that the amount of any increase in the location pricing value of milk at the plant of first receipt above its value at the location of the bulk tank unit be disallowed as a hauling deduction. The cooperatives argued that such a proposal was necessary to price milk purchased by a handler directly from producers on the same basis as milk purchased from a cooperative association.

Another major proposal by cooperative associations relates to the recovery of costs for long-haul shipments of bulk milk. The proposal would increase the Class I and uniform price transportation differential rate between the 201–210 mile zone and the 1–10 mile zone to 2.2 cents per 10-mile zone rather than the current 1.8 cents per zone. Proponent witnesses stated that the proposal would update the transportation differential rate to the current costs associated with distance in hauling milk from the production area to plants in the 1–10 mile zone. They indicated that the rate increase would tend to make the cost of direct-shipped milk more comparable to the cost of reloaded milk from country plants. Also, they claimed that the resultant increase of 8 cents in the Class I location adjustment for the 1–10 mile zone (20 zones × 0.4 cents) would provide better alignment between the Order 2 Class I price and the Class I price under the neighboring Middle Atlantic Federal milk order (Order 4).

Another major proposal would apply the 15-cent direct delivery differential for the 1–70 mile zone to all milk direct-shipped to plants in the 1–70 mile zone irrespective of the location of the farms on which the milk is produced. Presently the direct delivery differential is to be paid to bulk tank producers whose farms are located within the 1–70 mile zone and for milk from can producers that is delivered to a plant within the 1–70 mile zone. Also, any handler whose plant is within the 1–70 mile zone and who purchases milk on a direct-shipped basis from a cooperative is subject to the direct delivery differential on such milk received at that plant.

Producer groups that were proponents of this proposal argued that the proposal was needed to effect uniform pricing to handlers whose plants are located in the 1–70 mile zone. They pointed out that in recent years many 1–70 mile zone handlers have been obtaining direct-shipped bulk tank milk from independent producers' farms outside the 1–70 mile zone and thereby avoiding the direct delivery differential. They contended that this practice has resulted in unequal costs of milk to metropolitan New York City handlers, since many handlers have to pay the direct delivery differential for direct-shipped milk from cooperatives. Cooperative association witnesses stated that the proposed 15-cent direct delivery differential was needed in conjunction with the transportation differential rate of 2.2 cents per 10-mile zone to effect alignment of Class I prices to Order 2 and Order 4 handlers.

Proprietary handler witnesses testified in opposition to the direct delivery differential, especially on the basis of its impact on the cost of Class II milk. They stated that it inflates the cost of Class II milk at 1–70 mile zone plants, and thereby creates a disparity in Class II pricing between Order 2 and Order 4 handlers. Handler witnesses suggested that the direct delivery differential be deleted, particularly with respect to Class II milk.

Other major modifications to the order were proposed by a federation of cooperatives in the Order 4 market. The federation proposed that Order 2 be changed to plant location pricing, that the direct delivery differential be reduced to 5 cents, and that the Class I differential in the 201–210 mile base zone be increased from $2.25 to $2.40. Proponents' witness contended that this package of order modifications would provide proper alignment of pricing between Orders 2 and 4.

Several Order 2 handler witnesses indicated on the record that they were in favor of plant point pricing in principle, but preferred that the matter be given more intensive future study. Order 2 cooperatives opposed the consideration of any complete change to plant location pricing on the basis of this hearing.

The need for order modifications. It is clear that marketing conditions have changed since the present transportation allowances under the order were adopted. The transportation provisions of the New York-New Jersey order were last reviewed at a public hearing held in February 1976. The amendments resulting from that proceeding became effective on November 1, 1977, and were based on transportation costs and marketing patterns which existed in 1975. Since those amendments were effectuated, significant shifts in marketing patterns and increases in milk transportation costs have occurred.

The current transportation provisions of the order were designed to accommodate the marketing pattern existing in 1975. At that time, only 19 percent of the Class I milk at plants in the 1–70 mile zone was received directly from farms, while 81 percent was reloaded at country plants for transshipment to distributing plants within the 1–70 mile zone, from which over 80 percent of the market's Class I milk is now sold. Under the current marketing pattern in the market, a

majority of the milk moved to distributing plants in the 1–70 mile zone is received directly from farms. For example, by October 1979, 52 percent of the Class I milk at plants within the 1–70 mile zone was received directly from farms, and only 48 percent was reloaded. Moreover, the record indicates that the Order 2 handlers whose plants are located in northern New Jersey, and who are in intermarket sales competition with Order 4 handlers, receive most of their milk supplies directly from farms, as do the Order 4 handlers. Thus, intermarket price alignment needs to be structured primarily in light of costs of obtaining direct-shipped milk, in contrast to an emphasis on the cost of obtaining reloaded milk under Order 2 compared to direct-shipped milk under Order 4 as was the case with the 1977 amendments to the transportation provisions of Order 2.

Nevertheless, since a substantial proportion of the milk assembled for Class I use in the 1–70 mile zone of the New York-New Jersey market is still reloaded, it is important that the order transportation provisions be structured in a manner that tends to equate the costs of direct-shipped milk to the cost of reloaded milk for handlers in the major population center of the market. On the basis of December 1979 data, the average cost of hauling milk between plants in 59 cents per hundredweight for a distance of 200 miles. The order establishes a difference of 36 cents in Class I prices for this distance between the 201–210 mile zone and the 1–10 mile zone. In addition, the order establishes a 15-cent direct delivery differential for milk procured from farms in the 1–70 mile zone near the metropolitan New York City area. Thus, with respect to nearby direct-shipped milk, the minimum order Class I pricing structure reflects a price in the 1–10 mile zone that is 51 cents per hundredweight higher than the 201–210 mile zone price, but 8 cents less than the cost of transporting reloaded milk from the 201–210 mile zone to the 1–10 mile zone. Moreover, with respect to direct-shipped milk from farms beyond the 1–70 mile zone where the 15-cent direct delivery differential does not apply (except on milk purchased from a cooperative association bulk tank handler), the minimum order Class I pricing structure reflects a 1–10 mile zone price that is 23 cents below the transportation cost on reloaded milk obtained from the 201–210 mile zone.

Under the price structure adopted in 1977, there was a strong incentive for handlers in the 1–70 mile zone to seek supplies of direct-shipped milk from beyond the 1–70 mile zone. The record indicates that as of October 1979 handlers in the 1–70 mile zone were obtaining nearly as much direct-shipped milk as they were reloaded milk from beyond the 1–70 mile zone. In that month plants inside the 1–70 mile zone received 25 million pounds of Class I milk direct-shipped from farms inside the 1–70 mile zone and 145 million pounds from farms outside the 1–70 mile zone. Reloaded Class I milk for 1–70 mile zone plants from plants outside the 1–70 mile zone amounted to 157 million pounds in October 1979.

The hauling costs being borne by metropolitan area handlers for direct-shipped milk from beyond the 1–70 mile zone had become equivalent to the hauling cost on reloaded milk by December 1979. For example, hauling cost data for December 1979 that were obtained by audit of handlers' records show that the average cost of hauling milk from 161–190 mile zone farms to 1–70 mile zone plants was 57 cents per hundredweight. Handlers recovered 30 cents per hundredweight of this cost through the 15-cent pool credit and the 15-cent negotiable transportation charge to producers. The resultant 57 cents per hundredweight average cost to the handlers is equivalent to the average cost of moving reloaded milk from plants in the 181–190 mile zone to plants in the 1–70 mile zone. In these circumstances, the effective Class I differential cost of distant direct-shipped milk to 1–70 mile zone handlers can be expressed in terms of the order Class I differential applicable for the farm zone where the milk was procured and adding the amount of the hauling cost borne by the handlers. The Class I differential in the 181–190 mile zone is $2.268 and the direct-shipped hauling cost borne by handlers in $.57 for a total of $2.838.

Several examples of effective Class I differential costs of direct-shipped milk to 1–70 mile zone handlers were placed in the record based on December 1979 hauling costs from various farm price zones. All such examples revealed an effective Class I differential cost to 1–70 mile zone handlers within a few cents of $2.84, which is the Class I differential cost under the neighboring Middle Atlantic Federal milk order (Order 4) at plants located within 55 miles of Philadelphia.

Since May 1978 when a large-volume Class I handler at Flemington, New Jersey, shifted regulation from the Middle Atlantic order to the New York-New Jersey order, intermarket shipments of packaged fluid milk products have been about 20 million pounds per month in each direction. For example, in April 1980 Order 2 handlers' packaged fluid milk sales in the Order 4 marketing area were 19.3 million pounds compared to 20.8 million pounds in May 1978. Similarly, in April 1980 Order 4 handlers' sales of packaged fluid milk in the Order 2 marketing area were 18.8 million pounds compared to 17.8 million pounds in May 1978. The potential still exists for the Flemington, New Jersey, handler to shift regulation between these orders. Because of the intermarket competition, it is essential that the Class I prices under the two orders be reasonably aligned.

Under the present circumstances, Order 2 handlers are concerned that increasing hauling costs could place them at a competitive disadvantage relative to Order 4 handlers. This is because under the present terms of Order 2, handlers are faced with having to absorb any further increases in farm-to-plant hauling costs, but under the terms of Order 4, milk is priced at the plant of first receipt and producers pay the cost of hauling their milk from farm to plant. The interorder difference in the treatment of hauling costs is critical with respect to the cost of Class II milk as well as Class I milk for handlers.

The cost of Class II milk to Order 2 handlers is affected by the amount of milk transportation costs borne by the handlers. For example, in the case of direct-shipped milk procured from the 161–190 mile zone, the 57-cent per hundredweight hauling cost borne by the handlers in the 1–70 mile zone would be applicable irrespective of the use made of the milk. Class I handlers cannot avoid having a proportion of their milk in Class II uses, such as shrinkage, route returns, and cream from standardization of milk to a lower butterfat content.

Under Orders 2 and 4, the price for Class II milk is based on the same basic formula price (the Minnesota-Wisconsin price). However, other factors affect a handler's cost of Class II milk. Both orders provide for seasonal adjustments to the basic formula price, which average 2 cents higher under Order 4 than under Order 2. Also, there is a direct delivery differential under Order 4 of 6 cents per hundredweight that is applicable at plants within 55 miles of Philadelphia. Under Order 2, there is a transportation differential on Class II milk in the amount of 1 cent for the 25-mile zone less distant than the 201–210 mile zone, or plus 8 cents for the 1–25 mile zone, in addition to the 15-cent direct delivery differential for the 1–70 mile zone. Thus, the cost of Class II milk

to Order 2 metropolitan area handlers is at least 15 cents higher than the cost of Class II milk for Philadelphia area handlers under Order 4.

With respect to Class II milk costs at more distant zones under Order 2, the transportation differential of 1 cent for each 25-mile zone is reduced beyond the 201–225 mile zone, but is limited to a minus 8 cents. However, this minus differential would be offset by any amount of farm-to-first plant hauling costs borne by the receiving handler. In most cases, Order 2 handlers are faced with such costs, even on short-distance movements of milk between the farm and plant of first receipt.

Based on a December 1979 hauling cost audit conducted by the Office of the Market Administrator, 165 million pounds of bulk tank milk, or only 20 percent of the 821 million pounds of milk received in bulk tank units, was hauled at a cost of 30 cents or less per hundredweight. Thus, for 80 percent of the milk the hauling cost was in excess of the 30 cents reimbursable to handlers through the 15-cent pool credit and the 15-cent negotiable charge to producers. For all short-distance movements of milk (less than 5 10-mile zones between the bulk tank unit zone and the plant zone), the average hauling cost was 35.3 cents in December 1979. Consequently, handlers are faced with having to absorb on the average more than 5 cents of the cost of assembly of bulk tank milk at country plants for processing into Class II products. In addition, this extra cost would be absorbed by handlers with respect to bulk tank milk reloaded at country plants for shipment to other plants. As previously stated, 157 million pounds of Class I milk was reloaded for shipment to plants in the 1–70 mile zone in October 1979.

On the basis of hauling cost data in the record, it is apparent that Order 2 handlers in the 1–70 mile zone are faced with costs for direct-shipped Class I milk that are comparable to the Class I milk costs for competing handlers under Order 4. However, under the present transportation provisions of Order 2, the Order 2 handlers will have to absorb any further increases in hauling costs, which would create a competitive disparity in Class I pricing for Order 2 handlers who compete with Order 4 handlers for sales accounts. Also, with respect to reloaded milk moved to metropolitan New York City area handlers for Class I use, the present limit on farm-to-first plant hauling costs is forcing handlers to absorb an average of at least 5 cents per hundredweight higher transportation cost than on direct-shipped milk. This extra 5-cent cost plus any further increases in hauling costs need to be passed back to producers if comparable Class I milk costs are to be maintained between Orders 2 and 4.

Transportation allowances under Order 2 need to be changed also with respect to Class II milk costs to Order 2 handlers. Presently, on Class II milk Order 2 handlers in the 1–70 mile zone are paying at least 15 cents more than handlers under Order 4, or the amount of the direct delivery differential for the 1–70 mile zone. In the case of country manufacturing plants which process most of the Class II milk in the market, the limit on hauling deductions is forcing an average increase in milk costs of about 5 cents per hundredweight. Any further increase in hauling costs would also accrue to handlers under the present terms of the order. The basic formula price for Class II milk is the same as is used in other Federal milk orders for milk processed into hard manufactured milk products. Thus, farm-to-first plant transportation costs need to be borne by producers under Order 2 if Class II milk costs are to be maintained in alignment with other orders.

Order modifications. As previously indicated, the transportation differential, direct delivery differential, and tank truck service charge provisions of the order should be modified.

Transportation differential and direct delivery differential. The transportation differential rate of 1.8 cents per hundredweight for each 10-mile zone less distant than the 201–210 mile zone that is used to adjust the Class I and uniform prices for location should be increased to 2.2 cents per zone. Also, the present 15-cent direct delivery differential for the 1–70 mile zone should be changed to an additional 15-cent fixed transportation differential on Class I and uniform prices within the 1–70 mile zone.

The combination of these changes in the transportation differentials will reflect the current variable and fixed transportation costs in moving reloaded milk to the 1–70 mile zone. A witness for the Office of the Market Administrator presented the results of a hauling cost analysis for milk reloaded outside the 1–70 mile zone and shipped to plants inside the 1–70 mile zone in December 1979. The analysis was based on a hauling cost audit conducted by the Office of the Market Administrator in which data were obtained from plants transferring in excess of 500,000 pounds of bulk milk using contract haulers. A total of 72 million pounds of milk was shipped between 15 transfer plants and 13 receiving plants. The distances traveled between plants ranged from 122 miles to 364 miles. A statistical analysis was made of the data to determine what proportion of total hauling costs represented fixed costs or the amount not associated with distance traveled and those costs attributable to 10-mile increments of distance traveled. The results of the analysis revealed a fixed cost of 15.26 cents per hundredweight and a variable cost of 2.22 cents per 10-mile increment of distance per hundredweight.

On the basis of this hauling cost analysis, the present transportation differential rate of 1.8 cents per 10-mile zone is 0.4 cents per zone less than the variable costs being incurred by handlers in obtaining milk from distant plants. Cooperative association proponents of increasing the variable transportation differential rate to 2.2 cents per 10 miles urged that the proposal be adopted in order to price direct-delivered milk in line with the cost of obtaining reloaded milk. An increase in the transportation costs for shipping milk from distant plants to the 1–70 mile zone creates a corresponding increase in the value of direct-shipped milk from nearby farms relative to the value of milk from farms located more distant from the major population center of the market, particularly when the cost of long-distance hauling of direct-shipped milk increases as well.

The record demonstrates that long-distance direct-shipped hauling costs have been increasing. For example, the weighted average cost for one group of handlers for hauling bulk milk from farms directly to city plants increased from 38.4 cents per hundredweight in May 1976 to 55.3 cents per hundredweight in May 1979, and to 77.9 cents per hundredweight in May 1980. Moreover, it is apparent that the cost of direct-shipping milk increases with the distance shipped in about the same amount as for reloaded milk.

Hauling costs for milk produced beyond the 1–70 mile zone and delivered directly to plants in the 1–70 mile zone during December 1979 for various distances between the bulk tank unit and the plant were as follows: 101–110 miles, $0.690; 151–160 miles, $0.804; and 181–190 miles, $0.870. The 17.4-cent difference in hauling costs between 101–110 miles and 181–190 miles averages 2.175 cents per 10 miles. The 10.8-cent difference in hauling costs between 101–110 miles and 151–160 miles averages 2.16 cents per 10 miles. The 6.6-cent difference in hauling costs between 151–160 miles and 181–190 miles averages 2.2 cents per 10 miles. Thus, the proposed transportation differential rate of 2.2

cents per 10-mile zone closely reflects the added costs per 10-mile increase in the distance that milk was direct-shipped during December 1979.

Accordingly, adoption of a transportation differential rate of 2.2 cents per 10-mile zone will tend to permit handlers to recover the hauling costs associated with distance in moving Class I milk from the production area to metropolitan area processing plants for both direct-shipped and reloaded milk. In addition, uniform prices to producers would be adjusted more closely in line with the decreasing fluid use value that milk produced at increased distances from the market center has to metropolitan area handlers because of increased hauling costs in moving the milk to their plants.

At the hearing and in their brief, a proprietary handler association opposed any increase in the transportation differential rate because it would increase the Class I price by 0.4 cents per hundredweight per 10-mile zone nearer the metropolitan center than the 201–210 mile zone. Also, the association argued that the transportation differential rate inside the 201–210 mile zone should not be different than the 1.5-cent transportation differential rate beyond the 201–210 mile zone or the 1.5-cent location adjustment rate under the neighboring Middle Atlantic order.

The 1.5-cent transportation differential rate beyond the 201–210 mile zone is the rate commonly used under other Federal orders. Cooperative association proponents of the 2.2-cent rate inside the 201–210 mile zone stated that they did not proposed any change in the rate beyond the 201–210 mile zone because a change in the 1.5-cent rate could disrupt intermarket price alignment and that they did not believe it would be desirable to provide further inducement to move the more distant supplies of milk to the 1–70 mile zone.

With respect to intermarket price alignment beyond the 201–210 mile zone, in western New York and Pennsylvania the production area for the New York-New Jersey market is adjacent to the production area for the Eastern Ohio-Western Pennsylvania Federal order market. Thus, a change in the Order 2 transportation differential rate for those zones beyond the 201–210 mile zone would change the interorder milk procurement situation between Order 2 and the neighboring Federal order markets to the west. The competitive milk procurement relationships between the Eastern Ohio-Western Pennsylvania market and the New York-New Jersey market were not revealed in any significant detail on this hearing record. Thus, a meaningful indication of the probable impacts that a change in the transportation differential rate beyond the 201–210 mile zone could have on the milk marketing competition between these order markets is not feasible on this record.

With respect to the cooperatives' position that no further inducement should be made through the transportation differential rate beyond 210 miles to ship milk to the 1–70 mile zone, such position is supported by record evidence. In October 1979, a month of seasonally high Class I utilization, 327 million pounds of Class I milk were moved to plants within the 1–70 mile zone. During that month 474 million pounds of producer milk were produced on farms within the 1–210 mile zone. This amount exceeded not only the Class I needs of handlers in the 1–70 mile zone but also the Class I use in the entire market. Also, total milk production in the market of 812 million pounds in October 1979 exceeded total Class I use by 389 million pounds. Thus, more milk (389 million pounds) needed to be processed into manufactured dairy products than was needed for Class I use (327 million pounds) inside the 1–70 mile zone. Under these conditions, substantial transportation savings would be realized if milk produced on farms located closest to Class I outlets were used for Class I purposes and milk produced on farms located more distant from Class I outlets were used in manufactured dairy products. This would tend to be encouraged by adoption of a 2.2-cent per hundredweight transportation differential for each 10-mile zone less distant than 201–210 miles and not increasing the 1.5-cent per 10-mile rate for zones beyond 210 miles.

The 2.2-cent per 10-mile rate inside the 201–210 mile zone will also result in better intermarket Class I price alignment between Order 2 and Order 4. A 2.2-cent rate for the 20 zones inside the 201–210 mile zone would add 44 cents to the $2.25 Class I differential for a total of $2.69 in the 1–10 mile zone. The $2.69 plus the amount of the direct delivery differential of 15 cents would result in a Class I milk differential price of $2.84 for direct-shipper milk in the 1–10 mile zone. This is the same as the Class I differential cost of milk at plants within 55 miles of Philadelphia under Order 4 ($2.78 Class I differential plus a 6-cent direct delivery differential).

However, the amount of the 15-cent direct delivery differential under Order 2 should be changed to a fixed transportation differential for the 1–70 mile zone, to effect comparable Class II pricing between Order 2 and Order 4, as well as alignment of Class I prices between these orders. Moreover, the 15-cent fixed transportation differential is needed under Order 2 to maintain comparable costs between direct-shipped milk and reloaded milk for handlers in the 1–70 mile zone. As previously indicated, analysis of the costs of hauling reloaded milk during December 1979 under Order 2 revealed a fixed transportation cost of 15.26 cents per hundredweight. Consequently, this fixed cost needs to be reflected in the Class I price of direct-shipped milk to maintain comparable hauling allowances for handlers on both direct-shipped and reloaded milk.

Proponents of application of the direct delivery differential to all direct-shipped milk irrespective of whether it is produced on farms inside or outside the 1–70 mile zone recognized that milk has the same plant location value to a 1–70 mile zone Class I handler regardless of the location of the farm where produced. Uniform pricing to handlers cannot be maintained effectively when producers located outside the 1–70 mile zone are left to rely on their bargaining strength to obtain a price competitive with the higher cost of reloaded milk or the higher price of direct-delivered milk from farms within the 1–70 mile zone, as is presently done under the order.

Alignment of minimum order Class II pricing on an intermarket and intramarket basis would be improved by removal of the impact of the direct-delivery differential on Class II milk, as proposed at the hearing by proprietary handlers. As previously discussed, the 15-cent direct delivery differential results in a cost of Class II milk to Order 2 handlers that is 15 cents above the cost of Class II milk to Order 4 handlers whose plants are located within 55 miles of Philadelphia. With respect to intramarket competition the effective minimum order cost of Class II milk varies among handlers in accordance with the amount of hauling cost for which handlers are not reimbursed through the 15-cent pool credit and the 15-cent negotiable hauling deduction from producers. Further detail on this matter is included later in this decision.

Pool credit and tank truck service charge. The combination of the 15-cent bulk tank unit pool credit to handlers and the 15-cent limit on the negotiable hauling charges to producers relates to the proportion of farm-to-first plant hauling cost to be borne by producers and the proportion to be borne by handlers. The bulk tank unit pool credit should be continued at the 15-cent rate. However, the limit on the negotiable hauling charge to producers should be

modified by permitting handlers to recover any farm-to-first plant hauling costs that are in excess of the pool credit and the amount of any increase in class use location value of the milk at the plant of first receipt over its class use location value in the bulk tank unit from which it was transferred.

The proposals to increase the amount of the pool credit and the proposal to delete the pool credit should not be adopted. Proponents of an increase in the pool credit supported in on the basis that hauling costs have increased and the minimum farm-to-first plant hauling cost in the market is now about 20 cents per hundredweight. The proponent of deletion of the pool credit stated that the use of a pool credit tends to keep an equivalent amount of hauling costs hidden from producers. Proponent argued that producers should be charged directly for all hauling costs so that they will better realize what such costs are rather than having a portion of such costs hidden in the form of a reduced pay price.

One of the impacts of the use of a pool credit is a reduction in the amount of the announced uniform price under the order. If the pool credit were eliminated the announced uniform price would be 15 cents higher. Thus, the amount of the hauling cost represented by the pool credit is borne by producers. Accordingly, total net returns to producers would be the same if the pool credit were deleted and the hauling charge directly to producers were increased a like amount. In this circumstance, it would seem that the pool credit should be changed to an increase in a hauling charges directly to producers, since it has only a psychological impact on producers. However, the record does not reveal the extent to which producers may understand that they are paying for part of farm-to-first plant hauling in the form of a reduced pay price. If producers are not generally aware of this impact of the present pool credit, it could result in unrest among producers if hauling charges were abruptly increased by 15 cents per hundredweight through deletion of this pool credit.

The hauling cost problems faced by handlers can be alleviated with the continuation of a pool credit, but there could be adverse impacts if the amount of the pool credit were increased. If the credit were set at an amount in excess of the minimum hauling cost it would result in a windfall profit to bulk tank unit operators in an amount that hauling costs are less than the amount of the credit. For example, the proposed 30-cent pool credit would have exceeded the actual farm-to-first plant hauling cost in December 1979 for 184.5 million pounds of milk. The proposed 25-cent pool credit would have overcompensated handlers with respect to 38.9 million pounds of milk that was hauled during December 1979. Also, witnesses indicated that there is still some milk being hauled from farm to plant for less than the proposed 20-cent pool credit.

Moreover, an increase in the pool credit would tend to limit the flexibility handlers would be permitted to exercise in adopting hauling charges that reflect the wide variations inherent in the cost of hauling milk among producers within a bulk tank unit. If the pool credit were set at the average hauling cost for all milk in a bulk unit, the handlers would not be permitted to make hauling deduction and producers in the unit would all be paying the same hauling cost in the form of a reduced uniform price. However, if the pool credit were to be kept at the lowest cost of hauling for any producer in the unit, then handlers would be permitted to adopt a hauling schedule that reflected the full variation in costs of hauling for milk of individual producers in the unit.

The record indicates that cooperative associations in the market have employed the use of a stop charge in their hauling schedule for member producers. Thus, producers with large volumes of production tend to realize a lower per unit cost of hauling than small-volume producers. Also, producers whose milk is picked up everyday are charged more per unit than producers who are on an every-other-day pickup. In order for proprietary handlers to use this stop charge type of hauling scheme, the pool credit needs to be kept at the per unit hauling cost of the lowest cost producer in the unit. However, a pool credit at such low level would not preclude a handler from applying the same per hundredweight hauling charge for all producers in the unit.

Handler and cooperative association witnesses indicated that under the present terms of the order there is allowance for exercising some variability in the type of hauling charge schedule used and they proposed that it be continued. In view of the above considerations, it is concluded that not change should be made at this time in the amount of the bulk tank unit pool credit.

The limit on the total amount of the negotiable hauling deduction from producers should be changed to effect uniform class prices to handlers at a given plant location. This can be accomplished by adoption the proposal by cooperatives to subtract from the negotiable hauling deduction from producers the amount of the pool credit and the amount that the class use location value of the milk at the plant of first receipt exceeds its class use location value in the bulk tank unit from which the milk was transferred. The adjustment of hauling charges in this manner is necessary to preclude handlers from obtaining a double credit for the transportation differentials under the order.

As previously discussed, transportation differentials for adjusting class prices are employed under the order to afford handlers transportation cost allowances for moving milk from the production area to metropolitan New York City processing plants. With respect to bulk tank unit milk, class prices are reduced for the location of the farms included in the bulk tank unit. Handlers are obligated to account to the producer settlement fund at the classified use value of milk at the location of the bulk tank unit. Thus, in this manner handlers receive the benefit of the transportation differential employed in the order. In this circumstance, if a handler is permitted to charge producers for hauling milk to a plant in a higher-priced zone than the bulk tank unit the handler would benefit twice from the transportation differentials provided in the order. Accordingly, it is appropriate that handlers incur the transportation differential amount of hauling costs associated with moving direct-shipped milk from a bulk tank unit to a plant in a higher-priced zone. This can effectively be accomplished throuth the disallowances of any charge to producers for the amount that the transportation differential value of milk at the plant of first receipt exceeds its transportation differential value in the bulk tank unit.

Such hauling allowance provisions will also provide assurance that costs of direct-shipped milk are uniform to handlers at the plant of first receipt as adjusted for location by the transportation differentials. Under the present terms of the order, handlers tend to receive the benefit of any farm-to-city plant hauling costs that are less than a competing handler's hauling costs. Thus, the effective costs to city handlers tend to vary with any variations in the costs of direct-shipping milk from the zone of the bulk tank unit to the city plant. Under the adopted amendments, such hauling cost variations will tend to accrue to producers.

Under the present transportation allowance scheme in the order,

proprietary handlers have had an incentive to seek out those direct-shipped producer milk supplies that are the least costly to haul to their plants since the hauling allowances do not cover the full hauling costs. Typically such producer milk supplies are from farms located on good highways and from large-volume producers. Contrariwise, there has been an incentive for proprietary handlers to avoid obtaining milk from small-volume producers or from farms located on poor roads, or on roads with lower truck weight limits, or in hilly areas, all of which involve higher handling costs. Thus, in many cases bulk tank hauling routes have been segregated according to the cost of hauling milk from farms. The witness for one producer group contended that variations in hauling costs among farms should be reflected in hauling costs to producers rather than in the hauling costs incurred by handlers. The witness pointed out that for the most part producers have incurred an increased capital investment in farms located on good roads and with farmstead lanes that facilitate the use of the larger more efficient tank trucks for picking up their milk. Moreover, the witness contended that property taxes are higher for farms that are on the better roads and that have farm lanes in a condition that permits easy access to the milk house by large tank trucks. In these circumstances, the efficiency of hauling routes tends to be related to conditions at the farm and therefore it is appropriate that the transportation provisions of the order permit the reflection of variations in costs of hauling back to producers individually.

The proposals to remove the limit on the amount of actual hauling costs that may be negotiated between handlers and producers would allow for the reflection of variations in hauling costs among farms in a bulk tank unit. Also, handlers would be assured that the terms of the order would not force them to absorb hauling costs that would effect higher than minimum order class use values of milk at the plant of first receipt.

The proposals to maintain a maximum limit on the negotiable hauling deduction could threaten the ability of producers on farms from which milk hauling costs are somewhat higher than for neighboring farms to maintain an outlet for their milk. Witnesses indicated that this has been the case under the present hauling limit. Obviously, this type of problem would tend to be alleviated by setting the hauling deduction limit at a higher amount. However, most witnesses contended that hauling costs could be expected to continue increasing. Thus, the problems attributable to the limit could be expected to recur at a future date, particularly if the farm-to-first plant hauling allowances were increased from the present 30 cents to only 45 cents per hundredweight as proposed by cooperatives.

The farm-to-first plant hauling cost audit conducted by the Office of the Market Administrator reveals that in December 1979 hauling costs exceeded an average of 45 cents per hundredweight for some bulk tank units for which milk was shipped less than 50 miles between the unit location and the plant location. A total of 77.5 million pounds of milk was included in such units. Accordingly, adoption of the maximum limit proposed by cooperatives would fall short of covering the present range of farm-to-first plant hauling costs.

A major impact of the hauling limit has been to preclude handlers from benefiting twice from the transportation differential structure under the order in the case of milk direct-shipped long distances from the production area to plants in the 1–70 mile zone. This impact under the order would be taken care of by the adoption of the previously discussed modification to the negotiable hauling charge. Thus, a maximum limit would no longer be needed to preclude handlers from realizing a double credit for the hauling allowances reflected in the transportation differentials under the order.

Moreover, as pointed out by those proposing the removal of the limit on hauling deductions, producers have the protection of handlers having to get a producer's or his cooperative's advance written approval for a hauling charge. Also, producers would always have the option of changing market outlets to obtain a more favorable hauling rate. Thus, competition among haulers should tend to protect the interest of producers with respect to hauling costs that they incur. In view of the above considerations, it is concluded that a maximum limit on negotiable hauling deductions should not be maintained under the order.

The adoption of the combination of the aforementioned amendments to the order should tend to effect the recovery of transportation costs by handlers in a manner that results in proper alignment of handlers' costs of milk on an intramarket and intermarket basis. It is recognized, however, that no action is taken with respect to milk assembly costs not associated with transportation costs. There was discussion on the record with respect to the cost of reloading milk at country plants which could result in a higher total cost to handlers for reloaded milk than for direct-shipped milk. No proposals were made with respect to matters other than transportation costs.

Other proposals not adopted. The proposal made at the hearing to adjust the negotiable hauling deduction limit by use of a diesel fuel formula is rendered moot by the elimination of a fixed limit on hauling deductions.

The proposal for a complete change to plant location pricing should not be adopted. The amendments provided herein tend to effect plant pricing with respect to the classified prices to handlers. However, farm zone pricing is retained with respect to uniform prices to producers. In these circumstances, the basic substantive difference between the adopted provisions and plant pricing is the order's impact on movement of milk to higher-priced zones for Class II use. Under plant pricing the minimum uniform price payable to producers applies at the location of the plant of first receipt and handlers are credited from the producer settlement fund at such uniform price. Accordingly, such application of the order would provide a greater incentive to haul direct-shipped milk to city plants for Class II use, since there would be a credit from the pool for the full amount that the uniform price transportation differential at the city plant exceeds the transportation differential for the zone of the bulk tank unit.

In such circumstances, adoption of a plant pricing would tend to provide encouragement to move milk long distances toward the city for manufacturing use. Since manufactured products are a much more concentrated form of dairy products than fluid milk, transportation savings can be realized if manufactured products are processed at plants nearby producers' farms and shipped to the city in manufactured form. The pricing scheme adopted will tend to discourage the long distance shipment of milk toward higher-priced zone plants for Class II use, since handlers will be in a position of having to convince the producer to pay the extra cost of hauling milk to their plants compared to the cost of hauling milk to a plant near the producer's farm.

Under the present terms of the order, handlers are discouraged from moving milk long distances for Class II use since they incur the extra hauling costs. This situation will be essentially the same under the provisions adopted, since producers would have the option of obtaining an alternative outlet for their

milk at manufacturing plants in the production area, rather than agreeing to pay the extra cost of having their milk hauled to the city for Class II use. Order 2 cooperative association witnesses argued that the order provisions should continue to be structured in a manner that discourage the movement of milk to the city for Class II use. For this reason, complete plant pricing should not be adopted at this time.

The proposals to increase the Class I differential by 15 cents and reduce the direct delivery differential to 5 cents were supported on the basis that they would result in proper alignment of prices between Order 2 and Order 4. These proposals would result in reducing the transportation allowance under the order to 49 cents between the 201–210 mile zone and the 1–10 mile zone. This is 2 cents less than under the present terms of the order and 10 cents less than the actual transportation cost on reloaded milk. Moreover, it would provide a Class I differential cost of $2.89 in the 1–10 mile zone. Such $2.89 Class I differential cost plus the shortfall of 10 cents in covering the transportation costs on reloaded milk would result in an effective Class I differential milk cost of $2.99 at the 1–10 mile zone. This is 15 cents higher than the Class I differential cost under the adjacent Order 4 at plants within 55 miles of Philadelphia. In this circumstance, there would be a disparity in pricing under the orders that would tend to favor Order 4 handlers. Accordingly, these proposals should not be adopted.

Omission of the recommended decision. A proprietary handler association urged at the hearing that their proposed amendments be adopted on an emergency basis by omitting the usual issuance of a recommended decision for review and comments by interested parties before a final decision is issued. However, in its brief the association stated that it wished to have the benefit of commenting on a recommended decision if any amendments other than those that the association proposed were adopted. In these circumstances, the issue is moot, since amendments other than those proposed by the association are adopted.

Ruling on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Finding

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the New York-New Jersey marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. The introductory text preceding paragraph (a) in § 1002.50a is revised to read as follows:

§ 1002.50a Class prices.

For pool milk received during each month from dairy farmers or cooperative associations of producers, each handler shall pay per hundredweight not less than the prices set forth in this section, subject to the differentials and adjustments in §§ 1002.51 and 1002.61. Any handler who purchases or receives milk during any month from a cooperative association of producers but does not operate the plant or unit receiving this milk from producers shall pay the cooperative association on or before the 19th day of the following month for such milk at not less than the class prices pursuant to this section subject to the differentials and adjustments set forth in §§ 1002.51 and 1002.61 applicable at the plant at which the milk is first received from the cooperative association. Such payments to a cooperative association shall be deemed not to have been made until the payments have been received by the cooperative association.

* * * * *

2. In § 1002.51, paragraph (c) is revised to read as follows:

§ 1002.51 Transportation differentials.

* * * * *

The differential rates applicable at plants shall be as set forth in the following schedule.

A Freight Zone (miles)	B Classes I–A and I–B	C Class II
	Cents per hundredweight	
1–10	+58.0	+5
11–20	+56.8	+5
21–25	+54.6	+6
26–30	+54.6	+7
31–40	+52.4	+7
41–50	+50.2	+7
51–60	+48.0	+6
61–70	+54.8	+5
71–75	+28.8	+6
76–80	+29.6	+5
81–90	+25.4	+5
91–100	+24.2	+5
101–110	+22.0	+4
111–120	+19.8	+4
121–125	+17.6	+4
126–130	+17.6	+3
131–140	+15.4	+3
141–150	+13.2	+3
151–160	+11.0	+2
161–170	+8.8	+2
171–175	+8.8	+2
176–180	+8.8	+1
181–190	+4.4	+1
191–200	+2.2	+1
201–210	0.0	0
211–220	−1.5	0
221–225	−3.0	0
226–230	−3.0	−1
231–240	−4.5	−1
241–250	−6.0	−1
251–260	−7.5	−2
261–270	−9.0	−2

A Freight Zone (miles)	B Classes I-A and I-B	C Class II
271-275	−10.5	−2
276-280	−10.5	−3
281-290	−12.0	−3
291-300	−13.5	−3
301-310	−15.0	−4
311-320	−16.5	−4
321-325	−18.0	−4
326-330	−18.0	−5
331-340	−19.5	−5
341-350	−21.0	−6
351-360	−22.5	−6
361-370	−24.0	−6
371-375	−25.5	−6
376-380	−25.5	−7
381-390	−27.0	−7
391-400	−28.5	−7
401 and over	−30.0	−8

* * * * *

§ 1002.53 [Amended]

3. In § 1002.53, the reference "§§ 1002.51 and 1002.82(b)" is revised to "§ 1002.51".

4. In § 1002.80, paragraph (a)(2) and (3) is revised to read as follows:

§ 1002.80 Time and rate of payments.

(a) * * *

(2) Proper deductions for the month that were authorized in writing by producers from whom the handler received milk (except as specified in paragraph (a)(3) of this section);

(3) For milk received in a bulk tank unit and for which transportation was provided by the handler or at his expense, there may be deducted, as proper and as authorized in writing by the producer, or by a cooperative association authorized to act on behalf of such producer, a tank truck service (transportation) charge. This charge may include any farm-to-first plant transportation costs for which the handler was not reimbursed through the transportation credit pursuant to § 1002.55, but such charge shall be reduced by the amount that the class use location value of milk at the plant of first receipt exceeds its class use location value where the milk was accounted for as a receipt in the bulk tank unit from which the milk was transferred. Any such deduction, plus the transportation credit, and plus the amount of the increase in class use location value of the milk at the plant compared to the unit shall not exceed the actual transportation costs incurred. Any such deduction also must be made by the handler not later than the date on which the producer is required to be paid for such milk. If authorization for such deduction is cancelled by the producer or by the cooperative by notifying the handler in writing, such cancellation shall be effective on the first day of the month following its receipt by the handler; and

* * * * *

§ 1002.82 [Amended]

5. In § 1002.82 paragraph (b) is removed.

Signed at Washington, D.C., on: March 12, 1981.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

BILLING CODE 3410-02-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 2

Rules of Practice for Domestic Licensing Proceedings; Expediting the NRC Hearing Process

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission is considering amending its Rules of Practice to facilitate expedited conduct of adjudicatory proceedings on applications to construct or operate nuclear power plants. The Commission is proposing these amendments for comment because it is apparent that unless some action is taken a number of nuclear power reactors will be completed prior to the completion of required adjudicatory hearings. These proposed amendments are intended to minimize the time lag between NRC adjudicatory decisions and plant completion.

DATES: Comment period expires on April 7, 1981. No requests for extensions of time will be granted.

ADDRESSES: All interested persons who desire to submit comments in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Docketing and Service Branch. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Martin G. Malsch, Esq., Deputy General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, (202 634-1465).

SUPPLEMENTARY INFORMATION: Following the Three Mile Island accident of March 28, 1979, the Nuclear Regulatory Commission reassigned most of its staff who had been reviewing applications seeking authorization to construct or operate nuclear power reactors to other tasks, such as investigating the causes of the accident, assuring the safety of other operating power reactors and developing new generic safety requirements based on the lessons learned from the accident. As a direct result of these reassignment it has recently become apparent that if the licensing process is not altered, construction of a number of plants on which adjudicatory hearings are being held will be completed prior to the completion of the hearings. The resulting delay costs to utilities and, ultimately, ratepayers could run into billions of dollars.

To eliminate or mitigate these potential impacts, the Commission's technical staff has proposed a substantial reordering of staff review resources. The aim here was to achieve whatever time savings were possible without changes to the hearing process. However, it does not appear that reallocation of staff resources alone will be sufficient. Accordingly, the Commission has examined the hearing process to see where that process might be expedited. The Commission's legal offices have developed for Commission consideration the hearing schedule set forth below for NRC adjudicatory proceedings on construction permit and operating license applications. This proposed schedule is intended to serve as a guideline for NRC's Administrative Judges. In the more complicated cases, which involve a large number of parties and contentions, additional time may be required. In simple cases less time may be required. The schedule reflects an objective that hearings on issues should commence as soon as possible, consistent with fairness, after completion of the staff review on those issues necessary for hearing. Early hearings on discrete issues addressed in SER's will be required, unless segmentation of the hearing would clearly be counterproductive. The schedule assumes that there is sufficient new information in the staff's safety evaluation supplement to allow parties to demonstrate good cause for acceptance of late contentions and permitting another round of discovery. This, of course, need not be the case and whether this will prove to be the case in pending and future proceedings will depend on numerous factors. The proposed schedule is:

Event	Day after preceding
Publication of Final Supplemental SER Required Prior to Hearing—Discovery on Site Document Begins	0
Discovery Ends	35
Revised Contentions, if any, Filed	35
Prehearing and Settlement Conference	40
Licensing Board Rules on Revised Contentions	80
Parties File Testimony	60
Hearing Begins	95
Hearing Ends	135
All Proposed Findings Filed	175
Licensing Board Decision	240

In order to meet this proposed eight-month schedule, several changes in the Commission's Rules of Practice would be required.

1. Currently, parties to NRC licensing proceedings may engage in formal discovery against the NRC staff. Under the amendments as proposed for comment the opportunity to engage in formal discovery against the staff would be eliminated. Staff, however, would produce relevant documents and would respond to telephone and written requests for information wherever practicable. It is contemplated that most of the discoverable information can ultimately be produced at the hearing on cross-examination of staff witnesses. The rule change would essentially leave the decision to staff whether to allocate resources to respond to informal discovery or provide resources in the form of witnesses at hearings.

2. NRC regulations require the Licensing Board to prepare written orders on those motions submitted to it in writing. The proposed regulations would permit the Boards, when appropriate, to rule upon motions orally.

3. Under the present regulations, parties are permitted to file motions requesting the Licensing Board to reconsider prehearing orders it has issued. The proposed rules would not permit such motions.

4. Currently, at least two Licensing Board members participate in each substantive order issued. The proposed amendments would authorize the Licensing Board Chairman to act alone on prehearing matters. Despite this delegation of authority it would be within the discretion of the Chairman to consult the other members on appropriate matters before action.

5. NRC regulations provide for filing of proposed findings of fact and conclusions of law. After all parties (including the applicant) have submitted proposed findings, the applicant is given ten days to reply. Under the proposed rules, the right of the applicant to file a reply to the other parties' submissions would be eliminated.

6. Currently, parties to proceedings must file any motions requesting summary disposition at least forty-five days prior to the start of the hearing. In order to provide the opportunity for greater use of such motions, and to provide the Boards more flexibility in conducting the proceeding, the proposed rules would permit motions for summary disposition to be filed at any time. However the Board could use its authority over the conduct of the proceeding to set time limits on summary disposition tailored to the circumstances of the proceeding.

If the Commission adopts any of these revisions described above, it would make the appropriate conforming changes to 10 CFR Part 2, Appendix A.

7. In proposing for comment these changes aimed at shortening the hearing process, the Commission wishes to emphasize that it does not intend to make changes which reduce the overall quality of NRC adjudicatory proceedings or which are inconsistent with basic fairness. Because these changes, if adopted, would be applicable to pending NRC adjudicatory proceedings, where parties have been proceeding in accordance with the current rules, the Commission is particularly interested in obtaining the views of participants in NRC hearings on how the proposed schedule and rule changes would affect: (1) the quality of the various proceedings; and (2) the parties' participation in such proceedings. Copies of this notice of proposed rulemaking will be served on parties to pending proceedings.

As the Commission continues its examination of the hearing process, it may find that other rule changes are required. Public comment, when appropriate, will be sought on any such changes.

Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission hereby certifies that this rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This rule affects the Commission's rules of practice and procedures by permitting expedition of the licensing process.

Proposed Regulatory Changes. Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and section 553 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 2 are contemplated.

PART 2—RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

1. In § 2.720, paragraph (h)(2) is revised to read as follows:

§ 2.720 Subpoenas.

* * * * *

(h) * * *

(2) In a proceeding in which the NRC is a party, the NRC staff will make available one or more witnesses designated by the Executive Director for Operations for oral examination at the hearing regarding any matter, not privileged, which is relevant to the issues in the proceeding. The attendance and testimony of the Commissioners and named NRC personnel at the hearing or on deposition may not be required by the presiding officer, by subpoena or otherwise: *Provided,* That the presiding officer may, upon a showing of exceptional circumstances, such as a case in which a particular named NRC employee has direct personal knowledge of a material fact not known to the witnesses made available by the Executive Director for Operations require the attendance and testimony of named NRC personnel at the hearing.

* * * * *

2. In § 2.721, paragraph (d) is revised to read as follows:

§ 2.721 Atomic safety and licensing boards.

* * * * *

(d)(1) An atomic safety and licensing board shall have the duties and may exercise the powers of a presiding officer as granted by § 2.718 and otherwise in this part. At any time when such a board is in existence but is not actually in session, any powers which could be exercised by a presiding officer or by the Chief Administrative Law Judge may be exercised with respect to such a proceeding by the chairman of the board having jurisdiction over it.

(2) The chairman of the board may exercise all powers of a presiding officer with regard to contentions, discovery, scheduling, and other matters which come before the presiding officer for decision before the commencement of the hearing. The Chairman may, in his discretion, consult with the other board members before exercising this authority.

(3) Except as noted in (d)(1) and (d)(2) of this paragraph, no board action can be taken without the participation of a quorum of the board. Two members of an atomic safety and licensing board constitute a quorum, if one of those members is the member qualified in the conduct of administrative proceedings.

3. In § 2.730, paragraph (e) is revised to read:

§ 2.730 Motions.

* * * * *

(e) The Board may dispose of written motions either by written order or by oral ruling during the course of a prehearing conference of hearing.

* * * * *

4. In § 2.740, paragraph (f)(3) is revised to read as follows:

§ 2.740 General provisions governing discovery.

* * * * *

(f) * * *

(3) This section does not preclude an independent request for issuance of a subpoena directed to a person not a party for production of documents and things. This section does not apply to requests for the testimony of the staff pursuant to § 2.720(h)(2) or production of NRC documents pursuant to § 2.790.

5. In § 2.740a, paragraph (j) is revised to read as follows:

§ 2.740a Deposition upon oral examination and upon written interrogatories.

* * * * *

(j) The provisions of paragraphs (a) through (i) of this section are not applicable to discovery against NRC personnel. These employees cannot be compelled to submit to depositions or respond to written interrogatories.

6. In § 2.740b, paragraph (a) is revised to read as follows:

§ 2.740b Interrogatories to parties.

(a) Any party may serve upon any other party (other than the staff) written interrogatories to be answered in writing by the party served, or if the party served is a public or private corporation or a partnership or association, by any officer or agent, who shall furnish such information as is available to the party. A copy of the interrogatories, answers, and all related pleadings shall be filed with the Secretary of the Commission and shall be served on the presiding officer and upon all parties to the proceeding.

* * * * *

7. Section 2.744 is revised to read as follows:

§ 2.744 Production of NRC records and documents.

All requests for NRC records or documents must be requested pursuant to § 2.790 and 10 CFR Part 9.

8. In § 2.749, paragraph (a) is revised to read as follows:

§ 2.749 Authority of presiding officer to dispose of certain issues on the pleadings.

(a) Any party to a proceeding may move, with or without supporting affidavits, for a decision by the presiding officer in that party's favor as to all or any part of the matters involved in the proceeding. There shall be annexed to the motion a separate, short and concise statement of the material facts as to which the moving party contends that there is not genuine issue to be heard. Motions shall be filed within such time as may be fixed by the presiding officer. Any other party may serve an answer supporting or opposing the motion, with or without affidavits, within twenty (20) days after service of the motion. There shall be annexed to any answer opposing the motion a separate, short and concise statement of the material facts as to which it is contended that there exists a genuine issue to be heard. All material facts set forth in the statement required to be served by the moving party will be deemed to be admitted unless controverted by the statement required to be served by the opposing party. The presiding officer shall permit the opposing party an opportunity to respond in writing to new facts and arguments presented in any supporting statements which were not presented in the papers of the moving party. Any such response shall be served within such time limits as the presiding officer may establish and shall address only the new facts and arguments presented in the supporting statement. No further supporting statements or responses thereto shall be entertained.

* * * * *

9. In § 2.751a, paragraph (d) is revised to read as follows:

§ 2.751a Special prehearing conference in construction and operating license proceedings.

* * * * *

(d) The presiding officer shall enter an order which recites the action taken at the conference, the schedule for further actions in the proceeding, any agreements by the parties, identifies the key issues in the proceeding, makes a preliminary or final determination as to the parties in the proceeding, and provides for the submission of status reports on discovery. The order shall be served upon all parties to the proceeding. The order shall control the subsequent course of the proceeding unless modified for good cause. Objections to or requests for reconsideration of the order will not be entertained.

10. In § 2.752, paragraph (c) is revised to read as follows:

§ 2.752 Prehearing conference.

* * * * *

(c) The presiding officer shall enter an order which recites the action taken at the conference, the amendments allowed to the pleadings and agreements by the parties, and which limits the issues or defines the matters in controversy to be determined in the proceeding. The order shall be served upon all parties to the proceeding. The order shall control the subsequent course of the proceeding unless modified for good cause. Objections to or requests for reconsideration of the order will not be entertained.

§ 2.754 [Amended]

11. Section 2.754 is amended by removing paragraph (a)(3).

Dated at Washington, D.C., this 13th day of March 1981.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Part 377

Request for Comments on Need To Continue Quantitative Restrictions on Certain Petroleum Naphtha Exports

AGENCY: International Trade Administration, Commerce.

ACTION: Review of existing regulation; request for public comment.

SUMMARY: The Department is reviewing export restrictions presently in effect on certain unfinished naphthas used for petrochemical feedstocks and invites public comment on the merits of removing or revising these export limitations.

DATE: Comments must be received by May 18, 1981 to assure full consideration.

ADDRESS: Send comments in ten copies to Short Supply Division, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Mr. Robert F. Kan, Short Supply Division, Office of Export Administration, (202) 377-3795.

SUPPLEMENTARY INFORMATION: By rule published in the Federal Register on October 7, 1976 (41 FR 44155), the Department determined that export controls must be extended to cover petroleum naphtha in order "(a) to assure that partly-refined petroleum and

gasoline blending agents * * * are not inadvertently exported outside the restrictions intended to apply to such commodities, and (b) to limit exports of these scarce commodities to their historic levels."

Naphthas, by that rule, became subject to validated licensing and quantitative restrictions for export, with quotas established at historic levels based upon exporters' past participation in the export trade in these commodities during the base period January 1, 1974–June 30, 1976.

After further review and as a result of the comments received from industry and after consultation with interested government agencies, on April 7, 1977 (42 FR 18395), the Department announced that quantitative limitations based upon the historical pattern of exports must be maintained for those naphthas capable of being used as a fuel, either alone or when blended with other petroleum products, or which are suitable for farther refining or for use as a feedstock for petrochemical or synthetic natural gas production. The Department removed quantitative limitations on exports of specialty finished naphthas with a distillation dry point exceeding the boiling range of gasoline or with a solvency value (Kauri-Butanol) so low as to reduce their desirability as gasoline blending agents, or which are shipped in drums or containers not exceeding 55 U.S. gallons per container. These commodities are licensed for export without quantitative limitations upon receipt of satisfactory evidence that they are intended for a non-energy end use. In the same Federal Register Notice the Department extended licensing controls to all naphtha solvents and related intermediate distillates which fell under certain Schedule B numbers.

The Department, in consultation with the Department of Energy and other interested Federal agencies, is now considering modifying these regulations so as to remove or revise export limitations on certain unfinished low octane, high parafin naphthas (those with a 65 percent or higher paraffin content, using P.O.N.A. tests) suitable for use as a petro-chemical feedstock but generally unsuitable for gasoline blending. This action is being considered because: (1) The Commission of the European Communities has requested modification of U.S. export restraints on naphthas to improve conditions in their petrochemicals and synthetic fibers sector; (2) preliminary indications* are that this would not have a detrimental effect on domestic energy supplies; and (3) it appears that by this action the national interest would be served by broadening markets for naphthas unsuitable or unneeded for domestic consumption.

To assist the Department in its evaluation of this matter, interested parties are encouraged to submit written comments, views, or data concerning the desirability of the action under consideration. The Department is especially interested in receiving information bearing on: (1) The extent of usage of unfinished petroleum naphthas in the fuel cycle in the United States; (2) the technical characteristics of various naphtha streams which inhibit their use as fuels or, conversely, make them more suitable for use in non-energy applications; (3) the availability of unfinished naphthas; (4) the extent to which liberalizing export restrictions on unfinished naphthas could result in decreased production of other petroleum products suitable for use domestically as a fuel or in domestic petrochemical plants; and (5) any other matters or options which are relevant to the decision under consideration.

The period for submission of comments on the action being considered will end as of the close of business on May 18, 1981. All comments (whether written or oral) received by the Department by close of business on May 18, 1981 will be considered by the Department in its final decision on this matter. While comments received after the close of the comment period will be considered if possible, their consideration cannot be assured.

Written public comments which are accompanied by a request that part or all of the material be treated confidentially because of its proprietary nature or for any other reason will not be accepted. Such comments and materials will be returned to the submitter and will not be considered by the Department in making its decision.

All public comments will be made a matter of public record and will be available for public inspection and copying. This procedure shall not, however, apply to communications from agencies of the United States or foreign governments. In the interests of accuracy and completeness, comments in written form are preferred. If oral comments are received, the Department official receiving such comments will prepare a memorandum summarizing the substance of the comments and identify the person on whose behalf they are made. All such memoranda will also be a matter of public record and will be available for public review and copying.

The public record concerning these comments will be maintained in the International Trade Administration's Freedom of Information Records Facility, Room 3102, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C., 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information about the facility may be obtained from Mrs. Patricia L. Mann, the International Trade Administration's Freedom of Information Officer, at the above address or by calling (202) 377–3031.

(Sections 7 and 13, Pub. L. 96–72, 93 Stat. 503, 50 U.S.C. App. 2401 *et seq.*; Section 103, Pub. L. 94–163, 89 Stat. 877, 42 U.S.C. 6212; Executive Order 12214, (45 FR 29783, May 6, 1980); Department Organization Order 10–3 (45 FR 6141), January 25, 1980); International Trade Administration Organization and Function Order 41–1 (45 FR 11862, February 22, 1980) and 41–4 (45 FR 65003, October 1, 1980))

Dated: March 12, 1981.

William V. Skidmore,

Director, Office of Export Administration, International Trade Administration.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34-17615; File No. S7-878]

Notice by Self-Regulatory Organizations of Proposed Admission to, or Continuance in, Membership or Participation of Certain Persons Subject to Statutory Disqualifications

AGENCY: Securities and Exchange Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission is proposing to amend the requirements applicable to notices and applications filed by self-regulatory organizations ("SRO's") with the Commission concerning proposed admissions to, or continuances in, membership or participation in the organization or association with a member of persons subject to statutory

disqualifications. The amendments are designed to (1) provide additional specific exceptions from the notice filing requirements in certain situations; (2) require specifically that all SRO's provide certain detail in notices and applications to facilitate Commission review of the proposed SRO action; and (3) clarify certain provisions relating to notices and applications that may now be unclear, either as to their meaning or as to the proper procedures to be followed.

DATE: Comments must be received on or before April 22, 1981.

ADDRESSES: Interested persons should submit three copies of their views and comments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. S7–878. All submissions will be made available for public inspection at the Commission's Public Reference Room, Room 6101, 1100 L Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: H. Steven Holtzman, Esq., Office of Legal Policy and Trading Practices, Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272–2842.

SUPPLEMENTARY INFORMATION:

Background

Passage of the Securities Acts Amendments of 1975 (the "1975 Amendments") [1] to the Securities Exchange Act of 1934 (the "Act") [2] gave the Commission enhanced oversight responsibilities as to SRO activities. In particular, Sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the amended Act provide, among other things, that a national securities exchange, national securities association or registered clearing agency [3] must file with the Commission a notice, whose form and content is prescribed by the Commission, not less than thirty days before approving the application of a person to become a member or participant in the organization or associated with a member firm when the SRO knows that such person is subject to a statutory disqualification.[4] Those sections also grant the Commission authority to direct that the SRO deny membership or participation to the proposed employer firm and to bar the association with a member of the person who is subject to a statutory disqualification.[5]

In response to the changes made by the 1975 Amendments, and in order to codify procedures for Commission resolution of issues relating to readmission to, or continuation of disqualified persons in, the securities business, the Commission adopted Rule 19h–1 (also referred to hereinafter as the "Rule").[6] Rule 19h–1 provides for Commission review of notices filed by SRO's proposing, conditionally or unconditionally, to admit to, or continue any person in, membership, participation or association with a member,[7] notwithstanding a statutory disqualification where the SRO and the parties involved, including the person subject to the statutory disqualification and his prospective employer, have agreed on employment conditions or limitations.

Except as provided in the Rule, the Commission reviews on their merits all SRO reentry and continuance actions for which a filing is required under the Rule.[8] Rule 19h–1 establishes the review mechanism and contemplates the immediate submission, as part of the notice, of the full record in the proceeding before the SRO. Thus, this notice is not simply an initial, summary report to the Commission of action (or proposed action) as is required for other kinds of SRO actions concerning particular members, associated persons and others.[9]

In order to avoid unnecessary duplication of effort where the applicant or hiring firm is a member of, or participant in, more than one SRO, the Rule presently provides, in paragraph (b),[10] that after the first filing of a notice by any SRO, a second notice representing the same proposed employment need not be filed by another SRO if the second SRO agrees with the terms and conditions of the notice filed by the first SRO. The concurrence must be set forth in the notice filed by the first SRO.

The provisions of Sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the Act specifically require that notice be given (at least 30 days in advance) to the Commission by SRO's with respect to "admitting" any disqualified person or registered broker-dealer to membership or participation, or "'permitting any [such] person to become associated with a member." Paragraph (a) of the Rule makes clear, however, that the filing of a notice is required not only where the SRO has determined to admit a disqualified person seeking entry or reentry, but also where the SRO proposes to continue in membership or association a person who becomes subject to a disqualification while a member or associated with a member.[11] The principal reason for the inclusion of continuance situations is that the Commission has independent authority under Sections 15(b) or 19(h) of the Act [12] effectively to prevent the continuance (as well as an admission) and will need to have before it the same kinds of information in order to determine whether it wishes to exercise that authority or its authority to deny membership, participation or association under Sections 6(c)(2), 15A(g)(2) and 17(A)(b)(4)(A).[13] Further, the possibility that the Commission may

---

[1] Pub. L. No. 94–29 (June 4, 1975).

[2] 15 U.S.C. 78a.

[3] Although bank regulatory agencies also have jurisdiction over clearing agencies that are banks, Section 17A(b)(4)(A) of the Act relates only to the Commission. As required by Section 17A(d)(3)(A)(i) of the Act, however, the Commission has consulted with the Board of Governors of the Federal Reserve System, the "appropriate regulatory agency" for four bank clearing agencies, concerning the revisions proposed in this release.

[4] The 1975 Amendments introduced the concept of a "statutory disqualification" with respect to membership or participation in an SRO for those persons who, among other things, have been found to have violated the federal securities laws. *See* Section 3(a)(39) of the Act.

[5] This authority is sometimes referred to in this release as the "veto power" or "veto authority."

[6] Securities Exchange Act Release No. 13728 (July 8, 1977), 42 FR 36415. The Rule is found at 17 CFR 240.19h–1.

[7] Since the term "person associated with a member," as defined in the Act, includes all employees of an SRO member, the notice requirements of the Rule apply to clerical and ministerial employees, among others, who are subject to statutory disqualifications if the SRO knows or, in the exercise of reasonable care, should have known that such person was so disqualified. *Compare* Sections 3(a)(18) and 3(a)(21) of the Act.

[8] The Commission does not merely review notice filings where an appeal is taken from an adverse SRO action or the Commission calls up the matter. *See* Section 19(d) of the Act and Rule 19d–3 (17 CFR 240.19d–3).

[9] *See, e.g.*, Rules 19d–1, 2 and 3 (17 CFR 240.19d–1, 2 and 3).

[10] Under this proposal, the provisions of paragraph (b) would be incorporated in paragraph (a)(5) of the Rule.

[11] Some types of disqualifications automatically terminate membership, participation or association. Others do not. *See* Section 3(a)(39) of the Act.

Under Section 17(a) of the Act, of course, the Commission has authority to require SRO's to furnish it such reports as the Commission "prescribes as necessary or appropriate in the public interest, * * *."

[12] Section 15(b) of the Act empowers the Commission to impose exclusionary sanctions, including revocation of broker-dealer registration, on any person who has been found to have committed certain offenses (as set forth in paragraphs (4) and (6) of the Section), which findings and sanctions are included within those constituting a "statutory disqualification" (as defined in Section 3(a)(39)) from SRO membership, participation or association. In addition, Section 19(h) empowers the Commission directly to suspend or bar persons from SRO membership, participation or association based on similar findings.

[13] *See* the second sentence of paragraph (d) of the Rule. *See also In the Matter of NASD and Fleiderbaum and Macrandies*, Securities Exchange Act Release No. 15089 (February 13, 1979), 16 SEC Docket 1166.

choose to exercise that independent disciplinary authority at any time can pose substantial risks for a proposed employer and the disqualified person. That is, they may face such disciplinary action, despite favorable SRO action under Sections 6(c)(2) and 15A(g)(2), if they permit the employment covered by a notice to begin before receiving the Commission's views concerning the merits of the employment.

Consequently, paragraph (d) of the Rule provides in part that, at the time of the filing of a notice, an application may be made to the Commission for an order stating that, notwithstanding the disqualification, the Commission will not proceed against the firm or the individual under Sections 15(b) or 19(h) of the Act, when those sections are also applicable to the proposed admission or continuance.

The Rule provides general guidelines regarding the procedures to be followed by the Commission in reaching a decision on an application for an order under paragraph (d). The Rule states that the Commission may grant or deny an application for an order, without an oral hearing, on the basis of the notice and briefs filed by the parties. Any request for an oral hearing or argument should be submitted with the application. The Commission has delegated to the Division of Market Regulation the authority to grant applications and issue orders requested under the Rule. The Division has not been given authority, however, to deny such applications.

Prior to the adoption of the 1975 Amendments, proposals for admission to, or continuance in, the securities business of disqualified persons were submitted by only one SRO, the National Association of Securities Dealers, Inc., with respect to its members and persons associated with its members.[14] Since the Commission has been given specific statutory responsibility for oversight of the exchanges and clearing agencies in this area by the 1975 Amendments and as a result of other factors, including growth in the securities industry, the volume of Rule 19b–1 notices submitted to the Commission has increased substantially.[15] Both the Commission's experience in administering Rule 19b–1 and the increased level of filings under the Rule have demonstrated that certain changes in the Rule are desirable. Certain of these changes would reduce the volume of filings required to be made with the Commission. This would better enable the Commission to devote its resources to those filings that raise important issues of investor protection. Moreover, the Rule would set forth revised procedures that would facilitate both compliance with the Rule by SRO's and administration of the Rule by the Commission.

Discussion of the Proposed Amendments

A. Additional Exceptions

Under a proposed amendment to paragraph (a)(3) of the Rule, formal notice would not have to be filed with the Commission by an SRO for an individual who changes employment if the new position is essentially on the same terms and conditions as were imposed pursuant to a Commission order or in connection with an earlier approved admission to, or continuance of employment for, that individual, notwithstanding the same disqualifying circumstances.[16] In administering the Rule, the Commission has reviewed numerous cases involving such employment changes and has generally agreed with the SRO's concerned that the changes would not be contrary to the public interest or the protection of investors. The Commission has, in such cases, encountered few serious questions as to whether the new employment conditions were actually comparable with the previously approved conditions. In fact, the Commission has often permitted such persons to commence their new employment during Commission consideration of the pertinent SRO notice filings. Therefore, the preparation and review of such notices has placed an unnecessary burden on the administrative resources of the Commission and SRO's in relation to the risks to the investing public in this area.

Under the proposed exception, SRO's would be required, instead of preparing and submitting a full notice, merely to file with the Commission a brief report, in the form of a letter, no later than 14 days after its final determination to permit the admission to, or continuance in, membership, participation, or association. The report would set forth the individual's name, place of employment, name of his proposed new supervisor(s), and the SRO's finding that, after reasonable inquiry, the disqualified applicant is being employed under substantially the same terms and conditions as his/her previous, identified employment and that there is no intervening conduct or other circumstances that would cause the employment to be inconsistent with the public interest or the protection of investors. In these instances, the SRO would determine when the new employment could begin. The Commission would, however, still not be foreclosed from instituting administrative proceedings (*e.g.*, under Section 15(b) or 19(h), as applicable) based on the disqualification if it later appears that the SRO finding was in error because, for example, the employment conditions have been materially misrepresented to it or there has been a failure to comply with the approved employment conditions.

Another amendment to paragraph (a)(3) of the Rule would also remove from the filing requirement cases where the sole operative statutory disqualification consists of an injunction[17] that was entered ten or more years prior to the proposed admission or continuance.[18] The Commission believes that it is unlikely that an injunction issued more than ten years prior to reentry would, by itself, be an appropriate impediment to reentry. Since criminal convictions are only considered to be disqualifying circumstances for ten years under Sections 3(a) (39) and 15(b)(4)(B) of the Act, the Commission believes that it should exempt the membership or association of persons subject to such injunctions from the notice requirements of the Rule.

A further exception from the full filing requirements is being proposed, under paragraph (a)(3) of the Rule, for certain reentry or continuance situations where a person's statutory disqualification was the subject of prior Commission consideration during an administrative proceeding (*e.g.*, pursuant to Section 15(b) of the Act). The amendment would apply where, on the prior occasion, (1) the Commission concluded that it would not restrict or limit the future employment of the disqualified person in the securities industry on the basis of that disqualifying circumstance or (2) the Commission set forth restrictions or limitations on the person's employment in the securities industry for a specified

---

[14] *See* former Rule 15Ab–1 under the Act. That rule was superseded by Rule 15b–1.

[15] In 1978, the Commission reviewed approximately 45 SRO notices. Since the beginning of 1979, the Commission has reviewed approximately 114 SRO notices.

[16] Paragraph (a)(3)(i) of the Rule currently provides that a further notice need not be filed with the Commission if a person subject to a statutory disqualification is a participant in, member of, or a person associated with a member of an SRO, and the SRO member or participant joins another SRO. The language of this provision would be revised to clarify its meaning.

[17] *See* Sections 3(a)(39) and 15(b)(4)(C) of the Act.

[18] The Rule would provide that, in the case of a final injunction that was preceded by a preliminary injunction against the same person in the same court proceeding, the ten year period will begin to run from the date of the preliminary injunction.

time period and that time period has elapsed. In those instances, the Commission believes that it would be unfair to again require the individual involved to justify his/her continuance in or return to the business where the Commission has already dealt with that very issue in a formal proceeding. It would also impose inappropriate burdens on the firm, the person involved and the staffs of the SRO's and the Commission to have to pursue the formal notice filing and processing procedures contemplated by the Rule. For similar reasons, an additional exemption would be included in paragraph (b) of the Rule to cover those situations where the same kinds of determinations respecting a person's future participation in the securities business were incorporated in the judgment or decision entered in a court enforcement action.

In order to permit the Commission to oversee use by the SRO's of the proposed exceptions discussed in the preceding paragraph, however, the SRO would be required to notify the Commission, by letter, of those instances where it takes an admission or continuance action in reliance on those provisions.[19]

Finally, an exemption from the full notice requirements would be adopted to cover situations where the Commission has previously consented, pursuant to Section 15(b)(6) or 15B(c)(4) of the Act, to a particular proposed association of a person who is subject to a Commission order under one or both of those sections barring the person from being or becoming associated with a broker or dealer.[20] Since the Commission would already have been directly informed of and would have approved the particular proposed employment, the filing of a notice under the Rule would serve no useful purpose in those situations.

B. SRO Records Filed With the Commission

Paragraphs (c) and (e) of the amended Rule would formally call for additional information that the Commission, through experience, has found helpful in reviewing and making determinations with respect to SRO notices and applications filed under the Rule and has previously requested that the SRO's supply. Specifically, in addition to the information already sought,[21] the Rule would require that the filing include, as appropriate:

(1) in the recitation of the proposed supervisory procedures, if any, information on the pertinent qualifications of the supervisors, including prior disciplinary and enforcement actions against them and the relationship of any of the supervisors to the disqualified person;

(2) an affidavit signed by the proposed employer setting forth the terms and conditions of the prospective employment and supervision;

(3) the names and locations of any other disqualified;

(4) the results of the examinations of the prospective employer's business completed by all SRO's during the preceding three years;

(5) a completed Form U–4 [22] and a certification that the person currently meets all applicable qualifications requirements with respect to the proposed employment;

(6) any written information supplied by the Commission staff to the SRO pertaining to such application; and

(7) all written materials not included in a certified hearing record before the SRO that were furnished by persons other than an SRO or the Commission and were considered by the SRO in its disposition of the matter. Such material would be required to be sworn to by affidavit.

One of the principal problems that the Commission has encountered in administering the Rule is that many of the notice filings that the Commission has received each year have been incomplete or have not provided an adequate basis for Commission review. Since the notice normally comprises the entire record before the Commission, it should contain all relevant information.[23] If the SRO record fails to contain sufficient information to justify a Commission determination to permit the proposed employment, the Commission cannot make such a determination. In some instances, the Commission has had to devote a considerable amount of its staff resources to obtaining additional relevant information.[24] In light of the problems that both the Commission and the SOR's have experienced in this regard, the Commission believes that inclusion of the foregoing information would provide a meaningful improvement in its ability to administer the Rule fairly and effectively. In particular, the Commission should be able to review notices and applications on a more expeditious basis.

The Commission is also especially concerned that existing relevant information is its files, of which the SRO may be unaware, be a part of the record in filings under the Rule so that the SRO and affected persons may have an opportunity to address that information.[25] Therefore, the Rule would require that, promptly after receipt by an SRO of an application for admission to, or continuance in, membership, participation or association with a member with respect to a person subject to a statutory disqualification, the SRO notify the Commission staff of such receipt. This notification would enable the Commission staff to alert the SOR to the possible existence of such information and, in appropriate circumstances, to make it available to the SRO in time to permit its consideration in the SRO's processing of notices and applications. There have been instances where SRO's have not become aware of such information until the matter was already before the Commission. Under a related amendment to paragraphs (c) and (e) of

---

[19] The proposed exceptions to the notice requirement would not act in any way to remove the disqualification. Therefore, among other things, the disqualification would still be required to be disclosed on Form BD and in registration filings with the SRO(s).

[20] See "Clarifications," subsection C, *infra*, for a discussion of certain of the circumstances under which such prior Commission action on the proposed association may arise.

[21] The Rule currently requires inclusion of the following information:

(1) the name of the person concerned together with last place of residence or business as reflected on the records of the SRO;

(2) the basis for the disqualification including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission or the SRO which adjudicated the matter giving rise to the disqualification;

(3) in the case of an admission, the date upon which it is proposed by the SRO that the membership, participation or association is to become effective, which shall be not less than 30 days from the date upon which the Commission receives the notice;

(4) a description by or on behalf of the person concerned of the activities engaged in by the person since the disqualification arose, the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by the person; and

(5) if a hearing on the matter has been held by the organization, a certified record of the hearing together with copies of any exhibits introduced therein.

[22] Form U–4 is a uniform form for registration of individuals with the Commission, SRO's and state securities commissions that contains, among things, information concerning the prior employment and disciplinary history of the individual.

[23] As is the case with all required filings with the Commission, a notice is not considered filed unless and until complete. *See* 17 CFR 240.0–3.

[24] In several cases, the Commission could have chosen instead to take adverse action with respect to the merits of the proposed employment.

[25] The Rule contemplates a hearing before the SRO in which the SRO gives the applicant an opportunity to support the proposed employment. In addition, an SRO favorably disposed to the application may supplement the information supplied to it by the applicant so as to present a record to the Commission supporting its proposal. There is not, however, a requirement that the hearing before the SRO be a formal evidentiary hearing.

the Rule, the SRO would have to include in its consideration of the admission proposal, and in the notice to the Commission of its proposal to admit the disqualified person, any written information supplied by the Commission staff to the SRO pertaining to such application.

If, however, information that is not included in the SRO record and that may affect the Commission's determination is brought to the Commission's official administrative and adjudicative responsibilities under the securities laws during the pendency of its consideration of a notice or application under the Rule, the Commission may choose to convey such information to the SRO, and remand the matter to the SRO for further consideration. All of the appropriate parties would then have an opportunity to respond, generally in writing, to that information.

The Rule would also require that all written submissions not included in a certified hearing record and furnished to an SRO by persons other than SRO staff or governmental authorities be sworn to by affidavit and included in the notice if such submissions were considered by the SRO in its disposition of the matter. The Commission believes that this requirement would help to insure the accuracy of the record before both it and the SRO.

C. Clarifications

1. *Sections 15(b)(6) and 15B(c)(4) Consents.* Sections 15(b)(6) and 15B(c)(4) of the Act make it unlawful for any person barred under those sections to become, or to be, associated with a broker-dealer or municipal securities dealer and for any such broker, dealer or municipal securities dealer to permit such a person to become, or remain, a person associated with the firm without the consent of the Commission. Therefore, persons under such bars who are the subject of a notice filed by an SRO under Rule 19h–1 need such consent to make the proposed association lawful. Such consent can take the form of a declaratory order under paragraph (d) of Rule 19h–1. Since there has been some uncertainty in this area, the amendment would specifically clarify that such consent can and, if needed when the notice is filed, should be sought under paragraph (d) of the Rule.

At the same time, it has been the Commission's practice to permit an individual to apply directly to the Commission for reentry in cases where the Commission has barred that person from association with a broker-dealer in a proceeding under Section 15(b)(6) of the Act and, as a part of that sanction, has explicitly afforded the person a right to apply for reassociation, under appropriate conditions, at a future time.[28] A proviso has therefore been added to the proposed new provision discussed in the preceding paragraph making it clear that that provision does not affect the individual's ability to choose to apply directly.[27]

2. *Other Requests for Relief by Municipal Securities Firms.* Under Sections 15B(a)(2) and 15B(c)(2) of the Act, the Commission has authority to exclude from registration as a municipal securities dealer any dealer that would be subject to denial, revocation or suspension of its broker-dealer registration if it were so registered or were seeking such registration under Section 15(b). For example, if a bank municipal securities dealer [28] that was seeking registration under Section 15B(a)(2) were the subject of a conviction or injunction of a type described in Section 15(b)(4) of the Act, the Commission could deny that registration. Thus, if that bank dealer were also seeking participation in a registered clearing agency and the clearing agency, as required by Section 17A(b)(4)(A) of the Act, filed a notice of that proposed participation under Rule 19h–1, the clearing agency (or bank dealer) might also wish to apply to the Commission for a determination that the Commission would not institute a denial proceeding against the bank dealer under Section 15B(a)(2) on the basis of the conviction or injunction. Since paragraph (d) of the Rule, which permits applications for Commission "no-action" positions in other, similar situations,[29] does not now provide explicitly for such applications by or on behalf of municipal securities dealers, paragraph (d) would be amended to so provide.

In addition, under Rule G–4 of the Municipal Securities Rulemaking Board, a municipal securities broker or municipal securities dealer that is subject to certain disqualifications is considered to be unqualified to engage in the municipal securities business unless the Commission (or in some cases the NASD or appropriate bank regulatory agency), on application, finds to the contrary. As proposed to be amended,[30] Rule 19h–1 would permit such applications, when required to be submitted to the Commission, to be filed at the time a notice of a proposed admission or continuance with respect to the disqualified person is filed under that Rule.

3. *Standards for Issuing Declaratory Orders.* Paragraph (d) of the Rule currently provides that the Commission may issue a declaratory order, upon application, with respect to the membership, participation or association of any person subject to an applicable disqualification if "it finds it appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act." These standards, which are not required by the Act in this context, would be deleted and the paragraph would be amended to permit the Commission to issue such an order "should the Commission determine not to object to the position of the SRO set forth in the notice or application." This proposed language would more accurately reflect the nature of the Commission's decision-making process with respect to the issuance of such orders, which orders are, in substance, similar to traditional "no-action" positions of the Commission concerning the institution of enforcement proceedings under the federal securities laws.

4. *Procedures To Be Used by the Commission in Reviewing Notices.* Under another proposed amendment, the Commission would set forth in paragraph (g) of the Rule the procedures that it will follow in determining whether to direct, pursuant to Sections 6(c)(2), 15A(g)(2), or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice be denied or an order barring association issue where the notice is filed under paragraph (a) of the Rule and is not accompanied by an application for a declaratory order under paragraph (d) of the Rule. These procedures would parallel those for determining Commission action on an application filed under paragraph (d) of the Rule.[31]

A second revision of paragraph (g) of the Rule would provide that the Commission may grant or deny an application for a declaratory order on the basis of the notice or application filed by the SRO, by the person subject to the disqualification or by another

---

[26] *See* Securities Exchange Act Release No. 11287, 8 SEC Docket 348 (1975).

[27] Since the same principles seem to apply to bars from association with a municipal securities dealer under Section 15B(c)(4) of the Act, a reference to that section has also been included in the proposed proviso.

[28] Banks or separately identifiable departments or divisions of banks doing business as dealers in municipal securities are excluded from the broker-dealer registration requirements of Section 15(b) but are required to register as municipal securities dealers under Section 15B. *See* Sections 3(a)(5) and 3(a)(29) of the Act.

[29] *See* section entitled "Background," *supra*.

[30] *See* paragraph (d)(2) of the proposed revised Rule.

[31] *See* Background section, *supra*.

applicant, such as the proposed employer, on behalf of such person. Paragraph (g) of the Rule currently provides that the Commission may grant or deny an application under paragraph (d) on the basis of the papers filed by the "parties." Since the term "parties" is not defined in the Rule and could therefore create some uncertainty, the Commission believes that it would be preferable to spell out its intention more clearly in this respect.

Finally, the Act does not address whether the Commission may exercise its veto authority under Sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the Act after expiration of the thirty day period following the Commission's receipt of notice from an SRO of a proposal to admit a disqualified person to membership, participation, or association with a member.[32] In addition, those provisions do not specify when, following the expiration of the minimum thirty day period, and SRO may admit such a person. Therefore, and in order to allow ample time for the Commission to consider the merits of a proposed admission when circumstances require a longer period of deliberation, the Rule would be amended to provide that the Commission could, by written notice to the SRO, extend for up to sixty days its consideration of the SRO's proposal. However, in the interests of fairness to the person seeking entry, the amendment would also provide that during the Commission's extended consideration of whether to veto the SRO's proposal, the person may, if the SRO consents, temporarily commence his membership, participation or association with a member.[33] Such membership, participation or association would, of course, be required to terminate if the Commission determines to exercise its veto power during the extension period.[34]

Regulatory Flexibility Act Considerations

The Chairman has certified that the proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities.

Statutory Basis

The proposed amendments to Rule 19h-1 would be promulgated under the Act, and particularly Sections 6, 15, 15A, 15B, 17, 17A, 19 and 23 thereof (15 U.S.C. 78f, 78*o*, 78*o*-3, 78*o*-4, 78q, 78q-1, 78s, and 78w). Therefore, on the basis of the above discussion and analysis, the Commission is proposing to amend Part 240 of Chapter II of Title 17 of the Code of Federal Regulations [35] by revising § 240.19h-1 as follows:

§ 240.19h-1 Notice by a self-regulatory organization of proposed admission to or continuance in membership or participation or association with a member of any person subject to a statutory disqualification, and applications to the Commission for relief therefrom.

(a) *Notice of admission or continuance notwithstanding a statutory disqualification.* (1) Any self-regulatory organization proposing, conditionally or unconditionally, to admit ►to,◄ or continue any person in ►,◄ membership or participation or (in the case of a national securities exchange or registered securities association) association with a member, notwithstanding a statutory disqualification [as to such person] ►, as◄ defined in Section 3(a)(39) of the Act, ►with respect to such person,◄ shall file a notice with the Commission of such proposed admission or continuance. If such person has not consented to such proposal, notice of the organization's action shall be filed pursuant to Rule 19d-1 under the Act and not this rule.

(2) With respect to a person associated with a member of a national securities exchange or registered securities association, notices need be filed with the Commission pursuant to this rule only if such person ►:◄

(i) Controls such member or is a general partner or officer (or person occupying a similar status or performing similar functions) or an employee of such member, or

(ii) Is a broker of dealer not registered with the Commission, or controls such (unregistered) broker or dealer or is a general partner of officer (or person occupying a similar status or performing similar functions) of such broker of dealer.

(3) A notice need not be filed with the Commission pursuant to this rule if ►:◄

(i) The person subject to the statutory disqualification is [then] ►already◄ a participant in, a member of, or a person associated with a member of, ►a◄ [another] self-regulatory organization, and ►the terms and conditions of the proposed admission by another self-regulatory organization are the same in all material respects◄ [the proposed admission or continuance is on essentially the same terms and conditions] as ►those◄ imposed ►or approved◄ in connection with such person's prior admission or continuance pursuant to an order of the Commission under paragraph (d) of this rule or otherwise; [or]

(ii) The [sole such disqualification consists of] ►self-regulatory organization finds, after reasonable inquiry, that except for the identity of the employer concerned, the terms and conditions of the proposed admission or continuance are the same in all material respects as those imposed or approved in connection with a prior admission or continuance of the person subject to the statutory disqualification by an order of the Commission under paragraph (d) of this section or otherwise and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors;

(iii) The disqualification consists of (A) an injunction from engaging in any action, conduct, or practice specified in section 15(b)(4)(C) of the Act, which injunction was entered 10 or more years prior to the proposed admission or continuance—*Provided, however,* That in the case of a final or permanent injunction against the same person in the same court proceeding, such ten-year period shall begin to run from the date of such preliminary injunction—or (B)◄ a finding by the Commission or a self-regulatory organization of a willful violation of the Act, the Securities Act of 1933, the Investment Company Act of 1940, or a rule or regulation under one or more of such Acts and the sanction for such violation is no longer in effect [.] ►:

(iv) The disqualification was previously considered by the Commission in determining a sanction against such person in an administrative proceeding pursuant to section 15(b) or 15B of the Act based on such disqualification, and the Commission concluded that, on the basis of the disqualification, it would not restrict or limit the future securities activities of such person in the capacity now proposed or, if it imposed any such restrictions or limitations for a specified time period, such time period has elapsed;

(v) The disqualification consists of a court order or judgment of injunction or conviction, and such order or judgment (A) expressly includes a provision that, on the basis of such order or judgment, the Commission will not institute a proceeding against such person pursuant to section 15(b) or 15B of the Act or that the future securities activities of such

---

[33] *See* proposed paragraph (a)(7) of the Rule.

[34] If the Commission should determine not to exercise its veto authority during the extended period, it would not be precluded from taking other appropriate action under other provisions of the Act. *See* paragraph (d) of the Rule.

[35] In the text of the proposed amendment, "●" indicates material to be deleted and "[]" indicates new material.

persons in the capacity now proposed will not be restricted or limited or (B) includes such restrictions or limitations for a specified time period and such time period has elapsed; or

(vi) In the case of a person seeking to become associated with a broker or dealer or municipal securities dealer, the Commission has previously consented to such proposed association pursuant to section 15(b)(6) or 15B(c)(4) of the Act.

(4) If a self-regulatory organization determines to admit to, or continue any person in, membership, participation, or association with a member pursuant to an exception from the notice requirements provided in paragraphs (3)(ii), (iv) or (v) hereof, such organization shall, within 14 calendar days of its making of such determination, furnish to the Commission, by letter, a notification setting forth, as appropriate:

(i) The name of the person subject to the statutory disqualification;

(ii) The name of the person's prospective and immediately preceding employers who are (were) brokers or dealers or municipal securities dealers;

(iii) The name of the person's prospective supervisor(s);

(iv) The respective places of such employment as reflected on the records of the self-regulatory organization;

(v) If applicable, the findings of the self-regulatory organization referred to in paragraph (3)(ii) hereof and the nature (including relevant dates) of the previous Commission or court determination referred to in paragraph (3) (iv) or (v) hereof; and

(vi) An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance;

(5)◄[(b)] If a notice ►or notification◄ has been previously filed ►or furnished◄ pursuant to this ►paragraph◄ [rule] by a self-regulatory organization, any other such organization need not file ►or furnish◄ a separate notice ►or notification◄ pursuant to this rule with respect to the same matter if such other organization agrees with the terms and conditions of the ►membership, participation or association reflected in the◄ notice ►or notification◄ so filed ►or furnished, and such agreement is set forth in the notice or notification.

(6)◄[(4)] The notice requirements of section►s◄ 6(c)(2), 15A(g)(2), ►and◄ 17A(b)(4)(A) [or 19(d)(1)] of the Act concerning an action of a self-regulatory organization subject to one (or more) of such sections and this paragraph shall be satisfied by a notice with respect to such action filed in accordance with paragraph (c) of this rule.

►(7) The Commission, by written notice to a self-regulatory organization on or before the thirtieth day after receipt of a notice under this rule, may direct that such organization not admit to membership, participation, or association with a member any person who is subject to a statutory disqualification for a period not to exceed an additional 60 days beyond the initial 30 day notice period in order that the Commission may extend its consideration of the proposal; *Provided, however,* That during such extended period of consideration, the Commission will not direct the self-regulatory organization to bar the proposed admission to membership or participation or association with a member pursuant to the above sections, and the Commission will not institute proceedings pursuant to section 15(b) or 15B of the Act on the basis of such disqualification if the self-regulatory organization has permitted the admission to membership or participation or association with a member, on a temporary basis, pending a final Commission determination.

(b) *Preliminary notifications.* Promptly after receiving an application for admission to, or continuance in, participation or membership in, or association with a member of, a self-regulatory organization which would be required to file with the Commission a notice thereof pursuant to paragraph (a) of this section if such admission or continuance is ultimately proposed by such organization, the organization shall file with the Commission a notification of such receipt. Such notification shall include, as appropriate:

(1) The date of such receipt;

(2) The names of the person subject to the statutory disqualification and the prospective employer concerned together with their respective last known places of residence or business as reflected on the records of the organization;

(3) The basis for any such disqualification including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission, or the self-regulatory organization which adjudicated the matter giving rise to the disqualification; and

(4) The capacity in which the person concerned is proposed to be employed.◄

(c) *Contents of notice of admission or continuance.* A notice filed with the Commission pursuant to paragraph (a) hereof shall contain the following, ►as appropriate◄:

(1) The name of the person concerned together with his last known place of residence or business as reflected on the records of the ►self-regulatory◄ organization;

(2) The basis for any such disqualification from membership, participation or association including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such disqualification;

(3) In the case of an admission, the date upon which it is proposed by the organization that such membership, participation or association shall become effective, which shall be not less than 30 days from the date upon which the Commission receives the notice;

(4) A description by or on behalf of the person concerned of the activities engaged in by the person since the disqualification arose, the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person [:]►. This description shall be accompanied by a written statement submitted to the self-regulatory organization and sworn to by affidavit by the proposed employer setting forth the terms and conditions of such employment and supervision. Among other things, the description shall include (i) the qualifications, experience and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted by self-regulatory organizations of the business of the proposed employer during the three years preceding the filing of the notice; (iii) a copy of a completed Form U–4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this section);◄

(5) If a hearing on the matter has been held by the organization, a certified record of the hearing together with copies of any exhibits introduced therein;

►(6) All written submissions not included in a certified oral hearing record which were furnished to the self-

regulatory organization by persons other than staff members of self-regulatory organizations or governmental authorities and which were considered by the organization in its disposition of the matter (such submissions shall be sworn to by affidavit);

(7) ◄[(6)] An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance; [and]

►(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter and a statement of the organization's views thereon; and

(9) ◄[(7)] Such other matters as the organization or person deems relevant.

If the notice contains assertions of material facts not a matter of record before the self-regulatory organization, such facts shall be sworn to by affidavit. The notice may be accompanied by a brief.

(d) *Application to the Commission for relief from certain statutory disqualifications.* The filing of a notice pursuant to paragraph (a) of this section shall neither affect nor foreclose any action which the Commission may take with respect to such person pursuant to the provisions of section 15(b) ►, 15B◄ or 19(h) of the Act or any rule thereunder. Accordingly, a notice filed pursuant to paragraph (a) hereof with respect to the membership, participation, or association of any person subject to an "applicable disqualification," as defined in paragraph (f) of this rule, may be accompanied by an application by or on behalf of the person concerned to the Commission for an order declaring, as applicable, that notwithstanding such disqualification, the Commission:

(1) Will not institute proceedings pursuant to section 15(b)(1)(B), 15(b)(4), 15(b)(6)►, 15B(a)(2), 15B(c)(2), ◄ [or] 19(h)(2) or ►19(h)◄ (3) of the Act if such person seeks to obtain or continue registration as a broker or dealer ►or municipal securities dealer◄ or association with a broker or dealer ►or municipal securities dealer◄ so registered, or membership or participation in a self-regulatory organization;

(2) Will not direct otherwise, as provided in section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act; and

(3) Will deem such person qualified pursuant to Rule 15b6–2 under the Act ►or rule G–4 of the Municipal Securities Rulemaking Board◄.

►If a Commission consent is required in order to render a proposed association lawful under section 15(b)(6) or 15B(a)(4) of the Act, an application by or on behalf of the person seeking such consent shall accompany the notice of the proposed association filed pursuant to paragraph (a) hereof; *Provided, however,* That nothing herein shall foreclose the right of any person, at his election, to apply directly to the Commission for such consent, if he makes such application pursuant to the terms of an existing order of the Commission under such section(s) barring his association with a broker or dealer or municipal securities dealer but explicitly granting him such a right to apply for entry or reentry at a later time.◄

The Commission may, in its discretion and subject to such terms and conditions as it deems necessary, issue such an order ►and consent should the Commission determine not to object to the position of the self-regulatory organization set forth in the notice or application◄ [if it finds it appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act].

(e) *Contents of application to the Commission.* An application to the Commission pursuant to paragraph (d) of this rule shall consist of the following, as appropriate:

(1) The name of the person subject to the disqualification together with his last known place of residence or business as reflected on the records of the ►self-regulatory◄ organization;

(2) A copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such "applicable disqualification";

(3) The nature of the relief sought and the reasons therefor;

(4) A description of the activities engaged in by the person since the disqualification arose;

(5) A description of the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person[;] ►. This description shall be accompanied by a written statement submitted to the self-regulatory organization and sworn to by affidavit by the proposed employer setting forth the terms and conditions of such employment and supervision. Among other things, this description shall include (i) the qualifications, experience, and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted by self-regulatory organizations of the business of the proposed employer during the three years preceding the filing of the application; (iii) a copy of a completed Form U–4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this rule);◄

(6) If a hearing on the matter has been held by the organization, a certified copy of the hearing record, together with copies of any exhibits introduced therein;

►(7) All written submissions not included in a certified oral hearing record which were furnished to the self-regulatory organization by persons other than staff members of self-regulatory organizations or governmental authorities and which were considered by the organization in its disposition of the matter (such submissions shall be sworn to by affidavit);

(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter and a statement of the organization's views thereon; and

(9) ◄[7] [And] Such other matters as the organization or person deems relevant.

If the application contains assertions of material facts not a matter of record before the organization, such facts shall be sworn to by affidavit. The application may be accompanied by a brief.

If any information called for in this paragraph is already contained in an application filed with the Commission in accordance with paragraph (b) of Rule 15b6–2 under the Act concerning the same proposed employment, such information may be incorporated by reference in the application pursuant to this rule.

(f) *Definitions.* For purposes of this rule:

(1) The term "applicable disqualification" shall mean:

(i) Any effective order of the Commission pursuant to section 15(b) (4) or (6)►, 15B(c) (2) or (4)◄ or 19(h) (2) or (3) of the Act—

(A) Revoking, suspending or placing limitations on the registration, activities, functions, or operations of a broker or dealer ►or municipal securities dealer◄;

(B) Suspending, barring, or placing limitations on the association, activities, or functions of an associated person of a broker or dealer ►or municipal securities dealer◄;

(C) Suspending or expelling any person from membership or participation in a self-regulatory organization; or

(D) Suspending or barring any person from being associated with a member of a national securities exchange or registered securities association; [or]

(ii) Any conviction or injunction of a type described in section 15(b)(4)(B) or (C) of the Act[.] ►; or

(iii) A failure under the provisions of Rule 15b8–2 under the Act or rule G–4 of the Municipal Securities Rulemaking Board, to meet qualifications standards, when such failure may be remedied by a finding or determination by the Commission pursuant to such rule(s) that the person affected nevertheless meets such standards.◄

(2) The term "control" shall mean the power to direct or cause the direction of the management or policies of a company whether through ownership of securities, by contract or otherwise; *Provided, however,* That

(i) Any person who, directly or indirectly, (A) has the right to vote 10 percent or more of the voting securities, (B) is entitled to receive 10 percent or more of the net profits, or (C) is a director (or person occupying a similar status or performing similar functions) of a company shall be presumed to be a person who controls such company;

(ii) Any person not covered by paragraph (i) shall be presumed not to be a person who controls such company; and

(iii) Any presumption may be rebutted on an appropriate showing.

(g) Where it deems it appropriate to do so, the Commission may ►determine whether to (1) direct, pursuant to section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice filed pursuant to paragraph (a) of this section shall be denied or an order barring a proposed association issued or (2)◄ grant or deny an application filed pursuant to paragraph (d) of this ►rule◄ [section] on the basis of the ►notice or application◄ [papers] filed by the [parties,] ►self-regulatory organization, the person subject to the disqualification, or other applicant (such as the proposed employer) on behalf of such person,◄ without oral hearing. Any request for oral hearing or argument should be submitted with the ►notice or application.◄

(h) The Rules of Practice [17 CFR Part 201] shall apply to proceedings under this rule to the extent that they are not inconsistent with this rule.

Solicitation of Comments

All interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should submit three copies thereof to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than April 22, 1980. Reference should be made to File No. S7–878. All submissions will be made available for public inspection at the Commission's Public Reference Section, Room 6101, 1100 L. Street N.W., Washington, D.C.

By the Commission.

George A. Fitzsimmons,

Secretary.

March 10, 1981.

Regulatory Flexibility Act Certification

I, Harold M. Williams, Chairman of the Securities and Exchange Commission, hereby certify pursuant to 5 U.S.C. 605(b) that the proposed amendments to Rule 19b–1 under the Securities Exchange Act of 1934 set forth in Securities Exchange Act Release No. 17615, if promulgated, will not have a significant economic impact on any entity subject to its provisions and, therefore, will not have a significant economic impact on a substantial number of small entities. The reasons for this certification are as follows.

The Commission does not believe that the proposed rulemaking will have a significant economic impact on self-regulatory organizations ("SRO's) or SRO members and participants. These entities will incur some increased costs from certain portions of the proposed Rule revisions that would require the SRO's to furnish additional material to the Commission when notices or applications are required to be filed. The additional information, however, is most likely to be readily accessible to SRO's and SRO members and participants. Furthermore, although the proposed amendment will impose obligations on SRO's and SRO members and participants that are likely to result in an increase in their administrative costs when notices and applications are filed with the Commission, the Commission believes that the increase will be insignificant in relation to total regulatory administrative expenditures and, therefore, total administrative expenditures. Moreover, the Commission anticipates that any minimal increase in administrative costs will be more than offset by the overall decrease in such costs resulting from a reduced number of full notices that would be required to be prepared and filed by the SRO's and reviewed by the Commission under the revisions to Rule 19b–1

Dated: February 18, 1981.

Released: March 10, 1981.

Harold M. Williams,

Chairman.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 35

[Docket No. RM80-36]

Rate of Return on Equity for Electric Utilities; Extension of Time for Comments

March 12, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Request for written comments; extension of comment period.

SUMMARY: On February 6, 1981, the Commission issued a Request for Written Comments on a Staff Discussion Paper entitled, "Establishing the Rate of Return on Equity for Wholesale Electric Sales: Potential Regulatory Reforms" (46 FR 12206, February 13, 1981). The comment period is being extended at the request of the Edison Electric Institute and Mr. Joseph C. Swidler.

DATE: Comments must be submitted on or before March 30, 1981.

ADDRESS: Submit comments to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Kenneth F. Plumb, Secretary, (202) 357–8400.

SUPPLEMENTARY INFORMATION: On March 11, 1981, Edison Electric Institute and Mr. Joseph C. Swidler filed respective motions for an extension of time to file comments in response to the Commission's Request for Written Comments issued February 6, 1981, in the above-docketed proceeding. In support of these requests, the motions state that the parties require additional time to review the complex questions raised in the Staff Discussion Paper and at the Informal Conference and further, to consider concepts discussed at the March 6, 1981, Informal Conference on the Financial Condition of Electric Utilities.

Upon consideration, notice is hereby given that an extension of time for the

filing of comments is granted to and including March 30, 1981.

Kenneth F. Plumb,

Secretary.

BILLING CODE 8450-06-M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 101

General Provisions; Proposed Change in the Field Organization of the Customs Service

AGENCY: U.S. Customs Service, Treasury.

ACTION: Proposed rule.

SUMMARY: This notice proposes to change the field organization of the Customs Service by establishing a new port of entry at Austin, Texas, in the Dallas/Fort Worth, Texas, Customs district (Region VI). The proposed change would enable Customs to keep pace with the significant increase in Customs-related activities which has occurred in Central Texas during the past decade.

DATES: Comments must be received on or before April 17, 1981.

ADDRESS: Comments (preferably in triplicate) may be addressed to the Commissioner of Customs, Attention: Regulations and Information Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT: Richard C. Coleman, Office of Inspection, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202-566-8157).

SUPPLEMENTARY INFORMATION:

Background

Austin, the State Capital of Texas, rapidly is becoming the center of international trade in central Texas. During the last decade, the area attracted many new manufacturing companies, including major electronics firms, high technology business, and other leading corporations producing a variety of products for distribution in markets in Europe, the Middle East, and Central and South America. In the last 5 years, the volume of merchandise imported into Austin quadrupled; the volume of merchandise exported more than tripled.

Presently, however, approximately 42 percent of imported merchandise destined for Austin is entered through the Customs port of entry at Houston, Texas, 162 miles away. Another 20 percent is entered through the Customs port of entry at San Antonio, Texas, 77 miles away. Transporting merchandise from these locations to Austin substantially increases distribution and transportation costs and delays delivery of the merchandise to its ultimate destination.

Establishing a Customs port of entry at Austin would: (1) reduce distribution and transportation costs and reduce the travel time for imported goods destined for Austin; (2) provide the basis for initiating scheduled international flights between Austin and foreign cities; and (3) enable Customs to obtain more efficient use of its personnel, facilities, and resources in the Austin area.

Accordingly, to keep pace with the expanding needs of Customs-related activities in central Texas and to provide better service to carriers, importers, and the public, Customs proposes to establish a new port of entry at Austin, Texas, in the Dallas/Fort Worth, Texas, Customs district (Region VI). The geographical boundaries of the port would consist of all of the territory within the corporate boundaries of the city of Austin, Texas.

To accommodate the new Austin, Texas, port of entry in the Dallas/Fort Worth, Texas, Customs district, the Dallas/Fort Worth district limits also would be revised to include the State of Oklahoma, and those parts of the State of Texas lying north of lat. 32° N., and within the area north of lat. 30° N., west of 97° W. long. and east of 99° W. long.

Comments

Before adopting this proposal, consideration will be given to any written comments timely submitted to the Commissioner of Customs. Comments submitted will be available for public inspection in accordance with section 103.8(b), Customs Regulations (19 CFR 103.8(b), on regular business days between the hours of 9:00 a.m. to 4:30 p.m. at the Regulations and Information Division, Room 2428, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, Washington, D.C. 20229.

Regulation Determined To Be Nonsignificant

In a directive published in the **Federal Register** on November 8, 1978 (43 FR 52120), implementing Executive Order 12044, "Improving Government Regulations," the Treasury Department stated that it considers each regulation or amendment to an existing regulation published in the **Federal Register** and codified in the Code of Federal Regulations to be "significant." However, regulations which are nonsubstantive, essentially procedural, do not materially change existing or establish new policy, and do not impose substantial additional requirements or costs on, or substantially alter the legal rights or obligations of, those affected, may, with Secretarial approval, be determined not to be significant. Accordingly, it has been determined that this proposed amendment does not meet the Treasury Department criteria in the directive for "significant" regulations.

Inapplicability of Regulatory Flexibility Act

This document is not subject to the provisions of sections 603 and 604 of Title 5, United States Code (as added by section 3 of Pub. L. 96-354, the "Regulatory Flexibility Act"), because it is not likely to have a significant economic impact upon a substantial number of small entities.

Customs routinely establishes, expands, and eliminates Customs ports of entry throughout the United States to accommodate the volume of Customs-related activity in various parts of the country. Although this proposal may have a limited effect upon some small entities in central Texas, it is not expected to be significant because the establishment of Customs ports of entry in other locations has not had a significant economic impact upon a substantial number of small entities to the extent contemplated by the Regulatory Flexibility Act.

Authority

This change is proposed under the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR 1949-1953 Comp., Ch. II), and pursuant to authority provided by Treasury Department Order No. 101-5 (46 FR 9336).

Drafting Information

The principal author of this document was Lawrence P. Dunham, Regulations and Information Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Dated: March 3, 1981.

John P. Simpson,

Acting Assistant Secretary of the Treasury.

Internal Revenue Service

26 CFR Part 1

[EE-17-78]

Custodial Accounts for Regulated Investment Company Stock; Public Hearing on Proposed Regulations and Proposed Amendments Thereto

AGENCY: Internal Revenue Service, Treasury.

ACTION: Public hearing on proposed regulations and on proposed amendments.

SUMMARY: This document provides notice of a public hearing on proposed regulations and on proposed amendments thereto relating to custodial accounts for regulated investment company stock.

DATES: The public hearing will be held on June 4, 1981, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by May 21, 1981.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (EE-17-78), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations and proposed amendments to the proposed regulations under section 403(b)(7) of the Internal Revenue Code of 1954. The proposed regulations appeared in the Federal Register for Friday, February 10, 1978 (43 FR 5852). The proposed amendments appeared in the Federal Register for Tuesday, December 30, 1980 (45 FR 85786).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the proposed regulations and in the amendments to the proposed regulations, and also desire to present oral comments at the hearing on the proposed regulations and proposed amendments thereto should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by May 21, 1981. Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive for improving government regulations appearing in the Federal Register for Wednesday, November 8, 1978.

By direction of the Acting Commissioner of Internal Revenue.

George H. Jelly,

Director, Employee Plans and Exempt Organizations Division.

BILLING CODE 4830-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[PP 9E2124/P167; PH FRL 1781-4]

Amiben; Proposed Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposed that tolerances be established for residues of the herbicide amiben (3-amino-2,5-dichlorobenzoic acid). This proposal was submitted by the Inter-regional Research Project No. 4 (IR-4). This amendment will establish the maximum permissible levels for residues of amiben on pigeon peas and pigeon pea forage at 0.1 part per million (ppm).

DATE: Written comments must be received on or before April 17, 1981.

ADDRESS: Written comments to: Clinton Fletcher, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher (703-557-7123).

SUPPLEMENTARY INFORMATION: The Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, has submitted pesticide petition number 9E2124 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Puerto Rico.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of a tolerance for negligible residues of the herbicide amiben (3-amino-2,5-dichlorobenzoic acid) in or on the raw agricultural commodities pigeon peas and pigeon pea forage at 0.1 ppm.

The data submitted in the petition and all other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. The toxicology data considered in support of the proposed tolerance of 0.1 ppm in or on pigeon peas and pigeon pea forage were: a 2-year rat feeding study with a no-observed-effect-level (NOEL) of 1,000 ppm in the diet (50 milligrams (mg)/Kilogram (kg); a 2-year dog feeding study with a NOEL of 10,000 ppm in the diet (250 mg/kg); a three-generation reproduction study with a NOEL of 4,500 ppm in the diet; two rat acute oral studies with an LD_{50} of 5,620 mg/kg and 5,000 mg/kg, a 28-day rat oral dietary study with a NOEL of 10,000 ppm. Studies currently lacking and considered desirable include teratology studies in two species and mutagenic evaluation.

The National Cancer Institute (NCI) report on the carcinogenicity of amiben indicated that, based on the terms of the bioassay, amiben was negative for oncogenic potential in Osborne-Mendel rats. However, positive evidence for the oncogenicity of amiben was observed in a study in which $B_6C_3F_1$ female mice treated with 10,000 and 20,000 ppm amiben developed hepatocellular carcinomas. Similar carcinomas appeared in male mice but were not dose-related.

On the basis of the $B_6C_3F_1$ mouse study, the agency considers the cancer risk from dietary exposure of amiben-treated pigeon peas to be very small. If it is assumed as a worst possible case that amiben would be present in all fresh pigeon peas at the proposed tolerance level and all pigeon peas would be treated with amiben, the lifetime risk of cancer from consuming fresh pigeon peas is estimated to be 10^{-8}. Based on the 2-year rat feeding study with a NOEL of 1,000 ppm (50 mg/kg/day) and using a 100-fold safety factor, the previously acceptable daily intake (ADI) for humans was calculated to be 0.5 mg/kg/day with regard to chronic effects other than oncogenicity. If it is assumed that a 60 kg person consumes a 1.5 kg daily diet, the theoretical maximum contribution

(TMRC) from existing tolerances for amiben is calculated to be 0.0130 mg/day. Existing tolerances contribute 0.04 percent of the ADI. The requested tolerance will not utilize any additional percentage of the ADI, but would contribute 0.00005 mg/day to the TMRC. The maximum permissible intake (MPI) of amiben residues for a 60 kg person is calculated to be 30 mg/day.

Amiben is a candidate for a rebuttable presumption against registration (RPAR) since it may exceed the risk criteria described in 40 CFR 162.11(a)(3)(ii)(B) for chronic effects. The agency will reevaluate all the existing tolerances for amiben through the RPAR process. At this time, however, the amount of amiben added to the diet from the proposed use is too small to substantially increase the risk in humans. Thus, the proposed tolerance is considered to pose a negligible increment in risk.

The metabolism of amiben is adequately understood and adequate analytical methods (gas chromatography and spectrophotometry) are available for enforcement purposes. There is no reasonable expectation of finite residues in milk, eggs, meat, and/or poultry since there is no reasonable expectation of detectable residues in pigeon pea forage.

Based on the above information considered by the agency, it is concluded that the tolerances established by amending 40 CFR Part 180 will protect the public health. In addition, the negligible residue designator ("N") has been removed from the existing tolerances because long-term feeding studies are now available. It is proposed that the tolerances be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request on or before April 17, 1981, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition and document control number, "[PP 8E2124/P167]." All written comments filed in response to this petition will be available for public inspection in the office of Clinton Fletcher from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays.

The Office of Management and Budget has exempted this regulation from OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

For information on the Regulatory Flexibility Act, see the Appendix to this proposed regulation.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: February 24, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that Subpart C of 40 CFR Part 180 be amended by (1) revising § 180.266 in its entirety to editorially restructure the section into an alphabetized columnar listing, (2) removing the negligible residue designator, and (3) alphabetically adding the raw agricultural commodities "pigeon peas" and "pigeon pea forage" under § 180.266 to read as follows:

§ 180.266 Amiben; tolerances for residues.

Tolerances for residues of the herbicide amiben (3-amino-2,5-dichlorobenzoic acid) are established in or on the following raw agricultural commodities:

Commodities	Parts per million
Beans, dried	0.1
Bean vines	.1
Cantaloupes	.1
Cucumbers	.1
Field corn grain	.1
Field corn fodder	.1
Field corn forage	.1
Lima beans	.1
Peanuts	.1
Peanut forage	.1
Peppers	.1
Pigeon peas	.1
Pigeon pea forage	.1
Pumpkins	.1
Snap beans	.1
Soybeans	.1
Soybean forage	.1
Squash (summer and winter)	.1
Sunflower seed	.1
Sweet potatoes	.1
Tomatoes	.1

Appendix to [PP8E2124/P167] Amiben Proposed Tolerance

Certification Under Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act (Pub. L. 96-543, 94 Stat. 1164, 5 U.S.C. 601-612) effective January 1, 1981. The purpose of the Act is to assure that the Agency analyzes the effect of regulatory requirements on small businesses, government jurisdictions, and organizations (collectively referred to as "small entities"). The law requires that all "notice-and-comment" rulemaking, both proposed and final, be accompanied by an initial or final regulatory flexibility analysis, or by a certification by the Administrator that no such analysis is necessary because the regulation will not have a significant adverse impact on a substantial number of small entities.

Under sec. 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended (21 U.S.C. 346a), the Agency is authorized to establish by regulation tolerance levels, or exemptions from the requirements for a tolerance, for pesticides resulting in residues on raw agricultural commodities. Under sec. 409 of the same Act (21 U.S.C. 348), the Agency is authorized to issue regulations establishing permissible levels of residues of pesticides found as additives in processed food or feed. These tolerance and additive regulations are intended to protect the public while giving appropriate consideration to the production of an adequate, wholesome and economical food supply.

The establishment of a tolerance or an exemption or an additive level allows a pesticide product to be registered for a particular use resulting in residues on food or feed. This generally has beneficial economic impact on the producer, distributor, and professional applicator of the pesticide, all of whom benefit through sale of the pesticide. It also benefits the ultimate user of the pesticide, usually a grower or food processor, who would otherwise not be able to sell crops containing residues of that pesticide.

This proposed regulation would establish a maximum permissible level for residues of the herbicide amiben in or on pigeon peas and pigeon pea forage at 0.1 part per million.

The only potential adverse impact on the proposed ruling would be that it would require some labeling changes by registrants. However, the number of affected registrants is relatively very small, the burden of amending the labeling would be slight, and any costs would almost certainly be outweighed by the benefits to the registrants of being able to register this additional use.

Accordingly, I hereby certify that this proposed regulation would not, if promulgated, have a significant adverse impact on a substantial number of small entities. Therefore, this regulation does not require a regulatory flexibility anlysis.

Dated: March 11, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

BILLING CODE 6560-20-M

---

40 CFR Part 180

[OPP-300344; PH FRL 1781-5]

Boiled Linseed Oil; Exemption From the Requirement of Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This amendment proposes that "boiled" linseed oil be exempted from the requirement of a tolerance when used as an inert ingredient in a formulation of *S*-ethly hexahydro-1*H*-azepine-1-carbothioate applied to growing rice before edible parts form.

DATE: Written comments must be received on or before April 17, 1981.

ADDRESS: Written comments to: John A. Shaughnessy, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: John A. Shaughnessy (703-557-7110).

SUPPLEMENTARY INFORMATION: At the request of Stauffer Chemical Co., 1200 S. 47th St., Richmond, CA 94804, the Administrator proposes amending 40 CFR Part 180 to include an exemption from the requirement of a tolerance for boiled linseed oil ("boiled" refers to drying by use of 0.33 percent manganese naphthenate and 0.33 percent cobalt naphthenate) when used as an inert ingredient in a formulation for *S*-ethyl hexahydro-1*H*-azepine-1-carbothioate applied to growing rice before edible parts form.

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and include, but are not limited to, the following types of ingredients (except when they have pesticidal efficacy of their own): solvents such as water; baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellents in aerosol dispensers; and emulsifiers. The term inert is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

Preambles to proposed rulemaking documents of this nature include the common or chemical name of the substance under consideration, the name and address of the firm making the request for the exemption, and toxicological and other scientific bases used in arriving at a conclusion of safety in support of the exemption.

Inert ingredient	Name and address of requestor	Basis of approval
Boiled linseed oil (containing no more than 0.33 percent manganese naphthenate and no more than 0.33 percent cobalt naphthenate).	Stauffer Chemical Co., 1200 S. 47th St., Richmond, CA 94804.	Linseed oil is sometimes used as a cooking oil, particularly in Eastern Europe, and is cleared for a variety of intentional indirect food additive uses. Clearances for linseed oil (or specified linseed oil) include the following: 21 CFR 181.28—Drying oils as components of finished resin. 21 CFR 176.210—Defoaming agents used in the manufacture of paper and paperboard. 21 CFR 176.300 Drying oil in resinous and polymeric coatings. 21 CFR 182.90 [180.1001(c)]—Adjuvant for pesticide chemicals used as surfactants or related adjuvants applied to growing crops or after harvest.

The maximum residue of manganese likely to result from the expected use is 0.4 part per million (ppm) and the maximum residue of the cobalt naphthenate is 6.5 ppm. If the assumption is made that cobalt comprises about 24 percent of its salt, (the maximum metal content in liquid naphthenate salts *(The Condensed Chemical Dictionary,* 8th edition, Ed. by G. G. Hawley, Van Nostrand Reinhold Co., NY, 1971)) the maximum residue level of cobalt can be expected to be 1.6 ppm.

Because the food factor (percentage of average American diet) of rice is 0.55 percent, 0.4 ppm of manganese and 1.6 ppm of cobalt on rice can be expected to contribute a theoretical maximum of 3.5 micrograms and 14 micrograms respectively of each trace metal to the average daily intakes of cobalt and manganese. It must be noted that both cobalt and manganese are essential trace metals that are toxic at very high dose levels. However, average daily intakes of manganese and cobalt in a normal human diet, for purposes of comparison, are 7 milligrams and 0.7 milligrams, respectively (E. J. Underwood, *Trace Elements in Human and Animal Nutrition,* 3d edition, Academic Press, NY, 1971 pp. 161,200). No problem with toxicity of either manganese or cobalt is expected from the requested use pattern.

The naphthenate moiety is not expected to constitute a toxicological hazard for the following reasons:

1. The quantity of naphthenates found in the formulation will be small.

2. Naphthenate refers to saturated higher fatty acids derived from the gas-oil fraction of petroleum. *(The Condensed Chemical Dictionary,* 8th edition, Ed. by G. G. Hawley, Van Nostrand Reinhold Co., N.Y. 1971.)

3. Saturated higher fatty acids are not of great toxicologic concern. Fatty acids are normal constitutents of soaps, oils, and human biochemistry. They are readily metabolized by beta oxidation and eventually are broken down to acetate which then enters the citric acid cycle as acetylcholinesterase *(Biological Chemistry,* 2nd edition, by Mahler and Cordes, p. 594, Harper and Row, N.Y. 1971.)

4. Naphthenates, such as cobalt and copper, are widely used as wood preservatives. Some naphthenates are cleared as indirect food additives. Copper naphthenate is exempt from the requirement of a tolerance when applied to growing crops before edible portions form (40 CFR 180.1001(d)).

Boiled linseed oil acts as a coating agent in this formulation, and retards volatilization of the active ingredient from the granular carrier. Since boiled linseed oil would be applied to the rice before the edible parts form, and the active (pesticide) ingredient is rapidly metabolized, it is concluded that the inert ingredient will have no great effect on residue of the active ingredient in rice.

Based on the above information, and a review of its use, it has been found that when used in accordance with good agricultural practice, this ingredient is useful and does not pose a hazard to the environment. It is concluded, therefore, that the proposed amendment to 40 CFR Part 180 will protect the public health, and it is proposed that the regulation be established as set forth below.

Any person who has registered, or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains this inert ingredient may request, on or before April 17, 1981, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the document control number "[OPP-300044]". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of John Shaughnessy, from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

For information on the Regulatory Flexibility Act requirements, see the appendix to this proposed rule.

(Sec. 408(e) 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: March 12, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that Subpart D of 40 CFR Part 180 be amended by adding § 180.1056 to read as follows.

§ 180.1056 Boiled linseed oil; exemption from requirement of tolerance.

Boiled linseed oil (containing no more than 0.33 percent manganese naphthenate and no more than 0.33 percent cobalt naphthenate) is exempt from the requirement of a tolerance when used as a coating agent for *S*-ethyl hexa-hydro-1*H*-azepine-1-carbothioate. No more than 15 percent of the pesticide formulation may consist of "boiled linseed oil." This exemption is limited to use on rice before edible parts form.

Appendix To [OPP-300044] Boiled Linseed Oil Proposed Exemption From Tolerance

Certification Under Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (Pub. L. 96-543, 94 Stat. 1164, 5 U.S.C. 601-612), all "notice-and-comment" rulemaking which is proposed after January 1, 1981, must be accompanied by a regulatory flexibility analysis, or by a certification by the Administrator than no such analysis is necessary because the regulation will not have a significant economic impact on a substantial number of small entities.

Under sec. 408 and 409 of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended (21 U.S.C. 346a, 348), the Agency is authorized to establish by regulation tolerance levels, exemptions from the requirements for a tolerance, or food additive levels, for pesticides whose use results in residues on food or feed. The establishment of a tolerance or an exemption or an additive level allows a pesticide product to be registered for a particular use resulting in residues on food or feed. This generally has some beneficial economic impact on the producer, distributor, and professional applicator of the pesticide, as well as on the ultimate user of the pesticide, usuallly a grower or food processor, who would otherwise not be able to sell crops containing residues of that pesticide. Adverse impacts are usually non-existent or insignificant.

This proposed regulation would exempt boiled linseed oil from the requirement of a tolerance, when used as an inert ingredient, in formulations of a specific herbicide applied to rice only. Any costs resulting from this rule would almost certainly be outweighed by the benefits to the registrants of being able to register this additional use.

Accordingly, I hereby certify that this proposed regulation would not, if promulgated, have a significant economic impact on a substantial number of small entities. Therefore, this regulation does not require a regulatory flexibility analysis.

Dated: March 11, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

[FR Doc. 81-8000 Filed 3-17-81; 8:45 am]

BILLING CODE 6560-32-M

VETERANS ADMINISTRATION

41 CFR Part 8-4

Special Types and Methods of Procurement; Mortuary Services

AGENCY: Veterans Administration.

ACTION: Second notice of proposed rulemaking.

SUMMARY: The Veterans Administration is proposing to amend its procurement regulations by revising provisions relating to the transportation allowances for the burial of unclaimed deceased veterans, and by eliminating the requirment for an outside box as a prerequisite to interment in a National Cemetery. The amendment proposes to eliminate the cost of transportation to place of local burial as a cost chargeable against the $300 statutory allowance for a complete funeral and burial service.

DATES: Comments must be received on or before April 17, 1981. It is proposed to make this change effective 30 days after approval.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, and objections to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW, Washington, DC 20420. All written comments received will be available for public inspection at the address shown above only between the hours of 8 a.m. to 4:30 p.m. Monday through Friday (except holidays) until May 1, 1981. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the above address and room number.

FOR FURTHER INFORMATION CONTACT: Chris A. Figg, (202) 389-2334.

SUPPLEMENTARY INFORMATION: This section is being revised to remove the restriction of the additional transportation allowance to "other than local burials," and to eliminate transportation costs as an item chargeable against the $300 ceiling for a burial package as designated in 38 U.S.C. 903(a). The requirement that an outside box be provided if the interment is to be made in a National Cemetery which does not use grave liners is proposed to be eliminated. The provision of such an outside box is no longer considered necessary. Clarification is added so that arrangements will be made with the nearest National Cemetery having available space.

On page 28767 of the Federal Register of April 30, 1980, there was published a proposed amendment to 41 CFR Part 8-4 concerning the procurement of mortuary services for unclaimed remains. Subsequent to that publication, it was determined that the proposed amendment was insufficient in content and potentially ambiguous. The Veterans Administration is hereby withdrawing that proposed amendment and reissuing a new, revised proposed amendment.

Approved: March 4, 1981.

Rufus H. Wilson,

Acting Administrator.

Section 8-4.5102, *"Funeral authorization."* is revised to read as follows:

§ 8-4.5102 Funeral authorization.

(a) When a veteran dies while receiving care in a Veterans Administration health care facility or in a non-Veterans Administration institution at Veterans Administration expense and the decedent's remains are unclaimed, the Chief, Medical Administration Service, will forward to the Chief, Supply Service, a properly executed VA Form 10-2065, Funeral Arrangements, requesting that funeral and burial services for the deceased be procured. Burial will be made in the nearest National Cemetery having available gravespace.

(b) The contracting officer will enter into negotiations with local funeral directors to procure a complete funeral and burial service within the statutory allowance of $300. This service will consist of:

(1) Preparation of the body, embalming.

(2) Clothing.

(3) Casket.

(4) Securing all necessary permits.

(c) An additional allowance for transportation of the body to the place of burial is provided in 38 U.S.C. 903(a)(2). This allowance will cover the transportation cost of shipment of the body by common carrier or by hearse from the VA facility to the funeral home and to the place of burial, any charges for an outside (shipment) box, and the charges for securing all necessary permits for removal or shipment of the

body. These costs are not chargeable against the $500 allowance.

(48 U.S.C. 210(c); 40 U.S.C. 486(c))

[FR Doc. 81-8128 Filed 3-17-81; 8:45 am]
BILLING CODE 6820-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 80-757]

Amendment of the Commission's Rules Concerning Automation of the Use of Measurement Data for AM Broadcast Stations; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Notice of inquiry; extension of comment and reply comment period.

SUMMARY: This action extends the comment and reply comment periods in the AM Measurement Data proceeding at the request of the Association of Federal Communications Consulting Engineers (APCCE). The additional time was requested by APCCE in order to allow its entire membership to review and comment upon the Commission's proposals. Extending the comment dates will enable the Commision to obtain a more full and complete record.

DATES: Comments must be submitted on or before May 11, 1981; reply comments must be submitted on or before June 8, 1981.

FOR FURTHER INFORMATION CONTACT: Dennis Williams, Broadcast Bureau, (202) 632-6485.

SUPPLEMENTARY INFORMATION:

Order Granting Motion for Extension of Time To File Comments

Adopted: February 26, 1981.

Released: March 6, 1981.

By the Chief, Policy and Rules Division:

1. On February 5, 1981, the Commission received a Motion for Extension of Time to file comments in the above-captioned proceeding from the Association of Federal Communications Consulting Engineers (APCCE). Petitioner requests that the time for filing comments be extended from March 9, 1981, to May 9, 1981, and that the time for filing reply comments be extended from April 8, 1981, to June 8, 1981.

2. In support of its motion, APCCE states that it wishes to make available to the Commission the collective engineering expertise of its membership. In this regard, APCCE states that at its next monthly meeting the attendees will consider and discuss the association's comments. Following the meeting, a draft of APCCE's comments will be mailed to the entire membership for their review and comments. According to APCCE, the membership's comments are not expected to be received before the latter part of March or early April. The membership's comments would then be incorporated into a final document which would be approved by the Executive Committee at a meeting in late April.

3. We believe APCCE has shown good cause to extend the comment filing deadlines in this proceeding. The issues involved in this rulemaking are complex, and the Commission's interest in obtaining as full and complete a record as possible will be well served by granting this extension. Because May 9, 1981, the date requested by APCCE for filing comments, is a Saturday, we shall extend the comment deadline to the following Monday, May 11.

4. Accordingly, it is ordered, That the dates for filing comments and reply comments in this proceeding are extended to May 11, 1981, and June 8, 1981, respectively.

5. This action is taken pursuant to authority found in Section 4(i) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

47 CFR Part 83

[Docket No. 18578; FCC 81-71]

Amendment To Provide a Program and Schedule of Dates for Increasing the Required Output Power of Transmitters Where Vertical Antennas Are Employed Aboard Compulsorily Fitted MF Radiotelegraph Ships

AGENCY: Federal Communications Commission.

ACTION: Order terminating proposed rule.

SUMMARY: This order terminates this proceeding without adopting the proposed rules concerning the output power of marine transmitters on ships using vertical antennas. The FCC will inspect existing vertical antennas to determine their efficiency under operating conditions before regulatory action is taken.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Walter E. Weaver, Private Radio Bureau, 202-632-7175.

SUPPLEMENTARY INFORMATION:

Order (Proceeding Terminated)

In the matter of amendment of Part 83 to provide a program and schedule of dates for increasing the required output power of transmitters where vertical antennas are employed aboard compulsorily fitted MF radiotelegraph ships.

Adopted: February 25, 1981.

Released: March 3, 1981.

By the Commission: Chairman Ferris not participating.

1. On June 25, 1980, the Commission adopted a Notice of Proposed Rule Making in this item.[1] In short, this proposal would have required an increase in transmitter output power from 200 watts to 1,000 watts to make up for the decrease in efficiency when employing a vertical versus a long wire antenna. The intent was to have the radio equipment on board the vessel generate a field strength of 30 mV/m at one nautical mile.

2. On June 20, 1978, we adopted a Notice of Proposed Rule Making[2] which would require the generation of a field strength of 30 mV/m at one mile by any means available. As a result of the information developed in connection with Gen Docket 78-185, we have determined that no regulatory action should be taken until an inspection has been made of the antenna characteristics aboard a substantial number of ships. This inspection program will be conducted by FCC field engineers; following which a regulatory course of action may be reconsidered.

3. Regarding questions on matters covered in this document, contact Walter E. Weaver, telephone (202) 632-7175.

4. Therefore, for the above reasons, it is ordered, That the proceeding in this matter is terminated.

Federal Communications Commission.

William J. Tricarico,

Secretary.

INTERSTATE COMMERCE COMMISSION

49 CFR Parts 1307 and 1310

[Ex Parte MC 86; Ex Parte MC 88 (Sub-1)]

Detention of Motor Vehicles—Nationwide and Alaska

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Commission proposes to abolish the existing uniform detention rules applicable to motor common carriers of property. Numerous petitions requesting change have been received by the Commission since the promulgation of the uniform rules. The number and variety of issues raised in the petitions suggest that the rules do not have the flexibility required under the diverse operating conditions found in the transportation industry. Abolishing the uniform rule would return the issue of detention to the discretion of motor carrier management. Carriers desiring detention rules may establish their own non-discriminatory rules through tariff publications.

DATES: Comments of interested persons will be due on or before May 4, 1981.

ADDRESS: An original and fifteen copies of comments should be sent to: Room 5356, ICC, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane MacKall (202) 275–7656.

SUPPLEMENTARY INFORMATION: The Commission established the uniform rules [1] for several reasons. One was the belief that the rules would improve the utilization of carrier equipment. The Middle Atlantic Conference had found that carrier detention rules resulted in efforts by shippers to use more efficient means of loading and unloading. However, some carriers found it difficult to maintain individual detention rules when competing against carriers who had no rules. The Commission concluded that uniform rules could help to eliminate this problem. See, *Detention of Motor Vehicles—Middle Atl. & New England,* 325 I.C.C. 336 (1965).

Also favoring uniform rules was the belief that differing detention rules caused administrative burdens for shippers. Since the origin of a shipment determined the applicable rule, a consignee sometimes had to contend with several different sets of rules. Also, some shippers argued that simplified detention tariffs would permit greater use of automated data processing equipment.

In establishing uniform detention rules, the Commission was also concerned with preventing discrimination among shippers. The Commission found that existing rate bureau rules were largely uniform except for numerous highly specific and inadequately explained individual exceptions. While arguably the exceptions were reactions to different operating requirements, the Commission concluded that flexible rules could allow preferential service for influential shippers at the expense of small shippers and the general public. This potential for preferential treatment was increased by the fact that the confusion in the rules tended to make enforcement more difficult.

Since the promulgation of the uniform rules, there have been many petitions requesting interpretation, change, or exemption from the rules. Detention is closely associated with the daily business operations of carriers and shippers. The number and variety of issues raised in the petitions suggest that uniform rules may lack sufficient flexibility to accommodate the differences in these operations. If this is true, they may not have the salutary effects on discriminatory practices originally envisioned. See M.C.C. 660, 668. In addition, the increased availability of contract and private carriage (which are not subject to the detention rules) casts additional doubt on the efficacy of the present rules in protecting smaller shippers.

We have also considered the regulatory policies enunciated by Congress in the Motor Carrier Act of 1980. Section 2 of the Act states that the Act is part of the continuing effort by Congress to reduce unnecessary regulation by the federal government. Section 3 goes on to state that existing regulation of motor carriers may have inhibited maximum utilization of equipment. Finally, Section 4(3) modifies the National Transportation Policy, 49 U.S.C. 10101, to emphasize that the Commission is "to promote competitive and efficient transportation services."

Equipment utilization is an important element in a carrier's ability to compete. Increased competition, and elimination of uniform rules, may force carriers to develop detention standards and rates options that will permit more effective service and better equipment utilization.

These benefits may more than offset the difficulties, if any, the Commission may face in preventing undue discrimination. Furthermore, increased motor carrier competition suggests that undue discrimination may be less of a concern than it has been. With increased competition, carriers that unjustly discriminate may find themselves losing customers to other carriers.[2]

Specific Criticisms of the Uniform Rules

One of the areas of greatest controversy has been the palletization rules. These rules state that reduced free time is applicable when at least 90 percent of the shipment weight is loaded on pallets, or when the shipment is loaded on flat-bed or other open-top equipment. A pallet is a platform, shipping rack, or skid which permits mechanized loading and unloading.

A basic problem with this rule is that it does not appear to have the flexibility needed to accommodate the various shipper operating practices. For example, the uniform rule assumes that shippers and receivers will use the same methods to load and unload. However, sometimes the consignor has mechanical loading equipment while the receiver does not. Sometimes the consignor and consignee both have mechanical loading and unloading equipment, but will have different sized pallets. In these cases the receiver will have to unload by hand. In other cases the pallet will arrive in damaged condition and require manual unloading.

Furthermore, the rule includes some loadings which are not mechanized, and excludes some loadings which are mechanized. For example, steel carried on rolls can be unloaded mechanically but is not included under the palletization rule. On the other hand, flat-bed trailer shipments are included, yet not all commodities carried on flat-bed trailers can be mechanically loaded. Finally, whether pul-pacs and slip-sheets, which are similar to pallets and are used in the grocery industry, are included in the palletization rule is hotly debated by shippers and carriers.

These problems, as well as the reduced free times, have encouraged shippers to load 10 to 15 percent of a shipment by hand, thus avoiding application of the rule. Other shippers order closed trailers in place of open-top. Inefficient use of equipment results.

A uniform rule defining palletization in terms of actual mechanized loading or unloading might resolve some of these problems. However, one difficulty is that the palletization rules are interwoven with the line-haul rate structure. As

[1] 124 M.C.C. 680 (1976); 128 M.C.C. 803 (1977).

[2] Detention practices which unreasonably discriminate would, of course, violate 49 U.S.C. 10741(b). If the uniform rules are abolished, the Commission would expect carriers, in determining their own detention policies, to act in accordance with the law. The Commission's Office of Consumer Protection would be responsive to complaints of discriminatory detention practices.

indicated by the National Motor Freight Traffic Association many commodity rate items show dual rate levels, one applicable to non-palletized shipments and a lower level restricted to palletized shipments. Other commodity rates have been established with pallet shipments in mind, but are not so restricted in the tariff item. The varying rate structures would not necessarily be reflected in one uniform rule.

This relationship with the rates plus the variety of operating practices involved, suggests that a uniform rule may be too rigid, and that competition might result in better rules. If carriers are free to experiment, they may be able to fashion detention rules that together with rate adjustments will best encourage shippers to invest in mechanical loading and unloading equipment.

We have had a number of petitions for exemptions. Although the rules do exempt some specialized shipments, petitioners have indicated other commodities which may require exclusion. For example, irrigation systems and power transmission structures are heavy and specialized and may have as many as 3,000 pieces to be unloaded in fields where there are no loading docks or protection from the weather. For safety reasons, nitro-carbo-nitrates and blasting agents, when left at job sites, are unloaded only as they are needed. In rigging operations, also, where the carrier's employees install machinery as part of the delivery service, unloading does not fit detention rule patterns. Other commodities which may involve similar problems include contractors' equipment, oil field equipment, and garments-on-hangers.

Furthermore, we have already stayed application of the rules to origins and destinations in Alaska so that we may consider the particular transportation conditions found in that State.[3] A similar stay has been granted, under certain conditions, with respect to articles picked up or delivered to water carriers.[4]

While these requests could possibly be accommodated through exemptions to the uniform rule, the requests do indicate the difficulty of formulating a uniform rule for a variety of shipping operations.[5] Furthermore, we have also received requests for exemptions based upon competitive factors. For example, one petitioner requested an exemption for articles moving on bills of lading of freight forwarders because petitioner has to compete with rail service, TOFC and others to which the uniform rule does not apply. Another petitioner argues that uniform rules should include TOFC movements so that all motor common carriers could compete equally with these rail movements. Exemptions have also been requested for certain commodities on the grounds that carriers must compete with private and contract carriage not subject to the uniform rule.

It would be difficult for the Commission to formulate a uniform rule that could satisfactorily resolve all these issues. We do not wish to hinder the ability of carriers to compete by requiring those carriers to operate under a stricter detention standard than that applicable to their competitors.

We have also received many requests for interpretation or change in other areas of the rules. The spotting rules, for example, are particularly important to the automobile industry which requires that trailers be left at holding pens within the plant area. This allows the industry to move trailers to and from the receiving docks immediately when needed. The question of whether the carrier or the industry is financially responsible under the spotting rules for the transfer of emptied trailers from the receiving docks to the holding areas is very controversial.

Other questions include whether free time should be based on actual weight rather than tariff weight, whether free time should depend on density or piece count as well as weight, whether detention charges should be greater for refrigerator equipment, the degree to which the charges should be increased, the proper cost basis for the charges, whether there should be an automatic increase mechanism for the charges, and the definition of holiday in the rules. It is possible that we could modify the uniform rules to resolve these problems. However, the number and variety of petitions again suggest that the uniform rule lacks sufficient flexibility. We are especially concerned with the affect of specific levels of charges adopted through rules. The Motor Carrier Act of 1980 encourages individual ratemaking flexibility and today's economic conditions make uniform fixed charges for detention questionable.

For all of these reasons we are proposing to abolish our uniform detention rules and return the issue of detention to the discussion of motor carrier management. We would expect carriers to adopt non-discriminatory, but not necessarily uniform, detention rules through tariff publication. Rules can be tailored differently to meet particular circumstances without resulting in unreasonable discrimination. See *H. Samuels Co., Inc. v. Atchison, T. & S. F. Ry. Co.* 364 I.C.C. 280 (1980).

Alternatives

There are other possibilities besides total revocation of the uniform rules. We invite public comment on the advisability of the options listed below. We will consider other suggestions. The parties should address the comparative merits of these alternatives and the abolition of all uniform detention rules. Should we decide to modify rather than abolish the uniform rules, it is possible that we may seek further public comments on specific modifications.

One option would be to permit the carriers to develop their own rules in accordance with minimum standards or rules set by us. For example, we could establish record-keeping requirements, and the time ranges within which carriers could set detention time periods. This alternative is intended to keep Commission involvement to the minimum necessary. We request comments on the matters that should be covered if this approach is adopted.

Another option would be to permit carriers to choose whether to develop their own rules. Carriers not developing their own rules would be required to use rules which we prescribe.

A third option would be to keep the existing rules, with needed changes. The most important modifications would be in the area of palletization. We could define palletization for detention purposes in general terms of the ability to load and unload mechanically. Permitting different free times at origin and destination depending on the ability of the individual shippers or consignee to load or unload mechanically could also be considered.

Other modifications of the uniform rules could also include: (1) Exceptions for commodities where loading or unloading occurs under abnormal conditions; (2) an increase in the level of detention charges and consideration of whether an automatic adjustment mechanism is desirable; and (3) re-examining whether shipper or carriers are financially responsible under the spotting rules for the transfer of emptied trailers from the receiving docks to holding area.

Other questions which we would review include those mentioned above in the discussion of special criticisms of the rules. We would also consider other problems such as: (1) What percentage of a shipment can be mechanically loaded before the whole shipment is considered to be palletized; (2) what

---

[3] Ex Parte MC 86 (Sub-1), decision served August 10, 1977, (42 FR 41444, August 15, 1977).

[4] Ex Parte MC 86, decision served September 25, 1978 (not published).

[5] An exemption from the rules was granted in Detention of Motor Vehicles, 131 M.C.C. 557 (1979).

free time is allowed when the carrier's tariff provides separate charges for sorting and segregating services; (3) whether Saturdays, Sundays, and holidays should be charged when carriers won't pick up trailers on these days; and (4) whether detention charges should apply when there is more than a 30 minute delay in spotting.

Petition of the Common Carrier Conference—Irregular Route, Inc.

The Conference has requested that the Commission hold in abeyance or cancel all investigations, civil forfeiture proceedings, or other actions alleging violations of the detention rules. The request is based upon our notice of March 26, 1980, in which we recognized problems with the detention rules and indicated our intent to reopen the proceeding. Petitioners argue that these problems may have generated some pending enforcement proceedings, and that the carriers should therefore have the benefit of any new rules the Commission may issue.

The Steel Carriers' Tariff Association, Inc. and the Commission's Office of Consumer Protection replied in opposition. We agree that the requested action is not warranted at this time. The rules, while not perfect, are being relied upon by many members of the public. We will take actions necessary to ensure that unfair prosecutions do not occur pending resolution of this proceeding.

Other Matters

The Regulatory Flexibility Act, 5 U.S.C. 603 requires an examination of the impact of proposed rules on small businesses and small organizations. We anticipate no significant adverse economic impact on small entities as a result of this ratemaking. We are concerned that abolition of all uniform detention rules may hinder the efforts of owner-operators to obtain payment for detention. We seek comments on the likelihood of this possibility and suggestions for alternatives to avoid this problem. We request that parties comment on any other adverse impact that repeal of the rules may have on small businesses. A copy of this notice will be served on the Administrator, Small Business Administration. Any input that agency intends to make should be presented within the 45-day comment period.

Section 15 of the Motor Carrier Act of 1980 addresses problems arising from "lumping," the practice in which shippers require that motor carrier operators receive assistance in the loading or unloading of their vehicles. As detention charges arise from shipper activities that impede rather than speed loading and unloading, Section 15 does not appear to affect the regulations at issue here. However, the public is invited to comment upon the impact of Section 15, if any, on the detention regulations.

The matters raised in this notice do not appear to affect significantly the quality of the human environment or the conservation of resources. However, comments on these issues are welcome.

Summary

We propose to remove 49 CFR 1310.15(f) and 1307.35(e). Comments are requested on the feasibility and desirability of deletion of the rules, and the potential effect on motor common carrier transportation of property. Comments should also address the possible alternatives to abolishing the rules described above, and any other suggestions regarding enforcement of the statute as it relates to abuses of detention time.

Issued under the authority of 49 U.S.C. 10101, 10321, 10741, and 10762, and 5 U.S.C. 553.

Decided: February 26, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

Federal Register
Vol. 46, No. 52
Wednesday, March 18, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Directory of Administrative Hearing Facilities

The Office of the Chairman of the Administrative Conference of the United States announces publication of a "Directory of Administrative Hearing Facilities." The directory is designed to assist persons who are scheduling administrative hearings and conferences to locate and reserve appropriate facilities. It identifies and decribes over 1000 courtrooms, conference rooms, hearing rooms, and other locations across the country in which administrative proceedings may be held. The directory also lists contacts to call when seeking to reserve these facilities.

The Office of the Chairman has a limited supply of copies of the directory for distribution to federal agencies and others who have a special need or interest. To request a copy, write to Charles Pou, Jr., Administrative Conference of the United States, Suite 500, 2120 L Street, N.W., Washington, D.C. 20037, or telephone (202) 254–7020.

Richard K. Berg,

Executive Secretary.

BILLING CODE 6110-01-M

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

Availability of Draft Environmental Impact Statement on Cooperative Imported Fire Ant Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability of the draft environmental impact statement on the Cooperative Imported Fire Ant Program.

SUMMARY: A notice of the Department's intent to prepare a draft environmental impact statement on the Cooperative Imported Fire Ant Program was published in the **Federal Register** (45 FR 69509) on October 21, 1980. The draft environmental impact statement (USDA–APHIS–ADM–81–01–D) has been prepared and was sent to the Environmental Protection Agency (EPA) on March 13, 1981, pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, by the Plant Protection and Quarantine, Animal and Plant Health Inspection Service.

DATE: Comments must be received on or before May 4, 1981.

ADDRESS: Comments and requests for a copy of the draft environmental impact statement should be addressed to the Pest Program Development Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 630, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. The draft is available for public inspection at this same address and at the following locations:

Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 302–E, Administration Building, 14th and Independence Avenue, Washington, DC 20250

Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, P.O. Box 3659, Gulfport, MS 39503

Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, 2100 Boca Chica Boulevard, Suite 400, Boca Chica Tower Building, Brownsville, TX 78521

FOR FURTHER INFORMATION CONTACT: B. Glen Lee, Staff Officer, Pest Program Development Staff, Plant Protection and Quarantine, APHIS, USDA, Federal Building, 6505 Belcrest Road, Rm. 630, Hyattsville, MD 20782, (301) 436–8745.

SUPPLEMENTARY INFORMATION: the imported fire ant is an insect pest not native to the United States. An aggressive mound builder with a vicious sting, it is a pest of agriculture, a health hazard, and a nuisance to anyone living in heavily infested areas. When disturbed, imported fire ants will attack both humans and animals. The ant has spread throughout the Southeastern United States and currently infests 230,000,000 acres in nine States. Without an environmentally safe and biologically effective insecticide for areawide control since 1977, populations have increased to high levels in parts of the nine States. Infestations are often of such an extent as to be beyond the capability of individuals to handle. Therefore, the Department plans in conjunction with cooperating State Departments of Agriculture to conduct control/suppression treatments by aerial, ground, and individual mound application of Amdro.

Amdro has been tested extensively by the American Cyanimid Company and the U.S. Department of Agriculture for several years. During two years of intensive field testing by the U.S. Department of Agriculture, it was found that Amdro is effective against the ant, degrades rapidly in sunlight, does not leach in the soil, and is degraded by soil micro-organisms. Environmental components collected in treated areas were analyzed and no residues of the insecticide were found.

Applications of Amdro will be made only in areas where surveys have been conducted and that are known to contain populations of imported fire ants. All applications will be made in accordance with the approved label.

Done at Washington, D.C., this 13th day of March 1981.

Richard R. Backus,

Acting Deputy Administrator, Plant Protection and Quarantine, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-M

Soil Conservation Service

Cane Creek Watershed, Oklahoma; Intent To Prepare an Environmental Impact Statement

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of Intent To Prepare an Environmental Impact Statement.

FOR FURTHER INFORMATION CONTACT: Mr. Roland R. Willis, State Conservationist, Soil Conservation

Service, Agricultural Center Building, Farm Road and Brumley Street, Stillwater, Oklahoma 74074, telephone number (405) 624–4360.

Notice: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for planned action in the Cane Creek Watershed project, Okmulgee and Muskogee Counties, Oklahoma.

An environmental evaluation of the remaining work in the project was made and an impact appraisal prepared in 1978. A notice of intent not to prepare an environmental impact statement was filed with the Environmental Protection Agency and published in the **Federal Register** on August 1, 1978. Subsequent to these actions, controversy arose concerning possible involvement of mineral resources with project measures. As a result of this controversy, Mr. Roland R. Willis, State Conservationist, has determined that the preparation and review of an environmental impact statement is now needed for this planned action.

The action concerns the construction of 9 floodwater retarding structures as an integral part of the plan for watershed protection and flood prevention in the Cane Creek Watershed. The Cane Creek Watershed project involves conservation land treatment and 28 single-purpose floodwater retarding structures. To date, 19 structures and about 70 percent of the land treatment measures have been installed.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation of agencies and individuals with expertise or interest in the preparation of the draft environmental impact statement. The draft environmental impact statement will be developed by Mr. Roland R. Willis, State Conservationist.

BILLING CODE 3410–16–M

Upper Howard Creek Watershed, Kentucky; Deauthorization of Federal Funding

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of Deauthorization of Federal Funding.

FOR FURTHER INFORMATION CONTACT: Buell M. Ferguson, Director, Project Development and Maintenance, Soil Conservation Service, Department of Agriculture, P.O. Box 2890, Washington, D.C. 20013 (202–447–3527).

Notice: Pursuant to the Watershed Protection and Flood Prevention Act, Pub. L. 83–566, and the Soil Conservation Service Guidelines (7 CFR 622), the Soil Conservation Service gives notice of the deauthorization of Federal funding for the Upper Howard Creek Watershed project, Clark County, Kentucky, effective on February 27, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program. Office of Management and Budget Circular No. A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: March 9, 1981.

Joseph W. Haas,

Deputy Chief for Natural Resource Projects.

[FR Doc. 81–8286 Filed 3–17–81; 8:45 am]

BILLING CODE 3410–16–M

Washington Depot Land Drainage RC&D Measure, Connecticut; Finding of No Significant Impact

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of a finding of no significant impact.

FOR FURTHER INFORMATION CONTACT: Mr. Philip H. Christensen, State Conservationist, Soil Conservation Service, Mansfield Professional Park, Route 44A, Storrs, Connecticut 06268, telephone 203–429–9361.

Notice: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service, Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Washington Depot Land Drainang RC&D Measure, Litchfield County, Connecticut.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Philip H. Christensen, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for land drainage. The planned works of improvement include installation of 840 feet of 15-inch culvert pipe and two manholes. The culvert and manholes, one with a surface water inlet structure, will convey parking lot runoff and some surface runoff from playing fields to the Shepaug River. Approximately 400 feet of subsurface drainage tile will intercept seasonal ground water and convey it to the pipe for disposal. The tile will be installed by using bank run gravel. Playing fields will be developed by the Town of Washington at the same time the land drainage measures are installed. Development of the playing fields will require approximately 1,400 cubic yards of fill. The fill will come from off-site. Following land drainage installation and playfield development, the 7.3 acres will be limed, fertilized, and seeded to grasses.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Philip H. Christensen. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until April 17, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular No. A–95 regarding State and local Clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: March 4, 1981.

Joseph W. Haas,

Deputy Chief for Natural Resource Projects.

[FR Doc. 81–8284 Filed 3–17–81; 8:45 am]

BILLING CODE 3410–16–M

DEPARTMENT OF COMMERCE

Economic Development Administration

Petitions by Producing Firms for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions have been accepted for filing from the following firms: (1) Ideal

Handbag Frame Manufacturing Corporation, 339 Greene Street, Brooklyn, New York 11238, producer of handbag frames and ornaments (accepted February 23, 1981); (2) Cole Forest Products, Inc., 4401 River Road, Grand Rapids, Minnesota 55744, producer of corn cribbing, fencing and lath (accepted February 23, 1981); (3) U.S. Forge, Inc., 105 Clark Avenue, Detroit, Michigan 48209, producer of metal forgings (accepted February 27, 1981); (4) Appliance Development Company, 28 Randolph Street, Boston, Massachusetts 02118, producer of electrical appliances (accepted March 2, 1981); (5) Sun-Togs, Inc., 439 South 3rd Avenue, Avondale, Arizona 85323, producer of women's blouses (accepted March 2, 1981); (6) Interstate Industries, Inc., 111 S. Washington Boulevard, Mundelein, Illinois 60060, producer of phonographs and radios (accepted March 3, 1981); (7) Wee Girls, Inc., 112 West 34th Street, New York, New York 10001, producer of girls' slacks, skirts and shorts (accepted March 3, 1981); (8) Lorber Industries of California, Inc., 17908 South Figuero Street, Gardena, California 90248, producer of yarns and fabrics (accepted March 4, 1981); (9) Mass Machine and Stamping, Inc., 85 Northeastern Boulevard, Nashua, New Hampshire 03062, producer of washers and other metal stampings (accepted March 5, 1981); (10) Aurora Sound International, Inc., 238 South Mission Road, Los Angeles, California 90033, producer of loudspeakers (accepted March 5, 1981); (11) Forbes-Wright Industries, Inc., P.O. Box 157, Monson, Massachusetts 01057, producer of toilet seats (accepted March 9, 1981); (12) The Baltimore Luggage Company, 304 North Smallwood Street, Baltimore, Maryland 21223, producer of luggage, tote bags, and garment bags (accepted March 9, 1981); (13) Bristol Industries Corporation, 580 Broad Street, Bristol, Connecticut 06010, producer of brass sheet, strip, rod & wire (accepted March 9, 1981); (14) Dixon Dress Company, Inc., U.S. Highway One, Alberta, Virginia 23821, producer of children's dresses (accepted March 10, 1981); (15) Hollywood Needlecraft, Inc., 3777 South Main Street, Los Angeles, California 90007, producer of children's playwear and jeans (accepted March 10, 1981); and (16) Threshold Corporation, 1832 Tribute Road, Suite E, Sacramento, California 95815, producer of audio amplifiers (accepted March 10, 1981).

The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business on March 30, 1981.

The Catalogue of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.309, Trade Adjustment Assistance. Insofar as this notice involves petitions for the determination of eligibility under the Trade Act of 1974, the requirements of Office of Management and Budget Circular No. A-95 regarding review by clearinghouses do not apply.

Charles L. Smith,

Acting Chief, Trade Act Certification Division, Office of Eligibility and Industry Studies.

[FR Doc. 81-8204 Filed 3-17-81; 8:45 am]

BILLING CODE 3510-24-M

Maritime Administration

Reconstruction of Four Constellation Class Vessels, MA Design C4-S-60a into Self-Sustaining Cargo/container Vessels, MA Design C8-S-60b To Be Accomplished by the Insertion of a 115' Midbody and the Installation of Three-40 Ton Cranes; Intent To Compute Foreign Cost

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of Section 502(b) of the Merchant Marine, 1936, as amended, to compute the estimated foreign cost for the reconstruction of four constellation class vessels, MA Design C4-S-60a, into self sustaining cargo/container vessels, MA Design C8-S-60b, to be accomplished by the insertion of a 115' midbody and the installation of three-40 ton cranes.

Any person, firm or corporation having any interest (within the meaning of Section 502(b)) in such computations may file written statements by the close of business on April 10, 1981, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14 & E Streets, N.W., Washington, D.C. 20230.

Dated: March 11, 1981.

By Order of the Maritime Subsidy Board, Maritime Administration.

Robert J. Patten, Jr.,

Secretary.

[FR Doc. 81-8210 Filed 3-17-81; 8:45 am]

BILLING CODE 3510-15-M

Minority Business Development Agency

Financial Assistance Application Announcement

The Minority Business Development Agency announces that it is seeking applications under its program to operate one project for a 12 month period beginning August 1, 1981 to serve Nassau-Suffolk (New York) SMSA. The Project will operate at a cost not to exceed $121,000. The Project I.D. Number is 02-10-80018-01.

Funding Instrument: It is anticipated that the funding instrument, as defined by the Federal Grant and Cooperative Agreements Act of 1977, will be a grant.

Program Description: The General Business Services Program of the Minority Business Development Agency (MBDA) provides technical assistance without charge to eligible minority business persons and minority-owned firms for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either not for profit or commercial entities). These firms must be capable of providing such services as preparation of business plans, financial analysis, industrial management assistance, personnel management services, marketing planning and a broad range of other business services excluding legal services.

Eligibility Requirements: There are no restrictions. Any profit or non-profit institution is eligible to submit an application.

Application Materials: An application kit for this project may be requested by writing to the following address: U.S. Department of Commerce, Minority Business Development Agency, New York Regional Office, 26 Federal Plaza, Room #36-116, New York, New York 10278.

In requesting an application kit, the applicant must specify its profit status; i.e., State or local government, Federally recognized Indian tribal units,

educational institutions, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Closing Date: Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 16, 1981.

Applications received after that date will not be considered.

Detailed submission procedures are outlined in each application kit.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance) (This program is not subject to the requirements of OMB Circular A-95)

Dated: March 10, 1981.

Ralph Perez,

Acting Regional Director.

[FR Doc. 81-8211 Filed 3-17-81; 8:45 am]

BILLING CODE 3510-21-M

Financial Assistance Application Announcement

The Minority Business Development Agency announces that it is seeking applications under its program to operate two New York Region projects for a 12 month period beginning July 1, 1981. The aggregate total cost of the projects is $330,000.

Funding Instrument: It is anticipated that the funding instruments, as defined by the Federal Grant and Cooperative Agreements Act of 1977, will be grants.

Program Description: The General Business Services Program of the Minority Business Development Agency (MBDA) provides technical assistance without charge to eligible minority business persons and minority-owned firms for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either not-for-profit or commercial entities). These firms must be capable of providing such services as preparation of business plans, financial analysis, industrial management assistance, personnel management services, marketing planning and a broad range of other business services excluding legal services.

Applications are invited for the following two projects:

1. One grant for a management and technical assistance project to operate in New Brunswick, Perth Amboy, Sayreville (New Jersey) SMSA. The project will operate at a cost not to exceed $110,000 for a period of 12 months beginning July 1, 1981. The Project I.D. Number is 02-10-80016-01.

2. One grant for a management and technical assistance project to operate in the Boston, Massachusetts SMSA. The project will operate at a cost not to exceed $220,000 for a period of 12 months beginning July 1, 1981. Half of the money and staff will be devoted to serving appropriate clients in the construction industry. The Project I.D. Number is 01-10-80017-01.

Eligibility Requirements: There are no restrictions. Any profit or non-profit institution is eligible to submit an application.

Application Materials: An application kit for these projects may be requested by writing to the following address: U.S. Department of Commerce, Minority Buisness Development Agency, 26 Federal Plaza, Room #36-116, New York, New York 10278.

In requesting an application kit, the applicant must specify its profit status; i.e., State or local government, Federal recognized Indian tribal units, educational institutions, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Award Process: All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date: Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 9, 1981.

Applications received after that date will not be considered.

Detailed submission procedures are outlined in each application kit.

BILLING CODE 3510-21-M

Financial Assistance Application Announcement

The Minority Business Development Agency announces that it is seeking applications under its program to operate two San Francisco Region projects for a 12 month period. The aggregate total cost of the projects is $1,125,000.

Funding Instrument: It is anticipated that the funding instruments, as defined by the Federal Grants and Cooperative Agreements Act of 1977, will be grants.

Program Descriptions: (1) The General Business Services Program (GBS) of the Minority Business Development Agency (MBDA) provides technical assistance to minority businesspersons and firms for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either profit or non-profit). These firms must be capable of providing such services:

Preparation of business plans
Financial packaging
Industrial management assistance
Personnel management services
Marketing planning
and a broad range of other business services excluding legal services.

Applications are invited for the following project under this program:

One grant for a management and technical assistance project to operate in the Honolulu, Hawaii SMSA consisting of the counties of Honolulu, Hawaii, Kauai, and Maui. The project will operate at a cost not to exceed $522,000 for an initial budget period of 12 months starting August 1, 1981.

The Project I.D. Number is 09-10-80020-01. A pre-application conference for this project will be held on March 25, 1981 at the Prince Kuhio Federal Building, 300 Ala Moana Boulevard, Honolulu, Hawaii, in Room C-270 from 10 a.m. to 1 p.m.

(2) The Construction Services Program of the Minority Business Development Agency (MBDA) provides management and technical assistance to minority businesspersons and firms for the purpose of improving their market position and mangement capability. MBDA offers competitive grants to consulting, construction management, and engineering firms (either profit or non-profit). These firms must be capable of providing such services as:

Preparation of business plans
Overall market strategy
Negotiation joint venture agreements
Construction opportunity identification
Bidding procedures
Job scheduling and control
Resolution of claims
and a broad range of other business services excluding legal services.

Applications are invited for the following project under this program:

One grant for a management and technical assistance project for minority construction contractors to operate in 20 target SMSAs in the States of California, Arizona, Nevada, Oregon, and Washington. The project will operate at a cost not to exceed $803,000 for an initial budget period of 12 months starting

July 1, 1981. The Project I.D. Number is 09-10-80021-01. A pre-application conference for this project will be held on March 24, 1981 at the Federal Building, 450 Golden Gate Avenue, San Francisco, California, in Room 15018 from 10 a.m. to 1 p.m.

Eligibility Requirements: There are no restrictions. Any profit or non-profit institution is eligible to submit an application.

Application Materials: An application kit for these projects may be requested by writing the following address: U.S. Department of Commerce, Minority Business Development Agency, Grants Administration Unit, 450 Golden Gate Avenue, Box 36014, San Francisco, California.

In requesting the application kit, the applicant must specify its profit status; i.e., State or local government, Federally recognized Indian tribal unit, educational institutions, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit. Questions regarding this announcement should be referred to the San Francisco Grants Administration Unit at (41) 556-3090.

Award Process: All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date: Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 23, 1981.

BILLING CODE 3510-21-M

Financial Assistance Application Announcement; Norfolk/Virginia Beach/Portsmouth and Hampton/Newport News SMSA's; Virginia

AGENCY: Department of Commerce, Minority Business Development Agency.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is soliciting applications under its General Business Services Program (GBS) to operate one project for a 12 month period beginning July 1, 1981 in the Norfolk/Virginia Beach/Portsmouth and Hampton/Newport News SMSA's in the State of Virginia. The cost of the project is estimated to be $220,000. The Project No. is 09-10-80004-01.

CLOSING DATE: April 17, 1981.

ADDRESS: Washington Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 1730 K Street, N.W., Suite 420, Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT: Vincent S. Martin, Grant/Cooperative Agreement Specialist, telephone 202/634-7883.

SUPPLEMENTARY INFORMATION:

A. Scope and Purpose of This Announcement

Executive Order 11625 authorizes MBDA to fund projects which will provide technical and management assistance to eligible clients in areas related to the establishment and operation of businesses. The General Business Services Program (GBS) is specifically designed to assist those minority businesses that have the highest potential for success. In order to accomplish this, MBDA offers competitive grants to consulting firms (either non-profit or for profit) which must be capable of providing such services as the preparation of business plans, financial packaging, industrial management assistance, personnel management services, marketing planning, and a broad range of other business services excluding legal services.

B. Eligible Applicants

Educational institutions, state or local governments, federally recognized Indian tribers, and other for-profit and non-profit organizations are eligible to apply for a grant under this announcement.

C. Evaluation Process

All proposals received as a result of this announcement will be evaluated by a MBDA review panel.

D. Evaluation Criteria

The Awarding of MBDA Grants is discretionary. Generally projects are supported in order of merit to the extent permitted by available funds. Evaluation of proposals will employ the following criteria:

1. *Capability of Firm:*

A. Experience in providing management consulting services and other technical assistance to businesses, at the level and of the nature described in the work requirements.

B. Internal resources available to the project (e.g., administrative, technical, capability statement, business references).

2. *Staffing Capability:*

A. Staffing Pattern (who is accountable to whom, for what).

B. Experience of key personnel in providing management consulting services that are at the level and the nature described in the work requirements. (Submit resumes). (Project manager must be designated).

C. Qualification standards for selection of other project staff (what criteria will be used for assignment to this project).

D. Duties of each project position.

3. *Credentials:*

A. Submit examples of work: specimen packages acceptable (Case Histories/Business Plans).

B. Unique abilities or resources of the applicant which provide leverage for clients.

C. Discussion of area knowledge: include demographics, ethnic makeup of minority business, local market condition centers of business influence, etc.

4. *Techniques and Methods Proposed to Implement the Work Requirement (Applicant's Work Plan):*

Proposed procedures: (how, when and where work will be done and by whom), this section should follow the outline of the work requirement and will be part of the award.

5. *Costs: provide explanation of all proposed costs by line item:*

E. Disposition of Proposals.

Notification of awards will be made by the award officer. Organizations whose proposals are unsuccessful will be so advised by the awards officer.

F. Proposal Instructions and Forms.

Questions concerning the preceding information, copies of application forms, and applicable regulations can be obtained at the above address.

Nothing in this solicitation shall be construed as committing MBDA to divide available funds among all qualified applicants.

G. A Pre-Application conference to assist all interested applicants will be held at the following address on Wednesday, March 25, 1981 at 11:00 A.M.:

(Catalog of Federal Domestic Assistance, 11.800 Minority Business Development)

Norfolk Federal Building, 200 Granby Mall, Norfolk, Virginia, 1st Floor Conference Room

Dated: March 12, 1981.

Roy Chavez,

Acting Regional Director.

DEPARTMENT OF DEFENSE

Department of the Army

United States Army Medical Research and Development Advisory Panel, Subcommittee on Laser Bioeffects; Partially Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), announcement is made of the following Subcommittee meeting:

NAME OF COMMITTEE: United States Army Medical Research and Development Advisory Panel Subcommittee on Laser Bioeffects.

DATES OF MEETING: April 7, 1981.

TIME AND PLACE: 0900 hrs, Conference Room AS3102, Letterman Army Institute of Research, Presidio of San Francisco, California.

PROPOSED AGENDA: This meeting will be open to the public on 7 April from 0900 to 0930 hrs to discuss the scientific research program on Laser Bioeffects at Letterman Army Institute of Research. Attendance by the public at open session will be limited to space available.

In accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 0930-1715 for the review, discussion and evaluation of individual programs and projects conducted by the U.S. Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

J. Ryan Neville, Ph.D., Assistant Director, Research Contract Management, Letterman Army Institute of Research, Presidio of San Francisco, CA 94129, (415) 561-4367, will furnish summary minutes, roster of Subcommittee members and substantive program information.

Harry G. Dangerfield, M.D.,

Colonel, MC, Deputy Commander.

BILLING CODE 3710-08-M

Office of the Secretary

Per Diem, Travel and Transportation Allowance Committee; Changes in Per Diem Rates

AGENCY: Per Diem, Travel and Transportation Allowance Committee, DoD.

ACTION: Publication of changes in per diem rates.

SUMMARY: The Per Diem, Travel and Transportation Allowance Committee is publishing Civilian Personnel Per Diem Bulletin Number 101. This bulletin lists changes in per diem rates prescribed for U.S. Government employees for official travel in Alaska, Hawaii, Puerto Rico and possessions of the United States. Bulletin Number 101 is being published in the Federal Register to assure that travelers are paid per diem at the most current rates.

EFFECTIVE DATES: March 10, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Frederick W. Weiser, 325-0330.

SUPPLEMENTARY INFORMATION: This document gives notice of changes in per diem rates prescribed by the Per Diem, Travel and Transportation Allowance Committee for non-foreign areas outside the continental United States. Distribution of Civilian Per Diem Bulletins by mail was discontinued effective June 1, 1979. Per Diem Bulletins published periodically in the Federal Register now constitute the only notification of changes in per diem rates to agencies and establishments outside the Department of Defense.

The text of the Bulletin follows:

Civilian Personnel Per Diem Bulletin Number 101

To the Heads of Executive Departments and Establishments

Subject: Table of Maximum Per Diem Rates in Lieu of Subsistence for United States Government Civilian Officers and Employees for Official Travel in Alaska, Hawaii, the Commonwealth of Puerto Rico and Possessions of the United States

1. This bulletin is issued in accordance with Memorandum for Heads for Executive Departments and Establishments from the Deputy Secretary of Defense August 17, 1966, "Executive Order 11294, August 4, 1966 Delegating Certain Authority of the President to Establish Maximum Per Diem Rates for Government Civilian

Personnel in Travel Status," in which this Committee is directed to exercise the authority of the President (5 U.S.C. 5702(a)(2)) delegated to the Secretary of Defense for Alaska, Hawaii, the Commonwealth of Puerto Rico, the Canal Zone, and possessions of the United States. When appropriate and in accordance with regulations issued by competent authority, lesser rates may be prescribed.

2. The Maximum per diem rates shown in the following table are continued from the preceding Bulletin Number 100 except in the case identified by an asterisk which rates are effective on the date of this Bulletin. The date of this Bulletin shall be the date the last signature is affixed hereto.

3. Each Department or Establishment subject to these rates shall take appropriate action to disseminate the contents of this Bulletin to the appropriate headquarters and field agencies affected thereby.

4. The maximum per diem rates referred to in this Bulletin are:

Locality	Maximum rate
Alaska: [1]	
Adak	$112.00
Anaktuvuk Pass	140.00

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in looseleaf folder.

RETRIEVABILITY:

Filed by directorate.

SAFEGUARDS:

Records are kept in locked office with access available only to authorized personnel.

RETENTION AND DISPOSAL:

Files are active and are kept current. Out-of-date material disposed of periodically.

SYSTEM MANAGER(S) AND ADDRESS:

DASD (Management Systems), Room 3E831, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from:

DASD (MS), Room 3E831, Pentagon, Telephone: 202-695-3424.

RECORD ACCESS PROCEDURES:

Requests from personnel should be addressed to Office of the Assistant Secretary of Defense (Comptroller), ODASD(MS), Room 3E831, Pentagon, Washington, D.C. 20301, including personal identification.

CONTESTING RECORD PROCEDURE:

The Agency's rules for access to records and for contesting contents and appealing initial determination by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Personnel questionnaire responses, individual development plans and OF Form 170.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DCOMP MS03

SYSTEM NAME:

Personnel Records.

SYSTEM LOCATION:

Primary System—Office of the Deputy Assistant Secretary of Defense (Management Systems) (ODASD(MS)), Office of the Assistant Secretary of Defense (Comptroller) (OASD(C)), Pentagon, Washington, D.C. 20301.

Decentralized Segments—Four Management Systems Directorates.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel in ODASD(MS).

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, birthdate, social security number, veterans preference, tenure group, service computation date, retirement, FEGLI, education, previous employment, additional skills and awards, current employment record within MS, grade.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 136.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

Information is used by the DASD(MS), his Principal Assistant, and Directors for personnel administration within the management responsibilities of ODASD(MS).

External users, uses, and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Record card in KARDEX file; paper records in file folder.

RETRIEVABILITY:

Filed alphabetically by last name of personnel.

SAFEGUARDS:

Records are kept in safe files with access available to only authorized personnel.

RETENTION AND DISPOSAL:

Files are active and are kept current to reflect current personnel situation. Out-of-date material is disposed of periodically.

SYSTEM MANAGER(S) AND ADDRESS:

DASD (Management Systems), Room 3E831, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

BILLING CODE 3810-70-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Hillman Oil Co.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on consent order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order.

DATES: Effective date: February 27, 1981. Comments by: April 17, 1981.

ADDRESS: Send comments to: Wayne I. Tucker, Southwest District Manager of Enforcement, U.S. Department of Energy, P.O. Box 35228, Dallas, Texas 75235.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, Southwest District Manager of Enforcement, U.S. Department of Energy, P.O. Box 35228, Dallas, Texas 75235 (phone) 214/767–7745.

SUPPLEMENTARY INFORMATION: On February 27, 1981, the Office of Enforcement of the ERA executed a Consent Order with Hillman Oil Company, of San Antonio, Texas. Under 10 CFR 205.199J9(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, may be made effective upon its execution.

Because the DOE and Hillman, wish to expeditiously resolve this matter as agreed, the DOE has determined that it is in the public interest to make the Consent Order with Hillman, effective as of the date of its execution by the DOE and Hillman.

I. The Consent Order

Hillman, with its home office in San Antonio, Texas, is a firm engaged in the resale of motor gasoline, and was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of sales of motor gasoline the Office of Enforcement, ERA, and Hillman entered into a Consent Order, the significant terms of which are as follows:

1. The period covered by the Consent Order was March 1, 1979 through January 27, 1981, and it included all sales of motor gasoline which was made during that period.

2. By failing to request or obtain ERA approval for base period allocation volumes, Hillman allegedly violated the provisions of 10 CFR Part 211 which requires ERA endorsement of base period volumes for new retail outlets.

3. Hillman has agreed to pay a penalty of $5,000.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Submission of Written Comments

The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments or written notification of a claim to Wayne I. Tucker, Southwest District Manager of Enforcement, U.S. Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this consent Order by writing to the same address or by calling 214/767–7745.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Hillman Oil company Consent Order". We will consider all comments we receive by 4:30 p.m. local time, on April 17, 1981.

You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Tex., on the 9th day of March 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

[FR Doc. 81-8330 Filed 3-17-81; 8:45 am]

BILLING CODE 6450-01-M

McLain Oil Co., Inc.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on consent order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order.

DATES: Effective date: March 5, 1981. Comments by: April 17, 1981.

ADDRESS: Send comments to: Wayne I. Tucker, Southwest District Manager, Department of Energy, Economic Regulatory Administration, P.O. Box 35228, Dallas, Texas 75235.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, Southwest District Manager, Department of Energy, Economic Regulatory Administration, P.O. Box 35228, Dallas, Texas 75235 (phone) 214/767–7745.

SUPPLEMENTARY INFORMATION: On March 5, 1981, the Office of Enforcement of the ERA executed a Consent Order with McLain Oil Company, Incorporated of Lubbock, Texas. Under 10 CFR 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, may be made effective upon its execution.

Because the DOE and McLain Oil Company wish to expeditiously resolve this matter as agreed, the DOE has determined that it is in the public interest to make the Consent Order with McLain Oil Company effective as of the date of its execution by the DOE and McLain Oil Company.

I. The Consent Order

McLain Oil Company, with its home office in Lubbock, Texas, is a firm engaged in the resale of motor gasoline and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of sales of these products, the Office of Enforcement, ERA, and McLain Oil Company entered into a Consent Order, the significant terms of which are as follows:

1. The period covered by the Consent Order was March 1, 1979 through December 31, 1979, and it included all sales of the above mentioned products which were made during that period.

2. McLain Oil Company improperly applied the provisions of 10 CFR Part 211 when determining the proper allocation fractions for its sales of motor gasoline.

3. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments to Wayne I. Tucker, Southwest District Manager, Department of Energy, Economic Regulatory Administration, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to Mary Johnson at the

same address or by calling her at 214/767-7745.

You should identify your comments on the outside of your envelope and on the documents you submit with the designation, "Comments on McLain Oil Company Consent Order." The ERA will consider all comments received by 4:30 p.m. local time, on April 17, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Tex., on the 6th day of March 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

[FR Doc. 81-8329 Filed 3-17-81; 8:45 am]

BILLING CODE 6450-01-M

Rupe Oil Co., Inc.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on consent order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces an action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

DATE: Comments by: April 17, 1981.

ADDRESS: Send comments to Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106. Phone (816) 374-5932.

SUPPLEMENTARY INFORMATION: On February 20, 1981, the Office of Enforcement of the ERA executed a Consent Order with Rupe Oil Company, Inc. of Wichita, Kansas. Under 10 CFR 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution.

I. The Consent Order

Rupe Oil Company, Inc., with its home office located in Wichita, Kansas is a firm engaged in the production and sale of crude oil, and is subject to the Mandatory Petroleum Allocation and Price Regulations at 10 CFR Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Rupe Oil Company the Office of Enforcement, ERA, and Rupe Oil Company entered into a Consent Order, the significant terms of which are as follows:

1. This Consent Order covers the production and sales of crude oil by Rupe Oil Company during the period January 1, 1978 through January 28, 1981.

2. The reason for the overcharges was Rupe Oil Company sold crude oil at prices in excess of the applicable ceiling price, as defined at 10 CFR 212.74(a).

3. It is understood that Rupe Oil Company does not, by entering into the Consent Order, admit that it has violated any regulations of the DOE.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Rupe Oil Company agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of $35,000, plus interest as specified in Terms and Conditions, paragraph 1, of the Consent Order. The refund shall be made in monthly installments and completed within 25 months from the effective date of the Consent Order. Such refund will be made to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have either been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. *Potential Claimant:* Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure of a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order. You should submit your comments or written notification of a claim to Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, ERA Central Enforcement District, U.S. Department of Energy, 324 East 11th Street, Kansas City, Missouri 64106. You may obtain a free copy of the Consent Order by writing to the same address.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Rupe Oil Company Consent Order." We will consider all comments we receive on or before April 17, 1981. You should identify any information or data which is, in your opinion, confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Kansas City, Mo., on the 9th day of March 1981.

William D. Miller,

District Manager, Economic Regulatory Administration.

Concurrence:

David H. Jackson,

Chief Enforcement Counsel, Central Enforcement District.

BILLING CODE 6450-01-M

Varn Petroleum Co.; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to Varn Petroleum Company. This Proposed Remedial Order charges Varn with pricing violations in the amount of $172,345.81 connected with the sale of crude oil and condensate at prices in excess of those permitted by 10 CFR Part 212, subpart D during the time period September 1973 through December 1977 in the State of Texas.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from Wayne I. Tucker, Southwest District Manager, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, or by calling (214) 767-7745. On or before April 2, 1981, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, 2000 M Street, NW., Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Dallas, Texas, on the 10th day of March 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. RP81-43-000]

Pacific Gas Transmission Co.; Change to Exhibit "A" of Executed Service Agreement With Pacific Gas and Electric Co. and Request for Expedited Consideration

March 12, 1981.

Take notice that on March 11, 1981 Pacific Gas Transmission Company tendered for filing a "Notice of Change to Exhibit "A" of Executed Service Agreement with Pacific Gas and Electric Company And Request for Expedited Consideration."

PGT states that it has entered into an agreement with its customer, Pacific Gas and Electric Company to revise Exhibit "A" of the service agreement between the two companies. The proposed "Fourth Revision of Exhibit A" reduces the Daily Contract Quantity from 900 MMcf to 845 MMcf, and the Maximum Daily Demand from 1,066 MMcf to 922 MMcf for the contract years commencing July 1, 1980 through June 30, 1982.

PGT states that the Revision to Exhibit "A" tracks an Amending Agreement, dated March 2, 1981, that PGT has executed with its Canadian supplier of natural gas, Alberta and Southern Gas Co., Ltd. Under that Agreement, Alberta and Southern has agreed to reduce PGT's minimum purchase obligation by fifteen percent for the contract years commencing July 1, 1980 through June 30, 1982. In addition, certain modifications have been made whereby PGT has been provided with extended make-up rights to recover gas purchased but not taken under the take-or-pay provisions of the contract. Furthermore, provision has been made for the recovery of payments for gas paid for but not taken, under specified circumstances. The Amending Agreement has been submitted to the Economic Regulatory Administration.

PGT states that there is considerable benefit to PGandE in terms of reduced take-or-pay liability and additional flexibility in determining the quantity of gas that will be purchased from Canada for the remainder of the contract year if the Fourth Revision to Exhibit "A" is made effective as soon as possible.

PGT advises that copies of its filing have been mailed to its customers and to interested state commissions.

Any person desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before Mar. 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

Office of Energy Research

Biomass Panel; Energy Research Advisory Board; Meeting

Notice is hereby given of the following meeting:

Name: Biomass Panel of the Energy Research Advisory Board (ERAB). ERAB is a Committee constituted under the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770).

Date and Time: April 3, 1981, 8:30 am to 6:00 pm.

Place: Department of Energy, Forrestal Building, Room 4A-104, 1000 Independence Avenue, SW, Washingto, D.C. 20585.

Contact: Eudora M. Taylor, Staff Assistant, Energy Research Advisory Board, Department of Energy, Forrestal Building, MS 3F-032, 1000 Independence Avenue, SW, Washington, D.C. 20585, Telephone: 202/252-8933.

Purpose of the Parent Board: To advise the Department of Energy on the overall research and development conducted in DOE and to provide long-range guidance in these areas to the Department.

Tentative Agenda: Working session to review *draft* Biomass Energy Report.

Publication Participation: The meeting is open to the public. Written statements may be filed with the Panel either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact the Energy Research Advisory Board at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation on the agenda. The Chairperson of the Panel is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Transcripts: Available for public review and copying at the Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C., between 8:00 am and 4:00 pm Monday through Friday, except Federal Holidays.

Issued at Washington, D.C. on March 13, 1981.

Antionette G. Joseph,

Associate Director for Field Operations Management, Office of Energy Research.

[FR Doc. 81-8128 Filed 3-17-81; 8:45 am]

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPP 180579; PH FRL 1781-7]

Arkansas; Issuance of Specific Exemption for Machete and Propanil in Rice Fields

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted a specific exemption to the Arkansas State Plant Board (hereafter referred to as the "Applicant") for use of a tank mixture of Machete and Propanil to control grasses, aquatic weeds, and broadleaf weeds infesting 200,000 acres of dry-seeded rice fields in 41 Arkansas counties. The

specific exemption is issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: The specific exemption expires on August 31, 1981.

FOR FURTHER INFORMATION CONTACT: Jack E. Housenger, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202. (703–557–7123).

SUPPLEMENTARY INFORMATION: According to the Applicant, grasses are very competitive with rice and can reduce rice yields from 25 to 90 percent; the aquatic weed complex can reduce yields from 10 to 25 percent; and broadleaf weeds can reduce grain yields as much as 24 percent. The Applicant claims that currently registered pesticides have limitations resulting in ineffective control. Machete, which contains the active ingredient (a.i.) butachlor, is an unregistered product manufactured by the Monsanto Company. Propanil is currently registered for use on rice and is manufactured by several chemical companies. The Applicant estimates that a total savings of $16 million can be realized from the proposed use of Machete and propanil through more efficient weed control resulting in increased efficacy of other production inputs and the reduced number of herbicide applications needed.

EPA has determined that residues of butachlor and its metabolites should not exceed 0.5 part per million (ppm) in or on rice (rough) and 3.0 ppm in or on rice straw, 0.5 ppm on rice bran and 1.0 on rice hulls from the proposed use. Residues of propanil should not exceed those levels already established from use of the proposed Machete and propanil tank mixture. These levels have been judged to be adequate to protect the public health.

EPA has required consultations with the State Fish and Game Department and the Office of Endangered Species, Fish and Wildlife Service, U.S. Department of the Interior, to safeguard against potential hazards to nontarget organisms and federally designated endangered and threatened species.

After reviewing the applications and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticides named above until August 31, 1981, subject to the following conditions:

1. The Applicant is responsible for ensuring that all provisions of this specific exemption are met. It is also responsible for providing information in accordance with 40 CFR 166.5. This information must be submitted to EPA Headquarters through the EPA Regional Office. Information provided in accordance with paragraph (a) of this section must include the exact location of the places of application. A report summarizing the results of this program, as required in paragraph (d), must be submitted by December 31, 1981.

2. The product Machete 5EC, manufactured by Monsanto Chemical Co., may be applied in a tank mixture with propanil as an early post-emergency application. EPA-registered propanil products, as emulsifiable concentrates containing 3 or 4 pounds a.i. per gallon, which are registered for use on rice, may be used.

3. Machete 5EC must be shipped under the most recently accepted labeling in connection with this product's use under an experimental use permit.

4. Machete 5EC may be applied at a rate of 1.5 to 3.0 quarts of formulation (1.9 to 3.8 pounds a.i.) plus 3.0 to 4.0 pounds a.i. of propanil per acre. Specific dosage rates, dependent on soil type and weed height, are given on the proposed labeling submitted and should be followed.

5. A maximum of 125,000 gallons of Machete 5EC may be applied to 200,000 acres of dry-seeded rice in the 41 counties specified in the application.

6. Applications may be made with aerial equipment using a minimum of 10 gallons of spray mixture per acre.

7. All applications will be made by commercial or private applicators certified in this category of pest control.

8. Precautions will be taken to avoid spray drift to nontarget areas. The pesticide will not be applied when weather conditions favor drift.

9. Crops other than rice may not be planted for 1 year following treatment.

10. Second-crop (stubble crop) rice may not be treated.

11. Phytotoxicity may occur from this use.

12. A fish/wildlife monitoring program must be carried out. The results of this program must be detailed and forwarded to EPA Headquarters as soon as they become available, but no later than December 31, 1981.

13. All applicable directions, restrictions, and precautions on the proposed labeling for Machete 5EC and on the EPA-registered propanil label must be followed.

14. Data gaps for Machete prevent a determination of the potential hazard to nontarget fish and invertebrates including federally designated endangered and threatened species. The available data strongly suggest that the endangered naiad, *Potamilus capux*, would be the federally protected species most likely exposed to this herbicide. The agricultural requirements for frequent flushings as well as the label requirements for rain or flush (irrigation) after treatment would increase the likelihood of Machete contaminating aquatic environments downstream from rice fields. Consultations must be held regarding measures to safeguard against potential hazards to nontarget organisms and federally designated endangered and threatened species with the State Fish and Game Department and the Office of Endangered Species, Fish and Wildlife Service, U.S. Department of the Interior, respectively.

15. Residues of butachlor and its metabolites (calculated as butachlor) resulting from the above application are not expected to exceed 0.5 ppm on rice (rough), 3.0 ppm on rice straw, 0.5 ppm on rice bran, and 1.0 ppm on rice hulls. Residues of propanil are not expected to exceed those levels already established. Commodities with residues not in excess of these levels may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health and Human Services, has been advised of this action.

16. The EPA shall be immediately informed of any adverse effects resulting from the use of the Machete/propanil tank mixture in connection with this exemption.

(Sec. 18, as amended (92 Stat. 819; 7 U.S.C. 136))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Certain Chemicals; Premanufacture Notices

Correction

In FR Doc. 81–5447 appearing on page 12836, in the issue of Wednesday, February 18, 1981 make the following correction:

On page 12838, second column, the thirty-first line from the bottom of the page reading: "Residual monomer—0.25% maximum." should have read "Residual monomer—0.2% maximum.".

BILLING CODE 1505–01–M

[OPP-C301688; PH FRL 1781-8]

Chemper Chemical Co., Inc.; Approval of Application to Conditionally Register a Pesticide Product Containing a New Active Ingredient

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces approval of an application to conditionally register the pesticide product MAKI Rat and Mouse Meal Bait containing the new active ingredient 3-[3-(4-Bromo[1,1'-biphenyl]-4-yl)-3-hydroxy-1-phenylpropyl]-4-hydroxy-2H-1-benzopyran-2-one.

FOR FURTHER INFORMATION CONTACT: William H. Miller, Product Manager (PM) 16, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 1921 Jefferson Davis Highway, Arlington, Virginia 22202, (703-557-7040).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of March 12, 1976 (41 FR 10710) that Chemper Chemical Co., Inc., 60 East 42nd St., New York, NY 10165 had filed an application, EPA File Symbol 7173-RTU, with the EPA to register the pesticide product Maki Technical Rodenticide containing the active ingredient 3-[3-(4-Bromo[1,1'-biphenyl]-4-yl)-3-hydroxy-1-phenylpropyl]-4-hydroxy-2H-1-benzopyran-2-one at 0.005 percent. The application proposes that the rodenticide be used on Norway rats, roof rats, and house mice in homes, industrial buildings, commercial buildings, and inside of transport vehicles (ships, trains, and aircraft).

This application was approved on December 5, 1980. The product has been assigned EPA Registration No. 7173-171. A copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the product manager. The data and other scientific information used to support registration, except for the material specifically protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (92 Stat. 819; 7 U.S.C. 136) will be available for public inspection in accordance with section 3(c)(2) of FIFRA within 30 days after the registration date of December 5, 1980. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), EPA, 401 M St., SW., Washington, DC 20460. Such requests should: (1) identify the product by name and registration number and (2) specify the data or information desired.

(Sec. 3(c), 86 Stat. 972, (7 U.S.C. 136a))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-20-M

FEDERAL COMMUNICATIONS COMMISSION

[BC Docket No. 81-147; File No. BPH-790109AI]

Dorothy Brunson, St. Augustine, Fla., et al., for Construction Permit for a New FM Station; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Dorothy Brunson, St. Augustine, Florida, Req: 105.5 MHz, Channel 288, 3.0 kW, 300 feet, BC Docket No. 81-147, File No. BPH-790109AI; Radio San Augustin, Inc., St. Augustine, Florida, Req: 105.5 MHz, Channel 288, 3.0 kW, 298 feet, BC Docket No. 81-148, File No. BPH-800212AK; and The Feagin Corporation, St. Augustine, Florida, Req: 105.5 MHz, Channel 288, 3.0 kW, 296 feet, BC Docket No. 81-149, File No. BPH-800317AC.

Adopted: February 24, 1981.

Released: March 11, 1981.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned mutually exclusive applications filed by Dorothy Brunson (Brunson), Radio San Augustin, Inc. and the Feagin Corporation.

2. *Brunson.* Analysis of the financial data submitted by Brunson reveals that $41,000 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment down payment	$3,000
Equipment payments with interest	4,500
Land	18,000
Miscellaneous	5,500
Operating Costs (3 mo)	10,000
Total	41,000

Brunson plans to finance construction and operation with $70,434 in new capital. However, Brunson's balance sheet lists only $11,000 in current and liquid assets above current liabilities. A limited financial issue will therefore be specified.

3. Brunson has failed to comply with the requirements of the *Primer on Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650, 21 RR 2d 1507 (1971). From the information before us, it appears that the applicant has failed to include a racial or ethnic breakdown of St. Augustine as required by Question and Answer 9 of the *Primer*, although it appears from the application that St. Augustine and Saint Johns County organizations include a branch of the NAACP and a Hispanic Cultural Club, Circulo Cultural Hispanic. In addition, from the information before us, it appears that the applicant has failed to identify and survey leaders of several significant population groups as required by Question and Answers 10, 13(a) and 16 of the *Primer*. Many of the people surveyed by Brunson, without more information, appear to be merely members as opposed to persons in a leadership position as required by the *Primer*. For example, leaders of organizations or interests for women, minorities, agriculture, charities, consumer services, environment and planning, military, and professions were neglected. Accordingly, a limited ascertainment issue will be specified.

4. *Feagin.* Since no determination has been reached that the antenna proposed by Feagin would not constitute a menace to air navigation, an issue regarding this matter is required and the FAA will be made a party to this proceeding.

4. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purpose of comparison, the areas and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to any of the applicants.

6. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to Dorothy Brunson:

(a) The source and availability of additional funds over and above the $11,000 indicated; and

(b) Whether, in light of the evidence adduced pursuant to (a) above, the applicant is financially qualified.

2. To determine with respect to the efforts of Dorothy Brunson to ascertain the needs of her proposed service area:

(a) Whether the applicant adequately determined the racial, ethnic and minority composition of St. Augustine;

(b) Whether the applicant interviewed leaders of the following groups: women, minorities, agriculture, charities, consumer services, environment and planning, military, and professions.

3. To determine whether there is a reasonable possibility that the tower height and location proposed by the Feagin Corporation would constitute a hazard to air navigation.

4. To determine which of the proposals would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications, if any, should be granted.

8. It is further ordered, That the Federal Aviation Administration is made a party to the proceeding.

9. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to Section 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

10. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594(g) of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Larry D. Eads,

Acting Chief, Broadcast Facilities Division, Broadcast Bureau.

[FR Doc. 81-8294 Filed 3-17-81; 8:45 am]

BILLING CODE 6712-01-M

[BC Docket No. 81-145, File No. BPH-790804AJ, et al.]

Keith Holcombe and Vogel-Moody Corp., Evergreen, Ala., for Construction Permit for a New FM Station; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Keith Holcombe, Evergreen, Alabama, Req: 93.5 MHz, Channel 228A, 3 kw (H&V), 235 feet, BC Docket No. 81-145, File No. BPH-790804AJ; and Vogel-Moody Corporation, Evergreen, Alabama, Req: 93.5 MHz, Channel 228A, 3kW (H&V), 259 feet, BC Docket No. 81-146, File No. BPH-800725AB.

Adopted: February 24, 1981.

Released: March 13, 1981.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned mutually exclusive applications filed by Keith Holcombe (Holcombe) and Vogel-Moody Corporation (Vogel-Moody).

2. *Holcombe.* Analysis of the financial portion of Holcombe's application reveals that he will require $87,556 to construct the proposed facility and operate for three months, itemized as follows:

Equipment	$53,276
Land	20,000
Building	5,505
Miscellaneous	1,500
Operating costs (3 mo.)	7,280
Total	87,556

Holcombe plans to finance construction and operation with the following funds: (i) deferred credit from an equipment supplier in the amount of $53,276, (ii) a $35,000 loan from a bank, of which $28,681 will be available, (iii) $11,000 from existing capital, and (iv) $72,000 in anticipated advertising revenues. Holcombe has not submitted a copy of the deferred credit letter. In addition, the required bank loan letter has not been submitted to document the loan. Next, Holcombe's balance sheet does not segregate current liabilities from long-term liabilities. Therefore, we must assume that all liabilities shown are current. Since these liabilities exceed liquid assets, we find no funds available from this source. Moreover, Holcombe cannot rely on anticipated advertising revenues.

Financial Qualifications Standards for Aural Broadcast Applicants, 69 FCC 2d 407, 43 RR 2d 1101 (1978); *Amber Productions, Inc.,* FCC 79-549, 46 RR 2d 448 (1979). Accordingly, Holcombe has failed to show any money available to meet his proposed costs of $87,556. Therefore, a limited financial issue will be specified.

3. Holcombe has failed to comply with the requirements of the *Primer on Ascertainment of Community Problems by Broadcast Applicants,* 27 FCC 2d 650, 21 RR 2d 1507 (1971). From the information before us, it appears that the applicant has failed to submit a compositional study of Evergreen, Alabama, indicating its economic activities, governmental activities, public service organizations and any other factors or activities that make the particular community distinctive, as required by Question and Answer 9 of the *Primer.* In addition, Holcombe has apparently consulted with no leaders from these groups: charities, consumer services, environment, and labor. Also, it is impossible to determine whether the community leaders survey and the general public survey were performed in accordance with Question and Answer 15 of the *Primer* because the dates of both surveys were not stated. Therefore, a limited ascertainment issue will be specified.

4. Applicants for new broadcast stations are required by § 73.3580 of the Commission's Rules to provide local published notice of the filing of their applications and to report that notice to the Commission. Holcombe published a notice, but it is deficient in that it did not contain the power and antenna height of the proposed station. Therefore, Holcombe will be required to republish the local notice of its application and to file a statement of publication with the presiding Administrative Law Judge.

5. *Vogel-Moody.* Analysis of the funancial data Vogel-Moody submitted indicates that a total of $29,885 will be needed to construct the proposed station and operate it for three months, itemized as follows:

Equipment	$13,300
Miscellaneous	8,325
Operating costs (3 mo)	8,260
Total	29,885

Vogel-Moody plans to finance construction and operation with the following funds: (i) a $30,000 loan from the First Alabama Bank of Conecuh County, of which $28,008 will be available to the applicant, (ii) existing capital of $1,500, and (iii) $500 in profits from Vogel-Moody's Station WBLO(AM). The bank loan letter from the First Alabama Bank fails to comply with paragraph 4(e) of Section III of Form 301 in that it does not specify the interest rate, the terms of repayment, and the collateral or security required.

The balance sheet evidencing items (ii) and (iii) was more than 90 days old on the application tender date, and thus fails to meet the requirements set forth in Paragraph 2(a) of Section III of Form 301. As a result, funds from these sources have not been shown available. Also, the balance sheet shows current liabilities in excess of current and liquid assets. Therefore, Vogel-Moody does not show any money available to meet its proposed costs of $29,665. Accordingly, a limited financial issue will be specified.

6. Vogel-Moody also did not comply fully with the requirements of the ascertainment *Primer*. From the information before us, it appears that the applicant has failed to include in its compositional study of Evergreen, Alabama, its governmental activities, public service organizations, and any other factors or activities that make the particular community distinctive as required by Question and Answer 9 of the *Primer*. Moreover, it is impossible to determine whether the community leaders survey and the general public survey were performed in accordance with Question and Answer 15 of the *Primer* because the dates of the original surveys were not stated. In addition, Vogel-Moody did not state who conducted both surveys as required by Questions and Answers 11(a) and 11(b) of the *Primer*. Accordingly, a limited ascertainment issue will be specified.[1]

7. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purpose of comparison, the areas and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

9. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to Keith Holcombe:

(a) The source and availability of funds to meet its expected costs; and

(b) In light of the evidence adduced pursuant to (a) above, whether the applicant is financially qualified to construct and operate the proposed station.

2. To determine with respect to the efforts of Holcombe to ascertain the needs of its proposed service area:

(a) Whether the applicant adequately determined the composition of its proposed community of license;

(b) Whether the applicant interviewed leaders of charities, consumer services, environment, and labor; and

(c) Whether the applicant has complied with Question and Answer 15 of the *Primer*.

3. To determine with respect to Vogel-Moody:

(a) The source and availability of funds to meet its expected costs; and

(b) In light of the evidence adduced pursuant to (a) above, whether the applicant is financially qualified to construct and operate the proposed station.

4. To determine with respect to the efforts of Vogel-Moody to ascertain the needs of its proposed service area;

(a) Whether the applicant adequately determined the composition of its proposed community of license;

(b) Whether the applicant has complied with Question and Answer 15 of the *Primer*.

(c) Whether the applicant has complied with Questions and Answers 11(a) and 11(b) of the *Primer*.

5. To determine which of the proposals would, on a comparative basis, better serve the public interest.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

10. It is further ordered, That Keith Holcombe shall file a statement with the presiding Administrative Law Judge showing compliance with the public notice requirements of § 73.3580(f) of the Commission's Rules.

11. It is further ordered, That the objection of Keith Holcombe, filed September 8, 1980, is denied.

12. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

13. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594(g) of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

14. It is further ordered, That in the event the application of Vogel-Moody is granted, it is subject to the condition that if the Commission ultimately adopts a rule prohibiting commonly owned AM and FM stations in the same market, Vogel-Moody will divest itself of either its AM station or FM station in accordance with the requirements established in such rulemaking proceeding.

Federal Communications Commission.
6Larry D. Eads,
Acting Chief, Broadcast Facilities Division, Broadcast Bureau.

[FR Doc. 81-8298 Filed 3-17-81; 8:45 am]
BILLING CODE 6712-01-M

[1] On September 8, 1980, Holcombe filed an informal objection against Vogel-Moody, alleging that the public notice was not timely published. Publication on August 28, September 4 and September 11, 1980 of notice of tender of filing of Vogel-Moody's application on July 25, 1980 is in substantial compliance with § 73.3580 of the Commission's Rules. Accordingly, Holcombe's objection will be denied.

[PR Docket No. 81-141, et al.]

Dennis R. Reum; Designating Applications for Consolidated Hearing on Stated Issues

In the matter of revocation of license of Dennis R. Reum, 407 Bob O Link, Bloomingdale, Illinois 60108, PR Docket No. 81-141; Licensee of Station KAGJ-2259 in the Citizens Band Radio Service.

Revocation of License of Dennis R. Reum, 407 Bob O Link, Bloomingdale, Illinois 60108, PR Docket No. 81-142; Licensee of Station KA9AHD in the Amateur Radio Service.

Suspension of License of Dennis R. Reum, 407 Bob O Link, Bloomingdale, Illinois 60108, PR Docket No. 81-143; Amateur Novice Class, Radio Operator Licensee.

Application of Dennis R. Reum, 407 Bob O Link, Bloomingdale, Illinois 60108, PR Docket No. 81-144; for Technician Class Operator License.

Order

Adopted: March 10, 1981.

Issued: March 12, 1981.

The Chief, Private Radio Bureau, has under consideration the license of Dennis R. Reum for Citizens Band radio station KAGJ-2259. Reum's Citizens Band license was granted December 14, 1976, for a five year term. Also under consideration are Reum's Amateur radio station (KA9AHD) and Amateur Novice Class operator licenses, granted on May 23, 1978, for five year terms, as well as Reum's application to upgrade to Technical Class operator, dated December 16, 1980.

1. Information before the Commission indicates that Reum operated radio transmitting equipment on January 17, 1980, on the frequency 27.960 MHz. That frequency was assigned for use by United States Government stations. Reum did not possess a license authorizing the use of that frequency. Thus, the operation was apparently in violation of Section 301 of the Communications Act of 1934, as amended.

2. Further information before the Commission indicates that on January 18, 1980, Commission engineers attempted to inspect Reum's radio station(s) within the residence at Reum's address of record, but that Reum refused to allow an inspection of the station(s) within that residence. Instead, Reum brought out a mobile CB tranceiver, installed it in a truck, and permitted the engineers to inspect that mobile station even though the engineers requested to inspect the station(s) within the residence to which they had electronically traced the violative transmissions on the previous evening. The mobile CB transceiver actually inspected had been modified to operate on frequencies not authorized for use in either the CB or Amateur radio services, but was not capable of operation on the unauthorized frequency which had been monitored the previous evening. Upon questioning as to whether he had other equipment in his residence or held any Commission licenses other than his CB license, Reum replied negatively.

3. The above conduct was the subject of Official Notices of Violation mailed to Reum on February 19, 1980. The conduct described above raises questions as to Reum's qualifications to remain a Commission licensee and precludes the Commission from determining that a grant of his applicant would serve the public interest, convenience and necessity.

4. Section 312(a)(2) of the Communications Act of 1934, as amended, provides that a station license may be revoked for conditions coming to the attention of the Commission which would warrant it in refusing to grant a license on an original application. Section 312(a)(4) of the Act provides that a station license may be revoked

for wilful or repeated violation of any provision of the Act or the Commission's Rules. Section 303(m)(1)(A) of the Act provides that an operator license may be suspended for violations of the Act or of the Commission's Rules. Section 309(e) of the Act requires the Commission to designate an application for hearing where it cannot find that a grant of the application would serve the public interest, convenience, and necessity.

5. Accordingly, it is ordered, that Reum show cause why the licenses for Citizens Band radio station KAGJ-2259 and for Amateur radio station KA9AHD should not be revoked. It is further ordered, That Reum's Amateur Novice Class operator license is suspended for the remainder of the license term. The suspension will commence 30 days after Reum's receipt of this Order.[1]

6. It is further ordered, that Reum's application for a Technician Class operator license is designated for hearing on the issues specified below.

7. It is further ordered, That if Reum wants a hearing on the revocation suspension and/or application matters, he must file a written request for a hearing within 30 days.[1,2] If a hearing is requested, the time, place, and Presiding Judge will be specified by subsequent order.

8. It is further ordered, That if Reum requests a hearing or submits a written statement for consideration on the suspension matter, the suspension will be held in abeyance until the conclusion of the hearing or administrative disposition of the proceeding. If Reum waives his right to a hearing and submits a written statement, the suspension matter will be certified to the Commission for administrative disposition. If Reum waives hearing and does not submit a statement on the suspension matter, he must submit his operator license to the Commission within 30 days to be retained during the suspension period. If Reum waives hearing on a revocation matter, it will be certified to the Commission for administrative disposition pursuant to § 1.92(c) of the Commission's Rules. If Reum does not request a hearing on his application, it will be dismissed for failure to prosecute, pursuant to § 1.221(c) of the Commission's Rules.

9. It is further ordered, That the matters in this proceeding will be resolved upon the following issues:

(a) To determine whether Reum's transmissions on January 17, 1980, were in wilful violation of Section 301 of the Communications Act of 1934, as amended.

(b) To determine whether Reum wilfully violated the following Commission Rules on January 18, 1980: CB Rule 43 (failure to allow complete inspection of Citizens Band station);[3] § 95.641(c)(4) (installation at a CB station of a transmitter equipped to operate on unauthorized frequencies); § 95.641(e) (external transmitter controls capable of causing operation in violation of technical regulations in the Personal Radio Services); § 97.82 (failure to make Amateur operator license available for inspection upon request of an authorized Commission representative); and/or § 97.83 (failure to make Amateur station license available for inspection upon request of an authorized Commission representative).

(c) To determine whether Reum failed to comply with a condition of grant of his Amateur station license by failing to make his station and station records available for inspection upon request of an authorized Commission representative on January 18, 1980.

(d) To determine whether Reum misrepresented facts or was less than candid and/or misleading in his statements to Commission engineers on January 18, 1980 when he denied that he had other equipment in his residence or held any Commission license other than his CB license.

(e) To determine whether Reum has the requisite qualifications to remain a Commission licensee in any radio service.

(f) To determine whether the license of Dennis R. Reum for CB station KAGJ-2259 and for Amateur station KA9AHD should be revoked.

(g) To determine whether the suspension order for Reum's Novice Class Amateur operator license should be affirmed, modified or dismissed.

(h) To determine whether grant of Reum's application would serve the public interest, convenience and necessity.

10. It is further ordered, That, pursuant to § 1.227 of the Commission's Rules, the revocation, suspension and application matters are consolidated for hearing.

11. It is further ordered, That copies of this Order shall be sent by Certified Mail—Return Receipt Requested and by Regular Mail to the licensee at his address of record as shown in the caption.

Chief, Private Radio Bureau.

Raymond A. Kowalski,

Chief, Compliance Division.

[FR Doc. 81-8203 Filed 3-17-81; 8:45 am]

BILLING CODE 6712-01-M

[1] Any contrary provisions of §§ 1.86 and 1.221(c) of the Commission's Rules are waived.

[2] The attached forms should be used to request or waive hearing. They should be mailed to the Federal Communications, Washington, D.C. 20554, in the enclosed envelope, within 20 days.

[3] The CB Rules are contained in § 95.401 of the Commission's Rules.

[BC Docket NO. 81-136; File No. BPCT-790703KG; et al.]

220 Television, Inc., et al.; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of 220 Television, Inc., Des Moines, Iowa, BC Docket No. 81-136, File No. BPCT-790703KG: The Independence Broadcasting Corp., Des Moines, Iowa, Greater Des Moines Vision Corp., Chris Desmond, Arnold Brustin, and Donn B. Conner, A Limited Partnership d/b/a, Greater Des Moines Vision, Ltd., Des Moines, Iowa, Columbia Communications Iowa Inc., Milton J. Brown, *et al.*, A limited Partnership d/b/a, BC Docket No. 81-138, File No. BPCT-791019KF. Columbia Iowa TV, Ltd., Des Moines, Iowa, BC Docket No. 81-139 File No. BPCT-800214KE; For Construction Permit.

Adopted: February 27, 1981.

Released: March 13, 1981.

By the Chief, Broadcast Bureau:

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration: (1) the above-captioned mutually exclusive applications for authority to construct a new commercial television station to operate on Channel 17, Des. Moines, Iowa; (2) an "informal petition to deny" the application of Columbia Iowa TV Ltd., filed June 2, 1980 by the Iowa Farmers Union; (3) an informal objection to that application filed May 27, 1980 by Mr. Philip S. Lehman, Mrs. Evelyn I. Lehman and Ms. Barbara Anderson; and related pleadings.

220 Television, Inc.

2. The financial data submitted by 220 Television, Inc. (220 Television) reveals that at least $1,256,942 will be required to construct and operate the proposed station for three months, estimated as follows:

Equipment down payment	$387,184
Equipment payments with interest, 3 months	186,995
Land to be leased	
Buildings	75,000
Legal fees	10,000
Engineering and installation costs	45,000
Miscellaneous	10,000
Operating costs, 3 months	342,783

Applicant states that it intends to lease the land on which the tower will be built. However, applicant has neither established the cost of leasing the land nor included this expense in its operational costs. Thus, the total cost figure cannot be determined. Accordingly, a limited financial issue

will be specified to determine the land acquisition cost and to establish the total figure for applicant's construction and operation costs.

3. To meet its expenses, 220 Television relies upon a 13 million dollar line of credit from The First National Bank of Chicago. We note that the bank letter makes reference to 220 Television's intent to use $2,500,000 of these funds to finance its proposal to construct a new television station to operate on Channel 12, Omaha, Nebraska.[1] In addition, applicant stated that a substantial portion of these funds (over $9 million) was made available to a sister corporation for debt refinancing purposes. Further, applicant indicated that, at the time its application was filed, the remaining line of credit funds were not immediately available. While applicant explained that, in the interim, the $13 million was secured by readily discountable notes, applicant's balance sheet did not show that the notes were, in fact, readily discountable. To this date, the Commission has received no information clarifying or updating applicant's financial data. It appears, therefore, that over $11.5 million still may be committed for purposes other than the instant proposal, and that the remaining amount may not be sufficient to cover all of applicant's initial costs, which have yet to be determined. See paragraph 2 above. Accordingly, an appropriate financial issue will be specified to determine whether applicant has sufficient funds to meet its initial expenses.

The Independence Broadcasting Corporation

4. The financial proposal submitted by Independence indicates that $1,005,000 will be required to construct and operate the proposed station for three months, estimated as follows:

Equipment, cash purchase	$366,151
Land lease, 3 months	54,000
Buildings	35,000
Legal fees	25,000
Engineering and installation costs	15,000
Miscellaneous	57,349
Operating costs, 3 months	252,500

[1] This application (BPCT-790703KF) was designated for hearing on October 24, 1980, together with six other competing applicants.

To meet these expenditures, Independence relies upon $1,072,967, itemized as follows:

Cash	$11,797
Net bank loan	716,280
New capital, subscription agreements from Messrs. Trout, Goldsberry and Gazzo	345,000

Applicant has shown the availability of the cash on hand and the bank loan. However, an examination of the subscribers' balance sheets reveals that, in all three cases, the current liabilities listed exceed the current and liquid assets shown. Therefore, it appears that the subscribers do not possess sufficient net liquid assets to meet their commitments. In addition, the balance sheets are undated and, therefore, not in compliance with the requirements of FCC Form 301, Section III, page 3, Item 4(b). Consequently, since applicant has shown the availability of only $727,967, a limited financial issue will be specified to determine whether applicant has sufficient funds to meet its proposed costs.

5. The *Primer on Ascertainment of Community Problems by Broadcast Applicants (Primer)*, 27 F.C.C. 2d 650, 666 (1971), requires an applicant to: (1) submit a list of typical and illustrative programs proposed to meet community needs; (2) specify the anticipated time segment, duration and frequency for these programs; and (3) show which programs are responsive to which community problems and needs. See Questions and Answers 29 and 36 of the *Primer*. Applicant has attempted to comply with these requirements by stating that it will broadcast two weekly half-hour programs, films and religious programs to address the major ascertained problems. This general statement does not comply with the *Primer*. Therefore, an appropriate issue will be specified.

Greater Des Moines Vision, Ltd.

6. Analysis of applicant's financial data reveals that $2,135,110 will be required to construct and operate the proposed station for three months, estimated as follows:

Equipment, cash purchase	$1,300,000
Equipment, down payment	364,500
Equipment, payments with interest, 3 months	109,210
Land	8,400
Buildings	40,000
Legal fees	15,000
Engineering and installation costs	20,000
Miscellaneous	20,000
Operating costs, 3 months	247,000

To meet these expenses, applicant relies upon $2,510,000 itemized as follows:

Cash on hand	$5,000
Net bank loan	1,805,000
Partnership capital contributions from Messrs. O'Meara, Riley, Campbell and Knapp	700,000

Applicant has shown the availability of the cash on hand and the bank loan. However, concerning the partnership capital contributions, only Mr. Riley has shown that he possesses sufficient net liquid assets to meet his $17,500 commitment. The same determination cannot be reached concerning the other subscribers, because their balance sheets were not submitted pursuant to the requirements of Form 301, Section III, page 3, Item 4(b). Therefore, since applicant has shown the availability of only $1,827,500, a limited financial issue will be specified to determine whether applicant has sufficient funds to meet its proposed costs.

7. The *Primer, supra*, requires an applicant to: (1) submit a list of typical and illustrative programs proposed to meet community needs; (2) specify the anticipated time segment, duration and frequency for these programs; and (3) show which programs are responsive to which community problems and needs. See Questions and Answers 29 and 36 of the *Primer*. Applicant has attempted to comply with these requirements by submitting two brief examples of its proposed programming and by stating that it will develop its programming as critical needs arise. Applicant's general statement does not comply with the *Primer*. Therefore, an appropriate issue will be specified.

8. Evaluation of applicant's proposal indicates that the coordinates and site elevation figures given do not agree with those filed by the applicant with the Federal Aviation Administration. Because of this ambiguity, it is not possible to determine which technical proposal will be pursued by the applicant. Consequently, we cannot determine whether applicant's proposal will constitute a hazard to air navigation. Accordingly, appropriate issues will be specified to ascertain the exact coordinates and site elevation figures proposed by applicant, and to determine whether applicant's technical proposal will constitute a hazard to air navigation.

Columbia Iowa TV, Ltd.

9. The financial data submitted by Columbia Iowa TV, Ltd. (Columbia) reveals that $2,520,940 will be required to construct and operate the proposed station, estimated as follows:

Equipment, down payment	$994,125
Equipment, payment with interest, 3 months	280,000
Buildings	225,000
Legal fees	75,000
Engineering and installation costs	150,000
Miscellaneous	150,000
Operating costs, 3 months	636,657

To meet these expenses, Columbia relies upon $2,928,000 itemized as follows:

Cash and pre-paid application expenses	$73,302
Net loan from Capital National Bank	2,799,784
Loan from Columbia Communities, Inc.	55,000

10. Analysis of the preceding financial data leads to the following determinations:

(a) The commitment letter from the Capital National Bank states that it would require "a first and prior lien on all assets of the borrower." This condition conflicts with the terms of the installment sale contract between RCA and the applicant, under which RCA would take a prior security interest in the broadcast equipment. Since the Bank's requirement cannot be fulfilled, we cannot conclude that the loan will be available to the applicant.

(b) In reference to the loan from Columbia Communities, Inc., the balance sheet submitted by this party does not segregate cash from marketable securities, nor does it provide data concerning the marketability of those securities. Consequently, it cannot be determined whether this corporation has sufficient net liquid assets to meet its commitment. See Form 301, Section III, page 3, Item 4(b).

In light of these facts, we conclude that Columbia has shown the availability of only $73,302 to finance its proposal. Accordingly, a limited financial issue will be specified.

11. *Informal objections to Columbia's application.* On May 30, 1980, the Iowa Farmers Union (the Union) filed an "informal petition to deny" Columbia's application. Section 309(d)(1) of the Communications Act of 1934, as amended, and § 73.3584 of the Commission's Rules, require that allegations contained in petitions to deny be specific and supported by affidavit. Since that pleading does not comply with this requirement, it cannot be treated as a petition to deny. Therefore, we shall treat the Union's pleading as an informal objection pursuant to § 73.3587.

12. The Union alleges that: (1) applicant has not conducted an adequate survey of community needs; (2) applicant has not supplied an accurate cost estimate in its financial proposal; (3) applicant lacks strong community ties; (4) there is no need for an additional television station in Des Moines; (5) applicant will cause economic harm to area residents; (6) the winter ice which will form on the tower will threaten public safety; and (7) the proposed tower structure would endanger birds.

13. Examination of applicant's survey of community needs reveals that it has substantially complied with the guidelines specified by the *Primer*. Therefore, no ascertainment issue will be specified. Concerning applicant's financial proposal, the Union contends that Columbia did not list land acquisition costs. A question would arise in this regard when an applicant's proposal makes no reference to the cost of acquiring or leasing its studio and transmitter sites. In this case, however, Columbia's cost estimate for the first three months of operation specifically includes the cost of leasing its studio and transmitter site. Therefore, there is no reason to inquire into applicant's land acquisition costs. The Union also asserts that applicant's proposal did not address the cost of litigation involving review of the zoning board's decision to grant a special use permit to the applicant. Examination of applicant's proposal reveals that it has allocated $75,000 for legal fees. We believe that this represents a reasonable assessment of the legal costs. Therefore, although a limited financial issue addressing other matters will be specified against the applicant, that issue will not inquire into land acquisition or legal costs.

14. The Union also avers that applicant lacks strong community ties because 89% of its stock is owned by Columbia Communities Iowa, a Texas corporation. Since the Commission's rules do not prohibit this type of corporate structure, there is no basis to specify an issue against the applicant. We also reject the Union's argument that there is no need for an additional television facility in the area, because it is served by four television stations, 22 radio stations and a cable television company. The Commission has already stated that this type of allegation does not offset the expectation that the needs of a community will be more effectively met through the widened range of program choice resulting from an additional station. *M.R. Lankford Broadcasting Co.*, 5 RR 2d 459, 461 (1965). Diversification of media voices in the community is an important and well established Commission priority.

15. No issue will be specified regarding the alleged potential economic harm to residents in the tower area which will result from land devaluation. Similarly, we conclude that there is no basis to specify an issue addressing any ice hazard the tower might pose. These matters are within the ambit of local health, safety and zoning agencies and not within the Commission's purview. We note that, having considered these issues, the Polk County Board of Adjustment granted a special use zoning permit to the applicant. That permit was conditioned, among other things, upon the submission of an engineering study concerning falling ice. Since there is no indication that Columbia has failed to comply with this condition, no question arises concerning applicant's ability to secure its zoning permit.[2]

16. Finally, the Union contends that the proposed tower structure will endanger birds because it is located in a major flyway. In support of this allegation, the Union submitted excerpts from two publications dated in 1975, dealing with Iowa bird life. These publications do not state, however, that the tower area is a major flyway. The Union also asserts that the U.S. Fish and Wildlife Service has confirmed that bird migration in Iowa occurs in a 100-mile strip in central Iowa, including the Des Moines area. However, the Union has failed to document this assertion through concrete and direct statements from that agency. In light of these facts, we believe that the Union's bare allegations do not compel specification of an environmental issue against the applicant. Further, we note that applicant proposes to locate its tower in an area where three other television stations also have built their towers.[3] To this date, we have no indication that local authorities object to the operation of these stations on environmental grounds. In light of these circumstances, we conclude that there is no basis to specify an environmental issue.

17. On May 21, 1980, Mr. and Mrs. Philip S. Lehman and Ms. Barbara Anderson (objectors) also filed an informal objection against Columbia. Objectors raise several of the same concerns expressed by the Union. In addition, objectors aver that weed control options will be reduced because aerial spraying over the tower area will be restricted. However, objectors have

[2] Three area residents—Philip Lehman, Evelyn I. Lehman and Barbara Anderson—are appealing the Board's action granting the zoning permit. However, the record before us does not contain any indication that the Board rescinded applicant's permit.

[3] These television stations are KDIN–TV, WHO–TV and WOI–TV.

failed to document this allegation and, therefore, no issue will be specified against applicant.

18. In the preceding paragraphs, we have examined the objections raised against Columbia. In every instance, we have determined that there are not sufficient grounds to specify additional issues against this applicant. Accordingly, the informal objections filed by the Iowa Farmers Union and by Philip S. Lehman, *et al.* shall be denied.

Conclusion and order

19. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since these applications are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

20. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to 220 Television, Inc.:

(a) the land acquisition cost and the total cost estimate for construction and operational expenses;

(b) the availability of financial resources to meet the estimated construction and operational costs; and

(c) whether, in light of the evidence adduced pursuant to the foregoing issues, applicant is financially qualified to construct and operate as proposed.

2. To determine, with respect to The Independence Broadcasting Corporation:

(a) whether it has an additional $277,043 available to meet its estimated construction and operational expenses;

(b) whether, in light of the evidence adduced pursuant to the foregoing issue, applicant is financially qualified to construct and operate as proposed;

(c) whether applicant has complied with Questions and Answers 29 and 36 of the *Primer;* and

(d) whether, in light of the evidence adduced pursuant to the foregoing issues, applicant is qualified to be a Commission licensee.

3. To determine, with respect to Greater Des Moines Vision, Ltd:

(a) whether it has an additional $307,610 available to meet its estimated construction and operational costs;

(b) whether, in light of the evidence adduced pursuant to the foregoing issue, applicant is financially qualified to construct and operate as proposed;

(c) whether applicant has complied with Questions and Answers 29 and 36 of the *Primer;*

(d) the coordinates and site elevation figures proposed;

(e) whether, in light of the evidence adduced pursuant to the foregoing issue, applicant's technical proposal will constitute a hazard to air navigation; and

(f) whether, in light of the evidence addued pursuant to the foregoing issues, applicant is qualified to be a Commission licensee.

4. To determine, with respect to Columbia Iowa TV, Ltd.:

(a) whether it has an additional $2,447,638 available to meet its estimated construction and operational expenses;

(b) whether, in light of the evidence adduced pursuant to the foregoing issue, applicant is financially qualified to construct and operate as proposed.

5. To determine which of the proposals would, on a comparative basis, best serve the public interest.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

21. It is further ordered, That the Federal Aviation Administration is made a party respondent in respect to Issues 3(d) and 3(e) above.

22. It is further ordered, That the informal objections filed by the Iowa Farmers Union and by Philip S. Lehman, Evelyn I. Lehman and Barbara Anderson are denied.

23. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

24. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Larry D. Eads,

Acting Chief, Broadcast Facilities Division, Broadcast Bureau.

[FR Doc. 81-8285 Filed 3-17-81; 8:45 am]
BILLING CODE 6712-01-M

[BC Docket No. 81-151, File No. BP-790713AE, et al.]

Tully-Warwick Corp. and Spacetown Communications Corp.; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: March 2, 1981.

Released: March 12, 1981.

In re applications of Tully-Warwick Corporation, Concord, New Hampshire. Req: 1320 kHz, 5 kW, DA, Day, BC Docket No. 81-151, File No. BP-790713AE; Spacetown Communications Corporation, Derry, New Hampshire, Req: 1320 kHz, 5 kW, DA, Day, BC Docket No. 81-152, File No. BP-790725AD; for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned mutually exclusive applications for new AM broadcast stations.

2. *Tully-Warwick Corporation.* Tully-Warwick's proposal would provide prinicipal-city (5 mV/m) service to only about 70 percent of the area and 90 percent of the population of Concord. This falls short of the service required by § 73.24(j) of the Commission's Rules, and the applicant has requested a waiver. An issue will be specified to determine whether such a waiver is warranted.

3. Several principals of this applicant corporation own stock in the licensee of AM stations WGAW, Gardner, Massachusetts, and WSRO, Marlboro, Massachusetts, both of which are located within 100 miles of Concord, New Hampshire. Because technical data on file for these existing stations indicate that there may be overlap of their 0.5 mV/m contours, grant of the Tully-Warwick application may be inconsistent with the regional concentration provision of § 73.35(b) of the Commission's Rules. An appropriate issue will be specified.

4. Since no determination has been reached that the antenna proposed by Tully-Warwick would not constitute a menace to air navigation, an issue regarding this matter is required.

4. *Spacetown Communications Corporation.* Analysis of the financial data Spacetown submitted reveals that $60,525 will be required to construct its

proposed station and operate for three months,[1] itemized as follows:

Equipment down payment	$9,057
Equipment payments	14,429
Real estate rentals during construction period	1,250
Other construction costs	4,500
Operating costs	31,725
Total	60,961

To finance the proposed station, applicant claims existing capital of $2,378 and stock subscriptions of $111,000. The existing capital has been shown to be available, but applicant's documentation of its principals' ability to meet their commitments is deficient. Subscribers who rely on personal assets have not submitted the balance sheets or detailed financial statements required; and the bank loan commitment letters others rely on are vague and, in two cases, expired. A limited financial issue must be specified.

5. Spacetown did not list Scott H. Currier as a principal of the corporation in its local notice of the filing of its application, as required by § 73.3580 of the Commission's Rules. To remedy this deficiency, the applicant will be required to list all its principals, including Currier, in the local notice of the designation of these aplications for hearing required by § 73.3594 of the Rules.

6. *Other matters.* These two proposals, although for different communities, would serve substantial areas in common. Consequently, in addition to an issue to determine pursuant to Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of radio service, a contingent comparative issue will be specified.

7. Except as indicated by the issues specified below, both applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exlusive, they must be designated for hearing in a consolidated proceeding.

9. Accordingly, it is ordered, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether the proposal of Tully-Warwick Corporation would provide coverage of Concord, New Hampshire, as required by § 73.24(j) of the Commission's Rules, and if not, whether circumstances exist which warrant a waiver of that rule.

2. To determine whether grant of the application of Tully-Warwick Corporation would violate § 73.35(b) of the Commission's Rules with respect to regional concentration of control.

3. To determine whether there is a reasonable possibility that the tower height and location proposed by Tully-Warwick Corporation would constitute a hazard to air navigation.

4. To determine with respect to Spacetown Communications Corporation:

a. The source and availability of additional funds over and above the $2,378 indicated; and

b. Whether, in light of the evidence adduced pursuant to (a) above, the applicant is financially qualified.

5. To determine the areas and populations which would receive primary service from each proposal, and the availability of other primary service to such areas and populations.

6. To determine, in light of Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of radio service.

7. To determine, in the event it be concluded that a choice between the applications should not be based solely on considerations relating to Section 307(b), which of the proposals would, on a comparative basis, better serve the public interest.

8. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications, if either, should be granted.

10. It is further ordered, That the Federal Aviation Administration is made a party to the proceeding.

11. It is further ordered, That to avail themselves of the opportunity to be heard and pursuant to § 1.221(c) of the Commission's Rules, the applicants herein shall within 20 days of the mailing of this Order, in person or by attorney, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

12. It is further ordered, That pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, the applicants herein shall give notice of the hearing (including, in the case of Spacetown's notice, a list of its principals) within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Acting Chief, Broadcast Facilities Division.

[FR Doc. 81-8287 Filed 3-17-81; 8:45 am]

BILLING CODE 6712-01-M

[1] Costs may actually be less than this amount, since applicant's financial showing was not revised to reflect its amendment withdrawing proposed nighttime operation.

FEDERAL RESERVE SYSTEM

Gebsco, Inc.; Formation of Bank Holding Company

Gebsco Inc., Cochrane, Wisconsin, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 per cent or more of the voting shares of Cochrane State Bank, Cochrane, Wisconsin. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than April 7, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specificially any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, March 12, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

InterCounty Bancshares, Inc.; Formation of Bank Holding Company

InterCounty Bancshares, Inc., Wilmington, Ohio, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 100 percent, less directors' qualifying shares, of the voting shares of Clinton County National Bank & Trust Company, Wilmington, Ohio. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of

Cleveland. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than April 11, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, March 12, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Irwin Union Corp.; Proposed Acquisition of the Assets of Inland Mortgage Company, Inc.

Irwin Union Corporation, Columbus, Indiana, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire through its newly formed subsidiaries, Irwin Union Mortgage Co., Inc., Columbus, Indiana, and Inland Mortgage Corporation, Columbus, Indiana, the assets of Inland Mortgage Co., Inc., Indianapolis, Indiana.

Applicant states that the proposed subsidiary would engage in mortgage company activities by originating and servicing mortgages, primarily for single family residences. These activities would be performed from offices of Applicant's subsidiary in Columbus, Indianapolis, Merrillville, and Fort Wayne, Indiana, and the geographic areas to be served include Marion, Hamilton, Madison, Hancock, Shelby, Johnson, Morgan, Hendricks, Boone, Lake, Porter, and Allen Counties, all in Indiana.

Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than April 11, 1981.

Board of Governors of the Federal Reserve System, March 12, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

GENERAL ACCOUNTING OFFICE

Regulatory Reports Review; Violation of Federal Reports Act

Notice is hereby given that the Nuclear Regulatory Commmission has amended 10 CFR Part 50 of its regulations by adding a new § 50.48 to require the implementation of Fire Protection Plans. The reporting and recordkeeping requirement contained in § 50.48(a) and 50.48(c)(5) have been imposed without first submitting to and obtaining a clearance from the U.S. General Accounting Office under the Fedeal Reports Act 44 U.S.C. 3512 (1976).

Section 3512(c) of title 44, United States Code, provides in part:

> • • • an independent regulatory agency shall not conduct or sponsor the collection of information upon an identical item from ten or more persons, other than Federal employees, unless, in advance of adoption or revision of any plans or forms to be used in the collection—
>
> (1) the agency submitted to the Comptroller General the plans or forms, together with the copies of pertinent regulations and of other related materials as the Comptroller General has specified, and
>
> (2) the Comptroller General has advised that the information is not presently available to the independent agency from another source within the Federal Government and has determined that the proposed plans or forms are consistent with the provision of this section.• • •

Accordingly, the Commission has no effective clearance of the reporting and recordkeeping requirements contained in §§ 50.48(a) and 50.48(c)(5).

Norman F. Heyl,

Regulatory Reports, Review Officer.

[FR Doc. 81-8214 Filed 3-17-81; 8:45 am]

BILLING CODE 1610-01-M

Regulatory Reports Review; Violation of Federal Reports Act

Notice is hereby given that the Nuclear Regulatory Commission by letter of February 20, 1981, Subject: Fire Protection Rule (45 FR 76602, November 19, 1980)—Generic Letter 81-12, requested additional information on modifications to fire protection plans. The reporting requirements contained in the request have been imposed without first submitting to and obtaining a clearance from the U.S. General Accounting Office under the Federal Reports Act 44 U.S.C. 3512 (1976). Further the statement in the NRC letter, that the request for information was approved by GAO under a blanket clearance number R0071 which expires September 30, 1981, is incorrect and misleading because the request was never submitted to GAO and clearance number R0071 is neither a blanket clearance nor a generic clearance.

Section 3512(c) of title 44, United States Code, provides in part:

> • • • an independent regulatory agency shall not conduct or sponsor the collection of information upon an identical item from ten

or more persons, other than Federal employees, unless, in advance of adoption or revision of any plans or forms to be used in the collection—

(1) the agency submitted to the Comptroller General the plans or forms, together with the copies of pertinent regulations and of other related materials as the Comptroller General has specified, and

(2) the Comptroller General has advised that the information is not presently available to the independent agency from another source within the Federal Government and has determined that the proposed plans or forms are consistent with the provisos of this section." * *

Accordingly, the Commission has no effective clearance of the reporting requirements contained in the Generic Letter 81-12 dated February 20, 1981.

Norman F. Heyl,

Regulatory Reports Review Officer.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-81-641]

Office of the Area Manager, Oklahoma City Area Office; Designation of Officials as Acting Area Manager.

AGENCY: Department of Housing and Urban Development.

ACTION: Designation of line of succession.

SUMMARY: The Area Manager is designating officials who may serve as Acting Area Manager during the absence of, or vacancy in the position of, the Area Manager.

EFFECTIVE DATE: October 16, 1980.

DESIGNATION: Each of the officials appointed to the following position is designated to serve as Acting Area Manager during the absence of, or vacancy in the position of, the Area Manager, with all the powers, functions, and duties redelegated or assigned to the Area Manager: Provided, that no official is authorized to serve as Acting Area Manager unless all preceding officials in this designation are unavailable to act by reason of absence or vacancy in the position:

1. Deputy Area Manager
2. Director, Housing Division
3. Director, Indian Programs Division
4. Area Counsel
5. Director, Community Planning and Development Division

This designation supersedes the published designation effective June 7, 1979.

(Delegation of Authority by the Secretary effective October 1, 1970; 36 FR 3389, February 23, 1971.)

Emil L. Huber, Jr.,

Area Manager, Oklahoma City Area Office, Region VI (Fort Worth).

Thomas J. Armstrong,

Regional Administrator, Region VI (Fort Worth).

BILLING CODE 4210-01-M

Office of Environmental Quality

[Docket No. NI-45]

Battlement and Mesa PUD, Garfield County, Colorado.

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Battlement and Mesa PUD, Garfield County, Colorado. This Notice is required by the Council on Environmental Quality under its rules (40 CFR Part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the Federal Register a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the Federal Register, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., March 11, 1981.

Francis G. Haas,

Deputy Director, Office of Environmental Quality.

Appendix—EIS on Battlement Mesa PUD, Garfield County, Colorado

The HUD Area Office in Denver, Colorado, intends to prepare an EIS on Battlement Mesa PUD, described below, and requests information and comments for consideration in the EIS.

Description: Approximately 7,100 dwelling units (single-family and multi-family) will be constructed in Garfield County, Colorado, southeast of Parachute, Colorado, adjacent to the Colorado River. The developer is Battlement Mesa, Inc., a subsidiary of the Exxon Corporation.

Need: An EIS is required because the total number of dwelling units exceeds a HUD established threshold.

Alternatives Perceived: The alternatives are HUD participation in the development as proposed by the developer, participation in the development provided that HUD required modifications are implemented by the developer, or reject participation in the development.

Scoping: A scoping meeting will not be held. HUD will request input from the appropriate government agencies and service organizations. This notice will also appear in a paper of local circulation in Garfield County, Colorado.

Comments: Comments should be forwarded within 21 days of the publication of this Notice in the Federal Register to: Mr. Carroll F. Goodwin, Area Environmental Clearance Officer, U.S. Department of Housing and Urban Development/Area Office, 1405 Curtis Street, Executive Tower Inn, Denver, Colorado 80202. The commercial telephone number is (303) 327-3102. The FTS number is 327-3102.

Alaska Native Claims Selections

Correction

In FR Doc. 81-4061, on page 11364, in the middle column, the fourth and fifth lines respectively, correct the land descriptions to read as follows:

"Secs. 21 to 28, inclusive, all;
Secs. 33 to 36, inclusive, all."

BILLING CODE 1505-01-M

[AA-6690-A2]

Alaska Native Claims Selection

On December 12, 1975, Pedro Bay Corporation, for the Native village of Pedro Bay, filed selection application AA-6690-A2 under the provisions of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (1976)) (ANCSA), for the surface estate of certain lands in the vicinity of Pedro Bay.

On December 5, Bristol Bay Native Corporation filed regional selection application AA-6097-21 pursuant to Sec. 12(c) of ANCSA for the surface and subsurface estates of certain lands in the Pedro Bay area. The following described lands have been properly selected by Pedro Bay Corporation and Departmental regulation 43 CFR 2651.4(d) states:

> Village corporation selections within sections 11(a)(1) and (a)(3) areas shall be given priority over regional corporation selections for the same lands.

Therefore, regional selection application AA-6097-21 is hereby rejected as to the following described lands:

Seward Meridian, Alaska (Surveyed)

T. 4S., R. 26 W.,
Secs. 13, 14, and 15;
Secs. 22 and 23.
Containing 3,200 acres.

Further action on regional selection application AA-6097-21 as to those lands not rejected herein will take place at a later date.

On November 14, 1978, the State of Alaska filed general purposes grant selection application AA-21631, as amended, pursuant to Sec. 6(b) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 340; 48 U.S.C. Ch. 2, Sec. 6(b)), for certain lands in the Pedro Bay area.

The following described lands have been properly selected by Pedro Bay Corporation. Section 6(b) of the Alaska Statehood Act of July 7, 1958, provides that the State may select *vacant, unappropriated,* and *unreserved* public lands in Alaska. Therefore, the following State selection application is hereby rejected as to the following described lands:

Seward Meridian, Alaska (Surveyed)

State Selection AA-21631

T. 4 S., 26 W.,
Secs. 13, 14, and 15;
Secs. 22 and 23.
Containing 3,200 acres.

Further action on the subject State selection application as to those lands not rejected herein will be taken at a later date. The State selected lands rejected above were not valid selections and will not be charged against the village corporation as State selected lands.

On October 17, 1974, Pedro Bay Corporation, for the Native village of Pedro Bay, filed selection application AA-6690-N pursuant to Sec. 12(a) of ANCSA for the surface estate of certain lands in the vicinity of Pedro Bay. The following described lands have been properly selected by Pedro Bay Corporation both under Secs. 12(a) and 12(b) of ANCSA. By letter of January 5, 1978, Pedro Bay Corporation elected to receive conveyance of these lands pursuant to Sec. 12(b) of ANCSA. Therefore, village selection application AA-6690-N is hereby rejected as to the following described lands:

Seward Meridian, Alaska (Surveyed)

T. 4 S., R. 26 W.,
Secs. 13, 14, and 15;
Secs. 22 and 33.
Containing approximately 3,200 acres.

Further action on village selection application AA-6690-N as to those lands not rejected herein will be taken at a later date.

As to the lands described below, the application submitted by Pedro Bay Corporation, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(b) of ANCSA, aggregating 3,200 acres, is considered proper for acquisition by Pedro Bay Corporation, and is hereby approved for conveyance pursuant to Sec. 14(a) of the Alaska Native Claims Settlement Act:

Seward Meridian, Alaska (Surveyed)

T. 4 S., R. 26 W.,
Secs. 13, 14, and 15;
Secs. 22 and 23.
Containing approximately 3,200 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservation to the United States:

> The subsurface estate therein, and all rights, privileges, immunities and appurtenances, of whatsoever nature, accuring unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f)).

There are no easements to be reserved to the United States pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act.

The grant of lands shall be subject to:

1. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law; and

2. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any,

of the lands hereinabove granted, as are prescribed in said section.

Pedro Bay Corporation has been reallocated 3,415 acres of land pursuant to Sec. 12(b) of the Alaska Native Claims Settlement Act. To date, 3,200 acres of the 12(b) reallocation have been approved for conveyance. The remaining entitlement of 215 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA, conveyance of the subsurface estate of the lands described above shall be granted to the Bristol Bay Native Corporation when conveyance is granted to Pedro Bay Corporation for the surface estate, and shall be subject to the same conditions as the surface conveyance.

There are no inland water bodies within the described lands considered to be navigable.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the Federal Register and once a week, for four (4) consecutive weeks, in the Anchorage Times.

Any party claiming a property interest in land affected by this decision, an agency of the Federal Government, or regional corporation may appeal the decision to the Alaska Native Claims Appeal Board, provided, however, pursuant to Pub. L. 96-487, this decision constitutes the final administrative determination of the Department of the Interior concerning navigability of water bodies.

Appeals should be filed with the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513; and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until April 17, 1981, to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals.

Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the adverse parties to be served are:

State of Alaska, Department of Natural Resources, Division of Research and Development, 323 East Fourth Avenue, Anchorage, Alaska 99501.

Pedro Bay Corporation, Pedro Bay, Alaska 99647.

Bristol Bay Native Corporation, P.O. Box 198, Dillingham, Alaska 99576.

Ann Johnson,

Chief, Branch of Adjudication.

[FR Doc. 81-8234 Filed 3-17-81; 8:45 am]

BILLING CODE 4310-84-M

[AA-6708-A2]

Alaska Native Claims Selection

On December 9, 1975, Ugashik Native Corporation, for the Native village of Ugashik, filed selection application AA-6708-A2 under the provisions of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (1976)) (ANCSA), for the surface estate of certain lands in the vicinity of Ugashik.

On January 5, 1980, in accordance with Title 10, Chapter 05 of the Alaska Business Corporation Act, and as authorized by Pub. L. 94-204 Sec. 30 (89 Stat. 1148), Ugashik Native Corporation and Kokhanok Native Corporation merged into Alaska Peninsula Corporation with Alaska Peninsula Corporation being the surviving corporation.

On December 5, 1975, Bristol Bay Native Corporation filed regional selection application AA-8097-29 pursuant to Sec. 12(c) of ANCSA for the surface and subsurface estates of certain lands in the Ugashik area. The following described lands have been properly selected by Ugashik Native Corporation and Departmental regulation 43 CFR 2651.4(d) states:

> Village corporation selections within sections 11(a)(1) and (a)(3) areas shall be given priority over regional corporation selections for the same lands.

Also, the State of Alaska was granted title to the beds of navigable waters under the provisions of the Submerged Lands Act of May 22, 1953 (67 Stat. 29; 43 U.S.C. 1301). Dog Salmon River has been determined to be navigable, and the bed is no longer under Federal ownership.

Therefore, regional selection application AA-8097-29 is hereby rejected as to the following described lands:

Seward Meridian, Alaska (Unsurveyed)

T. 32 S., R. 48 W.,
Secs. 30 and 31.
Containing approximately 1,277 acres.

Further action on regional selection application AA-8097-29 as to those lands not rejected herein will take place at a later date.

As to the lands described below, the application submitted by Ugashik Native Corporation, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands selected pursuant to Sec. 12(b) of ANCSA, containing approximately 1,077 acres, is considered proper for acquisition by Alaska Peninsula Corporation as successor in interest to Ugashik Native Corporation, and is hereby approved for conveyance pursuant to Sec. 14(a) of the Alaska Native Claims Settlement Act:

Seward Meridian, Alaska (Unsurveyed)

T. 32 S., R. 48 W.,
Secs. 30 and 31, excluding Dog Salmon River.
Containing approximately 1,077 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservation to the United States:

> The subsurface estate therein, and all rights, privileges, immunities and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f)).

There are no easements to be reserved to the United States pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act.

The grant of lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2 Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or

easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law; and

3. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Alaska Peninsula Corporation (for the village of Ugashik) has been reallocated 1,100 acres of land pursuant to Sec. 12(b) of the Alaska Native Claims Settlement Act. To date, approximately 1,077 acres of the 12(b) reallocation have been approved for conveyance. The remaining entitlement of approximately 23 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA, conveyance of the subsurface estate of the lands described above shall be granted to the Bristol Bay Native Corporation when conveyance is granted to Alaska Peninsula Corporation as successor in interest to Ugashik Native Corporation for the surface estate, and shall be subject to the same conditions as the surface conveyance.

The following inland water body within the described lands is considered to be navigable:

The Dog Salom River.

In accordance with Department regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Anchorage Times.

Any party claiming property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Alaska Native Claims Appeal Board, provided, however, pursuant to Public Law 96–487, this decision constitutes the final administrative determination of the Department of the Interior concerning navigability of water bodies.

Appeals should be filed with the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until April 17, 1981 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals.

Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Alaska Peninsula Corporation, Box 334, King Salmon, Alaska 99613.

Bristol Bay Native Corporation, P.O. Box 198, Dillingham, Alaska 99576.

Ann Johnson,

Chief, Branch of Adjudication.

BILLING CODE 4310-84-M

[Coal Lease Application C-29125]

Colorado; Land in La Plata County, Colorado; Public Hearing and Availability of Environmental Assessment

The United States Department of the Interior, Bureau of Land Management, Colorado State Office, Denver, Colorado hereby gives notice that a public hearing will be held April 14, 1981, at 7:00 P.M. in the Blue Spruce Room at the La Plata County Court House, 1060 2nd Ave., Durango, Colorado. Application has been made by National King Coal, Inc. to the United States that it offer for lease certain coal resources in the public lands hereinafter described. The purpose of the hearing is to obtain comments on the Environmental Assessment prepared by the Montrose District Office, January, 1981, including possible impact on the Pine Gulch Flood Plain Area, and on the following items: 1) the method of mining to be employed to obtain maximum economic recovery of the coal; 2) the impact that mining the coal in the proposed leasehold may have on the area, including, but not limited to, impacts on the environment; and 3) methods of determining the fair market value of the coal to be offered. Written requests to testify orally at the April 14, 1981, public hearing should be received at the Montrose District Office, Bureau of Land Management, Highway 550 South, Montrose, Colorado 81401, prior to close of business April 10, 1981. People who indicate they wish to testify when they check in at the hearing room may have an opportunity to testify if time is available after the listed witnesses have been heard.

Both oral and written comments will be received at the public hearing, but speakers will be limited to a maximum of three to five minutes each, depending on the number of persons desiring to comment. The time limitation will be strictly enforced, but the complete text of prepared speeches may be filed with the presiding officer at the hearing whether or not the speaker has been able to finish oral delivery in the allotted minutes. Written comments may also be submitted to the Montrose District Office at the above address prior to close of business April 10, 1981. Substantive comments, whether written or oral, will receive equal consideration prior to any lease offering.

In addition, the public is invited to submit written comments concerning the fair market value of the coal resource to the Bureau of Land Management and the U.S. Geological Survey. Public comments will be utilized in establishing fair market value for the coal resources in the described lands.

Comments should address specific factors related to fair market value including, but not limited to: the quantity and quality of the coal resource, the price that the mined coal would bring in the market place, the cost of producing the coal, the probable timing and rate of production, the interest rate at which anticipated income streams would be discounted, depreciation and other accounting factors, the expected rate of industry return, the value of the surface estate (if private surface), and the mining method or methods which would achieve maximum economic recovery of the coal. Documentation of similar market transactions, including location, terms, and conditions may also be submitted at this time.

These comments will be considered in the final determination of fair market value as determined in accordance with 30 CFR 211.63 and 43 CFR 3422.1–2. Should any information submitted as comments be considered to be proprietary by the commenter, the information should be labeled as such

and stated in the first page of the submission. Comments should be sent to both the State Director, Colorado State Office, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, and to the Deputy Conservation Manager, Conservation Division, (RE), C/R, Geological Survey, Box 25046, Denver Federal Center, Denver, Colorado 80225, to arrive no later than April 20, 1981.

The coal resource to be offered is 835,000 tons of recoverable coal to be mined underground from the Menafee #1 formation in the following described lands located approximately 4½ miles southwest of Hesperus, Colorado:

T. 35 N., R. 11 W., NMPM,
Sec. 32: SW¼.

La Plata County, Colorado containing 160 acres more or less. The estimated coal quality is as follows: B.T.U.—13,500 per ton; sulfur—.7%; FSI—5.0; ash—4.2%; and averages 5.8 foot seams. One of the proposed alternatives set out in the Environmental Assessment would also affect the following-described lands:

T. 35 N., R. 11 W., NMPM,
Sec. 31: N½NE¼SE¼.

La Plata County, Colorado containing 20 acres, more or less.

The draft Environmental Assessment will be available for review at the San Juan Resource Area Office, BLM, Federal Building, 701 Camino Del Rio, Room 104, Durango, Colorado, and at the Montrose District Office. Single copies are available for distribution from the Montrose District Office.

A copy of the Environmental Assessment, the case file and the comments submitted by the public on fair market value, except those portions identified as proprietary by the commenter and meeting exemptions stated in the Freedom of Information Act, will be available for public inspection at the Colorado State Office, Bureau of Land Management at the address set out above.

Alvah Q. Whitledge,

Leader, Montrose Team, Branch of Adjudication.

BILLING CODE 4310-84-M

Federal Land Policy and Management Act of 1976: Land Use and Jurisdiction Issues

AGENCY: Department of the Interior, Bureau of Land Management, California Desert District.

ACTION: Notice of public meetings to obtain information and advice on future management options for public lands in southern California which are located outside the California Desert Conservation Area.

SUMMARY: This notice announces that the Bureau of Land Management (BLM), California Desert District, in cooperation with the Cleveland National Forest, is beginning a study to determine if BLM should: (1) continue to manage public lands outside the California Desert Conservation Area, and (2) prepare an Environmental Impact Statement on the grazing program for such lands. A series of public meetings are scheduled to obtain public input on these issues.

FOR FURTHER INFORMATION, CONTACT: Tom W. Rodda, Realty Specialist, Escondido Project, California Desert District, 1695 Spruce Street, Riverside, CA 92507. Telephone: (714) 787-1677, FTS 796-1677.

SUPPLEMENTARY INFORMATION: In October 1960, a major reorganization of BLM district boundaries established the California Desert District to implement the approved Desert Plan and to manage the 12.5 million acres of public land within the California Desert Conservation Area. The conservation area boundaries were set by Congress in 1976 when the Federal Land Policy and Management Act called for accelerated land use planning and special management emphasis for the desert. There are, however, some 150,000 acres of public land situated between the conservation area boundary and the coastline in western San Diego, Riverside, San Bernardino, and Los Angeles Counties. These parcels are of various sizes, are intermingled with privately owned lands, and many tracts are located adjacent to National Forests and Indian reservations.

About one-third of the 150,000 acres is leased to grazing operators who, for the most part, are not full-time ranchers but derive part of their livelihood from grazing cattle on the public lands. The use of these lands is provided under the settlement of a law suit which stipulates a court approved schedule for completing an Environmental Impact Statement (EIS) on the impacts on grazing. In order to meet the schedule, inventories have to be done in the Western Counties in 1982, and the EIS completed in 1983.

The public lands lie outside of, and generally far removed from, BLM Resource Areas which are the units responsible for management within the California Desert District. Active management programs have been and will continue to be difficult to fund and administer due to higher priority areas in the desert.

These lands are referred to as the Escondido Project, and are the subject of a land use and jurisdiction analysis to identify whether continued management by BLM is justified.

The plan will also address the need for completing an EIS on grazing.

Several public meetings will be held as listed below. The purpose of these meetings is to determine public attitudes and obtain local opinion on issues associated with BLM management and grazing. Several options will be presentd to determine which options and/or combination of options will best serve the public interest. Tentative options include: (1) transferring to other agencies better situated to manage the land; (2) exchanging for State-owned and private lands within the California Desert and National Forests where conflict presently exists between Federal management programs and those responsible for State and private lands; and (3) other forms of transfer and priorities for disposal.

Meeting Schedule

All public meetings will be held from 2:00 pm to 5:00 pm and 7:00 pm to 10:00 pm at the following locations:

April 14, 1981—San Diego, CA, Veterans War Memorial Auditorium, Park Blvd. and Zoo Drive, Balboa Park.

April 15, 1981—Escondido, CA, Escondido High School Cafeteria, 1525 N. Broadway.

April 16, 1981—Riverside, CA, City Council Chambers, 3900 Main Street.

April 20, 1981—Northridge, CA, University Student Union, Northridge Center, Cal State Northridge, 18111 Nordhoff Street.

Richard D. Freel,

Acting District Manager.

BILLING CODE 4310-84-M

Nevada BLM Announces Decisions to Areas Protested in Final Intensive Wilderness Inventory Decisions

The Bureau of Land Management, Nevada State Office, announced a list of protests to final intensive wilderness inventory decisions in the January 23, 1981 **Federal Register** on pages 7459-7460. An analysis of each protest has been conducted, and the results are hereby announced.

The following wilderness study areas were protested, and have undergone a deletion in wilderness study area acreage as a result of the protest decision:

Unit No.	Unit name	Original WSA acres	WSA acres deleted	Final WSA acres
Winnemucca District:				
NV-020-007	High Rock Lake	82,527	1,492	81,035
NV-020-012/CA-020-621/618	Poodle Mountain	127,829	83	127,746
NV-020-014	Fox Mountain Range	72,347	1,781	70,566
NV-020-019	Calico Mountains	65,861	371	65,490
NV-020-200	Selenite Mountain	31,920	1,318	30,602
NV-020-201	Mt. Limbo	24,128	1,670	22,458
NV-020-406	Tobin Range	21,952	1,651	20,301
NV-020-603	South Jackson Mtns	81,708	1,584	80,124
NV-020-606	North Jackson Mtns	25,780	209	25,571
NV-020-627	No. Fork Little Humboldt	81,320	1,822	79,498
NV-020-656	Disaster Peak	18,200	7,513	10,687
Carson City District:				
NV-030-407	Gabbs Valley Range	77,350	1,890	75,440
Ely District:				
NV-040-015	Goshute Canyon	35,100	50	35,050

No other wilderness study areas under protest as announced in the January 23, 1981 **Federal Register** Notice (pp. 7459–7460) have undergone a change. The protests on these areas have ben found to lack merit, and the decisions for them remain as stated in the November 14, 1980 **Federal Register** notice on pages 75594–75597.

No other areas protested as stated in the January 23, 1981 **Federal Register** (pp. 7459–7460) have undergone a change as a result of protest decisions. The intensive inventory decisions for them remain as stated in the November 14, 1980 **Federal Register** notice on pages 75594–75597, as their protests have been found to lack merit.

Any person adversely affected by these decisions may appeal such decisions under the provisions of 43 CFR Part 4. If no appeals are filed within 30 days of the date of this notice, the decisions specified herein will be implemented.

Dated: March 10, 1981.

Roger J. McCormack,

Acting State Director, Nevada.

BILLING CODE 4310-84-M

INTERSTATE COMMERCE COMMISSION

[AB 101(SDM)]

Duluth Missabe and Iron Range Railway Co.; Amended System Diagram Map

Notice is hereby given that, pursuant to the requirements contained in Title 49 of the Code of Federal Regulations, Part 1121.23, that the Duluth Missabe and Iron Range Railway Company has filed with the Commission its amended color-coded system diagram map in docket No. AB 101 (SDM). The Commission on March 9, 1981, received a certificate of publication as required by said regulation which is considered the effective date on which the system diagram map was filed.

Color-coded copies of the map have been served on the Governor of each state in which the railroad operates and the Public Service Commission or similar agency and the State designated agency. Copies of the map may also be requested from the railroad at a nominal charge. The maps also may be examined at the office of the Commission, Section of Dockets, by requesting docket No. AB 101 (SDM)

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-43 (Sub-64F)]

Illinois Central Gulf Railroad Company Abandonment Madison Street Between 19th and 3rd Street, in Springfield, IL; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a Certificate and Decision decided February 20, 1981, a findings, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Oregon Short Line R. Co.—Abandonment Goshen, 360 I.C.C. 91 (1979), the present and future public convenience and necessity permit the abandonment by the Illinois Central Gulf Railroad Company (ICG) of its line of railroad known as the Springfield District extending from railroad milespost 192.10 to milespost 193.39 in Madison Street, between 19th and 3rd Streets, a distance of 1.29 miles, in Springfield, IL. A certificate of public convenience and necessity permitting abandonment is being issued to ICG concurrently with this Notice. The certificate will become effective 30 days after the date of publication of this notice, unless within 15 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(2) It is likely that such proffered assistance would—

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the effectiveness of the certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be effective no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone and effectiveness of such a certificate for such period of time as such as agreement including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8246 Filed 3-17-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to

consolidate, purchase, merge lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications, directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of varified statements within 45 days after the date of notice of filing of the application is published in the Federal Register. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with cerain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority. The duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice or the application of a non-complying applicant shall stand denied.

Dated: March 9, 1981.

By the Commission, Review Board No. 3, members Krock, Joyce, and Dowell.

MC–F–1458F, filed February 23, 1981. GENERAL HIGHWAY EXPRESS, INC. (General) (P.O. Box 179, Sidney, OH 45369)—Merger—MOUNTAIN MOTOR EXPRESS, INC. (Mountain) (P.O. Box 179, Sidney, OH 45369). Representative: John P. McMahon, 100 E. Broad Street, Columbus, OH 43215. General seeks authority for the merger of the operating rights and property of Mountain into General for ownership, management, and operation. Paul B. Long, Sr., who controls General through stock ownership, seeks to continue in control of said rights and property through the transaction. Mountain is authorized to operate as a motor common carrier, over irregular routes, pursuant to authority issued in MC–F–13040, which authorizes the transportation of *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk (except salt), and those requiring special equipment), between Pomeroy, Middleport, and Minersville, OH, on the one hand, and, on the other, points in WV. General holds authority to operate as a motor common carrier pursuant to certificates issued in MC–97841 and sub-numbers thereunder.

Note.—Applicant intends to tack the newly acquired irregular route authority with regular route authority it already has.

MC–F–14579F, filed February 18, 1981. SUWAK TRUCKING COMPANY (Suwak) (1105 Fayette Street, Washington, PA 15301)—Continuance in Control—DISTRIBUTION CARRIER, INC. (Distribution) (23210 Grant Building, Pittsburgh, PA 15219). Representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, PA 15219. Suwak seeks to continue in control of Distribution upon the institution by Distribution of operations, in interstate or foreign commerce, as a motor contract carrier. John Suwak, sole stockholder of Suwak, seeks authoirty to acquire control of said rights through the transaction. Suwak is a common carrier, by motor vehicle, in interstate or foreign commerce, pursuant to certificates issued in MC–111956 and sub-numbers thereunder. By application published October 16, 1980, in MC–152013, Distribution seeks authority to transport *general commodities* (except those of unusual value, household goods as defined by the Commission, and classes A and B explosives), between points in the U.S. under continuing contract(s) with Volkswagen of America, Inc., of Warren, MI.

MC–F–14581, filed February 23, 1981. RINGSBY TRUCK LINES, INC. (Ringsby)—Merger—OVEROAD CONTAINER SERVICE, INC. (Overoad) (both of 3980 Quebec Street, Denver, CO 80207). Representative: Russell R. Sage, Suite 400 Overlook Office Bldg., 6121 Lincolnia Road, P.O. Box 11278, Alexandria, VA 22312. Ringsby seeks authority for the merger of all the interstate operating rights and property of Overoad into Ringsby for ownership, management and operation. J. W. Ringsby, J. V. Ringsby, D. W. Ringsby, and Susan Ringsby Pietrzak, the majority stockholders of Ringsby, seek authority to acquire control of said rights and property through the merger. Overoad's authority to be merged into Ringsby is contained in certificates issued in MC–141628 and sub-numbers thereunder, which authorize the transportation of the following: MC–141628, issued March 23, 1977, and modified by decision served February 13, 1981: *general commodities* (except classes A and B explosives, household goods as defined by the Commission, motor vehicles, and commodities which because of their size and weight require special equipment), between ports of entry located in CA, OR, and WA, on the one hand, and, on the other, points in the United States (including AK, but excluding HI), restricted to the transportation of traffic having a prior or subsequent movement by water; MC–141628 (Sub–No. 2) *container chassis,* between points in CA, OR, and WA, on the one hand, and, on the other, points in the United States (including AK, but excluding HI); and MC–141628 (Sub–No. 3): *games, toys, and children's vehicles,* from the facilities of the ERTL Company, at Dyersville, LA, to points in AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA, and WY.

Notes.—(1) Common control of Ringsby and Overoad was approved by the Commission in MC–FC–75802. (2) Ringsby is a motor common carrier pursuant to certificates issued in MC–52709 and sub-numbers thereunder. (3) Ringsby also seeks authority to merge Overoad's government traffic general commodity authority into Ringsby. In view of the nature of this authority, it is not transferable to the surviving corporation. See *Transportation of Government Traffic*, 131 M.C.C. 845, 863 and 870 (1980).

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8243 Filed 3-17-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service and to comply with the appropriate statutes and Commission regulations. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP5–74

Decided March 6, 1981.

By the Commission, Review Board No. 3, members Krock, Joyce & Dowell.

MC 124078 (Sub-1039), filed January 26, 1981. Applicant: SCHWERMAN TRUCKING CO., 611 South 28th St., Milwaukee, WI 53215. Representative: Richard H. Prevette, P.O. Box 1601, Milwaukee, WI 53201. Transporting, for and on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 146358 (Sub-1), filed January 26, 1981. Applicant: STANTRAN, INC., 9350 Wilshire Blvd., No. 306, Beverly Hills, CA 90212. Representative: Robert J. Walters, 2000 Santa Cruz St., Anaheim, CA 90280. To operate, in interstate or foreign commerce, as a *broker*, of *general commodities*, (except household goods), between points in the U.S.

MC 154278, filed February 6, 1981. Applicant: CHARLES E. DAVIS, d.b.a. DAVIS ENTERPRISE'S, P.O. Box 193, Flora Vista, NM 87415. Representative: Charles E. Davis, 1 Horse "C" Lane, P.O. Box 193, Flora Vista, NM 87415. Transporting *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

MC 154289, filed January 30, 1981. Applicant: NORTON & ELLIS INC., 120 Atlantic St., P.O. Box 3257, Norfolk, VA 23514. Representative: Roland A. Desoteaux, 1233 Glyndon Drive, Virginia Beach, VA 23464. To operate, in interstate or foreign commerce, as a *broker* of *general commodities* (except household goods), between points in the U.S.

MC 154369, filed February 6, 1981. Applicant: ROBERT E. ANDERSON, INC., 24 W. Split Rock Drive, Cherry Hill, NJ 08003. Representative: Robert E. Anderson (same address as applicant). To operate, in interstate or foreign commerce, as a *broker* of *general commodities* (except household goods), between points in the U.S.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each

applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintaines appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in oppposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP2-043

Decided: March 12, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler and Taylor (member Taylor not participating).

MC 117142 (Sub-6), filed December 19, 1980, published in the **Federal Register** issue of February 3, 1981, and republished, as corrected, this issue. Applicant: AMERICAN TRAILER HAUL, INC., 609B South Main St., Woodstock, GA 30188. Representative: Archie B. Culbreth, Suite 202, 2200 Century Parkway, Atlanta, GA 30345. Transporting (1) *trailers*, designed to be drawn by passenger automobiles, and (2) *portable buildings and buildings in sections*, between points in AL, FL, GA, LA, MS, NC, SC, and TN. The purpose of this republication is to correct the commodity description in (2) above.

MC 129413 (Sub-11), filed January 21, 1981, published in the **Federal Register** issue of February 20, 1981, and republished, as corrected, this issue. Applicant: SIOUXLAND EXPRESS, INC., P.O. Box 353, LeMars, IA 51031. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501, 402-475-6761. Transporting *such commodities* as are dealt in or used by manufacturers and distributors of fertilizers, feed ingredients, and agricultural chemicals, between the facilities of Terra Chemcials International, Inc., at points in the U.S., on the one hand, and, on the other, points in the U.S.

MC 150232 (Sub-1), filed November 3, 1980. Applicant: ROY D. LANGER d.b.a. A & R SERVICE CO., 342 Winnebago, Park Forest, IL 60466. Representative: Albert A. Andrin, 180 North La Salle St., Chicago, IL 60601. Transporting *such commodities* as are dealt in or used by manufacturers and distributors of metal products, between points in the U.S., under continuing contract(s) with Vulcan Tube & Metals Co. Inc., of Chicago Heights, IL.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB 29 (Sub-22)F]

Southern Railway Company—Abandonment—Near Walnut Cove and Greensboro in Guilford, Stokes and Forsyth Counties, NC; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a Certificate and Decision decided March 6, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 3, stating that the present and future public convenience and necessity permit the abandonment by the Southern Railway Company of a segment of its line of railroad between milepost CF-41.6 near Walnut Cove, NC, and milepost CF-63.7 near Greensboro, NC, a distance of approximately 22.1 miles in Guilford, Stokes and Forsyth Counties, NC, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.-Abandonment-Goshen*, 360 I.C.C. 92 (1979). A certificate of public convenience and necessity permitting the abandonment was issued to the Southern Railway Company.

Upon receipt by the carrier of an actual offer of financial assistance, the carriers shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. The offer, as filed, shall contain information required pursuant to Section 1131. 38(b)(2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

Volume No. OPI–070

Decided March 10, 1981.

By The Commission, Review Board No. 1, members Parker, Chandler, and Taylor.

WC 1331, filed February 18, 1981. Applicant: RICHARD B. RIVERS d.b.a. RIVERS NAVIGATION COMPANY, 1115 11th Ave., Lewiston, ID 83501. Representative: Richard B. Rivers (same address as applicant), (208) 743–4800. To operate as a *common carrier*, by water, by self-propelled vehicles, in interstate or foreign commerce, transporting *passengers* and *general commodities*, between Lewiston, ID, and Johnson's Bar (on the Snake River approximately 93 miles upstream from Lewiston) serving all points along the Snake River.

MC 8310 (Sub-17), filed February 10, 1981. Applicant: JEFF'S TRUCKING, INC., 221½ N. Madison St., Waupun, WI 53963. Representative: Charles E. Dye, P.O. Box 971, West Bend, WI 53095, (414) 677–2586. Transporting *general commodities* (except classes A and B explosives), between points in IL, IN, IA, MN, MI, ND, SD, and WI.

MC 29910 (Sub-323), filed February 9, 1981. Applicant: ABF FREIGHT SYSTEMS, INC., 301 South Eleventh St., Fort Smith, AR 72901. Representative: Joseph K. Reber (same address as applicant). Transporting *hazardous materials*, between points in Hartford County, CT, Muhlenberg County, KY, and Douglas County, CO, on the one hand, and, on the other, points in the U.S. Condition: To the extent that the certificate in this proceeding authorizes the transportation of classes A and B explosives, it will expire 5 years from the date of issuance.

MC 29980 (Sub-8), filed February 17, 1981. Applicant: GRESHAM TRANSFER, INC., 12006 N.E. Inverness Drive, Portland, OR 97220. Representative: Michael D. Crew, 205 Rivera Plaza, Portland, OR 97201 (503) 255–7900. Transporting *dry bulk commodities*, between points in OR, WA, CA, ID, MT, WY, CO, NV, UT, AZ, and NM.

MC 35320 (Sub-641), filed February 26, 1981. Applicant: T.I.M.E.–DC, INC., 2598 74th St., P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth G. Thomas (same address as applicant). Transporting *general commodities* (except classes A and B explosives), serving points in Cameron and Hidalgo Counties, TX, as off-route points in connection with the applicant's otherwise authorized regular-route operations.

Note.—Applicant intends to tack this authority with its existing regular-route authority.

MC 35320 (Sub-642), filed February 26, 1981. Applicant: T.I.M.E.–DC, INC., 2598 74th St., P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth G. Thomas (same address as applicant). (806) 745–7262. Transporting *general commodities* (except classes A and B explosives), serving points in Hutchinson County, TX, as off-route points in connection with carrier's otherwise authorized regular-route operations.

MC 59241 (Sub-13), filed February 11, 1981. Applicant: JOHN GIBBONS, INC., 1400 Industrial Highway, Eddystone, PA 19013. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K St., N.W., Washington, DC 20005. Transporting *rubber and plastic products*, between points in DE, MD, NJ, PA, OH, VA, and DC.

MC 59720 (Sub-14), filed February 10, 1981. Applicant: KENMORE TRANSPORTATION COMPANY, A Corporation, 22 Eskow Rd., Worcester, MA 01604. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602 (312) 236–5944. Transporting *general commodities* (except classes A and B explosives), between the facilities used by Borden Incorporated at those points in the U.S., in and east of MN, IA, MO, AR, and LA, on the one hand, and, on the other, those points in the U.S. in and east of MN, IA, MO, AR, and LA.

MC 61420 (Sub-4), filed February 9, 1981. Applicant: AIRFREIGHT TRANSPORTATION CORPORATION OF NEW JERSEY, 333 North Henry St., Brooklyn, NY 11222. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934 (201) 435–7140. Transporting *pulp, paper and related products*, between points in the U.S., under continuing contract(s) with Majestic Paper Corporation of New York, NY.

MC 67340 (Sub-13), filed February 11, 1981. Applicant: RESORT BUS LINES, INC., 1010 Nepperhan Ave., Yonkers, NY 10703. Representative: Samuel B. Zinder, 98 Cutter Mill Rd., Great Neck, NY 11021 (516) 482–0881. (1) Transporting *over irregular routes, passengers and their baggage*, in special operations, beginning and ending at points in Fairfield County, CT, Bronx County, NY, and George Washington Bridge Bus Terminal, New York County, NY, and extending to points in Atlantic City, NJ, and (2) *over regular routes*, transporting *passengers and their baggage*, (a) between New Rochelle, NY, and Atlantic City, NJ, from the intersection of Kings Hwy and Main St., New Rochelle, then along Main St. to Pelham Parkway, then along Pelham Parkway to South Fulton Ave. to Mt. Vernon, NY, then along South Fulton Ave. to Prospect Ave., then along Prospect Ave. to Fifth Ave., then along Fifth Ave., to West First St., then along West First St. to Bronx, NY, then along streets within Bronx and New York Counties, NY to the George Washington Bridge, then along Interstate Hwy 80 from the George Washington Bridge to the New Jersey Turnpike, then along the New Jersey Turnpike to the Garden State Parkway, then along the Garden State Parkway to NJ Hwy 30 East, then along NJ Hwy 30 East to Atlantic City, NJ, and return over the same route, serving intermediate points in Westchester County, Bronx County, NY, and the George Washington Bridge Bus Terminal, NY, NY, (b) between Ossining, NY, and Atlantic City, NJ, from South Highland Ave. to Wells Ave., then along Wells Ave. to Warburton Ave., then along Warburton Ave. to Riverdale Ave., to Bronx, NY, then along streets within Bronx and New York Counties, NY to the George Washington Bridge, then along Interstate Hwy 80 from the George

Washington Bridge to the New Jersey Turnpike, then along the New Jersey Turnpike to the Garden State Parkway, then along the Garden State Parkway to NJ Hwy 30 East, then along NJ Hwy 30 East to Atlantic City, and return over the same route, serving intermediate points in Westchester County, Bronx County, NY, and the George Washington Bridge Bus Terminal, NY, NY, (c) between Danbury, CT, and Atlantic City, NJ, from Danbury along Federal Rd. to U.S. Hwy 7, then along U.S. Hwy 7 to Interstate Hwy 84, then along Interstate Hwy 84 to U.S. Hwy 6, then along U.S. Hwy 6 to Railroad Ave. to NY Hwy 22, then along NY Hwy 22 to Interstate Hwy 684, then along Interstate Hwy 684 to NY 22, then along NY Hwy 22 to Interstate Hwy 684, then along Interstate Hwy 684 to Westchester Ave., to Bloomingham Rd., then along Bloomingdale Rd. to Interstate Hwy 287, then along Interstate Hwy 287 to New York State Thruway, then along New York State Thruway to Central Park Ave., then along streets within Bronx and New York Counties, NY to George Washington Bridge, then along Interstate Hwy 80 from George Washington Bridge to the New Jersey Turnpike to Garden State Parkway, then along the Garden State Parkway to NJ Hwy 30 East, then along NJ Hwy 30 East to Atlantic City, and return over the same route, serving intermediate points in Fairfield County, CT, Westchester County and Bronx County, NY, and the George Washington Bridge Bus Terminal, NY, NY, (d) between Norwalk, CT, and Atlantic City, NJ, from Norwalk along East Ave. to Connecticut Turnpike South to Exit 6 to Harvard Ave., then along Harvard Ave., to Connecticut Turnpike to Exit 3 to Steamboat Road, then along Steamboat Road to Connecticut Turnpike to Interstate Hwy 287 to Midland Ave., then along Midland Ave., to Main St., then along Main St., to Boston Post Rd. Meramec, Suite 1400, St. Louis, MO 63105 (314) 727–0777. Transporting *general commodities* (except classes A and B explosives), between points in MO and IL.

MC 145850 (Sub-01), filed February 11, 1981. Applicant: BAYWOOD TRANSPORT, INC., 2611 University Parks Drive, Waco, TX 76706. Representative: Arthur W. Grimes (same address as applicant). Transporting *electrical machinery or equipment*, between points in McLennan County, TX, on the one hand, and, on the other, points in the U.S.

MC 150481 (Sub-1), filed February 10, 1981. Applicant: TOMMY G. DENNIS, d.b.a. T. G. DENNIS TRUCKING, 3600 Schurz Highway, Fallon, NV 89406. Representative: Robert G. Harrison, 4290 James Drive, Carson City, NV 89701 (702) 882–5048. Transporting *food and related products*, between points in NV.

MC 151010 (Sub-1), filed February 10, 1981. Applicant: COASTAL WOOD TREATING, LTD., Fredericton R.R.5, New Brunswick, Canada E3B 4X8. Representative: John E. Hess, P.O. Box 1238, Merrill Center, Bangor, ME 04401 (207) 947–0111. Transporting *lumber and wood products*, between points in the U.S., under continuing contract(s) with County Forest Products, Inc., of Patten, ME, Maritime Wood Preservers, Ltd., of Truro, Nova Scotia, Canada, and Atlantic Pressure Treating, Ltd., of Fredericton, New Brunswick, Canada.

MC 151690 (Sub-1), filed February 19, 1981. Applicant: GARY NEAL PIERCE, d.b.a. RENO-TAHOE TOUR COMPANY, 2503 East Second St., Reno, NV 89502. Representative: Gary Neal Pierce (same address as applicant) (702) 322–6343. Transporting *passengers and their baggage*, in special and charter operations, in vehicles having a seating capacity of not more than fifteen persons, beginning and ending at Carson City and Alpine, NV, and points in Washoe, and Storey Counties, NV, and extending to points in El Dorado and Placer Counties, CA.

MC 152370 (Sub-1), filed February 10, 1981. Applicant: COLOROW TRUCKING, INC., 932 Colorado Ave., Glenwood Springs, CO 81601. Representative: Timothy Robert Ferguson (same address as applicant) (303) 945–0347. Transporting *food and related products*, between points in Tarrant County, TX, on the one hand, and, on the other, points in Garfield and Eagle Counties, CO.

MC 152701 (Sub-2), filed February 26, 1981. Applicant: KRYDER'S, INC., P.O. Box 57, 14512 Leo Rd., Leo, IN 46765. Representative: Jerry P. Carnes (same address as applicant). Transporting *transportation equipment*, between points in the U.S., under continuing contract(s) with The Truck Engineering Company, Inc., of Fort Wayne, IN.

MC 153061 (Sub-1), filed February 10, 1981. Applicant: JAMES A. SCHENKER d.b.a. MERCHANTS DELIVERY SERVICE, 1901 Hawthorne St., Dubuque, IA 52001. Representative: Carl E. Munson, 469 Fischer Bldg., P.O. Box 796, Dubuque, IA 52001 (319) 557–1320. Transporting *general commodities* (except classes A and B explosives), between points in Carroll and Jo Daviess Counties, IL, Dubuque County, IA, and Grant, Iowa and Lafayette Counties, WI.

MC 153980 (Sub-1), filed February 23, 1981. Applicant: MELVIN HAMPTON, d.b.a. HAMPTON TRUCKING, Route 1, Box 145–B, Palmer, TN 37365. Representative: J. L. Fant, P.O. Box 577, Jonesboro, GA 30237 (404) 477–1525. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Gold Kist, Inc., of Atlanta, GA.

MC 153981 (Sub-1), filed February 9, 1981. Applicant: BINGHAM TRUCKING, INC., Route 2, Box 135, Chickasha, OK 73018. Representative: C. L. Phillips, Room 248—Classen Terrace Bldg., 1411 N. Classen, Oklahoma City, OK 73106 (405) 528–3864. Transporting *metal and metal products, and rubber and plastic products,* between points in the U.S., under continuing contract(s) with Sterling Pipe & Supply Co. and Standard Steel Co., both of Oklahoma City, OK.

MC 154261, filed February 17, 1981. Applicant: PASCO PRODUCTS, INC., 2017 King Edward Ave., Cleveland, TN 37311. Representative: M. C. Ellis, c/o Chattanooga Freight Bureau, Inc., 1001 Market St., Chattanooga, TN 37402 (615) 756–3620. Transporting *pulp, paper and related products,* between points in the U.S., under continuing contract(s) with Bowater Southern Paper Company, of Calhoun, TN.

MC 154290, filed February 9, 1981. Applicant: LANCE TRUCKING COMPANY, A Corporation, 1503 FM 1936, Odessa, TX 79766. Representative: Damon R. Capps, 1300 Main St., Suite 1230, Houston, TX 77002 (713) 658–6101. Transporting *mercer commodities, metal and metal products, machinery, and rubber and plastic products,* between points in OK, NM, TX and LA.

MC 154440, filed February 27, 1981. Applicant: PROTECTED SERVICES, INC., P.O. Box 8201, Shawnee Mission, KS 66208. Representative: Arthur J. Cerra, 2100 Charterbank Center, P.O. Box 19251, Kansas City, MO 64141 (816) 241–8544. Transporting *general commodities* (except classes A and B explosives), between Kansas City, MO, on the one hand, and, on the other, points in AR, IA, KS, MO, NE, and OK.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–8241 Filed 3–17–81; 8:45 am]

BILLING CODE 7035–01–M

[Ex Parte No. 387 (Sub-No. 12)]

Atchison, Topeka and Santa Fe Railway Co.; Exemption for Contract Tariff

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). The previously filed contract tariff will become effective March 12, 1981. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275–7656.

SUPPLEMENTARY INFORMATION: The Atchison, Topeka and Santa Fe Railway Company ("Santa Fe"), filed a petition requesting that a contract filed February 27, 1981, be made effective on one day's notice. Santa Fe and Chrysler Corporation ("Chrysler") have entered into a contract dated February 24, 1981 governing the transportation of set-up motor vehicles and vehicle parts shipments. The contract requires Chrysler to tender a minimum of 900 carload shipments for movement via Santa Fe. In return, Santa Fe is required to reduce its rates five percent on all shipments tendered under the contract. The contract has a term of ninety days. The purpose of the contract is to assist Chrysler in its effort to return to profitability and arrange for continued financing.

Under 49 U.S.C. 10713(e), contracts must be filed to become effective on not less than 30 nor more than 60 days notice. There is no provision for waiving this requirement. Cf. former section 10762(d)(1). However, we may address the same relief under our section 10505 exemption authority and we do so here. This is identical to actions taken to reduce the notice period in Ex Parte No. 387 (Sub-No. 1), *Southern Railway Exemption for Contract Tariff ICC–SOU–C–001,* served December 30, 1980 [46 FR 1358, January 6, 1981], Ex Parte No. 387 (Sub-No. 2), *Seaboard Coast Line Railway Company and Atchison Topeka and Santa Fe Railway Company Exemptions for Contract Tariffs,* served January 9, 1981 [46 FR 3664, January 15, 1981], and Ex Parte No. 387 (Sub-No. 5), *Consolidated Rail Corporation Exemption for Contract Tariff ICC–CR–C–0008,* served February 11, 1981 [46 FR 13048, February 19, 1981].

The carrier does not indicate whether protests are expected. However, we note that the Ex Parte No. 387 (Sub-Nos. 1, 2 and 5) exemption orders also cover special arrangements with automobile manufacturers. This proposal should enhance carrier service by encouraging efficient movement and should not impair the carrier obligation to provide service to other shippers. An earlier effective date is necessary to assist Chrysler in its financing arrangements.

Santa Fe has already indicated in its petition a willingness to be bound by the following conditions which have been imposed in similar exemption proceedings

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it during the periods specified in 49 U.S.C. 10713.

Thus, subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30-day notice requirement in this instance is not needed to protect shippers from abuse of market power. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed within 15 days of publication in the Federal Register.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Decided: March 11, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–8240 Filed 3–17–81; 8:45 am]

BILLING CODE 7035–01–M

[Finance Docket No. 29556]

Burlington Northern, Inc.; Exemption

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Exemption.

SUMMARY: The Interstate Commerce Commission exempts the Burlington Northern, Inc. (BN) from (1) the requirement that it receive approval under 49 U.S.C. 10901 and 49 U.S.C. 11343 prior to performing operations over a segment of Missouri Pacific Railroad Company (Mo Pac) trackage between Tulsa, and Muskogee, OK; and (2) the requirement that BN receive approval under 49 U.S.C. 10903 to abandon its trackage rights over Mo Pac tracks between Henryetta and Muskogee, OK.

DATES: The exemption in (1) above is effective on March 18, 1981 and remains effective indefinitely thereafter unless revoked by the Commission. The exemption in (2) above is effective only after BN institutes service over the MP

trackage between Tulsa and Muskogee, OK. Petitions for reconsideration of this decision must be filed on or before April 7, 1981.

ADDRESSES: Send petitions for reconsideration to: (1) Section of Finance, Room 5414, Interstate Commerce Commission, 12th Street & Constitution Ave., NW., Washington, D.C. 20423; and (2) Petitioner's representatives: Eric A. Cunningham, Jr., Donald E. Ransom, Attorneys for Burlington Northern, Inc., 906 Olive Street, Suite 1023, St. Louis, MO 63101.

Pleasings should refer to Finance Docket No. 29556.

FOR FURTHER INFORMATION CONTACT: Ellen D. Hanson (202) 275–7245 or Ernest B. Abbott (202) 275–3002.

SUPPLEMENTARY INFORMATION:

Background

The St. Louis-San Francisco Railway Company (Frisco), predecessor in interest to Burlington Northern, Inc. (BN), acquired trackage rights during 1971 over the tracks of the Missouri Pacific Railroad Company (Mo Pac) between Henryetta and Muskogee, OK, a distance of 39.7 miles. The purpose of the trackage rights agreement was to enable Frisco, and thereafter BN, to serve shippers at Muskogee, OK; neither Frisco or BN has provided service to shippers located between Henryetta and Muskogee, OK.

Since inception of the trackage rights agreement, a paper mill was built at Muskogee, OK, resulting in a significant increase in rail traffic. However, the paper mill traffic is usually destined northbound and far exceeds total southbound traffic from Muskogee, OK. The present method of moving the northbound traffic is to move it soutwest the Henryetta, OK and then north, over BN track, to Tulsa, OK, where the traffic is "blocked" for northern destinations over BN. This partial "reverse" movement totals 98.7 miles. Moreover, the increased traffic over the Muskogee-Henryetta line has disrupted traffic over the Muskogee-Henryetta line and caused congestion at Muskogee.

To alleviate the operational problems resulting from this change in traffic patterns, BN proposes to move its northbound traffic from Muskogee over a Mo Pac line extending directly northwest to Tulsa, a distance of 51.76 miles, or approximately half the present routing distance. As in the case of the existing trackage rights arrangement, only Muskogee shippers will be served by BN. Mo Pac concurs in BN's proposal.

Once this change in routing is accomplished, BN sees no need to continue operations via trackage rights over Mo Pac's Muskogee-Henryetta line.

Discussion and Conclusions

A rail carrier may operate over the line of another railroad only if it has a service order to do so or has been granted a certificate under 49 U.S.C. 10901. Moreover, a rail carrier may acquire trackage rights over a line owned or operated by another rail carrier only with the approval of the Commission under 49 U.S.C. 11343. Abandonment of operations by a rail carrier over the lines of another carrier requires Commission authorization under 49 U.S.C. 10903.

However, Congress has given us authority under 49 U.S.C. 10505, as amended by section 213 of the Staggers Rail Act of 1980 (Pub. L. 96–448, October 14, 1980), to exempt certain rail matters as a means of eliminating burdensome regulation of rail carriers. That section directs us to exempt a transaction from the application of any provision of the Interstate Commerce Act when we find that (1) continued regulation is not necessary to carry out the Rail Transportation Policy in 49 U.S.C. 10101a; and (2) either (A) the transaction is of limited scope, or (B) regulation is not necessary to protect shippers from the abuse of market power.

We believe BN's proposal satisfies the criteria of section 10505. Exempting BN from the requirements of 49 U.S.C. 10901 and 49 U.S.C. 11343 will merely maintain BN's ability to serve shippers in Muskogee. Our approval of the proposed trackage rights agreement is not necessary to carry out any of the 15 factors listed in the rail transportation policy of section 10101a. The agreement will not have any effect on competition among rail carriers, and it will clearly improve efficiency. An exemption will reduce regulatory barriers to entry and exit from the industry (factor 7). Factor 15, providing for the encouragement and promotion of energy conservation, will similarly be met by a reduction in the number of train-miles, with resulting fuel savings.

Assuming that BN's shippers at Muskogee receive service—and better, more efficient service—the abandonment proposal is also consistent with the rail transportation policy. To require BN to operate between Muskogee and Henryetta in light of the new trackage rights arrangement would result in inefficient operations, and BN's unnecessary train movements over the line would waste fuel. However, if we were immediately to exempt BN's proposed abandonment of Henryetta-Muskogee service, BN would have no common carrier obligation to provide any service to Muskogee shippers until it institutes operations on MP's Henryetta-Tulsa line.[1] Moreover, our exemption to *permit* BN to operate from Muskogee to Tulsa does not *require* BN to provide this service. BN's current common carrier obligation to serve Muskogee exists only on the Muskogee-Henryetta route. BN's petition does not contain facts sufficient to support removal of its common carrier obligation in Muskogee. Accordingly, the exemption from section 10903 (requiring BN to obtain Commission approval prior to abandoning its Muskogee-Henryetta trackage rights) shall be effective only after BN institutes service as a common carrier to Muskogee shippers over the Muskogee-Tulsa line.

The transportation, including the proposed abandonment, is of limited scope because (1) it is a minor change for operating efficiency, (2) it involves relatively small amount of track located in one State and in a generally rural area, and (3) it should have no impact on any railroad employees or the operations of any other rail carrier.

Having concluded that the transaction is of limited scope, we need not determine whether prior approval of rail operations and abandonment is necessary to protect shippers from the abuse of market power. We note, however, that no shippers will lose service or be adversely affected. Indeed, our failure to grant the exemption would result in a continuation of inefficient rail operation and could be detrimental to their business operations through, *e.g.*, late deliveries.

To avoid continuation of inefficient rail operations and to reduce congestion on the Muskogee-Henryetta line, the exemption form § 11343(a) for trackage rights over the Henryetta-Tulsa line will become effective immediately.

Section 10505 enables us to revoke an exemption if we find the exempted provision necessary to carry out the rail transportation policy. We have found otherwise on the facts currently available to us. However, we will permit interested parties to file petitions for reconsideration alleging that grant of the exemption harms our ability to carry out the rail transportation policy. Petitions for reconsideration must be filed on or before April 7, 1981.

---

[1] After BN begins operations on the Henryetta-Tulsa line, even when conducted under exemption, it is "providing transportation subject to the jurisdiction of the Interstate Commerce Commission" and, under 49 U.S.C. 10903(a), BN cannot discontinue or abandon this service absent a certificate of abandonment (or exemption) issued by the Commission.

Labor Protection

On January 21, 1981, the Railway Labor Executives' Association (RLEA) filed an opposition to the exemption petition, if labor protection conditions are not imposed. In granting this exemption, we may not relieve a carrier of its obligation to protect the interests of employees. 49 U.S.C. 10505(g)(1). Approval of a trackage rights agreement under section 11343 must include the employee protective conditons set forth in *Norfolk and Western Ry. Co.-Trackage Rights-BN*, 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.-Lease and Operate*, 360 I.C.C. 653 (1980). These conditions are here imposed as a condition to BN's exercise of the trackage rights exemption. The abandonment exemption similarly requires imposition of labor protective conditions. 49 U.S.C. 10903(b)(2). The appropriate level of protection is found in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 90 (1979). These conditions are here imposed as a condition to BN's exercise of the abandonment exemption.

We find:

(1) Application of the requirements of 49 U.S.C. 10901, 11343 and 10903, that BN receive prior authority to operate over the Mo Pac rail line between Tulsa and Muskogee, OK, and to abandon operations over the Mo Pac rail line between Muskogee and Henryetta, OK, is not necessary to carry out the rail transportation policy of 49 U.S.C. 10101a.

(2) This transaction is of limited scope.

(3) This decision will not operate to relieve BN from an obligation either (a) to provide contractural terms for liability and claims which are consistent with 49 U.S.C. 11707, or (b) to protect the interest of its employees.

(4) This decision will not significantly affect energy consumption or the quality of the human environment.

It is ordered:

(1) Pursuant to 49 U.S.C. 10505 we exempt the operation by BN over the Mo Pac rail line, between Muskogee and Tulsa, OK from 49 U.S.C. 10901 and 49 U.S.C. 11343, subject to the employee protective conditions imposed in *Norfolk & Western Ry. Co.-Trackage Rights-BN*, 354 I.C.C. 650 (1978), as modified by *Mendocino Coast Ry., Inc.-Lease and Operate*, 360 I.C.C. 653 (1980).

(2) Pursuant to 49 U.S.C. 10505, we exempt the abandonment of operations by BN over the Mo Pac line between Muskogee and Henryetta, OK, from the requirements of 49 U.S.C. 10903, subject to the employee protective conditions imposed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 90 (1979). This exemption will become effective only after BN has provided, over the Muskogee-Tulsa line, transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of Title 49, United States Code.

(3) These exemptions will continue indefinitely unless revoked by further action of the Commission.

(4) Notice of our action shall be given to the general public by delivery of the copy of this decision to the Director, Federal Register, for publication.

(5) This decision shall be effective immediately.

(6) Petitions to reopen this proceeding for reconsideration must be filed no later than 20 days after the date of this publication.

Decided: March 10, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Finance Docket No. 29489]

Consolidated Rail Corp., Control and Lease, Detroit Terminal Co.; Exemption

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Interstate Commerce Commission exempts from the requirements of its prior approval under 49 U.S.C. 11343 the sole control by Consolidated Rail Corporation (Conrail) of Detroit Terminal Railroad Company (DTRC) and the lease by Conrail of all DTRC properties for continued operations.

DATES: The exemption will be effective April 17, 1981. Petitions for reconsideration of this action must be filed on or before April 7, 1981.

ADDRESS: Send pleadings to:

(1) Interstate Commerce Commission, Section of Finance, Room 5414, 12th & Constitution Ave., NW., Washington, DC 20423; and

(2) Petitioner's representative: Charles E. Mechem, Consolidated Rail Corporation, 1138 Six Penn Center Plaza, Philadelphia, PA 19104.

FOR FURTHER INFORMATION CONTACT: Ellen D. Hanson, (202) 275-7245.

SUPPLEMENTARY INFORMATION: Conrail filed a petition under 49 U.S.C. 10505 on September 15, 1980, to exempt its proposed acquisition of control and lease of DTRC from the provisions of 49 U.S.C. 11343 or in the alternative, for a waiver of certain of the requirements of 49 CFR Part 1111 relating to the acquisition of control and lease.

Section 10505 (as amended by the Staggers Act of 1980, Pub. L. No. 96-448 (October 14, 1980) allows the Commission to exempt a transaction if it finds that (1) regulation is not necessary to carry out the transportation policy of section 10101a; and (2) the transaction is either of limited scope, or regulation is not needed to protect shippers from the abuse of market power.

Proposed Transaction

DTRC owns 16.1 miles of belt line in Detroit, MI. It has direct track connections with Conrail, Grand Trunk Western Railroad (GTW), the Norfolk and Western Railway Company, the Chesapeake and Ohio Railway Company, and the Detroit, Toledo and Ironton Railroad Co. Conrail and GTW each own 50 percent of DTRC's stock. DTRC maintains its own engines and crews to provide switching service for these railroads.

Conrail and GTW are are successors to a 1906 operating agreement which provides, among other things, that in any year during which DTRC incurs an operating deficit, the deficit shall be offset by the owning companies in proportion to the number of cars handled for each during that year. DTRC has sustained large deficits the last several years. For those loaded cars handled in 1979 for Conrail and GTW, 89 percent were Conrail cars. Under the 1906 Agreement, Conrail had to pay 89 percent ($804,214) of DTRC's deficit in 1979.

Conrail and GTW propose to terminate the 1906 agreement, and have DTRC acquire GTW's 50 percent stock interest for $1. The stock will be cancelled by DTRC which will then become a wholly-owned subsidiary of Conrail. Conrail will lease all of DTRC's properties at a rental equal to the yearly deductions for the depreciation or amortization of the leased properties.

The Statute

Rail Transportation Policy

Regulation of the proposed transaction by Conrail is not necessary to carry out the goals of section 10101a. Conrail would become complete owner of a small and unprofitable company that is badly in need of restructuring in order to help it out of financial difficulties. The transaction will not affect the considerations of the rail transportation policy, since elimination

of an unequal partner, which does not share a significant burden in making up DTRC's large deficits, will be the only change resulting from the transaction. As a 100 percent owner of DTRC, Conrail would have more incentive to make needed improvements in DTRC's operations than it would have as a half/owner. for example, Conrail plans to invest $150,000 to construct a new connection to facilitate the traffic flow between Conrail and DTRC.

Limited Scope

Conrail wants sole control of a company in which it is already investing substantial sums of money. DTRC's total deficit has risen from $233,593 in 1977 to $887,151 in 1979. Its large and continuing deficits represent a financial burden on both of its owners, but a substantial amount of that burden falls on Conrail. Conrail has far more at stake in the financial and operating performance of DTRC than its equal partner GTW. The transaction proposed by Conrail is a minor refinement in corporate structure.

Since DTRC already handles a substantial amount of Conrail's traffic in the Detroit area, and Conrail is providing the funds to keep DTRC afloat, approval of the transaction will result in very little substantive change of DTRC's operations.

The transaction is also of minor geographic significance since DTRC owns only 16.1 miles of track. It will not affect the competitors of Conrail or DTRC. The purpose of this transaction is to consolidate traffic, equipment and operation of the two companies in order to permit a more efficient and expeditious operation. DTRC will continue to provide the same services to the other connecting railroads, with no change in the traffic volumes, markets, or customers of Conrail or GTW. No change in rail competition will result from this transaction.

Because it will be subject to employee protection, the transaction will have a limited effect on the employees of DTRC. DTRC has approximately 187 employees, including officers and supervisors. In its petition, Conrail estimates 42 positions with total salaries of $1,172,174 will be eliminated. Conrail has indicated, however, that it will protect affected employees by offering some of those employees positions elsewhere in the Conrail system, and providing protection in accordance with the requirements established in *New York Dock Ry.—Control—Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979).

We conclude that the proposed transaction is of limited scope. Having found it to be of limited scope, it is not necessary for us to consider whether our regulation is needed to protect shippers from the abuse of market power. However, Conrail did explain the transaction to the shippers served by DTRC, and none expressed opposition or objection.

Prior Criteria. In addition to meeting the criteria of section 10505, as amended by the Staggers Act, this proposal also meets the criteria of former section 10505. We have already determined that the transaction is of limited scope. Furthermore, the discussion relating to 49 U.S.C. 10101a also applies to the National Transportation Policy of 449 U.S.C. 10101. Because of the transaction's limited scope, the lack of impact on the transportation policy, and the resources required to prepare and review an application under 49 U.S.C. 11343–11344, our review of the transaction would place an unreasonable burden on petitioner and would serve little or no useful public purpose.

We conclude that exemption of the transaction between Conrail, DTRC, and GTW from 49 U.S.C. 11343 meets the statutory requirements of section 10505. This transaction is the type which Congress intended the Commission to exempt in enacting section 10505. The power to exempt from regulation enables the Commission and the railroads to commit their limited resources in areas where they are most needed by allowing the Commission to effectively deregulate those areas which have no significant bearing on the overall regulatory scheme.

Since we will exempt the transaction, there is no need to discuss the issue of waiver.

We find:

(1) The application of the requirements of 49 U.S.C. 11343 to Conrail's acquisition of control and lease of DTRC is not necessary to carry out the transportation policy of 49 U.S.C. 10101a; and the transaction is of limited scope.

(2) This decision will not operate to relieve any rail carrier from an obligation either (a) to provide contractual terms for liability and claims which are consistent with 49 U.S.C. 11707 or (b) to protect the interests of employees as required by 49 U.S.C., Subtitle IV.

(3) This decision is not a major Federal action significantly affecting energy consumption or the quality of the human environment.

It is ordered:

(1) Consolidated Rail Corporation is exempted under 49 U.S.C. 10505 from the requirements of 49 U.S.C. 11343 for the limited purpose of acquiring control of the Detroit Terminal Railroad Company, subject to the conditions for the protection of employees imposed in *New York Dock Ry.—Control—Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979).

(2) If Conrail acquires DTRC as a wholly-owned subsidiary, Conrail shall have 60 days after consummation of the transaction to submit three copies of a sworn statement showing all journal entries required to record the transaction.

(3) Notice of our action shall be given to the general public by delivery of the copy of this decision to the Director, Federal Register for publication.

(4) This exemption will continue in effect for one year from the effective date of this decision. Conrail must consummate this acquisition during that time in order to take advantage of the exemption.

(5) This decision shall be effective April 17, 1981.

(6) Petitions to stay the effective date of this decision must be filed no later than March 30, 1981.

(7) Petitions to reopen the proceeding for reconsideration must be filed no later than April 7, 1981.

Decided: March 10, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs; Decision

Decided: March 10, 1981.

In our decision of February 25, and March 3, 1981, a 19.0-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators were employed. We ordered that all owner-operators were to receive compensation at this level.

The weekly figure set forth in the appendix for transportation performed by owner-operators and for truckload is 19.1-percent. Accordingly, we are authorizing that the surcharge for this traffic remain at 19.0-percent. All owner-operators are to receive compensation at this level.

No change is authorized on the 3.3-percent surcharge on less-than-truckload (LTL) traffic performed by carriers not utilizing owner-operators, nor the 7.1-percent surcharge for the bus carriers, nor the 2.2-percent surcharge for United Parcel Service.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State and to the Public Utilities Commission or Boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy to the Director, Office of the Federal Register for publication therein.

It is ordered:

This decision shall become effective Friday 12:01 a.m. March 13, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

Appendix—*Fuel Surcharge*

Base date and price per gallon (including tax)

January 1, 1979 ..... 80.5¢

Date of current price measurement and price per gallon (including tax)

March 9, 1981 ..... 135.3¢

	Transportation performed by—			
	Owner operator[1]	Other[2]	Bus carrier	UPS
	(1)	(2)	(3)	(4)
Average percent fuel expenses (including taxes) of total revenue	16.9	2.9	4.3	3.3
Percent surcharge developed	18.1	3.3	7.1	[3]3.0
Percent surcharge allowed	18.0	3.3	7.1	[4]2.2

[1] Apply to all truckload rated traffic.
[2] Including less-than-truckload traffic.
[3] The percentage surcharge developed for UPS is calculated by applying 81 percent of the percentage increase in the current price per gallon over the base price per gallon to UPS average percent of fuel expense to revenue figure as of January 1, 1979 (3.3 percent).
[4] The developed surcharge is reduced 0.8 percent to reflect fuel-related increases already included in UPS rates.

BILLING CODE 7035-01-M

[Volume No. OP4-Volume 87]

Motor Carrier Permanent Authority Decision; Decision-Notice

Decided: March 11, 1981.

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the Federal Register. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of an application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

By the Commission, Review Board Number 1, Carleton, Joyce, and Jones.

Agatha L. Mergenovich,

Secretary.

MC-F-14549, filed January 13, 1981, previously published in the Federal Register issue of February 24, 1981, and republished this issue.

COOPER MOTOR LINES, INC. (COOPER) (P.O. Box 2820, Greenville, SC 29602)—continuance in control—Park Place Equipment Services, Inc. (Park) (P.O. Box 2820, Greenville, SC 29602). Representative: Francis W. McInerny, 1000 16th St., N.W., Suite 502, Washington, DC 20036.

Cooper seeks authority to continue in control of PARK upon the institution by PARK of operations in interstate or foreign commerce, as a motor contract carrier. Calhoun Lemon, Chairman of the Board, and Treasurer, also seeks to continue in control.

Park has filed an application in MC-153606 to transport general commodities, between points in the US.

Cooper is a motor common carrier pursuant to certificates issued in MC-47171 and sub-numbers thereunder.

Calhoun Lemon also has an interest in Southern Bulk Haulers, Inc. (MC-119580); The Geo. A. Rheman Co., Inc. (MC-103191); and Cement Transport, Inc. (MC-138646). (Hearing site: Washington, DC or Atlanta, GA.)

Note.—PARK has filed as a directly related application its initial contract carrier application. The directly related application, docketed No. MC-153606, and this MC-F 14549 application are both being republished to include them in the same Federal Register issue.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer

to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–672

Decided: March 6, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Taylor. (Member Taylor Dissenting in Part.)

MC 5881 (Sub-3F), filed December 11, 1980, and previously noticed in the **Federal Register** issues of January 7, 1981, and February 9, 1981, respectively. BILLING CODE 7035-01-M

[ICC Order No. 75, Under Service Order No. 1344]

Rerouting Traffic

To All Railroads:

In the opinion of Joel E. Burns, Agent, the Southern Pacific Transportation Company is unable to transport traffic over its lines between Jacksonville, Texas, and Lufkin, Texas, because of track conditions.

It is ordered,

(a) *Rerouting traffic.* The Southern Pacific Transportation Company being unable to transport traffic over its line between Jacksonville, Texas, and Lufkin, Texas, because of track conditions, that line is authorized to divert or reroute such traffic via any available route to expedite the movement. Traffic necessarily diverted by authority of this order shall be rerouted so as to preserve as nearly as possible the participation and revenues of other carriers provided in the original routing. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad rerouting cars in accordance with this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order, shall notify each shipper at the time each shipment is rerouted or diverted and shall furnish to such shipper the new routing provided for under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were

applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers, or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 12:01 a.m., March 3, 1981.

(g) *Expiration date.* This order shall expire at 11:59 p.m., June 30, 1981, unless otherwise modified, amended or vacated.

This order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. A copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 2, 1981.

Interstate Commerce Commission.

Joel E. Burns,

Agent.

BILLING CODE 7035-01-M

[No. 15037]

Southwestern Millers' League v. Atchison, T. & S.F. Ry. Co.; Decision

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision.

SUMMARY: By decision issued this date, the Commission has vacated its earlier orders in docket No. 15037. These orders prescribed two sets of proportional rates on grain, grain products, and grain by-products, in carloads, from Chicago, IL, and related gateways to destinations in central territory, on traffic from Minneapolis-Duluth, MN, and Missouri River Cities (including Omaha, NE, and Council Bluffs, IA, South to St. Joseph and Kansas City, MO), and through rates from the Missouri cities. The Commission found that continuing the prescriptions would be inconsistent with the Railroad Revitalization and Regulatory Reform Act of 1976 and the Staggers Rail Act of 1980 and inappropriate in light of changed conditions.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane Mackall, (202) 275-7656.

EFFECTIVE DATE: March 18, 1981.

SUPPLEMENTARY INFORMATION: Copies of the complete decision are available, upon request, from the Secretary, I.C.C., Washington, DC, 20423 or by calling 800-424-5403.

This decision will not affect significantly either the quality of the human environment or conservation of energy resources.

Decided: March 6, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

[Ex Parte No. 405]

Alaska Railroad Freight Rates Study—1980

AGENCY: Interstate Commerce Commission.

ACTION: Notice of study of Alaska rail rates conducted pursuant to Section 709 of the Staggers Rail Act of 1980.

SUMMARY: This is a revision of the scope of the Alaska Railroad Freight Rate Study published on January 6, 1981, 46 FR 1359. The study will be limited to Alaska Railroad ICC Tariffs 4108 and 4109 (including Supplements 1 through 4). The study will be conducted by Commission Staff using Alaska Railroad data. The Alaska Railroad is relieved of the filing requirements as originally published in the prior Notice. Alaska Railroad data of a proprietary nature will not become a part of the Commission's workpapers and will not be disclosed beyond the extent necessary to fulfill the requirements of the legislation.

DATES: The following schedule will be maintained: (1) Preliminary report to be furnished to Congress on April 1, 1981. (2) Public comments within thirty days thereafter. (3) A final report will be furnished to Congress thirty days after the comment period.

FOR FURTHER INFORMATION CONTACT: William T. Bono, (202) 275-7354

SUPPLEMENTARY INFORMATION: The Staggers Rail Act of 1980, section 709 orders that this study be conducted. To meet the statutory six-month deadline extensions of time cannot be granted. The date for submission of this study to Congress is April 1, 1981. A request by Totem Ocean Trailer Express, Inc., dated January 9, 1981, for a more extensive study was denied by decision served March 10, 1981.

Decided: February 27, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

Note.—A copy of this notice shall be served on the Commission's Office of Special Counsel, The Governor of Alaska, Sealand Corporation, Totem Ocean Trailer Express, Inc., Georgia Pacific Corporation, The Secretary of the Department of Transportation, The Administrator of the Federal Railroad Administration, and the General Manager of the Alaska Railroad.

[No. MC-C-1842]

American Envelope Co. v. A. H. Truck Lines, Inc., et al; Decision

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision.

SUMMARY: Central States Motor Freight Bureau, Inc. sought reconsideration of the exception rating prescribed by the Commission in 1962 for less-than-truckload (LTL) shipments of paper envelopes within petitioner's region. The Commission reopened this proceeding and requested comments on the continuing appropriations of this prescription. 45 FR 58236 (September 2, 1980). In the decision served March 9, 1981, the Commission found that the 1962 order prescribing lower than class rates for LTL shipments of paper envelopes within central territory is no longer justified. The order was vacated.

EFFECTIVE DATE: April 17, 1981.

ADDRESS: Copies of the complete decision may be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, DC, 20423, or by calling 800-424-5403.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane Mackall (202) 275-7656.

Dated: March 4, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp,

Trantum, and Gilliam. Commissioner Clapp concurred in the result.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8048 Filed 3-17-81; 8:45 am]

BILLING CODE 7035-01-M

[Ex Parte No. 287 (Sub-14)]

Consolidated Rail Corp., Exemption For Contract Tariff ICC-CR-C-0009

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). The previously filed contract tariff will become effective on one day's notice. This exemption may be revoked if protests are filed on or before April 2, 1981.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall (202) 275-7656.

SUPPLEMENTARY INFORMATION: Consolidated Rail Corporation (Conrail) has requested that we authorize short notice for its proposed tariff ICC-CR-C-0009. That tariff reflects a three year contract with Hamilton Parker Company, subject to automatic annual renewals thereafter. Conrails seeks to advance the effective date to March 15, 1981.

The purpose of the contract is to enable Conrail to assume the operation and maintenance of an industrial lead track extending to and from Hamilton-Parker's facility at Columbus, Ohio. This track is now operated by the Ohio Railroad Transportation Authority, (ORTA) which does not object to being relieved of this track responsibility.

Tariff ICC-CR-C-0009 provides that in consideration of Conrail's service and maintenance of the industrial track, Hamilton—Parker will pay a service charge of $50.00 per loaded car, subject to a maximum annual payment of $2000 based on a 40-revenue roadhaul carload minimum annual volume.

Under 49 U.S.C. 10713(e), contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. C.F. former section 10762(d)(1). However, we may address the same relief under our section 10505 exemption and we do so here.

The contract is to benefit the shipper. Hamilton—Parker will pay a substantially lower charge to Conrail than it now pays ORTA. We believe that the contract proposal will enhance carrier service by encouraging efficient use of transportation facilities and should not impair the carrier's obligation to provide service to other shippers. Conrail states that it does not expect protests. We thus conclude that authorization of a provisional exemption is warranted.

Conrail has already indicated in its petition, a willingness to be bound by the following conditions which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it during the periods specified in 49 U.S.C. 10713.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in this instance is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed on or before April 2, 1981.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

(49 U.S.C. 10505)

Dated: March 12, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Volume No. OP1-046]

Motor Carrier; Permanent Authority Decisions; Correction

Decided: February 20, 1981.

The following volume was incorrectly published on March 5, 1981 under the fitness guidelines, and is being republished this issue to reflect that the following applications fall under the non-fitness standards.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 2. Members Chandler, Eaton and Liberman.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Motor Carrier Permanent Authority Applications; Corrections

The following volumes were incorrectly published on March 3, 1981 under the fitness guidelines, and are being republished this issue to reflect that the following applications fall under the non-fitness standards.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations or jurisdictional questions) we find, preliminarily, that each applicant had demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal of any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

BILLING CODE 7035-01-M

[Volume No. 39]

Motor Carriers; Permanent Authority Decisions, Restriction Removals; Decision-Notice

Decided: March 11, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its request removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,
Secretary.

FF 173 (Sub-3)X, filed February 24, 1981. Applicant: SEAPOOL, INC., 333 So. Flower Street, Los Angeles, CA 90071. Representative: Milton W. Flack, 8383 Wilshire Blvd., Suite 900, Beverly Hills, CA 90211. Applicant seeks to remove restrictions in its Sub-No. 3 freight forwarder permit by eliminating the exceptions "fur skins, dried eggs, bristles, and hog casings," when destined to New York, NY, and used household goods and used automobiles, "from its general commodities authority"; by removing the "when imported" restriction; by expanding city authority to countywide authority as follows: Seattle to King County, WA, Longview to Cowlitz County, WA, Stockton to San Joaquin County, CA, and San Diego to San Diego County, CA; by expanding its one-way authority to radial authority between King and Cowlitz Counties, WA, Portland, OR, San Francisco and Los Angeles, CA and San Joaquin and San Diego Counties, CA, and, points in the United States in and east of ND, SD, NE, CO, OK, and TX.

MC 2202 (Sub-665)X, filed February 26, 1981. Applicant: ROADWAY EXPRESS, INC., P.O. Box 471, Akron OH 44309. Representative: William O. Turney, 7101 Wisconsin Ave., Washington, DC 20014. Applicant seeks to remove restrictions in its Sub 491 acquired in MC-F-12555 to (1) authorize service at all intermediate points on its regular routes between Knoxville, TN, and Chattanooga, TN; and (2) remove the restriction to service at Chattanooga, TN for purposes of joinder only on its regular routes between (a) Knoxville, TN, and Chattanooga, TN, and (b) Kingston, TN, and Chattanooga, TN.

MC 5470 (Sub-233)X, filed February 24, 1981. Applicant: TAJON, INC., R.D. 5, Mercer, PA 16137. Representative: Brian L. Troiano, 918—16th Street, N.W., Washington, DC 20006. Applicant seeks to remove restrictions in its lead certificate and Sub-Nos. 75, 94, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 112, 115, 116, 117, 118, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, k132, 135, 136, 137, 138, 139, 140F, 142F, 144F, 146F, 147F, 148F, 150F, 151F, 152F, 154F, 155F, 156F, 157F, 158F, 159F, 160F, 161F, 162F, 163F, 167F, 168F, 170F, 171F, 172F, 173F, 174F, 175F, 177F, 179F, 180F, 186F, 187F, 188F, 189F, 191F, 192F, 194F, 195F, 196F, 197F, 198F, 201F, 202F, 203F, 205F, 206F, 208F, 212F, 214F, 216F, 217F, 218F, 219F, 220F, 221F, 222F, 223F, 224F, 225F, 226F, 228F, 229F, and 230F, (1) by removing the restrictions which limit service to "in dump vehicles"; (2) by broadening the commodity discriptions from "alloys", "pig iron", "silicon metals", "manganese metals', "aluminum ingots, billets, blooms, sows, slabs, pigs, and dross", to "primary metal products" wherever they appear in the lead and subs 75, 103, 104, 110,

120, 121, 122, 123, 127, 128, 129, 136, 137, 138, 142F, 144F, 148F, 156F, 159F, 161F, 165F, 166F, 167F, 171F, 174F, 175F, 179F, 195F, 197F, 201F, 214F, 221F, 222F, 225F, and 229F; (3) by broadening the commodity description from such bulk commodities as are usually transported in dump vehicles to "commodities in bulk" wherever it appears in the lead certificate and Subs 94, 128, 191F, 196F, and 127F; (4) by broadening the territorial authority from (a) Calvert City, KY, to Marshall County, KY, in the lead and Sub 165; (b) Niagara Falls, NY, to Niagara County, NY, in the lead; (c) Vancoram, OH, to Jefferson County, OH, in the lead; (d) Erie, PA, to Erie County, PA, in the lead and Sub 139; (e) facilities at Vancoram, OH, and Graham, WV, to Jefferson County, OH, and Mason County, WV, in the lead; (f) facilities at East Liverpool, OH, and Braddock, PA, to Columbiana County, OH, and Allegheny County, PA, in the lead; (g) Ashtabula, County, OH, in the lead and Subs 110, 120, and 221F; (h) Marietta, OH, to Washington County, OH in the lead; (i) Alloy, WV, to Fayette County, WV, in the lead; (j) Neville Island, PA, to Allegheny County, PA, in Sub 112; (k) facilites at Paducah, KY, to McCracken County, KY, in Sub 126; (1) facilities at and Maple Grove, OH, to Seneca County, OH, in Subs 131 and 156F; (m) facilities at Detroit, MI, to Detroit, MI, in Sub 171F; (n) facilities at Dayville, CT; Forest Park, GA, Gas City, and Indianapolis, IN; Jackson, MS; and Knox, Marienville and Parker, PA, to Windham County, CT; Clayton County, GA; Grant and Marion Counties, IN; Hinds County, MS; and Clarion, Forest, and Armstrong Counties, PA, in Sub 173F; (o) facilities at Hickman, KY, to Fulton County, KY, in Sub 198F; and (p) facility at Perth Amboy, NJ, to Middlesex County, NJ, in Sub 217F; (5) expand one-way authority to radial authority in the lead and Subs 75, 98, 100, 101, 102, 104, 105, 106, 107, 108, 109, 110, 112, 115, 117, 118, 120, 123, 124, 125, 126, 127, 128, 131, 132, 135, 136, 137, 138, 139, 140F, 142F, 144F, 146F, 148F, 150F, 151F, 152F, 154F, 155F, 156F, 158F, 159F, 160F, 162F, 163F, 164F, 165F, 166F, 167F, 168F, 170F, 172F, 173F, 174F, 175F, 177F, 179F, 180F, 186F, 187F, 188F, 189F, 192F, 194F, 195F, 197F, 200F, 201F, 202F, 203F, 205F, 206F, certificate missing, 216F, 217F, 218F, 219F, 220F, 221F, 222F, 223F, 226F, and 230F; and (6) remove the exceptions AK and HI in Subs 105, 109, 206F, 208F, 212F, and 219F.

MC 61977 (Sub-39)X, filed February 23, 1981. Applicant: ZERKLE TRUCKING CO., 2400 Eighth Ave., P.O. Box 5628, Huntington, WV 25703. Representative: N.W., Bowen, Jr. (same address as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 4F, 6F, 7F, and 8F permits by (1) broadening the commodity description (a) from iron and steel articles as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, to "such commodities as ar e dealt in by manufacturers of iron and steel articles" in Sub-No. 4F; (b) from plastic pipe and fittings, insulation board, asbestos fibre cement pipe and building materials to "rubber and plastic products, pulp, paper and related products, clay concrete, glass or stone products and building materials" in Sub-No. 6F; (c) from general commodities (except classes A and B explosives)" in Sub-Nos. 7F, and 8F, (2) removing the "except commodities commodities in bulk" restriction in Sub-No. 4F; and (3) broadening the territory description to between points in the U.S. under continuing contract(s) with named shippers.

MC 72069 (Sub-35)X, filed February 26, 1981. Applicant: BLUE HEN LINES, INC., P.O. Box 280, Milford, DE 19963. Representative: Chester A. Zyblut 366 Executive Bldg., 1030 Fifteenth St., N.W., Washington, DC 20005. Applicant seeks to remove restricitons in its MC 148476 (Sub-2)F permit to (1) change the commodity description form baker's yeast and brewers yeast to "food and related products" and (2) change the territorial description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 89913 (Sub-67)X, filed February 23, 1981. Applicant: FRISCO TRANSPORTATION COMPANY, 906 Olive Street, St. Louis, MO 63101. Representative: William R. Power, 176 East Fifth Street, St. Paul, MN 55101. Applicant seeks to remove restrictions from its lead and Sub-Nos. 46, 47, 50, 51, 52, and 55 certificates to authorize service to all intermediate points which *are not* stations on the lines of railroads over a network of regular routes between named points in the States of, as pertinent, MO, AR, KS, TN, MS, OK, TX, and IL in the lead and each of the above-numbered subs.

MC 102817 (Sub-30)X, filed February 27, 1981. Applicant: PERKINS FURNITURE TRANSPORT, INC., 5034 Lafayette Road, P.O. Box 24335, Indianapolis, IN 46224. Representative: ROBERT W. LOSER II, 1101 Chamber of Commerce Bldg., 320 N. Meridian St., Indianapolis, IN 46204. Applicant seeks to remove restrictions in its Sub 29F certificate to (1) broaden the commodity description from new furniture; and store, office, institutional, and household fixtures and furnishings, to "furniture, fixtures, furnishing and equipment, materials and supplies used in the manufacture thereof"; (2) broaden the territorial scope by replacing one-way authority with radial in its transportation of (a) applicants between points in Newton, Amana, and Webster City, IA, and points in 32 states, parts of 2 states and DC; (b) kitchen equipment, between points in Columbus, OH, and points in 32 states, parts of 2 states and DC, and (3) remove the restriction against the transportation of crated new furniture originating at 14 Virginia cities.

MC 103798 (Sub-54)X, filed March 2, 1981. Applicant: MARTEN TRANSPORT, LTD., Route 3, Mondovi, WI 54755. Representative: Robert S. Lee, 1600 TCF Tower, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its Sub-Nos. 19, 22F, 24F, 30, 32F, 36F certificates to (1) broaden the commodity description from dairy products, foodstuffs, canned goods, poultry, fish, and various other related products to "food and related products" in Sub-Nos. 19, 22, 30, 32, 36, (2) delete the commodity restrictions such as "except commodities in bulk, frozen and poultry commodities, mechanically refrigerated vehicles" in Sub-Nos. 19, 30, and 32, (3) authorize radial service in lieu of existing one-way authority in all referenced Sub-Nos. (4) authorize county-wide service in place of city-wide and/or facilities: Jackson, Howard, Winneshiek, Chickasaw, Black Hawk Counties for Maquoketa, Decorah, Cresco, Fredericksburg, and Hudson, IA, in Sub-No. 19; Buffalo, Pepin, Barron, Dunn Counties for Mondovi, Durand, Turtle Lake, and Boycerville, WI; Stearns, Olmstead Counties for Paynesville, and Rochester, MN; Buchanan County for Jessup, IA, in Sub-No. 22; Burleigh and Cass Counties for Bismark and Fargo, ND; Brown and Milwaukee Counties for Green Bay and Milwaukee, WI; Hennepin County for Hopkins, MN; Champaign County for Champaign, IL; Polk County for Des Moines, IA; Davison County for Mitchell, SD, in Sub-No. 24; Dane County for Madison, WI; Johnson and Muscatine Counties for Iowa City and Muscatine, IA; Dodge and Milwaukee Counties for Beaver Dam and Milwaukee, WI; Saint Louis County for Duluth, MN; Douglas County for Superior, WI; Douglas County for Omaha, NE; Brown County for Green Bay, WI; Hennepin County for Minneapolis, MN, in Sub-No. 30; Black Hawk County for Hudson, IA, in Sub-No. 32; Cache County for Logan, UT, in Sub-No. 36; (5) eliminate the restriction limiting service to transportation of shipments originating at and/or destined

to named points in Sub-Nos. 19, 22, 24, 30 (6) remove the restriction against the transportation of confectionery and meats between points in MN, and IA, in Sub-No. 30; and (7) remove the AK and HI exceptions.

MC 107576 (Sub-33)X, filed February 26, 1981. Applicant: SILVER WHEEL FREIGHTLINES, INC., 1321 S.E. Water Ave., Portland, OR 97214. Representative: Ronald D. Browning (same as above). Applicant seeks to remove restrictions in its lead and Sub-Nos. 15, 17, 18, 19, 20, 28F, 30F, and 31F certificates to (1) broaden the general commodity descriptions to (a) "general commodities" in the lead (sheets 1 and 3), Sub-Nos. 17 (sheet 2) and 19; (b) "general commodities (except classes A and B explosives)" in the lead (sheets 3, 4, and 5), Sub-Nos. 15, 17, 18, 20, 28F, 30F and 31F; (2) allow service at all intermediate points on its authorized regular route service routes, for example, between: Portland and Heppner, OR, and Halsey and Brownsville, OR in the lead; Salem and Scio, OR in Sub-No. 17; Portland and Parkdale, OR in Sub-No. 18; and Pendleton, OR, Pasco, WA in Sub-No. 20; Boise, ID and Denver, CO in Sub-No. 31F; and (3) to remove restrictions limiting service in the lead and Sub-Nos. 15, 18, 28F and 31F, for example, eliminate the "delivery only" and "pickup only" restrictions for Pendleton, OR in the lead (sheet 5); the restriction against transportation of local traffic moving between Portland, OR, on the one hand, and, on the other, Seattle, WA in Sub-No. 28F; the restriction against transportation of traffic both originating at and destined to points in CO and UT in Sub-No. 31F, and the restriction limiting service to a seasonal period in Sub-No. 18.

MC 108053 (Sub-183)X, filed February 23, 1981. Applicant: LITTLE AUDREY'S TRANSPORTATION CO., INC., P.O. Box 129, Fremont, NE 68025. Representative: Arnold L. Burke, 180 North LaSalle St., Chicago, IL 60601. Applicant seeks to remove restrictions in its Sub-Nos. 82, 134, and 178F certificates to (1) change the commodity descriptions from frozen foods, potato products not frozen, and canned goods in Sub-No. 82, frozen foods and potato products, (except frozen), in Sub-No. 134, and foodstuffs (except in bulk) in Sub-No. 178F, to "food and related products," and (2) change one-way to radial authority (a) between WA, OR, ID, and UT and IA, IL, KS, MO, and NE in Sub-No. 82, (b) between Cleveland, OH and CA, ID, and UT in Sub-No. 82, (c) between ID, OR, and WA and DE, IN, MA, MI, MN, NJ, NY, OH, PA, WI, DC, Louisville, KY, and Baltimore, MD in Sub-No. 134, and (d) between CA and CO, IL, IN, IA, KS, MD, MI, MN, MO, NE, NJ, NY, ND, OH, PA, SD, WI and DC in Sub-No. 178F.

MC 111545 (Sub-308)X, filed February 6, 1981, previously noticed in the Federal Register of February 24, 1981, republished as corrected this issue. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Road, S.E., Marietta, GA 30067. Representative: J. Michael May (same as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 207, 244, 249, and 253 certificates to (1) broaden the commodity description from (a) radioactive waste materials to "hazardous materials" in Sub-No. 207; (b) from nuclear filtration equipment, and parts, attachments and accessories therefor to "machinery"; in Sub-No. 244. (c) from uranium hexafluride to "hazardous materials" in Sub-No. 249; (d) and from source, special nuclear, and by-product materials, radioactive material, shipping containers, nuclear component parts, and equipment to "hazardous materials, machinery, metal products, chemicals and related products, ores and minerals and waste or scrape materials not identified by industry producing", (2) authorize radial service in lieu of existing one-way authority in Sub-Nos. 207 and 244; (3) replace city-wide with county-wide authority: Franklin County for Hillard, OH, in Sub-No. 244; Pike County for Sargent, OH, in Sub-No. 249; (4) remove a disposal facilities limitation in Barnwell County, SC, in Sub-No. 207, and (5) remove the exceptions of AK and HI on the nationwide portion of its radial grants in Sub-Nos. 207, and 253. This applicanton is republished to reflect in part (d) the appropriate broadening of authority held by applicant in Sub-No. 253.

MC 119988 (Sub-278)X filed February 23, 1981. Applicant: GREAT WESTERN TRUCKING CO., P.O. Box 1384, Lufkin, TX 75901. Representative: Larry Norwood (same as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 63, 122, 132F, 164F, 196F, certificates to (1) broaden the commodity description from foodstuff, canned fruit & vegetable juices, frozen foods, and canned and preserved foodstuffs to "such commodities as are dealt in or used by chain grocery stores" in all the above authorities; (2) delet the commodity "bulk, foods, bakery products, dairy products, meats", exception from its commodity authority in Sub-No. 63; (3) replace plantsite facilities with county-wide authority: Jefferson County for Birmingham, AL, in Sub-No. 63; Hidalgo County for Weslaco, TX, in Sub-No. 122; Pike County for Troy, AL, in Sub-No. 132 F; and Newton County for Neosho, MO, and Bond County for Greenville, IL, in Sub-No. 196 F; (4) remove the exceptions of AK and HI in Sub-Nos. 122 & 132 F; (5) authorize radial service in place of existing one-way authority between the counties named above and named points in all referenced authority; and (6) eliminate the originating at and/or destined to restriction in Sub-No. 63, 122, and 164F.

MC 121496 (Sub-56)X,[1] filed February 17, 1981, previously notice in the Federal Register of March 3, 1981 republished as corrected this issue. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street, N.W., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 40F certificate to (1) broaden the commodity description from liquid chemicals, in bulk, in tank vehicles, to "commodities in bulk, "(2) eliminate the plantsite limitation, (3) authorize radial service between Houston and Beaumont, TX and, points the U.S., and (4) remove the restriction against service to Alaska and Hawaii.

MC 121496 (Sub-65)X, filed February 27, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, DC 20001.Applicant seeks to remove restrictions in its Sub 15F certificate, to (1) broaden the commodity description from latex and latex compounds, in bulk, in tank vehicles, to "commodities in bulk", and (2) broaden the territorial description from one-way authority to radial authority between Hamilton County, TN, and points in thiry-one states and DC.

MC 121509 (Sub-12)X, filed February 26, 1981. Applicant: DAUFELDT TRANSPORT, INC., 618 Clay St., Muscatine, IA 52761. Representative: William L. Fairbank, 2400 Financial Center, Des Moines, IA 50309. Applicant seeks to remove restrictions in its irregular-route authority in (Sub-1, 3, 4, 6, and 10F) certificates to (1) broaden the commodity descriptions, in (Sub-1 and 6), to "chemicals and related products" from liquid fertilizer and fertilizer materials, in bulk; in (Sub-3), to "commodities in bulk" from liquid commodities in bulk; (Sub-4 and 10F), to

[1] The purpose of this republication is to correct the commodity description to reflect that requested by applicant.

"food and related products" from liquid feed and liquid feed ingredients, in bulk, except steepwater; and, (2) broaden the territorial descriptions by removing restrictions limiting service to transportation of traffic originating from specifically-named facilities or destined to the destination States, replacing the named facilities and cities with county-wide authority, and authorizing radial service, as follows: (Sub-1), between Cedar County, IA (facilities near Durant, IA), and points in AR, IA, IN, KS, KY, MN, MO, NE, SD, TN, WI, and IL (except points in the St. Louis, MO/East St. Louis, IL commercial zone); (Sub-4), between Muscatine County, IA (Muscatine, IA), and points in AR, IL, IN, KS, KY, LA, MI, MN, MO, NE, OH, PA, TN, TX and WI; (Sub-6), between Whiteside County, IL (facilities near Albany, IL), and points in IL, IA, MN, and WI; and, (Sub-10F), between Jones County, IA (Olin, IA), and points in IL, MN, MO, and WI.

MC 121596 (Sub-17)X, filed February 24, 1981. Applicant: SHELBYVILLE EXPRESS, INC., Old Railroad Avenue, Shelbyville, TN 37160. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its (Sub-7F) certificate to (1) broaden the commodity description from general commodities (in bulk, and articles requiring special equipment) to "general commodities (except class A and B explosives)", (2) authorize service to all intermediate points along described regular routes between Nasville, Shelbyville and Memphis, TN, and McGehee, AR; and (3) remove a restriction against the handling of traffic which originates at or is destined to points in Davidson County, on the one hand, and, on the other, that which originates at or is destined to Memphis, TN and points in its commercial zone.

MC 124997 (Sub-9)X, filed February 3, 1981, previously noticed in the Federal Register of February 17, 1981, republished as corrected this issue. Applicant: R. F. TRUESDELL CO., 6515 Anno Avenue, Orlando, FL 32809. Representative: Paul M. Daniell, P.O. Bo. 872, Atlanta, GA 30301. Applicant seeks to remove restrictions in its (Sub-8F), permit to (A) broaden the territorial description to allow service between points in the United States under continuing contract(s) with named shippers, and (B) to remove the restriction against the transportation of commodities in bulk in parts 1 and 2 of its (Sub-8) permit. The purpose of this republication is to correct the scope of the removal sought to include part (B) which was inadvertently omitted from the original Federal Register publication of February 17, 1981.

MC 125551 (Sub-22)X, filed March 2, 1981. Applicant: K & W TRUCKING CO., INC., P.O. Box 1415, St. Cloud, MN 56301. Representative: Robert D. Gisvold, 1600 TCF Tower, 121 South 8th Street, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its (Sub-4 and 6), and 11 certificates to (1) broaden its commodity descriptions (a) from ore and ore concentrates, and antimony ore and concentrate, to "ores and minerals", in (Sub-4 and 11), and (b) from wood pulp and woodchips, to "lumber and wood products", in (Sub-6); (2) replace its cities with county-wide authority (a) White Pine, MI, with Ontonagon County, MI, in (Sub-4), (b) Cloquet and Brainerd, MN, with Carlton and Crow Wing Counties, MN, in (Sub-6), and (c) Duluth, MN, with Saint Louis County, MN, and Perth Amboy, NJ, with Middlesex County, NJ, in (Sub-11); and (3) change its one-way authority to radial authority (a) between Alaska and points in Ontonagon County, MI, and Butte, MT, in (Sub-4), (b) between points of entry on the U.S.-Canada Boundary line located in MT, ND, and MN, and points in Carlton and Crow Wing Counties, MN, in (Sub-6), and (c) between Alaska and points in Saint Louis County, MN, Detroit, MI, Chicago, IL, and Baltimore, MD, Cleveland, OH, and Middlesex County, NJ, in (Sub-11).

MC 125551 (Sub-23)X, filed March 2, 1981. Applicant: K & W TRUCKING CO., INC., P.O. Box 1415, St. Cloud, Minnesota 56301. Representative: Robert D. Gisvold, 1600 TCF Tower, 121 South 8th Street, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its (Sub-14 and 17F) certificates to (1) broaden the commodity descriptions to (a) "food and related products" from canned goods in (Sub-14), and (b) "general commodities (except classes A and B explosives)" from general commodities (with the usual exceptions) in (Sub-17F); (2) replace Bellingham and Anacortes, WA with Whatcom and Skagit Counties, WA; (3) change its one-way authorities to radial authorities between: (a) Whatcom and Skagit Counties and Seattle, WA, and, points in IL, IN, IA, KY, MN, OH, and TN in (Sub-14); and (b) Minneapolis, MN, and, Seattle, WA in (Sub-17F).

MC 127811 (Sub-27)X, filed February 27, 1981. Applicant: BRYNWOOD TRANSFER, INC., 175—8th Avenue SW, New Brighton, MN 55112. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions in its (Sub-4 and 23F) certificates to (a) broaden the commodity descriptions from (1) pre-cast and pre-stressed concrete products, the transportation of which because of size or weight requires special handling and the use of special equipment, and (2) contractors' machinery and equipment, when transported in the same vehicle and at the same time with the commodities described in part (1) above, to "clay, concrete, glass, or stone products and machinery" in (Sub-4); and from pre-cast and pre-stressed concrete building products to "clay, concrete, glass or stone products" in (Sub-23); and (b) broaden the territorial scope by replacing one-way authority with radial and plantsite facilities with county-wide as follows: between points in Hennepin (Osseo) and Onoka (Onoka and Lino) Counties, MN, and points in IA, ND, SD, WI and Upper Peninsula of MI in (Sub-4); and between points in Minnehaha (Sioux Falls) County, SD and points in IL, IN, MN and WI in (Sub-23F).

MC 129387 (Sub-119)X, filed February 23, 1981. Applicant: PAYNE TRANSPORTATION, INC. P.O. Box 1271, Huron, SD 57350. Representative: Charles E. Dye, P.O. Box 971, West Bend, WI 53095. Applicant seeks to remove restrictions in its (Sub-31) certificate to (1) remove the facilities restrictions in part A (a and b) limiting service to the transportation of traffic originating at or destined to the facilites of Noble Inc. at Albuquerque, NM, and storage-in-transit facilities at Denver, CO, (2) broaden the commodity descriptions in part A from foodstuffs, pharmaceutical materials, supplies and products, chemicals, alcoholic beverages, tobacco products, pet foods, and such commodities as are dealt in by distribution consolidation warehouses for the commodities described above, when moving in the same vehicle at the same time as the commodities described above (except in mechanical refrigeration) to "food and related products," "chemicals and related products", "tobacco products" and "such commodities as are dealt in by distribution consolidation warehouses", (3) remove the mechanical refrigeration equipment restrictions, (4) in part B, remove the restriction limiting the transportation of traffic to that originating at and destined to a named portion of the U.S. and remove the facilities limitation at Laramie, WY; (5) remove the AK and HI exception in both parts; and (6) in part A remove the facilites limitation on the tacking restriction to authorize tacking on shipments originating at or destined to Albuquerque, NM.

MC 134477 (Sub-436)X, filed February 23, 1981. Applicant: SCHANNO TRANSPORTATION, INC., 5 West Mendota Road, West St. Paul, MN 55118. Representative: Thomas D. Fischback, P.O. Box 43499, St. Paul, MN 55164. Applicant seeks to remove restrictions in its (Sub-371F) certificate to (1) broaden the commodity description from foodstuffs (except in bulk) to "food and related products"; (2) authorize radial service in place of existing one-way authority and replace city-wide authority with county-wide authority: between Black Hawk County, IA (Hudson, IA) and points in MN, ND, and WI, and points in 38 States in and east of IL, IA, NE, KS, OK, and TX; and (3) delete the originating at and destined to restriction, and the restriction against the transportation of meats and cheese from points in Brown County, WI and canned goods from Lomira, WI.

MC 134786 (Sub-3)X, filed February 24, 1981. Applicant: LEXINGTON-PARIS MOTOR FREIGHT, INC., P.O. Box 439, Milan, TN 38358. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its (Sub-2) certificate to (1) remove restrictions which prohibit transportation of traffic originating at, destined to, or interlined at (a) Memphis, TN and points between Jackson and Memphis, TN, and; Memphis, TN, and Nashville, TN in part 2 on sheet 2 (b) from Memphis, to Jackson; Nashville to Jackson; Nashville to Memphis, and Memphis to Nashville in part (3) on sheet 2, (c) Davidson County, TN, and Humboldt, Huntington, and Clarksville, TN, radially in part 9 on sheet 2; (2) remove restrictions (a) against tacking with the applicant's present authority to provide a through service non-radially between points in Davidson County, and Humboldt, Milan, Huntington, McKenzie, and Paris, TN, and points within 3 miles of said points (b) against service at Jackson and points within 4 miles thereof, and (c) against tacking to provide a through service radially between points in Davidson County, TN and Memphis, TN and points within 5 miles thereof in part 8 on sheet 3, (3) remove the restriction that reads: All of the foregoing routes 1 through 9 are restricted against the through transportation of shipments between points in Davidson County and Memphis, TN and points within five miles of Memphis. Authority to serve Memphis, TN is restricted against service in that part of its commercial zone which lies in Mississippi; (4) allow service at all intermediate points in connection with its regular routes (a) between Nashville and Whiteville, TN in part 3 on sheet, (b) between Memphis and McKenzie, TN in part (4) on sheet 2; between Memphis and Paris, TN in part (7) on sheet 3; between Memphis and Henderson, TN in part 8 (b); between Nashville and Henderson, TN and in part 8 (c); between Nashville and Pinson, TN in part 8 (d); between Nashville, McKenzie and Paris, TN in part 9.

MC 134906 (Sub-12)X, filed February 23, 1981. Applicant: CAPE AIR FREIGHT, INC., P.O. Box 161, Shawnee Mission, KS 66201. Representative: Kim G. Meyer, P.O. Box 872, Atlanta, GA 30301. Applicant seeks to remove restrictions from its lead, (Sub-1, 2, 4, 5, and 7) certificates and E-1 authority as follows: (1) broaden the commodity descriptions from general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in all its authorities; (2) broaden the territorial scope by replacing the airport designations with city-wide authority in (Sub-1, 2, 4, 5 and 7) as follows: Clarksville, TN, for Outlaw Field, Kansas City, MO, for Kansas City Municipal and Kansas City International Airports, and Cape Girardeau, MO, for the Municipal Airport; (3) remove the restrictions limiting transportation to traffic having an immediately prior or subsequent movement by air in all its authorities; and (4) remove the restrictions against the transportation of traffic as follows: (a) between Memphis, TN, and points in its commercial zone, and New Orleans, LA, and points in its commercial zone, and the Kansas City Municipal Airport and Kansas City International Airport, and (b) between the Kansas City Municipal Airport and the Kansas City International Airport and points in Livingston, Tangipahoa, Washington, St. Tammany, Ascension, East Feliciana, West Feliciana, St. James, St. Charles, St. Helena and Jefferson Parishes, LA, in (Sub-5).

MC 136086 (Sub-18)X, filed February 23, 1981. Applicant: GUILEY TRUCKING, INC., 9615 Pecan Ave., Fontana, CA 92335. Representative: Milton W. Flack, 8383 Wilshire Blvd., Suite 900, Beverly Hills, CA 90211. Applicant seeks to remove restrictions in its (Sub-5, 16F, and 17F) permits to (1) broaden the commodity description from (a) uncrated mobile home and travel trailer chassis components to "(1) metal, rubber and plastic products, and (2) materials, equipment and supplies used in the manufacture and distribution of the commodities in (1)" in (Sub-5F), (b) steel roofing, steel siding, and steel floor decking and materials, equipment, supplies, and accessories used in the installation, manufacture and distribution of those commodities to "(1) metal products, and (2) material, equipment and supplies used in the manufacture and distribution of the commodities in (1)" in (Sub-17F); (2) delete "except in bulk" from the commodity description talc and soapstone authority in (Sub-16F); and (3) broaden the territorial description in each permit to between points in the United States under continuing contract(s) with the named shippers.

MC 138157 (Sub-263)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC. d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market St., Chattanooga, TN 37410. Representative: Patrick E. Quinn (same as applicant). Applicant seeks to remove restrictions in its (Sub-34) certificate to (1) broaden the commodity description to "building materials" from flexible ductwork and air conditioning registers, and (2) broaden the territorial description by removing restrictions against service in TX, AK and HI, and against the transportation of traffic originating at the named facilities, substituting county-wide authority for Houston, TX, and replacing one-way service with radial service between Harris County,TX, and points in the United States.

MC 138157 (Sub-264)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC. d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market Street, Chattanooga, TN 37410. Representative: Patrick E. Quinn (same as above). Applicant seeks to remove restrictions in its (Sub-155F) certificate to (1) broaden the commodity description "such commodities as are dealth in by retail pharmacy stores" by removing the restriction against commodities in bulk and those which by reason of size or weight require the use of special equipment; (2) broaden the territorial scope by replacing city-wide authority with county-wide to allow service as follows: between points in Cook County (Bedford Park) IL, Cob County (Smyrna) FA, Dallas County (Grand Prairie) TX and Los Angeles and Los Angeles County (City of Industry) CA and points in the U.S.; (3) remove the restriction limiting the transportation of traffic originating at or destined to named facilities, and (4) remove the AK and HI exception.

MC 138157 (Sub-266)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC. d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market Street, Chattanooga, TN

37410. Representative: Patrick E. Quinn (same as above). Applicant seeks to remove restrictions in its (Sub-41 and 85F) certificates to (1) broaden the commodity descriptions from shaped metal articles and relatd accessories in (Sub-41) and fabricated and shaped metal articles in (Sub-85F) to "metal products"; (2) remove the restriction against: commodities in bulk in (Sub-41) and commodities which by reason of size or weight require the use of special equipment in (Sub- 41 and 85F); (3) remove the exceptions of AK and HI from its authority to serve points in the U.S. in (Sub-41; remove a named facility limitation and replace one-way authority with radial as follows: between points in Los Angeles and Orange Counties, CA, and points in the U.S. in the east of ND, SD, NE, KS, OK and TX (except points in FL) in (Sub-85F); and (4) remove the restriction limiting the transportation of traffic originating at or destined to named facilities in (Sub-41 and 85F).

MC 138174 (Sub-5)X, filed February 23, 1981. Applicant: JJ & JL CO., INC., d.b.a. JET AIR FREIGHT DELIVERY SERVICES, P.O. Box 20245, 6136 N.E. 87th Ave. Portland, OR 97220. Representative: Leland O. Johnson (same as applicant). Applicant seeks to remove the restriction in its (Sub-1) certificate which authorizes the transportation of general commodities, with certain exceptions, between Portland, OR and points in six Oregon Counties by removing a restriction which limits service to shipments having an immediately prior or subsequent movement by air.

MC 138283 (Sub-15)X, filed February 23, 1981. Applicant: DANA TRUCKING CORPORATION, P.O. Box 6, Round Lake, MN 56167. Representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, NE 68501. Applicant seeks to remove restrictions in its (Sub-3, 4F, 5F, 6F, and 7F) permits to broaden the commodity description (1) from cookies and materials, supplies, and equipment used in the manufacture, distribution, and sale of cookies to "food and related products"; (2) remove the restriction against the transportation of commodities in bulk and remove the restriction to traffic originating at or destined to named facilities in (Sub-3); and (3) broaden the territorial scope to include service between points in the U.S., under continuing contract(s) with a named shipper.

MC 139902 (Sub-9)X, filed February 26, 1981. Applicant: MOWRY TRUCKING, INC., Box 125, Cambridge, NE 69022. Representative: Lavern R. Holdeman, P.O. Box 81849, Lincoln, NE 68501. Applicant seeks to remove restrictions in its Sub-Nos. 4 and 6F permits to broaden the commodity descriptions in Sub-No. 4, from agricultural equipment, fifth-wheel equipment, motor vehicle accessories, equipment used in the handling and care of livestock, bleachers, and parts and accessories, except commodities in bulk, to "agricultural and livestock equipment and machinery, motor vehicle equipment and machinery, and metal products;" and in Sub-No. 6F, from lumber to "lumber and wood products", iron and steel articles to "metal products", and roofing materials to "building materials"; and expand its territorial descriptions in both permits to "between points in the U.S., under continuing contract(s) with named shippers.

MC 141721 (Sub-5)X, filed February 23, 1981. Applicant: DFC TRANSPORTATION COMPANY, 12007 Smith Drive, P.O. Box 929, Huntley, IL 60142. Representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its lead and Sub-No. 3F permits to broaden the commodity description in Sub-No. 3F, from coffee, tea, beverage mix, and beverage kits and parts for beverages kits to "food and related products." In the lead permit, applicant seeks to eliminate the restrictions to the transportation of shipments originating at and/or destined to named points and facilities and restrictions prohibiting transportation of specified commodities originating at and destined to named points; and, in both permits to broaden its territorial authority to "between points in the U.S.," under continuing contract(s) with named shippers.

MC 142299 (Sub-3)X, filed February 26, 1981. Applicant: TRUCK RAIL TRUCK SERVICE CO. INC., 4000 West 10th St., Indianapolis, IN 46222. Representative: Joann M. Rumell, 658 Brushwood Way, Greenwood, IN 46142. Applicant, a non-rail-affiliated carrier, seeks to remove restrictions in its Sub. No. 2 certificate to (1) remove a restriction requiring a prior or subsequent move by rail and moving in rail owned or controlled trailers, (2) remove a restriction limiting service at South Bend, IN and its commercial zone to traffic originating at or destined to a named facility, (3) remove a restriction against commodities in bulk, in tank and dump vehicles, and motor vehicles from its general commodity authority and, (4) broaden the origin points from Chicago, IL rail terminals to Chicago, IL.

MC 143059 (Sub-167)X, filed February 24, 1981. Applicant: MERCER TRANSPORTATION CO., P.O. Box 35610, Louisville, KY 40232. Representative: John M. Nader, 1600-Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions in its Sub-Nos. 32F, 36F, 41F, 46F, 55F, 59F, 64F, 73F, 113F and 116F certificates to (1) broaden the commodity description to "lumber and wood products" from used railroad ties, in Sub-No. 32F; from cross ties, switch ties, lumber, piling and posts, in Sub-No. 36F; from lumber and lumber products, in Sub-Nos. 41F, 73F and 116F; from forest products, lumber and lumber products, in Sub-No. 46F; from lumber, in Sub-No. 55F; from particle board, in Sub-No. 59F; and from lumber, forest products, wood products and lumber mill products, in Sub-Nos. 64F and 113F; (2) remove restriction against service to AK and HI, in Sub-Nos. 64F, 73F and 113F, (3) change one-way authorities to radial authorities between specified counties and cities and points throughout the U.S. in Sub-Nos. 32F, 46F, 59F, 64F, 73, 113F and 116F, (4) eliminate restrictions (a) limiting services to the facilities of named shippers in Sub-Nos. 36F, 41F, 46F, 55F, 59F, 64F, 73F, and 116F and (b) originating at or destined to particular facilites or points in Sub-Nos. 36F, 46F, 55F, 59F, 64F, 73F, and 116F and (5) expanding the territorial authority to authorize county-wide authority in place of specified facilities at named points: in Sub-No. 36F, Terre Haute, IN, with Vigo County, IN; in Sub-No. 46F, Hatchechubbee, AL with Russell County, AL; in Sub-No. 55F, Meridian, MS with Lauderdale County, MS: in Sub-No. 59F, Alburquerque, NM with Bernilillo County, NM; in Sub-No. 64F, Ashland, MT with Rosebud County, MT: and in Sub-Nos. 73F and 116F Ola and Waldo, AR with Yell and Columbia Counties, AR, respectively.

MC 143621 (Sub-55)X, filed February 27, 1981. Applicant: TENNESSEE STEEL HAULERS, INC., P.O. Box 100991, Nashville, TN 37210. Representative: Kim D. Mann, 7101 Wisconsin Ave., Suite 1010, Washington, DC 20014. Applicant seeks to remove restrictions in its Sub-Nos. 18F, 24F, 27F, 30F, 34F, 38F, 44F, 47F, 48F, 49F, and 50F certificates to (1) broaden the commodity descriptions from iron and steel articles, steel coils, steel pipe and tubing, and fabricated structural steel to "metal products", from zinc, zinc alloys, and zinc products to "ores and minerals" and "metal products", from cross ties to "lumber and wood products", and from plastic pipe and fittings to "rubber and plastic products", wherever they appear in each of the above-numbered certificates; (2) remove exceptions against service to AK and HI

in Sub-Nos. 24F and 30F; (3) delete the facilities limitations at Harriman, TN and Newport, AR in Sub-No. 34F; at Nashville, TN in Sub-Nos. 44F, 49F and 50F; at Sparta, TN in Sub-No. 47F; and at Batesville, IN in Sub-No. 48F; (4) replace named origin and destination points with county-wide authority: in Sub-No. 27F, from Lenoir City, TN to Loudon County, TN; in Sub-No. 30F, from Cadiz, KY to Trigg County, KY, and from Madison, IL to Madison County, IL; in Sub-No. 34F, from Newport, AR to Jackson County, AR; in Sub-No. 36F, from Meridian, MS to Lauderdale County, MS; in Sub-No. 47F, from Sparta, TN to White County, TN; and in Sub-No. 48F, from Manchester, TN to Coffee County, TN; and (5) expand territorial descriptions in all sub-numbers except Sub-No. 44F from one-way authority to radial operations between points located throughout the U.S.

MC 143772 (Sub-4)X, filed February 23, 1981. Applicant: H & W TRUCKING COMPANY, INC., Box 38, Ona, WV 25545. Representative: John M. Friedman, 2930 Putnam Ave., Hurricane WV, 25526. Applicant seeks to remove restrictions in its Sub-No. 3F certificate to (1) broaden the commodity descrition from building materials (except in bulk) to "building materials", from electrical mining equipment to "electrical machinery, equipment or supplies", from mine roof bolts and plates to "metal products" and from sewage treatment plants and fabricated steel items to "machinery and metal products" and (2) broaden the territorial authority by replacing one way authority with radial authority between named points in WV, KY, OH, VA, and PA in all commodities except building materials which would move between Cabell County WV and points in the U.S.

MC 143995 (Sub-26)X, filed February 27, 1981. Applicant: SLOAN TRANSPORTATION, INC., Route 4, Box 720, Davenport, IA 52804. Representative: James M. Hodge, 1980 Financial Center, Des Moines, IA 50309. Applicant seeks to remove restrictions in its Sub-Nos. 18F and 19F permits to (1) broaden the commodity description from canned and preserved food stuffs to "food and related products" in Sub-No. 19, (2) remove the commodity restriction, "except commodities in bulk" in Sub-No. 18, and (3) authorize service to between points in the U.S., under continuing contract(s) with a named shipper in both Sub-Nos.

MC 145457 (Sub-6)X, filed February 26, 1981. Applicant: B & M EXPRESS, INC., P.O. Box 82506, Oklahoma City, OK 73148. Representative: William P. Parker, Suite 615-East, The Oil Center, 2601 Northwest Expressway, Oklahoma City, OK 73112. Applicant seeks to remove restrictions in its Sub-Nos. 3F and 4F certificates to (1) remove the "except frozen commodities and commodities in bulk" restrictions in Sub-No. 3F and the "except commodities in bulk, in tank vehicles" restrictions in Sub-No. 4F; (2) replace the named facilities with city-wide authority: Houston, TX in Sub-No. 3F and Oklahoma City, OK in Sub-No. 4F; (3) change one-way authority to radial authority between Houston, TX, and, points in OK in Sub-No. 3F; and (4) remove the restriction limiting service to the transportation of traffic originating at or destined to named origins and destinations in Sub-No. 4F.

MC 145606 (Sub-5)X, filed February 24, 1981. Applicant: RED ARROW DELIVERY SERVICE CO., INC., Metropolitan Airport, Nashville, TN. Representative: Peter A. Greene, 1920 N Street NW., Washington, DC 20036.Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) remove all exceptions in its general commodities authority except "classes A and B explosives"; (2) replace authority to serve specified airports and cities with county-wide authority, allowing radial service between points in those counties and points in numerous other specified counties in TN, KY, and AL; Davidson County, TN (for Metropolitan Airport, at Nashville, TN); Hamilton County, OH (for Greater Cincinnati Airport, at Cincinnati, OH; New York, NY (for John F. Kennedy International Airport); Knox County, TN (for McGhee Tyson Airport at Knoxville, TN); Hamilton County, TN (for Lovell Field, at Chattanooga, TN); Cook County, IL (for O'Hare International Airport, at Chicago, IL); Fulton County, GA (for Atlanta International Airport, at Atlanta, GA); Shelby County, TN for Memphis International Airport, at Memphis, TN); Jefferson County, KY (for Standiford Field, at Louisville, KY); and Morgan County, AL (for Decatur, AL); and (3) remove the restriction limiting service to the transportation of traffic having a prior or subsequent movement by air.

MC 147055 (Sub-4)X, filed February 27, 1981. Applicant: CURTIS DENNIS EQUIPMENT, INC., d.b.a. C.D.E. EXPRESS, P.O. Box 2057, Heath, OH 43055. Representative: E. H. van Deusen, P.O. Box 97, Dublin, OH 43017. Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) broaden the commodity description from paper and paper articles to "pulp, paper and related products and printed matter", and (2) broaden city to county-wide authority from Hebron, OH, to Licking County, OH.

MC 148247 (Sub-1)X, filed February 23, 1981. Applicant: BROCK CANDY COMPANY, a corporation, 4120 Jersey Pike, Chattanooga, TN 37421. Representative: M. C. Ellis, c/o Chattanooga Freight Bureau, Inc., 1001 Market Street, Chattanooga, TN 37402. Applicant seeks to remove restrictions in its lead permit to (1) broaden the commodity description from foodstuffs and packaging materials to "food and related products," and (2) broaden the territorial description to between points in the U.S., under continuing contract(s) with named shippers.

MC 149462 (Sub-3)X, filed February 23, 1981. Applicant: ABLE TRUCKING, INC., 4425 Highway 31-E, Room 215, Clarksville, IN 47130. Representative: John M. Nader, 1600 Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) broaden the commodity description from foodstuffs (except frozen or in bulk) to "food and related products", (2) replace plantsite facilities at Jeffersonville, IN with Clark County, IN, (3) remove the exceptions of AK and HI, (4) remove the restriction limiting service to traffic originating at named facilities, and (5) authorize radial service in place of existing one-way authority between Clark County, IN and points in the U.S.

[Volume No. OP1-050]

Motor Carrier Permanent Authority Applications; Correction

Decided: February 26, 1981.

The following volume was incorrectly published on March 5, 1981 under the fitness guidelines, and is being republished this issue to reflect that the following applications fall under the non-fitness standards.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicant with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 2, Members Chandler, Eaton and Liberman.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 114241 (Sub-10F), filed November 13, 1980. Applicant: C. T. HERTZSCH, INC., Speed, IN 47172. Representative: Louis B. Hertzsch, P.O. Box 35750, Louisville, KY 40232.

BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-10)]

Norfolk and Western Railway Co. Exemption for Contract Tariff ICC-NW-C-5006

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). The previously filed contract tariff will become effective on 20 days' notice. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275-7656

SUPPLEMENTARY INFORMATION: Norfolk and Western Railway Company (N&W) has requested an exemption from the requirement of 49 U.S.C. 10713(e) that its contract tariff ICC-NW-C-5006 be made effective on a minimum of 30 days' notice. This tariff is currently scheduled to take effect on March 28, 1981. N&W seeks to advance this effective date by 10 days to March 18. The tariff reflects a contract of 30 days' duration.

The contract is designed to expedite the loading, line-haul movement, and dumping of export coal at N&W's Lamberts Point piers located at Norfolk, VA. It relates to one vessel load of coal and establishes a restricted number of origin mines, a specified period for car loading, a rail transit period, and a vessel berthing date. Non-contract operations are not subject to such schedules. N&W believes that the contact will result in reductions in car detention times at origin and destination and in line-haul movement times. Coordination of coal and vessel arrivals at the piers and contractual limitations on blending operations should also improve utilization of pier facilities. Petitioner states that these facilities are now extremely congested.

N&W takes the position that the 30-day notice period unnecessarily delays these benefits. It further points out the approaching expiration of the United Mine Workers' contract on March 27, 1981. And the possibility of a strike on that date. Such a strike would jeopardize full performance of the contract if it did not become effective until March 28. N&W believes that the requested 10-day advancement of this date might allow performance even in the event of a strike. Petitioner states that it is not aware of any protests which will be filed against the tariff.

Under 49 U.S.C. 10713(e), contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. CF. former section 10762(d)(1). However, we may address the same relief under our section 10505 exemption authority and we do so here.

The contract will allow the most efficient use of N&W's Norfolk pier facilities. To permit the contract to become effective only after a 30 day period could frustrate this purpose in the event of a coal miners' strike. We believe that the contract proposal will enhance carrier service by encouraging efficient use of transporation facilities and should not impair the carrier's obligation to provide service to other shippers. We thus conclude that authorization of a provisional exemption is warranted.

N&W has already indicated in its petition a willingness to be bound by the following conditions, which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on 20 days' notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review the contract and to disapprove it during the periods specified in 49 U.S.C. 10713.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in this instance is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. These interests can be fully protected by allowing the contract to become effective on 20 days' notice. Further, we will consider revoking this exemption under 49 U.S.C. 10505 (c) if protests are filed within 15 days of publication in the **Federal Register.**

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Authority: 49 U.S.C. 10505.

Decided: March 5, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Volume No. 40]

Motor Carrier, Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: March 12, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

Agatha L. Mergenovich,
Secretary.

MC 15975 (Sub-47)X, filed March 2, 1981. Applicant: BUSKE LINES, INC., 123 W. Tyler Ave., Litchfield, IL 62056. Representative: Howard H. Buske (same address as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 26F and 31F certificates to broaden their territorial authorities by replacing the named facility limitations at or near Detroit, MI with Detroit, MI.

MC 35320 (Sub-643)X, filed February 27, 1981. Applicant: T.I.M.E.-DC, INC., 2598 74th Street, P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth C. Thomas (same address as applicant). Applicant seeks to remove restrictions in its Sub-No. 280F certificate to (1) remove all restrictions in the general commodity description except "classes A and B explosives" and (2) by removing named facilities limitations to authorize service at the off-route points of Columbus and Franklin, TN, in place of the named facilities.

MC 37886 (Sub-42)X, filed March 2, 1981. Applicant: YOUNGBLOOD TRUCK LINES, INC., P.O. Box 1048, Fletcher, NC 28732. Representative: Henery B. Stockinger (same as above). Applicant seeks to remove restrictions in its Sub 19F permit by (1) broadening the commodity description from textiles, textile products, and materials and supplies used in the manufacture of apparel and home furnishings to "textile mill products and chemicals or allied products," and (2) broaden the territorial description to between points in the U.S.

MC 39503 (Sub-184)X, filed February 27, 1981. Applicant: THE MASON AND DIXON LINE, INC., P.O. Box 969, Kingsport, TN 37662. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Ave., Washington, DC 20014. Applicant seeks to broaden the commodity description in each certificate by (1) removing all restrictions in its general commodities authority "except Classes A and B explosives" in Sub-Nos. 75, 78, 82, 93, 99, 104, 109, 112, 113, 117, 120, 124, 129, 132, 133, 135, 140, 143, 145, 148, 152, 154, 156, 161, 166F, 176F and 178F regular-route certificates authorizing service to off-route points in AL, GA, IL, IN, MD, MS, NY, NC, OH, PA, TN and VA, in connection with other regular-route operations, and (2) removing all restrictions in its general commodities authority "except Classes A and B explosives" in Sub-Nos. 168F and 172F regular-route certificates authorizing two-way service in AL and in PA. Applicant also seeks to remove all restrictions in its general commodities authority "except Classes A and B explosives" in Sub-Nos. 125 and 131 irregular-route certificates. Applicant also seeks to broaden its off-route territoral authority by removing limitations requiring service to be performed at specifically-named facilities, to instead authorize service to: Sub-No. 99, Archer, GA, on GA Hwy 341 (plantsite of E. T. Barwick Mills); Sub-No. 104, Spring Grove, PA (plantsite of P. H. Glatfelter Co.); Sub-No. 112, Du Page Township, Will County, IL (plantsite of Johnson & Johnson in the Argonne Industrial District); Sub-No. 113, Hampton PA (plantsite of Grinnel Corp.); Sub-No. 129, Sneedville, TN (plantsite of Morrell Electric Co.); Sub-No. 132, Sand Mountain, AL (plantsite of Monsanto Textile Co.); Sub-No. 133, Ashville, OH (plantsite of Reynolds Metals Co.); Sub-No. 145, Elma Township, NY (plantsite of Western Electric Co.); Sub-No. 152, Eldersbury, MD (facilities of Londontown Corp.) It also seeks to remove a restriction limiting service to traffic originating at or destined to the plantsite of Monsanto Textile Co., in Sub-No. 182.

MC 65697 (Sub-61)X, filed February 24, 1981. Applicant: THEATRES SERVICE COMPANY, P.O. Box 1695, Atlanta, GA 30301. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-No. 32 regular route certificate to (1) broaden the commodity description from general commodities (with usual exceptions), having an immediately prior or an immediately subsequent movement by air to "general commodities (except class A and B explosives)," (2) broaden the territorial description from named airports to cities and commercial zones, for example: (a) Birmingham Municipal Airport at or near Brimingham, AL to Birmingham, AL, (b) Montgomery Municipal Airport at or near Montgomery, AL to Montgomery, Al, (c) Albany Municipal Airport at or near Albany, GA to Albany, GA (d) Knoxville Municipal Airport at or near Alcoa, TN to Knoxville, TN, (e) Chattanooga Municipal Airport at or near Chattanooga, TN to Chattanooga, TN (f) Nashville Metropolitan Airport at or near Nashville, TN to Nashville, TN and (g) Atlanta Municipal Aiport at or near Atlanta, GA to Atlanta, GA and (3) remove all tacking and joinder restrictions.

MC 99902 (Sub-7)X, filed March 2, 1981. Applicant: DAVE'S MOTOR TRANSPORTATION, INC., Logan International Airport, Boston, MA 02128. Representative: Joseph M. Klements, 84 State St., Boston, MA 02109. Applicant seeks to remove restrictions in its Sub-Nos. 3, 5, and 6 certificates to (1) remove all exceptions to its general commodities authority (except classes A and B explosives); (2) remove ex-air restrictions in each sub-number; and (3) change airport designations to city-wide or county-wide authority: In Sub-Nos. 3 and 5, from Logan International Airport, Boston, MA to "Boston, MA"; in Sub-Nos. 5 and 7, from Bradley Field, Windsor Locks, CT to "Hartford County, CT"; from La Guardia and John F. Kennedy International Airports, New York, NY to "New York, NY"; and from

Newark Airport, Newark, NJ to "Newark, NJ".

MC 111274 (Sub-67)X, filed March 2, 1981. Applicant: SCHMIDGALL TRANSFER INC., P.O. Box 351, Morton, IL 61550. Representative: Frederick C. Schmidgall (same address as applicant). Applicant seeks to remove restrictions in its Sub-No. 58F permit to broaden the territorial description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 111274 (Sub-68)X, filed March 2, 1981. Applicant: SCHMIDGALL TRANSFER INC., P.O. Box 351, Morton, IL 61550. Representative: Frederick C. Schmidgall (same as above). Applicant seeks to remove restrictions in its Sub-No. 58F permit to broaden the territorial scope to "between points in the U.S. under continuing contract(s) with a named shipper" (which includes the International Boundary of the U.S. and Canada) requested by applicant.

MC 111956 (Sub-60)X, filed March 2, 1981. Applicant: SUWAK TRUCKING CO., 1105 Fayette Street, Washington, PA 15301. Representative: Henry M. Wick, Jr., 2310 Grant Bldg., Pittsburgh, PA 15219. Applicant seeks to remove restrictions in its Sub-Nos. 49F and 54F certificates to (1) broaden its commodity descriptions from general commodities (with exceptions), in containers or in trailers, to "general commodities (except classes A and B (explosives)", in both certificates; and (2) eliminate the restriction limiting service to the transportation to traffic having an immediately prior or subsequent movement by water in foreign commerce, in both certificates.

MC 113855 (Sub-522)X, filed February 11, 1981, previously noticed in the **Federal Register** of February 25, 1981, republished as corrected this issue. Applicant: INTERNATIONAL TRANSPORT INC., 2450 Marion Road, SE, Rochester, MN 55901. Representative: Michael E. Miller, 502 First National Bank Bldg, Fargo, ND 58126. Applicant seeks to remove restrictions in its Sub-No. 350 certificate to (1) broaden its commodity description from processed sulfur (except in bulk, in tank vehicles), to "Chemicals and related products", (2) replace its one-way authority with radial authority, between ports of entry on the United States-Canada Boundary line, located at points in Montana, and points in CA, CO, ID, IL, IN, IA, KS, KY, MI, MN, MO, MT, NE, NV, ND, OH, OR, SD, UT, WA, WI, and WY, and (3) eliminate the restriction restricting transportation to traffic originating at points in the Province of Alberta, Canada. The purpose of this republication is to add the States of Kansas and Montana to part (2) of the caption summary.

MC 119974 (Sub-236)X, filed February 26, 1981. Applicant: L.C.L. TRANSIT COMPANY, 949 Advance St., Green Bay, WI 54305. Representative: Carl L. Steiner, 39 South LaSalle St., Chicago, IL 60603. Applicant seeks to remove restrictions in its lead and Sub-Nos. 43, 44, 45, 47, 54, 55, 56, 59, 68, 73, 74, and 75 certificates; in the lead, paragraph (D), remove restriction to the transportation from, to, and between the facilities used by wholesale food business houses; in Sub-No. 43, (a) change commodity description from frozen foodstuffs (except commodities in bulk, in tank vehicles), and frozen meat and meat by-products unfit for human consumption (except commodities in bulk, in tank vehicles) to "food and related products"; (b) remove facilities limitation at Beaver Dam and Milwaukee, WI; (c) replace city with county-wide authority, Beaver Dam, WI with Dodge County, WI; (d) remove and originating at and destined to named points restriction; and (e) change one-way to radial authority between Dodge County and Milwaukee, WI, and, points in 12 states; in Sub-No. 44, (a) change commodity description from potato products, (except in bulk) to "food and related products"; (b) remove an originating at and destined to named points restriction; (c) replace city with county-wide authority: Plover, WI with Portage County, WI; and (e) change one-way to radial authority between Portage County, WI and, points in 11 states; in Sub-No. 45, (a) change commodity description from confectionery to "food and related products"; (b) remove a facilities limitation and replace city with county-wide authority, Frankfort, IN with Clinton County, IN; (c) remove an originating at and destined to named points restriction; and (d) change one-way to radial authority between Clinton County, IN and Kansas City, MO and points in NE; in Sub-No. 47, (a) change commodity description from meat, meat products, meat by-products and articles distributed by meat packinghouses (except hides and commodities in bulk) to "food and related products"; (b) remove plantsite and storage facilities limitation and replace Crete, NE with Saline County, NE; and (c) change one-way to radial authority between points in Saline County, NE and points in 10 states; in Sub-No. 59, (a) change commodity description from products derived from corn and blends containing products derived from corn, in bulk, in tank vehicles, to "food and related products"; (b) remove plantsite limitation; (c) remove restriction of transportation of traffic originating at named facilities; (d) replace Montezuma, NY with Cayuga County, NY; (e) remove restriction against transportation to AK and HI; and (f) change one-way to radial authority, between Cayuga County, NY, and, points in the United States; in Sub-No. 54, (a) remove the facilities restriction limitation and replace Lafayette, IN with Tippecanoe County, IN; (b) remove a restriction to transportation of shipments originating at and destined to named points; (c) remove restriction against transportation to AK and HI; (d) change one-way to radial authority between Tippecanoe County, IN, and, points in the United States; and (e) remove an "in bulk, in tank vehicles" restriction; in Sub-No. 56, part (2)(b), (a) remove a facilities limitation, and replace Menomonee, MI and Gibbon, NE with Menomonee County, MI, and Buffalo County, NE; (b) change one-way to radial authority between Menomonee County, MI and Buffalo County, NE, and points in 13 states; and (c) remove a restriction to transportation of shipments originating at and destined to named points; in Sub-No. 78, (a) remove a facilities limitation, and replace Elk Grove Village, IL with Cook County, IL; (b) remove a restriction to transportation of shipments originating at and destined to named points; (c) change one-way to radial authority between Cook County, IL, and points in the Upper Peninsula of MI; (d) remove a restriction to vehicles equipped with mechanical refrigeration; and (e) remove a restriction against transportation of foodstuffs and commodities in bulk; in Sub-No. 55, (a) broaden commodity description from sugar and corn products in bulk to "food and related products"; (b) remove the AK and HI exception; and (c) broaden one-way authority to radial authority between Kansas City, MO-KS commercial zone, and points in the United States; in Sub-No. 68, (a) remove the requirement that foodstuffs move in mixed loads with other commodities to allow transportation of rubber and plastic products and foodstuffs, (b) remove mechanical refrigeration restriction; and (c) remove the facility limitation, and change one-way authority to radial authority between Milwaukee, WI, and, points in the Upper Peninsula of MI; in Sub-No. 75, (a) broaden the commodity description from vegetable oils and vegetable oil products, in bulk, in tank vehicles, to "food and related products"; and (b) replace city with county-wide authority, Adams County, IN for Decatur, IN; in Sub-No. 73F, (a) broaden the commodity description from animal feed, feed ingredients, additives, and

materials and supplies used in the manufacture and distribution of animal feed (except commodities in bulk) to "such commodities as are dealt in or used by manufacturers or distributors of animal feed"; (b) remove the facilities limitation and replace Mattoon, IL with Coles County, IL; and (c) remove restriction requiring shipments originate at or destined to a named point; in Sub-No. 80F, (a) broaden commodity description from (1) paper and paper products and (2) cleaning compounds (except commodities in bulk) to "pulp, paper and related products and chemicals and related products"; (b) replace city with county-wide authority, Brown and Oconto Counties, WI for Green Bay and Peshtigo, WI; (c) remove a restriction requiring that transportation of traffic originate at or destined to named points; and (d) change one-way to radial authority between Brown and Oconto Counties, WI, and, Kansas City, MO and points in IA; in Sub-No. 74F, (a) remove the restrictions against the transportation of commodities in bulk and foodstuffs; (b) remove the restriction against transportation of traffic originating at and destined to named points; (c) remove the restriction requiring vehicles equipped with mechanical refrigeration; and (d) replace one-way authority with radial authority between Chicago, IL, and, Minneapolis, MN; and in Sub-No. 66F, (a) remove facilities limitation; (b) remove the foodstuffs and in bulk restriction; (c) remove the requirement of vehicles equipped with mechanical refrigeration; (d) remover restriction requiring that traffic originate at or destined to named points; and (e) replace one-way authority with radial authority between Chicago, IL, and, points in 8 states.

MC 121496 (Sub-64)X, filed February 27, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-No. 18F certificate, to (1) broaden the commodity description from "liquid chemicals, in bulk, in tank vehicles", to "commodities in bulk", and (2) broaden the territorial description by (a) removing the facilities limitation at and substitute Iberville Parish, LA, for Plaquemine, LA, (b) eliminating the "except AK and HI" restriction, and (c) replacing one-way with radial authority between Iberville Parish, LA, and points in the U.S.

MC 123788 (Sub-7)X, filed March 2, 1981. Applicant: AMERICAN-WESTERN COMPANY, INC., POB 430, Dallas, OR 97338. Representative: David C. White, 2400 SW Fourth Ave., Portland, OR 97201. Applicant seeks to remove restrictions in its lead, Sub-Nos. 2 and 5F permits to (1) broaden the commodity descriptions from: lift trucks in the lead and Sub-No. 2; and materials, equipment, parts and supplies used in the manufacture of products at the facilities of Towmotor Corporation at Dallas, OR, in Sub-No. 5, to "machinery and such commodities as are used in the manufacture and distribution of machinery"; and (2) broaden the territorial scope by replacing existing authority with authority between points in the U.S. under continuing contract(s) with a named shipper.

MC 133689 (Sub-57)X, filed March 2, 1981. Applicant: OVERLAND EXPRESS, INC., 9651 Naples Street, NE, Blaine, MN 55434. Representative: Robert P. Sack, P.O. Box Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions in its Sub-Nos. 30 and 52 certificates by broadening the commodity descriptions from frozen potatoes, potato products, food ingredients and foodstuff to "food and related products"; by replacing Caribou and Presque Isle, ME, with Aroostook County, ME; by eliminating the "originating at and destined to" and an "in bulk" restriction in both authorities; and by expanding its one-way authority to radial authority between Aroostock County, ME, and, points in fifteen states and portions of NY and PA, in both authorities.

MC 134477 (Sub-437)X, filed March 2, 1981. Applicant: SCHANNO TRANSPORTATION, INC., 5 West Mendota Rd., West St. Paul, MN 55118. Representative: Thomas D. Fischback, P.O. Box 43486, St. Paul, MN 55164. Applicant seeks to remove restrictions in its Sub-No. 416F certificate by (1) broadening the commodity description from general commodities (with the usual exceptions) to "general commodities (except classes A and B explosives)"; (2) by deleting the facilities limitation at Chicago and Itasca, IL and replace Itasca, IL with Du Page County, IL; and (3) broadening its one-way authority to radial authority between Chicago, IL, and Du Page County, IL, and, points in IA, MN, NE, ND, SD, and WI.

MC 134493 (Sub-7)X, filed February 26, 1981. Applicant: CHICAGO-ST. LOUIS TRANSPORT, INC., 2064 W. 167th St., Markham, IL 60426. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602. Applicant seeks to remove restrictions in its Sub-No. 3 certificate to (1) change the commodity description from malt beverages and empty containers to "food and related products"; and (2) change from city to county-wide authority and authorize radial authority between Franklin County, OH, (for Columbus, OH) and Chicago, Du Page County, IL (for Addison) and Will County, IL (for Joliet).

MC 136077 (Sub-28)X, filed February 27, 1981. Applicant: REBER CORPORATION, 2216 Old Arch Rd., Norristown, PA 19401. Representative: Richard L. Thurston, One Franklin Plaza, 15th Floor, Philadephia, PA 19102. Applicant seeks to remove restrictions in its Sub-No. 14F certificate to remove the facilities limitations at and substitute counties for the following points: Erie County, NY, for Akron, NY, Weschester County, NY, for Buchanan, NY, Camden County, NJ, for Delair, NJ, Caroline County, VA, for Milford, VA, Bucks County, PA, for Quakertown, PA, and New Castle County, DE, for Wilmington, DE, to authorize service radially between those counties and a described portion of the eastern U.S.

MC 136773 (Sub-9)X, filed February 27, 1981. Applicant: S.T.S. MOTOR FREIGHT, INC., 107 Evergreen Road, Stratford, NJ 08084. Representative: Alan Kahn, 1430 Land Title Building, Philadephia, PA 19110. Applicant seeks to remove restrictions in its Sub-No. 6F certificate to (1) broaden the commodity description by removing all restrictions from its general commodities authority "except classes A and B explosives" and (2) broaden the territorial description to remove the limitation to service between the carrier's terminals at Philadelphia, PA and Pennsauken, NJ to authorize service between Philadelphia, PA and Pennsauken, NJ, and points in DE, five counties in MD, and parts of NJ, NY, and PA.

MC 138157 (Sub-265)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market Street, Chattanooga, TN 37410. Representative: Patrick E. Quinn (same as above). Applicant seeks to remove restricts in it Sub 65F certificate to (1) Broaden the commodity description from carpets, carpeting, carpet padding and yarn, and materials, equipment, and supplies used in the manufacture, production, and distribution of the commodities named above to "such commodities as are dealt in by manufacturers of carpeting, yarn, and floor covering materials"; (2) replace the facilities at or near Dalton, GA with Whitfield County, GA; (3) change its one-way authority to radial authority between Whitfield County GA,

and points in the US in and east of ND, SD, NE, KS, DK, and TX; (4) eliminate the restrictions against the transportation of commodities in bulk, in tank vehicles; and (5) remove the restriction limiting service to the transportation of traffic originating at or destined to named facilities.

MC 138157 (Sub-288)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market Street, Chattanooga, TN 37410. Representative: Patrick E. Quinn (same as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 92F, 183F, and 240F certificates to (1) broaden its commodity descriptions from tires, tire tubes, and rubber (except commodities in bulk), plastic articles and materials, equipment, and supplies used in the manufacture thereof, and plastic articles (except in bulk), "rubber and plastic products", in each certificate; (2) replace named facilities located at or near Oklahoma City, OK, with Oklahoma City, OK, in Sub-No. 92F; (3) change one-way authority to radial authority (a) between Oklahoma City, OK and points in 11 eastern States, in Sub-No. 92F, (b) between CA, and points in the U.S. in and east of MT, WY, CO, and NM, in Sub-No. 183F, and (c) between Brooklyn, NY, and points in the U.S. in Sub-No. 240F; and (4) eliminate the restrictions (a) limiting service to transportation of traffic originating at and destined to named facilities, in Sub-No. 92F, (b) against the transportation of plasticgranules, styrofoam, plastic bags, and film, in Sub-No. 183F, and (c) prohibiting transportation to AK and HI, in Sub-No. 240F.

MC 138157 (Sub-289)X, filed February 27, 1981. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., d.b.a. SOUTHWEST MOTOR FREIGHT, 2931 South Market Street, Chattanooga, TN 37410. Representative: Patrick E. Quinn (same as above). Applicant seeks to remove restrictions in its Sub-Nos. 147F, 197F, and 242F certificates to (1) broaden the general commodities descriptions [with the usual exceptions and frozen food (Sub-No. 242F)] to "general commodities (except classes A and B explosives)"; (2) eliminate the plantsite of USC Shipper Association and replace with city-wide authority to serve Los Angeles, CA in Sub-Nos. 147F and 197F; (3) replace city-wide authority with county-wide authority: Seattle and Kent with King County, WA in Sub-No. 242F; (4) change its one-way authorities to radial authorities between; (a) Los Angeles, CA, and points in the U.S. in and east of MT, WY, CO, and NM in Sub-No. 147F; (b) Los Angeles, CA, and points in WA, OR, ID, NV, UT, and AZ in Sub-No. 197F; and (c) King County, WA, and, points in the US; (5) remove the "except AK and HI" restriction in Sub-No. 242F; and (6) remove the restriction limiting service to the transportation of traffic originating at the named origin and destined to the named destinations in Sub-Nos. 147F, 197F and 242F.

MC 139380 (Sub-8)X, filed February 23, 1981. Applicant: STIDHAM TRUCKING, INC., P.O. Box 308, Yreka, CA 96097. Representative: O. L. Stidham (same address as above). Applicant seeks to remove restrictions in its Sub-No. 6F certificate to change the commodity description from equipment, materials, and supplies used in the manufacture and distribution of containers to "such commodities as are dealt in by container manufacturers", between points in CA, NV, ID, OR, and WA.

MC 141121 (Sub-4)X, filed February 26, 1981. Applicant: MENSCH TRUCKING, INC., P.O. Box 22, Milton, PA 17847. Representative: Eugene M. Malkin, Two World Trade Center, Suite 1832, New York, NY 10048. Applicant seeks to remove restrictions in its lead and Sub-No. 3F certificates to (1) broaden the commodity descriptions from foodstuffs (except frozen foods and except commodities in bulk, in tank vehicles) to "food and related products" in its lead, and from such commodities as are dealt in or used or used by wholesale, retail, and chain grocery and food business houses (except salt commodities in bulk and those which because of size or weight require the use of special equipment) to "such commodities as are dealt in or used by wholesale, retail and chain grocery and food business houses" in Sub-No. 3F, and (2) remove the facilities limitations and replace Milton, PA with Northumberland County, PA in the lead.

MC 143446 (Sub-4)X, filed February 27, 1981. Applicant: GARY L. McCALLISTER and MONTE A. McCALLISTER, d.b.a. McCALLISTER BROTHERS, P.O. Box 2114, Rock Springs, WY 82901. Representative: Ward A. White, P.O. Box 568, Cheyene, WY 82001. Applicant seeks removal of restrictions in its Sub-Nos., 1F and 3F certificates to (1) remove the restrictions against transportation of complete drilling rigs in the Sub-Nos. 1F and 3F, (2) broaden the description in Paragraph (3) of its Sub 1F certificate from bentonite, barite, drilling compounds and completion materials to "Mercer Commodities"; (3) broaden the one-way authority in Paragraph [3] of Sub 1F to radial authority between points in Nevada on the one hand, and on the other hand, points Sweetwater, Carbon, Uinta, Lincoln, Teton, Fremont, Natrona, and Big Horn Counties, WY; points in Colorado located west of U.S. Hwy 85 and north of Interstate Hwy 70, U.S. Hwy 6, and points in Daggett, Summit, Duchesene, Uintah, Carbon, Grand, Sanpete, Utah, Wasatch, Salt Lake, Davis, Morgan, Weber, Rich, Cache, Toole, Box Elder, and Emory Counties, UT.

MC 143915 (Sub-2)X, filed March 2, 1981. Applicant: KAPTUR ENTERPRISES, INC., 2550 E. 198th Street, Lynwood, IL 60411. Representative: James C. Hardman, 33 N. La Salle Street, Chicago, IL 60602. Applicant seeks to remove restrictions from its lead and Sub-No. 1F permit by (1) removing the restriction "except in bulk" from the commodity description in its lead permit; (2) broadening the commodity description in its Sub-No. 1F permit from wood fiberboard, building materials, and supplies, lumber and lumber products and supplies to "building materials and lumber and wood products"; and (3) expanding the territorial authority in both permits to between points in the U.S., under contract(s) with a named shipper.

MC 144400 (Sub-1)X, filed March 2, 1981. Applicant: BI-RITE AUTO TRANSPORT, INC., 1902 West North Grand Avenue, Porterville, California 93257. Representative: Miles L. Kavaller, 315 South Beverly Drive, Suite 315, Beverly Hills, California 90212. Applicant seeks to remove restrictions from its lead certificate to (1) broaden its commodity description from used automobiles and trucks, in secondary movements, in truckaway service, to "transportation equipment," and (2) replace authority to serve named cities with authority to serve the County: Orange, Fresno, and Los Angeles Counties, CA, for Anaheim, Fresno, and Los Angeles, CA; and Ada, Canyon, and Cassia Counties, ID, for Boise, Burley, and Nampa, ID.

MC 145695 (Sub-8)X, filed March 4, 1981. Applicant: MAZCO SYSTEMS, INC., 140 Grand Street, Carlstadt, NJ 07072. Representative: Roy A. Jacobs, Esq., 550 Mamaroneck Avenue, Harrison, NY 10528. Applicant seeks to remove restrictions in its Sub-No. 4 permit by (1) broadening the commodity description from "refined copper" to "metal products and waste or scrap materials not identified by industry Producing" and (2) broadening the territorial description to between points

in the U.S. under continuing contract(s) with a named shipper.

MC 146551 (Sub-14)X, filed February 27, 1981. Applicant: TAYLOR TRANSPORT, INC., P.O. Box 285, Grand Rapids, OH 43522. Representative: Owen B. Katzman, 1828 L Street, N.W. Suite 1111, Washington, DC 20036. Applicant seeks to remove restrictions in its Sub-No. 2F certificate to (1) broaden the commodity description from cookies, non-carbonated fruit beverages, applesauce, vinegar, and materials, equipment and supplies to "food and related products"; (2) remove the "except commodities in bulk" restrictions; (3) remove the exceptions of AK and HI; (4) replace plantsite facilities with county-wide authority: Hancock County for McComb, OH; Bergen County for Fairlawn, NJ; Middlesex County for Littleton, MA; Van Wert County for Ohio City, OH; Lucas County for Maumee and Toledo, OH in its radial authority between these and other points and points in the U.S.

MC 146314 (Sub-9)X, filed February 26, 1981. Applicant: INTER-FREIGHT TRANSPORTATION, INC., 655 East 114th St., Chicago, IL 60628. Representative: Donald B. Levine, 39 S. LaSalle St., Chicago, IL 60603. Applicant seeks to remove restrictions in MC-146643 Sub-Nos. 3F, 10F, 14F, 18F, 22F, 24F, 30F, 32F, 33F, 35F, 39F, 40F, 41F, 43F, 44F, 45F, 46F, 48F, 49F, and 50F permits to (1) broaden the territorial description to "between points in the United States under continuing contracts with name shippers" in all Subs, (2) change the commodity descriptions in Sub-No. 3F, from glass containers and closures therefor and iron and steel articles to "clay, concrete, glass or stone products and metal products"; in Sub-No. 10F, from iron, steel and plastic containers and closures and handles for iron, steel and plastic containers to "clay, concrete, glass or stone products and metal products"; in Sub-No. 18F, from (1) containers, container closures, container components, glassware and packaging products, (2) scrap materials (except commodities in bulk, in tank vehicles, and those requiring special equipment), (3) materials, equipment and supplies used in the manufacture, sale, and distribution of (1) (except commodities in bulk, in tank vehicles, and those requiring special equipment), to "such commodities as are dealt in or used by manufacturers and distributors of containers, container closures, container components and packaging products, clay, concrete, glass or stone products, waste or scrap materials not identified by Industry Producing"; in Sub-No. 22F, from flour, in bags, and, animal food to "food and related products"; in Sub-No. 24F, from tin plate to "metal products"; in Sub-No. 30F from plastic articles and materials, equipment and supplies to "rubber and plastic products"; in Sub-No. 32F, from cleaning and polishing compounds, textile softeners, lubricants, hypochlorite solutions, deordorants, disinfectants, paints, stains, varnishes, plastic bags and filters (except commodities in bulk), to "chemicals and related products, and rubber and plastic products"; in Sub-No. 33F, from metal cans, ends, lids and covers to "metal products"; in Sub-No. 35F, from flour and bakery mix, in bags, to "food and related products"; in Sub-No. 39F, from flour (except in bulk), to "food and related products"; in Sub-No. 40, from pulpboard, boxes, and pulpboard sheets to "pulp, paper and related products"; in Sub-No. 41F, from foodstuffs (except in bulk), and flour, in bags to "food and related products"; in Sub-No. 43F, from paper and paper products, and materials and supplies used in the manufacture and processing of paper and paper products to "pulp, paper and related products"; in Sub-No. 45F, from (1) printed matter and (2) materials, equipment and supplies used in the manufacture, sale and distribution of commodities in (1) above, (except commodities in bulk), to "printed matter"; in Sub-No. 46F, from household and industrial cleaning products (except in bulk), to "chemicals and related products"; in Sub-No. 48F, from canned foodstuffs (except cold packed or frozen foodstuffs), to "food and related products"; in Sub-No. 49F, from foodstuffs (except in bulk), to "food and related products"; and Sub-No. 50F, from paper and paper products, and materials and supplies used in the manufacture and distribution of paper and paper products (except commodities in bulk), to "pulp, paper and paper products".

MC 148979 (Sub-2)X, filed February 27, 1981. Applicant: ROBERT JOHN ENTERPRISES, INC., d.b.a. PACIFIC TRANSPORT CO., P.O. Box 307, Wilmington, CA 90748. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609. Applicant seeks to remove restrictions in its Sub 1F Permit to (1) broaden the commodity description from iron and steel articles to "metal products" and (2) broaden the territorial description to between points in the US, under a contract(s) with named shippers.

MC 149281 (Sub-1)X, filed March 5, 1981. Applicant: FLEIG LEASING INC., 1267 Burlington Rd., Roxboro, NC 27573. Representative: Terrell C. Clark, P.O. Box 25, Stanleytown, VA 24168. Applicant seeks to remove restrictions in its lead permit to (1) broaden the commodity description from aluminum and aluminum articles, and equipment, materials, and supplies used in the distribution, installation, or manufacture of aluminum and aluminum articles to "metal products" and, (2) broaden the territorial description to "between points in the U.S. under continuing contract(s) with a named shipper."

MC 150066 (Sub-2)X, filed February 27, 1981. Applicant: MULTI-STATES TRANSPORT, INC., P.O. Box M244, Gary, IN 46401. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K Street, N.W., Washington, DC. Applicant seeks to remove restrictions from its Sub-No. 1F Permit by (1) broadening the commodity description from iron and steel articles, refractories and alloys, and scrap metal to "metal products refractories, and equipment materials and supplies used in the manufacture, sale and distribution thereof"; and (2) remove the facilities restrictions and expand its territorial description to between points in the U.S. under continuing contract(s) with a named shipper.

MC 150349 (Sub-2)X, filed February 26, 1981. Applicant: A & A TRUCKING CO., INC., 1013 Huron Trail, Jamestown, OH 45335. Representative: Earl N. Merwin, 85 East Gay Street, Columbus, OH 43215. Applicant seeks to remove restrictions in its Sub-No. 1F permit to (1) change the commodity description from paint, paint ingredients, putty, caulking and glazing compounds, glue, and adhesive cement (except in bulk, in tank vehicles), to "chemicals and related products"; and (2) broaden the territorial description to between points in the U.S. under continuing contract(s) with named shipper.

MC 150617 (Sub-2)X, filed March 2, 1981. Applicant: TRANSCONTINENTAL FREIGHT SYSTEMS, INC., 2559 S. Archer Ave., Chicago, IL 60608. Representative: Edward G. Bazelon, 39 S. LaSalle St., Chicago, IL 60603. Applicant seeks to remove restrictions from its lead certificate to (1) delete the exception against commodities in bulk in its authority to transport automotive parts and supplies; and (2) change Laredo, Eagle Pass and El Paso, TX to Webb, Maverick and El Paso Counties, TX.

Motor Carrier Transfer Proceedings

As indicated by the findings below, the Commission has approved the

following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 5, Members Krock, Taylor, and Williams.

MC–FC–78810. By decision of February 12, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132 Review Board Number 5 approved the transfer to Trans-American Truck Lines, Inc., of (1) Certificate Nos. MC–102560 issued July 26, 1956, authorizing the transportation, over irregular routes, of lumber, in truckloads, from Hammond, LA, to Jackson, MS, and points in Mississippi on and south of U.S. Highway 80; (2) MC–10560 (Sub-No. 5), issued December 9, 1960, authorizing the transportation, over irregular routes, of creosoted piling and poles from Slidell and Madisonville, LA, to points in Mississippi, and from Gulfport, MS, to points in Missouri, and piling and poles treated with creosota and/or chemicals from points in Mississippi to points in Louisiana; (3) MC–102560 (Sub-No. 7), issued May 2, 1963, authorizing the transportation, over irregular routes, of poles, piling, and lumber, which have been creosoted or chemically treated, from Slidell, LA, to points in Galveston, Harris, Jefferson and Orange Counties, TX; (4) No. MC–102560 (Sub-No. 8), issued February 6, 1968, authorizing the transportation, over irregular routes, of lumber, from points in Tangipahoa Parish, LA, to points in Orleans Parish, LA, steel pipe, angles and round iron, from points in Orleans Parish, LA, to points in Livingston Parish, LA, and poles, piling, cross ties, and lumber, from points in St. Tammany Parish, LA, to points in Orleans Parish, LA; (5) MC–102560 (Sub-No. 9), issued August 1, 1968, authorizing the transportation, over irregular routes, of steel and iron castings, steel reinforcing bars, angles, channels, and beams, wooden patterns for castings, bronze, bearings and pillar blocks, and crated bolts, nuts, and bushings, when moving with the above-named items, from the plant site of Dibert, Bancroft & Ross Co., Ltd., near Amite, LA, to points in the United States on and east of a line beginning at the United States—Canada Boundary line near Pembina, ND, and extending south along U.S. Highway 81 through Grand Forks and Fargo, ND, Watertown and Yanktown, SD, to Norfolk, NE, thence southeast along U.S. Highway 275 to junction U.S. Highway 77, thence along U.S. Highway 77 through Lincoln, NE, Junction City and Arkansas City, KS, to Ponca City, OK, thence along U.S. Highway 177 to Ardmore, OK, thence along U.S. Highway 77 through Dallas, Waco, Victoria, and Harlington, TX, to the United States-Mexico Boundary line at Brownsville, TX, including points on the indicated portions of the highways specified; (6) MC–102560 (Sub-No. 11), issued September 3, 1974, authorizing the transportation, over irregular routes, of lumber, lumber products, poles, and piling, from points in St. Tammany and Tangipahoa Parishes, LA, to points in Texas, Arkansas, Mississippi, Alabama, Florida, Georgia, Tennessee, Kentucky, Missouri, Indiana, Illinois, Ohio, and Michigan; (7) MC–102560 (Sub-No. 12), issued July 20, 1978, authorizing the transportation, over irregular routes, of plywood, from the plant site of Champion International Corporation near Holden, LA, to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Tennessee, and Texas; and (8) MC–102550 (Sub-No. 16), issued July 16, 1979, authorizing the transportation, over irregular routes, of brick and tile, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and proceeding along U.S. Highway 283 to junction U.S. Highway 67 at or near Coleman, TX, thence along U.S. Highway 67 to San Angelo, TX, thence along U.S. Highway 277 to the United States-Mexico Boundary line at or near Del Rio, TX (except points in Dallas and Tarrant Counties, TX), to points in Louisiana, Mississippi, Alabama, and Florida; each such certificate having been issued to Freilder Truck Lines, Inc., of Amite, LA. Applicant's representative is: Fletcher W. Cochran, esq., P.O. Box 711, Slidell, LA 70459.

MC–FC–78801. Supplemental. By decision of December 1, 1980 and published at 46 *Federal Register* 4009 (January 16, 1980), we authorized the transfer to S&P Trucking, Inc. of No. MC–140475 (Sub–Nos. 2,4, and 6), issued May 19, 1976 January 22, 1979, and November 6, 1980, respectively, to Holcomb Trucking Company, Inc. However, a review of Commission Records indicates that the Sub-No. 6 authority authorizes only the transportation of dry fertilizer and dry fertilizer ingredients, from Memphis and Nashville, TN, to points in Missouri, and not, additionally, (1) the transportation of dry fertilizer and fertilizer ingredients (a) from Nashville, TN to points in Missouri and (b) from the facilities utilized by United States Steel Corporation in Memphis, TN to points in Missouri and (2) dry fertilizer and fertilizer ingredients, in bulk, in dump vehicles, from Memphis, TN (except the facilities utilized by United States Steel Corporation), to points in Missouri, as indicated in the prior decision notice. Thus, the authority described in (4)(a) and (b) and in (5) in the prior notice is deleted. Applicant's representative is: Thomas P. Rose, P.O. Box 206, Jefferson City, MO 65102.

MC–FC–78939. By decision of January 28, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132. Review Board Number 5 approved the transfer to Lykes Transport, Inc., of Permit No. MC–146944 issued October 20, 1980, to Lykes Pasco Packing Co. authorizing the transportation of *meats*, from points in Alabama, Louisiana, Mississippi, North Dakota, South Dakota, Nebraska, Kansas, Colorado, Oklahoma, Texas, Minnesota, Iowa, Missouri, Arkansas, Wisconsin, Illinois, Tennessee, Indiana, Kentucky, Michigan, Ohio, and Georgia, to the facilities of Lykes Bros., Inc., in Georgia and Florida, under contining contract (a) with Lykes Bros, Inc., Tampa, FL. Subject to the following conditions:

Applicants' representative is: Ansley Watson, Jr., P.O. Box 1531, Tampa, FL 33601.

MC–FC–78958. By decision of February 12, 1981 issued under 49 U.S.C. 10931 or 10932 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to Wasatch Freight Line, Inc., of Salt Lake City, UT of Certificate of Registration No. MC–56984 (Sub–No. 2) issued December 23, 1963 to Grant Crocket, doing business as Murray & Midvale Truck Line of Salt Lake City, UT, and transfered in No. MC–FC76742 (decided November 26, 1976) to Valley Transfer, Inc., doing business as Air Land Express of Salt Lake City, UT. This Certificate of Registration evidence a right to engage in transportation in interstate commerce corresponding in scope to Certificate of Public Convenience and necessity No. 1890 issued by Public Service Commission of the State of Otah authorizing operations as a common carrier over regular routes transporting *general commodities* as follows: (a) From Salt Lake City to Murray, Midvale and Sandy, Utah, serving all intermediate points and return; and (b) Between Salt Lake City, Utah and Daper, Utah, via U.S. Highway 91 and Utah Highway 111, serving the intermediate and off-route points of Murray, Midvale & Sandy, Utah. Applicant's representative is: Rick J. Hall, P.O. Box 2465, Salt Lake City, UT 84110.

MC–FC–78962. By decision of January 16, 1981. Transferee: Harriet Transport, Inc., 63 Conway Street, P.O. Box D–620, New Bedford, MA, 02742. Transferor: Massachusetts Trucking Corp., P.O. Box F–649, New Bedford, MA 02742. Review Board 5 granted the purchase under 49 U.S.C. 10926 by transferee of rights of transferor in Certificate MC–61019 by decision of February , 1981. The right follow: (1) *General commodities*, with certain exceptions, over regular routes, from New York, NY to New Bedford, MA, serving defined off-route and intermediate points; (2) *fresh, frozen, smoked or salted fish*, over regular routes, from Boston, MA to Philadelphia, PA, subject to restrictions; (3) *fish, fish livers, fish oils, and fish scrap*, over regular and irregular routes, from points in Barnstable County, MN to Providence, RI, serving all intermediate points subject to restrictions; (4) *fish, fish livers, fish oils, and fish scrap*, from New Bedford, Fairhaven, and Fall River, MA, to Providence and Pawtucket, RI, points in the New York, NY Commercial Zone, and Philadelphia, PA, and *empty fish containers*, on return; (5) *malt beverages and advertising matter*, from (a) Newark, NJ to Providence and Pawtucket, RI, and Fall River, MA and (b) Newark, NJ and New York, NY London and Hartford, CT, and New Bedford, Tauton, and Brockton, MA, and *returned or rejected shipments of malt beverages and empty malt beverage containers*, from the destination points in (a) and (b) to the origin points in (a) and (b); and (6) *cranberries*, from points in Barnstable, Bristol, and Plymouth Counties, MA, to points in the New York, NY Commercial Zone. Transfere holds Certificate of Registration No. MC–120126 (Sub-1). Application has not been filed for temporary authority under 49 U.S.C. 11349. This application is directly related to MC–120126 (Sub-2) published in this Federal Register issue. Applicant's representative: Frank J. Weiner, 17 Court Square, Boston, MA 02108.

MC–FC–78964. By decision of February 12, 1981 issued under 49 U.S.C. 10926 and the transfer rules at C.F.R. 1132 Review Board Number 5 approved the transfer to Walco Transport, Inc., of Certificate No. MC–143032 (Sub-Nos. 2, GTO #16–1, 5F, 6F, 7F, 16F, 18F, 19F, 20F, 25F) issued to Thomas J. Walczynski d/b/a/ Walco Transport authorizing the transportation of *Heating briquets*, From Pine Bend, Minnesota to Superior, Wisconsin to points in Colorado, Illinois, Indiana, Iowa, Michigan, Minnesota, Montana, Nebraska, New York, North Dakota, Ohio, South Dakota and Wisconsin; and *Petroleum coke*, From Pine Bend, Minnesota to Superior, Wisconsin. *Dry fertilizer*, From Pine Bend, MN to points in ND and WI. (1) *heating briquets*, from Superior, WI, to points in the United States (except AK, CO, HI, IL, IN, IA, MN, MT, NE, NY, ND, OH, SD, and WI), and (2) *coke*, from superior, WI, to points in the United States (except AK and HI). BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to the requirements of Title 49, Subtitle IV, United Stated Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority is issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Notes.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY2—009

Decided March 9, 1981.

By The Commission, Review Board, No. 1 members, Parker, Chandler and Taylor.

MC 3753 (Sub-34), filed February 9, 1981. Applicant: AAA TRUCKING CORP., 3630 Quaker Bridge Rd., P.O. Box 8042, Trenton, NJ 08650. Representative: Zoe Ann Pace, Suite 2373, One World Trade Center, New York, NY 10048 (212) 432–0940. Transporting *general commodities* (except classes A and B explosives), between New York, NY, points in MA, CT, RI, NJ, DE, MD, DC, Belnap, Cheshire, Hillsborough, Merrimack, Rockingham, Strafford, and Sullivan Counties, NH, Broome, Chemung, Cortland, Nassau, Orange, Rockland, Suffolk, and Westchester Counties, NY, Clarke, Frederick, and Warren Counties, VA, Berkley, Jefferson, and Morgan Counties, WV, Bradford, Columbia, Lackawanna, Luzerne, Lycoming, Montour, Sullivan, Susquehanna, and Wyoming Counties, PA, and those in PA on and east of U.S. Hwy 11. BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F–103

The following applications were filed in Region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, Room 501, Boston, MA 02114.

Republication

BILLING CODE 7035-01-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 104–TAA–2]

Optic Liquid-Level Sensing Systems From Canada

AGENCY: United States International Trade Commission.

ACTION: Institution of a countervailing duty investigation.

SUMMARY: On January 8, 1979, the Department of the Treasury published in the **Federal Register** notice of Final Countervailing Duty Determination and Suspension of Liquidation (44 FR 1728). The notice stated that Treasury had determined that exports of optic liquid-level sensing systems from Canada, manufactured by Honeywell Limited, benefited from bounties or grants within the meaning of section 303 of the Tariff Act of 1930. Accordingly, imports of this merchandise into the United States have been subject to countervailing duties. On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective, and on January 2, 1980, the authority for administering the countervailing duty law was transferred from Treasury to the Department of Commerce. On May 13, 1980, Commerce published a notice in the **Federal Register** (44 FR 31455) of intent to conduct an animal administrative review of all outstanding countervailing duty orders.

Although the U.S. International Trade Commission received a request for this investigation on December 27, 1979, the effective date of title I of the Trade Agreements Act of 1979, under which the request was filed is January 1, 1980. The December 27, 1979, request was received from Honeywell Limited; a request by the Canadian Government was received by the Commission on January 2, 1980.

As required by section 751(a)(1) of the Tariff Act of 1930, Commerce has conducted its first annual administrative review of the order on optic liquid-level sensing systems, manufactured in Canada by Honeywell Limited. As a result, Commerce, in the **Federal Register** of January 14, 1981 (46 FR 3261), preliminarily determined that the net subsidy conferred is 12 percent ad valorem of the f.o.b. invoice price. On the basis of that determination, the United States International Trade Commission, pursuant to section 104(b)(2) of the Trade Agreements Act, is instituting an investigation with respect to optic liquid-level sensing systems from Canada. Commerce reported that it would issue a final determination in this case after analysis of issues received in written comments or at a hearing. However, no hearing was requested and no written comments had been received by the deadline for their submission to Commerce, February 13, 1981. Commerce's final determination as to the most current level of subsidies will be made as soon as possible.

EFFECTIVE DATE: March 11, 1981.

FOR FURTHER INFORMATION CONTACT: John MacHatton, Supervisory Investigator, U.S. International Trade Commission, Washington, D.C. 20436 (202–523–0439).

SUPPLEMENTARY INFORMATION: The United States International Trade Commission is instituting this countervailing duty investigation to determine whether an industry in the United States would be materially injured, would be threatened with material injury, or the establishment of an industry in the United States would be materially retarded, by reason of imports from Canada of optic liquid-level sensing systems currently entered under item 685.90 of the Tariff Schedules of the United States covered by the countervailing duty if the order were to be revoked.

Written Submission: Any person may submit to the Commission a written statement of information pertinent to this subject matter of this investigation. A signed original and nineteen (19) true

copies of each submission must be filed at the office of the Secretary, U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. 20436, on or before June 12, 1981. All written submissions, except the confidential business data, will be available for public inspection.

Any business information for which confidential treatment is desired must be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6).

A staff report containing preliminary findings of fact in this investigation will be available to all interested parties on May 11, 1981.

Public Hearing: The Commission will hold a public hearing in connection with this investigation on June 3, 1981, in the Hearing Room of the U.S. International Trade Commission Building, beginning at 10 a.m., e.d.t. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m., e.d.t.) on May 25, 1981. All persons desiring to appear at the hearing and make oral presentations must file prehearing statements and should attend a prehearing conference to be held at 10 a.m., e.d.t., on May 27, 1981, in Room 117 of the U.S. International Trade Commission Building. Prehearing statements must be filed on or before May 27, 1981.

Testimony at the public hearing is governed by § 207.23 of the Commission's Rules of Practice and Procedure (19 CFR 207.23). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing statements and to new information. The Commission will not receive prepared testimony for the public hearings, as would otherwise be provided for by rule 201.12(d). All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing statements in accordance with rule 207.22. Posthearing briefs will also be accepted within a time specified at the hearing.

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, subparts A and C (19 CFR Part 207), and Part 201, subparts A through E (19 CFR Part 201).

This notice is published pursuant to § 207.20 of the Commission's Rules of Practice and Procedure (19 CFR 207.20, 44 FR 76456).

Issued: March 12, 1981.
By order of the Commission.
Kenneth R. Mason,
Secretary.

[Investigation No. 731-TA-39 (Preliminary)]

Tubeless-Tire Valves From the Federal Republic of Germany

AGENCY: United States International Trade Commision.

ACTION: Termination of investigation and cancellation of public conference.

SUMMARY: On March 13, 1981, the Nylo-Flex Manufacturing Co., Mobile, Alabama, notified the U.S. Department of Commerce that it was withdrawing its antidumping petition concerning tubeless-tire valves in accordance with Commerce's recommendation (Commerce found that the petition's treatment of non-confidential summaries was indadequate). Nylo-Flex intends to refile its petition with adjustments requested by Commerce forthwith. Accordingly, the Commission terminates investigation No. 731-TA-39 (Preliminary) pursuant to its authority under § 207.13 of the Commission's Rules of Practice and Procedure and cancels its conference scheduled for March 17, 1981, pending Nylo-Flex's resubmission.

EFFECTIVE DATE: March 13, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Larry Reavis, Office of Investigations, U.S. International Trade Commission; telephone 202-523-0298.

Issued: March 13, 1981.
By order of the Commission.

[Investigation No. 337-TA-76]

Certain Food Slicers and Components Thereof; Extension of Time for Completion of Evidentiary Hearing

AGENCY: U.S. International Trade Commission.

ACTION: Extension of time for completion of evidentiary hearing.

SUMMARY: Having reviewed the record in this matter, including complainant's motion for extension of time (Motion 76-14) and papers in support thereof, the Commission has granted complainant's motion and extended the time for conducting a hearing in the above-captioned investigation to April 30, 1981.

SUPPLEMENTARY INFORMATION: This investigation, pursuant to section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337), concerns alleged infringement of U.S. Letters Patent 3,766,817 by the importation and sale of certain food slicers.

Under Commission 210.42(e)(1) of the Commission's Rules of Practice and Procedure, the time for conducting a hearing in this investigation expired on December 21, 1980. Complainant Prodyne Enterprises, Inc., moved on February 23, 1981 (Motion 76-14, as amended) to extend the time for a hearing to April 30, 1981. The Commission has granted the motion and remanded the investigation to the Administrative Law Judge. The Commission also remanded Motion 76-15 and Motion 76-16 to the Administrative Law Judge for issuance of recommended determinations.

Any party wishing to petition for reconsideration of the Commission's action must do so within fourteen (14) days of service of the Commission Action and Order. Such petitions must be in accord with section 210.56 of the Commission's Rules (19 CFR § 210.56).

Copies of the Commission Action and Order in this matter and any other public documents in this investigation are available for inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street N.W., Washington, D.C. 20436, telephone 202-523-0161.

FOR FURTHER INFORMATION CONTACT: Warren H. Maruyama, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street N.W., Washington, D.C. 20436; telephone 202-523-0143.

Issued: March 13, 1981.
By order of the Commission.

Certain Hollow Fiber Artificial Kidneys; Termination of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Termination of Investigation No. 337-TA-81, *Certain Hollow Fiber Artificial Kidneys.*

SUMMARY: The parties to this investigation have filed a joint motion to terminate based upon a settlement agreement. After reviewing the record, including comments from interested Federal agencies and private parties, the Commission has voted to terminate the investigation as to all issues and all parties.

SUPPLEMENTARY INFORMATION: In connection with the Commission's investigation under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) of alleged unfair methods of competition and unfair acts in the importation or sale of certain hollow fiber artificial kidneys in the United States, complainant Cordis Dow Corp., respondents Terumo Kabushiki Kaisha, Terumo America, Inc. Terumo Corporation, and the Commission investigative attorney filed a motion on October 30, 1980 (Docket No. 81–26) to terminate this investigation on the basis of a settlement agreement. The Administrative Law Judge has certified the motion to the Commission with her recommendation that it be granted.

Reconsideration: Any party wishing to petition for reconsideration of the Commission's action must do so within 14 days of service of the Commission Action and Order. Such petitions must be in accord with the Commission rule 210.56 (19 CFR 210.56).

Public Access: Copies of the Commission's Action and Order, and any other public douments in the record of this investigation, are available for inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: Scott Daniels, Esq. Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0480.

Issued: March 11, 1981.

Certain Surface Grinding Machines and Literature for the Promotion Thereof; Correction of Notice of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice of Correction of Notice of Investigation.

On January 22, 1981 a Notice of Investigation in the Matter of Certain Surface Grinding Machines and Literature for the Promotion Thereof, Investigation No. 337–TA–85, was published in the Federal Register (FR Vol. 46, No. 14, pp. 7107–7108). The scope of the investigation section lacked several words (underlined below), and should read as follows:

Scope of the Investigation: Having considered the complaint, the U.S. International Trade Commission, on January 14, 1981, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337(b)), an investigation be instituted to determine whether there is a reason to believe there is a violation and whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain surface grinding machines and literature for the promotion thereof into the United States, or in their sale, by reason of copyright and trademark infringement, palming off, reverse palming off, false designation of origin, *trade libel, and misappropriation of* trade dress and trade name, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

FOR FURTHER INFORMATION CONTACT: Louis S. Mastriani, Commission investigative attorney, Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202–523–0469.

Issued: March 9, 1981.

By order of the Commission.

BILLING CODE 7020-02-M

[Investigation No. 731-TA-28 (Final)]

Menthol From the People's Republic of China; Change of Date of Public Hearing

Notice is hereby given that the hearing in this investigation will be held beginning at 10 a.m., e.d.t., Wednesday, May 5, 1981, in the Commission's Hearing Room, U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. 20436. A hearing date of April 13, 1981, had previously been announced in the Commission's notice of institution of the investigation as published in the **Federal Register** of January 28, 1981 (46 FR 9264). The Commission's hearing has been rescheduled as a result of the postponement by the United States Department of Commerce of its final determination as to the question of whether menthol from the People's Republic of China is being, or is likely to be, sold in the United States at less than fair value.

The Commission will prepare and place on the record by April 16, 1981, a staff report containing preliminary findings of fact, the public portion of which will be made available to interested persons. Requests to appear at the Commission's hearing should be filed in writing with the Secretary to the Commission not later than close of business (5:15 p.m., e.d.t.), April 23, 1981. All persons desiring to appear at the hearing and make oral presentations must file prehearing statements and should attend a prehearing conference to be held at 2 p.m., e.d.t., on April 24, 1981, in Room 117 at the U.S. International Trade Commission Building. Prehearing statements must be filed on or before May 1, 1981. Testimony will be received separately at the hearing.

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's *Rules of Practice and Procedure*, Part 207, Subpart C (19 CFR 207), and Part 201, Subparts A through E (19 CFR 201).

Issued: March 12, 1981.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

DEPARTMENT OF JUSTICE

Antitrust Division

United States v. Halifax Hospital Medical Center, et al.; Proposed Final Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. Section 16 (b) through (h), that a proposed Final Judgment, Stipulation and Competitive Impact Statement, as set forth below, have been filed in the United States District Court, Middle District of Florida, Orlando Division, in *United States* v. *Halifax Hospital Medical Center, et al.*, Civil No. 78-554-Orl-CIV-Y.

The Complaint in this case alleged that the Center and the Volusia County Medical Society had combined and conspired to impair the ability of Florida Health Care Plan, a health maintenance organization ("HMO"), to commence and maintain operations in the Volusia County area. A consent judgment was entered in September 1980 as to the medical society.

The proposed Final Judgment prohibits four categories of conduct. It prohibits any conspiracy that, in purpose of foreseeable effect, impairs the ability of an HMO to operate and compete in the Volusia County health care market. The Center is enjoined from establishing a committee that discourages physicians from seeking medical staff privileges or excludes physicians from the Center's medical staff because of any affiliation with an HMO or because of any purported lack of need for additional physicians in such physician's medical specialty. The Center is also prohibited from conspiring with anyone to discriminate against patients or employees because they are enrolled in an HMO. Finally, the Center is enjoined from discriminating against any HMO in regard to teaching assignments of physicians in the Center's residency program.

The proposed Final Judgment states that nothing in the Judgment shall prohibit or limit the Center's ability to carry out its duties and responsibilities under Florida law. There is also a provision intended to protect the Center's right to seek to influence governmental action.

Public comment is invited within the statutory 60-day comment period. Such comments and their responses will be published in the **Federal Register** and filed with the Court. Comments should be directed to John W. Poole, Jr., Chief, Special Litigation Section, Antitrust Division, U.S. Department of Justice, 10th & Pennsylvania Ave., NW., Rm. 7216, Washington, D.C. 20530 (telephone: 202/633-2428).

United States of America, Plaintiff, v. *Halifax Hospital Medical Center; Volusia County Medical Society, Inc.*, Defendants.

Civil Action No. 78-554-Orl-Civ-Y.

Filed: March 9, 1981.

Stipulation

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The United States and defendant Halifax Hospital Medical Center consent that a Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant Halifax Hospital Medical Center and by filing that notice with the Court.

2. In the event Plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever, and the making of this Stipulation shall be without prejudice to plaintiff and defendant Halifax Hospital Medical Center in this or any other proceeding.

Dated: March 9, 1981.

U.S. District Court, Middle District of Florida, Orlando Division

United States of America, Plaintiff, v. *Halifax Hospital Medical Center; Volusia County Medical Society, Inc.*, Defendants.

Civil Action No. 78-544-Orl-Civ-Y.

Filed: March 6, 1981.

Final Judgment as to Defendant, Halifax Hospital Medical Center

Plaintiff, United States of America, having filed its complaint herein on November 27, 1978, and defendant, Halifax Hospital Medical Center, having appeared by its attorneys, and having filed its answer to such complaint denying the material allegations thereof, and the parties hereto, by their respective attorneys having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting evidence or admission by either party in respect to any issue of fact or law herein;

Now therefore, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein, and upon consent of the parties hereto, it is hereby,

Ordered, Adjudged and Decreed as Follows:

I

This Court has jurisdication over the subject matter herein and of the parties hereto. The complaint states a claim upon which relief may be granted against defendant under Section 1 of the Sherman Act.

II

As used in this Final Judgment: A. "Center" means defendant Halifax Hospital Medical Center. B. Health maintenance organization ("HMO") means an entity authorized by certificate pursuant to the Health Maintenance Organization Act, Chapter 641 Part II, Florida Statutes Ann., to provide, either directly or through arrangements with others, health care services to persons enrolled with such organization on a prepaid per capita or prepard aggregate fixed sum basis.

III

The provisions of this Final Judgment shall apply to defendant Center and each member of its Board of Commissioners, its employees, its attorneys, its agents and to all persons in active concert or participation with any of them who received actual notice of this Final Judgment by personal service or otherwise.

IV

Defendant Center is enjoined and restrained form entering into or participating in any conspiracy, agreement, understanding, plan or concert of action with any person, which has the purpose or foreseeable effect of impairing the ability of any actual or proposed HMO to commence or maintain operations for, or to compete in, the delivery of health care services in the Volusia County area.

V

Defendant Center is enjoined and restrained from establishing or maintaining a professional procurement committee or any other committee, and from adopting or engaging in any policy, practice or procedure, whose purpose or foreseeable effect is to discourage any physician from seeking medical staff privileges at the Center, or to exclude any physician from the Center's medical staff:

(1) because such physician is affiliated, or proposes to affiliate, with an HMO; or

(2) because of any purported lack of need for additional physicians in such physician's area of specialization;

provided, however, that nothing in this paragraph V shall prevent the Center from entering into contracts with one or more physicians or physician practice groups providing for the exclusive provision at the Center of medical specialties which are principally hospital-based.

VI

Defendant Center is enjoined and restrained from entering or participating in any conspiracy, agreement, understanding, plan or concert of action with any person which has the purpose or foreseeable effect of:

(1) Discriminating in any way against patients or prospective patients in the provision of, or in any arrangement for the provision of, the Center's services, by reason of the fact that such patients or perspective patients are enrolled in an HMO: or

(2) Discriminating in any way against any Center employee by reason of the fact that such employee is enrolled or is contemplating enrollment in an HMO.

VII

Defendant Center is enjoined and restrained from discriminating against an HMO or against any physician affiliated with an HMO in connection with the selection of teaching faculty to whom to assign the services of resident physicians who participate in the Center's Family Practice Residency Program; *provided*, however, that nothing in this Final Judgment shall impair or limit the ability of the Center and the members of the teaching faculty in the Family Practice Residency Program to determine whether or not, in considering the professional training needs of the residents, to deploy the residents at any HMO with which such faculty members are affiliated.

VIII

A. Nothing in this final Judgment shall prohibit or limit the ability of the Center from carrying out its duties and responsibilities under applicable Florida statutes and regulations.

B. Nothing in paragraphs IV, V and VI of this Final Judgment shall prohibit or limit the ability of defendant Center or any other person subject to this Final Judgment, to the extent otherwise lawful, from:

(1) Preparing or furnishing testimony, information or advice to, or negotiating with, any governmental body or agency or furnishing drafts or copies of any such information to any organization which is preparing or furnishing testimony, information or advice to, or negotiating with, any governmental body or agency with respect to the same subject matter;

(2) Advising its Board of Commissioners, employees and others of existing or proposed legislation, programs, policies, regulations, actions, procedures, or interpretations issued or proposed by any governmental body or agency, communicating its views with respect thereto, and soliciting their views thereon;

(3) Informing its Board of Commissioners, employees and others of any testimony, information or advice supplied to, or negotiations with, any governmental body or agency; and

(4) Suggesting or recommending that its Board of Commissioners, employees or others undertake activities enumerated in subparagraphs (1) through (3) above; unless such activities are undertaken as a sham, including, without limitation, activities that are intended to achieve the effects described in paragraphs IV, V and VI, through means other than the action of a governmental body or agency.

IX

Defendant Center shall require, as a condition of sale or lease or other disposition of all, or substantially all, of the assets used by it in its provision of health care services, that the acquiring or leasing party agree to be bound by the provisions of this Final Judgment, and that such agreement be filed with the Court.

X

Defendant Center is ordered and directed:

A. Within sixty (60) days from the entry of this Final Judgment,

(1) To send a copy of this Final Judgment to each physician employed by or having medical staff privileges at defendant Center and to each administrator and assistant administrator of defendant Center; and (2) To file with this Court and to serve upon plaintiff an affidavit as to the fact and manner of compliance with subsection A of this paragraph X.

B. For a period of ten (10) years from the entry of this Final Judgment, to serve a copy of this Final Judgment upon:

(1) Each person who shall become a member of the Board of Commissioners at defendant Center at such time as he or she becomes a member of said Board;

(2) Each Physician who shall become employed by or be granted medical staff privileges at defendant Center at such time as he or she becomes employed by or is granted staff privileges at the Center; and

(3) Each person who shall become an administrator or assistant administrator at defendant Center at such time as he or she becomes employed by the Center.

XI

For the purpose of determining or securing compliance with this Final Judgment, and subject to any legally recognized privilege, from time to time:

A. Upon written request of the Attorney General, or of the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to defendant Center made

to its principal office, duly authorized representatives of the Department of Justice shall be permitted:

(1) Access during office hours to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of the Center, which may have counsel present, regarding any such matters contained in this decree; and

(2) Subject to the reasonable convenience of defendant and without restraint or interference from it, to interview officers, employees and agents of defendant, who may have counsel present, regarding any such matters.

B. Upon the written request of the Attorney General, or of the Assistant Attorney General in charge of the Antitrust Division, made to defendant Center's principal office, defendant Center shall submit such written reports, under oath if requested, with respect to any of the matters contained in this decree as may be requested.

No information or documents obtained by the means provided in this paragraph XI shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law. If, at the time information or documents are furnished to plaintiff, defendant Center represents and identifies in writing the material in any such information or documents to which a claim of protection may be asserted under Rule 26(c)(7) of the Federal Rules of Civil Procedure, and defendant Center marks each pertinent page of such material "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then 10 days notice shall be given by plaintiff to defendant Center prior to divulging such material in any legal proceeding other than a grand jury proceeding to which defendant Center is not a party.

XII

This judgment shall remain in effect for a period of ten (10) years from the date of entry. Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions hereof, for the enforcement of compliance therewith, and for the punishment of violations thereof.

XIII

Entry of this Final Judgment is in the public interest.

Dated:_____

U.S. District Judge

U.S. District Court, Middle District of Florida, Orlando Division

United States of America, Plaintiff, v. *Halifax Hospital Medical Center; Volusia County Medical Society, Inc.*, Defendants.

Civil Action No. 78-554-Orl-Civ-Y.

Competitive Impact Statement

Pursuant to Section 2 of the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b)-(h), the United States submits this Competitive Impact Statement relating to the proposed Final Judgment ("Judgment") as to Halifax Hospital Medical Center ("Center") submitted for entry in this civil antitrust proceeding.

I

Nature of the Proceeding

On November 27, 1978, the United States filed a civil antitrust complaint alleging that Volusia County Medical Society, Inc. ("Society") and the Center had combined and conspired to impair the ability of Florida Health Care Plan ("Plan"), a health maintenance organization ("HMO") in Daytona Beach, Florida, to commence and maintain operations and to compete in the delivery of health care services in the Volusia County area. The complaint alleged that the combination and conspiracy violated Section 1 of the Sherman Act, 15 U.S.C. § 1.

Following submission of a Stipulation, proposed Consent Decree, and a Competitive Impact Statement as to defendant Society, and after holding a hearing, this Court entered a Final Judgment as to the Society on September 19, 1980.

Entry of the attached Judgment will terminate this action, except that the Court will retain jurisdiction to interpret, modify or enforce the Judgment, or to punish violations of any of its provisions.

II

Description of the Practices Involved in the Alleged Violation

The Center is a 600-bed medical facility located in Daytona Beach, Florida. The Center, which is the largest medical facility in Volusia County, is operated by a five-member Board of Commissioners, appointed by the Governor of Florida. This Board has the responsibility of making appointments to the medical staff.

The other defendant, the Society, is an association of physicians in Volusia County with approximately 200 members.

The complaint alleges that beginning in or about 1971, defendants and co-conspirators combined and conspired to impair the ability of the Plan to operate and compete in the Volusia County health care market.

The complaint alleges that the Center has the broadest range of medical services of any health care facility in the area and that it is a virtual necessity that the Plan's physicians be members of the Center's medical staff to treat Plan patients at the Center. It further alleges that for the purpose of hindering the Plan and knowing that their actions could have an adverse impact on the Plan, the defendants and co-conspirators (1) publicly advocated the lack of need for the Plan while formulating a proposal for their own HMO; (2) established a Professional Procurement Committee at the Center which discouraged non-local physicians who contemplated affiliating with the Plan from locating in the Volusia County area; (3) excluded physicians who contemplated affiliation with the Plan from staff appointments at the Center; and (4) adopted, published and distributed a resolution opposing the Plan.

The complaint alleges that the conspiracy has had the following effects, among others: (1) the formation and development of the Plan has been delayed and obstructed; (2) the Plan has been denied the opportunity to compete freely in the provision of health care services in the Volusia County area; (3) competition in the provision of health care services in the Volusia County area has been restrained; and (4) consumers have been deprived of free and open competition in the market for provision of health care services in the Volusia County area.

III

Explanation of the Proposed Final Judgment

The United States and the Center have stipulated that the Court may enter the Judgment after compliance with Antitrust Procedures and Penalties Act. The stipulation provides that neither party has made any admission about any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procedures and Penalties Act, the Judgment may not be entered until the Court determines that entry is in the public interest.

A. *Prohibited Conduct.* The Judgment prohibits four categories of conduct. The first category relates to action directed against or affecting any actual or proposed HMO. It prohibits any conspiracy or agreement that, in purpose of forseeable effect, impairs the ability of an HMO to operate or compete in the Volusia County health care market.

The second category relates to any professional procurement committee or other committee that engages in certain kinds of policies or practices. The Center is enjoined from establishing a committee that, in purpose or forseeable effect, discourages physicians from seeking medical staff privileges at the Center or excludes physicians from the Center's medical staff because of any actual or proposed affiliation with an HMO or because of any purported lack of need for additional physicians in such physician's medical specialty. An exception to this provision relates to the Center's ability to contract with physicians for the exclusive provision of medical specialties which are principally hospital-based.

Another category of conduct prohibited relates to discrimination with respect to the Center's patients and prospective patients and to the Center's employees. The Center is enjoined from conspiring with anyone with the purpose or effect of discriminating against patients or employees because they are enrolled or are contemplating enrollment in an HMO.

The fourth category of conduct prohibited relates to discrimination by the Center against any HMO or against any physician who is affiliated with an HMO in regard to the teaching assignments of the Center's Family Practice residency physicians. A provision within this section allows the Center to consider professional training needs of the residents in the assignment process.

Two exceptions to the judgment provisions are contained in Section VIII. First, nothing shall prohibit or limit the Center's ability to carry out its duties under applicable Florida statutes and regulations. Second, nothing in paragraphs IV, V and VI shall prohibit the Center's ability, to the extent otherwise lawful, to (1) prepare or furnish testimony, information or advice to, or negotiate with, any governmental body or agency, or assist others in doing so; (2) advise its Board of Commissioners, employees and others of existing or proposed legislation, regulations or governmental programs, or communicate its views about them or solicit others's views; (3) inform its Board of Commissioners, employees and other of any testimony, information or advice supplied to, or negotiations with, any governmental body or agency; and(4) suggest or recommend that its Board of Commissioners, employees or others undertake any of these activities. Section VIII further provides, however, that this exception to the Judgment's injunctive provisions does not apply if the activities are undertaken as a sham, including without limitation, activities that are intended to achieve the effects prohibited by the Judgment through means other than the action of a governmental body or agency.

Another section in the Judgment states that the Center shall require as a condition of sale or lease of its assets that the acquiring or leasing party agree to be bound by the provisions of the Judgment and that such agreement be filed with the Court.

The Judgment requires that the Center furnish to each medical staff member and to each administrator a copy of the Judgment. In addition, the Center must file with the Court an affidavit specifying the substance and manner of compliance with this notification requirement. All new members of the Center's Board of Commissioners, medical and administrative staff must also be provided with copies of the Judgment by the Center at such time as they become associated with the Center.

B. *Scope and Duration of the Judgment.* The Judgment will remain in effect for a period of ten years from the date it is entered. It applies to the Center and to each member of its Board of Commissioners, its employees, its attorneys, its agents and to all persons in active concert or participation with any of them who receive actual notice of the Judgment.

C. *Effect of the Judgment on Competition.* The relief in the Judgment is designed to prevent the continuation or recurrence of the alleged activities directed at the Plan or other HMO's. Compliance by the Center with the Judgment will assure that HMO's will be free to compete for the services of physicians and for patients without interference by the Center. Concurrently, the Center's right to carry out its function under state laws and regualtions and to make known its views to governmental bodies and agencies is preserved.

The Judgment provides two methods for determining the Center's compliance with its terms. First, the United States is given access, upon reasonable notice, to the records of the Center to examine them for possible violations of the Judgment, and to interview Center officers, employees and agents. Second, the United States may require the Center to submit written reports about any matters pertaining to the Judgment.

The Department of Justice believes that the Judgment contains adequate provisions to prevent the Center from engaging in further violations of the type upon which this complaint is based.

IV

Remedies Available to Potential Private Litigants

Section 4 of the Clayton Act (15 U.S.C. § 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages suffered, as well as the costs and reasonable attorney's fees. Entry of the Judgment will neither assist nor impair the bringing of such actions. Under the provisions of Section 5(a) of the Clayton Act (15 U.S.C. § 16(a)), the Judgment has no *prima facie* effect in any subsequent lawsuit that may be brought against the Center.

V

Procedures Available for Modification of the Proposed Judgment

As provided by the Antitrust procedures and Penalties Act, any person believing that the Judgment should be modified may submit written comments to John W. Poole, Jr. Antitrust Division, United States Department of Justice, 10th & Penn. Ave., N.W., Washington, D.C. 20530 within the 60-day period provided by the Act. These comments, and the Department's responses, will be filed with the Court and published in the Federal Register. All comments will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the Judgment at any time prior to entry. The Judgment provides that the Court retains jurisdiction over this action, and the parties may apply to the Court for any order necessary or appropriate for its modification, interpretation or enforcement.

VI

Alternative to the Proposed Consent Judgment

The alternative to the Judgment considered by the Department of Justice was a full trial against the Center of the issues on the merits and on relief. The Department considers litigation of the issues unnecessary because the Judgment provides appropriate relief against the violations alleged in the complaint.

VII

Determinative Materials and Documents

No materials and documents of the type described in Section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16(b)) were considered in formulating the Judgment.

NATIONAL COMMISSION ON SOCIAL SECURITY

Privacy Act of 1974; Revocation and Transfer of Systems of Records

Pursuant to the provisions of the Privacy Act of 1974, Pub. L. 93–579, 5 U.S.C. 552a, the National Commission on Social Security published in the Federal Register (44 FR 37377) notices of the existence of the following systems of records subject to the Privacy Act: NCSS–1, Payroll Records; NCSS–2, General Financial Records; and NCSS–3, General Informal Personnel Files. The Commission terminated operations on April 1, 1981, and the above systems of records are revoked as of that date.

Following is a summary of the disposition of the Commission's systems of records:

NCSS–1

System name:

Payroll Records—National Commission on Social Security: to be retained by the General Services Administration, National Payroll Center, for use in concluding administrative operations of the Commission as part of GSA system of records, Defunct Agency Records, GSA/OAD–36.

NCSS–2

System name:

General Financial Records—National Commission on Social Security: to be retained by the External Services Branch, National Capital Region, for

concluding administrative operations of the Commission as part of the GSA system of records, Defunct Agency Records, GSA/OAD–36.

NCSS–3

System name:

General Informal Personnel Files—National Commission on Social Security: to be destroyed.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Advanced Reactors; Meeting

The ACRS Subcommittee on Advanced Reactors will hold a meeting on April 2 and 3, 1981 at 8:30 a.m., at the Royal Court Inn, the Pier Room, 1750 S. Elmhurst Road, Des Plaines, IL. The Subcommittee will discuss matters relating to the development of LMFR safety design criteria.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting shall be as follows:

Thursday and Friday, April 2 and 3, 1981

8:30 a.m. Until the Conclusion of Business Each Day

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Dr. Richard Savio (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EST.

Dated: March 11, 1981.

BILLING CODE 7590–01–M

[Docket No. 50–213]

Connecticut Yankee Atomic Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 38 to Facility Operating License No. DPR–61, to Connecticut Yankee Atomic Power Company (the licensee), which revised the Technical Specifications for operation of the Haddam Neck Plant (the facility), located in Middlesex County, Connecticut. The amendment is effective as of its date of issuance.

The amendment revised the Appendix B (Environmental) Technical Specifications by removing Section 4.2, Shad Monitoring Program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 29, 1980, (2) Amendment No. 38 to License No. DPR–61, and (3) the Commission's documentation of its environmental review, as contained in the letter of transmittal for the action. All these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555 and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06457. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this tenth day of March 1981.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

Florida Power and Light Co. (Turkey Point Nuclear Generating, Units 3 and 4); Prehearing Conferences (Supplements to Schedule)

In the matter of proposed amendments to facility operating license to permit steam generator repairs.

A telephone conference with counsel for all parties to this proceeding was held by the Board on March 9, 1981. As a result of information developed in this conference, notice is hereby given that the following prehearing conferences will be conducted:

March 24–25, 1981—Commencing at 10:00 a.m., local time, in Council Chambers, located at Homestead City Hall, 790 North Homestead Boulevard, Homestead, Florida 33030 (hearing on motion for site inspection).

April 27–28, 1981—Commencing at 10:00 a.m., local time, in Homestead, Florida (Summary disposition motions and other pending motions).

May 21–22, 1981—Commencing at 10:00 a.m., local time, in Homestead, Florida (Final Prehearing Conference, disposition of all pending matters including trial practice).

It is anticipated that the Evidentiary Hearing in this proceeding will commence as scheduled on June 2, 1981, and will continue, if necessary, to and including June 12, 1981. If the hearing is not concluded by the latter date, it will be resumed on June 23, 1981 and will continue until its conclusion.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's

Rules of Practice. Limited appearances will be permitted in this proceeding at the discretion of the Board, within such limits and on such conditions as may be determined by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Regulatory Commission, Washington, D.C. 20555, not later than April 17, 1981. A person permitted to make a limited appearance does not become a party, but may state his or her position and raise questions which he or she would like to have answered to the extent that the questions are within the scope of the hearing. A member of the public does not have the right to participate unless granted the right to intervene as a party, or the right of limited appearance.

It is so ordered.

Dated at Bethesda, Maryland this 10th day of March 1981.

For the Atomic Safety and Licensing Board.

Marshall E. Miller,

Administrative Judge.

[Docket Nos. 50-498-OL and 50-499-OL]

Houston Lighting and Power Co., et al. (South Texas Project, Units 1 and 2); Reconstitution of Board

Pursuant to the authority contained in 10 CFR 2.721 (1980), the Atomic Safety and Licensing Board for *Houston Lighting and Power Company, Et Al.*, (South Texas Project, Units 1 and 2), Docket Nos. 50-498-OL and 50-499-OL, is hereby reconstituted by appointing the following Administrative Judge to the Board: Mr. Ernest E. Hill. Dr. Emmeth A. Luebke was a member of this Board but, because of a schedule conflict, is unable to serve.

As reconstituted, the Board is comprised of the following Administrative Judges:

Charles Bechhoefer, Chairman

Dr. James C. Lamb III

Mr. Ernest E. Hill

All correspondence, documents and other materials shall be filed with the Board in accordance with 10 CFR 2.701 (1980). The address of the new Board member is: Mr. Ernest E. Hill, Lawrence Livermore Laboratory, University of California, P.O. Box 808, L-123, Livermore, California 94550.

Issued at Bethesda, Maryland, this 11th day of March 1981.

B. Paul Cotter, Jr.,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

[Docket No. 50-331]

Iowa Electric Light and Power Co., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 85 to Facility Operating License No. DPR-49, issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative, and Corn Belt Power Cooperative (the licensee), which revised the license for operation of the Duane Arnold Energy Center (the facility), located in Linn County, Iowa. The amendment is effective as of the date of issuance and is to be fully implemented within 30 days of Commission approval in accordance with the provisions of 10 CFR 73.40(b).

The amendment adds a license condition to include the Commission-approved Safeguards Contingency Plan as part of the license.

The licensee's filings, which have been handled by the Commission as an application, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

The licensee's filings dated April 25 and September 15, 1980, are being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of CFR 9.12.

For further details with respect to this action, see (1) Amendment No. to License No. DPR-49 and (2) the Commission's related letter to the licensee dated March 3, 1981. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Cedar Rapids Public Library, 428 Third Avenue, S.E., Cedar Rapids, Iowa. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 3rd day of March 1981.

BILLING CODE 7590-01-M

[Docket No. 50-220]

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendemnt No. 40 to Facility Operating License No. DPR-63, issued to Niagara Mohawk Power Corporation (the licensee), which revised the license for operation of the Nine Mile Point Nuclear Station Unit 1 (the facility), located in Oswego County, New York. The amendment is effective as of the date of issuance and is to be fully implemented within 30 days of Commission approval in accordance with the provisions of 10 CFR 73.40(b).

The amendment adds a license condition to include the Commission-approved Safeguards Contingency Plan as part of the license.

The licensee's filing, which is being handled by the Commission as an application, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need

not be prepared in connection with issuance of the amendment.

The licensee's filing dated March 11, 1980 is being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of 10 CFR § 9.12.

For further details with respect to this action, see (1) Amendment No. 40 to License No. DPR-63 and (2) the Commission's related letter to the licensee dated March 5, 1981. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W. Washington, D.C. and at the Penfield Library, State University College of Oswego, New York. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 5th day of March 1981.

[Docket No. 50-333]

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 51 to Facility Operating License No. DPR-59, issued to Power Authority of the State of New York (the licensee), which revised the license for operation of the James A. Fitzpatrick Nuclear Power Plant (the facility), located in Oswego County, New York. The amendment is effective as of the date of issuance and is to be fully implemented within 30 days of Commission approval in accordance with the provisions of 10 CFR 73.40(b).

The amendment adds a license condition to include the Commission-approved Safeguards Contingency Plan as part of the license.

The licensee's filings, which are being handled by the Commission as an application, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

The licensee's filings dated April 30, 1980, revised June 20, 1980, are being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendment No. 51 to License No. DPR-59, and (2) the Commission's related letter to the licensee dated March 2, 1981. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Penfield Library, State University College of Oswego, Oswego, New York. Northern States Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. DPR-22, issued to Northern States Power Company, which revised the Technical Specifications for operation of the Monticello Nuclear Generating Plant (the facility), located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications to incorporate certain of the TMI-2 Lessons Learned Category "A" requirements and to add additional snubbers to the table of safety related hydraulic snubbers.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 12, 1980, (2) Amendment No. 2 to License No. DPR-22. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota. Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 5.62, "Reporting of Physical Security Events," provides an approach acceptable to the NRC staff for determining whether an event should

be reported and the time frame during which an event should be reported and suggests a format that could be used for reporting the event. The guide was developed in conjunction with amendments to 10 CFR Part 73 that clarify requirements for the reporting of events that significantly affect physical security effectiveness. These amendments were published in the Federal Register on January 19, 1981 (46 FR 4858) and will become effective on April 6, 1981.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies of active guides may be purchased at the current Government Printing Office price. A subscription service for future guides in specific divisions is available through the Government Printing Office. Information on the subscription service and current prices may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Publications Sales Manager.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 9th day of March 1981.

For the Nuclear Regulatory Commission.

Ray G. Smith,

Acting Director, Office of Standards Development.

Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a revision to a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 8.5, Revision 1, "Criticality and Other Interior Evacuation Signals," defines the characteristics of an audible signal acceptable to the NRC staff for use where prompt, complete evacuation is required to prevent serious injury from radiation exposure. The original issuance of this guide endorsed a standard, USASI N2.3–1967, which has been replaced by ANSI/ANS N2.3–1979, "Immediate Evacuation Signal for Use in Industrial Installations." Revision 1 has been developed to endorse, with a minor exception, ANSI/ANS N2.3–1979.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies of active guides may be purchased at the current Government Printing Office price. A subscription service for future guides in specific divisions is available through the Government Printing Office. Information on the subscription service and current prices may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Publications Sales Manager.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 21956; (70-6570)]

American Electric Power Co., Inc.; Proposal of Holding Company To Act as Surety for Subsidiary

March 11, 1981.

Notice is hereby given that American Electric Power Company, Inc. ("American"), 2 Broadway, New York, New York 10004, a registered holding company, has filed a delcaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 12(b) and 12(f) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

On December 31, 1980, Kingsport filed with the Public Service Commission of Tennessee new increased rates for electric service in Tennesseee. By Order dated January 30, 1981, the Tennessee Commission permitted the increased rates to go into effect on February 2, 1981, prior to the completion of its investigation of such increased rates, provided that Kingsport posted an appropriate bond to assure the making of appropriate refunds to its customers in the event the Tennessee Commission's final order in the proceeding should require refunds to be made. In order to comply with the Order of the Tennesseee Commission, Kingsport obtained a commercial bond and posted such commercial bond with the Tennessee Commission on February 2, 1981. The premium for obtaining such commercial bond was approximately $14,000 per annum, which cost was deemed to be excessive. It was therefore determined that Kingsport should post its own bond on which American would act as surety.

Since the Tennessee Commission had not required a bond in any of Kingsport's previous rate cases and since Kingsport had no prior notice that a bond would be required in the present instance, American did not have sufficient time to seek prior approval from this Commission for the execution of the surety bond as surety on behalf of Kingsport. In reliance upon the provisions of Rule 45(b)(3) promulgated under the Act, American executed as surety and Kingsport executed as principal a surety bond, dated as of January 30, 1981, in the amount of $6,415,825 which was posted with the Tennessee Commission on February 20, 1981. With such substitution, the commercial bond was cancelled, and, due to the early cancellation, no premium was charged.

American is acting as surety without charging a fee. American and Kingsport filed a statement dated February 23, 1981, pursuant to Rule 45(b)(3) advising this Commission of the action taken. American now seeks authorization of its acting as surety.

The fees and expenses incurred by American in connection with this transaction are estimated not to exceed $2,500. It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 6, 1981, request in writing that a

hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 21865]

American Electric Power Company, Inc.; Proposal to Issue and Sell Common Stock to Trustee of Employees' Thrift Plan; Order Authorizing Solicitation of Proxies

Notice is hereby given that American Electric Power Company, Inc. ("the Company"), 2 Broadway, New York, New York 10004, a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6(a), 7 and 12(e) of the Act and Rules 50(a)(5), 62 and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transactions.

The Company proposes to solicit proxies, to be voted at the annual meeting of shareholders to be held on April 22, 1981, with respect to: a proposal to authorize the Company to issue and sell shares of its Common Stock, $6.50 par value, to the trustee of the Columbus and Southern Ohio Electric Company (CSOE) Employee's Thrift Plan (the "Thrift Plan"); the election of directors; and other matters.

In addition, subject to shareholder approval, the Company proposes to issue and sell to The Huntington National Bank, Columbus, Ohio, as trustee of the Thrift Plan, or to any successor trustee of the Thrift Plan ("Trustee"), up to 200,000 shares of its authorized, unissued Common Stock, from time to time through June 30, 1982, at a price per share equal to the average of the high and low prices of the Common Stock on the New York Stock Exchange on each date of sale (but in no event at less than the par value per share).

The CSOE Thrift Plan permits full-time salaried employees of CSOE who have been employed for one year or more to contribute, to individual accounts maintained by the Trustee, up to 10% of their gross base pay through payroll deductions. CSOE makes a matching contribution of $.50 for each $1.00 of the employee's contributions up to 6% of his gross base pay (a maximum of 3% of his gross base pay). All contributions are remitted to the Trustee for investment. Participants' contributions are invested by the Trustee, as directed by each participant, in one or more of three separate funds: a Fixed Income Fund, invested in Government and corporate debt securities; a Common Stock Fund, invested predominantly in common stocks (other than Common Stock of the Company); and a Parent Company Stock Fund, invested entirely in Common Stock of the Company. CSOE's contributions on behalf of its participating employees are invested exclusively in the Parent Company Stock Fund. An employee's contributions to his account under the Thrift Plan are vested at all times. After the employee has completed five years of service with CSOE, all prior Company contributions to his account, and any such contributions made thereafter, become 100% vested. On January 1, 1981, there were 864 CSOE employees enrolled in the Thrift Plan out of a total of 1,350 employees eligible to participate. Since the acquisition of CSOE by the Company in May 1980, the Trustee has been obtaining Common Stock of the Company for the CSOE Thrift Plan by purchasing shares in the open market.

The Company intends to propose to its shareholders at the 1981 annual meeting that they authorize the Company to offer to issue and sell to the Trustee from time to time as many shares of Common Stock as the Trustee may require for the Thrift Plan, from the Company's authorized unissued shares, at a price per share equal to the average of the high and low prices of the Common Stock on the New York Stock Exchange on each date of sale (but in no event at less than the par value per share). Under the proposal, the Board of Directors of the Company will have authority to cease issuing and selling new shares to the Trustee at any time, and from time to time, if the Board determines it is in the best interest of the Company to do so.

The proposal is intended primarily to permit the Trustee to purchase shares of Common Stock for participants in the Thrift Plan on terms as favorable as those available to the trustee of the American Electric Power System Employees Savings Plan ("System Savings Plan"). The Company will not be able to require the Trustee to purchase any shares from it, but it is expected that the Trustee will elect to purchase shares from the Company rather than in the open market, because by doing so it will not have to pay any brokerage fee or commissions.

On the basis of current Thrift Plan enrollment, rates of contribution, and investment elections, it is estimated that the Trustee will receive approximately $1,500,000 annually (excluding dividends on shares of Common Stock) to be invested in Common Stock of the Company. At a price equal to the median of the high and low market prices of the Common Stock during 1980 ($17.44 per share), such amount could purchase approximately 86,000 shares of Common Stock annually. So long as the market price of the Common Stock is below the book value of the outstanding share of Common Stock ($21.07 at December 31, 1980), the sale of shares to the Trustee will have a dilutive effect on the book value of outstanding shares of Common Stock. Increases in the number of outstanding shares also may have dilutive effect on earnings per share. Such effects, however, are not expected to be significant, due to the relatively small number of shares which are likely to be sold to the Trustee annually in relation to the total number of shares of Common Stock already outstanding

(146,892,240 shares as of December 31, 1980).

CSOE employees hired after January 1, 1981 will not become eligible to participate in the Thirft Plan, but instead will be offered participation in the System Savings Plan. Consequently, contributions under the Thrift plan designated for investment in Common Stock of the Company are not expected to increase significantly from current levels and, instead, eventually will decline as the present CSOE employees retire or otherwise terminate employment.

The proposal does not contemplate any limit on the number of shares of Common Stock that may be issued and sold by the Company to the Trustee. If the Proposal is not approved by the shareholders of the Company, or if the declaration or subsequent post-effective amendments thereto are not permitted to become effective, the Thrift Plan will continue to operate with the Trustee purchasing shares of Common Stock in the open market.

The proposal is being submitted for shareholder approval in accordance with New York State Law and the Company's Restated Certificate of Incorporation which states that such shares of Common Stock must first be offered *pro rata* to the Company shareowners, upon terms not less favorable than the terms upon which such shares are offered to persons other than shareowners, unless the offering has been authorized or approved by the affirmative vote of the holders of record of a majority of the outstanding shares of Common Stock. The Company intends to solicit proxies principally by mail, but some telephone, telegraph or personal solicitations of holders of Common Stock of the Company may be made. Any officers or employees of the Company or of American Electric Power Service Corporation who make or assist in such solicitations will receive no compensation for doing so other than their regular salaries. The Company will request brokers, banks and other custodians or fiduciaries holding shares in their names or in the names of nominees to forward copies of the proxy soliciting materials to the beneficial owners of the shares held by them, and the Company will reimburse them for their expense incurred in doing so at rates prescribed by the New York Stock Exchange.

The Company requests an exception from the competitive bidding requirements of Rule 50 pursuant to subparagraph (a)(5) for the issue and sale of Common Stock to the Trustee for the Thrift Plan.

The fees, commissions and expenses to be incurred in connection with the proposed transaction will be filed by amendment. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may not later than April 6, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof or service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will recieve any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that the declaration, insofar as it proposes the solicitation of proxies of American Electric Power Company's Common stockholders, should be permitted to become effective forthwith pursuant to Rule 62:

It is ordered that the declaration regarding the proposed solicitation of proxies of American Electric Power Company's Common stockholders be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

March 11, 1981.

National Corporation for Housing Partnerships and the National Housing Partnership; Filing of Application To Amend an Order of Exemption Granted Pursuant to Section 6(c) of the Act Exempting Applicants From All Provisions of the Act

Notice is hereby given that National Corporation for Housing Partnerships (the "Corporation"), a District of Columbia corporation, on its own behalf and on behalf of The National Housing Partnership (the "Partnership"), a limited partnership formed under the District of Columbia Uniform Limited Partnership Act (D.C. Code Section 41–401 *et seq.*) (the Corporation and the Partnership are together referred to hereinafter as "Applicants"), 1625 L Street, N.W., Washington, D.C. 20036, (812–2677) filed an application on March 25, 1980 for an order amending an existing order of exemption which had exempted Applicants, pursuant to the Act (Investment Company Act Release No. 5955, January 13, 1970) (the "1970 Order"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Corporation and the Partnership (in referring to the Corporation and its subsidiaries together with the Partnership, the term "Venture" will be used hereinafter to describe the enterprise as a whole), which are not agencies of the United States Government, were the first private organizations created to effectuate the policy of Title IX of the Housing and Urban Development Act of 1968 (the "1968 Housing Act"). Applicants state that this policy is based upon the finding made by Congress in Section 901 of that Act that "the volume of housing being produced for families and individuals of low or moderate income must be increased to meet the national goal of a decent home and suitable living environment for every American family * * * ." Congress therefore declared that "it is the policy of the United States to encourage the widest possible participation by private enterprise in the provision of housing for low or moderate income families." Thus, the Corporation and the Partnership provide private investors a means of participating in government-assisted housing programs and projects for low and moderate income persons.

Applicants also state that the Articles of Incorporation of the Corporation were approved by the President of the United States, and that the incorporators of the

Corporation were appointed by the President of the United States and confirmed by the United States Senate. These incorporators served as the initial board of directors or the Corporation, continuing in that capacity until the first annual meeting of shareholders. Thereafter, the board of directors of the Corporation has consisted of 12 members elected by shareholders and 3 members appointed by the President of the United States and approved by the Senate. Thus, the Corporation and the Partnership are considered quasi-governmental entities.

Applicants state that pursuant to Section 908(a) of the 1968 Housing Act and the provisions of its Articles of Incorporation, the Corporation is required to submit an annual report to the President of the United States for transmittal to Congress. This annual report must contain a "comprehensive and detailed report of the operations, activities and financial condition" of the Corporation and the Partnership, audited by independent certified public accountants in accordance with generally accepted auditing standards. It is further stated that Section 908(b) requires the Corporation, as General Partner, to provide Limited Partners with an annual report, including a balance sheet, profit and loss statement, and a statement disclosing distributions to the Limited Partners of taxable income, gains, losses, deductions and credits of the Partnership. These financial statements must be audited in accordance with generally accepted accounting principles, by certified independent public accountants.

Applicants state, in addition, that pursuant to the requirements of Section 41–410 of the District Columbia Uniform Limited Partnership Act, it is provided in Article XII of the Partnership Agreement that Limited Partners will have access at all times to the Partnership's books of account, which are required, both by said Article XII and by Section 908(b) of the 1968 Housing Act, to be audited each year in accordance with generally accpted accounting practices by independent certified public accountants. Lastly, under Section 41–410(b) of the District of Columbia Uniform Limited Partnership Act, Limited Partners are entitled to demand information from the General Partner as to any Partnership matter, and to have an accounting of Partnership affairs.

As directed by Title IX, Applicants conducted a public offering in 1970, of $50 million in securities, subscriptions for which were solicted only from larger corporations, unions and other institutions. No subscriptions were solicted or accepted from individuals. The minimum subscription amount in this offering was $100,000 and the maximum was $1 million. Five percent of each subscription was allocated to the purchase of stock in the Corporation, and 95 percent to the acquisition of limited partnership interests in the Partnership. Approximately $42 million dollars was raised in the offering through the sale of 851 investment units, purchased by 270 investors. Thus, it is stated that the Corporation is, as required by Title IX, the sole General Partner of the Partnership, and all Limited Partners in the Partnership are stockholders of the Corporation. The Corporation has no other shareholders. It is further represented that no other person or entity may become a general partner of the Partnership.

Applicants state that in the regular course of its business in multi-family residential housing development, the Partnership acquires a 99% equity interest in a local limited partnership which owns a housing project, becoming both a general and a limited partner in the second-tier partnership. It is represented that the Corporation typically acts as a general partner in each of the local partnerships in which the Partnership does not become a general partner. The Partnership provides financing, construction and management assistance to the local sponsor-developer until completion of the project.

Applicants further state that in order to raise additional funds with which to sustain current operations and make additional equity investments in local housing projects, the Partnership regularly markets 90–95 percent of its equity in local limited partnerships to outside investors, retaining its position as a managing general partner. Applicants state that these transactions have been conducted as private placements, effectuated through registered broker-dealers, including NHP Real Estate Securities Inc., a wholly-owned subsidiary of the Corporation.

Applicants represent that the Venture has become the largest owner and operator of low and moderate income housing projects in the United States. With the use of equity capital of more than $130 million, the Venture has developed more than 50,000 housing units in over three-fourths of the states, the District of Columbia and Puerto Rico. Through wholly-owned subsidiaries of the Corporation the Venture's activities presently encompass small business financing in single-family housing development, direct development and marketing of single-family housing, and direct management of multi-family residential housing complexes.

1970 Order

On January 17, 1980, the Commission granted the Venture's application pursuant to Section 6(c) of the Act for an exemption from all provisions of the Act. This exemption was determined to be appropriate on the grounds that the Partnership was to serve as a principal national vehicle by which equity capital could be invested in the development of low and moderate income housing; the initial public offering of interests in the Venture would be limited to sophisticated investors; resale of interests in the Venture was subject to substantial restrictions contained in the organizational documents of the Partnership and the Corporation; the provisions of Title IX would require the Corporation to submit to the President of the United States for transmittal to Congress, an annual report providing a comprehensive account of the operations, activities and financial condition of the Corporation and the Partnership, audited in accordance with generally accepted accounting principles by independent certified public accountants; and the Commission's order of exemption would incorporate as a condition, Applicant's undertaking to adhere to the periodic reporting, and proxy solicitation, requirements of the Securities Exchange Act of 1934 ("Exchange Act") for the duration of the effective period of the 1970 Order, regardless of whether or not such adherence would otherwise be required. Applicants submit that, pursuant to the authority expressed in Section 6(c) of the Act, it would be appropriate in the public interest and consistent with the protection of investors and the purposes and policy of the Act for the Commission to amend the 1970 Order to remove therefrom the Venture's obligation to submit periodic reports and proxy material to the Commission.

In support of the request for exemption, Applicants state that the number of securityholders in the Venture is limited, in effect, to fewer than 300. They state that these investors presently number 269, all of which were subscribers to the Venture's initial public offering and are institutional-type investors. It is asserted that the lieklihood of persons other than these 269 securityholders becoming investors in the enterprise is remote because of the restricted transferability of the Venture's securities. As an additional basis for the relief they seek, Applicants cite the reporting obligations to which

the Venture will continue to be subject irrespective of the action to be taken on the present application, under Title IX of the 1968 Housing Act and the provisions of the Partnership Agreement. Finally, Applicants assert that deletion of the disclosure requirements to which they are subject under the terms of the 1970 Order will promote the attainment of the objectives of Title IX by reducing the costs of regulation for the Venture, and that termination of the Venture's reporting and proxy filings with the Commission would be consistent with the effort to reduce administrative costs in the federal bureaucracy.

Section 6(c) of the Act provides, as here pertinent, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 6, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 500-1]

Servoil Industries, Inc.; Order of Suspension of Trading

It appearing to the Securities and Exchange Commission that there has been rece..t, unusual and unexplained activity in the securities of Servoil Industries, Inc. ("Servoil") and questions have been raised about the adequacy and accuracy of publicly disseminated information about (a) the financial condition of Servoil and its affiliates; (b) certain investment interests and assets held by Servoil; (c) royalty and marketing agreements entered into by Servoil; (d) the operational capabilities of Servoil; and (e) the management of Servoil, the Commission is of the opinion that the public interest and the protection of investors require a summary suspension of trading in the securities of Servoil.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in Servoil on a national securities exchange or otherwise is suspended, for the period from 9:45 am on March 12, 1981 through midnight on March 21, 1981.

By the Commission.

George A. Fitzsimmons,

Secretary.

March 12, 1981.

[Release No. 21958; (70-6585)]

Eastern Utilities Associates; Proposed Amendment of Declaration of Trust To Increase the Authorized Shares of Common Stock and Order Authorizing Solicitation of Proxies

March 12, 1981.

Notice is hereby given that Eastern Utilities Associates ("EUA"), P.O. Box 2333, Boston, Massachusetts 02107, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7, and 12(e) thereof and Rule 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

EUA proposes to amend its Declaration of Trust to increase the maximum number of common shares of $5 par value issuable by the Trustees for cash, property, or services without further authorization by the shareholders from 7,000,000 to 9,000,000. The proposal will be submitted to EUA's common shareholders at its annual meeting to be held on April 21, 1981. The favorble vote of the holders of at least a majority of the common shares of EUA outstanding and entitled to vote will be required for the proposed increase of the authorized number of common shares.

The EUA System is committed to a substantial construction program over the next several years, most of which must be financed externally through the sales of additional common shares, preferred stock, and first mortgage bonds. System constuction requirements (net Allowance for Funds Used During Construction) are currently estimated at $38.9 million, $32.5 million, $28.1 million, and $25.3 million for the years 1981, 1982, 1983, and 1984, respectively. It is expected that during this period internally-generated funds will only provide $36.1 million, or approximately 29% of the construction requirements. In addition to the construction requirements, the system started 1981 with $31.5 million of short-term debt which must be funded through the sale of permanent securities; and, during the period through 1984, the system must also meet maturities and sinking fund requirements of approximately $26.3 million.

In connection with its annual meeting to be held on April 21, 1981, EUA proposes to solicit proxies seeking the affirmative vote of shareholders with repsect to the above-described amendment to the Declaration of Trust.

It is stated that no state or federal commisison, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment. EUA has filed its proxy solicitation material and requests that the effectiveness of its declaration with respect to the solicitation be accelerated as provided in Rule 62.

Notice is further given that any interested person may, not later than April 6, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for

such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exhange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that EUA's declaration regarding the proposed solicitation of proxies should be permitted to become effective forthwith pursuant to Rule 62 and that jurisdiction should be reserved with respect to the expenses thereof:

It is ordered that the declaration regarding the proposed solicitation of proxies be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62, and that jurisdiction be, and it hereby is, reserved with respect to the expenses thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 21957; (70-6567)]

Metropolitan Edison Co.; Proposed Sale of Utility Assets

March 12, 1981.

Notice is hereby given that Metropolitan Edison Company ("Met-Ed"), 2800 Pottsville Pike, Muhlenberg Township, Berk County, Pennsylvania 19605, and electric utility subsidiary of General Public Utilities Inc. ("GPU"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(d) of the Act and Rule 44 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed is the owner of certain utility assets located in the City of Easton, Northampton County, Pennsylvania, which are currently used solely to provide transformed electric service to The Equitable Life Assurance Society of the United States ("Equitable"). Equitable has recently expanded its operations to the extent that it is presently consuming a significantly greater amount of electricity and is now required, pursuant to Met-Ed's tariff as filed with the Pennsylvania Public Utility Commission ("PaPUC"), to purchase untransformed electric services from Met-Ed, thereby necessitating the purchase by Equitable of transformation equipment. It is stated that said equipment would be of little or no use to Met-Ed in the event Equitable purchased and installed transformation equipment from another source. The purchase price of $143,526 was determined on the basis of arm's-length negotiation between the parties. The net book cost of the utility assets on Met-Ed's books as at June 30, 1980, was $62,957.65.

The fees and expenses to be incurred in connection with the proposed transaction are estimated at $6,500. It is stated that the PaPUC has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction thereover.

Notice is further given that any interested person may, not later than April 7, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 21958; (70-6465)]

Northeast Utilities Western Massachusetts Electric Co.; Proposal To Increase Amounts of Short-Term Borrowing Authorization

March 12, 1981.

In the matter of Northeast Utilities Western Massachusetts Electric Company, 174 Brush Hill Avenue, West Springfield, Massachusetts 01089; the Connecticut Light & Power Company, the Hartford Electric Light Company, Northeast Nuclear Energy Company, Selden Street, Berlin, Connecticut 06037; and Holyoke Water Power Company, One Canal Street, Holyoke, Massachusetts 01040.

Notice is hereby given that Northeast Utilities ("NU"), a registered holding company, and five of its wholly-owned subsidiary companies, The Connecticut Light & Power Company ("CL&P"), the Hartford Electric Light Company ("HELCO"), Western Massachusetts Electric Company ("WMECO"), Holyoke Water Power Company ("HWP") and Northeast Nuclear Energy Company ("NNECO"), have filed a post-effective amendment to an application-declaration previously filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6, 7, and 12(B) of the Act and Rules 45 and 50 promulgated thereunder regarding the proposed transaction.

By orders dated July 1, 1980 (HCAR No. 21647), August 21, 1980 (HCAR No. 21684) and February 3, 1981 (HCAR No. 21905) in this matter the applicants-declarants were authorized to issue notes to banks and, with the exception of HWP and NNECO, commercial paper to a dealer in commercial paper from time to time through June 30, 1981. In addition, CL&P, HELCO and WMECO were authorized to enter into a multibank revolving credit and term loan agreement under the terms of

which the three companies can borrow up to an aggregate of $140,000,000. The aggregate amount of all such notes at any time outstanding, whether issued to banks ("Bank Notes") or to a dealer in commercial paper ("Commercial Paper") or to banks under the revolving credit/term loan agreement ("Revolving Credit/Term Notes") may not exceed $55,000,000 in the case of NU, $210,000,000 in the case of CL&P, $100,000,000 in the case of HELCO, $55,000,000 in the case of WMECO, $8,000,000 in the case of HWP and $40,000,000 in the case of NNECO.

It is now proposed that the maximum borrowing limits of WMECO and HELCO be increased to $85,000,000 and $140,000,000 respectively.

The Bank Notes will each be dated the date of issue, will have maximum maturity dates of nine months with right of renewal, will bear interest at the prime rate or at the prime rate plus a fraction thereof, will be issued no later than June 30, 1981 and will be subject to prepayment at any time at the applicant's option without premium.

With respect to the issuance of Bank Notes, the applicants have credit lines with a number of banks subject in some cases to commitment fees and/or compensating balance requirements. The effective cost of borrowings under such credit lines, based on a prime rate of 18%, ranges from 19.08% to 23.04%. The bank credit lines expire at various times in 1981 and their continued availability is subject to continuing review by the banks involved. Bank credit lines of the applicants may be changed and additional lines may be obtained from other banks. The terms of the commercial paper will remain as described in the order of July 1, 1980.

As of January 31, 1981 and February 27, 1981, short-term borrowings of WMECO amounted to $27,525,000 and $48,450,000, respectively. As of those same dates, the short-term borrowings of HELCO amounted to $80,575,000 and $87,000,000 respectively. It is stated that WMECO and HELCO have experienced an unexpected, rapid increase in their short-term borrowings in recent months, associated primarily with the cost of replacement fossil fuel during a lengthy extension of a Millstone Unit No. 1 refueling outage so that plant repairs could be effected. The Northeast Utilities System deferred fuel cost balance amounted to approximately $114 million through January of 1981, of which $32 million and $22 million were HELCO's and WMECO's shares, respectively. These balances have continued to increase during the Millstone Unit No. 1 outage, which is presently scheduled to end on March 30, 1981. Largely because of the costs and expenses associated with the Millstone Unit No. 1 outage, HELCO's and WMECO's borrowings are expected to increase further during March of this year by approximately $36 million and $12 million, respectively. HELCO estimates that its short-term borrowings will amount to approximately $73 million as of March 31, 1981, after giving effect to the repayment of $50,000,000 of short-term borrowings during March with the proceeds of a $50,000,000 secured term loan (File No. 70–6546). WMECO estimates that its short-term borrowings will amount to approximately $50,000,000 as of March 31, 1981, after giving effect to the expected repayment of $10,000,000 of short-term borrowings during March with the proceeds of an increase $10,000,000 in term loans (File No. 70–6511). Without the term loans mentioned above, HELCO's and WMECO's estimated short-term borrowings, as of March 31, 1981, would be $123,000,000 and $80,000,000, respectively, exceeding the limits currently established by the Commission.

Due to the term loans, and assuming that Millstone Unit No. 1 is returned to service on March 30, 1981 and that there are no further lengthy unscheduled nuclear outages before June 30, 1981, HELCO and WMECO do not anticipate exceeding current Commission short-term debt limits before June 30, 1981, when new limits would become effective. However, the return of Millstone Unit No. 1 to service has already been delayed considerably and there can be no assurance that it will meet the current March 30, 1981 schedule or that further lengthy unscheduled nuclear outages can be avoided prior to June 30, 1981. Experience with the current Millstone Unit No. 1 outage and the dramatic effect which this extended outage has had on borrowing requirements demonstrates that additional flexibility in the short-term debt limits of HELCO and WMECO is necessary to enable the utilities to operate during lengthy unscheduled nuclear outages.

It is stated that no special or separable fees, commissions or expenses will be incurred in connection with the proposed transaction. No state or federal regulatory authority, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 6, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Release No. 34-17622; File No. SR-MSRB-81-1]

Municipal Securities Rulemaking Board; Proposed Rule Changes; Self-Regulatory Organizations

Relating to Membership on the Board, comments requested on or before April 8, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 5, 1981, the Municipal Securities Rulemaking Board filed with the Securities and Exchange Commission the proposed rule changes as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule changed from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Changes.

(a) The Municipal Securities Rulemaking Board is filing herewith amendments to rule A–3 relating to membership on the Board (hereafter

referred to as the "proposed rule changes"). The text of the proposed rule changes is as follows:*

Rule A–3 Membership on the Board—

(a) through (b) No change

(c) Nomination and Election of Members.

(i) No change

(ii) Prior to April 15 of each year, the Board will appoint a Nominating Committee composed of eleven members.

The membership of the Nominating Committee shall consist of the five members of the Board whose terms expire during such year and six persons who are not members of the Board, two of whom shall be associated with and representative of bank dealers, two of whom shall be associated with and representative of municipal securities brokers and municipal securities dealers other than bank dealers, and two of whom shall not be associated with any broker, dealer, or municipal securities dealer *(other than by reason of being under common control with, or indirectly controlling any broker, dealer or municipal securities dealer).* The Chairman of the Nominating Committee shall be designated by the Board. In appointing persons to serve on the Nominating Committee, the Board shall take into consideration such factors as the need to achieve broad geographic representation on such Committee, as well as diversity in the size and type of municipal securities brokers and municipal securities dealers represented on such Committee.

(iii) through (x) No change.

(d) through (e) No change.

(b) Not applicable.

(c) Not applicable.

II.A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

(a) Rule A–3(c) contains procedures for the nomination and election of Board members. These procedures commence with the appointment by the Board of a Nominating Committee consisting of the five Board members serving the final year of their term on the Board and six persons who are not members of the Board. Under the rule, the Nominating Committee is required to publish a notice soliciting public recommendations of candidates for the five positions to be filled and to accept for its consideration all recommendations submitted for a period of at least 30 days from publication of the notice. Under the rule, the Nominating Committee nominates a slate of three persons for each position, and the Board selects one person from each slate of nominees.

Rule A–3 specifies qualifications for the non-Board members of the Nominating Committee which parallel the qualifications for membership on the Board itself. Of the six persons selected by the Board each year to serve on the Nominating Committee, the rule provides that two shall represent bank dealers, two shall represent municipal securities brokers and non-bank municipal securities dealers, and two shall not be associated with a broker, dealer, or municipal securities dealer. The present rule thus excludes from the "public" category persons who, though they are deemed to be "affiliated" with an entity registered as a municipal securities broker or dealer, do not, as a matter of fact, have any direct relationship with, or control the activities of, such entity. The Board believes that these persons could provide valuable service as members of the Nominating Committee, both in encouraging the submission of recommendations and in selecting candidates for Board consideration. The Board has adopted the proposed rule changes in order to have the flexibility to include such persons on the Committee.

(b) The Board has adopted the proposed rule changes pursuant to section 15B(b)(2)(I) of the Exchange Act. Section 15B(b)(2)(I) establishes the Board's general authority to adopt rules relating to the operation and administration of the Board. Section 15B(b)(2)(B) of the Exchange Act authorizes the Board to establish fair procedures for the nomination and election of members of the Board. The Board believes that opening up membership on the Nominating Committee to include persons who are "affiliated" with municipal securities brokers and dealers only in a technical, legal sense would not detract from the fairness of the Board's nominating process and could, as indicated above, enhance the effectiveness of that process.

B. Self-Regulatory Organization's Statement on Burden on Competition.

The proposed rule changes do not affect the conduct of business by any broker, dealer, or municipal securities dealer. The Board therefore believes that the proposed rule changes would not impose any burden on competition.

C. Self-Regulatory Organization's Statement of Comments on the Proposed Rule Changes Received From Members, Participants, or Others

The Board neither solicited nor received comments on the proposed rule changes.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

The foregoing rule changes have become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of the Securities Exchange Act rule 19b–4. At any time within 60 days of the filing of such proposed rule changes, the Commission may summarily abrogate such rule changes if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule changes that are filed with the Commission, and all written communications relating to the proposed rule changes between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 8, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: March 12, 1981.

George A. Fitzsimmons,

Secretary.

SMALL BUSINESS ADMINISTRATION

Continuation of Pilot Loan Guaranty Program in Region X; Exemption From Regulation

AGENCY: Small Business Administration.

ACTION: Notice of continuation of pilot loan guaranty program in region X; exemption from regulation.

The Small Business Administration ("SBA") instituted (in 1979 and 1980) a pilot loan guaranty program in Region X, comprised of the States of Alaska, Idaho, Oregon and Washington. As part of the second phase of that program, certain conditions of SBA's Loan Guaranty Agreement (Deferred Participation), SBA Form 750 ("Agreement"), were modified effective March 20, 1980 (see page 23102 of Federal Register/Vol. 45, No. 67/Friday, April 4, 1980/Notices).

The SBA is in the process of extending the other facets of this pilot loan guaranty program ("Operation Effectiveness") until no later than September 30, 1981. So as to avoid unnecessary confusion (especially among SBA's private lending partners in Region X), SBA wants *all* facets of the pilot loan guaranty program to be terminated simultaneously, as of the same effective date. By September 30, 1981, SBA will have completed its evaluations of all facets of the Region X pilot loan guaranty program and will have incorporated all of its better elements (re: forms) into the SBA's nationwide system of delivering financial assistance to the Agency's lending and borrowing constituencies. If SBA is able to accomplish this conversion sooner than by September 30, 1981, we will do so.

Notice is hereby given that, effective January 31, 1981, the application of the corresponding parts of the regulation on loan administration, specifically, 13 CFR 122.20(c)(2), is continued in its suspension (from the originally scheduled termination date of January 31, 1981) for Region X until no later than September 30, 1981.

(Catalog of Federal Domestic Assistance No. 59.012 (Small Business Loans))

Roger H. Jones,

Acting Administrator.

[1] Percentage ownership of corporation.

CCMEIC, an Ohio corporation, with its principal place of business to be located at 40 S. Main Street, Centre City Building, Dayton, Ohio 45401, will begin operations with $500,000 of net combined paid-in capital and paid-in surplus derived from the sale of common stock.

CCMEIC will conduct its activities principally in the State of Ohio.

As a small business investment company under Section 301(d) of the Act, the Applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended, from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the Applicant under this management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Notice is hereby given that any person may, not later than April 2, 1981, submit to SBA written comments on the proposed Applicant. Any such communication should be addressed to the Acting Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Dayton, Ohio.

1

FEDERAL DEPOSIT INSURANCE CORPORATION.

Agency Meeting

Pursuant to subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at 2:00 p.m. on Saturday, March 14, 1981, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to (1) accept sealed bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in South Side Bank, Chicago, Illinois, which was closed by the Commissioner of Banks and Trust Companies of the State of Illinois on March 14, 1981; (2) accept the bid for the transaction submitted by Drexel National Bank, Chicago, Illinois; (3) provide such financial assistance, pursuant to section 13(e) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)), as was necessary to effect the purchase and assumption transaction; and (4) appoint a liquidator for such of the assets of the closed bank as were not purchased by Drexel National Bank.

In calling the meeting, the Board determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Mr. Paul M. Homan, acting in the place and stead of Director John G. Heimann (Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)].

Dated: March 16, 1981.

Federal Deposit Insurance Corporation.

2

FEDERAL DEPOSIT INSURANCE CORPORATION.

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, March 23, 1981, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10) of Title 5, United States Code, to consider the following matters:

Applications for Federal deposit insurance:

The Bank of the Delta, a proposed new bank, to be located at 410 Highway #82 East, Indianola, Mississippi.

Webster County Bank, a proposed new bank, to be located at 225 North Clay Street, Marshfield, Missouri.

Application for Federal Deposit insurance, consent to establish a branch, and consent to exercise limited trust powers:

Security Trust Company, a proposed new bank, to be located at 321 Bush Street, San Francisco, California, for Federal deposit insurance, for consent to establish a branch at 624 South Grand Avenue, Los Angeles, California, and for consent to exercise limited trust powers.

Request for modification of a condition imposed in granting consent to establish a branch:

Progressive Bank and Trust Company, Houma, Louisiana, for modification of a condition imposed in granting consent to establish a branch at 2734 West Main Street, Houma, Louisiana.

Application for consent to merge and establish branches:

Colonial Bank, Waterbury, Connecticut, for consent to merge under its charter and title with The Bank of Trumbull, Trumbull, Connecticut, and for consent to establish the three offices of The Bank of Trumbull as branches of the resultant bank.

Request for relief from reimbursement for violations of Regulation Z:

Name and location of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8) and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)].

Requests for exemptions pursuant to Part 348 of the Corporation's rules and regulations entitled "Management Official Interlocks":

City and County Bank of Anderson County, Lake City, Tennessee, for an exemption pursuant to section 348.6(a)(2).

Texas Commerce Bank-Tanglewood, Houston, Texas, and The Western Saving Fund Society of Philadelphia, Haverford, Pennsylvania, for exemptions pursuant to section 348.4(b)(5).

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,696–SR—Bank of Lake Helen, Lake Helen, Florida

Case No. 44,707–SR—American Bank & Trust Company, New York, New York

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Personnel actions regarding appointments, promotions, administrative pay increases,

reassignments, retirements, separations, removals, etc:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

Reports of committees and offficers:

Report of the Director, Office of Corporate Audits:
Audit Report re: First National Bank of Carrington, Carrington, North Dakota
Reports of the Director, Division of Liquidation:
Memorandum re: Reports Required Under Delegated Authority Releases of Collateral for Fair Market Value
Memorandum re: Reports Required Under Delegated Authority Expenditures

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: March 16, 1981.

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENTS: To be published.

STATUS: Open/closed meeting.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

DATES PREVIOUSLY ANNOUNCED: Monday, March 9, 1981.

CHANGES IN THE MEETING: Additional items. The following additional items will be considered at an open meeting scheduled for Wednesday, March 18, 1981, at 10:00 a.m.:

1. Consideration of whether to adopt final amendments to Form S-18 which would permit certain issuers engaged in mining operations to utilize that Form. The Commission will concurrently consider whether to rescind Form S-3.

In addition, the Commission will consider whether to issue a release proposing amendments to Rule 242 which would permit certain issuers engaged in mining operations to utilize that Rule. For further information, please contact Daniel Abdun-Nabi at (202) 272-2644.

2. Consideration of whether to adopt a notice-of-sales form to be used by issuers that sell their securities in reliance upon Section 4(6) of the Securities Act of 1933 and whether to adopt amendments to Form 242, the notice-of-sales form to be used by issuers that sell their securities in reliance upon Rule 242, promulgated under Section 3(b) of the Act. For further information, please call Suzanne Brannan at (202) 272-2644.

3. Consideration of whether to issue proposed rules which will define, for purposes of the Regulatory Flexibility Act, certain small business entities which are issuers and reporting companies under the federal securities laws or are otherwise regulated under the securities laws, in order to enable the Commission to make judgments as to whether Commission rules might have a "significant economic impact" upon a "substantial number of small entities," as required by the Regulatory Flexibility Act. For futher information, please contact Alan Rosenblat at (202) 272-2428.

The following additional items will be considered at a closed meeting scheduled for Wednesday, March 18, 1981, following the 10:00 a.m. open meeting:

Settlement of administrative proceding of an enforcement nature.
Institution and settlement of administrative proceedings of an enforcement nature.
Litigation matter.

Commissioner Evans, as duty officer, determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Marcia MacHarg at (202) 272-2468.

B—Purchase awards
1. Req. No. 828179—Indefinite quantity term contract—Nuclear quality reinforcing steel for Browns Ferry, Sequoyah, Watts Bar, and Bellefonte Nuclear Plants.
2. Amendment to contract 74P–25–T17 with South Hopkins Coal Company for coal for TVA steam plants.

C—Power items
*Agreement with the Department of Energy covering arrangements for the construction, operation, and evaluation of the TVA scrubber test facility at Shawnee Steam Plant.
2. Lease agreement with the city of Paris, Tennessee, covering lease of TVA facilities in connection with 69–kV standby power supply arrangements.
3. Letter agreement with the Duck River Electric Membership Corporation covering arrangements for new 26–kV delivery points at TVA's East Shelbyville Substation and elimination of 13–kV delivery point at TVA's Shelbyville Substation.
4. Letter agreement with Johnson City, Tennessee, covering the establishment of 13–kV delivery point at TVA's Tanglewood Substation.
5. Renewal of power contract with Caney Fork Electric Cooperative.
6. Agreement covering the participation of the Tombigbee Electric Power Association in TVA's Water Heater Cycling Program.

D—Personnel items
*1. Change of status for Morris L. Branch from Chief, Management Systems Staff, Office of Engineering Design and Construction, to Director of Management Systems, Office of Management Services, Knoxville, Tennessee.
2. Supplements to personal services contracts with Kenneth L. Peneger, Richard S. Wirtz, and Kenneth D. McCasland, Sr. in connection with Contract Disputes Appeals.
3. Supplement to personal services contracts with Gilbert Associates, Inc., Reading, Pennsylvania, for architectural, engineering, and other related services. Requested by Offices of Engineering Design and Construction.
4. Supplement to personal services contract with United Engineers & Constructors, Inc., Philadelphia, Pennsylvania, for architectural engineering, and other related services. Requested by Office of Engineering Design and Construction.

E—Real property transactions
1. Sale at public auction of underlying fee title of approximately 28.6 acres of Kentucky Reservoir land in Calloway County, Kentucky, subject to two existing permanent industrial easements owned by Hutson Company, Inc.—Tract No. XCIR–903.
2. Acceptance of reconveyance of two public access areas on Watts Bar Reservoir from the State of Tennessee—Tract Nos. XTWBR–5 and XTWBR–9.
3. Filing of condemnation suits.

F—Unclassified
1. Agreement with the Tennessee Department of Civil Defense and Emergency Preparedness covering arrangements for the development and implementation of a radiological emergency plan.
2. Designation of alternate Agency Official for purposes of the Ethics in Government Act of 1978 requiring TVA employees in certain positions to make financial disclosure reports at specific times.
3. Resolution authorizing the Comptroller to writeoff certain uncollectible accounts receivable.
4. Payment from nonpower proceeds for Fiscal Year 1980 to the Treasury of the United States pursuant to Section 26 of the TVA Act.
*5. Settlement agreement between TVA and Siemens-Allis, Inc., relating to various claims under Contract No. 7102–54212 for generator/motors for the Raccoon Mountain pumped storage project.
6. Change in designation of officers to certify vouchers.
7. Revised TVA policy relating to abandonment of flowage rights and conveyance of easements for filling of industrial lands.

*Items approved by individual Board members. This would give formal ratification to the Board's action.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Information, or a member of his staff can respond to request for information about this meeting. Call (615) 632–3257, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 245–0101.

Dated: March 18, 1981.

Part II

Department of Housing and Urban Development

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

Section 8 and Section 23 Housing Assistance Payments Programs; Changes to Fair Market Rent Schedules, Existing Housing

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Parts 803, 888

[Docket No. R-80-872]

Section 8 and Section 23 Housing Assistance Payments Programs—Amendment of Fair Market Rent Schedules, Existing Housing

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: HUD is amending the schedules that set forth the Fair Market Rents (FMRs) for Existing Housing under the Section 8 (24 CFR Part 882, Subparts A–B) and Section 23 (24 CFR Part 802) Housing Assistance Payments Programs, and for Mobile Homeowners under the Section 8 Program (24 CFR Part 882, Subpart F). The amended schedules are intended for program operations during the period from March 29, 1981, through March 28, 1982, and reflect estimated median rent levels for October 1, 1981, mid-point of the period of intended use. The amended FMR schedules include adjustments made in response to rental market data and information provided in public comments. Fair Market Rents are intended to reflect the median gross rents charged for available standard units in the applicable county or Standard Metropolitan Statistical Area (SMSA).

EFFECTIVE DATE: April 27, 1981, retroactive to March 29, 1981 only for purposes of commuting annual rent adjustments in accordance with regular procedures and the PHA administrative fees.

FOR FURTHER INFORMATION CONTACT: Gerald Benoit, Director, Existing Housing Division, Office of Existing Housing and Moderate Rehabilitation, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C., 20410. (202) 426–0910. For technical information regarding the development of the FMR schedules for specific areas or the method used for the rent calculations, contact Ellis V. St. Clair, Economic and Market Analysis Division, Office of Economic Affairs, HUD (same address), (202) 755–5816. These are not toll–free numbers.

SUPPLEMENTARY INFORMATION: In the Federal Register of November 4, 1980 (45 FR 73372) HUD published proposed revisions to the Fair Market Rents for Section 8 and 23 Existing Housing (Schedule B) and to the Fair Market Rents for Mobile Home Spaces (Schedule D). Interested parties were given until December 3, 1980 to submit written comments.

A total of 132 public comments covering 215 FMR areas were received. Six of the comments relating to 6 FMR areas were in regard to the rents for Mobile Home Spaces. HUD Field Offices provided locality data and analysis of market conditions applicable to the rent levels in an additional 75 FMR areas including 2 relative to Mobile Home Spaces. All comments and additional rental market data covering these 290 market areas have been carefully reviewed.

Based on the Department's evaluation of all public comments and Field Office analysis, the Fair Market Rent Schedules for Existing Housing in 187 market areas, including 43 SMSAs and 144 non-metropolitan counties, have been approved at a higher level than initially proposed in the Federal Register publication of November 4, 1980. The Fair Market Rent Schedules for Mobile Home Spaces have been increased for five market areas. All comments containing adequate data reflecting current rental market conditions or inflation trends during the past year on a specific locality basis were given appropriate consideration in the determination of the final rent schedules. In addition, HUD is making a technical change to indicate that Schedule D, which reflects the Fair Market Rents for Mobile Home Spaces, is properly a part of Subpart A of Part 888.

NEPA

The Department has determined that these regulations do not constitute a major Federal Action significantly affecting the quality of the human environment. Accordingly, a Finding of no Significant Impact under the National Environmental Policy Act 1969 has been prepared and is available for public inspection during regular business hours at the Office of the Rules Docket Clerk, at the address specified above.

The legislative review provisions of Section 7(o) of the Department of HUD Act, 42 U.S.C. 3535(o) has been met.

This rule is not listed in the Department's semiannual agenda of significant rules published pursuant to Executive Order 12044.

Accordingly,

1. Title 24, Part 803, Subpart A, Schedule B, and Part 888, Subpart A, Schedule B, and Subpart B, Schedule D, are revised as set forth below.

2. Title 24, Part 888, Subpart A is revised to reflect the inclusion of Schedule D under Subpart A and, correspondingly, Subpart B is revised to reflect the deletion of Schedule D in Subpart B.

This rulemaking is issued under the authority of Section 7(d), Department of HUD Act, 42 U.S.C. 3535(d); 42 U.S.C. 1437f *et. seq.*

Issued at Washington, D.C., March 3, 1981.

George O. Hippe, Jr.,

Acting General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

Part III

International Trade Commission

Supplementary Procedures; Investigations of Unfair Practices in Import Trade

INTERNATIONAL TRADE COMMISSION

19 CFR Ch. II, Parts 210 and 211

Supplementary Procedures; Investigations of Unfair Practices in Import Trade

AGENCY: United States International Trade Commission.

ACTION: Final rules.

SUMMARY: These rules amend Part 210 of the Commission's *Rules of Practice and Procedure* to provide additional procedures for the termination of investigations under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337). A new Part 211 provides procedures for consent orders and for certain nonadjudicative proceedings, including enforcement of final Commission orders, incident to the exercise of Commission jurisdiction under section 337. These final rules reflect public comment on proposed rules published on April 9, 1980 (45 FR 24192). In addition, these new rules reflect public comments on an earlier proposed rulemaking on this subject, 43 FR 2883–2889 (January 20, 1978) and also the experience gained by the Commission in connection with consent orders and enforcement proceedings.

EFFECTIVE DATE: March 10, 1981.

FOR FURTHER INFORMATION CONTACT: Edward M. Lebow, Assistant General Counsel, or Donald R. Dinan, Attorney-Advisor, U.S. International Trade Commission, 701 E Street NW., Washington, D.C., telephone 202–523–0486, or 202–523–0488, respectively.

SUPPLEMENTARY INFORMATION: In the exercise of its jurisdiction under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), the Commission is authorized to conduct proceedings supplemental to the formal adjudicative investigations provided for by Part 210 of the Commission's Rules of Practice and Procedure (19 CFR Part 210). The proceedings may be authorized in part by other statutes, such as the Administrative Procedure Act (5 U.S.C. 551, et seq.) in the case of consent orders, and section 603 of the Trade Act of 1974 (19 U.S.C. 2482) in the case of preliminary investigations, as well as by 19 U.S.C. 1333. The Commission's rules at present do not provide for these supplemental proceedings.

These amendments to the Commission's rules revise the format of Subchapter C, Chapter II, Title 19, Code of Federal Regulations, by dividing the subchapter into three parts to provide for these supplemental proceedings. A new Part 209, which will provide procedures for the conduct of informal inquiries and preliminary investigations, will be the subject of subsequent rulemaking. Amendments to Part 210 of the Commission's rules provide for certain procedures in the termination of an adjudicative investigation. Also promulgated is a new Part 211, to provide procedures for consent orders and for the administration of the Commission's enforcement authority.

Analysis of Public Comments on Proposed Rules

Comments on the Commission's proposed rules as published on April 9, 1980, were received from only two firms, one representing a former respondent and the other a former complainant in Commission proceedings under section 337. Thus, despite the paucity of comments, those received were opposing and therefore enabled the Commission to balance the interests of both sides concerned in consent and enforcement proceedings.

The following is a summary of the general comments made and an analysis of the specific comments organized by subpart of the rules. The summary will also include an explanation of why comments were accepted or rejected.

The firm representing the former respondents had several general comments. The first was that the provisions governing consent order agreements would discourage settlement of cases because they do not allow flexibility for negotiations and employ the same enforcement procedures for both consent orders and cease and desist orders. Their second criticism was that the rules do not ensure the respondents' due process rights because they could lead to the imposition of severe penalties without the benefit of an APA type hearing and are to be applied retroactively.

With regard to the first comment, the Commission's decision to use the same procedure for consent orders and cease and desist orders is based on several considerations. The first is the similarity of consent orders and cease and desist orders. A consent order is predicated on the parties' consent to the imposition of a cease and desist order. Additionally, both cease and desist and consent orders are final orders of the Commission which have a *res judicata* effect. The second consideration is that in agreeing to a consent order the parties voluntarily waive their right to a full adjudication on the merits. In light of these similarities and because of the Commission's interest in developing equitable and uniform compliance procedures, the Commission believes that the enforcement of cease and desist and consent orders should for the most part be governed by the same procedures.

In response to the concern over the protection of due process rights reflected in the comments, the Commission revised the rules to provide for a notice and comment period prior to the adoption of changes in reporting requirements. Additional due process safeguards are provided for in the section in the rules which allows the Commission to hold a formal hearing when it deems appropriate and in the parties right to seek appellate review of final Commission orders before the CCPA. Additionally, the Commission does not believe that retroactive application of the rules will result in a denial of due process rights. Instead, retroactivity is necessary to ensure fairness through continuity in the enforcement of outstanding consent orders.

The firm representing the former complainant had two general criticisms. The first was that the proposed rules may not provide adequate safeguards for the due process rights of complainants. The second comment was that the result of the hearing contemplated by the proposed rules may not be reviewable by the CCPA. The Commission believes that the rules provide adequate due process guarantees for complainants and respondents. The rules provide for a notice and comment period prior to the adoption of a consent order and prior to the modification of a Commission order. Thus, the parties have an opportunity to submit their views prior to Commission action under the new rules. Additionally, actions construable as final Commission actions under the rules, such as substantive modifications to cease and desist orders and the entry or removal of exclusion orders, would be reviewable before the Court of Customs and Patent Appeals. Presumably, other non-final, compliance actions, such as steps to gather information, modify information requirements, issue or deny advisory opinions, accept or reject consent agreements, etc., would be reviewable only to determine whether the Commission acted arbitrarily, capriciously, otherwise denied due process. Although a technical argument could be made that jurisdiction for review of non-final actions is in the district courts or the Court of International Trade, it is the position of the Commission that the CCPA, the Congressionally designated review court of section 337 actions, is the proper

forum for any such oversight of Commission enforcement activities.

The former respondents commented that § 211.22 is too restrictive in that it does not allow the Commission flexibility to negotiate the terms of the consent order to suit the facts of each case. This rule sets up the basic requirements and procedures for consent orders. Subsection (2) of the rule lists the three elements which must be contained in all consent orders approved by the Commission: (1) an admission of jurisdictional facts; (2) waiver of rights to judicial review of the order; and (3) enforcement proceedings are governed by subpart C of part 211 of the Commission rules. The first two elements are based on past Commission practice in dealing with consent orders and are the foundation of the Commission's jurisdiction to enforce the agreement. The third element merely establishes an enforcement procedure pursuant to rule 211 to assure uniform and equitable enforcement.

While § 211.22 establishes uniformity in requirements and enforcement, it leaves room for some negotiating flexibility. Under paragraph (a) the scope of each of the required elements may be tailored to suit the facts of the individual cases and additional terms may be added. Furthermore, under paragraph (b) the Commission has flexibility since it has several means to achieve compliance, including periodic reports and informal or formal proceedings resulting in modification or termination.

The language of paragraph (c) of § 211.50 was criticized as creating an unnecessary obstacle to implementation, since it would require the Commission to examine each outstanding order in light of the new rules. Paragraph (c) states that the proposed rules will apply to final Commission actions taken before their effective date "only to the extent not inconsistent with such final actions." The purpose of paragraph (c) is to provide continuity and to preserve pre-existing consent orders. The Commission does not believe that this provision will hinder the implementation of outstanding consent orders since the rule specifically states that the proposed procedures will only apply to the extent that they are consistent with the terms of previously negotiated orders.

The former respondent argued that paragraph (a) of § 211.54 is too ambiguous since it does not indicate when an advisory opinion will be issued and is not subject to judicial review. This provision is intended to provide the Commission with an additional means of securing parties compliance by advising them that their acts evidence noncompliance. This provision also ensures fairness to the parties since if they are uncertain as to the scope of the Commission's order, they can ask for an advisory opinion. The proposed rule as drafted provides both the Commission and parties a certain measure of flexibility since the issuance of advisory opinions may not be warranted in every case. Since the advisory opinions are not binding they are not final orders and are therefore not appealable. *Floersheim v. Weinburger* 346 F. Supp. 950 (D.D.C. 1972).

The former respondents commented with regard to § 211.55 that allowing the Commission to modify reporting requirements without notice to the parties will discourage settlement. The respondents also suggested that the Commission should at least allow for a comment period prior to modification. The Commission's authority to modify consent decrees or cease and desist orders to further their enforcement is supported by case law and the administrative practice of other agencies. Furthermore, the Commission may require that the parties include a provision in the consent order that it is subject to modification. The Commission, however, recognizes that the possibility of modification may cause some parties to be reluctant to enter into consent agreements. Therefore, the Commission has revised § 211.55 to provide for a mandatory notice and comment period prior to the modification of reporting requirements of a consent order and notice and comment as the public interest warrants in the case of a cease and desist order.

Both the former respondents and complainant commented that the procedures under § 211.56 do not guarantee that the parties will have a fair hearing. Comments were received objecting to paragraph (a) on the grounds that it would allow adjudicative facts to be decided without a hearing. Comments were also received objecting to former paragraph (b)(4) which allowed for the submission of written statements in lieu of appearance as depriving parties the right of cross-examination. Comments also were submitted criticizing the exemption of enforcement proceedings from the Administrative Procedure Act pursuant to paragraph (b)(5)(ii)(c). Finally, comments were received stating that enforcement proceedings with respect to cease and desist orders must be subject to the Administrative Procedure Act in order to create an adequate record for review.

With regard to paragraph (a), a formal trial type proceeding is not warranted since the Commission's interest in effective enforcement of consent and cease and desist orders through informal proceedings outweighs the parties' interest in being afforded a full hearing. Furthermore, section 5(b) of the APA which encourages settlement does not indicate that it was intended to apply to informal attempts to arrive at and enforce settlements. Additionally, the reviewability of final Commission orders provides a due process safeguard.

Former paragraph (b)(4) provided for oral examination of the complainant and named respondent. This subsection has been replaced by paragraph (d) which provides for a public hearing at which time parties are given the opportunity to be heard. Additionally, copies of all written submissions must be served on all parties pursuant to § 201.16 of the Commission rules, thus affording parties the opportunity to respond. The exemption of enforcement procedures from the provisions of the APA is consistent with the prior Commission practice of requiring an on-the-record proceeding only as to the Commission's determination as to violation pursuant to Commission rule 210.41 and not the decision as to the issuance of a remedy. This procedure has been approved by the Administrative Conference of the United States and is consistent with the judicial review provisions of the recently enacted Customs Courts Act. Although the Commission's enforcement procedures are not subject to the APA, the Commission has provided procedural safeguards, such as the parties' right to file a formal complaint and make written submissions. The Commission may also hold a hearing and hear oral argument. The Commission believes that its enforcement procedures, although not subject to the APA, provide for more than adequate due process safeguards.

The respondents commented that proposed § 211.57 was ambiguous since it did not clearly provide what sort of circumstances would justify the issuance of an exclusion order. Respondents also commented that the issuance of an exclusion order without notice or hearing is only justified on a clear showing that the domestic industry will suffer irreparable and immediate injury. Proposed rule 211.57 has been replaced by rule 211.58. The new § 211.58 states that the Commission may take temporary emergency action when the following circumstances exist: (1) pending a formal enforcement proceeding under § 211.56(b); (2) it

appears that a cease and desist order will be violated; and (3) subsequent action by the Commission will not adequately repair substantial harm caused by such violation. Prior to taking any action under this section the Commission is required to consider the effect of its action "upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States and United States consumers." To ensure that the due process rights of the parties are protected, the Commission has revised the rule to require it to institute a formal enforcement proceeding under § 211.56 at the time the emergency action is taken or as soon as possible thereafter.

Explanation of Proposed Rules

Section 210.51 Termination of investigation.

Section 210.51 is amended by slightly altering the first sentence of paragraph (a), striking the last sentence of paragraph (a) and striking paragraph (c), and adding new paragraphs (c), (d), and (e). The effect of these amendments is to provide specifically in settlements by licensing or other agreement and consent order settlements for the termination of an investigation in the manner provided in paragraph (c).

Paragraph (c)(1) requires that a motion to terminate based upon a licensing or other agreement be accompanied by a copy of the agreement, as well as any related agreements, and an affidavit stating that there are no other agreements concerning the subject matter of the disclosed agreement. This provision is intended to allow the Commission to safeguard the public interest, including competitive conditions in the U.S. economy, in its consideration of these agreements. In addition, public comment on a nonconfidential summary of the agreement is to be solicited. Paragraph (c)(2) of amended § 210.51 provides that an investigation shall be terminated on the basis of a licensing or other agreement without determining whether there is a violation of section 337.

Paragraph (d) of the amended rule provides for termination of an investigation on the basis of a consent order agreement that complies with the requirements of new § 211.20(b). An order of termination based upon a consent order agreement would not constitute a determination of whether there is a violation of section 337.

Section 210.55 Commission determination and action.

This section has been amended to make it clear that the Commission's obligation to make a determination is subject to and does not transcend its duty under the Administrative Procedure Act to permit the settlement of disputes as provided in § 210.51.

Section 210.56 Implementation of Commission action. (Present §§ 210.56 and 210.57 are redesignated §§ 210.57 and 210.58, respectively.)

This section provides for the procedural implementation of section 337(g) to establish the effective and final date of Commission action, including consent and enforcement orders, pending possible Presidential disapproval.

Paragraph (b) provides for the publication and transmittal to the President of affirmative determinations under section 337 together with the action taken. The new subsection also provides for the transmittal to the President of consent settlement and enforcement orders for his review and possible disapproval on policy grounds.

Paragraph (c) provides that when an affected party receives notice of a Commission action other than an exclusion order, the Commission action is immediately operative and enforceable. Exclusion orders are enforceable upon receipt of notice by the Secretary of the Treasury. This section implements the last sentence of sections 337(d) and 337(e).

As provided in paragraph (d), if the President does not disapprove of a Commission action within 60 days of the date of his being notified of such action, or if he states his approval of the action before that date, then the Commission's action will become final the day after the end of the review period or the day that he notifies the Commission of his approval.

Part 211

Section 211.01 Purpose.

This Part sets forth procedures for the settlement by consent of matters which may involve a violation of section 337 and for the enforcement, modification, and revocation of final Commission actions.

Subpart A—Informal Enforcement Procedure

Section 211.10 Informal disposition through voluntary compliance.

Section 211.10 provides a procedure whereby the Commission may accept assurances from a private party that it will desist from engaging in practices which may violate section 337. Paragraph (b) requires that the Commission consider, in determining whether to accept the assurances of the party in question, such factors as the nature and gravity of the practice, the likelihood of its recurring, the prior record and good faith of the party, and the adequacy of the proffered assurances.

Subpart B—Consent Order Procedure

Section 211.20 Opportunity to submit proposed consent order.

Paragraph (a) provides for an opportunity to submit to the Commission a proposed consent order prior to the institution of a formal investigation under section 337.

Paragraph (b) sets forth the procedures for the submission of proposals to settle a matter by consent subsequent to institution of a formal investigation under section 337. Such a proposal must be filed as a motion with the presiding officer and incorporate the elements of a consent order agreement set forth in § 211.22. The motion, except for good cause shown, must be filed prior to the commencement of the hearing prescribed by § 210.41(e)(1). If the proposed consent order agreement complies with the three requirements set forth in § 211.22(a), the presiding officer must certify the motion to the Commission promptly, together with his recommendation. Pending disposition, a party may not withdraw from a consent order agreement.

Section 211.21 Settlement by consent.

Section 211.21 sets forth the procedure for Commission action after a consent order agreement has been filed with it under § 211.20(a) or certified to it by the presiding officer under § 211.20(b). Unless it chooses to reject a consent order agreement at the outset, the Commission will publish the consent order agreement in the **Federal Register** for public comment (usually thirty days). Copies are also to be served on the Department of Health and Human Services, the Department of Justice, the Federal Trade Commission, and such other departments and agencies as the Commission deems appropriate. The Commission may also conduct within the comment period such hearings as it deems appropriate. Thereafter, within an additional twenty days and after considering the effect of the consent order upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers, in the manner provided by § 210.14(a)(4) of

Part 210, the Commission must either: (1) accept the agreement, issue the consent order and terminate the investigation; (2) reject the agreement and deny the motion; or (3) take such other action as it deems appropriate. In event the Commission rejects the proposed agreement, the parties are not bound by their proposal in later actions before the Commission.

Section 211.22 Contents of consent order.

This section sets forth the required contents of a consent order agreement, including an admission of all jurisdictional facts, a waiver of judicial review, contest, or challenge of the consent order, and a statement making enforcement, modification, and revocation of the consent order explicitly subject to Subpart C of Part 211 of these rules.

Subpart C—Enforcement, Modification, and Revocation

Section 211.50 Applicability, purpose, and retroactivity.

The "applicability" and "purpose" subsections are self-explanatory. This subpart is intended to serve as the basis for all changes in final Commission actions. This subpart is not limited to enforcing cease and desist orders. Dissolving orders that have ceased to serve a useful purpose, such as exclusion orders, is also contemplated. The rule also include temporary relief orders, but no other interlocutory orders are included. Final Commission actions have to undergo the rigors of the law relating to appeals (subsections 337(c)) and Presidential review (subsection 337(g)). However, this does not mean, when an adversely affected person fails to appeal a final Commission action, or appeals and then loses, that it may later collaterally attack the original action when that action is altered pursuant to these rules. In such a situation, it would appear that a court challenge, if any, can only attack the changed action.

The rules contain a "savings" provision, which serves to keep whole existing consent orders.

Section 211.51 Information gathering.

The power to gather information relating to the operation of a final Commission action is set out here. Any reporting provided for by law is permitted if it will either aid the Commission to determine "whether and to what extent there is compliance with the action" or "whether and to what extent the conditions which led to the action are changed." The first of these relates to cease and desist orders.

The second condition, which is adapted from subsection 337(h), may relate to any kind of final Commission action. One example of such changed circumstances is when the holder of a domestic patent ceases to produce articles domestically that are the subject of an exclusion order. In that case revocation of the exclusion order may then be appropriate.

Final Commission actions may also include provisions for gathering information by any other means provided by law, such as gaining access to records, copying records, and requiring persons to produce books or papers (19 U.S.C. 1333(a)). This rule also provides for the collection of information from voluntary sources.

Under paragraph (b), the Commission is empowered to prescribe the form and detail of reporting. This implements 19 U.S.C. 1333. Under subsection (c), information gathering is enforceable in court or by any other means available to enforce the final action. In paragraph (d), discretion is kept to set the terms of informational requirements of a final action. This would allow for the adjustment of reporting requirements to meet the needs of individual cases and changes in international trade.

Section 211.52 Confidentiality of information.

This section provides that information received pursuant to a final action may be held in confidence and that such protective orders as are necessary may be issued.

Section 211.53 Review of reports.

This section sets forth the Commission's general authority to review reports and take further appropriate action. The Chief of the Unfair Import Investigations Division is delegated the authority, when good cause is demonstrated, to extend the time within which reports must be submitted.

Section 211.54 Advice to persons submitting information.

Advice to persons reporting may be sufficient in some cases. When a cease and desist order is involved, and compliance with the order is the primary objective of reporting, then advising persons that their reporting evidences noncompliance may be an effective means of gaining compliance.

Paragraph (b) provides for the issuance of advisory opinions on the legality of any respondent's proposed altered course of conduct. The Commission may, in accordance with past practice, request public comment prior to issuing such an opinion.

Paragraph (c) allows for the rescission of such an advisory opinion. No action would be taken against a respondent that after full and fair disclosure of all relevant facts to the Commission relies in good faith on a Commission advisory opinion.

Section 211.55 Modification of information requirements.

The Commission may unilaterally modify reporting requirements of cease and desist orders. Modification or reporting requirements will facilitate focusing on problems that require special study in order to determine how the oversight function will be exercised. It may also be used to document facts that justify change in a final order. Modifying reporting requirements will also assure compliance with many cease and desist orders. Finally, it will facilitate altering or abolishing reporting schemes that have proved useless, unreasonably burdensome, or undesirable for other reasons. The public will be given an opportunity to comment with respect to proposed modification of information requirements of consent orders. This is intended to mitigate any disincentive to settlement inherent in this rule.

Section 211.56 Proceedings to enforce Commission orders.

This section sets forth the full range of enforcement methods available to the Commission. Under paragraph (a) informal enforcement proceedings may be conducted. Correspondence, conferences, and Commission orders, are among the contemplated tools. Under paragraph (b) the Commission may utilize section 337(f) of the Tariff Act of 1930, as amended by section 1105 of the Trade Agreements Act of 1979, to request imposition of appropriate civil penalties by a United States District Court. Such action may be taken by the Commission at any time in order to enforce a final Commission order and need not be preceded by a formal enforcement proceeding before the Commission under paragraph (c).

Paragraph (c) provides the Commission with an optional formal enforcement mechanism. The Commission under this subsection may docket a complaint setting forth the alleged violation. Respondents would be given an opportunity to respond. The Commission is authorized to hold a hearing, if it so chooses, in the course of such a formal enforcement proceeding. The Commission may order that this hearing be conducted by an administrative law judge. If a violation is found, paragraph (c) provides that the

Commission may modify the cease and desist order in question, issue an exclusion order, or bring a civil action in U.S. district court.

Section 211.57 Modification or dissolution of final Commission order.

This section permits any former party, such as an adversely affected respondent, or the Commission itself, to propose modification of an outstanding final Commission action whenever any changed conditions of fact or law, or the public interest, so requires. Provisionally accepted modifications are to be published for public comment. The Commission may, in addition, hold a public hearing. The Commission may order that this hearing be conducted by an administrative law judge.

Section 211.58 Temporary emergency action.

This section provides for temporary emergency relief action. Thus, when harm to the domestic industry would, absent a temporary exclusion order, be substantial, immediate, and irreparable, a cease and desist order could be revoked and temporarily replaced by exclusion or any other temporary measure allowed by the law. It must be evident that violations will occur or that temporary measures pending docketing of a complaint under § 211.58(c) are necessary to avert such harm. This section applies to all types of final Commission actions.

Section 211.59 Notice of enforcement action to government agencies.

Notice to Federal agencies is essential to the proper functioning of these rules. Under subsection 337(b), Government agencies have a role in Commission section 337 proceedings. These rules are supplementary to section 337, and therefore the agencies should have a role here, too. Furthermore, advice to the Secretary of Treasury when an exclusion order of any type is made or revoked is required by subsections 337(d), 337(e), and 337(h).

By order of the Commission.

Kenneth R. Mason,

Secretary.

March 10, 1981.

Chapter II, Title 19, of the Code of Federal Regulations is amended as follows:

SUBCHAPTER C—INVESTIGATIONS OF UNFAIR PRACTICES IN IMPORT TRADE

(1) Subchapter C of 19 CFR Chapter II is retitled "Investigations of Unfair Practices in Import Trade";

PART 210—ADJUDICATIVE PROCEDURES

(2) Part 210 of Subchapter C is retitled "Adjudicative Procedures";

§§210.56 and 210.57 [Redesignated as §§210.57 and 210.58.]

(3) Present §§ 210.56 and 210.57 of Part 210 are redesignated §§ 210.57 and 210.58 of Part 210, respectively;

(4) New § 210.56 is added, and present §§ 210.51 and 210.55 are revised; and

(5) New Part 211, entitled "Enforcement Procedures," consisting of Subparts A, B, and C is added. The new rules that correspond to this enumeration, which are hereby promulgated, are as follows:

§ 210.51 Termination of investigation.

(a) *Motions for termination.* Any party may move at any time for an order to terminate an investigation in whole or in part as to any or all respondents.

(b) *Default.* Upon the occurrence of the condition of default, an investigation may be terminated as to one or more of the parties in the investigation.

(c) *Settlement by licensing or other agreement.* (1) An investigation before the Commission may be terminated as provided in paragraph (a) of this section on the basis of a licensing or other agreement entered into between the complainant (all of the complainants if there is more than one) and one or more of the respondents. A motion for termination by such parties shall contain copies of the licensing or other agreement and any agreements supplemental thereto and an affidavit executed by the parties stating that there are no other agreements, written or oral, expressed or implied, between such parties concerning the subject matter of the investigation.

(2) The motion, licensing or other agreement and any agreements supplemental thereto, and affidavit shall be certified by the presiding officer to the Commission with a recommendation. The Commission shall promptly publish notice of such motion along with a nonconfidential summary of the licensing or other agreement in the **Federal Register** and, unless otherwise ordered, for a period of thirty (30) days thereafter receive and consider any comments that may be filed by interested persons concerning the agreement. An order of termination based upon such licensing or other agreement shall not constitute a determination of the Commission under § 210.55.

(d) *Consent order settlement.* An investigation before the Commission may be terminated as provided in paragraph (a) of this section on the basis of a consent order settlement under § 211.20(b). An order of termination based upon such a settlement shall not constitute a determination of the Commission under § 210.55.

(e) *Effect of termination.* Except as provided in paragraphs (c) and (d) of this section, an order of termination issued by the Commission shall constitute a determination of the Commission under § 210.55, and an order of termination issued by the presiding officer (when not the Commission) shall constitute a recommended determination of the presiding officer under § 210.53.

§ 210.55 Commission determination and action.

(a) *Review of recommended determination.* Subject to §§ 210.51 and 210.54, upon receipt of a recommended determination and the record under § 210.53, the Commission shall review the same and determine, as the case may be, whether there is a violation of section 337 or whether there is reason to believe that there is such a violation, and, when appropriate, whether any action (exclusion of articles from entry, exclusion of articles from entry except under bond, or cease and desist order) is in the public interest and should be ordered, and the amount of any bond required.

(b) *When the presiding officer is the Commission.* When the Commission has presided at the taking of evidence, it shall determine, as the case may be, whether there is a violation of section 337 or whether there is reason to believe there is such a violation, and, when appropriate, whether any actions (exclusion of articles from entry, exclusion of articles from entry except under bond, or cease and desist order) is in the public interest and should be ordered, and the amount of any bond required.

§ 210.56 Implementation of Commission action.

(a) *Service of Commission determination upon the parties.* A Commission determination pursuant to § 210.55 or a termination on the basis of a licensing or other agreement or consent settlement pursuant to §§ 210.51 (c) and (d), respectively, shall be served upon each party to the investigation.

(b) *Publication and transmittal to the President.* A Commission determination that there is a violation of section 337, or that there is reason to believe that there is such a violation, together with the action taken, relative to such determination, or Commission action

pursuant to Subparts B and C of Part 211 shall be immediately (1) published in the Federal Register, and (2) transmitted to the President together with the record upon which the action is based.

(c) *Enforceability of Commission action.* Unless otherwise specified, any Commission action, other than an exclusion order, shall be enforceable upon receipt by the effected party of notice of such action. An exclusion order shall be enforceable upon receipt of notice thereof by the Secretary of the Treasury.

(d) *Finality of affirmative Commission action.* If the President does not disapprove for policy reasons such Commission action within a period of sixty (60) days beginning on the day after delivery of a copy of such Commission action is delivered to the President, or if the President notifies the Commission before the close of such period that he approves such Commission action, then such Commission action shall become final on the day after the close of such period, or the day on which the President notifies the Commission of his approval, as the case may be.

(e) *Duration.* Final Commission action shall remain in effect as provided in Subpart C of Part 211.

PART 211—ENFORCEMENT PROCEDURES

Sec.

211.01 Purpose.

Subpart A—Informal Enforcement Procedure

211.10 Informal disposition through voluntary compliance.

Subpart B—Consent Order Procedure

211.20 Opportunity to submit proposed consent order.
211.21 Settlement by consent.
211.22 Contents of consent order agreement.

Subpart C—Enforcement, Modification, and Revocation of Final Commission Actions

211.50 Applicability, purpose, and retroactivity.
211.51 Information gathering.
211.52 Confidentiality of information.
211.53 Review of reports.
211.54 Advice concerning Commission orders.
211.55 Modification of information requirements.
211.56 Proceedings to enforce Commission orders.
211.57 Modification or dissolution of final Commission actions.
211.58 Temporary emergency action.
211.59 Notice of enforcement action to Government agencies.

Authority: The provisions of this Part 211 are issued under secs. 333, 335, and 337 of the Tariff Act of 1930 (19 U.S.C. 1333, 1335, and 1337), and 603 of the Trade Act of 1974 (19 U.S.C. 2482).

§ 211.01 Purpose.

This part sets forth procedures for the settlement by consent of matters which involve alleged violations of section 337 and for the enforcement, modification, and revocation of final Commission actions. Definitions applicable to Part 210 apply to this part unless specifically provided otherwise.

Subpart A—Informal Enforcement Procedure

§ 211.10 Informal disposition through voluntary compliance.

(a) *Opportunity for informal disposition.* When the Commission has information obtained during the course of an informal inquiry or preliminary investigation pursuant to section 603 of the Trade Act of 1974 (19 U.S.C. 2482) indicating that a person may be engaging in a practice which may involve a violation of section 337, it may afford such person the opportunity to have the matter disposed of on an informal administrative basis if it deems that the public-interest factors set forth in § 210.14(a)(2) will be fully safeguarded thereby.

(b) *Public-interest factors to be considered.* In determining whether the public interest factors set forth in § 210.14(a)(2) will be fully safeguarded through such informal administrative action, the Commission will consider—

(1) The nature and gravity of the practice;
(2) Whether the practice is likely to recur;
(3) The prior record and good faith of the person involved;
(4) The adequacy of assurance of voluntary compliance; and
(5) Any other relevant factor that the Commission deems appropriate.

Subpart B—Consent Order Procedure

§211.20 Opportunity to submit proposed consent order.

(a) *Prior to institution of an investigation.* Where time, the nature of the proceeding, and the public interest permit, any person being investigated pursuant to section 603 of the Trade Act of 1974 (19 U.S.C. 2482) or §210.11(b) shall be afforded the opportunity to submit to the Commission a proposal for disposition of the matter under investigation in the form of a consent order agreement which incorporates a proposed consent order executed by or on behalf of such person and complies with the requirements of § 211.22.

(b) *Subsequent to institution of an investigation.* In investigations under section 337, a proposal to settle a matter by consent shall be submitted as a motion to the presiding officer to terminate an investigation under §210.51 together with a consent order agreement which incorporates a proposed consent order. The proposed agreement shall comply with the requirements of §211.22. At any time prior to commencement of a hearing as provided in § 210.41(a)(1), the motion may be filed jointly by all of the following: (1) all private complainants, (2) the Commission investigative attorney, and (3) one or more respondents. However, upon request and for good cause shown, the Commission may consider such a motion certified to it by the presiding officer during or after a hearing. The presiding officer shall promptly certify to the Commission a proposed consent order agreement complying with § 211.22 together with his recommendation. The filing of the motion shall not stay proceedings before the presiding officer unless the presiding officer or the commission shall so order. For the purpose of the time limits for the completion of the hearing set forth in § 210.41(e)(1), there shall be excluded any period of time during which the proceeding is stayed by order of the Commission. Pending review by the presiding officer and disposition by the Commission of a consent order agreement, a party may not, absent good cause shown, withdraw from the agreement once it has been submitted pursuant to this section.

§211.21 Settlement by consent.

(a) After the motion for termination based on a consent order agreement has been filed with the Commission pursuant to § 211.20(a) or certified to the Commission by the presiding officer pursuant to § 211.20(b), the Commission, unless it otherwise orders, shall promptly publish notice of such motion along with the consent order agreement (with confidential information deleted) in the **Federal Register** and for a period of thirty (30) days thereafter receive and consider any comments that may be filed by interested persons concerning the consent order agreement. Notice may also be made through whatever other medium the Commission deems necessary. The Commission shall promptly serve notice of the proposed consent order agreement on the Department of Health and Human Services, the Department of Justice, and the Federal Trade Commission, and such other departments and agencies as the Commission deems appropriate.

(b) Publication of the proposed consent order agreement shall not be deemed to constitute acceptance, provisional or otherwise, of such

agreement. The Commission shall make available a summary of the provisions of the agreement and the relief to be obtained thereby and any other non-confidential information which it deems helpful in assisting interested persons to understand the terms of the agreement.

(c) During the 30 day comment period the Commission may conduct such public proceedings with regard to the notice of proposed consent order agreement as it deems appropriate. Thereafter, within an additional period of twenty (20) days, the Commission shall, after considering the effect of the consent order upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers in the manner provided by § 210.14(a)(4), (1) accept the agreement, issue the consent order, and terminate the investigation; or (2) reject the agreement and deny the motion; or (3) take such other action as it deems appropriate. The Commission shall publish in the **Federal Register** and serve on all parties notice of its action together with a statement of reasons in support thereof. Should the Commission reject the proposed agreement and deny the motion, the parties are in no way bound by their proposal in later actions before the Commission.

§211.22 Contents of consent order agreement.

(a) *Contents.* Every consent order agreement shall contain, in addition to the appropriate proposed consent order, (1) an admission of all jurisdictional facts; (2) an express waiver of all rights to seek judicial review or otherwise challenge or contest the validity of the consent order; and (3) a statement that the enforcement, modification, and revocation will be carried out pursuant to Subpart C of Part 211, incorporating by reference the Commission's Rules of Practice and Procedure. The consent order agreement may contain a statement that the signing thereof is for settlement purposes only and does not constitute admission by any party that section 337 has been violated.

(b) *Effect, interpretation, and reporting.* The consent order shall have the same force and effect and may be enforced, modified, or revoked in the same manner as is provided in section 337 and Parts 210 and 211 for other Commission action. Except as otherwise provided in the agreement, the complaint and notice of investigation or the proposed complaint may be used in construing the terms of the consent order, but no agreement, understanding, representation or interpretation not contained in the consent order agreement or Commission decision accompanying the consent order may be used to vary the terms of the consent order. The Commission may require periodic compliance reports pursuant to Subpart C of Part 211 to be submitted by the person entering into the consent order agreement.

Subpart C—Enforcement, Modification, and Revocation of Final Commission Actions

§211.50 Applicability, purpose, and retroactivity.

(a) *Applicability.* The rules in this subpart apply to final Commission actions issued by the Commission under section 337, including exclusion orders, cease and desist orders, and consent orders.

(b) *Purpose.* The purpose of this subpart is to set forth procedures for the enforcement, modification, and revocation of final Commission actions.

(c) *Retroactivity.* The rules in this subpart apply to final Commission actions taken before the effective date of these rules only to an extent not inconsistent with such final actions.

§ 211.51 Information gathering.

(a) *Power to require information.* Whenever the Commission takes a final Commission action, it may reqire any person to report facts available to that person that will aid the Commission in determining whether and to what extent there is compliance with the action or whether and to what extent the conditions that led to the action are changed. The Commission may also include provisions that exercise any other information-gathering power available to it by law. The Commission may at any time request the cooperation of any person or agency in supplying it with information that will aid it in these determinations.

(b) *Form and detail of reports.* Reports under paragraph (a) are to be in writing, under oath, and in such detail and in such form as the Commission prescribes. A final Commission action may also contain terms and conditions which exercise, or make possible the exercise of, on conditions precedent, any power of information gathering available to the Commission by law, subject to the standards of paragraph (a).

(c) *Power to enforce informational requirements.* Terms and conditions of final Commission actions for reporting and information gathering, and modifications of such terms and conditions, shall be enforceable by the Commission by a civil action under 19 U.S.C. 1333, or, at the Commission's discretion, in the same manner as any other provision of the final Commission action is enforced.

(d) *Term of reporting requirement.* The Commission may prescribe in the final Commission action (or, in the case of a consent order, approve) the frequency of reporting or information gathering and the date on which these activities are to terminate. If no date for termination is provided, reporting and information gathering shall terminate when the final Commission action or any amendment to it expires by its own terms or is terminated. The Commission may modify informational requirements of a final Commission action at any time pursuant to §§ 211.53 and 211.55.

§ 211.52 Confidentiality of information.

Confidential information provided to the Commission pursuant to final Commission action will be received by the Commission in confidence. The Commission or, in a proceeding before an administrative law judge under §§ 211.56 ro 211.57, the administrative law judge may, either upon motion or its own initiative, issue or continue appropriate protective orders.

§ 211.53 Review of reports.

(a) *Review to insure compliance.* The Commission, through the Unfair Import Investigations Division, will review reports submitted pursuant to any final Commission action and conduct such further investigation as it deems necessary to insure compliance with its orders and to ascertain if such orders are being violated.

(b) *Extension of time.* The Chief of the Unfair Import Investigations Division may, for good cause shown, extend the time in which reports required by Commission orders may be filed. An extension of time within which a report may be filed, or the filing of a report which does not evidence full compliance with the order, does not in any circumstances suspend or relieve a respondent from its obligation under the law with respect to compliance with such order.

§ 211.54 Advice concerning Commission orders.

(a) *Advice to respondents submitting information.* The Commission may advise respondents reporting or providing information whether their reports or information comply with a final Commission order or whether the actions or information set forth therein evidence compliance with the Commission order. The Commission may, in any event, institute proceedings pursuant to § 211.56 to enforce compliance with an order.

(b) *Advisory opinions.* Upon request of a respondent, the Commission may, upon such investigation as it deems necessary, issue an advisory opinion as to whether a respondent's proposed new course of action or conduct would violate the Commission order or section 337. The Commission will consider whether the issuance of such an advisory opinion would facilitate enforcement of section 337, would be in the public interest, and would benefit consumers and competitive conditions in the United States.

(c) *Revocation.* The Commission may at any time reconsider its approval of any report of compliance or any advice given under this section and, where the public interest requires, rescind or revoke its prior approval or advice. In such event the respondent will be given notice of the Commission's intent to revoke or rescind as well as an opportunity to submit its views to the Commission. The Commission will not proceed against a respondent for violation of an order with respect to any action which was taken in good faith reliance upon the Commission's approval or advice under this section, if all relevant facts were fully, completely, and acurately presented to the Commission and such action was promptly discontinued upon notification of rescission or revocation of the Commission's approval.

§ 211.55 Modification of information requirements.

(a) *Cease and desist orders.* The Commission may modify reporting requirements of cease and desist orders as necessary (1) to assure compliance with an outstanding action; (2) to take account of changed circumstances; or (3) to minimize the burden of reporting or informational access. An order to modify reporting requirements shall identify the reports involved and state the reason or reasons for modification. No reporting requirement will be suspended during the pendency of such a modification unless the Commission so orders. The Commission may, if the public interest warrants, announce that a modification of reporting is under consideration and ask for comment, but it may also modify any reporting requirement at any time without notice, consistent with the standards of this section.

(b) *Consent orders.* Consistent with the standards set forth in subsection (a) above, the Commission may modify reporting requirements of consent orders. The Commission shall publish a notice of any proposed change in the **Federal Register**, together with the reporting requirements to be modified and the reasons therefor, and serve notice on each party subject to the proposed modified consent order. Such parties shall be given the opportunity to submit briefs to the Commission, and the Commission may hold a hearing on the matter.

§ 211.56 Proceedings to enforce Commission orders.

(a) *Informal enforcement proceedings.* Informal enforcement proceedings may be conducted by the Commission, through the Unfair Import Investigations Division, with respect to any act or omission by any person in violation of any provision of a final Commission action. Such matters may be handled by the Commission through correspondence or conference or in any other way which the Commission deems appropriate. The Commission may issue such orders as it deems appropriate to implement and insure compliance with the terms of a cease and desist or exclusion order, or any part thereof. Any matter not disposed of informally may be made the subject of a formal proceeding pursuant to this subpart.

(b) *Court enforcement.* To enforce a Commission order, the Commission may, without prior notice of any kind to a respondent or any other type of proceeding otherwise available under the section, initiate a civil action in the U.S. district court pursuant to section 337(f), requesting the imposition of such civil penalty or the issuance of such mandatory injunctions as the Commission deems necessary to enforce its orders and protect the public interest.

(c) *Formal Commission enforcement proceedings.* The Commission may institute an enforcement proceeding at the Commission level by docketing a complaint setting forth alleged violations of any final Commission order. The complaint, if docketed, shall be served upon the alleged violator and published in the **Federal Register**. Within fifteen (15) days after the date of receipt of such a complaint, the named respondent shall file a response to it. Responses shall fully advise the Commission as to the nature of any defense and shall admit or deny each allegation of the complaint specifically and in detail unless the respondent is without knowledge, in which case its answer shall so state and the statement shall operate as a denial. Allegations of fact not denied or controverted shall be deemed admitted. Matters alleged as affirmative defenses shall be separately stated and numbered and shall, in the absence of a reply, be deemed to be uncontroverted.

(1) Failure of a respondent to file and serve a response within the time and in the manner prescribed herein shall authorize the Commission, in its discretion, to find the facts alleged in the complaint to be true and to take such action as may be appropriate without notice or hearing, or, in its discretion, to proceed without notice to take evidence on the allegations or charges set forth in the complaint, provided that the Commission (or presiding officer, if one is appointed) may permit late filings of an answer for good cause shown.

(2) The Commission, in the course of a formal enforcement proceeding under paragraph (c) of this section, may hold a public hearing and afford the parties to the enforcement proceeding the opportunity to appear and be heard. The hearing provided for under this paragraph is not subject to sections 554, 555, 556, 557, and 702 of title 5, United States Code. The Commission may delegate any hearing under this subsection to the Chief Administrative Law Judge for designation of a presiding administrative law judge, who shall certify a recommended determination to the Commission.

(3) Upon conclusion of an enforcement proceeding under this subsection, the Commission may (i) modify a cease and desist, consent, or exclusion order in any manner necessary to prevent the unfair practices which were originally the basis for issuing such order; (ii) bring civil actions in the United States district court pursuant to § 211.56(b) requesting the imposition of a civil penalty or the issuance of mandatory injunctions incorporating relief sought by the Commission; or (iii) revoke the cease and desist order or consent and direct that the articles concerned be excluded from entry into the United States.

(4) Prior to effecting any modification, or revocation and/or exclusion, under this paragraph, the Commission shall consider the effect of such action upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers.

§ 211.57 Modification or dissolution of final Commission actions.

(a) Whenever any person believes that changed conditions of fact or law, or the public interest, require that a final Commission action be modified or set aside, in whole or in part, such person may file with the Commission a motion requesting such relief. The Commission may also on its own initiative consider such action. The motion shall state the changes desired and the changed circumstances warranting such action.

and shall include materials and argument in support thereof.

(b) Upon receiving a motion, the Commission shall either (1) provisionally accept the motion or (2) reject the motion. The Commission shall treat a self-initiated action as a provisionally accepted motion under this subsection. Upon provisional acceptance, notice thereof shall be published in the **Federal Register**, and the motion and the notice shall be served on each former party to the section 337 proceeding. Within thirty (30) days after the service of such motion, any party served may file an answer. The Commission may hold a public hearing and afford interested persons the opportunity to appear and be heard. After consideration of the motion, any responses thereto, or any information placed on the record at a public hearing or otherwise, the Commission shall take such action as it deems appropriate. Any final Commission action will, if not modified or revoked, expire by terms stated in the action. The Commission may delegate any hearing under this section to the Chief Administrative Law Judge for designation of a presiding administrative law judge, who shall certify a recommended determination to the Commission.

§ 211.58 Temporary emergency action.

Whenever the Commission determines, pending a formal enforcement proceeding under § 211.56(b), that without immediate action a violation of a Commission order will occur and that subsequent action by the Commission would not adequately repair substantial harm caused by such violation, the Commission may immediately and without hearing or notice modify or revoke such order and, if it is revoked, replace the order with an appropriate exclusion order. Prior to taking any action under this section, the Commission shall consider the effect of such action upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers. The Commission shall, if it has not already done so, institute a formal enforcement proceeding under § 211.56 at the time of taking action under this section or as soon as possible thereafter, in order to give the alleged violator and other interested parties a full opportunity to present information and views regarding the continuation, modification, or revocation of Commission action taken under this section.

§ 211.59 Notice of enforcement action to Government agencies.

(a) *Consultation.* The Commission may consult with or seek information from any Government agency when taking any action under this subpart.

(b) *Notification of Treasury.* The Commission shall notify the Secretary of the Treasury of any action under this subpart which results in a permanent or temporary exclusion of articles from entry or the revocation of an order to such effect.

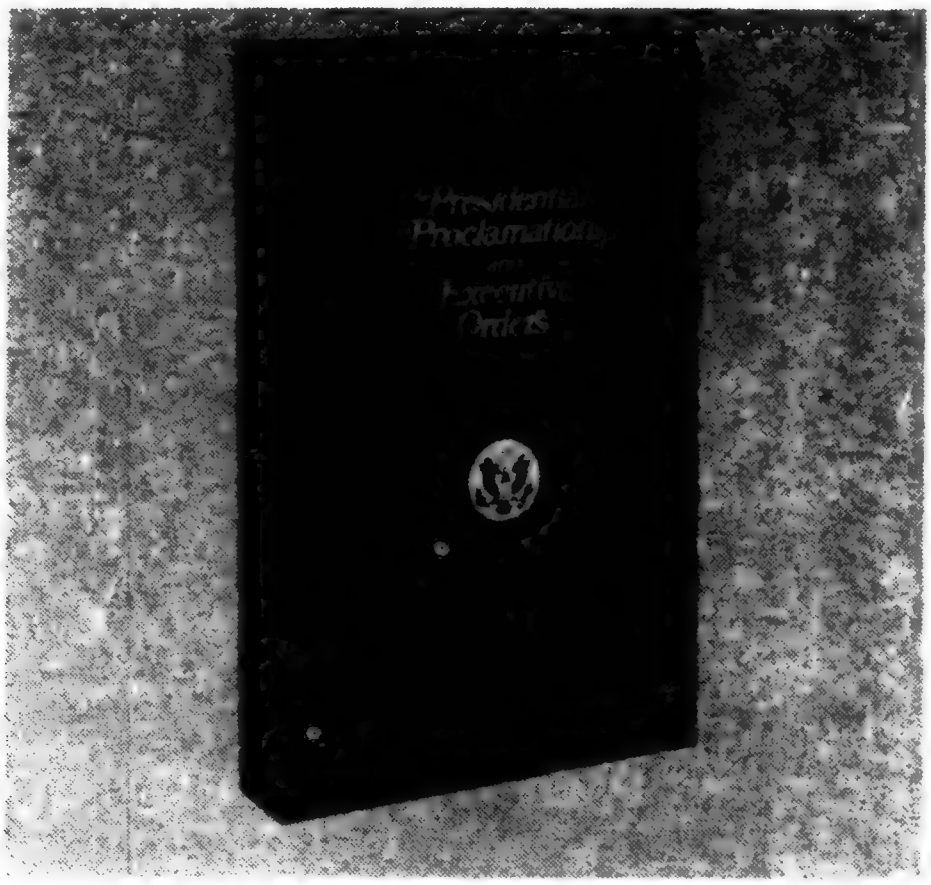
NEW PUBLICATION NOW AVAILABLE



For those of you who must keep informed about Presidential proclamations and Executive orders, there is now a convenient reference source that will make researching certain of these documents much easier.

Arranged by subject matter, this first edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1977, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1977 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register,
National Archives and Records Service,
General Services Administration

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

17543 **Hostage Relief** State/Sec'y amends rules providing for assistance to American hostages and members of their families and households, comments by 3-23-81; effective 1-21-81

17738 **Hazardous Materials** DOT/RSPA amends listing; effective 7-1-81 (Part III of this issue)

17537 **Federal Credit Unions** NCUA adopts rule regarding real estate lending in order to reduce regulatory burden on the credit unions; effective 3-12-81

17730 **Aviation Safety** DOT/FAA issues advisory circular for performance standards, retread, repair and alterations of aircraft tires, comments by 5-18-81 (Part II of this issue)

17542 **Government Ethics** ITC adopts amendments to ethics rules concerning duties and qualifications of an agency ethics officer; effective 3-15-80

17574 **Minority Business-Financial Assistance** Commerce/MBDA solicits applications for grant for management and technical assistance project to operate in the Miami, Fort Lauderdale and West Palm Beach areas

17691, 17692 **Privacy Act Documents** NRC (2 documents)

17710 **Sunshine Act Meetings**

Separate Parts of This Issue

Title 3—

The President

Proclamation 4825 of March 16, 1981

National Farm Safety Week, 1981

By the President of the United States of America

A Proclamation

American farmers and ranchers are at the core of our Nation's economy, providing food not only for our own people, but for millions of others around the world.

Yet we must not take the miracle of American agricultural abundance for granted. An unacceptable number of farm accidents cripples people and threatens production. Last year, nearly 400,000 farmers and ranchers were injured or killed in accidents at work, at home, during recreation, or on roads.

Powerful equipment, chemicals and variable working conditions are potential agricultural hazards, but safe work practices, protective equipment and other measures can minimize the risks. Special vigilance by the agricultural community is also necessary to reduce the toll of off-the-job injuries.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate the week of July 25 through July 31, 1981, as National Farm Safety Week. I urge all persons engaged in farming and ranching and all persons and organizations allied with agriculture to redouble their personal and group efforts for farm, home, recreation and highway safety.

IN WITNESS WHEREOF, I have hereunto set my hand this 16th day of March, in the year of our Lord nineteen hundred and eighty-one, and of the Independence of the United States of America the two hundred and fifth.

Ronald Reagan

Vol. 46, No. 53
Thursday, March 19, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 514]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period March 20–26, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant", and is not a major rule. This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on October 14, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on March 17, 1981 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navels deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is improved.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

1. Section 907.814 is added as follows:

§ 907.814 Navel Orange Regulation 514.

The quantities of navel oranges grown in Arizona and California which may be handled during the period March 20, 1981, through March 26, 1981, are established as follows:

(1) District 1: 1,547,000 cartons;
(2) District 2: 153,000 cartons;
(3) District 3: Unlimited cartons;
(4) District 4: Unlimited cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

D. S. Kuzyloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 701

Real Estate Lending—Deregulation

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule.

SUMMARY: In accordance with the ongoing program of updating, clarifying, and simplifying existing regulations, the National Credit Union Administration Board (NCUA Board) has promulgated this final rule which will reduce the regulatory burden on Federal credit unions. This rule (1) eliminates the current requirement that Federal credit unions with assets of less than $2,000,000 obtain the prior written consent of the Administration before granting long-term real estate loans and (2) eliminate the current limitation on the amount of loan origination fees a Federal credit union can assess when granting long-term real estate loans. (A long-term real estate loan is a real estate loan which has a maturity in excess of 12 years (12 CFR 701.21–6(b)).)

EFFECTIVE DATE: March 12, 1981.

ADDRESS: National Credit Union Administration, 1776 G Street NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Thomas C. Buckman, Office of Examination and Insurance. Telephone (202) 357–1065.

SUPPLEMENTARY INFORMATION: On November 28, 1980, the NCUA Board invited public comment on a proposal to deregulate § 701.21–6 of the National Credit Union Administration Rules and Regulations. (45 FR 79079 (1980).) The NCUA Board received 24 comments on the proposed rule. All of the comments with one exception favored the general deregulation of the rule.

I. $2,000,000 Asset Limitation

All of the commentors with one exception supported the change which would permit Federal credit unions with assets under $2,000,000 to grant long-term real estate loans without the prior written approval of the NCUA Board. Thus, the prohibition against small credit unions granting long-term real estate loans has been lifted.

The comments were divided, however, as to whether Federal credit unions under $2,000,000 should be required to obtain commitments from investors before originating long-term real estate loans or whether they should simply have a means of selling such loans. Approximately two-thirds of the commentors recommended that neither alternative be included in the final rule because, specifically, the requirement was confusing and generally, both requirements conflict with the goal to deregulate. They pointed out that NCUA would be replacing one restriction with another.

The commentors supporting the removal of restrictions on small credit unions believe that all Federal credit unions, not just small ones, face the same dangers of possibly impairing their liquidity by the practice of originating mortgage loans without commitments. They suggested that the objective circumstances of an individual Federal credit union, rather than its size, should determine whether mortgage loans should be originated for sale or the Federal credit union's portfolio. They also suggested if problems are noted after complete deregulation that NCUA could always regulate the area at that time. Other commentors expressed confusion over what actually constitutes a "commitment or a means of selling such loans."

Commentors supporting the commitment requirement believe that the requirement will help to prevent both liquidity impairments and situations where only a few members receive real estate loans while other members are deprived of such loans due to the lack of funds.

Other commentors recommended that in lieu of the commitment requirement that NCUA provide general guidance to small credit unions desiring to grant real estate loans.

After giving careful consideration to all of the comments, the NCUA Board has decided to remove the proposed commitment requirement from the final rule. However, NCUA will monitor this area through its normal supervisory examinations. If problems are noted in this area, rulemaking will be considered at a later date.

The NCUA Board, while not requiring small credit unions to obtain commitments prior to originating long-term real estate loans, believes that small Federal credit unions, in fact all Federal credit unions, can greatly reduce their exposure to liquidity risks by obtaining commitments from investors prior to originating long-term real estate loans. The NCUA Board would also forewarn Federal credit unions against allocating loanable real estate funds primarily to officials and employees. Such a practice would be inconsistent with the traditional cooperative concepts and in general would be in violation of the NCUA Rules and Regulations.

Further guidance in the granting of long-term real estate loans may be found in the following:

1. Section 701.21–6 of the NCUA Rules and Regulations (12 CFR 701.21–6);

2. Chapter 4 of the Credit Manual for Federal Credit Unions (NCUA publication 8024);

3. The Accounting Guidelines for Real Estate Lending (NCUA publication 8504); and

4. Sections 226.4, 226.5, and 226.8, of Regulation Z (12 CFR 226).

These sources provide guidance to Federal credit unions regarding compliance with regulations and provide helpful practices for success in granting long-term real estate loans.

II. Loan Origination Fees

All of the commentors supported the proposed removal of the limits on loan origination fees. The commentors concurred with NCUA Board's belief that removing of the limits will make additional mortgage funds available to credit union members in addition to allowing Federal credit unions to recover the cost of originating and marketing mortgage loans. Thus, the regulatory restrictions pertaining to the maximum amount loan origination fees have been removed as proposed.

Procedure for Regulatory Development

NCUA's Final Report: Improving Government Regulations, has not been completely complied with for the following reasons. A formal preliminary review memorandum was unnecessary because the NCUA Board provided specific instructions to the staff on the drafting of the proposed regulation. In addition, a regulatory analysis was not necessary because the regulation will not result in an annual effect on the economy of $100 million or more nor will it result in a major increase in costs or expenses for all, or a significant portion of, Federal credit unions with assets under $1 million or for other financial institutions. Because of the discrepancy between the permitted loan origination fees and the cost of loan origination, the NCUA Board believes that prompt action is necessary and therefore provided for a comment period of less than 60 days on the proposed rule. For this reason, and because this rule relieves restrictions, the NCUA Board has determined not to provide a delayed effective date.

Rosemary Brady,
Secretary, NCUA Board.
March 12, 1981.

§ 701.21–6 [Amended]

12 CFR Part 701.21–6 is amended as follows:

a. The introductory text of 12 CFR 701.21–6(b) is revised to read as follows:

* * * * *

(b) Federal credit unions may originate loans secured by first liens on residential real property, with maturities in excess of 12 years and not exceeding 30 years within the limitations of written policies adopted by the board of directors provided: * * *."

* * * * *

b. 12 CFR 701.21–6(c)(5) is removed and reserved.

(12 U.S.C. 1757, 1766, 1789)

BILLING CODE 7535-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 21510; Amdt. 39-4070]

Airbus Industrie Model A300 Series Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires repetitive inspections, and repair or replacement as necessary, of the forward cargo compartment decompression panels on Airbus Industrie Model A300 series airplanes. The AD is needed to prevent loss of fire protection due to separation of, or damage to, blowout panels in the ceiling and sidewalls of the forward cargo compartment, which could result in a degradation of fire extinguishing capability in the aircraft.

DATES: Effective April 2, 1981. Compliance schedule—as prescribed in body of the AD.

ADDRESSES: The applicable service bulletins may be obtained from: Airbus Industrie, Airbus Support Division, BP 33, 31700 Blagnac, France.

A copy of each service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT:

C. Christie, Chief, Aircraft Certification Staff, AEU–100, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, Brussels, Belgium, telephone: 513.38.30, or C. Chapman, Chief, Technical Standards Branch, AWS–110, FAA, 800 Independence Avenue, SW., Washington, DC 20591, telephone: 202–426–8374.

SUPPLEMENTARY INFORMATION: The FAA has determined that the decompression panels in the forward cargo compartment of the Airbus Industrie Model A300 series airplanes can be damaged, or the attachment of the panel may loosen, so that sealing of the compartment is lost. This loss of sealing could result in dilution of fire extinguishant below an effective concentration in case of a fire in the compartment. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires repetitive inspections of the condition and attachment of the decompression panels and repair or replacement as necessary until modified panels are installed, on Airbus Industrie Model A300 series airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Airbus Industrie: Applies to Model A300 series airplanes, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent loss of fire protection due to separation of, or damage to blowout panels in the ceiling and sidewalls of the forward cargo compartment, which could result in a degradation of the fire extinguishing capability in the aircraft, accomplish the following:

(a) On airplanes which have not accomplished the modification required by Airbus Industrie Service Bulletin Nos. A300–25–149, Revision 3, dated December 28, 1979, and A300–25–248, dated December 11, 1978, before the first flight each day, inspect the forward cargo compartment decompression panels for condition and attachment in the panel cut-outs, in accordance with the instructions in paragraph 2.A, "INSPECTION OF DECOMPRESSION PANELS IN FWD, AFT AND BULK CARGO COMPARTMENT," of Airbus Industrie Service Bulletin No. A300–25–138, Revision 4, dated December 28, 1979, or an FAA-approved equivalent.

(b) On airplanes which have accomplished the modification required by Airbus Industrie Service Bulletin Nos. A300–25–149, Revision 3, dated December 28, 1979, and A300–25–248, dated December 11, 1978, within the next 600 hours time in service after the effective date of this AD, and thereafter at intervals not to exceed 600 hours time in service from the last inspection, inspect the forward cargo compartment decompression panels in accordance with the instructions in paragraph 2.A. of Airbus Industrie Service Bulletin No. A300–25–138, Revision 4, dated December 28, 1979, or an FAA-approved equivalent.

(c) If, during the inspections required by paragraphs (a) and (b) of this AD, damage to, or separation of decompression panels is found, within the next 25 hours time in service, unless already accomplished, replace damaged panels and re-attach separated decompression panels in accordance with instructions in paragraph 2.C. of Airbus Industrie Service Bulletin No. A300–25–138, Revision 4, dated December 28, 1979, or an FAA-approved equivalent.

(d) Upon accomplishment of the modification required by Airbus Industrie Service Bulletin Nos. A300–25–149, Revision 3, dated December 28, 1979, and A300–25–248, dated December 11, 1978, the daily inspections required by paragraph (a) of this AD are no longer required.

(e) If an equivalent means of compliance is used in complying with paragraphs (a), (b) or (c) of this AD, that equivalent means must be approved by the Chief, Aircraft Certification Staff, AEU–100, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, Brussels, Belgium.

This amendment becomes effective April 2, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Airbus Industrie, Airbus Support Division, BP 33, 31700 Blagnac, France. These documents may be examined at FAA Headquarters, Room 916, 800 Independence Avenue SW., Washington, DC 20591.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c); Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89).

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Washington, D.C., on March 10, 1981.

M. C. Beard,

Director of Airworthiness.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 21512; Amdt. 39-4066]

Government Aircraft Factories Nomad Model N22B and N24A Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires modifications to all movable horizontal stabilizer and geared trailing edge trim tabs on certain Government Aircraft Factories of Australia Model N22B and N24A airplanes. This AD is needed to prevent loss of structural stiffness of the horizontal stabilizer and trim tabs which could result in tail flutter and subsequent loss of airplane control.

DATES: Effective April 2, 1981. Compliance schedule—as prescribed in the body of the AD.

ADDRESSES: The manufacturer's applicable service bulletins may be obtained from Government Aircraft Factories, 226 Lorimer Street, Port Melbourne 3207 Vic., Australia. These documents may also be examined at the Federal Aviation Administration, Pacific-Asia Region, Engineering and Manufacturing District Office, 300 Ala Moana Blvd., Room 7321, Honolulu,

Hawaii 96850, or Rules Docket Room 916, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Gary K. Nakagawa, Chief, Engineering and Manufacturing District Office, APC-210, Federal Aviation Administration, Pacific-Asia Region, P.O. Box 50109, Honolulu, Hawaii 96850, Telephone: (808) 546-8650 or 546-8658, or C. Chapman, Acting Chief, Technical Standards Branch, AWS-110, FAA, 800 Independence Avenue SW., Washington, DC 20591, Telephone: (202) 426-8192.

SUPPLEMENTARY INFORMATION: The FAA recently learned of structural discrepancies on a Government Aircraft Factories (GAF) Nomad Model N24A airplane that had accumulated less than 1,000 hours total flight time. During the investigation, the FAA raised questions with respect to the structural rigidity of the empennage structure of GAF Nomad Model N22B and N24A series airplanes. It has subsequently been determined that without prescribed structural modification, a reduction of stiffness of the horizontal stabilizer will occur. Since loss of structural stiffness could result in hazardous tail flutter and subsequent loss of airplane control, an AD is being issued which requires modifications to all movable horizontal stabilizer and geared trailing edge trim tabs on certain Government Aircraft Factories of Australia Nomad Model N22B and N24A airplanes. The modification requires installation of additional mass balance weights, improved riveting, access panels, structural reinforcements, high strength steel trim tab control brackets, self-aligning control rod ends and longer control rods, and horizontal stabilizer pivot bracket attachments.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued which requires modification of the horizontal stabilizer and trailing edge trim tabs on certain Government Aircraft Factories of Australia Nomad Model N22B and N24A series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure thereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Government Aircraft Factories (GAF): Applies to Nomad Model N22B (Serial Nos. N22B-5 and up) and N24A (Serial Nos. N24A-42 and up) airplanes, certificated in all categories.

Compliance required within the next 25 hours time in service after the effective date of this AD, unless already accomplished.

To prevent loss of structural rigidity which could result in hazardous tail flutter and subsequent loss of airplane control, accomplish the following:

(a) Modify the horizontal stabilizer to incorporate mass balance weights, improved riveting, addition of access panels, and structural reinforcements to the horizontal stabilizer in accordance with Part 2, "ACCOMPLISHMENT INSTRUCTIONS," of Government Aircraft Factories Nomad Service Bulletin NMD-55-10, Revision 1, dated May 2, 1980, or an FAA-approved equivalent. All AGS pop rivets removed as a result of this modification, must be replaced with MS20426AD rivets.

(b) Install high strength steel trim tab control brackets, self-aligning control rod ends, and longer control rods in accordance with Part 2, "Accomplishment Instructions," of Government Aircraft Factories Nomad Service Bulletin NMD-55-8, Revision 3, dated September 1, 1980, or an FAA-approved equivalent.

(c) Modify the horizontal stabilizer pivot bracket attachments in accordance with Part 2, "ACCOMPLISHMENT INSTRUCTIONS," of Government Aircraft Factories Nomad Alert Service Bulletin ANMD-55-13, Revision 1, dated August 22, 1980, or an FAA-approved equivalent.

(d) In accordance with FAR §§ 21.197 and 21.199 the airplane may be flown to a location where these modifications can be accomplished.

(e) If an equivalent means of compliance is used in complying with paragraphs (a) through (c) of this AD, that equivalent means must be approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region, Honolulu, Hawaii.

This amendment becomes effective April 2, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Government Aircraft Factories, 226 Lorimer Street, Port Melbourne 3207 Vic., Australia. These documents may be examined at FAA, Pacific-Asia Region, Engineering and Manufacturing District Office, 300 Ala Moana Blvd., Room 7321, Honolulu, Hawaii, and at FAA Headquarters, Room 916, 800 Independence Avenue, SW., Washington, DC.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER IMFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Washington, DC, on March 10, 1981.

M C. Beard,

Director of Airworthiness.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

14 CFR Part 39

[Docket No. 21511; Amdt. 39-4069]

Partenavia Costruzioni Aeronautiche S.p.A., Model P68 and P68B Series Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires an inspection of the ball joint end of the propeller pitch control system for excessive play at the propeller governor, readjustment of the system as necessary, and repetitive inspections until the ball joint end is replaced with a new part number ball joint end on certain Partenavia Model P68 and P68B series airplanes. This AD is necessary to preclude improper settings of the propeller governor and prevent a

dangerous propeller overspeed condition during any regime of airplane operation.

DATES: Effective April 2, 1981. Compliance schedule—as prescribed in body of AD.

ADDRESSES: The applicable service bulletin may be obtained from: Partenavia Costruzioni Aeronautiche S.p.A., Via Cava, Casoria—Naples, Italy.

A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff AEU–100, Europe, Africa and Middle East Office, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, Telephone: 513.38.30, or C. Chapman, Acting Chief, Technical Standards Branch, AWS–110, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591, Telephone: 202–426–8374.

SUPPLEMENTARY INFORMATION: The FAA has determined that excessive play can develop in the ball joint end of the propeller pitch control system at the propeller governor and can result in improper settings of the propeller governor which could cause a catastrophic overspeed of the propeller on certain Partenavia Model P68 and P68B series airplanes. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires inspection of the propeller pitch control system ball joint end at the propeller governor for excessive play, readjustment as necessary before further flight, and repetitive inspection until a new part number ball joint end is installed.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Partenavia Costruzioni Aeronautiche S.p.A.: Applies to Model P68 and P68B series airplanes, serial numbers 1 to 180 inclusive, certificated in all categories, which have a Woodward propeller governor installed but do not have a ball joint end, P/N 7.5077–1, installed on the pitch control flexible cable.

Compliance is required as indicated, unless already accomplished.

To preclude failure of the propeller pitch control system, accomplish the following:

(a) Within 25 hours time in service after the effective date of this AD, or within 50 hours time in service since the last inspection, whichever occurs later, and every 50 hours time in service thereafter, inspect the propeller pitch control system for play between the ball joint, P/N 7.5021–3, and the joint end, P/N 7.5021–1, in accordance with Partenavia Service Bulletin 37, Revision 2, dated November 22, 1978, or an FAA-approved equivalent.

(b) If play is not found during the inspection required in paragraph (a) of this AD, return airplane to service.

(c) If play is found during the inspection required in paragraph (a) of this AD, adjust the propeller pitch control system as necessary in accordance with Part I, "Instructions," of Partenavia Service Bulletin 37, Revision 2, dated November 22, 1978, or an FAA-approved equivalent, or install a new joint end, P/N 7.5021.1, and return to service.

(d) The inspections required by this AD are no longer required with the installation of Partenavia Kit P/N 68–005 installed in accordance with Partenavia Service Instruction No. 2, dated July 14, 1978, or an FAA-approved equivalent.

(e) If an equivalent means of compliance is used in complying with this AD, that equivalent must be approved by the Chief, Aircraft Certification Staff, Europe, Africa and Middle East Office, c/o American Embassy, Brussels, Belgium.

This amendment becomes effective April 2, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Partenavia Costruzioni Aeronautiche S.p.A., Via Cava, Casoria–Naples, Italy. These documents may be examined at FAA Headquarters, Room 916, 800 Independence Avenue, SW., Washington, DC 20591.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Washington, DC, on March 10, 1981.

M. C. Beard,

Director of Airworthiness.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

BILLING CODE 4910-13-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1000

Commission Organization and Functions; Correction

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule; correction.

SUMMARY: The Commission is publishing a correction to the listing, in § 1000.21, of the directorates reporting to the Executive Director.

EFFECTIVE DATE: These corrections are effective March 19, 1981.

FOR FURTHER INFORMATION CONTACT: Sadye Dunn, Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, Telephone 202–634–7700.

SUPPLEMENTARY INFORMATION: The Commission published a revision of its statement of organization and functions on December 31, 1980, 45 FR 86415. The revisions included changing the name of the Directorate for Compliance and Enforcement to the Directorate for Compliance and Administrative Litigation in § 1000.27, and replacing the former Directorate for Engineering and Sciences with two new organizations, the Directorate for Engineering Sciences in § 1000.25 and the Directorate for Health Sciences in § 1000.26.

The Commission inadvertently neglected to make corresponding

changes in § 1000.21 which, in describing the functions of the Executive Director, lists the Commission's directorates. Section 1000.21 is accordingly being corrected to bring it into conformity with §§ 1000.25, 1000.26, and 1000.27.

Since this amendment deals only with internal agency organization, it is being made effective immediately and comments are not being solicited.

For the foregoing reasons, Part 1000 of Chapter II of Title 16 of the Code of Federal Regulations is amended as shown.

Part 1000—AUTHORITY [REVISED]

1. The authority citation for Part 1000 is amended to read as follows:

Authority: 5 U.S.C. 552(a).

2. In Part 1000, § 1000.21 is revised to read as follows:

§ 1000.21 Office of the Executive Director.

The Executive Director, under the broad direction of the Chairman and in accordance with Commission policy, acts as the chief operating manager of the agency, supporting the development of the agency's budget and operating plan before and after Commission approval, and managing the execution of those plans. The Executive Director has direct line authority over seven operating directorates: Hazard Identification and Analysis, Engineering Sciences, Health Sciences, Compliance and Administrative Litigation, Field Operations, Communications, and Administration, as well as the Office of Program Management and the Office of Budget, Program Planning and Evaluation.

Dated: March 16, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

INTERNATIONAL TRADE COMMISSION

19 CFR Part 200

Amendments to Agency Ethics Rules

AGENCY: International Trade Commission.

ACTION: Notice of final rules.

SUMMARY: Recent regulations issued by the Office of Government Ethics (OGE) redefine the qualifications and duties of designated agency ethics officials and list the elements of agency ethics programs. 46 FR 2582 (January 9, 1981) (to be codified at 5 CFR 738.101–.313). The following amendments to Commission ethics regulations, 19 CFR Part 200, reflect the changes in OGE regulations. In addition, the Commission is abandoning its previous practice of requiring that its Ethics Counselor be a Commissioner. The Counselor must be a senior Commission employee with experience demonstrating the ability to coordinate and manage the program. This is in line with the practice of practically all other Government agencies. In addition, there are several technical and conforming changes reflecting that Commission employees who file SF 278 public financial disclosure reports need not file confidential financial disclosure reports under Executive Order No. 11222 and Subpart C of Part 200 of Title 19, Code of Federal Regulations.

EFFECTIVE DATE: March 15, 1981.

FOR FURTHER INFORMATION CONTACT: Michael B. Jennison of the Office of General Counsel at 202–523–0350.

SUPPLEMENTARY INFORMATION: The Commission published proposed regulations for public comment. 45 FR 82957 (December 17, 1980). Comment was received only from the Office of Government Ethics, which suggested only two changes. Both have been incorporated, along with editorial change. Section 200.735–103(b) was altered to require that the Deputy Ethics Counselor be chosen by the Chairman in accordance with 5 CFR 738.202(c), which directs that the head of an agency select the two individuals entrusted with certifying the financial disclosures filed for confirmation purposes by Presidential nominees. A phrase was added to § 200.735–103(c)(2) clarifying that the Ethics Counselor reviews and certifies the financial disclosure reports of nominees to the Commission, in accordance with statutory and regulatory mandate.

The U.S. International Trade Commission amends 19 CFR Part 200 as follows:

§§ 200.735–101 and 200.735–102 [Amended]

1. In §§ 200.735–101 and 200.735–102(a)(b), change "U.S. Tariff Commission" to read "U.S. International Trade Commission."

2. Section 200.735–102(c) is revised to read:

* * * * *

(c) "Employee" means a Commissioner, employee, or special Government employee of the Commission.

* * * * *

3. Add § 200.735–102(g):

* * * * *

(g) "Ethics Counselor" means designated agency ethics official as defined in Subpart B of Part 738, Code of Federal Regulations.

* * * * *

4. Remove present § 200.735–103 and add:

§ 200.735–103 Counseling service.

(a) The Chairman shall appoint an Ethics Counselor, who serves as the Commission's designated agency ethics official and liaison to the Office of Government Ethics and who is responsible for carrying out the Commission's ethics program. The program shall be designed to implement titles II, IV, and V of the Ethics in Government Act of 1978, Executive Order No. 11222, the regulations in this part, and other statutes and regulations applicable to agency ethics matters. The Ethics Counselor will be a senior Commission employee with experience demonstrating the ability to review financial disclosure reports and counsel employees with regard to resolving conflicts of interest, review the financial disclosures of Presidential nominees to the Commission prior to confirmation hearings, counsel employees with regard to ethics standards, assist supervisors in implementing the Commission's ethics program, and periodically evaluate the ethics program.

(b) The Chairman shall select a Deputy Ethics Counselor, who will serve as alternate agency ethics official and to whom any of the Counselor's statutory and regulatory duties may be delegated.

(c) The Ethics Counselor shall coordinate and manage the agency's ethics program. The Counselor's duties shall consist of—

(1) Liaison with the Office of Government Ethics;

(2) Review of financial disclosure reports, including reports filed by Presidential nominees to the Commission, except that reports filed by Commissioners other than the Chairman shall be reviewed by the Chairman and the report filed by the Chairman shall be reviewed by the Vice Chairman;

(3) Initiation and maintenance of ethics education and training programs;

(4) Monitoring administrative actions and sanctions; and

(5) Implementation of the specific program elements listed in Office of Government Ethics regulations, 5 CFR 738.203(b).

5. Section 200.735–114 is revised to read as follows:

§ 200.735–114 Employees required to submit statements.

Except as provided in § 200.735–114a, the following employees shall submit confidential statements of employment and financial interests:

(a)(1) Employees in grade GS–13 or above under section 5332 of title 5, United States Code, or in comparable or higher positions not subject to that section, other than those employees who are required to file public financial disclosure reports by title II of the Ethics in Government Act of 1978.

(2) The Director of Personnel shall list all such positions, shall include the listing in the chapter of the Commission's Policy Manual pertaining to the filing of confidential statements of employment and financial interests, and shall furnish copies thereof to the Deputy Counselor and to affected employees.

(3) The Director of Personnel shall update the listing required by paragraph (a)(2) of this section and shall take all other steps required by paragraph (a)(2) as of January 1 and July 1 of each year.

(b)(1) Employees classified below GS–13 under section 5332 of title 5, United States Code, or at a comparable pay level under other authority, other than those employees who are required to file public financial disclosure reports by title II of the Ethics in Government Act of 1978, who are (i) responsible for making a decision or taking an action in regard to Commission contracting or procurement, (ii) responsible for conducting investigative and research activities where the decision to be made or action to be taken could have an economic impact on any non-Federal enterprise, or (iii) responsible for exercising the authority of any supervisory or investigative employee in the absence of such employee.

(2) The Director of Personnel, upon obtaining the advice of the General Counsel, shall be responsible for determining which positions below GS–13 meet the criteria of paragraph (b)(1) of this section. The Director of Personnel shall justify his or her determination in writing and shall submit it to the Office of Personnel Management for its approval. Upon obtaining the approval of the Office of Personnel Management, the Director of Personnel shall include the listing of these positions in the chapter of the Commission's Policy Manual pertaining to the filing of confidential statements of employment and financial interests and shall furnish copies thereof to the Deputy Counselor and to affected employees.

(3) The Director of Personnel shall evaluate the determination under paragraph (b)(2) of this section as of January 1 and July 1 of each year. When organizational changes or personnel actions indicate that positions should be either added to or taken from the list of positions which the Director of Personnel has determined meet the criteria of paragraph (b)(1) of this section, the Director of Personnel shall make a new determination under paragraph (b)(2) of this section and shall take all other steps required by paragraph (b)(2) immediately upon the implementation of said organizational changes or personnel actions.

Issued: March 10, 1981.

By order of the Commission.

(E.O. 11222, 30 CFR 6469, 3 CFR, 1965 Supp.; 5 CFR 735,101 et seq.)

BILLING CODE 7020-02-M

DEPARTMENT OF STATE

Office of the Secretary

22 CFR Part 191

[Dept. Reg. 108.803]

Hostage Relief Assistance

AGENCY: Department of State.

ACTION: Interim rule.

SUMMARY: The Department of State is amending its rules by adding new regulations to implement the Hostage Relief Act of 1980 (Pub. L. 96–449, 94 Stat. 1967; 5 U.S.C. 5561 note). The regulations provide for assistance to American hostages and members of their families and households.

DATES: This interim rule is effective January 21, 1981. Consideration will be given to written comments or suggestions received on or before March 23, 1981.

ADDRESS: Send written comments to the Assistant Secretary for Administration, Department of State, Washington, D.C. 20520.

FOR FURTHER INFORMATION CONTACT: Walter F. Weiss (202) 632–1728.

SUPPLEMENTARY INFORMATION: On January 21, 1981 a proposed rule was published in the **Federal Register** (46 FR 6358) to implement the Hostage Relief Act of 1980. The proposed rule was published as Subchapter P, Parts 1, 2, 3 and 4. The regulation is added as Subchapter T, Part 191, and renumbered accordingly.

Dated: February 26, 1981.

Thomas M. Tracy,

Assistant Secretary for Administration.

Subchapter T, Part 191 is added to Title 22, Code of Federal Regulations, as set forth below.

SUBCHAPTER T—HOSTAGE RELIEF

PART 191—HOSTAGE RELIEF ASSISTANCE

Subpart A—General

Sec.
191.1 Declaration of hostile action.
191.2 Application for determination of eligibility.
191.3 Definitions.
191.4 Notification of eligible persons.
191.5 Relationships among agencies.
191.6 Effective date.

Subpart B—Application of Soldiers' and Sailors' Civil Relief Act

191.10 Eligibility for benefits.
191.11 Applicable benefits.
191.12 Description of benefits.
191.13 Administration of benefits.

Subpart C—Medical Benefits

191.20 Eligibility for benefits.
191.21 Applicable benefits.
191.22 Administration of benefits.
191.23 Disputes.

Subpart D—Educational Benefits

191.30 Eligibility for benefits.
191.31 Applicable family benefits.
191.32 Applicable benefits for hostages.
191.33 Administration of benefits.
191.34 Maximum limitation on benefits.

Authority: Hostage Relief Act of 1980 (Pub. L. 96–449 and sec. 4 of Act of 1949 (22 U.S.C. 2658)).

Subpart A—General

§ 191.1 Declaration of hostile action.

(a) The Secretary of State from time to time shall declare when and where individuals in the civil or uniformed services of the United States, or a citizen or resident alien of the United States rendering personal services to the United States abroad similar to the service of a civil officer or employee of the United States, have been placed in captive status because of hostile action abroad directed against the United States and occurring or continuing between November 4, 1979, and such date as may be declared by the President under section 101(2)(A) of the Hostage Relief Act of 1980 (Pub. L. 96–449, hereafter "the Act") or January 1, 1983, whichever is later. Each such declaration shall be published in the **Federal Register**.

(b) The Secretary of State upon his or her own initiative, or upon application under § 191.2 shall determine which individuals in captive status as so

declared shall be considered hostages eligible for benefits under the Act. The Secretary shall also determine who is eligible under the Act for benefits as a member of a family or household of a hostage. The determination of the Secretary shall be final, but any interested person may request reconsideration on the basis of information not considered at the time of original determination. The criteria for determination are set forth in sections 101 and 205 of the Act, and in these regulations.

§ 191.2 Application for determination of eligibility.

(a) Any person who believes that they or other persons known to them are either hostages as defined in the Act, or members of the family or household of hostages as defined in § 191.3(a)(1), or a child eligible for benefits under Subpart D, may apply for benefits under this subchapter for themselves, or on behalf of others entitled thereto.

(b) The application shall be in writing, should contain all identifying and other pertinent data available to the person applying about the person or persons claimed to be eligible, and should be addressed to the Assistant Secretary of State for Administration, Department of State, Washington, D.C. 20520. Applications may be filed at any time after publication of a declaration under § 191.1(a) in the **Federal Register**, and during the period of its validity, or within 60 days after release from captivity. Later filing may be considered when in the opinion of the Secretary of State there is good cause for the late filing.

§ 191.3 Definitions.

When used in this subchapter, unless otherwise specified, the terms—

(a) "Family Member" means (1) a spouse, (2) an unmarried dependent child including a step-child or adopted child, (3) a person designated in official records or determined by the agency head or designee thereof to be a dependent, or (4) other persons such as parents, parents-in-law, persons who stand in the place of a spouse or parents, or other members of a household when fully justified by the circumstances of the hostage situation, as determined by the Secretary of State.

(b) "Agency head" means the head of an agency as defined in the Act (or successor agency) employing an individual determined to be an American hostage. The Secretary of State is the agency head with respect to any hostage not employed by an agency.

(c) "Principal" means the hostage whose captivity forms the basis for benefits under this subchapter for a family member.

§ 191.4 Notification of eligible persons.

The Assistant Secretary of State for Administration shall be responsible for notifying each individual determined to be eligible for benefits under the Act or, if that person is not available, a representative or Family Member of the hostage.

§ 191.5 Relationships among agencies.

(a) The Assistant Secretary of State for Administration shall promptly inform the head of any agency whenever an employee (including a member of the Armed Forces) in that agency, or Family Member of such employee, is determined to be eligible for benefits under this subchapter.

(b) In accordance with inter-agency agreements between the Department of State and relevant agencies—

(1) The Veterans Administration will periodically bill the Department of State for expenses it pays for each eligible person under Subpart D of this subchapter plus the administrative costs of carrying out its responsibilities under this part.

(2) The Department of State will, on a periodic basis, determine the cost for services and benefits it provides to all eligible persons under this subchapter and bill each agency for the costs attributable to Principals (and Family Members) in or acting on behalf of the agency plus a proportionate share of related administrative expenses.

§ 191.6 Effective date.

This regulation is effective as of November 4, 1979. Reimbursement may be made for expenses approved under this subchapter for services rendered on or after such date.

Subpart B—Application of Soldiers' and Sailors' Civil Relief Act

§ 191.10 Eligibility for benefits.

A person designated as a hostage under Subpart A of this subchapter, other than a member of the Armed Forces covered by the provisions of the Soldiers' and Sailors' Civil Relief Act of 1940, shall be eligible for benefits under this Part.

§ 191.11 Applicable benefits.

(a) Eligible persons are entitled to the benefits provided by the Soldiers' and Sailors' Civil Relief Act of 1940 (50 U.S.C. App. 501, et seq.), including the benefits provided by section 701 (50 U.S.C. App. 591) notwithstanding paragraph (c) thereof, but excluding the benefits provided by sections 104, 105, 106, 400 through 408, 501 through 512, and 514 (50 U.S.C. App. 514, 515, 516, 540 through 548, 561 through 572, and 574).

(b) In applying such Act for purposes of this section—

(1) The term "person in the military service" is deemed to include any such American hostage;

(2) The term "period of military service" is deemed to include the period during which such American hostage is in a captive status;

(3) References therein to the Secretary of the Army, the Secretary of the Navy, the Adjutant General of the Army, the Chief of Naval Personnel, and the Commandant, United States Marine Corps, or other officials of government are deemed to be references to the Secretary of State; and

(4) The term "dependents" shall, to the extent permissible by law, be construed to include "Family Members" as defined in section 101 of the Hostage Relief Act.

§ 191.12 Description of benefits.

The following material is included to assist persons affected, by providing a brief description of some of the provisions of the Civil Relief Act. Note that not all of the sections applicable to hostages have been included here. References to sections herein are references to the Civil Relief Act of 1940, as amended, followed by references in parentheses to the same section in the United States Code.

(a) *Guarantors, endorsers.* Section 103 (50 U.S.C. App. 513) provides that whenever a hostage is granted relief from the enforcement of an obligation, a court, in its discretion, may grant the same relief to guarantors and endorsers of the obligation. Amendments extend relief to accommodation makers and others primarily or secondarily liable on an obligation, and to sureties on a criminal bail bond. They provide, on certain conditions, that the benefits of the section with reference to persons primarily or secondarily liable on an obligation may be waived in writing.

(b) *Written Agreements.* Section 107 (50 U.S.C. App. 517) provides that nothing contained in the Act shall prevent hostages from making certain arrangements with respect to their contracts and obligations, but requires that such arrangements be in writing.

(c) *Protection in Court.* Section 200 (50 U.S.C. App. 520) provides that if a hostage is made defendant in a court action and is unable to appear in court, the court shall appoint an attorney to represent the hostage and protect the hostage's interests. Further, if a judgment is rendered against the hostage, an opportunity to reopen the

case and present a defense, if meritorious, may be permitted within 90 days after release.

(d) *Court Postponement.* Section 201 (50 U.S.C. App. 521) authorizes a court to postpone any court proceedings if a hostage is a party thereto and is unable to participate by reason of being a captive.

(e) *Relief Against Penalties.* Section 202 (50 U.S.C. App. 522) provides for relief against fines or penalties when a court proceeding involving a hostage is postponed, or when the fine or penalties are incurred for failure to perform any obligation. In the latter case, relief depends upon whether the hostage's ability to pay or perform is materially affected by being held captive.

(f) *Postponement of Action.* Section 203 (50 U.S.C. App. 523) authorizes a court to postpone or vacate the execution of any judgment, attachment or garnishment.

(g) *Period of Postponement.* Section 204 (50 U.S.C. App. 524) authorizes a court to postpone proceedings for the period of captivity, and for 3 months thereafter, or any part thereof.

(h) *Extended Time Limits.* Section 205 (50 U.S.C. App. 525) excludes the period of captivity from computing time under existing or future statutes of limitation. Amendments extend relief to include actions before administrative agencies, and provide that the period of captivity shall not be included in the period for redemption of real property sold to enforce any obligation, tax, or assessment. Section 207 excludes application of section 205 to any period of limitation prescribed by or under the internal revenue laws of the United States.

(i) *Interest Rates.* Section 206 (50 U.S.C. App. 526) provides that interest on the obligations of hostages shall not exceed a specified per centum per annum, unless the court determines that ability to pay greater interest is not affected by being held captive.

(j) *Misuse of Benefits.* Section 600 (50 U.S.C. App. 580) provides against transfers made with intent to delay the just enforcement of a civil right by taking advantage of the Act.

(k) *Further Relief.* Section 700 (50 U.S.C. App. 590) provides that a person, during a period of captivity or 6 months thereafter, may apply to a court for relief with respect to obligations incurred prior to captivity, or any tax or assessment whether falling due prior to or during the period of captivity. The court may, on certain conditions, stay the enforcement of such obligations.

(l) *Stay of Eviction.* Section 300 (50 U.S.C. App. 530) provides that a hostage's dependents shall not be evicted from their dwelling if the rental is $150 or less per month, except upon leave of a court. If it is proved that inability to pay rent is a result of being in captivity, the court is authorized to stay eviction proceedings for not longer than 3 months. An amendment extends relief to owners of the premises with respect to payments on mortgage and taxes.

(m) *Contract and Mortgage Obligations.* As provided by sections 301 and 302 of the Act (50 U.S.C. App. 531 and 532), as amended, contracts for the purchase of real and personal property, which originated prior to the period of captivity, may not be rescinded, terminated, or foreclosed, or the property repossessed, except as provided in section 107 (50 U.S.C. App. 517), unless by an order of a court. The mentioned sections give the court wide discretionary powers to make such disposition of the particular case as may be equitable in order to conserve the interests of both the hostage and the creditor. The cited sections further provide that the court may stay the proceedings for the period of captivity and 3 months thereafter, if in its opinion the ability of the hostage to perform the obligation is materially affected by reason of captivity. Section 303 (50 U.S.C. App. 533) provides that the court may appoint appraisers and, based upon their report, order such sum as may be just, if any, paid to hostages or their dependents, as a condition to foreclosing a mortgage, resuming possession of property, and rescinding or terminating a contract.

(n) *Termination of a Lease.* Section 304 (50 U.S.C. App. 534) provides, in general, that a lease covering premises occupied for dwelling, business, or agricultural purpose, executed by persons who subsequently become hostages, may be terminated by a notice in writing given to the lessor, subject to such action as may be taken by a court on application of the lessor. Termination of a lease providing for monthly payment of rent shall not be effective until 30 days after the first date on which the next rental payment is due, and, in the case of other leases, on the last day of the month following the month when the notice is served.

(o) *Assignment of Life Insurance Policy.* Section 305 (50 U.S.C. App. 535) provides that the assignee of a life insurance policy assigned as security, other than the insurer in connection with a policy loan, except upon certain conditions, shall not exercise any right with respect to the assignment during the period of captivity of the insured and one year thereafter, unless upon order of a court.

(p) *Storage Lien.* Section 305 (50 U.S.C. App. 535) provides that a lien for storage of personal property may not be foreclosed except upon court order. The court may stay proceedings or make other just disposition.

(q) *Extension of Benefits to Dependents.* Section 306 (50 U.S.C. App. 536) extends the benefits to section 300 through 305 to dependents of a hostage.

(r) *Real and Personal Property Taxes.* Section 500 (50 U.S.C. App. 560) forbids sale of property, except upon court leave, to enforce collection of taxes or assessments (other than taxes on income) on personal property or real property owned and occupied by the hostage or dependents thereof at the commencement of captivity and still occupied by the hostage's dependents or employees. The court may stay proceedings for a period not more than 6 months after termination of captivity. When by law such property may be sold to enforce collection, the hostage will have the right to redeem it within 6 months after termination of captivity. Unpaid taxes or assessments bear interest at 6 percent.

(s) *Income Taxes.* Section 513 provides for deferment of payment of income taxes. However, section 204 of the Hostage Relief Act of 1980 provides for deferment and certain other relief, and should be referred to in order to determine statutory tax benefits in addition to those in section 513 of the Civil Relief Act.

(t) *Certification of Hostage.* Section 601 provides that a certificate signed by the agency head shall be prima facie evidence that the person named has been a hostage during the period specified in the certification.

(u) *Interlocutory Orders.* Section 602 (50 U.S.C. App. 582) provides that a court may revoke an interlocutory order it has issued pursuant to any provision of the Soldiers' and Sailors' Civil Relief Act of 1940.

(v) *Power of Attorney.* Section 701 (50 U.S.C. App. 591) provides that certain powers of attorney executed by a hostage which expire by their terms after the person was captured shall be automatically extended for the period of captivity. Exceptions are made with respect to powers of attorney which by their terms clearly indicate they are to expire on the date specified irrespective of hostage status. (Section 701 applies to American hostages notwithstanding paragraph (c) thereof which states that it applies only to powers of attorney issued during the "Vietnam era".)

§ 191.13 Administration of benefits.

(a) The Assistant Secretary of State for Administration will issue certifications or other documents when required for purposes of the Civil Relief Act.

(b) The Assistant Secretary of State shall whenever possible promptly inform the chief legal officer of each State in which hostages maintain residence of all persons determined to be hostages eligible for assistance under this subpart.

Subpart C—Medical Benefits

§ 191.20 Eligibility for benefits.

A person designated as a hostage or Family Member of a hostage under Subpart A of this subchapter shall be eligible for benefits under this Subpart.

§ 191.21 Applicable benefits.

A person eligible for benefits under this Part shall be eligible for authorized medical and health care at U.S. Government expense, and for payment of other authorized expenses related to such care or for obtaining such care for any illness or injury which is determined by the Secretary of State to be caused or materially aggravated by the hostage situation, to the extent that such care may not—

(a) Be provided or paid for under any other Government health or medical program, including, but not limited to, the programs administered by the Secretary of Defense, the Secretary of Labor and the Administrator of Veterans Affairs; or

(b) Be entitled to reimbursement by any private or Government health insurance or comparable plan.

§ 191.22 Administration of benefits.

(a) An eligible person, who desires medical or health care under this Subpart or any person acting on behalf thereof, shall submit an application to the Office of Medical Services, Department of State, Washington, D.C. 20520 (hereafter referred to as the "Office"). The applicant shall supply all relevant information, including insurance information, requested by the Director of the Office. An eligible person may also submit claims to the Office for payment for emergency care when there is not time to obtain prior authorization as prescribed by this paragraph, and for payment for care received prior to or ongoing on the effective date of these regulations.

(b) The Office shall evaluate all requests for care and claims for reimbursement and determine, on behalf of the Secretary of State, whether the care in question is authorized under § 191.21 of this subpart. The Office will authorize care, or payment for care when it determines the criteria of such section are met. Authorization shall include a determination as to the necessity and reasonableness of medical or health care.

(c) The Office will refer applicants eligible for benefits under other Government health programs to the Government agency administering those programs. Any portion of authorized care not provided or paid for under another Government program will be reimbursed under this Subpart.

(d) Eligible persons may obtain authorized care from any licensed facility or health care provider of their choice approved by the Office. To the extent possible, the Office will attempt to arrange for authorized care to be provided in a Government facility at no cost to the patient.

(e) Authorized care provided by a private facility or health care provider will be paid or reimbursed under this Subpart to the extent that the Office determines that costs do not exceed reasonable and customary charges for similar care in the locality.

(f) All bills for authorized medical or health care covered by insurance shall be submitted to the patient's insurance carrier for payment prior to submission to the Office for payment of the balance authorized by this Part. The Office will request the health care providers to bill the insurance carrier and the Department of State for authorized care, rather than the patient.

(g) Eligible persons will be reimbursed by the Office for authorized travel to obtain an evaluation of their claim under paragraph (b) of this part and for other authorized travel to obtain medical or health care authorized by this Subpart.

§ 191.23 Disputes.

Any dispute between the Office and eligible persons concerning (a) whether medical or health care is required in a given case, (b) whether required care is incident to the hostage taking, or (c) whether the cost for any authorized care is reasonable and customary, shall be referred to the Medical Director, Department of State and the Foreign Service for a determination. If the person bringing the claim is not satisfied with the decision of the Medical Director, the dispute shall be referred to a medical board composed of three physicians, one appointed by the Medical Director, one by the eligible person and the third by the first two members. A majority decision by the board shall be binding on all parties.

Supart D—Educational Benefits

§ 191.30 Eligibility for benefits.

(a) A spouse or unmarried dependent child aged 18 or above of a hostage as determined under Subpart A of this subchapter shall be eligible for benefits under § 191.31 of this Subpart. (Certain limitations apply, however, to persons eligible for direct assistance through other programs of the Veterans Administration under chapter 35 of title 38, United States Code).

(b) A Principal (see definition in § 191.3) designated as a hostage under Subpart A of this subchapter, who intends to change jobs or careers because of the hostage experience and who desires additional training for this purpose, shall be eligible for benefits under § 191.32 of this Part unless such person is eligible for comparable benefits under title 38 of the United States Code as determined by the Administrator of the Veterans Administration.

§ 191.31 Applicable family benefits.

(a) An eligible spouse or child shall be paid (by advancement or reimbursement) for expenses incurred for subsistence, tuition, fees, supplies, books, and equipment, and other educational expenses, while attending an educational or training institution approved in accordance with procedures established by the Veterans Administration, which shall be comparable to procedures established pursuant to chapters 35 and 36 of title 38 U.S.C.

(b) Except as provide in paragraph (c) or (d herein), payments shall be available under this subsection for an eligible spouse or child for education or training which occurs—

(1) 90 days after the Principal is placed in a captive status, and

(i) Through the end of any semester or quarter which begins before the date on which the Principal ceases to be in a captive status, or

(ii) If the educational or training institution is not operated on a semester or quarter system, the earlier of the end of any course which began before such date or the end of the twelve-week period following that date.

(c) In special circumstances and within the limitation of § 191.34, the Secretary of State may, under the criteria and procedures set forth in § 191.33, approve payments for education or training under this subsection which occurs after the date determined under paragraph (b) above.

(d) In the event a Principal dies and the death is determined by the Secretary

of State to be incident to that individual being a hostage, payments shall be available under this subsection for education or training of a spouse or child of the Principal which occurs after the date of death, up to the maximum that may be authorized under § 191.34.

§ 191.32 Applicable benefits for hostages.

(a) When authorized by the Secretary of State a Principal, following release from captivity, shall be paid (by advancement or reimbursement) for expenses incurred for subsistence, tuition, fees, supplies, books and equipment, and other educational expenses, while attending an educational or training institution approved in accordance with procedures established by the Veterans Administration comparable to procedures established pursuant to chapters 35 and 36 of title 38 U.S.C. Payments shall be available under this subsection for education or training which occurs on or before—

(1) The end of any semester or quarter (as appropriate) which begins before the date which is 10 years after the day on which the Principal ceases to be in a captive status, or

(2) If the educational or training institution is not operated on a semester or quarter system, the earlier of the end of any course which began before such date or the end of the twelve-week period following that date.

(b) A person eligible for benefits under this subsection shall not be required to separate from Government service in order to undertake the training or education, but while in Government service, may only receive such training or education during off-duty hours or during periods of approved leave.

§ 191.33 Administration of benefits.

(a) Any person desiring benefits under this Part shall apply in writing to the Assistant Secretary of State for Administration, Department of State, Washington, D.C. 20520. The application shall specify the benefits desired and the basis of eligibility for those benefits. The Secretary of State shall make determinations of eligibility for benefits under this Part, and shall forward approved applications to the Veterans Administration and advise the applicant of the name and address of the office in the Veterans Administration that will counsel the eligible persons on how to obtain the benefits that have been approved. Persons whose applications are disapproved shall be advised of the reasons for the disapproval.

(b) The Veterans Administration shall provide the same level and kind of assistance, including payments (by advancement or reimbursement) for authorized expenses up to the same maximum amounts, to spouses and children of hostages, and to Principals following their release from captivity as it does to eligible spouses and children of veterans and to eligible veterans, respectively, under chapters 35 and 36 of title 38, United States Code. The Veterans Administration shall, following consultation with the Secretary of State and under procedures it has established to administer section 1724 of title 38, United States Code, discontinue assistance for any individual whose conduct or progress is unsatisfactory under standards consistent with those established pursuant to such section 1724.

(c) An Advisory Board shall be established to advise on eligibility for benefits under paragraphs (c) and (d) of § 191.31 and § 191.32. The Board shall be composed of the Assistant Secretary of State for Administration as Chairperson, the Director of the Office of Medical Services of the Department of State, the Executive Director of the regional bureau of the Department of State in whose region the relevant hostile action occurred, the Director of Personnel or other designee of the applicable employing agency, and a representative of the Veterans Administration designated by the Administrator.

(d) If an application is received from a spouse or child for extended training under § 191.31(c), the Secretary of Administration shall determine with the advice of the Advisory Board whether the Principal, following release from captivity, is incapacitated by the hostage experience to the extent that (1) he or she has not returned to full-time active duty and is unlikely to be able to resume the normal duties of his or her position or career, or (2) in the event of a separation from Government service, a comparable position or career, for at least six months from the date the Principal is released from captivity. If the Secretary makes such a determination, he or she may approve, within the limits of § 191.34, an application under § 191.31(c) for up to one year of education or training. If the Principal remains incapacitated, the Secretary may approve additional training or education up to the maximum authorized under § 191.34.

§ 191.34 Maximum limitation on benefits.

(a) In no event may assistance be provided under this Subpart for any individual for a period in excess of 45 months, or the equivalent thereof in part-time education or training.

(b) The eligibility of a spouse for benefits under paragraph (c) or (d) of § 191.31 shall expire on a date which is 10 years after the date of the release of the hostage, or the death of the hostage, respectively. The eligibility of a dependent child for benefits under such paragraphs (c) and (d) shall expire on the 26th birthday of such child or on such later date as determined by the Administrator of the Veterans Administration, as would be applicable if section 1712 of title 38, United States Code, were applicable.

26 CFR Parts 31 and 37

[T.D. 7772]

Employment Taxes; Submission of Certain Withholding Certificates

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary employment tax regulations relating to the submission of certain withholding exemption certificates (Forms W–4). The regulations would provide guidance to employers and employees with respect to the furnishing and honoring of employee withholding exemption certificates. In addition, the text contained in the temporary regulations set forth in this document serves as the text of the proposed regulations cross-referenced in the notice of proposed rulemaking in the Proposed Rules section of this issue of the Federal Register.

DATE: These temporary regulations are effective with respect to withholding exemption certificates furnished by the employee to the employer after March 19, 1981.

FOR FURTHER INFORMATION CONTACT: Barry L. Wold of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–3459).

SUPPLEMENTARY INFORMATION:

Background

This document contains temporary employment tax regulations relating to the submission of certain withholding certificates under section 3402(f) of the Internal Revenue Code of 1954. Further,

a new Part 37, Temporary Employment Tax Regulations for Withholding Exemption Certificates, is added by this document to Title 26 of the Code of Federal Regulations. The temporary regulations provided by this document will remain in effect until superseded by final regulations on this subject. These regulations are necessary to ensure uniform enforcement of the statutes relating to withholding of income tax at the source.

General Explanation

Those provisions of this temporary regulation that are not described below are currently provisions of § 31.3402(f)(2)–1(g) and consequently are not included in this general explanation. Since the provisions of § 31.3402(f)(2)–1(g) are included in this temporary regulation, this document deletes the cited paragraph (g).

The temporary regulations provide that the Internal Revenue Service may advise an employer that a named employee is not entitled to claim a status exempting the employee from withholding and is not entitled to claim a total number of withholding exemptions in excess of a number specified by the Service in the notice. The employer shall withhold on the basis of the maximum number specified in the written notice received from the Service unless and until otherwise notified by the Service. The employer shall withhold on the basis of any new certificate filed by the employee only if the certificate does not contain a claim which is inconsistent with the advice earlier furnished by the Service in its written notice to the employer. If the new certificate does make a claim which is inconsistent with the advice contained in the Service's earlier written notice to the employer, the employer shall disregard the new certificate and withhold amounts from the employee on the basis of the maximum number specified in the written notice received from the Service.

The employee may specify in a written statement any change in circumstances or other justification for the claims made in the new certificate, in which case the employer shall submit the certificate and statement to the Service. The employer must continue to disregard that new certificate (submitted to the Service) unless and until the Service notifies the employer to honor it. In addition, upon prior written notice from the Service, employers are required to submit immediately to the District Director copies of any new withholding exemption certificates required by the regulations to be submitted to the Service and which are received from employees or groups of employees named by the Service in the notice. An employer must also submit to the Service a copy of any written statement received from an employee in support of the employee's claim made on a withholding exemption certificate whenever the employer is required to submit a copy of the certificate itself.

Drafting Information

The principal author of these proposed regulations is Barry L. Wold of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

Adoption of Amendments to the Regulations

Accordingly, a new Part 37, Temporary Employment Tax Regulations for Withholding Exemption Certificates, is added to Title 26 of the Code of Federal Regulations, and the following amendments are made to Title 26:

PART 31—EMPLOYMENT TAXES; APPLICABLE ON OR AFTER JANUARY 1, 1955

§ 31.3402(f)(2)–1 [Amended]

Paragraph 1. Section 31.3402(f)(2)–1 is amended by the removal of paragraph (g) thereof.

§ 31.3401(e)–1 [Amended]

Par. 2. The last sentence of paragraph (b) of § 31.3401(e)–1 is amended by removing "§ 31.3402(f)(2)–1(g)" and inserting in lieu thereof "§ 37.3402–1".

§ 31.3402(n)–11 [Amended]

Par. 3. The last sentence preceding Example (1) of § 31.3402(n)–1 is amended by removing "§ 31.3402(f)(2)–1(g)" and inserting in lieu thereof "§ 37.3402–1".

Par. 4. A new Part 37, Temporary Employment Tax Regulations for Withholding Exemption Certificates, is added to Title 26 of the Code of Federal Regulations. Part 37 reads as follows:

PART 37—TEMPORARY EMPLOYMENT TAX REGULATIONS FOR WITHHOLDING EXEMPTION CERTIFICATES

Sec.

37.3402–1 Submission of certain withholding certificates.

§ 37.3402–1 Submission of certain withholding certificates.

(a) *General rule.* An employer shall submit, in accordance with paragraph (c) of this section, a copy of any withholding exemption certificate, together with a copy of any written statement received from the employee in support of the claims made on the certificate, which is received from the employee during the reporting period (without regard to the date it is effective) if the employee is employed by that employer on the last day of the reporting period and if—

(1) The total number of withholding exemptions (within the meaning of § 3402(f)(1) and the regulations thereunder) claimed on the certificate exceeds 9, or

(2) The certificate indicates that the employee claims a status exempting the employee from withholding, and the exception provided by paragraph (b) of this section does not apply.

(b) *Exception.* A copy of the certificate shall not be submitted under paragraph (a)(2) of this section if the employer reasonably expects, at the time the certificate is received, that the employee's wages (under chapter 24 of the Code) from that employer shall not then usually exceed $200 per week.

(c) *Rules for submission*—(1) *In general.* The reporting period is a calendar quarter. Copies required to be submitted under paragraph (a) of this section shall be submitted at the time and place of filing Form 941 or 941E for the reporting period, or Form 941–M for the last month of the reporting period. Form 941, 941E or 941–M shall be used, in accordance with the instructions for the form, to transmit the copies.

(2) *Option.* At the choice of the employer, copies required to be submitted under paragraph (a) of this section may be submitted earlier and for shorter reporting periods than a calendar quarter. In such case, the employer shall submit the copies to the service center where the employer could file a Form 941 or 941E and shall include with the submission a statement showing the employer's name, address, employer identification number, and the number of copies of withholding exemption certificates submitted. However, in no event shall a copy be submitted later than the time for filing the report required to be submitted for the calendar quarter reporting period under paragraph (c)(1) of this section.

(3) *First report.* The first submission of copies shall include a copy of any certificate required to be submitted under paragraph (a) of this section

which is received by the employer on or after April 1, 1980.

(d) *Other withholding exemption certificates.* An employer shall also submit a copy of any currently effective withholding exemption certificate (or make the original certificate available for inspection), together with a copy of any written statement received from the employee in support of the claims made on the certificate, upon written request of the Internal Revenue Service. This request of the Service may relate either to one or more named employees or to one or more named groups of employees. In this regard, the Service may, by written notice, advise the employer that a copy of each new withholding exemption certificate received from one or more named employees, or from one or more named groups of employees, which is required, under this section, to be submitted to the Service is to be submitted to the District Director. The employer shall then submit to the District Director a copy of each such new certificate of each such employee immediately after the employer receives the new certificate from the named employee.

(e) *Computation of withholding.* (1) Until receipt of written notice from the Internal Revenue Service that a certificate, a copy of which was submitted under this section, is defective, that certificate is effective and the employer shall withhold on the basis of the statements made in that certificate, unless that certificate must be disregarded under the provisions of paragraph (e)(4) of this section. If the Internal Revenue Service finds that a copy of a withholding exemption certificate submitted contains any materially incorrect statement or if, after written request to the employee for verification of the statements on the certificate, the Internal Revenue Service determines that it lacks sufficient information to determine if the certificate is correct, and in either event so notifies the employer in writing, the employer shall then consider the certificate to be defective for purposes of computing amounts of withholding.

(2) The Internal Revenue Service may, as a part of the written notice to the employer, advise the employer of the reasons why it has determined that the certificate is defective. In this regard, the Internal Revenue Service may, based upon its findings, advise the employer that the employee is not entitled to claim a status exempting the employee from withholding and is not entitled to claim a total number of withholding exemptions in excess of a number specified by the Internal Revenue Service in the notice.

(3) The employer shall promptly furnish the employee who filed the defective certificate, if still in his employ, with a copy of the written notice of the Internal Revenue Service with respect to the certificate and may request another withholding exemption certificate from the employee. The employer shall withhold amounts from the employee on the basis of the maximum number specified in the written notice received from the Service.

(4) If and when the employee does file any new certificate (after an earlier certificate of the employee was considered to be defective), the employer shall withhold on the basis of that new certificate (whenever filed) as currently effective only if the new certificate does not make a claim of exempt status or of a number of withholding exemptions which claim is inconsistent with the advice earlier furnished by the Internal Revenue Service in its written notice to the employer. If any new certificate does make a claim which is inconsistent with the advice contained in the Service's written notice to the employer, then the employer shall disregard the new certificate, shall not submit that new certificate to the Service, and shall continue to withhold amounts from the employee on the basis of the maximum number specified in the written notice received from the Service. If, however, the employee specifies on such new certificate, or by a written statement attached to that certificate, any circumstances of the employee which have changed since the date of the Service's earlier written notice, or any other circumstances or reasons, as justification or support for the claims made by the employee on the new certificate, the employer must submit a copy of that new certificate and the employee's written statement (if any) to the District Director. The employer shall continue to disregard that new certificate and shall continue to withhold amounts from the employee on the basis of the maximum number specified in the written notice received from the Service unless and until the Internal Revenue Service by written notice (under paragraph (e) (2) of this section) advises the employer to withhold on the basis of that new certificate and revokes its earlier written notice.

(f) *Definition of employer.* For purposes of this section, the term "employer" includes any individual authorized by the employer to receive withholding exemption certificates, to make withholding computations, or to make payroll distributions.

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805))

William E. Williams,

Acting Commissioner of Internal Revenue.

Approved: March 11, 1981.

Emil M. Sunley,

Acting Assistant Secretary of the Treasury.

[FR Doc. 81-8544 Filed 3-17-81; 10:00 am]

BILLING CODE 4830-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-6-FRL 1778-1]

Approval and Promulgation of State Implementation Plans; Colorado

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: The purpose of this notice is to approve a revision to the Colorado State Implementation Plan (SIP) for alternative emission reduction or "bubble" for Coors Container Company's Paper Packaging Facility printing presses located in Boulder. On December 19, 1980 (45 FR 83546), EPA published a notice of proposed rulemaking which described the state submittal, and requested public comment. Two were received.

DATE: Effective April 20, 1981.

ADDRESSES: Copies of the SIP revision and any comments received are available at the following addresses for inspection:

Environmental Protection Agency, Air Programs Branch, Region VIII, Suite 200, 1860 Lincoln Street, Denver, Colorado 80295

Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), Mail Code PM-213, 401 M Street SW., Washington, D.C. 20460

FOR FURTHER INFORMATION CONTACT: Eliot Cooper, Air Programs Branch, Environmental Protection Agency, 1860 Lincoln Street, Denver, Colorado 80295 (303) 837-3711.

SUPPLEMENTARY INFORMATION:

Background

On May 13, 1980, the Colorado Air Quality Hearings Board conducted a public hearing to consider a request of Coors Container Company to revise the SIP to exempt two printing presses operated by Coors at its Boulder paper packaging facility from the daily emission limitation for volatile organic compounds (VOC) contained in the Air Quality Control Commission Regulation No. 7, Section VII.B.2.c., and instead to subject the two presses to a single total daily emission limitation, "bubble," not involving an increase in total emissions allowed from the printing operation.

Upon formal motion and by majority vote, the Board ordered the application of Coors for a revision to the SIP providing for an alternate means for Coors' two printing presses at its Boulder, Colorado, paper packaging facility to comply with Air Quality Control Commisson Regulation No. 7, Section VII.B.2.c., be granted and the "Revision of Limited Applicability to Colorado Air Quality Control Commission Regulation No. 7," which was made a part of the decision and order, adopted. The applicability to the two subject printing presses of the hourly emission limitations contained in Regulation No. 7, Section VII.B.2.c., was not modified.

The Hearings Board modified Regulation No. 7 as follows:

Revision of Limited Applicability to Colorado Air Quality Control Commission; Regulation No. 7

Air Quality Control Commission Regulation No. 7, Section VII.B.2.c., is hereby modified as follows:

In lieu of meeting the daily emission limitations of Section VII.B.2.c. of Air Quality Control Commission Regulation No. 7, Coors Container Company may elect to simultaneously operate the 26-inch printing press and the 44-inch printing press which it owns and operates at its Boulder, Colorado, paper packing facility so as to comply with the emission limitations which satisfy the following equation:

E26 + E44 = 6,000 pounds per day

where E26 is the emission limitation (pounds of VOC per day) for the 26-inch printing press and E44 is the emission limitation (pounds of VOC per day) for the 44-inch printing press; *Provided that* Coors shall be required to maintain accurate records of the amounts of products printed on each press, the types of inks used for such printings, the operation rate of each press for such printings, and the time period for which each press was operated for such printings. Such records shall be kept current and shall be retained for a period of one year after the date of printing shown by the record. The maximum emission from either press shall not exceed 5,000 pounds/day of VOC emissions.

On August 25, 1980, the Governor of Colorado submitted a site specific revision to the SIP for Coors for alternative emission reduction, "bubble," for their printing presses.

EPA solicited comments in a December 19, 1980 (45 FR 83546), proposed rulemaking. Two commentors objected to the "bubble" approach because it caters to the desires of industry, and suggested rather that Coors meet more stringent limits due to the ozone violations in Boulder. In our proposal, EPA stated that Coors will be required (no later than by December 31, 1982) to meet a more stringent emission limit equivalent to Reasonable Available Control Technology (RACT) for graphic arts—rotogravure. This stringent emission limit is a requirement of the Denver (six county) ozone nonattainment plan. The "bubble" is only an interim measure effective until the RACT compliance date.

EPA Action

EPA is approving this SIP revision since, as explained in greater detail in the proposed rulemaking notice (45 FR 8346), it meets the conditions of our December 11, 1979, "bubble" policy statement (44 FR 71780) and the requirements of the Clean Air Act.

Under section 307(b)(1) of the Clean Air Act, judicial review of this final rulemaking is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate Circuit within 60 days of (date of publication). Under Section 307(b)(2) of the Clean Air Act, the requirements, which are the subject of today's notice, may not be challenged later in the civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

This notice of proposed rulemaking is issued under the authority of Section 110 of the Clean Air Act as amended (42 USC 7410).

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Colorado was approved by the Director of the Federal Register on July 1, 1980.

Title 40, Part 52 of the Code of Federal Regulations is amended as follows:

Subpart G—Colorado

1. Section 52.320 is amended by adding (c)(23) as follows:

§ 52.320 Identification of plan

* * * * *

(c) * * *

(23) On August 25, 1980, the Governor of Colorado submitted a site specific revision to the State Implementation Plan for Coors Container Corporation, Paper Packaging Division, in regard to alternative volatile organic compound emissions reduction for its printing presses.

BILLING CODE 6560-38-M

---

40 CFR Part 52

[A-5-FRL 1777-7]

Ohio; Approval and Promulgation of Implementation Plans

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: U.S. Environmental Protection Agency (EPA) is promulgating a revision to the Ohio State Implementation Plan for sulfur dioxide (SO_2) for Wright Patterson Air Force Base, in Greene County, Ohio. The revision is to reflect a modification (completed April 1980) in which new boiler units and stacks were constructed and some older boiler units and stacks were eliminated.

DATE: Effective April 20, 1981.

FOR FURTHER INFORMATION CONTACT: Debra Marcantonio, Regulatory Analysis Section, Air Programs Branch, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604 (312) 886-6088.

ADDRESS: The docket (#5A-79-4) for this revision is available for inspection and copying during normal business hours at the above address and at the Central Docket Section, West Tower Lobby, Gallery 1, 401 M Street, SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: This final rule is an amendment to the federally promulgated Ohio State Implementation Plan (SIP) for sulfur dioxide (SO_2). This revision is specifically for sources owned and operated by the U.S. Air Force at the Wright Patterson Air Force Base.

On August 27, 1979, (41 FR 36324) the U.S. Environmental Protection Agency (EPA) promulgated regulations establishing the SIP for the control of SO_2 for the State of Ohio.

On December 27, 1978, Wright-Patterson requested a revision of the Ohio SIP for SO_2 for its facility located in Greene County, Ohio based on a modification of the facility (i.e., the construction of new boiler units and stacks and the elimination of some older boiler units and stacks).

This rulemaking action does *not* apply to the new boiler units. Wright Patterson is required to obtain a State operating permit for the new boiler units. The new boilers must be in compliance with all appropriate state and federal new source review requirements. The Prevention of Significant Deterioration requirements are not applicable to this revision because this source is located in an area which is presently designated as a nonattainment area for sulfur dioxide.

Note.—In the modeling analysis performed to support the SIP revision request, the new boilers were modeled at the same emission limitation as the remaining old boilers (i.e., 877.2 ng/J (2.04 lbs. SO_2/MMBTU)). As noted above, however, the new boilers will be subject to LAER, which in this case is less than 877.2 ng/J. Since the modeling demonstrated that the ambient standards will be protected with the new boilers operating at 877.2 ng/J, the ambient standards will also be protected with the new boilers operating at their eventual lower allowable emission limit. Thus, this SIP revision will ensure attainment of the ambient standards, no matter what LAER limit (less than 877.2 ng/J) is set by the State on the new boilers.

The previous configuration at the Wright Patterson facility consisted of 21 boiler units vented to 19 stacks. The boiler units and stacks for each boiler building were as follows:

Building 10271—four boilers, four stacks
Building 20000—seven boilers, five stacks
Building 20770—two boilers, two stacks
Building 30170—five boilers, five stacks
Building 31240—three boilers, three stacks

The revised plant configuration consists of: (a) Closure of three of the five buildings and the discontinuation of one boiler and one stack at Building 31240, and the discontinuation of two stacks at Building 20770 and (b) construction of three new boiler units and three stacks at Building 31240 and three new boilers and one stack at Building 20770. Thus, the revised plant configuration has the following number of boilers and stacks:

Building 20770—five boilers, one stack
Building 31240—five boilers, five stacks

The plant modification also included the following stack height increases. At Building 20770, Boilers #1 and 2 are now being vented out one new taller stack (an increase from 19.8 meters to 27.4 meters) along with the emissions from the new boilers at Building 20770-Boilers #3, 4 and 5. At Building 31240, the individual stacks serving old Boilers #2 and 3 were increased from about 21 meters to 23 meters. Since all of these new stacks are less than 30 meters, no Good Engineering Practice (GEP) review is necessary (see 44 FR 2608, January 12, 1979).

This revision does not affect the attainment date or compliance schedule previously promulgated for this facility (41 FR 35324).

EPA analyzed the SIP revision and proposed approval on December 21, 1979 (44 FR 75071). The notice proposed to revise the emission limitation for the remaining boilers and did not affect the new boilers which are subject to new source review. A 30 day public comment was provided at the time of the proposal. EPA did not receive any public comments on the proposed revision.

Based upon the Agency's review of the technical documentation submitted, EPA has determined that approval of the SIP revision for the Wright Patterson Air Force Base will not jeopardize the attainment and maintenance of the National Ambient Air Quality Standards. Therefore, EPA approves the SIP revision for the Wright Patterson Air Force Base in Greene County.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

(Sec. 110, Clean Air Act, as amended (42 U.S.C. 7410))

Part 52 of Chapter I Title 40 of the Code of Federal Regulations are amended as follows:

Subpart KK—Ohio

1. Section 52.1881 is amended by revising paragraph (b)(29)(ii) as follows:

§ 52.1881 Control strategy: Sulfur oxides (sulfur dioxide).

* * * * *

(b) Regulations for the control of sulfur dioxide in the State of Ohio.

* * * * *

(29) In Greene County:

* * * * *

(ii) The present or any subsequent owner of the Wright Patterson Air Force Base in Greene County, Ohio, shall not cause or permit emissions of sulfur dioxide in excess of 877.2 nanograms of sulfur dioxide per joule (2.04 lbs. SO_2/MMBTU) of actual heat input from the stack at Building 20770 and stacks #2 and 3 at Building 31240.

* * * * *

Dated: March 12, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

BILLING CODE 6560-30-M

---

40 CFR Part 52

[A-1-FRL 1778-2]

Massachusetts; Approval and Promulgation of Implementation Plans

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA is today approving a revision to the Massachusetts State Implementation Plan (SIP) submitted by the Commissioner of the Massachusetts Department of Environmental Quality Engineering (the Massachusetts Department) on September 12, 1980. The revision amends the SIP by adding a new regulation, 310 CMR 7.19, "Interim Sulfur-in-Fuel Limitations for Fossil Fuel Utilization Facilities Pending Conversion to an Alternate Fuel or Implementation of Permanent Energy Conservation Measures." On November 7, 1980 the Massachusetts Department submitted a clarification to the narrative portion of its submittal. EPA's proposed approval of this revision was published on December 16, 1980 (45 FR 82675). Two letters of comment were received during the 30 day comment period which ended January 15, 1981.

This new regulation establishes a process whereby certain sources rated at less than 250 million Btu per hour heat input which are currently limited to burning residual fuel oil having a sulfur content of 0.28 pounds or 0.55 pounds per million Btu heat release potential (0.5% or 1.0% sulfur content by weight), will be allowed to burn, for a temporary period, fuel oil having a sulfur content of not more than 0.55 pounds or 1.21 pounds per million Btu heat release potential (1.0% or 2.2% sulfur content by weight), respectively.

EFFECTIVE DATE: March 19, 1981.

FOR FURTHER INFORMATION CONTACT: Margaret McDonough, Air Branch, EPA Region I, Room 1903, JFK Federal Building, Boston, Massachusetts 02203, (617) 223–4448.

ADDRESSES: Copies of the Massachusetts submittal which is incorporated by reference are available for public inspection during regular business hours at the Environmental Protection Agency, Region I, Room 1903, JFK Federal Building, Boston, Massachusetts 02203; Public Information Reference Unit, Environmental Protection Agency, 401 M. St. SW., Washington, D.C. 20460; Office of the Federal Register, 110 L Street, NW., Room 8401, Washington, D.C. and Department of Environmental Quality Engineering, 600 Washington Street, Room 320, Boston, MA 02111.

SUPPLEMENTARY INFORMATION: The requirements and conditions of the regulation being approved today, 310 CMR 7.19, which sources must meet in order to qualify for temporary sulfur-in-fuel relaxations and the procedures . which the Massachusetts Department must use in screening the sources to determine that their emissions will not violate the National Ambient Air Quality Standards (NAAQS), were discussed in detail in the Notice of Proposed Rulemaking (the NPR) cited above and will not be repeated here. EPA's reasons for approving this revision were also discussed at length in the NPR and, therefore, will not be repeated. Two letters of comment, both in favor of EPA's proposed action, were received.

EPA finds good cause for making this action effective immediately because the implementation plan revision is already in effect under state law and the EPA approval imposes no additional regulatory burdens.

In the NPR, EPA proposed approval of all individual sources which are later determined to meet the eligibility requirements of the new regulations and set forth the procedures by which EPA will conduct its proposed rulemaking process for individual sources concurrently with the State's review process. Therefore, this notice does not give final approval to individual sources which meet the eligibility requirements of the new regulation. Before final approval, these sources must be processed in accordance with the concurrent State/EPA procedures set forth in the NPR. Individual SIP revisions for each eligible source will be submitted to EPA by the Massachusetts Department at some future dates, at which time EPA will proceed to final rulemaking for these individual sources.

EPA specifically solicited comments in the NPR on this new parallel, concurrent State/EPA processing of individual sources since it is a departure from EPA's usual procedure of conducting a separate, proposed rulemaking only after the State has completed its review and determination for each source requesting a relaxation of the sulfur-in-fuel limitation. No comments were received concerning this new approach. EPA believes that this new approach is a significant regulatory reform which will substantially reduce the time required to complete the SIP revision process for these sources.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this SIP revision is available *only* by filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

After evaluation of the State's submittal, the Administrator has determined that the Massachusetts revision meets the requirements of the Clean Air Act and 40 CFR Part 51. Accordingly, this revision is approved as a revision to the Massachusetts SIP.

Note.—Incorporation by reference of the State Implementation Plan for the state of Massachusetts was approved by the Director of the Federal Register on July 1, 1980.

(Sec. 110(a), 301, Clean Air Act, as amended, (42 U.S.C. 7401 and 7601))

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart W—Massachusetts

1. Section 52.1120, paragraph (c) is amended by adding subparagraph (36) as follows:

§ 52–1120 Identification of plan.

* * * * *

(c) * * *

(36) A revision submitted by the Commissioner of the Massachusetts Department of Environmental Quality Engineering on September 12, 1980 adding a new regulation 310 CMR 7.19 "Interim Sulfur-in-Fuel Limitations for Fossil Fuel Utilization Facilities Pending Conversion to an Alternate Fuel or Implementation of Permanent Energy Conservation Measures."

40 CFR Part 52

[A-3-FRL 1777-2]

Approval of Revision of the Pennsylvania State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: In a Federal Register notice of May 20, 1980, 45 FR 33607, EPA conditionally approved the Commonwealth of Pennsylvania's State Implementation Plan (SIP). The SIP was conditionally approved because there were deficiencies which had to be corrected before full approval could be granted. In the same Federal Register of May 20, 1980, 45 FR 33656, EPA proposed deadlines by which the Commonwealth had to correct the conditionally approved items. Conditional approval means that Section 176 and Section 316 of the Clean Air Act and new source growth restrictions will not apply unless the State fails to submit the necessary SIP revisions by the scheduled dates, or unless the revisions are not approved by EPA. On September 30, 1980, Pennsylvania requested a time extension for three of the conditionally approved items in order to hold a common public hearing on all three items. EPA is approving this request for a time extension. There were no other comments on the proposed schedules.

EFFECTIVE DATE: March 19, 1981.

ADDRESSES: Copies of the State Implementation Plan revisions affecting this rulemaking and the accompanying support documentation are available for public inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III, Air Programs Branch, Curtis Building, 10th Floor, Sixth & Walnut Streets, Philadelphia, PA 19106; ATTN: Patricia Sheridan

Pennsylvania Department of Environmental Resources, Bureau of Air Quality, Post Office Box 2063, Harrisburg, PA 17120; ATTN: Gary L. Triplett

Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460

Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C. 20408

FOR FURTHER INFORMATION CONTACT: Mr. Ed Shoener (3AH12), Air Programs Branch, U.S. Environmental Protection Agency, Region III, Curtis Building, 10th Floor, Sixth & Walnut Streets, Philadelphia, PA 19106; Phone: (215) 597-8168.

SUPPLEMENTARY INFORMATION: In the Federal Register notice of May 20, 1980 EPA proposed time schedules by which five conditionally approved items of the Pennsylvania SIP had to be corrected. On September 30, 1980 Pennsylvania requested a time extension for items 1, 2 and 5 in order to provide for a common public hearing on all three items. EPA is granting these time extensions. EPA received no other comments on its proposed schedule. Listed below are the final schedules by which Pennsylvania must correct the deficiencies:

1. The Commonwealth and Allegheny County will remove the exemption allowing the use of cutback asphalt as a tack coat and submit revised regulations by May 31, 1981. In the interim, they must meet the following schedules:

—January 31, 1981—Notice of public hearing (proposed date was September 30, 1980).
—February 28, 1981—Public hearing and draft regulations submitted to EPA. (Proposed date was October 31, 1980.)
—May 31, 1981—Adopt new regulations and submit to EPA. (Proposed date was December 31, 1980.)

2. The Commonwealth and Allegheny County will revise the limit of solvent content allowed in emulsified asphalt consistent with reasonably available control technology and submit revised regulations by May 31, 1981. In the interim, they must meet the following schedules:

—January 31, 1981—Notice of public hearing. (Proposed date was September 30, 1980.)
—February 28, 1981—Public hearing and draft regulations submitted to EPA. (Proposed date was October 31, 1980.)
—May 31, 1981—Adopt new regulations and submit to EPA. (Proposed date was December 31, 1980.)

3. The Delaware Valley Regional Planning Commission, as the designated lead planning agency for the Philadelphia metropolitan area, will obtain firm commitments from appropriate State and local authorities for the implementation of the Newton Branch electrification and the Route 66 Trolley extension and submit these commitments to EPA by December 31, 1980; should firm commitments not be obtained by December 31, 1980, the Commonwealth must submit substitute measures with equivalent reductions by June 30, 1981.

4. Each designated lead planning agency and metropolitan planning organization in the Allentown-Bethlehem-Easton, Scranton, Wilkes-Barre, and Harrisburg areas will provide written assurances to EPA with endorsements by the Commonwealth that no project, program, or plan will be approved that does not conform with the approved State Implementation Plan. The deadline for the submittal of these commitments was proposed as July 31, 1980. However, on July 21, 1980 EPA received the written assurances. EPA will handle this sumittal in a separate Federal Register notice.

5. The Commonwealth will revise the language in the Special Permit Requirements (§ 127.65(b)) to comply with Section 173(3) of the Clean Air Act concerning permit requirements by May 31, 1981. In the interim they must meet the following schedule:

—January 31, 1981—Notice of Public Hearing.
—February 28, 1981—Public Hearing and draft regulations submitted to EPA.
—May 31, 1981—Adopt new regulations and submit to EPA. (Proposed date was March 11, 1981.)

The schedules are effective on March 19, 1981 for good cause because some of the deadlines will become effective in the near future.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

(42 U.S.C. 7401-642)

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporated by reference of the State Implementation Plan for the Commonwealth of Pennsylvania was approved by the Director of the Federal Register on July 1, 1980.

Approval of the Revision of the Pennsylvania State Implementation Plan. Title 40, Part 52 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

Subpart NN—Pennsylvania

Section 52.2037 is revised as follows:

§ 52.2037 Control strategy: Carbon monoxide and ozone (hydrocarbons).

(a) Part D—Conditional Approval—the Pennsylvania plan for carbon monoxide and ozone is approved provided that the following conditions are satisfied:

(1) The Commonwealth and Allegheny County will remove the exemption allowing the use of cutback asphalt as a tack coat and submit revised regulations by May 31, 1981. In the interim, they must meet the following schedules:

—January 31, 1981—Notice of public hearing.
—February 28, 1981—Public hearing and draft regulations submitted to EPA.
—May 31, 1981—Adopt new regulations and submit to EPA.

(2) The Commonwealth and Allegheny County will revise the limit of the solvent content allowed in emulsified asphalt consistent with reasonably available control technology and submit revised regulations by May 31, 1981. In the interim, they must meet the following schedules:

—January 31, 1981—Notice of public hearing.
—February 28, 1981—Public hearing and draft regulations submitted to EPA.
—May 31, 1981—Adopt new regulations and submit to EPA.

(3) The Delaware Valley Regional Planning Commission, as the designated lead planning agency for the Philadelphia metropolitan area, will obtain firm commitments from appropriate State and local authorities for the implementation of the Newton Branch electrification and the Route 66 Trolley extension and submit these commitments to EPA by December 31, 1980; should firm commitments not be obtained by December 31, 1980, the Commonwealth must submit substitute measures with equivalent reductions by June 30, 1981.

In § 52.2055, paragraph (c), is revised as follows:

§ 52.2055 Review of new sources and modifications.

* * * * *

(c) The Special Permit Requirement regulations are approved provided that the language of § 127.65(b) of the Pennsylvania regulations is revised to conform with section 173(3) of the Clean Air Act and submitted to EPA by the Secretary of the Department of Environmental Resources by May 31, 1981. In the interim, the following schedule must be met:

—January 31, 1981—Notice of public hearing.
—February 28, 1981—Public hearing completed and draft regulations submitted to EPA.
—May 31, 1981—Adopt new regulations and submit to EPA.

However, these regulations are not approved for permitting of applicable CO sources locating in CO nonattainment areas or for applicable hydrocarbon sources in rural ozone nonattainment areas.

40 CFR Part 52

[A-5-FRL 1777-8]

Ohio; Approval and Promulgation of Implementation Plans

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This action revises the federally promulgated Ohio State Implementation Plan (SIP) for the B. F. Goodrich Company in Lorain County. This revision is based on increasing the allowable emissions from the two coal-fired boilers and reducing the allowable emissions from the four oil-fired boilers. The revision results in a decrease in both maximum allowable SO_2 emissions and actual SO_2 emissions in comparison with current emission levels.

EFFECTIVE DATE: April 20, 1981.

FOR FURTHER INFORMATION CONTACT: Debra Marcantonio, Air Programs Branch, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604 (312) 886-6088.

SUPPLEMENTARY INFORMATION: On August 27, 1976, the U.S. Environmental Protection Agency (EPA) promulgated regulations establishing the SIP for the control of sulfur dioxide for the State of Ohio (41 FR 36324). This action amends the SIP as it applies to the B. F. Goodrich Company in Lorain County.

On July 24, 1979, B. F. Goodrich submitted a SIP revision request for its facility in Lorain County. Additional information was submitted on March 14, 1980 and May 15, 1980. B. F. Goodrich's Lorain County facility uses steam provided by two coal-fired boilers and four oil-fired boilers. The submissions request a revision to the August 27, 1976 regulation that set boiler-specified limits according to a general county-wide equation that used the rated heat capacity of each boiler.

The B. F. Goodrich Company's SIP revision is based on increasing the allowable emissions from the two coal-fired boilers and reducing the allowable emissions from the four oil-fired boilers. The revision will result in a decrease in both maximum allowable SO_2 emissions and actual SO_2 emissions in comparison with current emission levels. In support of its proposed revision; B. F. Goodrich originally submitted a modeling analysis using the RAM urban model. However, recent EPA final rulemaking (June 24, 1980, 45 FR 42279) for the Cleveland Electric Illuminating Company's (CEI) Avon Lake Plant which is located 2 km north of B. F. Goodrich, relied on modeling performed with EPA's rural, single-source CRSTER model. Because both the CEI and the B. F. Goodrich plants are located close together, EPA determined that it was appropriate to model both plants together with MPTER (the multi-source version of CRSTER). The modeling analysis of B. F. Goodrich and CEI with MPTER was performed by EPA. Further discussion of the modeling analysis is contained in the notice of proposed rulemaking (45 FR 77465) and the technical support document which is available in Docket 5A-80-12.

Based upon the Agency's review of the B. F. Goodrich submittal and the Agency's additional modeling analysis, EPA proposed to approve this SIP revision for the B. F. Goodrich Company on November 24, 1980 (45 FR 77465). During the public comment period EPA received one public comment which addressed several issues. Each issue raised in this comment is addressed below.

Issue: The commentor questioned the assumed natural background level of 40 $\mu g/m^3$ utilized in EPA's modeling analysis.

Response: The background level applied in EPA's analysis was based on representative 1979 monitoring data. The 40 $\mu g/m^3$ level was originally derived by EPA in its analysis to support the emission limitations promulgated for both the Cleveland Electric Illuminating Company (CEI) Eastlake and Avon Lake plants (see 45 FR 42279). The CEI Avon Lake and B. F. Goodrich plants are only 1.5 km apart and there are no other significant SO_2 sources within 12 km of these two facilities. Thus, application of a 40 $\mu g/m^3$ background level and inclusion of CEI Avon Lake in EPA's analysis of B. F. Goodrich is sufficient to account for the impact of all natural and nearby and distant man-made sources.

Issue: The commentor asked if there were any receptors located above the elevation of the B. F. Goodrich stack heights. If there were, the commentor noted that the MPTER model would not be appropriate.

Response: The terrain in northern Lorain County near Lake Erie where B. F. Goodrich is located is relatively flat and there are no elevations greater than the B. F. Goodrich stack elevations in the area. Consequently, there is no need to consider variable terrain heights in the modeling. The MPTER model is, therefore, appropriate for this situation.

Issue: The commentor expressed concern that this SIP revision may result in a violation of the three-hour standard.

Response: The highest, second high 3-hour concentration predicted in the Lorain area was 1300 $\mu g/m^3$, to which B. F. Goodrich had no significant contribution. Therefore, the 3-hour secondary standard will be protected with B. F. Goodrich operating at the revised emission limits.

Based upon the Agency's review and analysis of the SIP revision request and the public comment received, EPA has determined that approval of the B. F. Goodrich SIP revision will not jeopardize the attainment and maintenance of the NAAQS. Therefore, EPA approves the revised emission limitations for the B. F. Goodrich Company in Lorain County.

This revision does not affect the compliance schedule and the attainment date as previously promulgated for this facility on May 31, 1977 (42 FR 27588). The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

This Notice of Final Rulemaking is issued under the authority of Section 110 of the Clean Air Act, as amended.

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart KK—Ohio

1. Section 52.1881 is amended by adding a new paragraph (b)(38)(ix) as follows:

§ 52.1881 Control strategy: Sulfur oxides (sulfur dioxide).

* * * * *

(b) Regulations for the control of sulfur dioxide in the State of Ohio.

(38) In Lorain County * * *

* * * * *

(ix) The B. F. Goodrich Company or any subsequent owner or operator of the facility in Lorain County, Ohio shall not cause or permit the emission of sulfur dioxide from any stack in excess of the rates specified below:

(A) 129.0 nanograms of sulfur dioxide per joule (0.30 lbs. SO_2/MMBTU) of actual heat input for oil-fired boilers number 1, 2, 5, and 6.

(B) 2237.1 nanograms of sulfur dioxide per joule (5.20 lbs. SO_2/MMBTU) of actual heat input for coal-fired boilers number 3 and 4.

* * * * *

40 CFR Part 52

[A-2-FRL 1776-8]

Approval and Promulgation of Implementation Plans; Revision to the New York State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This notice announces approval by the Environmental Protection Agency of a revision to the New York State Implementation Plan. This action has the effect of allowing the Niagara Mohawk Power Corporation to continue to use fuel oil with a maximum sulfur content of 2.8 percent, by weight, in unit 5 of its Oswego generating facility, located in Oswego County, New York. The State's submittal, extending its current "special limitation," will allow the use of fuel oil with a maximum sulfur content of 2.8 percent, by weight, for a maximum period of three years from [insert the date of publication]. Receipt of this implementation plan revision request from New York State was announced in the **Federal Register** on December 16, 1980 at 45 FR 82678, where a full description of the proposed revision is contained.

EFFECTIVE DATE: This action becomes effective on March 19, 1981.

ADDRESSES: Copies of the SIP revision submitted by New York State are available for inspection during normal business hours at the following addresses:

Environmental Protection Agency, Region II, Air Programs Branch, Room 1005, 26 Federal Plaza, New York, New York 10278

Environmental Protection Agency, Public Information Reference Unit, 401 M Street S.W., Washington, D.C. 20460

The Office of the Federal Register, 1100 L Street N.W., Room 8401, Washington, D.C. 20408

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10278 (212) 264-2517.

SUPPLEMENTARY INFORMATION: On September 17, 1980 New York State submitted to the Environmental Protection Agency (EPA) a proposed revision to its State Implementation Plan (SIP). This revision proposes to allow the Niagara Mohawk Power Corporation (NMPC) to continue to use fuel oil with a maximum sulfur content of 2.8 percent, by weight, in unit 5 of its Oswego generating facility, located in Oswego County, New York. Normally under State regulation this facility would be required to burn fuel oil with a maximum sulfur content of 2.0 percent, by weight. Authority for such "special limitations" is found at § 225.2 of Title 6 of the Official Compilation of Codes, Rules and Regulations of the State of New York.

On July 20, 1976 (41 FR 29817) EPA approved a "special limitation" which allowed the use, until May 31, 1977, of 2.8 percent sulfur content fuel oil at units 1 through 5 at the Oswego generating facility. On April 24, 1978 (43 FR 17357) EPA approved a renewal until May 31, 1980 of this initial "special limitation." The State's current revision request asks for a renewal to expire three years from today. However, it should be noted that this request applies only to unit 5 of the Oswego generating facility.

This proposed revision to the New York SIP was announced in the **Federal Register** of December 16, 1980 (45 FR 82678), where it is described in detail. At that time EPA advised the public that comments would be accepted as to whether the proposed revision should be approved or disapproved. No comments were received.

Based on EPA's review of the State's technical support documents and hearing officer's report, and agreement with the State's conclusion that, if implemented, the proposed SIP revision would not be expected to cause or exacerbate contraventions of any national ambient air quality standard or applicable Prevention of Significant Deterioration increments, EPA finds this revision to the New York SIP consistent with the requirements of Section 110(a) of the Clean Air Act and EPA regulations found at 40 CFR Part 51. Accordingly, EPA approves this revision.

Furthermore, this action is being made effective immediately because it imposes no hardship on the affected sources, and no purpose would be served by delaying its effective date.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within sixty days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirments.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Pursuant to the provisions of 5 U.S.C. 605(b) I hereby certify that the attached rule will not have a significant economic impact on a substantial number of small entities. This action only approves state actions. It imposes no new requirements. Moreover, due to the nature of the federal-state relationship, federal inquiry into the economic reasonability of the state actions would serve no practical purpose and could well be improper. In addition, this action only applies to one facility.

Incorporation by reference of the State Implementation Plan for the State of New York was approved by the Director of the Federal Register on July 1, 1980.

(Secs. 110, 172, and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7502, and 7601))

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator, Environmental Protection Agency.

Title 40, Chapter 1, Subchapter C, Part 52, Code of Federal Regulations is amended as follows:

Subpart HH—New York

1. Section 52.1670, paragraph (c) is amended by adding a new subparagraph (c)(58) as follows:

§ 52.1670 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(58) Revision submitted on September 17, 1980 by the New York State Department of Environmental Conservation which grants a "special limitation" under 6 NYCRR Part 225. This "special limitation" relaxes to 2.8 percent, by weight, until three years from [insert publication date], the sulfur-in-fuel oil limitation applicable to unit 5 of Niagara Mohawk Power Corporation's Oswego generating facility, located in Oswego County.

[FR Doc. 81-8601 Filed 3-18-81; 8:45 am]

BILLING CODE 6560-38-M

---

40 CFR Part 52

[A-4-FRL 1777-3]

Approval and Promulgation of Implementation Plans; North Carolina: Approval of 1979 CO Revisions

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA is giving full approval to North Carolina's 1979 revisions for the Mecklenburg County carbon monoxide (CO) nonattainment area, which were conditionally approved on April 17, 1980 (45 FR 26038), since all the terms of the conditional approval have been met. The revisions provide for the attainment of the 8-hour carbon monoxide standard by 1987.

DATE: This action is effective April 20, 1981.

ADDRESSES: Copies of the materials submitted by North Carolina may be examined during normal business hours at the following locations:

Public Information Reference Unit, Environmental Protection Agency, 401 M Street S.W., Washington, D.C. 20460

Library, EPA Region IV, 345 Courtland Street N.E., Atlanta, Georgia 30365

The Office of the Federal Register, 1100 L Street N.W., Room 8401, Washington, D.C. 20005

FOR FURTHER INFORMATION CONTACT: Walter Bishop of the EPA Region IV, Air Programs Branch, 404/881-3043 (FTS 257-3043).

SUPPLEMENTARY INFORMATION: On April 17, 1980 (45 FR 26038), the Administrator granted an extension to December 1987 for the attainment of the 8-hour carbon monoxide standard in Mecklenburg County, North Carolina, and approved the 1979 revisions for the area on the condition that the State correct deficiencies in transportation related commitments, submit added detail and specific commitments for the vehicle inspection/maintenance (I/M) program required, and adopt a regulation providing for alternative analysis as required by Section 172(b)(11)(A) of the Clean Air Act.

On May 22, 1980, the State submitted revisions in the narrative of the Charlotte-Mecklenburg Air Quality Implementation Plan, a commitment from the North Carolina Department of Transportation to implement transportation control measures (TCM) contained in the plan, materials related to the evaluation and implementation of TCM, and an addition to Regulation 2H.0608 providing for alternative analysis of sources proposing to locate in areas where standards cannot be met by the end of 1982, i.e., areas qualifying for an attainment date extension. On July 1, 1980, the State submitted new legislation changing the implementation of I/M by merging it with the safety inspection program administered by the Department of Motor Vehicles. On August 19, 1980, the State submitted further revisions in the narrative of the plan, including an I/M schedule revised to meet legislative changes, a resolution of the Environmental Management Commission certifying to the Commissioner of Motor Vehicles the need for I/M in Mecklenburg County, and a letter from the Commissioner of Motor Vehicles acknowledging his statutory responsibility with regard to I/M.

On November 10, 1980 (45 FR 74515), the Agency described the materials submitted, with the exception of the alternative analysis regulation, indicated that they met the terms of the conditional approval, and proposed to give full approval to North Carolina's 1979 CO revisions. No comments were received in response to the notice of proposal.

The reader may refer to that notice and to the notice of conditional approval for a detailed justification of EPA's position that the revisions meet all the requirements of the Clean Air Act and EPA's implementing regulations and guidelines, and are approvable.

As for the alternative analysis regulation, which incorporates language of Section 172 of the Act, EPA does not feel that the failure to propose explicitly in the notice of November 10, 1980, to approve it is an obstacle to giving approval today since the State's adoption and submittal of the regulation was announced in the "Proposed Rules" section of the Federal Register on June 24, 1980 (45 FR 42339). Moreover, no one has expressed concern over this feature of the North Carolina 1979 revisions for CO. Accordingly, they are hereby approved. This action is effective April 20, 1981.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110 and 172 of the Clean Air Act (42 U.S.C. 7410 and 7502))

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of North Carolina was approved by the Director of the Federal Register on July 1, 1980.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart II—North Carolina

In § 52.1770, paragraph (c) is amended by adding subparagraph (24) as follows:

§ 52.1770 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(24) Corrections in Part D carbon monoxide revisions conditionally approved on April 17, 1980, submitted on May 22 (this submittal included Regulation 2H.0608(g)), July 1, and August 19, 1980, by the North Carolina Department of Natural Resources and Community Development.

BILLING CODE 6560-38-M

40 CFR Part 52

[A-2-FRL 1776-6]

Approval and Promulgation of Implementation Plans; Revision to the New York State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: On February 5, 1980 (45 FR 7803), the Environmental Protection Agency (EPA) promulgated conditional approval of the New York State Implementation Plan (SIP) for the Capital District, Rochester and Syracuse metropolitan areas with regard to its ability to meet requirements of Part D of the Clean Air Act. A similar notice for the Niagara Frontier area was published in the Federal Register on November 10, 1980 (45 FR 74472). These conditional approvals identified, among other corrective actions, the need to submit to EPA the criteria and procedures for making assessments of the consistency and conformity of the outputs of the transportation planning process with the SIP.

EPA received the required documentation to meet this condition under cover of a July 2, 1980 letter from the State and proposed its approval on September 15, 1980 (45 FR 60930). EPA is now taking action to finalize its proposed action. EPA is also incorporating the provision of the State's submission into the approved SIP and is revoking the applicable condition on its approval of the plan. Until all conditions are met, conditional approval of the SIP will continue.

EFFECTIVE DATE: This action is effective on March 19, 1981.

ADDRESSES: Copies of the State's submission are available for inspection during normal business hours at the following addresses:

Environmental Protection Agency, Air Programs Branch, Region II, 26 Federal Plaza, Room 1005, New York, New York 10278

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW, Washington, D.C. 20460

Copies of the State's submission are also available for inspection during normal business hours at the following address:

The Office of the Federal Register, 1100 L Street, NW, Room 8401, Washington, D.C. 20408

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Region II, 26 Federal Plaza, Room 1005, New York, New York 10278 (212) 264-2517.

SUPPLEMENTARY INFORMATION: On February 5, 1980 (45 FR 7803), the Environmental Protection Agency (EPA) promulgated conditional approval of the New York State Implementation Plan (SIP) for the Capital District, Rochester and Syracuse metropolitan areas with regard to its ability to meet the requirements of Part D of the Clean Air Act, as amended. A similar notice for the Niagara Frontier area was published on November 10, 1980 (45 FR 74472). Today's notice discusses one condition of EPA's approval of the plan. This condition required the State to submit to EPA, on or before July 1, 1980, criteria and procedures for making assessments of the consistency and conformity of the outputs of the transportation planning process with the SIP.

In response to this requirement, on July 2, 1980 the Commissioner of the New York State Department of Environmental Conservation submitted to EPA a document entitled, "Criteria and Procedures for Evaluating the Consistency/Conformity of Transportation Plans, Programs and Projects with the State Implementation Plan for Upstate Planning Areas."

EPA published its proposed approval of this submission in the September 15, 1980 issue of the Federal Register at 45 FR 60930. EPA found the State's criteria and procedures to be adequate for determining the consistency and conformity of the outputs of the transportation planning process with the SIP.

During the sixty day comment period following publication of the September 15, 1980 notice, EPA received no comments concerning its proposal.

Based upon its review of the submitted documents, and discussions with the affected agencies, EPA finds that the subject condition on its approval of the New York SIP for the Capital District, Rochester, Syracuse, and Niagara Frontier metropolitan areas has been fully met. Therefore, EPA is incorporating the State's submission into the SIP and revoking the applicable condition.

This action is being made effective immediately inasmuch as it provides no additional burden upon the affected parties. Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within sixty days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110, 172, 301, Clean Air Act, as amended (42 U.S.C. 7410, 7502 and 7601))

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator, Environmental Protection Agency.

Note.—Incorporation by reference of the State Implementation Plan for the State of New York was approved by the Director of the Federal Register on July 1, 1980.

Title 40, Chapter I, Subchapter C, Part 52, Code of Federal Regulation is amended as follows:

Subpart HH—New York

1. Section 52.1670 is amended by adding a new paragraph (c)(57) as follows:

§ 52.1670 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(57) A supplemental submittal, dated July 2, 1980, from the New York State Department of Environmental Conservation which included criteria and procedures for making assessments of the consistency and conformity of the outputs of the transportation planning process with the SIP.

§ 52.1674 [Amended]

2. Section 52.1674 is amended by removing and reserving paragraph (b) in its entirety.

[FR Doc. 81-8404 Filed 3-18-81; 8:45 am]

BILLING CODE 6560-38-M

---

40 CFR Part 81

[A-7-FRL 1777-1]

Designation of Areas for Air Quality Planning Purposes: State of Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: This document redesignates several areas under Section 107 of the Clean Air Act. Linn County, Iowa (Cedar Rapids), is redesignated from nonattainment to attainment with respect to the ozone air quality standards. Ames, Iowa is redesignated from unclassifiable to attainment with

respect to the total suspended particulate ambient air quality standards. In addition, nine rural counties are redesignated from unclassifiable to attainment with respect to the ozone air quality standards. A nonattainment designation means that air pollution levels in a certain area are above the ambient air quality standard and that the area is required by Part D of the Clean Air Act to develop a plan to attain the standards. An attainment designation means that air pollution levels are better than the standards while an unclassifiable designation means that the sufficient information does not exist to make a determination.

EFFECTIVE DATE: March 19, 1981.

ADDRESSES: Copies of the state submitted information and the EPA prepared evaluation report are available at the following addresses: Environmental Protection Agency, 324 East 11th Street, Kansas City, Missouri; Environmental Protection Agency, Public Information Reference Unit, Room 2922, 401 M Street SW., Washington, D.C., and the Iowa Department of Environmental Quality, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa.

FOR FURTHER INFORMATION CONTACT: Daniel J. Wheeler, at 816–374–3791.

SUPPLEMENTARY INFORMATION: Section 107 of the Clean Air Act requires all areas to be designated as attaining the National Ambient Air Quality Standards (NAAQS), as not attaining the NAAQS or as being unclassifiable with respect to attainment for each pollutant for which there is a standard. Attainment/nonattainment designations are recommended by the state and approved or revised as necessary by EPA.

The original designations for the State of Iowa were published in the **Federal Register** March 3, 1978 (43 FR 8962), and were codified in the Code of Federal Regulations at 40 CFR 81.316. On June 22, 1979 the state submitted a number of redesignation requests.

The state has requested that the City of Ames be redesignated from unclassifiable to attainment. Ames was originally designated unclassifiable because air quality data did not present a clear picture of existing particulate levels. Since that time, air quality sampling has shown no exceedences of the 24 hour secondary particulate standard for over two years. These monitoring results meet EPA's requirements for demonstrating attainment in Ames.

The counties of Boone, Clinton, Harrison, Jasper, Marshall and Story were designated unclassifiable for ozone due to the lack of ozone monitoring and the fact that they were downwind from ozone nonattainment areas. On March 6, 1980 (45 FR 14509) EPA revised the designations of three of the nonattainment areas based on a change in the ozone standard (see 44 FR 8220, February 8, 1979). Since the upwind counties that were designated nonattainment are no longer designated nonattainment the State requests the downwind counties be designated attainment. Most of these counties are related to counties that have been redesignated attainment for ozone. One, Clinton County is near Scott County which is now designated unclassifiable. Monitoring at one location in Scott County, near the Clinton County line, does not show violations of the ozone standard. There is no evidence that Clinton County exceeds the standard or has the potential to exceed the standard. In the absence of air quality monitoring data to the contrary, EPA agrees that these six counties can be designated attainment.

On October 1, 1980, the state requested that Linn County (Cedar Rapids) be redesignated from nonattainment to attainment for ozone. At the same time the state requested that Buchanan, Delaware and Jones Counties be redesignated from unclassifiable to attainment for ozone.

Linn County had been designated nonattainment based on exceedences of the ozone standard at a monitor in Cedar Rapids. The state has submitted air quality data showing that the air quality standard for ozone is now attained at this site which had recorded violations for the standard. There have not been any values recorded in excess of the ozone standard for the last two years. The standard was exceeded only on two days in 1978. Since the designation of the other three counties was based on the Linn County (Cedar Rapids) designation, they are also requested to be redesignated to attainment.

The redesignations of the City of Ames and of Boone, Clinton, Harrison, Jasper, Marshall and Story Counties were proposed on November 6, 1980 (45 FR 73702). The redesignations of Linn, Buchanan, Delaware and Jones Counties were proposed on November 18, 1980 (45 FR 76210). No comments were received on either proposal.

The Administrator's decision to approve or revise proposed designations is based on any comments received and a determination of whether or not the designations meet the requirements of the Clean Air Act and satisfy the requirements stated in the March 3, 1978 and February 8, 1979 rulemakings.

Since there were no public comments, the Administrator's decision is based solely on air quality data submitted by the state. The Administrator finds that the requirements for an attainment designation are met in all cases and all of the subject areas are hereby redesignated to attainment.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

This notice is issued under the authority of Section 107 of the Clean Air Act, as amended (42 U.S.C. 7407).

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Part 81 of Chapter I, Title 40 of the Code of the Federal Regulations is amended as follows:

Subpart C—Section 107 Attainment Status Designations

§ 81.316 [Amended]

In § 81.316 Iowa, the Table "Iowa TSP" is amended by removing the following:

City of Ames • • • X • • •
Remainder of Story County • • • X.

2. In § 81.316 Iowa, the table "Iowa O_x" is amended by removing the line reading:

Linn County • • • X • • •;

and by revising the words "Remainder of State" to read "Entire State."

[FR Doc. 81-8005 Filed 3-18-81; 8:45 am]

BILLING CODE 6560-26-M

---

40 CFR Part 205

[NH FRL 1782-7]

Noise Emission Standards: Medium and Heavy Trucks and Truck Mounted Solid Waste Compactors

AGENCY: Environmental Protection Agency.

ACTION: Request for additional comments; final rule.

SUMMARY: The Environmental Protection Agency is requesting comments on whether or not to rescind the 80 dB noise standard regulation for heavy and medium trucks. The EPA is seeking additional comments because of the renewed request for rescission of this standard since EPA published the deferrals of effective dates.

DATE: EPA will consider all written comments on whether or not to rescind the 80 dB regulation for medium, and

heavy trucks, which are received before 4:30 p.m., April 24, 1981.

ADDRESSES: Written comments to the docket should be mailed to: Director, Standards and Regulations Division, Attention: ONAC Docket 81-02 (Medium and Heavy Trucks), ANR-490, U.S. Environmental Protection Agency, Washington, D.C. 20460. Copies of the related correspondence and other supporting documents are available for public inspection between the hours of 8:00 am and 4:00 pm at the Central Docket Section of the Environmental Protection Agency, West Tower, Gallery 1, 401 M Street, SW., Washington, D.C. 20460. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services.

FOR FURTHER INFORMATION CONTACT: Timothy Barry, Program Manager, Standards and Regulations Division, (ANR-490), U.S. Environmental Protection Agency, Washington, D.C. 20460; or phone (202) 557-2710.

SUPPLEMENTARY INFORMATION: On January 27, 1981 (46 FR 8497) the U.S. Environmental Protection Agency, (EPA) deferred the effective date of the 80 decibel (dB) noise emission regulation for medium and heavy trucks from January 1, 1982 to January 1, 1983. The action was taken in response to petitions submitted by the International Harvester Company and Mack Trucks, Incorporated requesting reconsideration of that regulation. The purpose of the Agency action was to provide temporary relief to the truck manufacturing industry from expenditures otherwise needed to bring their medium and heavy trucks into compliance with the 1982, 80 dB regulation. The basis for the action was the recent downturn in the economic condition of the truck manufacturing industry and an unforeseen increase in the demand for medium diesel trucks, which are the most costly to quiet.

Because the 76 dB noise emission regulation for truck-mounted solid waste compactors is related to the 80 dB level for truck chassis, the effective date for the 76 dB compactor regulation was also deferred, from July 1, 1982 to July 1, 1983.

Since publication of the deferrals in effective dates, EPA has received renewed requests to rescind the 80 dB regulation for medium and heavy trucks. This notice is to request public comment on whether or not the Agency should rescind the 80 dB noise regulation for medium and heavy trucks.

Dated: March 13, 1981.

Edward F. Tuerk,

Acting Assistant Administrator for Air, Noise and Radiation.

[FR Doc. 81-8095 Filed 3-18-81; 8:45 am]

BILLING CODE 6560-27-M

GENERAL SERVICES ADMINISTRATION

41 CFR Parts 1-3, 1-11 and 1-16

[FPR Amdt. 215]

Exemption From State and Local Taxes

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: The Federal Procurement Regulations are amended to clarify and simplify requirements for asserting immunity or an exemption from State and local taxes and to assume responsibility for prescribing policies and procedures on the use and issuance of tax exemption certificate forms. The changes are based on recommendations made by the General Accounting Office (GAO) in its March 31, 1977, letter B-184165 and proposed changes to Title 7, Section 28, of the GAO Policy and Procedures Manual for the Guidance of Federal Agencies. The intended effect is to reduce the amount of time and paperwork involved in handling tax immunity or exemptions on Government procurements and to centralize the responsibility for prescribing tax exemption and immunity policies, procedures, and forms in the General Services Administration (GSA).

EFFECTIVE DATE: May 1, 1981.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Federal Procurement Regulations Directorate, Office of Acquisition Policy (703-557-8947).

SUPPLEMENTARY INFORMATION: The significant changes introduced in this amendment are as follows:

(1) In the interest of economy and reduced paperwork, agency heads or their authorized representatives are given discretionary authority to decline to assert immunity or an exemption from State and local taxes on imprest fund purchases. If immunity or an exemption is asserted on such purchases, it is to be limited to transactions where the tax exceeds $10.

(2) On other than imprest fund transactions, immunity or exemption from State and local taxes is not to be asserted unless the tax exceeds $10.

(3) The principle is established that the Government need only identify itself as the vendee to assert its immunity or an exemption from State and local taxes. The use of normal transaction documents to provide this identification, rather than the special tax exemption certificate form, is emphasized.

(4) Standard Form 1094, U.S. Tax Exemption Certificate, formerly prescribed by GAO, has been revised and is now prescribed by GSA in the Federal Procurement Regulations. The form is illustrated, and procedures for asserting immunity or exemptions from State and local taxes are fully described in revised coverage. Supplies of Standard Form 1094 will be stocked in GSA Supply Distribution Facilities. Requests for supplies of the form should be submitted in FEDSTRIP/MILSTRIP format. The request should reference NSN 7450-00-634-4238.

PART 1-3—PROCUREMENT BY NEGOTIATION

The table of contents for Part 1-3 is amended by revising the following entry:

1-3.604-7 State and local taxes.

Subpart 1-3.6—Small Purchases

Section 1-3.604-7 is revised to read as follows:

§ 1-3.604-7 State and local taxes.

Government purchases are exempt from State and local sales and use taxes as a general rule (see § 1-11.301). However, it is recognized that the assertion of immunity or an exemption may be impracticable on many small cash purchases made with imprest funds. Accordingly, on imprest fund purchases which are made in accordance with the provisions of § 1-3.604-5, State and local sales and use taxes may be paid at the discretion of agency heads or their authorized representatives for this purpose. When immunity or an exemption is claimed, documentary evidence as prescribed in § 1-11.502-1 shall be provided to vendors if necessary to establish the Government's exemption or immunity from State or local taxes. In accordance with § 1-11.502-2(b), evidence of immunity or an exemption shall not be issued if the amount of a particular tax on any one transaction (purchase, invoice, aggregate billing, or payment for multiple purchases) is $10 or less.

PART 1-11—FEDERAL, STATE, AND LOCAL TAXES

The table of contents for Part 1-11 is amended by adding or revising the

following entries and removing § 1-11.302 as follows:

1-11.300 Scope of subpart.
1-11.301 Policy.
1-11.302 [Removed]

Subpart 1-11.3—State and Local Taxes

Sections 1-11.301 and 1-11.302 are redesignated as §§ 1-11.300 and 1-11.301 and are revised to read as follows:

§ 1-11.300 Scope of subpart.

(a) This subpart sets forth policies regarding the immunity or exemption of Government procurements from State and local sales and use taxes.

(b) As used in this subpart, the term "State and local taxes" includes taxes of the States, the District of Columbia, the possessions of the United States, Puerto Rico, and political subdivisions thereof.

§ 1-11.301 Policy.

(a) As a general rule, purchases made by the Government itself are immune or exempt from State and local sales and use taxes. However, whether purchases made by the Government itself are actually immune or exempt from these taxes requires both an analysis of the constitutional principles of sovereign immunity and the provisions of the particular State and local law involved. The Government is constitutionally immune from State and local taxes, the legal incidence of which is on the vendee. In cases where the legal incidence of State and local taxes is on the vendor, the Government may be exempt if State or local law or regulations so provide. Personal and real property are immune from State and local property taxes when title is vested in the Government and the property is both owned and possessed by the Government. In all cases, the immunity or exemption shall be used to the fullest extent possible by providing adequate evidence that an agency of the Government is the purchaser of the goods or services or the owner of the property and is thus not subject to the taxes. However, in the interest of economy and reduced paperwork, §§ 1-3.604-7 and 1-11.502-2(b) limit the assertion of immunity or an exemption to transactions on which a particular State or local tax exceeds $10.

(b) When purchases are not made by the Government itself, but by a prime contractor of the Government or by a subcontractor under a prime contract, the right to an exemption of the transaction from a sales or use tax may not rest on the Government's immunity from direct taxation by States and localities. It may rest instead on provisions of the particular State or local law involved or, in some cases, the transaction may not in fact be expressly exempt from the tax. Similarly, Government-owned property in the possession of a contractor or subcontractor on tax day may give rise to situations where States or localities may have the right to tax the contractor's or subcontractor's possession of, interest in, or use of that property.

(c) Whenever there is any doubt as to the availability of the Government's immunity or exemption from any State or local tax, the matter shall be handled in accordance with § 1-11.000(b).

(d) The types of evidence of tax immunity or exemption which may be employed are identified in § 1-11.502-1. Usually this evidence is provided by documents created in the normal course of transacting purchases, and no additional evidence, such as a tax exemption certificate, will be necessary.

§ 1-11.302 [Removed]

Subpart 1-11.5—Tax Exemption Forms

1. Section 1-11.501(a) is revised to read as follows:

§ 1-11.501 Federal excise tax exemption forms.

(a) Unless the contract requires otherwise, evidence of exemption shall not be issued unless the amount of taxes on any one transaction (purchase, invoice, aggregate billing, or payment for multiple purchases) exceeds $10.

* * * * *

2. Sections 1-11.502-1 and 1-11.502-2 are revised to read as follows:

§ 1-11.502-1 Types of evidence of immunity or exemption.

Evidence appropriate to establish immunity or exemption from State or local taxes will vary depending upon the grounds of immunity or exemption claimed, the parties to the transaction, and the requirements of the taxing jurisdiction. Such evidence includes but is not limited to the following:

(a) Copies of purchase orders, shipping documents, credit card imprinted sales slips, paid or acknowledged invoices, and similar documents created in due course which identify an agency or instrumentality of the U.S. Government as the vendee;

(b) A copy of the contract or applicable portion thereof;

(c) A State or local form indicating that supplies or services are for the exclusive use of the U.S. Government;

(d) Any other State or locally required form, certificate, or document to establish a general or specific exemption; or

(e) Standard Form 1094, U.S. Tax Exemption Certificate. (Use of this form is appropriate when no other evidence is available and the amount of the tax is large enough to justify its completion.)

§ 1-11.502-2 When evidence of immunity or exemption is to be furnished.

(a) The general rules for asserting immunity or exemption from State and local taxes are outlined in the policy statements contained in § 1-11.301. Special rules for asserting tax immunity or exemption on imprest fund purchases are discussed in § 1-3.604-7.

(b) To reduce uneconomical paperwork, immunity or exemptions shall not be asserted on transactions on which a particular State or local tax is $10 or less. For this purpose, a transaction is defined as a purchase, invoice, aggregate billing, or payment for multiple purchases.

(c) If a reasonable basis to sustain immunity or an exemption exists, and the $10 tax threshold as discussed in paragraph (b) of this § 1-11.502-2 is exceeded, contractors, including vendors, will be furnished evidence of imminity or an exemption under:

(1) Contracts containing the clauses prescribed in either §§ 1-11.401-1 or 1-11.401-2 in accordance with the terms of those clauses;

(2) Cost-reimbursement type contracts; and

(3) Contracts or purchase orders which contain no provision regarding taxes if the contractor warrants that the contract price does not include the tax, or the contractor consents to a reduction in the contract price if the evidence of immunity or an exemption is accepted by the taxing jurisdiction.

(d) In case of disagreement as to whether a reasonable basis exists that would sustain the immunity or exemption of a transaction, the matter should be resolved in accordance with § 1-11.000(b).

PART 1-16—PROCUREMENT FORMS

The table of contents for Part 1-16 is amended to add new entries as follows:

1-16.807 Standard Form 1094, U.S. Tax Exemption Certificate, and Standard Form 1094-A, Tax Exemption Certificates Accountability Record.
1-16.901-1094 Standard Form 1094, U.S. Tax Exemption Certificate.
1-16.901-1094-A Standard Form 1094-A, Tax Exemption Certificates Accountability Record.

Subpart 1-16.8—Miscellaneous Forms

Section 1-16.807 is added as follows:

§ 1-16.807 Standard Form 1094, U.S. Tax Exemption Certificate, and Standard Form 1094-A, Tax Exemption Certificates Accountability Record.

(a) A signed copy of Standard Form 1094, U.S. Tax Exemption Certificate, provides a means of asserting the Government's immunity or exemption from State or local taxes whenever other evidence of immunity or an exemption is not readily available (see § 1-11.502-1). General procedural instructions governing the use of Standard Form 1094 are printed on the form. Normally, the form will be signed by the contracting officer, his or her representative, or an authorized certifying or disbursing officer.

(b) Each agency shall be responsible for providing adequate safeguards to ensure proper control and use of Standard Form 1094. Standard Form 1094-A, Tax Exemption Certificates Accountability Record, which accompanies Standard Form 1094, shall be used to control and provide a usage record for the U.S. Tax Exemption Certificates.

Subpart 1-16.9—Illustrations of Forms

Sections 1-16.901-1094 and 1-16.901-1094-A are added as follows:

BILLING CODE 6820-61-M

INSTRUCTIONS

1. This form will be used to establish the Government's exemption or immunity from State or Local taxes whenever no other evidence is available.

2. This form shall NOT be used for:
(a) Purchases of quarters or subsistence made by employees in travel status.
(b) Expenses incident to use of a privately owned motor vehicle for which a mileage allowance has been authorized, or
(c) Merchandise purchased which is subject only to Federal Tax.

3. If the spaces provided on the face of this form are inadequate, attach a separate statement containing the required information.

4. If both State and Local taxes are involved, use a separate form for each tax. The certificate will be provided to the vendor when the prices exclude State or Local tax.

5. The serial number of each certificate prepared will be shown on the payment voucher.

THE FRAUDULENT USE OF THIS CERTIFICATE FOR THE PURPOSE OF OBTAINING EXEMPTION FROM OR ADJUSTMENT OF TAXES IS PROHIBITED.

[FPMR Amdt. E-245]

Procurement Sources and Programs; Exceptions to Mandatory Use of Federal Supply Schedule Contracts

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation provides guidelines for procuring activities to follow when reporting to GSA the purchase of identical products from non-contract sources at delivered prices that are lower than the prices provided by multiple award schedule contracts. The information being requested will enable GSA to more readily evaluate purchases made under the exceptions provision. The addition of this information will update the FPMR accordingly.

EFFECTIVE DATE: March 19, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert F. Welsh, Acting Director, Regulations Management Division (FFY) (703-557-7970).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this regulation will not impose unnecessary burdens on the economy or on individuals and, therefore, is not significant for the purposes of Executive Order 12044.

Section 101-26.401-4(f)(3) is revised to read as follows:

§ 101-26.401-4 Exceptions to mandatory use.

* * * * *

(f) * * *

(3) When identical products are purchased from noncontract sources at delivered prices that are lower than the prices provided by multiple award schedule contracts, the following information shall be furnished to the General Services Administration (FCC), Washington, DC 20406, when the order is issued:

(i) Copy of the purchase order;

(ii) Identification of the Federal Supply Schedule;

(iii) Name of the schedule contractor;

(iv) Schedule contractor number;

(v) Schedule contract price;

(vi) Schedule special item number (SIN); and

(vii) Manufacturer's model and/or part number.

Documentation of paragraphs (ii) through (vii) of this section may be provided by an informal means, such as attachment(s) to the purchase order, annotation directly on the purchase order, or a combination of both. Interagency Report Control Number 0282-GSA-AR has been assigned to this report in accordance with FPMR 101-11.11.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: February 20, 1981.

Ray Kline,

Acting Administrator of General Services.

DATES: Effective date: March 1, 1981. Expiration date: February 28, 1983.

FOR FURTHER INFORMATION CONTACT: John W. Sandfort, Chief, Reports and Procedures Branch, Office of Transportation Audits (202-275-0064).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this regulation will not impose unnecessary burdens on the economy or on individuals and, therefore, is not significant for the purposes of Executive Order 12044.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

In 41 CFR Chapter 101, this temporary regulation is listed in the appendix at the end of Subchapter G.

Note.—Supplement 1 to FPMR Temporary Regulation G-40 is filed with the original document, and its text does not appear in this volume.

Ray Kline,

Acting Administrator of General Services.

BILLING CODE 6820-AM-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Part 173

[Docket No. HM-106G; Amdt. No. 173-147]

Ammonium Hydroxide; Shippers General Requirements for Shipments and Packagings

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: This final rule amends the Hazardous Materials Regulations to authorize the use of non-specification portable tanks and cargo tanks for the shipment of ammonium hydroxide containing no more than 30 percent ammonia by weight under specified conditions.

On January 8, 1981, the MTB published a notice of proposed rulemaking under Docket HM-106-G, Notice No. 80-9 (46 FR 2126), which proposed numerous amendments, all of which would relieve some of the current burden of restrictive regulation. Because of the urgent need for aqua ammonia by farmers for their crops, MTB is issuing this amendment in an expedited manner to permit the transportation of this important agricultural product in portable tanks and cargo tanks not presently authorized by the regulations. MTB believes that aqua ammonia, containing no more than 30 percent ammonia, does not pose a risk sufficient to warrant required use of specification portable tanks and cargo tanks when transported in motor vehicles that are primarily operated in local distribution services.

EFFECTIVE DATE: This amendment is effective June 1, 1981; however, compliance with the regulations as amended herein is authorized immediately.

ADDRESS: Copies of supporting documents, Regulatory Evaluation and Environmental Assessment are available for inspection and reproduction at the following address: Dockets Branch, Department of Transportation, Research and Special Programs Administration, Materials Transportation Bureau, Room 8426, 400 7th Street, S.W., Washington, D.C. 20590, (202) 426-3148.

FOR FURTHER INFORMATION CONTACT: Darrell L. Raines, Chief, Exemptions and Regulations Termination Branch, Office of Hazardous Materials Regulation,

Materials Transportation Bureau, Washington, D.C. 20590, (202) 472-2728.

Delay in publication of this amendment would be costly to fertilizer companies and farmers, and would result in lower crop yields and higher costs to consumers. Therefore, MTB believes this rulemaking responds to an emergency situation and is exempt from the President's Memorandum on Postponement of Pending Regulations dated January 29, 1981, and may be issued under Executive Order 12291.

In consideration of the foregoing, 49 CFR Part 173 is revised by adding paragraph (a)(36) to § 173.245 to read:

§ 173.245 Corrosive liquids not specifically provided for.

(a) * * *

(36) Ammonium hydroxide containing no more than 30 percent ammonia by weight may be transported by motor vehicle in non-specification cargo and portable tanks that meet the requirements of § 173.24.

* * * * *

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, Appendix A to Part 1)

Note.—The Materials Transportation Bureau has determined that this document will not result in a "major rule" under the terms Executive Order 12291 and is not a significant regulation under DOT's regulatory policy and procedures (44 FR 11034), nor require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321) et seq.)) A regulatory evaluation and an environmental assessment are available for review in the docket.

Issued at Washington, D.C., on March 12, 1981.

L. D. Santman,

Director, Materials Transportation Bureau.

[FR Doc. 81-8483 Filed 3-18-81; 8:45 am]

BILLING CODE 4910-60-M

Proposed Rules

Federal Register
Vol. 46, No. 53
Thursday, March 19, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Issuance of Quarterly Report on Proposed Rules

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of quarterly report.

SUMMARY: The Nuclear Regulatory Commission has issued the January 31, 1981, Quarterly Report on Proposed Rules. The report, which is a quarterly summary of proposed rules that are pending final action, is issued to provide the public with information regarding NRC's rulemaking activities.

ADDRESSES: A copy of this report, designated NRC Status of Proposed Rules—January 31, 1981, is available for inspection and copying at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC

Requests for single copies of the report, or a request to be placed on an automatic distribution list for single copies of future reports, should be made in writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

FOR FURTHER INFORMATION CONTACT: John Philips, Chief, Rules and Procedures Branch, Office of Administration, Telephone 301–492–7086.

Dated at Bethesda, Md., this 13th day of March 1981.

For the Nuclear Regulatory Commission.

John Philips,

Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration.

[FR Doc. 81-8522 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

10 CFR Part 212

Tertiary Incentive Program

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Advance Notice of Proposed Rulemaking.

SUMMARY: The Economic Regulatory Administration (ERA) is giving notice that it intends to issue a Notice of Proposed Rulemaking to rescind the Tertiary Incentive Program (10 CFR § 212.78) with respect to any allowed expenses that have not been incurred and paid as of [March 19, 1981]. This Notice is intended to inform qualified producers that they cannot rely on 10 CFR § 212.78 to provide for recoupment of allowed expenses that are incurred or paid after March 19, 1981.

DATE: Proposed effective date of the rule to be proposed: March 19, 1981.

FOR FURTHER INFORMATION CONTACT: William Funk (Office of General Counsel), U.S. Department of Energy, Room 6A–099 (GC–12), 1000 Independence Avenue, S.W., Washington, D.C. 20585, (212) 252–6736.

SUPPLEMENTARY INFORMATION: The tertiary incentive program was adopted, effective August 21, 1979, to provide start-up financing for tertiary recovery projects. While moderately successful during its first year of existence, in the past couple of months, especially since the President's decontrol Executive Order (E.O. 12287, 46 FR 9909, January 30, 1981), the amount of recoupable allowed expenses reported to ERA has increased phenomenally. At the same time, refiners have informed DOE that the volume of crude oil being recertified as tertiary incentive oil has increased beyond their greatest expectations.

ERA has concluded that continuation of the tertiary incentive program beyond March 19, 1981 will not meaningfully increase the production of crude oil, but will likely result in large amounts of funds expended on behalf of future production being subsidized by refiners through recertification of previously sold price-controlled crude oil. This conclusion is based upon our belief that tertiary projects which this program was designed to enhance are most likely already to have been certified and appropriate expenses incurred and paid. Any project that has waited so long to become certified and any expenses that have not already been incurred and paid are not likely to need the benefits of the tertiary incentive program.

In light of the above, ERA is giving notice hereby that it intends to eliminate the ability to recoup tertiary expenses pursuant to 10 CFR § 212.78 with respect to any expenses not already incurred and paid as of March 19, 1981. A Notice of Proposed Rulemaking formally proposing this regulatory change will be published in the near future.

Issued in Washington, D.C., on March 17, 1981.

Barton R. House,

Acting Administrator, Economic Regulatory Administration.

BILLING CODE 6450-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 31

Withholding Exemption Certificates; Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In the Rules and Regulations portion of this **Federal Register**, the Internal Revenue Service is issuing temporary employment tax regulations that relate to submission of certain withholding certificates. The text of those temporary regulations also serves as the comment document for this proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by May 18, 1981. The amendments to the final regulations are proposed to be effective for withholding exemption certificates furnished by the employee or the employer after the date which is 30 days after publication of a Treasury decision in the **Federal Register**.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR–50–81), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:
Barry L. Wold of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3459).

SUPPLEMENTARY INFORMATION:

Explanation

The temporary regulations in the Rules and Regulations portion of this issue of the Federal Register add a new Part 37 to Title 26 of the Code of Federal Regulations. The final regulations, which this document proposes be based on those temporary regulations, would relate to submission to the Internal Revenue Service of certain employee withholding exemption certificates and would be incorporated as a new paragraph (g) of § 31.3402(f)(2)-1 of Part 31 of Title 26 in place of that paragraph (g) which was deleted by the Treasury decision which adopted the temporary regulations. For the text of the temporary regulations, see FR Doc. 81-8544 (T.D. 7772) published in the Rules and Regulations portion of this issue of the Federal Register. The preamble to the temporary regulations explains the addition to the regulations.

These regulations are proposed to be issued under the authority contained in section 7805 of the Internal Revenue Code (26 U.S.C. 7805; 68A Stat. 917).

Regulatory Flexibility Act

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

William E. Williams,

Acting Commissioner of Internal Revenue.

[AS-FRL 1782-5]

Withdrawal of Proposed Regulations

AGENCY: Environmental Protection Agency.

ACTION: Withdrawal of proposed rules.

SUMMARY: The Environmental Protection Agency has identified a number of regulations which were proposed before January 1, 1979 and which the Agency does not presently intend to promulgate. Accordingly, EPA is withdrawing these proposals. Some of these regulations may be reproposed at a later date. The regulations were proposed under the Safe Drinking Water Act, Clean Water Act and Atomic Energy Act. These actions are being taken to inform the public of the status of these proposals.

FOR FURTHER INFORMATION CONTACT:
Susan G. Lepow, Assistant General Counsel, Water and Solid Waste Division, Office of General Counsel, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460 (202) 426-4497.

SUPPLEMENTARY INFORMATION: The following proposed regulations are withdrawn.

BILLING CODE 6560-26-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 67

[CC Docket No. 80-286]

Federal-State Joint Board on Jurisdictional Separations; Denial of Petitions

AGENCY: Federal Communications Commission.

ACTION: Memorandum opinion and order denying petitions.

SUMMARY: The Joint Board denied Petitions requesting that it reconsider its previous decision to employ notice and comment procedures and instead mandate discovery and oral evidentiary hearings because the requested procedures are not required as a matter of law and are not otherwise warranted at this point in the proceeding. The Joint Board will proceed pursuant to notice and comment procedures and consider requests for discovery and evidentiary hearings in particular areas at a later date when the issues in this proceeding have been more specifically delineated.

DATE: This action is effective March 13, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Claudia Pabo, Policy & Program Planning Division, Common Carrier Bureau (202–632–9342).

Memorandum Opinion and Order

Adopted: February 23, 1981

Released: March 13, 1981.

In the matter of amendment of Part 67 of the Commission's rules and establishment of a Joint Board.

By the Federal-State Joint Board:

I. Introduction

1. On June 11, 1980, the Commission instituted this proceeding to amend Part 67 of the Commission's Rules involving jurisdictional separations and established a Federal-State Joint Board to develop the relevant revisions pursuant to Section 410(c) of the Communications Act, as amended. *Amendment of Part 67 of the Commission's Rules and Establishment of a Joint Board,* CC Docket No. 80–286, 78 FCC 2d 837 (1980). In establishing the Joint Board, the Commission noted that some participants in the *MTS–WATS Market Structure Inquiry,* CC Docket No. 78–72, which to establish procedural ground rules for the operation of the Joint Board. The Commission declined to do this, noting that previous Joint Boards had been allowed to establish their own procedures adopted by the Joint Board will not comport with all applicable rules of this Commission and requirements of administrative due process." *Id.* at 846.

2. The Joint Board adopted a procedural order on November 12, 1980, (45 FR 82281) stating that it would "in general attempt to follow the Commission's Rules and Regulations pertaining to Rule Making" set out in Sections 1.1 to 1.120 and 1.399 to 1.430 of the Commission's Rules since the purpose of this preceeding was to amend Part 67 of the Rules. *Amendment of Part 67 of the Commission's Rules and Establishment of a Joint Board,* CC Docket No. 80–286, FCC 80–692, released December 5, 1980. On December 18, 1980, United States Transmission Systems, Inc. (USTS) filed a Petition for Reconsideration of this action with the Joint Board.[1] Southern Pacific Communications Company (SPCC) and MCI Telecommunications Corporation (MCI) also filed Petitions for Reconsideration with the Joint Board on January 5, 1981. The American Telephone and Telegraph Company (AT&T) filed a Response to the USTS Petition on January 9, 1981, and a consolidated Response to the SPCC and MCI Petition on January 19, 1981 GTE Service Corporation (GTE) and the United States Independent Telephone Association (USITA) also filed Responses to the USTS, SPCC and MCI Petitions for Reconsideration on January

[1] The USTS Petition was addressed to the Commission, but USTS filed an Erratum on January 6, 1981 indicating that it meant to direct its filing to the Joint Board.

21, 1981 respectively.[2] USTS also filed a Reply and a Further Reply.

II. Summary of the Pleadings

3. In their Petitions for Reconsiderations, USTS, SPCC and MCI challenged the Joint Board's decision to proceed pursuant to the Sections of the Commission's Rules governing informal notice and comment rulemaking proceedings, and sought an opportunity for discovery and oral evidentiary hearings pursuant to Section 1.201 *et seq.* of the Commission's Rules. USTS argued that in the absence of such procedures it would not be able to obtain necessary information concerning AT&T's implementation of the present separations procedures. In particular, USTS argued that the differences in the type of local interconnection provided to the specialized common carriers and AT&T Long Lines must be taken into consideration in arriving at changes in the separations procedures—something which USTS believed would be impossible in the absence of detailed information concerning current AT&T implementation of those procedures.

4. SPCC criticized the Joint Board for establishing procedural ground rules without giving the parties notice and an opportunity to comment, claiming that this constituted a violation of their due process rights. SPCC argued that this proceeding involves factual issues in addition to major policy questions. Specifically, SPCC took the position that it needs to know how the separations process is currently administered by AT&T before it can develop an informed position on possible changes. Thus, it argued that discovery and oral hearings were necessary in order to elicit the relevant information which SPCC stated was almost exclusively within the control of AT&T, an interested party to the proceeding. SPCC pointed out that the federal courts have embraced procedures in excess of notice and comment in informal rulemaking proceedings when the following factors were present: (1) the subject matter was of great substantive importance, highly complex and not readily subject to proper analysis under informal rulemaking procedures; (2) the proceeding was quasi-judicial in character, exceptionally affecting particular parties; and (3) relevant information was subject to the control of one party. SPCC argued that all three of these factors are present in this proceeding, noting that the Joint Board will determine the magnitude of local access charges to be paid by SPCC. Assuming that discovery and evidentiary hearing procedures were not strictly required as a matter of law, SPCC asked that the Joint Board exercise its discretion to adopt these procedures. SPCC also emphasized that it did not wish to impede or delay the work of the Joint Board by its request for evidentiary procedures.

5. MCI argued that the language of section 410 indicates a Congressional intent that Joint Board proceedings be evidentiary in nature. In support of this contention, MCI pointed out that Section 410(a) of the Act specifies that Joint Boards, "shall have all the jurisdiction and powers conferred by law upon an examiner * * *." It recognized that the Ozark Plan for jurisdictional separations was adopted without evidentiary hearings, but distinguished that situation on the ground that no controverted issues of material fact were involved. It also noted that the Ozark Plan was a compromise measure endorsed by nearly all of the active parties to the proceeding which led to its promulgation. MCI took the position that one of the principal issues in this proceeding involves the development of separations procedures which take into account the quantitative cost differences in the local interconnection provided to the specialized common carriers and AT&T Long Lines. It argued that the need for evidentiary hearings on this point is intensified by the proposal in the Second Supplemental Notice in the *MTS/WATS Market Structure Inquiry* to apply the results of this proceeding to determine the access charges imposed on the specialized carriers. According to MCI this involves rate prescription pursuant to Section 205 of the Act. MCI also noted that in Docket No. 18128, *AT&T Private Line Ratemaking Principles*, the Commission rejected relative use methodologies similar to those employed in the present Separations Manual after evidentiary hearings, and argued that it would be improper for the Commission to decide to employ relative use principles in interstate ratemaking on the basis of less rigorous procedures than those employed in Docket No. 18128. MCI also stressed that the need for an evidentiary hearing was particularly acute where, as in this situation, most of the critical facts are in the exclusive control of one of the parties in an adversary proceeding.

6. AT&T opposed the requests for discovery and evidentiary hearings by USTS, SPCC and MCI. It argued that none of the parties had cited authority to the effect that such procedures are required as a matter of law under the Communications Act. AT&T contended that the notice and comment procedures established by the Joint Board satisfied the requirements of due process. It stated that even if this proceeding involved ratemaking (a conclusion which it disputed), evidentiary hearings were not required as a matter of law. AT&T noted that evidentiary hearing procedures involve the potential for unnecessary delay, but recognized that they are desirable in certain situations. However, it argued that no showing of need had been made by the petitioners. In fact, AT&T took the position that such a showing was impossible at this early stage of the proceeding, stating that the issues to be dealt with by the Joint Board have only been outlined in very general terms. Thus, AT&T concluded that the requests for discovery and evidentiary hearings should be denied as premature.

7. GTE also filed a brief response to the USTS, SPCC and MCI Petitions. It emphasized the agency's discretion in ordering its proceedings and stated that the specialized carriers have not been prejudiced by the Joint Board's decision to follow notice and comment procedures at this point in the proceeding. Although GTE believed that the use of discovery and oral evidentiary hearings throughout this proceeding would generate delay and a lengthy, but unenlightening record, it indicated that such procedures might be appropriate on particular issues. In addition, USITA filed a response, charging USTS, SPCC and MCI with the use of delaying tactics and urging the Joint Board to employ informal rulemaking procedures supplemented with written information requests if necessary.

8. USTS filed a Reply to AT&T's Response. It reiterated that due process requires a full evidentiary hearing in certain situations regardless of the statutory language involved, and argued that the complexity of the subject matter and the fact that so much information is predominantly within the control of one party mandates such procedures in this case. USTS also disputed AT&T's claim that the request for evidentiary hearings was premature. USTS argued that it now has so little information concerning separations implementation that it can not even determine whether present

[2] By an Order issued on January 21, 1981, the Chief, Common Carrier Bureau acting pursuant to delegated authority provided for consolidated responses to the Petitions for Reconsideration filed with the Joint Board, and established February 5, 1981 as the deadline for Replies. *Amendment of Part 67 of the Commission's Rules and Establishment of a Joint Board*, CC Docket No. 80-286, Mimeo No. 06172, released January 21, 1981.

implementation procedures would have a significant bearing on possible changes in the Manual. It took the position that waiting until a later date to adopt evidentiary procedures would cause the Joint Board to lose valuable time since the parties would have to come to the Board requesting evidentiary procedures on each separate issue. USTS subsequently filed a Further Reply.[3]

III. Discussion

9. The pleadings discussed above raise three major issues. One question is whether the nature of the Joint Board forum affects the type of hearing procedure required. The second issue involves the general scope of statutory and due process rights to hearing on matters of the type involved in this proceeding. The final question is whether the Joint Board should exercise its discretion to prescribe discovery and evidentiary hearings at this time if such procedures are not required as a matter of law.

A. Procedural Implications of Joint Board Forum

10. Section 410(c) requires that the Commission refer all proceedings concerning jurisdictional separations to a Federal-State Joint Board. 47 U.S.C. 410(c)(1976). Such Joint Boards have the same authority as a Board established under Section 410(a) which provides that Joint Boards shall have "all the jurisdiction and powers conferred by law upon an examiner provided for in Section 1010 of Title 5, designated by the Commission, and shall be subject to the same duties and obligations." 47 U.S.C. 410(a)(1976).

11. A review of the legislative history of Section 410 establishes that this language does not indicate a Congressional intent that Joint Board proceedings be adversarial or adjudicative in nature. Originally, section 410(a) gave Joint Boards the same authority that an individual Commissioner had when designated to hold a hearing. When the procedure which allowed individual Commissioners to hear cases was abolished in 1952, section 410(a) was amended to give Joint Boards the same authority as the Commission itself. 1952 U.S. Code Cong. and Adm. News 2234.

12. In 1955, the Commission requested modification of section 410(a). It stated that "the new delegation of jurisdiction and powers is undesirably broad," adding that "with the wording of section 410(a) inserted by the Communications Act Amendments, 1952, it does not seem likely that the Commission would ever find it desirable to refer any matter to a joint board." 1956 U.S. Code Cong. and Admin. News 4139. In particular, the Commission suggested:

> [I]f the second sentence of section 410(a) were changed to give joint boards the same jurisdiction that is now conferred on an examiner, it would be more nearly what Congress must have intended and would make the section more usable to the Commission in the administration of the act.

Id. The House Report accompanying this legislation stated that "[the proposed amendment . . . would authorize the Commission to confer on joint boards the same power and authority as is now conferred on the Commission's hearing examiners in adjudicatory cases and *thereby gives the full Commission an opportunity to act before a final determination is made." Id.* at 4136 (emphasis added). Thus, it is clear that the language giving Joint Boards the authority of hearing examiners was added to ensure an opportunity for Commission review of Joint Board actions, not for the purpose of indicating that proceedings before Joint Boards should be adjudicatory in nature.

13. This view is reinforced by the legislative history of Pub. L. 92–131 which added section 410(c) to the Act in 1971 requiring Joint Board consideration of matters involving jurisdictional separations. In explaining the background of this amendment, the Senate Report reviewed, in considerable detail, the proceedings which led to adoption of the Ozark Plan the previous year. As the Report makes clear, the Ozark Plan was considered in informal rulemaking proceedings. 1971 U.S. Code Cong. and Admin. News 1514. The Commission order adopting the plan specifically states that "this is an ordinary Commission rulemaking proceeding * * * governed by section 553 of the Administrative Procedure and Judicial Review Act * * *." *Separations Procedures,* Docket No. 18866, 26 F.C.C. 2d 247 at 250 (1970). In fact, the State of California unsuccessfully argued against Commission adoption of the Ozark Plan on the ground that an evidentiary hearing had not been provided for as allegedly required by Section 221(c) of the Communications Act.

14. In recommending approval of this legislation, the Senate Report stated that "[it] would make mandatory the procedures voluntarily followed last year in the formulation of the Ozark Plan." 1971 U.S. Code Cong. and Admin. News 1514. This reference was directed primarily to the Federal-State composition of the Joint Board and the fact that its action took the form of a recommendation subject to Commission review. However, the Commerce Committee's familiarity with the informal rulemaking procedures employed in consideration of the Ozark Plan and the absence of any comments in its Report questioning these procedures strongly suggests that such informal rulemaking procedures were not viewed as being inconsistent with the provisions of section 410(a) giving Joint Boards the jurisdiction and powers of an examiner. Presumably, if these procedures were viewed as inappropriate, the Report would have so stated. Evidence of Congressional familiarity with an agency interpretation of its statute coupled with a failure to criticize that interpretation when expanding the coverage of the statute provides clear evidence of approval of the agency practice.[4]

15. In addition to running counter to the legislative history of the Act, it is hardly persuasive from a logical standpoint to argue that reference in section 410(a) to the Joint Board's having the power, duties and obligations of an examiner mandates evidentiary hearings. Separate Joint Board procedures were carved out of the Act in section 410 to insure full State participation on matters of joint Federal-State concern. Plainly, there is no logical basis for suggesting that Congress intended to establish disparate procedural requirements and to impose obligations upon Joint Boards which it did not impose upon the Commission itself. It would make little sense for Congress to allow the Commission itself to proceed by rulemaking whereas, its agent, the Joint Board, would have to hold a full evidentiary hearing in each and every proceeding without considering such relevant circumstances such as the nature of the case, its importance, the appropriateness of a hearing to the underlying subject matter and the availability of resources.

B. Administrative Procedure Act Hearing Requirements

16. Since the existence of a Joint Board in this proceeding does not affect the type of procedures required, we

[3] The Joint Board will consider USTS' Further Reply even though it does not appear to have been filed in a timely fashion. In view of the conclusions reached herein, such consideration does not prejudice the opposing parties.

[4] *See Red Lion Broadcasting Co.* v. *Federal Communications Commission,* 395 U.S. 367 at 380–382 (1969); *Power Reactor Development Co.* v. *International Union of Electrical, Radio & Machine Workers,* 367 U.S. 396 at 413–414 (1961); *Norwegian Nitrogen Products Co.* v. *United States,* 288 U.S. 294 at 311–315 (1933); *Costanzo* v. *Tillinghast,* 287 U.S. 341 at 345 (1932).

must examine the Administrative Procedure Act (APA) and relevant case law to determine if oral evidentiary hearings are required in the present circumstances as a general matter of law. The procedural framework for rulemaking by Federal agencies is established by the APA. Section 553 of the APA provides for rulemaking pursuant to notice and comment procedures, specifying that the opportunity for oral presentations is optional. 5 U.S.C. 553(c) (1976). Section 553(c) also provides that "[w]hen rules are required by statute to be made on the record after opportunity for an agency hearing, sections 556 and 557 of this title apply instead of this subsection." 5 U.S.C. 553(c) (1976). Proceedings governed by sections 556 and 557 are subject to various procedural requirements not contained in section 553. In particular, section 556(d) states that:

[a] party is entitled to present his case or defense by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. In rulemaking or determining claims for money or benefits or applications for initial licenses an agency may, when a party will not be prejudiced thereby, adopt procedures for the submission of all or part of the evidence in written form.

5 U.S.C. 556(d) (1976).

17. In *United States v. Florida East Coast Railway Co.*, 410 U.S. 224 (1973), the Supreme Court dealt with the question of when rulemaking proceedings are subject to the strictures of sections 556 and 557 of the APA. The District Court had held that section 1(14)(a) of the Interstate Commerce Act which authorized the Commission to take certain actions "after hearing" mandated the application of sections 556 and 557. The Supreme Court reversed, holding that the agency's proceeding was governed by section 553. It stated that the requirement of a hearing in section 1(14)(a) was not the equivalent of a statutory requirement that a rule "be made on the record after opportunity for an agency hearing" thereby triggering the application of sections 556 and 557. The Court recognized, however, that the phrase "on the record after opportunity for an agency hearing" was not a term of art and stated that other statutory language having the same meaning might trigger the application of sections 556 and 557.

18. Stating that the APA does not limit or repeal other statutory procedural requirements, the Court turned to the question of whether the Interstate Commerce Act requirement for a hearing mandated oral presentation of evidence and cross-examination even though the full requirements of sections 556 and 557 did not apply. It concluded that "the term 'hearing' as used in [Section 1(14)(a) of the Interstate Commerce Act] does not necessarily embrace * * * the right to present evidence orally and to cross-examine opposing witnesses * * *." *Id.* at 240. It is significant that the Court reached this conclusion in a case involving an industry-wide rate prescription.[6]

19. Under *Florida East Coast Railway* the present proceeding appears to be subject to the requirements of section 553 rather than the more rigorous provisions of sections 556 and 557. Sections 221(c), 213(a) and 205(a), the substantive provisions of the Act which give the Commission authority to act upon the recommended decision the Joint Board will submit, require a hearing, but do not specify that rules be made "on the record."[6]

20. Although the present Joint Board proceeding is not formally subject to the requirements of sections 556 and 557, a number of decisions have indicated that agencies are required, under certain circumstances, to accord procedural rights in addition to those specified in section 553 of the APA even though the proceeding involved may not be governed by sections 556 and 557.[7] In *Mobil Oil Corporation v. Federal Power Commission*, 483 F.2d 1238 (D.C. Cir. 1973), the D.C. Circuit concluded that the Federal Power Commission was not required to follow sections 556 and 557 of the APA, but stated that compliance with section 553 was not necessarily adequate.

21. However, in *Vermont Yankee Nuclear Power Corp.* v. *Natural Resources Defense Council, Inc.*, 435 U.S. 519 (1978), the Supreme Court held that "generally speaking [section 553] of the Act establishe[s] the maximum procedural requirements which Congress was willing to have the courts impose upon agencies in conducting rulemaking procedures." *Id.* at 524. Recognizing that prior decisions suggested that additional procedures might be required in rulemaking involving a " 'quasi-judicial' determination by which a very small number of persons are 'exceptionally affected, in each case upon individual grounds,' " *Id.* at 542, quoting *United States* v. *Florida East Coast Railway Co.*, 410 U.S. 224 at 242–245 (1973), the Court cautioned that its decision should not be read "to say necessarily that there are no circumstances which would ever justify a court in overturning agency action because of a failure to employ procedures beyond those required by the statute." *Id.* at 524. But, it stated that "such circumstances, if they exist, are extremely rare," and "emphasized that the formulation of procedures was basically to be left within the discretion of the agencies to which Congress had confided the responsibility for substantive judgments." *Id.* The Court summarized its holding on this point, stating:

> Absent constitutional constraints or extremely compelling circumstances the "administrative agencies 'should be free to fashion their own rules of procedure and to pursue methods of inquiry capable of permitting them to discharge their multitudinous duties.' "

Id. at 543 quoting *Federal Communications Commission* v. *Schreiber*, 381 U.S. 279 at 290 (1965). Thus, the Joint Board is not required to

---

[5] In addition, the Court distinguished the rulemaking involved in *Florida East Coast Railway* from the proceeding under review in *Interstate Commerce Commission v. Louisville and Nashville Railroad Co.*, 227 U.S. 88 (1913), which involved commission action on a complaint by a shipper that specified rates set by a carrier were unreasonable, a type of proceeding traditionally viewed as adjudicatory.

[6] Section 221(c) of the Communications Act which gives the Commission authority to allocate telephone company plant between the interstate and intrastate jurisdictions states that such "classification shall be made after hearing, upon notice to the carrier, the State commission * * * of any State in which the property is located, and such other persons as the Commission may prescribe." 47 U.S.C. 221(c) (1976). Section 213(a) which provides for Commission valuation of carrier property also requires an "opportunity for hearing." 47 U.S.C. 213(a) (1976). Section 205(a) provides for Commission prescription of just and reasonable rates "after full opportunity for hearing." 47 U.S.C. 205(a) (1976).

[7] These cases indicated that the procedures employed should be suited to the nature of the issues involved. *Water Holm & Co. v. Hardin*, 440 F.2d 1009 at 1015 (D.C. Cir. 1971). They took the position that "the need for an evidentiary hearing is particularly acute when the issue presented is one which possesses great substantive importance, or is one which is unusually complex or difficult to resolve on the basis of pleadings and arguments." *National Air Carrier Assoc. v. Civil Aeronautics Board*, 436 F.2d 185 at 191 (D.C. Cir. 1970), summarizing *Marine Space Enclosures, Inc. v. Federal Maritime Commission*, 420 F.2d 577 (D.C. Cir. 1969); *Citizens for Allegan County, Inc. v. Federal Power Commission*, 414 F.2d 1125 (D.C. Cir. 1969); *Trailways of New England, Inc. v. Civil Aeronautics Board*, 412 F.2d 926 (D.C. Cir. 1969). A subsequent case observed that "a right of cross-examination, consistent with time limitations, might well extend to particular cases of need, on critical points where the general procedure proved inadequate to probe 'soft' and sensitive subjects and witnesses." *International Harvester Co. v. Ruckelshaus*, 478 F.2d 615 at 631 (D.C. Cir. 1973).

employ procedures in addition to those set out in section 553 of the APA, absent exceptional circumstances,[8] although the record must be adequate to support any proposed rules.[9]

[8] *Vermont Yankee* involved "rulemaking procedures in their most prisfine sense," rather than rulemaking which Justices Douglas and Stewart viewed as "adjudicatory" within the terms of the APA in their dissent in *Florida East Coast Railway. Vermont Yankee Nuclear Power Corp.* v. *Natural Resources Defense Council, Inc.*, 435 U.S. 519 at note 1 (1978).

[9] Although the Court upheld the agency's discretion to order its proceedings in *Vermont Yankee*, the case was remanded to the D.C. Circuit for a determination of "whether the challenged rule finds sufficient justification in the administrative proceedings that it should be upheld by the reviewing court." *Id.* at 549.

C. Discretionary Provision for Evidentiary Procedures

22. Although discovery and oral evidentiary hearings are not required, this Joint Board, like its predecessors, has been given wide latitude by the Commission to establish its own procedures. No showing has been made that the use of discovery or oral evidentiary procedures is warranted at this point in the proceeding. This issues which the Joint Board is to consider have only been sketched in very broad outline, and we have not issued information requests or sought comments on the issues. There is no reason to believe that such preliminary steps would be facilitated by discovery and oral evidentiary hearings. When these steps have been completed, we will be in a better position to determine whether there are specific issues which should be explored through discovery and evidentiary hearings. At that time the parties can file appropriate requests for use of such procedures.

23. Accordingly, it is ordered, That the Petitions for Reconsideration filed by USTS, SPCC and MCI ARE DENIED.

24. It is further ordered, That this action is without prejudice to the filing of petitions seeking discovery and oral evidentiary hearings on particular issues at a later date as outlined above.

Federal Communications Commission.

William J. Tricarico,

Secretary.

Notices

Federal Register
Vol. 46, No. 53
Thursday, March 19, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

Official Agency Geographic Areas; Amendments to Assigned Geographic Areas of Fostoria Grain Inspection and D. L. Boltenhouse Grain Inspection

AGENCY: Federal Grain Inspection Service.

ACTION: Notice.

SUMMARY: This notice announces amendments to the assigned geographic areas of Fostoria Grain Inspection, Fostoria, Ohio, and D. L. Boltenhouse Grain Inspection, Bellevue, Ohio, to include portions of the Toledo, Ohio, nonexport area for the performance of official inspection functions under authority of the U.S. Grain Standards Act, as amended.

EFFECTIVE DATE: March 23, 1981.

FOR FURTHER INFORMATION CONTACT: J. T. Abshier, Director, Compliance Division, Federal Grain Inspection Service, U.S. Department of Agriculture, Washington, DC 20250; (202) 447-8262.

SUPPLEMENTARY INFORMATION: This final action has been reviewed and determined not to be a rule or regulation as defined in the Presidential Memorandum of January 29, 1981, regarding postponement of pending regulations and as defined in Executive Order 12291, therefore, neither document applies to this action.

The April 30, 1980, issue of the Federal Register (45 FR 28981) contained a notice from the Federal Grain Inspection Service (FGIS) requesting applications for designation to provide official inspection services under the U.S. Grain Standards Act, as amended (7 U.S.C. 71 *et seq.*) (the "Act"), for the nonexport area formerly serviced by the Toledo Board of Trade (TBOT), Toledo, Ohio. Applications were to be postmarked by June 30, 1980. A total of three qualified application were received. The names of the applicants for designation are as follows: D. L. Boltenhouse Grain Inspection, P.O. Box 98, Bellevue, Ohio 44811; Fostoria Grain Inspection, 506 Lockwood Avenue, P.O. Box 864, Fostoria, Ohio 44830; and Northern Ohio Grain Inspection, R.R. #1, Lone Oak Drive, Farmland, Indiana 47340.

FGIS announced the names of these applicants and requested comments on them in the December 5, 1980, issue of the Federal Register (45 FR 80777). A total of seven comments were received. One commentor recommended the designation of D. L. Boltenhouse Grain Inspection, two commentors recommended the designation of Northern Ohio Grain Inspection, and four commentors requested that FGIS continue to provide official inspection services in the nonexport area.

The export port locations will continue to be provided service by the FGIS Field Office in Toledo, Ohio, and currently include the following facilities: The Andersons, Toledo, Ohio, and Maumee, Ohio; Cargill, Inc. (East and West Side Elevators), Toledo, Ohio, and Cargill, Inc., Maumee, Ohio; and Mid-States Terminals, Inc., Toledo, Ohio. These export port locations in Toledo and Maumee, Ohio, were listed in the December 5, 1980, issue of the Federal Register.

Except for the export port locations listed above, all other geographic areas previously serviced by the TBOT have been determined to be domestic locations and were provided service by FGIS only on an interim basis in accordance with Section 7(h) of the Act, until such time as services could be provided on a regular basis by a designated official agency.

After considering all available information in relation to the criteria for designation in Section 7(f)(1)(A) of the Act, the Administrator, in accordance with Section 7(f)(1)(B), has determined that Fostoria Grain Inspection and D. L. Boltenhouse Grain Inspection are better able than any other applicants to provide official inspection services in the Toledo, Ohio, nonexport area. These assignments will facilitate official services in the area and therefore be in the best interest of the public. The portions designated to the applicants and described in this Notice constitute the entire geographic area as originally proposed. As a result, the geographic areas previously assigned to the subject agencies are amended as follows.

The assigned geographic area of the Fostoria Grain Inspection published on January 14, 1980 (45 FR 2670), and corrected on April 30, 1980 (45 FR 28981), is amended to include Fulton County. The Fostoria Agency is currently providing services to Metamora Elevator in this County under an interim authority.

The assigned geographic area of D. L. Boltenhouse Grain Inspection published on April 30, 1979 (44 FR 25258), is amended to include the remainder of the nonexport area that is open for assignment. This assignment includes Lucas and Ottawa Counties in Ohio, and those portions of Jackson, Lenawee, and Monroe Counties which are east of Michigan State Route 127 and south of Michigan State Route 50 in Michigan. An exception to this geographic area is the following location situated inside Boltenhouse's area which has been and will continue to be serviced by Grain Inspection Services, Inc., Battle Creek, Michigan: Crop Aid, Hudson, Michigan, in Lenawee County.

For clarification purposes, the exception as cited above was assigned to Grain Inspection Services, Inc., in the January 31, 1980, issue of the Federal Register (45 FR 6979).

Effective March 23, 1981, the responsibility for providing official inspection services to the geographic areas indicated above will be transferred from the FGIS Field Office in Toledo, Ohio, to the Fostoria and Boltenhouse agencies, respectively. The FGIS will continue to provide service to the export locations as cited previously.

A specified service point for the purpose of this notice is a city, town, or other location specified by an agency for the conduct of official inspections and where the agency or one or more of its licensed inspectors is located. In addition to the specified service points within the assigned geographic area, the agency will provide official inspection services not requiring a licensed inspector to all other areas within its geographic area.

Interested persons may obtain a map of the assigned geographic areas and a list of specified service points by contacting the agencies or the Regulatory Branch, Compliance Division, Federal Grain Inspection

Service, U.S. Department of Agriculture, Washington, DC 20250; (202) 447–8525.

(Sec. 8, Pub. L. 94–582, Stat. 2870 (7 U.S.C. 79))

Done in Washington, DC on: March 13, 1981.

J. T. Abshier,

Director, Compliance Division.

BILLING CODE 3410-02-M

Foreign Agricultural Service

Information on Proposed Foreign Standards Affecting International Trade

March 13, 1981.

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice.

SUMMARY: This notice informs the public of the types of, and the procedures for obtaining, information concerning proposed foreign standards affecting international trade in agricultural commodities. The publication of this notice carries out one of the functions of the Technical Office established in the Department of Agriculture (45 FR 82153, December 15, 1980) pursuant to Section 412(a)(2) of the Trade Agreements Act of 1979 (Pub. L. 96–39).

EFFECTIVE DATE: March 19, 1981.

FOR FURTHER INFORMATION CONTACT: Thomas O'Connell, Technical Office, U.S. Department of Agriculture, Room 5528, South Agriculture Building, Washington, D.C. 20250; Telephone: (202) 382–1318.

Notice

The purpose of this notice is to inform interested parties that notifications of proposed foreign standards related activities affecting international trade in agricultural commodities will be made available by the Technical Office, upon request, to all interested parties, including state governmental agencies and trade associations. These include titles and brief description, where appropriate, of notices of proposed foreign standards related activities, government and private, and copies of foreign notifications to the Secretariat of the General Agreement on Tariffs and Trade (GATT) of proposed standards.

Information on *existing* foreign regulations on standards related activities will not be available from the Technical Office; however, the National Bureau of Standards (U.S. Department of Commerce) can assist interested persons in obtaining copies of such foreign regulations. Inquiries may be made by calling the Standards Information Center, (301) 921–2092/2587.

Information on proposed regulations on standards related activities may be obtained from the Technical Office by providing a description of the category(ies) of agricultural commodities of interest. Such categorizations should be made as specific as possible (e.g. "fruits and vegetables" is usually too broad; "fresh apples" or "canned peaches" is better).

To the extent possible, information regarding proposed standards related activities will be provided in "Export Briefs", which is published weekly by the Export Trade Services Division (ETSD) of FAS. Subscription (at no cost) to "Export Briefs" may be made by contacting ETSD, FAS, USDA, Room 4945 South Building, Washington, D.C. 20250 (Telephone: (202) 447–7102). In addition, the Technical Office will disseminate relevant information through contacts with appropriate trade associations and commodity sector advisory groups.

(Sec. 412 of the Trade Agreements Act of 1979, Pub. L. 96–39, 19 U.S.C. 2542; Executive Order 12188)

Richard A. Smith,

Acting Administrator.

BILLING CODE 3410-10-M

Forest Service

Custer National Forest, Montana, North Dakota, South Dakota; Environmental Impact Statement

In the matter of Custer National Forest Plan: Carbon, Carter, Park, Powder River, Rosebud, Stillwater, and Sweet Grass Counties, Montana; Billings, Dunn, Golden Valley, Grant, McHenry, McKenzie, Ransom, Richland, Sioux, and Slope Counties, North Dakota; and Corson, Harding Perkins, and Ziebach Counties, South Dakota.

Pursuant to the National Environmental Policy Act Regulations, the Forest Service, Department of Agriculture, will prepare an environmental impact statement on the proposed Land and Resource Management Plan for the Custer National Forest in Montana, North Dakota, and South Dakota.

The plan is being prepared in accordance with requirements of the Secretary's regulations developed pursuant to the National Forest Management Act of 1976. It will propose management direction affecting the natural and human resources within the boundaries of the Custer National Forest.

The plan will be selected from a range of alternatives including: continuation of current management practices and policies; alternatives displaying possible outputs of resources at several expenditure levels; and alternatives designed to resolve or mitigate major public issues and management concerns.

Early in the development of the plan, Federal, State, Indian tribes, and local agencies and other individuals or organizations, who may be interested in or affected by the decision, will be invited to participate in the scoping process. All issues identified will be considered and those of significance will be addressed in the plan. The rationale for selecting the significant issues and the disposition of those issues will be visible in the planning process.

In conjunction with this planning effort and pursuant to 43 CFR Part 3460, the Custer National Forest is in the process of applying "coal unsuitability criteria" as mandated by the Surface Mining Control and Reclamation Act of 1977. The Little Missouri National Grasslands contain some Known Recoverable Coal Resource Areas where the criteria are being applied.

Tom Coston, the Regional Forester for the Northern Region, is the responsible official for approval of the Forest Plan. The responsible official for preparing the Forest Plan is Forest Supervisor Daniel C. MacIntyre, Custer National Forest. Questions concerning development of the plan should be directed to Daniel C. MacIntyre, Forest Supervisor, Custer National Forest, P.O. Box 2556, Billings, MT 59103, (406) 657–6361.

The draft environmental impact statement is expected to be available in early 1982 and the final in mid-1982.

Dated: March 13, 1981.

James E. Reid,

Acting Regional Forester, Northern Region.

BILLING CODE 3410-11-M

DEPARTMENT OF COMMERCE

Minority Business Development Agency

Financial Assistance Application Announcement

The Minority Business Development Agency announces that it is seeking applications under its program to operate one project for a twelve month period beginning July 1, 1981. The total cost of the project will not exceed $909,000.

Funding Instrument: It is anticipated that the funding instrument, as defined

by the Federal Grant and Cooperative Agreement Act of 1977, will be a grant.

Program Description: The General Business Services Program (GBS) of the Minority Business Development Agency (MBDA) provides technical assistance to minority businesspersons and firms for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either non-profit or commercial entities). These firms must be capable of providing such services as:

—Preparation of business plans;
—Financial packaging;
—Industrial management assistance;
—Personnel management services;
—Marketing planning;

and a broad range of other business services excluding legal services.

Applications are invited for the following project:

One grant for a management and technical assistance project to operate in the Miami, Fort Lauderdale and West Palm Beach SMSAs in Florida.

The project will operate at a cost not to exceed $300,000. The Project I. D. Number is 04-10-80000-01. This project will also include supplying specialized consulting services.

Eligibility Requirements: There are no restrictions. Any profit or non-profit institution is eligible to submit an application.

Pre-Application Conference: A Pre-application Conference for this project will be held on April 6, 1981 at 1:30 p.m. at the following address:

U.S. Department of Commerce, Minority Business Development Agency, 1371 Peachtree Street, NE, Suite 505, Atlanta, Georgia 30309

Application Materials: An application kit for this project may be requested by writing the following address:

U.S. Department of Commerce, Minority Business Development Agency, 1365 Peachtree Street, NE, Room 225, Atlanta, GA 30309

In requesting an application kit, the applicant must specify its profit status; i.e., State or local government, federally recognized Indian tribal units, educational institutions, hospitals, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Award Process: All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date: Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 21, 1981.

(11.800 Minority Business Development Catalog of Federal Domestic Assistance)

(This program is not subject to the requirements of OMB Circular A-95)

Dated: March 13, 1981.

Gordon M. Anderson,

Grant Specialist.

BILLING CODE 3510-21-M

National Oceanic and Atmospheric Administration

National Marine Fisheries Service; Public Meeting

AGENCY: National Marine Fisheries Service, NOAA.

SUMMARY: The National Marine Fisheries Service and the U.S. Fish and Wildlife Service will hold a joint meeting to discuss implementation of the Emergency Striped Bass Study as authorized by the amended Anadromous Fish Conservation Act, (Public Law 96-118).

DATE: The meeting will convene on Monday April 13, 1981 at 10:00 a.m. and will adjourn at approximately 5:00 p.m. The meeting is open to the public, however, space is limited.

ADDRESS: National Marine Fisheries Service, Room 401, Page Building No. 2, 3300 Whitehaven Street, N.W., Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT: Richard H. Schaefer, State/Federal Division, Office of Resource Conservation and Management, National Marine Fisheries Service, Washington, D.C. 20235. Telephone: (202) 634-7454.

Dated: March 16, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Weather Facsimile (WEFAX) Conference

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Public meeting on WEFAX services from GOES satellites.

SUMMARY: The National Oceanic and Atmospheric Administration's National Earth Satellite Service (NESS) will sponsor a WEFAX Users Conference on April 28 and 29, 1981, for current and future U.S. Weather Facsimile (WEFAX) system users. NESS will describe their WEFAX operating procedures, plans, policies, and interpretation and application of products. NESS will solicit comments for improving present and future services.

DATE: The meeting will be held at the Ramada Inn, 5910 Princess Gardens Parkway, Lanham, Maryland 20810, from 9:00 a.m. to 5:00 p.m. on April 28 and from 9:00 a.m. to 12:00 noon on April 29, 1981.

FOR FURTHER INFORMATION CONTACT: Robert W. Popham, Chairperson, Coordinator for Direct Readout Services, National Oceanic and Atmospheric Administration, National Earth Satellite Service S/OP31, U.S. Department of Commerce, Washington, D.C. 20233 (301-763-8062).

Dated: March 13, 1981.

Francis J. Balint,

Acting Director, Office of Management and Computer Systems, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-12-M

CONSUMER PRODUCT SAFETY COMMISSION

[CPSC Docket 81-C0006]

Gillette Co., a Corporation, d.b.a. Braun North America; Provisional Acceptance of a Consent Order Agreement

AGENCY: Consumer Product Safety Commission.

ACTION: Provisional acceptance of a consent order agreement under the Consumer Product Safety Act.

SUMMARY: Under requirements of 16 CFR 1118.20, the Commission must publish in the **Federal Register** consent agreements which it provisionally accepts under the Consumer Product Safety Act. Published below is a provisionally-accepted Consent Order Agreement with the Gillette Company, doing business as Braun North America.

DATES: Any interested person may ask the Commission not to accept this agreement by filing a written request with the Office of the Secretary by April 2, 1981.

ADDRESS: Persons wishing to comment on this Consent Order Agreement should send written comments to the Office of the Secretary, Suite 300, 1111-18th St., NW, Washington, DC 20207.

FOR FURTHER INFORMATION CONTACT:
Earl Gershenow, Directorate for Compliance and Administrative Litigation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6626.

SUPPLEMENTARY INFORMATION:
[Attached.]

Dated: March 13, 1981.

Sadye E. Dunn,
Secretary.

Agreement Containing Consent Order To Cease and Desist

In the matter of Gillette Company, a corporation, doing business as Braun North America (hereinafter, "Gillette" or "Respondent") and the staff of the Consumer Product Safety Commission (hereinafter, the Commission) pursuant to 16 CFR 1118.20, in settlement of a complaint for a civil penalty pursuant to 15 U.S.C. 2069, for knowingly failing to report immediately to the Commission a defect in the Braun Aromaster Coffeemaker, Model KF-20, Type 4050, which could create a substantial product hazard, as required by 15 U.S.C. 2064(b)(2), in violation of 15 U.S.C. 2068(a)(4). A copy of the complaint is attached hereto and incorporated herein by reference.

Gillette and the staff of the Commission hereby stipulate and agree:

1. The Consumer Product Safety Commission has jurisdiction over Gillette and the subject matter of this Consent Order Agreement pursuant to 15 U.S.C. 2051 *et seq.*

2. Gillette is a corporation organized and existing under the laws of the State of Delaware, with its principal place of business located in Boston, Massachusetts. Gillette is an international consumer product firm engaged in the manufacture and sale of products for personal care and use.

3. Braun North America (hereinafter Braun) is an unincorporated division of Gillette, with its principal place of business located in Cambridge, Massachusetts. Braun imports, *inter alia*, coffee makers.

4. Gillette, through Braun "imported" and "distributed in commerce" as these terms are defined in 15 U.S.C. 2052(a)(8), (11), and (12), respectively, the Braun Aromaster Coffeemaker, Model KF-20, Type 4050 (hereinafter the "Coffeemaker"). The Coffeemaker is an automatic, drip-type (120 volts, 750 watts), employing a main heating element to heat the water and a smaller warming element. The Coffeemaker is manufactured by Braun AG, a subsidiary of Gillette located in West Germany. The Coffeemaker retails for approximately $80.00.

5. The Coffeemaker is produced and distributed in commerce for sale to consumers for use in or around a permanent or temporary household or residence, a school, in recreation, or otherwise, and is therefore a "consumer product" within the meaning of 15 U.S.C. 2052(a).

6. Between July 1976 and March 1977, Braun distributed in commerce as many as 2,135 Coffeemakers that the staff of the Commission alleged contained a defective thermostat which presented a "substantial product hazard" within the meaning of 15 U.S.C. 2064(b), as more fully set forth in the complaint.

7. In the complaint, the staff of the Commission has alleged that Gillette knowingly failed to inform the Commission immediately of the defect upon having obtained information which reasonably supported the conclusion that the Coffeemaker contained a defect which could create a "substantial product hazard," as required by 15 U.S.C. 2064(b)(2), in violation of 15 U.S.C. 2068(a)(4), for which a civil penalty may be issued pursuant to 15 U.S.C. 2069. The staff of the Commission seeks in the complaint a civil penalty against Gillette in the sum of $100,000.

8. Gillette denies all claims set forth in the complaint and without admitting the existence of a substantial product hazard or a violation of the reporting requirements under 15 U.S.C. 2064(b), Gillette hereby agrees to pay the sum of $45,000 upon final acceptance of this Consent Agreement by the Commission, in full settlement any and all claims by the Commission of any kind whatsoever against Gillette arising out of the alleged defect in the Coffeemaker which is the subject of the complaint.

9. The complaint represents the allegations of the Commission staff and the Commission has made no formal finding that the Coffeemaker contained the defect or constituted a substantial hazard.

10. Upon final acceptance by the Commission of this Consent Order Agreement, Gillette knowingly and voluntarily waives any and all rights to an administrative or judicial hearing, and to any and all other procedural stages; including the right to judicial review, or to otherwise challenge or contest this Consent Order Agreement and the Commission's Order.

11. Upon execution of this Consent Order Agreement by Gillette and the Commission staff, and provisional acceptance by the Commission, as provided in 16 CFR 1118.20(d), pursuant to 16 CFR 1118.20(e) this Consent Order Agreement will be made a matter of the public record in the Commission's Public Calendar, and in the Federal Register, for a period of fifteen days. The Commission will then consider and act upon the Consent Order Agreement pursuant to 16 CFR 1118.20(f)-(g).

12. Final acceptance by the Commission of the Consent Order Agreement and issuance of the Order contained herein, pursuant to 15 U.S.C. 2069, shall settle all claims set forth in the complaint. The Order shall take effect upon its issuance.

13. Upon final acceptance, the Commission will disclose the terms of this Consent Order Agreement to the public and will make the Consent Order Agreement available for public viewing at the Office of the Secretary, Consumer Product Safety Commission, 1111 18th Street N.W., Washington, D.C. 20207.

Order

It is ordered that The Gillettee Company, doing business as Braun North America, shall pay to the order of the United States Treasurer the sum of forty-five thousand dollars ($45,000.00) in full settlement of any and all claims of any kind whatsoever by the Consumer Product Safety Commission against Gillette arising out of an alleged defect in the Braun Aromaster Coffeemaker, Model KF-20 Type 4050, as more fully set forth in the complaint which accompanies the Consent Order Agreement executed by Gillette and the staff of the Commission on December 30, 1980.

Earl A. Gershenow,
Trial Attorney, Counsel for the staff of the Consumer Product Safety Commission.

By direction of the Commission, this Consent Order Agreement is provisionally accepted pursuant to 16 CFR 1118.20(d), and shall be placed on the public record, and the Commission shall announce provisional acceptance of the Consent Order Agreement in the Commission's Public Calendar and in the **Federal Register.**

So ordered by the Commission, this 13th day of March 1981.

Sadye E. Dunn,
Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

Intent To Prepare a Draft Environmental Impact Statement (DEIS); Proposed Revision to Water Control Plan for Prado Dam; Santa Ana River, Orange, Riverside, and San Bernardino Counties, California

AGENCY: US Army Corps of Engineers, DoD.

ACTION: Notice of Intent to Prepare a Draft Environmental Impact Statement (DEIS).

SUMMARY:

1. *Proposed Action.* The proposed action has been initiated to evaluate alternative reservoir release plans that take advantage of the recently increased capacity of the downstream Santa Ana River channel and thereby provide greater public safety. The study will also address alternative water conservation operations for Prado Basin that should contribute to groundwater supplies.

2. *Alternatives.* Six alternative plans for flood control releases have been selectively paired with 4 alternative plans for water conservation within Prado Basin to identify a total of 21 alternatives. The flood control release alternatives range from maximum controlled releases of 5,000 to 14,000 cubic feet per second with progression increases from zero to a maximum controlled release for each alternative. The water conservation pool alternatives range from maximum elevations of 490 feet above mean seal level (msl) to up to 510 feet msl, depending on time of the year and with a required empty reservoir during August and September.

3. *Scoping Process.* A 15 December 1980 Letter of Initiation for the Prado Dam Water Control Study was sent to numerous federal, state, county, and city agencies and to interested groups and individuals. The alternatives were presented and questions and comments were solicited. Public meetings are expected to be held during the month of October 1981 approximately 15 days following the publication of the DEIS. Informal coordination with interested individuals and groups and local, state, and federal agencies is anticipated.

The DEIS will address several significant impacts in depth. Effects on land use, cultural resources, riparian habitat, and endangered species potentially resulting from the proposed conservation pool alternatives will be investigated. Effects on riparian habitat in the Santa Ana Canyon and on the feeding habitat of the endangered least tern at the mouth of the Santa Ana River potentially resulting from the proposed flood release alternatives will also be investigated.

The requirements of the following acts and executive orders will be addressed in the DEIS: National Historic Preservation Act, Endangered Species Act, Fish and Wildlife Coordination Act, Wild and Scenic Rivers Act, Clean Water Act, Executive Order 11990 Protection of Wetlands, and Executive Memorandum Analysis of Impacts on Prime and Unique Farmlands.

4. *Scoping Meeting.* A scoping meeting will not be held.

5. *Publication of DEIS.* The DEIS is expected to be available to concerned agencies and the interested public for review and comment in October 1981.

ADDRESS: Questions about the proposed action and DEIS can be answered by Grigor Grigorian, Project Manager ((213) 688–4756) or by Ken Kules, Chief, Environmental Planning Section ((213) 688–5421), Corps of Engineers, P.O. Box 2711, Los Angeles, California 90053.

Dated: March 12, 1981.

Roger C. Higbee,

Lieutenant Colonel, CE Acting District Engineer.

[FR Doc. 81-8134 Filed 3-18-81; 8:45 am]

BILLING CODE 3710-KF-M

DELAWARE RIVER BASIN COMMISSION

Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, March 25, 1981, commencing at 11 a.m. The hearing will be a part of the Commission's regular March business meeting which is open to the public. Both the hearing and the meeting will be held in the seventh floor lounge at the Sheraton Inn, 1570 North duPont Highway, Dover, Delaware. The subjects of the hearing will be:

A. A proposal that the Fifteenth Water Resources Program, adopted by the Commission on October 25, 1978 be re-adopted and continued as the current Water Resources Program, in accordance with the requirements of Section 13.2 of the Delaware River Basin Compact.

B. Application for approval of the following projects as amendments to the Comprehensive Plan pursuant to Article 11 of the Compact and/or as project approvals pursuant to Section 3.8 of the Compact:

1. *Village of Monticello (D–81–5 CP).* A well water supply project to augment public water supplies in the Village of Monticello, Sullivan County, New York. Two new wells having a combined capacity of 900,000 gallons per day will be used to augment current supplies from Kiamesha Lake.

2. *New Jersey Department of Environmental Protection, Division of Fish, Game and Shellfisheries (D–81–8 CP).* A waste treatment project at the Pequest Trout Hatchery in Liberty Township, Warren County, New Jersey. The project will remove 89 percent of BOD from a wastewater flow of 296,000 gallons per day. Treated effluent will discharge to the Pequest River.

3. *Broad Run Sewer Company (D–80–58).* A sewage treatment plant expansion project in West Bradford Township, Chester County, Pennsylvania. The plant, with a present capacity of 150,000 gallons per day and discharging to the East Branch Brandywine Creek, would be expanded to the East Branch Brandywine Creek, would be expanded to treat 400,000 gallons per day to serve proposed housing developments.

4. *Philadelphia Electric Company (D–80–75).* Expansion of existing industrial waste treatment facilities at the Company's Cromby Generating Station in East Pikeland Township, Chester County, Pennsylvania. The project would provide 97 percent removal of suspended solids from a wastewater flow of about 1.4 million gallons per day. Treated effluent would discharge to the Schuylkill River.

5. *Gressona Aluminum Company (D–80–87).* A well water supply project to provide process water at the Company's plant in the Borough of Cressona, Schuylkill County, Pennsylvania. The new facility is planned for use at an average rate of 720,000 gallons per day.

Documents relating to the above-listed projects may be examined at the Commission's offices. Persons wishing to testify at this hearing are requested to register with the Secretary prior to the date of the hearing.

W. Brinton Whitall,

Secretary.

March 11, 1981.

[FR Doc. 81-8136 Filed 3-18-81; 8:45 am]

BILLING CODE 6360-01-M

DEPARTMENT OF ENERGY

Conduct of Employees; Waiver

Notice of Waiver pursuant to section 605(a)(3) of the Department of Energy Organization Act (Pub. L. 95–91).

Section 605(a)(3) of the Department of Energy Organization Act (Pub. L. 95–91) authorizes the Secretary of Energy to

waive the post-employment restrictions of section 605(a)(1) of the Department of Energy Organization Act, to permit a former employee with outstanding scientific or technological qualifications to make appearances before or communications to the Department in connection with a pasticular matter in a scientific or technological field, where it has been determined that such a waiver would serve the national interest.

It has been established to my satisfaction that Robert G. Matlock, formerly Deputy Director for Nuclear Reactor Programs, has outstanding scientific and technological qualifications in the fields of nuclear reactor physics and engineering, and in nuclear plant design, construction, operation, and safety evaluation. I am further satisfied that it will serve the national interest to permit him, in his capacity as Special Assistant to the Managing Director/Chief Executive Officer of the Washington Public Power Supply System—

(1) With respect to the New Plutonium Production Reactor (NPR) of the Department of Energy, to confer with officials of the Richland Operations Office of the Department on matters related to the purchase of NPR generated steam by the Washington Public Power Supply System, and to confer with officials of the Bonneville Power Administration on the sale of electricity produced from NPR generated steam by the Washington Public Power Supply System to the Bonneville Power Administration, and

(2) With respect to nuclear power plants of the Washington Public Power Supply System that are subject to Bonneville Power Administration review authority, to confer with officials of the Bonneville Power Administration on matters relating to the operation and construction of the plants, including the generation, distribution, and sale of electrical power produced from the plants.

I am also satisfied that these activities require the qualifications stated.

I have, therefore, waived the post-employment appearance and communication prohibitions of section 605(a)(1) of the Department of Energy organization Act, with respect to contact with officials of the Richland Operations Office of the Department of Energy and of the Bonneville Power Administration by Mr. Robert G. Matlock to permit him to undertake the stated activities in his capacity as Special Assistant to the Managing Director/Chief Executive Officer of the Washington Public Power Supply System.

Dated: March 5, 1981.

James B. Edwards,

Secretary of Energy.

[FR Doc. 81-8385 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Proposed Subsequent Arrangements

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended, and the Agreement for Cooperation Between the Government of the United States of America and the Government of Canada Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve approval for the supply of the following materials:

Contract Number S–EU–083, for the sale of 50 milligrams of thorium, enriched to 99.8% in thorium-230, and 1,150 milligrams of thorium, enriched to 91.54% in thorium-230 to be used as standard reference material for mass spectrometry at the Central Bureau for Nuclear Measurements, Geel, Belgium.

Contract Number S–CA–306, for the sale of 1 milligram of thorium, enriched to 99.80% in thorium-230, to be used for isotopic exchange studies at Carleton University, Ontario, Canada.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 13, 1981.

For the Department of Energy.

Harold D. Bengelsdorf,

Director for Nuclear Affairs, International Nuclear and Technical Programs.

[FR Doc. 81-8383 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Uranium Hexafluoride; Separative Work Charges, and Base Charges for Natural Uranium

The Department of Energy (DOE) hereby announces changes in the base charges for uranium in the form of uranium hexafluoride (UF_6). Accordingly, the notice entitled, "Uranium Hexafluoride: Separative Work Charges, and Base Charges for Natural Uranium," as published in the **Federal Register** on September 20, 1977 (42 FR 51636) and amended by notice published on January 21, 1980 (45 FR 3948) is further amended by deleting paragraph 2 and inserting the following paragraph in lieu thereof:

2. *Base Charges for Natural Uranium*

(a) The base charge for natural uranium furnished on other than a short notice, one time basis, is $23.85 per pound of contained U_3O_8 in the form of concentrate and $90.52 per kg of contained uranium in the form of UF_6.

(b) The base charge for natural uranium furnished on a short notice, one time basis, is $42.71 per pound of contained U_3O_8 in the form of concentrate and $116.77 per kg of contained uranium in the form of UF_6.

Effective date: This notice is effective March 19, 1981.

Dated: February 18, 1981.

Francis Allhoff, Jr.,

Acting Assistant Secretary, Resource Applications.

[FR Doc. 81-8384 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Finding of No Significant Impact; Oak Ridge Gaseous Diffusion Plant, Roane County, Tenn.

The Department of Energy has prepared an environmental assessment on the continued operation of the Oak Ridge Gaseous Diffusion Plant in Roane County, Tennessee. Based on the environmental assessment, which is available to the public on request, the Department of Energy has determined that the continued operation of the plant does not constitute a major Federal action significantly affecting the quality of the human environment, within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.* Therefore, an environmental impact statement is not required.

The Oak Ridge Gaseous Diffusion Plant, which has been in operation since 1945, is located on a 64-acre tract of land near the junction of Poplar Creek and the Clinch River on the Oak Ridge Reservation in Roane County, Tennessee. Low enriched uranium is expected to be the primary source of fuel for nuclear power reactors through the year 2000. Conventional light-water reactors require uranium enriched to a nominal uranium-235 content of 3 percent. Since natural uranium contains only 0.7 percent uranium-235, an enrichment process is needed to provide reactor fuel. The Oak Ridge Gaseous Diffusion Plant is one of three such

facilities operated by the Federal Government for enriching natural uranium through the gaseous diffusion process.

At the present time, the diffusion cascades at Oak Ridge are being upgraded and uprated to provide additional enrichment capability. The analysis of the proposed action assumes operation of the plant at full capacity after the upgrading and uprating is complete. Alternatives to the proposed action include: (1) shutdown or reduced operation; (2) replacement of the gaseous diffusion process with an alternative enrichment process technology; (3) relocation of the gaseous diffusion plant; (4) alternatives for supplying electrical power requirements of the plant; and (5) various alternative subsystems. The analysis of these alternatives in the environmental assessment concludes that the Oak Ridge Gaseous Diffusion Plant must continue to operate if contractual commitments to the private sector are to be fulfilled. Conversion to either the gas centrifuge or an advanced isotope separation technology is not economically justifiable at this time. Operation of the plant at its present site is environmentally preferable to relocating to another site. Additionally, the supply of power by the Tennessee Valley Authority is preferable to the alternatives, both environmentally and economically and implementation of alternative subsystems will depend upon the result of on-going feasibility studies.

There are no significant environmental impacts associated with the full-power operation of the Oak Ridge Gaseous Diffusion Plant. Environmental impacts and mitigation measures that will be taken are as follows:

Air Quality Impacts

The Oak Ridge Gaseous Plant will release approximately 660 microcuries of radionuclides into the air from operation during 1984. The amount is about the same as the current annual release. The annual dose to an individual living at the plant boundary is well below Nuclear Regulatory Commission limits and calculated health effects to the population within 80 kilometers of the plant are negligible.

The steam plant and the process and support facilities produce nonradioactive emissions: particulates, nitrous oxide, sulfur dioxide, and hydrogen fluoride. Projected 1984 emissions are essentially the same as present releases, with the exception of a decrease in hydrogen fluoride. Particulate emissions and ambient concentrations of nitrous oxide and sulfur dioxide will be in compliance with Federal and state standards.

Water Quality Impacts

All applicable Federal and state standards will be met for effluents after the planned mitigation measures are incorporated into the project. The mitigation measures include:

(1) Wastewater treatment improvements which will provide a slight reduction in effluent concentration of chromium, copper, and dissolved solids, and a large reduction in nitrate and nickel levels;

(2) New settling ponds and additional use of existing chemical treatment facilities to better control effluent quality;

(3) Collection and treatment of runoff from coal piles;

(4) A new sludge treatment facility;

(5) Repair sewage system piping to prevent the infiltration of surface runoff during periods of heavy precipitation which now results in overloading of the plants' capacity and is responsible for many of the noncompliances.

Land-Use Impacts

The Oak Ridge Gaseous Diffusion Plant generates solid radioactive wastes in the form of contaminated scrap paper, wood, equipment, and residues from treatment of gaseous and liquid wastes. Nonclassified wastes are buried at the Y-12 plant and contaminated scrap is being stored pending a Nuclear Regulatory Commission decision on whether to allow smelting and recycling. Classified waste is burned on a 22-acre plot within the plant. The highest possible dose to humans would result from release into a drinking supply and has been calculated to be very low.

Through the year 2000 it has been projected that 20 acres of land will be used for low level radioactively contaminated waste disposal and 2 acres will be used for sanitary landfill. Disposal of wastes will occur in areas of the Oak Ridge reservation which are already dedicated to these uses and which are monitored under the overall monitoring program for the facility.

Approximately 2700 acres of land is dedicated to electric transmission line corridors. These corridors are presently in existence and are covered with either grass or low growing vegetation for erosion control. The land within the corridors is managed on a periodic schedule to control growth of the vegetation.

Biological Impacts

The only air pollutant emitted by the Oak Ridge Gaseous Diffusion Plant which is expected to cause some biological damage is hydrogen fluoride. Although average concentrations of hydrogen fluoride are never expected to exceed threshold values for sensitive plants, short-term concentrations under stable atmospheric conditions are expected to cause some damage to on-site vegetation. Plants beyond the site boundary should be unaffected. There have been no signs of fluoride damage to wildlife.

Some vegetation damage within the facility boundary will also be caused by cooling tower drift salts. Cooling tower drift also contains zinc and chromium, the latter of which now occurs at higher levels in plants around the facility. However, neither metal tends to accumulate in animal food chains, and consequently no impact is likely.

No detectable radiological impact is expected on either aquatic or terrestrial biota as a result of the radionuclides released into the air and aquatic environments. There also have been no detectable adverse effects due to the use of pesticides and herbicides.

Entrainment, impingement, and thermal impacts associated with the steam plants' use of cooling water will not be significant.

Some of the substances in the effluents can reach concentrations greater than the criteria for protection of aquatic biota, e.g., nickel, zinc, and residual chlorine. Possible impacts of these concentrations include acute and/or chronic toxic effects, community composition changes and increased bioaccumulation of heavy metals. However, this would only occur during infrequent periods of zero flow. Thus, these impacts will not be significant.

Electrical Energy Consumed

At full power operation, 2080 megawatts of electrical energy will be consumed. This represents 6.6 percent of the Tennessee Valley Authority total power output. The power is supplied under a bulk power contract that does not involve specific powerplants dedicated to supplying the diffusion plant. In addition, even if the power were not purchased from the Tennessee Valley Authority system, that system would continue to operate as it exists, and the environmental effects in the area of its plants would not be altered. Consequently, there are no significant environmental effects directly attributable to supplying power to the diffusion plant.

Transportation

Solid uranium fluoride, other chemicals and materials are shipped to

and from the Oak Ridge Gaseous Diffusion Plant by rail and truck. All uranium fluoride shipments are regulated by both the Department of Energy and the Department of Transportation.

Accidents, Safeguards and Securities

Potential accidents at Oak Ridge Gaseous Diffusion Plant include criticality, process and handling accidents. Since design features, operating procedures, and administrative and safety practices are strictly controlled, the possibility of a criticality accident, especially at low enrichment, is remote and in any event, radiological releases from a criticality accident are likely to be contained by the process equipment or building. Only minor contamination would occur in the immediate vicinity and no exposure to the general public from such an accident would be anticipated. Highly enriched material is not processed at the plant. The worst case accident cited for the Oak Ridge Gaseous Diffusion Plant would involve the mishandling of a 14-ton cylinder of liquid uranium fluoride in which case lethal concentrations of hydrogen fluoride could exist within the immediate vicinity of the plant. Although the probability of such an accident is extremely low, in the event that it should happen, the effects would be mitigated through emergency response procedures (Emergency Preparedness Plan, etc.) which are established at Oak Ridge.

In addition to safety programs, a comprehensive security program is maintained at the plant to meet the Department's requirements for protecting the valuable enriched uranium the equipment used for effecting the enrichment, and the technical information related to the enrichment. The basic components of this program are a physical protection system, a nuclear material control system, and an internal personnel control program.

SINGLE COPIES OF THE EA ARE AVAILABLE FROM: James Behrend, Gaseous Diffusion, Operations Division, Industrial and Utility Applications and Operations, Federal Building, 12th Pennsylvania Avenue, N.W., Washington, D.C. 20461 (202) 633–8841.

FOR FURTHER INFORMATION CONTACT: Michael Kleinrock, Regulations and Procedures Branch, NEPA Affairs Division, Room 4G–064, Office of Environmental Compliance and Overview, 1000 Independence Avenue, S.W., Washington, D.C. 20585 (202) 252–6374.

Dated: March 13, 1981.

Alex G. Fremling,

Acting Assistant Secretary for Environmental Protection, Safety and Emergency Preparedness.

BILLING CODE 6450-01-M

Economic Regulatory Administration

Application by San Diego Gas & Electric Co. for Authority to Transmit Electric Energy to Mexico: PP–68–A

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of application by San Diego Gas & Electric Company (SDG&E) for authority to export electric energy to Mexico.

SUMMARY: SDG&E has applied to the Department of Energy (DOE) for authority to export electric energy to the Comision Federal de Electricidad, Baja, California, Norte (CFE), pursuant to Section 202(e) of the Federal Power Act and Presidential Permit PP 68 that has been issued to SDG&E.

FOR FURTHER INFORMATION CONTACT:

James M. Brown, Jr., Division of Power Supply and Reliability, Department of Energy, Room 4110, 2000 M Street, N.W., Washington, D.C. 20461 (202) 653–3825

Lise Courtney Howe, Office of General Counsel, Department of Energy, Room 5E–064, Forrestal Bldg., 1000 Independence Avenue, S.W., Washington, D.C. 20585 (202) 252–2900

SUPPLEMENTARY INFORMATION: On December 30, 1980, SDG&E filed an application with the Division of Power Supply and Reliability of the Department of Energy (DOE) pursuant to Section 202(e) of the Federal Power Act for authority to transmit electric energy to Mexico.

The Interconnection and Exchange Agreement (Agreement) between SDG&E and CFE, a copy of which was submitted as Exhibit A of its application, provides for the sale of non-emergency capacity and/or energy and emergency assistance to CFE. SDG&E has full discretion, under the terms of the Agreement, to sell non-emergency capacity and/or energy to the CFE. In addition, the sale of emergency assistance energy is conditional; the Agreement provides that "* * * such supply will not result in impairment or serious hazard to service in the system of the Supplier * * *." According to SDG&E, this Agreement gives it the same discretion to protect its own system from adverse impacts on its system reliability, system stability, or sufficiency of electric supply as it has in its electricity sales agreements with other U.S. utilities.

SDG&E notes that the exporting of electric energy will increase the quantity of fuel being consumed during the periods of actual energy export. However, SDG&E intends any such energy export to be part of a program of mutual benefit between CFE and itself. Due to the nature of the two systems, SDG&E expects that its total exports of electric energy to CFE will not exceed its total imports from CFE. In fact, according to SDG&E, the opportunity exists to decrease its total fuel oil requirements, as well as to slightly improve its system reliability by means of interconnecting its operations with CFE. This is described in the joint study between SDG&E and CFE, which was previously submitted to DOE and to the California Public Utility Commission in connection with SDG&E's application for a Presidential Permit (PP–68).

On November 8, 1979, SDG&E applied pursuant to Executive Order No. 10485, as amended by Executive Order No. 12038, for a Permit to construct, connect, operate and maintain an international interconnection at a point on the United States-Mexican border, approximately ten miles south of the SDG&E Miguel substation. SDG&E proposes to export electric energy to Mexico via this 230-kilovolt overhead transmission line. The line will interconnect with a similar transmission line owned and operated by CFE at the CFE Tijuana substation.

Upon consideration of the latter application, it was found that the issuance of the Presidential Permit was appropriate and consistent with the public interest. Accordingly, the Permit was issued on January 12, 1981, authorizing SDG&E to construct, connect, operate and maintain an electric transmission facility at the United States-Mexican border.

Any person desiring to be heard, or to protest this application to export electric energy, should file a petition to intervene or protest with the Director, Division of Power Supply and Reliability, Room 4103, 2000 M Street, N.W., Washington, D.C. 20461, in accordance with § 1.8 or 1.10 of the Rules of Practice and Procedure (18 CFR 1.8 and 1.10).

Any such petitions and protests should be filed on or before March 30, 1981. Protests will be considered by the DOE in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are

on file with DOE and will, upon request, be made available for public inspection and copying by the Division of Power Supply and Reliability, Room 4103, 2000 M Street, N.W., Washington, D.C.

Dated: March 12, 1981.

Howard F. Perry,

Acting Assistant Administrator for Utility Systems, Department of Energy.

[FR Doc. 81-8380 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Issuance of Presidential Permit, PP–70, for 12 kV International Interconnection to Minnkota Power Cooperative, Inc.

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of issuance of Presidential permit, PP–70, for 12 kilovolt (kV) international interconnection to Minnkota Power Cooperative, Inc.

SUMMARY: The Department of Energy (DOE) gives notice of the issuance of a Presidential Permit, PP–70, to Minnkota Power Cooperative, Inc., for a 12 kV International Interconnection at the United States-Canadian Border.

FOR FURTHER INFORMATION CONTACT:

James M. Brown, Jr., Division of Power Supply and Reliability, Department of Energy, Room 4110, 2000 M Street, N.W., Washington, D.C. 20461 (202) 653–3825.

Lise Courtney Howe, Office of General Counsel, Department of Energy, Room 5E–064, Forrestal Bldg., 1000 Independence Avenue, S.W., Washington, D.C. 20585 (202) 252–2900.

SUPPLEMENTARY INFORMATION: On June 13, 1979, the Minnkota Power Cooperative, Inc., applied for authorization, pursuant to the Executive Order No. 10485, as amended by Executive Order No. 12038, to construct, connect, operate and maintain an international interconnection at the United States-Canadian border, in the Minnesota Northwest Angle State Forest. The proposed 12 kilovolt transmission line, approximately 75 feet in length, would connect a similar transmission line owned by the Manitoba Hydro-Electric Board to an underground cable owned by the Roseau Electric Cooperative in the Minnesota Northwest Angle State Forest.

The Department of Interior, Bureau of Indian Affairs (BIA), conducted an environmental review of the proposed route because certain significant portions of the project are located on Indian lands in the Northwest Angle State Forest. The BIA made a negative determination of the environmental impacts. On September 5, 1980, the Department of Energy (DOE) adopted the negative determination of environmental impacts made by the BIA.

The Secretary of State by letter dated October 27, 1980, and the Secretary of Defense by letter dated October 14, 1980, favorably recommended that the Permit be granted.

Upon consideration of the matter, the DOE found that issuance of the Permit was appropriate and consistent with the public interest. Accordingly, the Permit was issued on November 10, 1980, authorizing the Minnkota Power Cooperative, Inc., to construct, connect, operate and maintain an electric transmission facility at the U.S.-Canadian border. The Permit was accepted and executed by the Board of Directors of Minnkota Power Cooperative on December 19, 1980, and an executed copy of the Permit returned to the DOE on January 12, 1981.

Copies of the Order are on file with the Division of Power Supply and Reliability and will, upon request, be made available for public inspection and copying at Room 4103, 2000 M Street, N.W., Washington, D.C.

Issued in Washington, D.C., March 12, 1981.

Howard F. Perry,

Acting Assistant Administrator for Utility Systems, Department of Energy.

[FR Doc. 81-8379 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Issuance of Presidential Permit PP–69 to Vermont Electric Cooperative, Inc.

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of issuance of Presidential permit PP–69 authorizing Vermont Electric Cooperative, Inc. (VEC), to operate and maintain electric transmission facilities at the international border between the United States and Canada.

SUMMARY: On October 9, 1980, the Department of Energy (DOE) authorized the VEC to operate and maintain electric transmission facilities at the international border between the United States and Canada. This Permit (No. PP 69) superseded the prior authorization, issued in 1945 to the International Electric Company, which sold the facilities to the VEC in 1970.

FOR FURTHER INFORMATION CONTACT:

James M. Brown, Jr., Division of Power Supply & Reliability, Department of Energy, Room 4110, 2000 M Street, NW., Washington, D.C. 20461, (202) 653–3825.

Lise Courtney M. Howe, Office of the General Counsel, Department of Energy, Forrestal Building, Room 5E–064, 1000 Independence Ave., SW., Washington, D.C. 20585, (202) 252–2900.

SUPPLEMENTARY INFORMATION: On October 4, 1945, President Harry S. Truman signed Presidential Permit No. PP–9 authorizing the International Electric Company (IEC), a subsidiary of the Southern Canada Power Company, to construct, operate and maintain certain electric transmission facilities at the United States/Canada border. This authorization was for a total of five three-phase electric power lines and three single-phase electric power lines.

In February 1979, the DOE staff learned that the VEC had in service several electric power facilities crossing the United States/Canada border. From communications with the VEC staff, it was determined that in 1970 the VEC had purchased all of the U.S. facilities of the International Electric Company, including those lines authorized pursuant to Presidential Permit No. PP–9. This purchase occurred despite a restriction in Article 9 of the Permit prohibiting the transfer of the facilities. In 1970 the VEC also constructed a new distribution structure for its own use at Derby Line, Vermont; and in the fall of 1977, it made several changes in the transformers and structures to accommodate a change by Hydro Quebec (the successor organization to the Southern Canada Power Company) in the line voltage from 46 kV to 24.95 kV.

It appeared to the DOE staff that the VEC's violations—*viz*, the unauthorized purchase of the facilities, and the structural changes—were due to a lack of knowledge of Executive Order No. 10485, which requires a Presidential Permit for any international electric interconnection. This conclusion was supported by the expeditious submission by VEC of an application for a Presidential Permit on April 26, 1979.

The Secretary of State and the Secretary of Defense favorably recommended that this Permit be granted. Upon consideration of this matter, the DOE found that the issuance of the Permit was appropriate and consistent with the public interest. Accordingly, the Presidential Permit was issued on October 9, 1980.

The Permit then was accepted by the Vermont Electric Cooperative on October 28, 1980, and a copy of that

Testimony of Acceptance was returned to DOE on November 7, 1980.

Copies of the Permit are on file with the Department of Energy and will, upon request, be made available for public inspection and copying by the Division of Power Supply and Reliability, Room 4103, 2000 M Street, NW., Washington, D.C.

Issued in Washington, D.C., March 12, 1981.

Howard F. Perry,

Acting Assistant Administrator for Utility Systems, Department of Energy.

[FR Doc. 81-8381 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-01-M

Proposed Modification of Duration of Orders Granting Temporary Public Interest Exemptions for Use of Natural Gas by Existing Powerplants Under the Powerplant and Industrial Fuel Use Act of 1978

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of proposed modification extending duration of orders granting special temporary public interest exemptions.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) proposes to extend the duration of the Orders issued to the petitioners listed below for a period of time sufficient to allow construction of natural gas pipeline interconnections, necessary payback periods, plus an additional 18 months.

Petitioner/generating station	Identification	Original expiration date
City of Detroit (Mistersky).	#5, 6 & 7	Dec. 7, 1981.
Florida Power & Light Co. (Putnam).	CC 1 & 2	Do.
Jacksonville Electric Authority (Northside).	#1, 2 & 3	Do.
Virginia Electric & Power Co. (Yorktown).	#3	Do.

A copy of the proposed modification has been sent by certified mail to each petitioner.

Each of the above listed petitioners was issued an Order granting a temporary public interest exemption pursuant to section 311(e) of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act), 10 CFR 501.68 and 10 CFR Part 508. In each instance, the powerplants listed above are either prohibited by section 301(a)(2) of FUA from using natural gas as a primary energy source or are prohibited from using natural gas as a primary energy source in excess of the average base year proportion allowed in section 301(a)(3) of the Act. The Order granting the temporary exemption allows the powerplants to burn natural gas, notwithstanding the prohibitions of section 301(a) (2) and (3) of FUA, to displace consumption of high sulfur residual fuel oil.

SUPPLEMENTARY INFORMATION: On April 9, 1979, ERA issued a final rule implementing section 311(e) of FUA. This final rule, 10 CFR Part 508 (44 FR 21230, April 9, 1979) sets forth the policy ERA has adopted in implementing section 311(e) of FUA, and the eligibility standards which petitioners for the temporary exemption must meet.

ERA published Orders in the **Federal Register** granting temporary public interest exemptions to Putnam CC 1 & 2; Northside #1, 2 & 3; and Yorktown #3 on October 16, 1980, (45 FR 68714), and to Misteraky #5, 6 & 7 on October 17, 1980, (45 FR 69006). The temporary exemptions permit the existing electric powerplants to use natural gas as a primary energy source in excess of the amounts which are permitted by section 301(a) (2) and (3) of FUA. The use of natural gas permitted under the temporary exemptions was to displace the burning of high sulfur residual fuel oil in the existing powerplants.

ERA has been informed that each of the above listed petitioners has been unable to utilize natural gas pursuant to the granted temporary exemption because there is no natural gas interconnection to these powerplants. Before a petitioner can commit to the construction of the interconnection it must have assurance that it will be able to utilize the natural gas for a period of sufficient length to recover the capital expense of installing the pipeline and accrue some economic benefit for its customers. Therefore, ERA proposes to extend the duration of the Orders, for a period of time covering construction of natural gas pipeline interconnections, payback periods, plus an additional 18 months. If ERA issues modified orders extending the duration of the temporary exemptions, the expiration date of such extension will be listed for each petitioner in the modified Order.

Without this extension, the issued Orders will have no practical effect in promoting ERA's policy set forth in 10 CFR Part 508 (Exemption for Use of Natural Gas by Existing Powerplants Under the Powerplant and Industrial Fuel Use Act of 1978, April 9, 1979, 44 FR 21230, hereafter referred to as the Special Rule). In the Special Rule, ERA determined that to the extent that the near term choice for certain existing powerplants is limited to petroleum or natural gas, generally, the use of natural gas is preferred. The increased use of natural gas helps to reduce the Nation's short-term oil consumption and the demand for imported oil. This decreased consumption of imported oil helps the Nation's balance of payments and domestic inflation rate.

There are presently surplus quantities of natural gas available for short term contracts to displace fuel oil. The general natural gas supply and demand picture also looks more encouraging for the near future than it has in the recent past. ERA believes this additional displacement of fuel oil will have minimal impact on refineries serving the regions wherein these powerplants are located.

The duration of the exemptions may be extended upon request of the petitioners for an additional period at the discretion of ERA. However, the temporary public interest exemption, including all extensions and the period during which the petitioners were allowed to burn natural gas while their petitions were pending may not exceed the lesser of the maximum 5-year period authorized by the Act, or extend beyond June 30, 1985.

In addition, these modifications would not relieve the existing powerplants from compliance with any pertinent rules or regulations concerning the acquisition or the distribution of natural gas that are administered by the Federal Energy Regulatory Commission or any pertinent State regulatory agency or from any public utility obligation to pertinent categories of customers.

Comments

ERA is publishing this notice of proposed modification, to invite interested persons to submit written comments. In addition, any interested person may request that a public hearing be convened in regard to this proposed modification.

Dates

Written comments relating to the proposed modification are due on or before May 4, 1981. A request for a public hearing may be made by any interested person within this same 45 day period.

Addresses

Requests for a public hearing and/or 10 copies of written comments shall be submitted to: Department of Energy, Case Control Unit, Box 4629, Room 3214, 2000 M Street, N.W., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

BILLING CODE 6450-01-M

Windham Gas & Oil Co.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on consent order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

DATES: Effective February 10, 1981. Comments by: April 20, 1981.

ADDRESS: Send comments to: Edward F. Momorella, District Manager of Enforcement, Northeast District, Department of Energy, 1421 Cherry Street, Philadelphia, Pennsylvania 19102.

FOR FURTHER INFORMATION CONTACT: Joseph B. Connolly, Audit Director, Office of Enforcement, Suite 260, 7 Parkway Center, Pittsburgh, Pennsylvania 15220.

SUPPLEMENTARY INFORMATION: On February 10, 1981, the Office of Enforcement of the ERA executed a Consent Order with Windham Gas and Oil Company of Windham, Ohio. Under 10 CFR Section 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution.

I. The Consent Order

Windham Gas and Oil Company, with its home office located in Windham, Ohio, is a firm engaged in the sale of motor gasoline and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR, Part 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Windham, the Office of Enforcement of the ERA, and Windham have entered into a Consent Order, the significant terms of which are as follows:

1. Windham has agreed to refund a total of $36,000 and interest thereon from December 31, 1980 and in four (4) equal installments beginning 10 days after the execution of the Consent Order which occurred on February 10, 1981 in full settlement of overcharges alleged by the DOE for the period March 1, 1979 to August 31, 1979.

2. Windham has agreed to pay a civil penalty of $3,000.

3. The provisions of 10 CFR 205.199J are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Windham agreed to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of $36,000, together with interest. Refund of those overcharges will be in the form of certified check(s) made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system it is likely that overcharges have been passed through as higher prices to subsequent purchasers. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. *Potential Claimants:* Interested persons who believe that they have a claim to all or a portion of the refund amount specified in I.1. above, should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim with the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of the Consent Order. Such comments will be considered solely in connection with DOE's right to rescind or modify the Consent Order upon the discovery of new evidence or upon petition by Windham.

You should send your comments or written notification of a claim to Edward F. Momorella, District Manager of Enforcement, Northeast District, Department of Energy, 1421 Cherry Street, Philadelphia, Pennsylvania 19102. You may obtain a free copy of this Consent Order by writing to the same address or by calling (215) 597-2633. You should identify your comments on the outside of the envelope and on the documents you submit with the designation, "Comments on Windham Gas and Oil Company Consent Order." We will consider all comments which are pertinent as described above and which we receive by 4:30 p.m., Eastern Standard Time, on April 20, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Philadelphia, Pennsylvania on the 23rd day of February 1981.

Edward F. Momorella,

District Manager, Northeast District.

Upjohn Co.; Powerplant and Industrial Fuel Use, Prohibition Orders

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Order Granting Exemption from the Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: Pursuant to the provisions of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 *et seq.*) (FUA or the Act) the Economic Regulatory Administration (ERA) of the Department of Energy, in response to a petition filed by the Upjohn Company (Upjohn) on November 17, 1980, hereby grants to Upjohn, subject to the terms and conditions specified herein, the following exemption from the prohibitions of Title II of FUA:

For a major fuel burning installation (MFBI), designated as boiler No. 8 by Upjohn, installed at Upjohn's Portage Road Plant in Kalamazoo, Michigan, a permanent exemption for lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum, as authorized by section 212(a) of the Act and 10 CFR 503.32(c) (45 FR 38315, June 6, 1980).

In accordance with section 702(a) of FUA, this order shall take effect on May 18, 1981.

Constance L. Buckley, Chief, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, 2000 M Street NW., Room 3128, Washington, D.C. 20461, phone (202) 653-4226.

Robert Goodie, Case Manager, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, 2000 M Street NW., Room 3128, Washington, D.C. 20461, phone (202) 653-4228.

Allan J. Stein, Office of the General Counsel, Department of Energy, Forrestal Building, Room 6B-178; 1000 Independence Avenue SW., Washington, D.C. 20585, phone (202) 252-2967.

The public file containing a copy of this order and other documents and supporting materials on this proceeding is avilable for inspection upon request at: ERA, Room B-110, 2000 M Street, NW., Washington, D.C. Monday through Friday, 8:00 a.m.—4:30 p.m.

SUPPLEMENTARY INFORMATION: Title II of FUA prohibits the use of natural gas or petroleum as a primary energy source in new major fuel burning installations (MFBI's) consisting of a boiler unless an exemption for such use has been granted by ERA. Procedures and criteria for petitioning for exemptions from the prohibitions of FUA are contained in 10 CFR Parts 500 and 501 and 10 CFR Part 503, published on June 6, 1980, at 45 FR 38276 and 38302 respectively.

Under the authority of section 212(a) of the Act, 10 CFR 503.32 sets forth eligibility criteria and evidentiary requirements for a permanent exemption for lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum. In lieu of the evidentiary requirements of 10 CFR 503.32(b), a certification alternative under 10 CFR 503.32(c) is available for MFBI's which will be operated less than 600 hours at full load, or equivalent, on an annual basis. Upjohn petitioned ERA under the provisions of 10 CFR 503.32(c) for a permanent exemption for its boiler No. 8. Boiler No. 8 has a design heat input rate of 150 million Btu's per hour and is capable of burning residual fuel oil and natural gas. As stated by Upjohn, the boiler will be used to supply steam as a backup for the seven existing boilers at the Portage Road plant.

In accordance with the procedural requirements of FUA and 10 CFR 501.3(d), ERA published notice of its acceptance of Upjohn's petition in the **Federal Register** on December 11, 1980, at 45 FR 81649. The Notice of Acceptance provided a 45-day comment period during which interested persons could submit written comments on the petition for exemption and could request a public hearing. This period expired on January 26, 1981. No comments were received nor was a public hearing requested.

Upon reaching a tentative determination that the certifications made by Upjohn in its petition fulfilled the requirements of 10 CFR 503.32(c), the ERA staff completed a Tentative Staff Analysis which recommended that the exemption requested by Upjohn be granted. A Notice of Availability of the Tentative Staff Analysis was published in the **Federal Register** on February 17, 1981, at 46 FR 12536. A 14-day comment period for interested persons to submit written comments on the Tentative Staff Analysis, or to request a public hearing, was provided. The period expired on March 3, 1981. No comments were received nor was a public hearing requested.

As required by section 701 (f) and (g) of the Act, ERA provided a copy of Upjohn's petition to the Environmental Protection Agency and the Federal Trade Commission for their comment. Written comment was received from the Acting Regional Administrator, Region V, Environmental Protection Agency (EPA), which addressed the environmental permits granted by EPA to Upjohn for boiler No. 8, and indicated that the limited operation of the unit under the exemption was not expected to result in any undesirable impacts upon National Ambient Air Quality Standards and Prevention of Significant deterioration increments. No comments were received from the Federal Trade Commission.

Decision and Order: Based upon review of the entire record of this proceeding, ERA has determined that Upjohn has satisfied the certification requirements of 10 CFR 503.32(c). Therefore, pursuant to section 212(a) of the Act, and subject to the terms and

conditions stated below, ERA hereby grants Upjohn a permanent exemption from the prohibitions of Title II of FUA for boiler No. 8 installed at Upjohn's Portage Road Plant, Kalamazoo, Michigan.

Terms and Conditions: Section 214(a) of FUA authorizes ERA to attach terms and conditions to any order granting an exemption which are appropriate and consistent with the purposes of the Act. By petitioning for an exemption under the provisions of 10 CFR 503.32(c), Upjohn, in accordance with 10 CFR 503.32(d), agreed, upon grant of such exemption, to the terms and conditions specified in 10 CFR 503.32(d). Accordingly, such terms and conditions, as enumerated below, are attached to this order granting the requested exemption.

(1) Boiler No. 8 will be operated less than 600 hours annually at its maximum design heat input rate or equivalent. Based upon the boiler's design fuel heat input rate of 150 million Btu's per hour x 600 hours, the amount of natural gas and petroleum consumed in boiler No. 8 under the provisions of this exemption shall not, in the aggregate, exceed 90 billion Btu's annually.

(2) The quality of any petroleum to be burned in boiler No. 8 will be the lowest grade available, technically feasible, and capable of being burned consistent with applicable environmental requirements.

(3) Upjohn shall report annually the hours of use, the total amount of fuels consumed, and the total Btu value of such fuels, for boiler No. 8 in the previous calendar year. The report, to be executed by a duly authorized representative of Upjohn, shall be filed with ERA at the address provided below not later than January 31 of each following year and shall be in the following format:

Hours of operation	Annual fuel consumption				
	Natural gas		Petroleum		
	Mcf	Btu value	Grade	Bbls	Btu value

(4) Upjohn will, prior to operating boiler No. 8 under the provisions of this exemption, secure all applicable environmental permits and approvals pursuant to, but not limited to, the following: Clean Air Act, Clean Water Act, Rivers and Harbors Act, Coastal Zone Management Act and the Resource Conservation and Recovery Act.

Reports required under this order shall be sent to: Economic Regulatory Administration, Case Control Unit (Fuel Use Act), Box 4629, Room 3214, 2000 M Street NW., Washington, D.C. 20461.

OFC Case Number 57001–9020–08–12 shall be cited on each report filed with ERA pursuant to this order.

On August 11, 1980, DOE published in the Federal Register (45 FR 53199) a notice of proposed amendments to guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the guidelines, the granting or denial of certain FUA permanent exemptions, including the permanent exemption by certification for lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum for a MFBI that will be operated less than 600 hours annually at full load or equivalent, were identified as classes of actions which normally do not require the preparation of an Environmental Impact Statement or an Environmental Assessment.

This classification raises a rebuttable presumption that the granting or denial of the exemption will not significantly affect the quality of the human environment. Upjohn has certified that it will secure all applicable permits and approvals prior to commencement of operation of the unit under exemption. The Environmental Checklist completed and certified to by Upjohn pursuant to 10 CFR 503.15(b) has been reviewed by DOE's Office of Environment, with consultation from the Office of the General Counsel, and it has been determined that Upjohn's responses to the questions therein indicate that the operation of boiler No. 8 under this exemption will have no impact on those areas regulated by specified laws that impose consultation requirements on DOE, and otherwise affirms the applicability of the categorical exclusion to this FUA action. As no comments were received during the proceeding on Upjohn's petition which raised questions regarding the application of the categorical exclusion in this instance, no additional environmental review is deemed to be required.

Effectiveness of Order: The exemption granted by this order shall become effective on May 18, 1981.

Judicial Review: Pursuant to section 702(c) of the Act, any person aggrieved by this order may at any time before May 18, 1981, petition for judicial review in accordance with 10 CFR 501.89.

Issued in Washington, D.C. on March 13, 1981.

Robert L. Davies,

Assistant Administrator, Office of Fuels Conversion, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 3916-000]

Richard L. Bean and Fred G. Castagna; Application for Preliminary Permit

March 16, 1981.

Take notice that Richard L. Bean and Fred G. Castagna (Applicants) filed on December 29, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3916 to be known as Deep Creek located on Deep Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicants should be directed to: R. L. Bean and F. G. Castagna, 741 Baker Road Redding, California 96003. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a diversion structure; (2) a penstock; (3) a powerhouse containing a 4,500–kW generating unit; and (4) a transmission line.

The Applicant estimates that the average annual energy output would be 36,000,000 kWh.

Purpose of Project—The power generated by the proposed project would be sold to the Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies under Permit—The Applicant seeks issuance of a preliminary permit for a period of 24 months, during which it would make geographic studies; prepare an environmental report; study the economic and financial feasibility; and apply for the necessary permits. The Applicant estimates the cost of these studies to be $120,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary

studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing for the Commission are invited to submit comments on the described application for preliminary permits. (A copy of the application may be obtained directly from the Applicant.) Comments should confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before *May 13, 1981*, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than *July 13, 1981*. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", OR "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3916. Any comments, notices of intent, competing applications, protest, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Banch, Division of Hydropower Licensing, Federal Enery Regulatory Commission, Room 208, 400 First Street, N.W., Washinton, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8458 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3823-000]

Continental Hydro Corp.; Application for Preliminary Permit

March 16, 1981.

Take notice that Continental Hydro Corporation (Applicant) filed on December 4, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3823 to be known as the Corbett Diversion Dam located at the Water and Power Resources Services Corbett Diversion Dam on the Shoshone River in Park County, Wyoming. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. A. Gail Staker, 141 Milk Street, Suite 1143, Boston, Massachusetts 02109. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing dam owned by the Water and Power Resources Service. Applicant's facilities would be located on U.S. lands. Project No. 3823 would consist of: (1) a proposed powerhouse, located at the south end of the existing dam, that would contain generating units having a total installed capacity of 600 kW; (2) proposed transmission lines; and (3) appurtenant facilities. The Applicant estimates the average annual energy output for the project to be 4,800 MWh.

Purpose of Project—The applicant proposes to sell the energy produced at the project to the Pacific Power and Light Company and other public institutions or industrial users.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 36 months. During that time he would perform engineering, economic, and environmental studies to determine the feasibility of the project. In addition, he would apply for DOE funds, consult with Federal, State, and local government agencies concerning the potential environmental effects of the project, and prepare an application for FERC license. The Applicant estimates the cost of the studies under the permit would be approximately $40,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for the power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 15, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 14, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the

Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be filed on or before May 15, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE" as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3823. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First St., NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.
